Dear Consumer:

Re: Complaint # **10-C00246969-1**

This letter is in response to your complaint filed with the Federal Communications Commission (FCC). We are reviewing your complaint and will contact you if any further information is needed. Thank you for filing.

For your convenience, a copy of your complaint information has been attached for your records. Please note that if your complaint was transferred to a different form, other than the one on which it was originally captured, copies of both forms will be attached. Please use the complaint number referenced above in lieu of any previously provided complaint number.

If you have further questions please feel free to visit the Consumer & Governmental Affairs Bureaus website at www.fcc.gov/cgb or call us at 1-888-CALL-FCC (1-888-225-5322) voice; 1-888-TELL-FCC (1-888-835-5322) TTY.

Sincerely,

Sharon C. Bowers, Acting Division Chief
Consumer Inquiries & Complaints Division
Consumer & Governmental Affairs Bureau

E-mail Address: **michaelboyd@sbcglobal.net**

*** * * ANSWER EACH QUESTION THAT APPLIES TO YOUR SPECIFIC COMPLAINT * * ***

1. Type of company that is the subject of your complaint:

, **Other**

2. Please provide the details of your complaint, including the dates, times and nature of any conduct or activity complained of and identifying information of any companies, institutions or individuals involved:

a. Date (mm/dd/yyyy): **09/09/2010 18:30:00:PM**
b. Name of company or individual: **PG&E and CPUC**
c. Details of the activity or conduct that form the basis for your complaint: **I wish to file a complaint against Pacific Gas and Electric Company (PG&E) and the California Public Utilities Commission (CPUC) for allowing PG&E to install 5.5 million SmartMeters in its California territories that do not meet FCC regulations 47CFR15.5 b)"Operation of an intentional, unintentional, or incidental radiator is subject to the conditions that no harmful interference is caused and that interference must be accepted that may be caused by the operation of an authorized radio station, by another intentional or unintentional radiator, by industrial, scientific and medical (ISM) equipment, or by an incidental radiator". 1,378 electric SmartMeter complaints have been filed with the CPUC without any actions to stop and on September 9, 2010 a PG&E gas line ruptured and a towering fireball roared through a San Bruno neighborhood, killing four people, and officials have yet to determine what led to a blast. I allege EMF from PG&E's SmartMeters created the ignition source.**
