TABLE OF CONTENTS

1.0 GENERAL PROVISIONS 1
2.0 SUMMARY OF SETTLEMENT 2
3.1 WATER CUSTOMER, CONSUMPTION AND REVENUES 3
3.2 Average Number of Customers 3
3.2.1 Larkfield 4
3.2.2 Los Angeles County 4
3.2.3 Monterey Toro 5
3.2.4 Monterey Garrapata 5
3.2.5 Monterey County 6
3.2.6 Monterey Wastewater 6
3.2.7 Sacramento 7
3.2.8 San Diego County 7
3.2.9 Ventura County 8
3.3 Consumption 8
3.3.1 Larkfield Total Water Consumption Per Customer 9
3.3.2 Larkfield Total Water Consumption 9
3.3.3 Los Angeles County Total Water Consumption Per Customer 9
3.3.4 Los Angeles County Total Water Consumption 10
3.3.5 Monterey Toro Water Consumption Per Customer 11
3.3.6 Monterey Toro Total Water Consumption 11
3.3.7 Monterey Garrapata Water Consumption Per Customer 11
3.3.8 Monterey Garrapata Total Water Consumption 11
3.3.9 Monterey County Water Consumption Per Customer 12
3.3.10 Monterey County Total Water Consumption 13
3.3.11 Sacramento Water Consumption Per Customer 14
3.3.12 Sacramento Total Water Consumption 14
3.3.13 San Diego County Water Consumption Per Customer 14
3.3.14 San Diego County Total Water Consumption 15
3.3.15 Ventura County Water Consumption Per Customer 15
3.3.16 Ventura County Total Water Consumption 15
3.4 Non-Revenue Water 16

3.4.1 Monterey Non-Revenue Water Loss Penalty/Reward Program 16
3.5 Special Fees Revenue 18
3.6 Operating Revenues 19
4.1 RATE BASE 31
4.2 Average Utility Plant in Service 31
4.3 Construction Work In Progress (CWIP) 34
4.4 Materials and Supplies 34
4.5 Working Cash Operational 35
4.6 Working Cash - Lead Lag 36
4.7 Accumulated Depreciation 36
4.8 Advances for Construction. 37
4.9 Contributions in Aid of Construction (CIAC) 38
4.10 Deferred Income Taxes 38
4.11 Unamortized Advances and Contributions 39
4.12 Rate Base by District and Cal Corp 40
4.13 Average Plant Weighting Factors 43
5.1 TORO 43
5.2 Revenues and Customers 43
5.3 Operating Expenses 45
5.4 Rate Base and Capital Expenditures. 46
6.1 GARRAPATA 48
6.2 Revenues and Customers 49
6.3 Operating Expenses 50
6.4 Rate Base and Capital Expenditures. 51
7.1 CAW COMPANY EXPENSES 54
7.2 Overview of Settlement Discussion of Expenses 54
7.2.1 Labor Expense 54
7.2.2 Pension Expense 56
7.2.3 Group Insurance 56
7.2.4 Post-retirement Benefits (OPEB) 57
7.2.5 Insurance Other Than Group 58
7.2.6 Rate Case Expense 59
7.2.7 Postage Expense 60
7.2.8 Escalation 61
8.1 CAW CORPORATE 62

8.2 Overview 62
8.2.1 Depreciation Expense on Cal Corp Utility Plant 62
8.2.2 Return on Cal Corp Rate Base 63
8.2.3 Other Employee Benefits 64
8.2.4 Other Operating Expenses Cal Corp 65
9.0 SERVICE COMPANY EXPENSES 66
10.1 REVENUES AND RATE DESIGN 67
10.2 Revenues 67
10.2.1 Calculation of Present and Proposed Revenues for Results of Operation Purposes 67
10.2.2 Presentation of Relationship Between Percent of Revenue to Percent of Consumption in Each Customer Classification 68
10.2.3 Presentation of Percentage of Revenues Collected Through Meter Charges 68
10.2.4 Monterey Free Water Use Customers 69
10.3 Rate Design 69
10.3.1 Proposed General Metered Rate Designs for All Water Districts Except Monterey Main System and Sacramento 69
10.3.2 Proposed General Metered Rate Design & WRAM/MCBA for Sacramento 70
10.3.3 Proposed General Metered Rate Design for Monterey, Excluding Mixed-use Customers 70
10.3.4 Proposed Rate Design for Monterey Mixed-Use Customers 71
10.3.5 Proposed Low Income Discount Modification 72
10.3.6 Chualar and Ralph Lane 73
11.1 ESCALATION AND ATTRITION. 73

19.8.3 Resolution 133
20.0 CUSTOMER SERVICE 135
21.1 SPECIAL REQUESTS 138
21.2 Special Request #1: Recover Balance in Interim Rate Memo Account Using Either the Proposed Rates requested in Application or Modified Surcharge that Accounts for Collection Lag. 138
21.3 Special Request #2: Accrue interest in the WRAM/MCBA Balancing Account using the Approved Cost of Long-Term Debt. 138
21.4 Special Request #3: MTBE Contamination Proceeds. 139
21.5 Special Request #4: Recovery of the Low Income Program Costs. 139
21.6 Special Request #5: Establish a Connection Fee for All Areas in All Districts. 141
21.7 Special Request #6: New Tariff with List of all "Special Fees". 142
21.8 Special Request #7: Memorandum Account to Track Costs related to Limiting Chromium 6 in Drinking Water. 143
21.9 Special Request #8: After-Hours Activation Charge Increase 143
21.10 Special Request #9: Authorization for a New Late Payment Fee. 144
21.11 Special Request #10: Authorization to Consolidate Private Fire Hydrant and Private Fire Service Tariffs into a Single Tariff 144
21.12 Special Request #11: Establish a Group Insurance Balancing Account. 145
21.13 Special Request #12: Authorization to Recover Leak Adjustments as Part of General Metered Rates. 146
21.14 Special Request #13: Authorization to Increase the Authorized per Acre Foot of Delivered Water Produced at the Sand City Desalination Plant. 146
21.15 Special Request #14: Authorization to Consolidate the Larkfield and Sacramento Districts for Ratemaking Purposes. 147
21.16 Special Request #15: Authorization to Consolidate the Fixed Costs for the Los Angeles County, San Diego County, and Ventura County Districts for Ratemaking Purposes. 147
21.17 Special Request #16: Authorization to Implement a Consumption Adjustment Mechanism.....148
21.18 Special Request #17: Authorization to Recover Rate Case Expense on a Specific Annual Amount. 148
21.19 Special Request #18: Authorization to Establish State Water Resources Control Board Cease and Desist Order Memorandum Account. 149
21.20 Special Request #19: Authorization to Continue Monterey County District Rationing Memorandum Account. 149

21.21 Special Request #20: Authorization to Combine Multiple General Metered Services to a Single Residential Structure into a Single Consolidated Bill 150

21.22 Special Request #21: Clarify how Compound and Multiple Meters Should be Billed 151

21.23 Special Request #22: Increase the Net Salvage Factor for Los Padres Dam Removal. 151

21.24 Reserved 152

21.25 Special Request #24: Authorization of a Metered Construction Tariff for All Districts 152

21.26 Special Request #25: Authorization to Eliminate the Duarte Irrigation Tariff and Transfer Irrigation Customers to Commercial Tariffs 153

21.27 Special Request #26: Remove the "Pilot" Designation for CAW's Conservation Programs 153

21.28 Special Request #27: Authorization to Move All Wastewater Customers to Monthly Billing. 154

21.29 Special Request #28: Authorization to Consolidate all Monterey Small Water Systems for Ratemaking and Billing Purposes. 154

21.30 Special Request #29: Authorization to Recover All Current Memorandum and Balancing Accounts 155

21.30.1 Special Request 29-1: Global Agreement 155

21.30.2 Special Request 29-2: National Oceanic and Atmospheric Endangered Species Act (NOAA/ESA) 156

21.30.3 Special Request 29-3: Credit Card Memorandum Account 156

21.30.4 Special Request 29-4: Endangered Species Act ("ESA") Memorandum Account 157

21.30.5 Special Request 29-5: Monterey Peninsula Water Management District (MPWMD) Conservation Balancing Account 158

21.30.6 Special Request 29-6: Low-Income Ratepayer Assistance (LIRA) Program Memorandum Account 159

21.30.7 Special Request 29-7: Low-Income Customer Data Sharing Memorandum Account 160

21.30.8 Special Request 29-8: CAW Conservation Surcharge ("CAWCS") 161

21.30.9 Special Request 29-9: Water Contamination Litigation Expense Memorandum Account 162

21.30.10 Special Request 29-10: Catastrophic Event Memorandum Account (CEMA) 163

21.30.11 Special Request 29-11: Temporary Interest Rate Balancing

Account (TIRBA) 163

21.30.12 Special Request 29-12: Seaside Basin Adjudication Balancing Account 164

21.30.13 Special Request 29-13: Seaside Groundwater Basin Memorandum Account 165

21.30.14 Special Request 29-14: Seaside Groundwater Basin Balancing Account ("SGBA") 165

21.30.15 Special Request 29-15: Monterey Peninsula Water Management District (MPWMD) Balancing Account 166

21.30.16 Special Request 29-16: Pension Balancing Account ("PBA") 167

21.30.17 Special Request 29-17: Other Post-Employment Benefits (OPEB) Balancing Account 168

21.30.18 Special Request 29-18: Operational Energy Efficiency Program ("OEEP") Memorandum Account 169

21.30.19 Special Request 29-19: Old Monterey Style Water Revenue Adjustment Mechanism ("Old WRAM") Balancing Account 170

21.30.20 Special Request 29-20: Emergency Rationing Costs Incurred by CAW Memorandum Account 171

21.30.21 Special Request 29-21: Purchased Water, Purchased Power and Pump Tax Expense Balancing Account 171

21.30.22 Special Request 29-22: Cease and Desist Order ("CDO") Memorandum Account 172

21.30.23 Special Request 29-23: Water Quality Memorandum Account ("WQMA") 173

21.30.24 Special Request 29-24: Pressure Reducing Valve Modernization and Energy Recovery Memorandum Account ("PRVMA") 174

21.30.25 Special Request 29-25: Affiliate Transaction Memorandum Account 175

21.30.26 Special Request 29-26: Main San Gabriel Contamination Memorandum Account 175

21.30.27 Special Request 29-27: Aquifer Storage and Recovery (ASR) Well 4 Memorandum Account 176

21.30.28 Special Request 29-28: Consolidated Expense Balancing Account 177

21.30.29 Special Request 29-29: 2012 General Rate Case Interim Rate True-Up Memorandum Account 178

21.30.30 Special Request 29-30: 2012 Cost of Capital Interim Rate Memorandum Account 179

21.30.31 Special Request 29-31: Statewide Non Revenue Water Action Plan Memorandum Account 179

21.30.32 Special Request 29-32: Monterey Leak Adjustments Memorandum Account ("LAMA") 180
21.30.33 Special Request 29-33: Sand City Desalination Plant Purchased Water Balancing Account 181
21.31 Reserved 182
21.32 Special Request #31: Authorization to Establish Memorandum Account to track Certain Purchased Water Costs 182
21.33 Special Request #32: Authorization to Track Lost Revenues Associated with Loss of Sales to Pacific Grove Properties 182
21.34 Special Request #33: Authorization to Establish Memo Account to Track Re: Larkfield Well 183
22.1 PLANT 183

22.3.8 Tier 4 Compliance/Standby Power Project (I15-500047) 187
22.3.9 Retire Fairfax Tank Project (I15-500052) 187
22.3.10 Recurring Projects (R15-50xx) 188
22.3.11 Olympiad Booster Station Replacement Project (I15-500010) 188
22.3.12 Santa Fe Well Replacement (IP-0550-118) 188
22.3.13 2,800 Ft of 8-Inch Main in Armijo, Rock Rose, Graydon, Monrovia and Spanner (I15-500019) 189
22.3.14 Spinks Reservoir Booster Station Improvements (I15-500020) 189
22.3.15 San Gabriel Boulevard Light Rail Mains Relocation Project (I15-500045) 190
22.3.16 Main Replacement Program (I15-500039) – Project A-6, Baldwin Hills; Project A-3, Duarte; and Project A-4, Duarte 190

22.3.17 San Gabriel Boulevard Light Rail Mains Relocation Project (I15-500045) 190

22.3.18 Main Replacement Program (I15-500039) – Project A-6, Baldwin Hills; Project A-3, Duarte; and Project A-4, Duarte) 191

22.4 San Diego County District 191

22.4.1 Leasehold Improvements for new San Diego County Operations Building (R15-30N1) 191

22.4.2 San Diego PRV Modernization Program (I15-300006) 192

22.4.3 Small Main Replacement Program (I15-300002) 192

22.4.4 Replace 500 Ft of 20-inch Main in Palm Avenue project (I15-300009) 192

22.4.5 Phase 2 Hollister Street Transmission Main Project (I15-300007) 193

22.4.6 Phase 3 Hollister Street Transmission Main Project (I15-300004) 193

22.4.7 Recurring Projects (R15-30xx) 193

22.5 Ventura County District 194

22.5.1 Replace Los Robles Tank # 1 project (I15-510003) 194

22.5.2 Upsize White Stallion Transmission Booster project (I15-510015) 194

22.5.3 Moorpark Reservoir Rehabilitation project (I15-510006) 195

22.5.4 Pace Reservoir Rehabilitation project (I15-510016) 195

22.5.5 Potrero Reservoir Rehabilitation project (I15-510020) 196

22.5.6 Replace Moorpark Booster Station project (I15-510025) 196

22.5.7 Wildwood Tank Rehab project (I15-510019) 196

22.5.8 Improve Low Pressure in Gainsborough Zone (I15-510002) 197

22.5.9 Install 1,200 Feet of Main in Rolling Oaks & Los Padres Drive (I15-510021) 197

22.5.10 Calle Yucca Turnout – 14 Inch Main (I15-510018) 197

22.5.11 Upgrade Mayfield Booster Station Project (I15-510027) 198

22.5.12 Replace 1,400 Feet of 10-inch Main to Los Posas Tanks (I15-510028) 198

22.5.13 Replace Los Robles Booster Station Project (I15-510026) 199

22.5.14 Recurring Projects (R15-51xx) 199

22.6 Monterey County Water District 199

22.6.1 Seaside Mains Replacement Phase 2 project (IP-0540-249) 199

22.6.2 Bishop Wells # 1 and #2 Rehab and 2012 Well Rehab

projects (IP-0540-107, IP-0540-131) 200
22.6.3 Valley Greens Flow Control Valve project (I15-400022) 200
22.6.4 Carmel Valley Endangered Species Act (ESA) projects – 2013, 2014, 2015, 2016, 2017 (I15-400098, 99, 100) 201
22.6.5 Service Line Replacement Program (I15-400091) 201
22.6.6 Regional Desal Project – CAW only facilities (IP-0540-305) 202
22.6.7 Well Rehabilitation Program (I15-400093) 202
22.6.8 Booster Station Rehabilitation Program (I15-400090) 203
22.6.9 Interconnect Ryan Ranch, Hidden Hills and Bishop Satellite Systems to Main Monterey System project (I15-400097) 203
22.6.10 Main Replacement Program (I15-400089) 204
22.6.11 Redrill Ralph Lane Well project (I15-400094) 204
22.6.12 Valve and PRV Replacement Program (I15-400092) 205
22.6.13 Upgrade SCADA System project (I15-400096) 205
22.6.14 Fire Flow Improvement Program (I15-400095) 205
22.6.15 Monterey Billing SAP Modifications project 206
22.6.16 Ryan Ranch – Bishop Intertie (I15-400006) 206
22.6.17 Los Padres Dam Fish Passage Project (05400049) 207

23.0 RULE 1 ISSUE 223

1.0 GENERAL PROVISIONS

Pursuant to Article 12 of the Rules of Practice and Procedure of the California Public Utilities Commission ("Commission"), California-American Water Company ("CAW" or "Company") and the Office of Rate Payer Advocates ("ORA") have agreed on the terms of this settlement agreement (the "Settlement Agreement"), which they now submit for approval. This Settlement Agreement embodies the entire understanding and agreement of the Parties with respect to the matters described herein. Where specifically noted below, the Monterey Peninsula Water Management District ("MPWMD"), the Las Palmas Wastewater Committee ("LPWC"), and the City of Pacific Grove also join specific aspects of this settlement agreement.[1]

The Parties, desiring to avoid the expense, inconvenience, and the uncertainty attendant to litigation of matters in dispute between them, have agreed on this Settlement Agreement, which they now submit for approval.

Because the Settlement Agreement represents a compromise by them, the Parties have entered into each stipulation contained in the Settlement Agreement on the basis that its approval by the Commission not be construed as an admission or concession by any Party regarding any fact or matter of law in dispute in this proceeding. Furthermore, the Parties intend that the approval of this Settlement Agreement by the Commission not be construed as a precedent or statement of policy of any kind for or against any Party in any current or future proceeding. (*See* Rule 12.5, Commission's Rules of Practice and Procedure.)

The Parties agree that no signatory to the Settlement Agreement assumes any personal liability as a result of their agreement. All rights and remedies of the Parties are limited to those available before the Commission. Furthermore, the Settlement Agreement is being presented as an integrated package such that the Parties are agreeing to the Settlement Agreement as a whole, as opposed to agreeing to specific elements of the Settlement Agreement. If the Commission adopts the Settlement Agreement with modification, all the Parties must consent to the modifications or the Settlement Agreement is void and all Parties reserve all rights set forth in Rule 12.4 of the Commission's Rules of Practice and Procedure. As between the Parties, this Settlement Agreement may be amended or changed only by a written agreement signed by the Parties.

This Settlement Agreement may be executed in counterparts, each of which shall be deemed an original, and the counterparts together shall constitute one and the same instrument. Each of the Parties hereto and their respective counsel and advocates have contributed to the preparation of this Settlement Agreement. Accordingly, the Parties agree that no provision of this Settlement Agreement shall be construed against any Party because that Party or its counsel drafted the provision.

[1] Hereinafter, CAW, ORA, MPWMD, LPWC, and the City of Pacific Grove are referred to as the "Parties."

The Parties agree to use their best efforts to obtain Commission approval of the Settlement Agreement. The Parties shall request that the Commission approve the Settlement Agreement without change and find the Settlement Agreement to be reasonable, consistent with the law, and in the public interest.

2.0 SUMMARY OF SETTLEMENT

The Settlement Agreement addresses the new rates to be established for CAW's service areas in the Larkfield, Los Angeles County, Monterey County Water, Monterey Wastewater, Sacramento, San Diego County, and Ventura County districts for calendar year 2015, and sets parameters to file for escalation and attrition allowances in 2016 and 2017. As part of the Settlement Agreement, CAW and ORA have agreed to most of the significant elements of the General Rate Case ("GRC") revenue requirement and rate design, including number of customers, usage per customer, rate base, operating expenses, utility plant additions, depreciation expense, income taxes, and special requests. Additionally, CAW and ORA have reached an agreement on forward-looking interpretation of Minimum Data Request II.D.5, which was the subject of the alleged Rule 1 violations.

The Settlement Agreement also addresses CAW's settlements with various intervenors. Specifically, the Settlement Agreement addresses CAW's agreement with MPWMD on various issues related to conservation, utility plant additions in Monterey, and certain special requests, as well as CAW's agreement with LPWC regarding certain Monterey wastewater issues. ORA supports CAW's agreements with MPWMD, and LPWC. Further, MPWMD and LPWC have no objection to any aspect of the Settlement Agreement, including CAW's revenue requirement agreements with ORA.

A comprehensive record supports the Settlement Agreement. As part of this GRC, the Parties have submitted extensive testimony concerning the issues that are the subject of the Settlement Agreement, including, but not limited to, CAW's direct testimony submitted with the application, ORA's Report, and CAW's rebuttal testimony.

The tables embedded in the Settlement Agreement set forth (1) the original positions of the Parties on various elements of revenue requirement, (2) the differences between the Parties' positions, and (3) the settlement terms.

The parties have not reached a settlement on the following issues: (1) ORA's recommendation to make step rate advice letter filings mandatory for CAW, (2) ORA's proposal to require CAW to calculate the attrition year based using recorded rate base, and (3) Special Requests 23 and 30, which seek authorization to: record peaking charges in the MCBA and capture any costs imposed by Placer County Water Agency as a result of the new purchased water agreement in a new memorandum account in the Sacramento District, respectively . Some of the Parties, including CAW and ORA, shall file additional briefing on these particular issues.

3.1 WATER CUSTOMER, CONSUMPTION AND REVENUES

3.2 Average Number of Customers

CAW REQUEST:

Section 1.0 - Water Customers, Consumption and Revenues discusses all districts with the exception of Monterey Wastewater, Toro and Garrapata. These service areas will be discussed in separate sections of the Settlement Agreement.

CAW reviewed the actual growth in the number of customers from 2008 through the end of 2012. In addition, District managers were asked to review the actual growth trends and provide input on the future growth of customers in their Districts. Based on the review of the actual data and each District manager's review of their service territories, CAW projected annual customer growth in customers to be 77 water customers and 23 fire service customers.

ORA POSITION:

ORA recommends using a five-year average customer growth for forecasting active service connections and consumption per customer in all Districts, except for the Monterey County District. ORA projected annual customer growth in customers to be 264 water customers and 47 fire service customers.

ORA agrees with CAW's method of forecasting no customer growth for the Monterey County District due to the State Water Resources Control Board Moratorium on "new and expanded" service.

RESOLUTION:

ORA and CAW agree on the number of customers for each district, as set forth below. Based on information provided, ORA and CAW agree to the level of customers proposed by CAW for Sacramento, Larkfield, and the Los Angeles County Districts. ORA and CAW agree to the level of customers proposed by ORA for the San Diego County and Monterey Districts. The settlement for the Ventura County District is based on adjusting the five-year average for the re-classification between residential and commercial customer classes and starting from a base of actual 2013 residential and commercial customers. The settlement reflects a projected annual customer growth in customers to be 132 water customers and 38 fire service customers.

3.3 Consumption

CAW REQUEST:

Based on actual consumption per customer history, CAW utilized the most recent three years (2010 - 2012) of actual level of consumption per customer and calculated a three-year average of the historical information for all customer classes, with the exception of the Sacramento District's residential customers. In the case of the Sacramento District's residential customers, CAW used a three-year average and adjusted 2014, 2015, and 2016 numbers by reducing them by 2% each year to reflect the completion in 2013 of the conversion of unmetered residential customers to meters and implementing conservation rates in the Sacramento District.

CAW's use of a three-year average using consumption data for 2010 - 2012 is appropriate because of the significant general decline in consumption per customer for the residential and commercial classes from the 2008 and 2009 levels. CAW believes that these higher levels of consumption in 2008 and 2009 will not likely occur again given the decline in consumption trends, the implementation of conservation rates, conservation education and the State of California's commitment to reducing water use by 20% by the year 2020.

ORA POSITION:

ORA recommends the use of the five-year average of annual consumption and notes that its recommendation represents a reasonable means of reconciling the guidance of the Rate Case Plan to use a ten-year regression of recorded consumption and the request of CAW to use a three-year average.

RESOLUTION:

ORA and CAW agree on consumption per customer for each district, as set forth below. This agreement was based on more recent data on consumption for 2013 in each district and uses a four-year average of 2010 - 2013 for all customer classes. In addition, Sacramento residential was further reduced by 2% per year as discussed above. Both the Ventura County and San Marino residential four-year averages were increased 2 CCF annually to reflect a recent trend of increasing customer use.

3.3.1 Monterey Non-Revenue Water Loss Penalty/Reward Program

ORA and CAW agree to retain the calculation methodology of the Monterey non-revenue water (NRW) penalty/reward program as adopted in D. 12-06-016, updated for the non-revenue water forecasts shown in table 3.3 above.

[2] ORA agreed with the five-year average of non revenue water in each district as a reasonable quantity as it aligns with use of averages for average water use per customer.

ORA and CAW agree that CAW shall monitor, record, and report specific volumetric amounts for non-revenue water --instead of by percentage -- for ratemaking purposes. Non-revenue water volumes are used in ratemaking calculations for purchased water, purchased power, and chemicals. Using percentage indicators to assess water loss standing in water utilities can give misleading and unreliable measures of utility performance because: (1) it is impossible to reliably represent multiple types of non-revenue water typically occurring in a water utility with a single simplistic percentage; (2) a simple percentage reveals nothing about water volumes and costs, the two most important factors in water loss assessments of water utilities; and (3) the mathematical flaws of the percentage indicator stem from the fact that the percentage is affected by varying levels of customer consumption. Parties have therefore agreed to use a specific volumetric amount, instead of a percentage, for ratemaking purposes in this GRC.
ORA and CAW agree that it is appropriate for CAW to use the results of the AWWA Water Loss Audit Report for each of its sub-systems in its Monterey County District, including trends in water loss efficiency metrics, volumetric quantities, and the known feasible cost-effective methods available to reduce non-revenue water.

Any reward/penalty will be based on a cost per acre foot of $1,820.30 and applied against the overage/underage based on the below targets. The table below illustrates the settlement's 2015 proposed non-revenue water targets for the non-revenue by volume, that will trigger a penalty for each sub-system.

	2015 Proposed Volumes (Ac-Ft)	**2015 5% Deadband**	**Adopted Penalty Triggers (Ac-Ft)**
Ambler Park	19.0	1.0	20.0
Bishop	16.7	1.3	18.0
Chualar	10.5	0.5	11.0
Hidden Hills	16.3	0.7	17.0
Monterey	1,025.1	50.9	1,076.0
Ralph Lane	1.0	0.1	1.1
Ryan Ranch	9.6	0.5	10.1
Toro	26.6	1.4	28.0

3.5 Special Fees Revenue

CAW REQUEST:

CAW has proposed several revised or new fees in Special Requests No. 8, 9, and 24. The rebuttal testimony of Dave Stephenson identifies the appropriate net increase in revenues for these fees.

ORA POSITION:

The additional revenue associated with the fees proposed in Special Requests No. 8, 9, and 24 were not initially calculated or presented in CAW's Workpapers. The table below includes a list of all the special fees recommended by ORA including the revenue forecasts developed by CAW and ORA and the adjustments made by ORA in the revenue workpapers for Test Year 2015 and 2016:

Special Fee Adjustment Proposed by ORA

District	Special Request #8: After-Hours Activation Charge 2015 Test Year Forecasted Revenues ($)	Special Request #9: Late Payment Fee 2015 Test Year Forecasted Revenues ($)	Special Request #24: Metered Construction 2015 Test Year Forecasted Revenues ($)	Total
Larkfield	$ 630	$ 4,453	$ 16,244	$ 21,327

Stephenson, dated June 2, 2014 (*"CAW Stephenson Rebuttal"), pp. 28-29 and 38-42.; Hearing Exh. 12 and 12-A, ORA Korthamar Direct, ORA Report No. 6, Ch. 1, p. 29, Ch. 5, pp. 1-2, Ch. 6, pp. 1-4 and Ch. 8, 1-4.

RESOLUTION: CAW and ORA agree to reflect the revenues for Special Request Numbers 8, 9, and 24 based on the rebuttal testimony of Dave Stephenson and as shown in the chart above which reflects total revenues of $398,031.

3.6 Operating Revenues

CAW REQUEST:

CAW forecasted water revenues for the 2015 test year based on a projection of the number of customers by class, consumption per customer by class, and the use of standard tariff rate design reflecting the 2014 Step Rate Increase and the revenues associated with capital expenditure Advice Letters, which is based on the Commission's Standard Practice U-7-W, entitled *Rate Design for Water and Sewer System Utilities Jncluding Master Metered Facilities* (dated July 2006).

For fire service revenues, revenues are based on projected customers and standard tariff rate design at present rates. CAW projected fire service revenues by first projecting the number of

fire service customers by size of connection and the number of hydrants for the test year. The number of fire service customers by size of connection for each test year is then multiplied by the fire service charge based on the standard tariff rate design for present rates.

CAW forecasted the Other Revenues generally based upon historical information. The Other Revenues represent revenues generated from Non-sufficient Funds Checks, Rent, Contract Operations, Method 5 Revenues, Reconnection Fees, Other Service Revenues, WRAM Surcharges, and Conservation Surcharges. CAW eliminated the surcharges in projecting other revenues since they represent revenues that may be collected in a future period and thus should not be reflected in the revenue requirement.

ORA POSITION:

ORA recommends that the Commission direct CAW to use its actual rates for all revenue calculations in all future GRCs.

RESOLUTION:

Revenues are calculated based on the discussion above in sections 1.1, 1.2, and 1.4. Shown below are the revenues at both present and proposed rates by district by revenue classification for the projected test year 2015.

Projected Test Year 2015 Present Rate Revenues Larkfield	CAW Direct	ORA Report	Difference	2015 Settlement

4.1 RATE BASE

This section addresses the settlement of rate base for 2015 and 2016 for Larkfield, Los Angeles County, Monterey County, Sacramento, San Diego County, Ventura County and Cal Corp. The rate bases for Wastewater, Garrapata, and Toro will be addressed in sections 19, 5, and 6, respectively.

Shown below is a summary of the settled rate base amounts for 2015 and 2016. Discussion of individual components of rate base will be discussed below and a full detailed rate base for each district and Cal Corp will be shown at the end of the section. In addition, a discussion of the settled Average Plant Weighting Factors will be addressed.

Projected Test Year Rate Base	CAW Direct 2015	ORA Report 2015	Difference	2015 Settlement	2016 Settlement
Larkfield	$ 7,296,349	$ 6,180,218	$ (1,116,131)	$ 7,132,407	$ 7,028,542
Los Angeles County	79,179,366	70,688,364	(8,491,002)	75,869,974	85,232,754
Monterey County	156,141,844	124,130,720	(32,011,125)	140,838,714	143,581,768
Sacramento	153,626,582	135,718,517	(17,908,066)	146,930,723	152,934,802
San Diego County	23,883,806	21,214,421	(2,669,385)	23,676,120	23,828,409
Ventura County	47,365,570	43,601,692	(3,763,878)	45,666,311	51,673,215
Cal Corp	19,167,486	16,895,222	(2,272,264)	17,812,801	16,621,230

REFERENCES: CAW Revised Exh. A, Ch. 9, Table 9.2; Hearing Exh. 7, ORA Report Results of Operations Tables, Workpapers Ch. 9, Table 9.2.

The components of rate base that will be discussed below are Average Utility Plant in Service, Materials and Supplies, Working Cash (Operational and Lead Lag), Accumulated Depreciation, Customer Advances, Contributions in Aid of Construction (CIAC), Unamortized Advances / Contributions and Deferred Income Taxes (Federal and State).

4.2 Average Utility Plant in Service

CAW REQUEST:

CAW calculated average utility plant in service by projecting capital expenditures and plant retirements for 2013 - 2016. Total plant expenditures were taken from the Company's Strategic Capital Expenditure Plan (SCEP). Please refer to the Depreciation Section of the Settlement Agreement for discussion of the projection of plant retirements.

ORA POSITION:

ORA recommends a level of plant expenditures as outlined in its direct testimony and shown below in the tables.

RESOLUTION:

CAW and ORA agreed to total capital expenditures as shown below in the tables. Please refer to the Plant Section of the Settlement Agreement for further discussion of capital expenditures included in the Settlement.

Larkfield	CAW	ORA

on Results of Operation Tables of CAW Company Application 13-07-002, dated March 28, 2014, ("ORA Report Results of Operations Tables"), ORA Report #2.

4.3 Construction Work In Progress (CWIP)

CAW REQUEST:

CAW has historically included all spend on construction in rate base including spend on projects that are in the development/construction phase. This was to allow the Company to earn a return on all spend to ensure that continued funding would be available for all construction projects.

ORA POSITION:

ORA recommends removing CWIP amounts from the two test years for all projects CAW anticipates being in service after 2016. Removing CWIP amounts from rate base for projects that will not be used or useful in the test years is reasonable. ORA recommends that CAW be permitted to capitalize interest at the company's actual weighted cost of debt during construction on all projects to be completed after the two test years in A.13-07-002. In the next general rate case and after actual (not forecasted) completion of these projects, the Company shall be permitted to place all reasonable and prudent capital costs in rate base.

RESOLUTION:

Please refer to the detailed discussion of this issue in the section labelled AFUDC Proposal (Section 13) for the proposed resolution of the issue

4.4 Materials and Supplies

CAW REQUEST:

CAW calculated a five-year average of plant material and supplies and adjusted Monterey to include 7,000 feet of HDPE pipe added to inventory in 2013.

ORA POSITION:

ORA recommended a five-year average of plant materials and supplies.

RESOLUTION:

CAW and ORA agree to ORA's recommendation for all districts. Refer to tables below for details of settlement of Materials and Supplies by district and Cal Corp.

Projected Test Year Materials & Supplies	CAW Direct 2015	ORA Report 2015	Difference	2015 Settlement	2016 Settlement
Larkfield	$ 11,305	$ 11,116	$ (189)	$ 11,069	$ 11,322
Los Angeles County	102,017	101,594	(424)	101,184	103,491
Monterey County	990,977	270,569	(720,408)	270,304	279,429
Sacramento	247,124	242,701	(4,423)	241,677	247,187
San Diego County	145,157	143,696	(1,460)	143,148	146,412
Ventura County	64,120	63,509	(611)	63,250	64,692
Cal Corp	-	-	-	-	-

REFERENCES: CAW Revised Exh. A, Ch. 9, Table 9.2; Hearing Exh. 7, ORA Report Results of Operations Tables, ORA Report #2.

4.5 Working Cash Operational

CAW REQUEST:

CAW calculated Working Cash - Operational based on a five-year average of selected balance sheet accounts. In addition, CAW included tank painting costs based on its projected expenditures through 2017.

ORA POSITION:

ORA calculated its Working Cash - Operational by calculating a five-year average of selected balance sheet accounts and proposed corrections and adjustments totaling a reduction in rate base of $3.9 million. In addition, ORA recommended using a five-year historical average and actual 2013 tank painting costs which reduced rate base an additional $4.1 million.

RESOLUTION:

CAW agrees to the adjustments proposed by ORA for the Operational Working Cash with the exception of tank painting. CAW and ORA agree to reduce tank painting costs for the Monterey and Sacramento Districts to reflect shifting $1.91 million of tank painting from 2015 to 2016 and shifting $1.895 million of tank painting costs from 2016 to 2017. Refer to table below for details of settlement of Working Cash - Operational by district and Cal Corp.

Projected Test Year Working Cash - Operational	CAW Direct 2015	ORA Report 2015	Difference	2015 Settlement	2016 Settlement
Larkfield	$ 171,545	$ 69,399	$ (102,145)	$ 418,016	$ 366,580
Los Angeles County	1,362,135	656,485	(705,650)	1,175,019	1,060,642
Monterey County	5,997,339	2,486,219	(3,511,120)	2,956,659	4,982,688
Sacramento	1,052,481	104,604	(947,877)	533,216	467,947
San Diego County	1,052,481	104,604	(947,877)	533,216	467,947
Ventura County	1,536,616	1,703,583	166,966	1,359,866	2,052,869
Cal Corp	3,390,143	1,432,200	(1,957,943)	1,432,200	1,432,200

REFERENCES: CAW Revised Exh. A, Ch. 9, Table 9.2; Hearing Exh. 7, ORA Report Results of Operations Tables,

4.6 Working Cash - Lead Lag

CAW REQUEST:

CAW calculated Working Cash - Lead Lag using a detailed lead lag study and applying the expense lags to the projected test year expenses.

ORA POSITION:

ORA calculated Working Cash - Lead Lag by utilizing CAW's study and making three adjustments. ORA included interest expense at 91.25 lag days, excluded depreciation and deferred income taxes and assigned 45 days to the purchased water expense for San Diego County and Ventura County Districts.

RESOLUTION:

CAW and ORA agree to a level of Working Cash - Lead Lag that balances the differences in the positions of both parties. Refer to table below for details of settlement of Working Cash - Lead Lag by district.

Projected Test Year Working Cash - Lead Lag	CAW Direct 2015	ORA Report 2015	Difference	2015 Settlement	2016 Settlement
Larkfield	$ 218,000	$ 86,000	$ (132,000)	$ 176,000	$ 178,000
Los Angeles County	1,839,000	1,008,000	(831,000)	1,402,000	1,411,000
Monterey County	3,666,000	2,074,000	(1,592,000)	2,828,000	2,871,000
Sacramento	3,735,000	1,816,000	(1,919,000)	2,810,000	2,811,000
San Diego County	1,165,000	481,000	(684,000)	1,099,000	1,096,000
Ventura County	1,234,000	119,000	(1,115,000)	384,000	380,000
Cal Corp	-	-	-	-	-

4.7 Accumulated Depreciation

CAW REQUEST:

CAW calculated the accumulated depreciation based on its projected levels of plant additions, depreciation expense, retirements and cost of removal, net of salvage.

ORA POSITION:

ORA calculated the accumulated depreciation based on its projected levels of plant additions, depreciation expense, plant retirements and cost of removal, net of salvage.

RESOLUTION:

The resolution of plant additions is discussed below under Average Utility Plant in Service (Section 4.1) and in the Plant Section (Section 22) of this Settlement. Also, please refer to the Depreciation Section of the Settlement (Section 16) which discusses plant retirements and cost of removal, net of salvage. Refer to the table below for details of settlement of Accumulated Depreciation by district and Cal Corp.

Projected Test Year Accumulated Depreciation	CAW Direct 2015	ORA Report 2015	Difference	2015 Settlement	2016 Settlement
Larkfield	$ (7,198,303)	$ (7,070,782)	$ 127,522	$ (7,195,192)	$ (7,656,281)
Los Angeles County	(46,845,942)	(45,948,696)	897,246	(46,187,636)	(49,158,463)

4.8 Advances for Construction

CAW REQUEST:

CAW projected the balance for Advances for Construction based on projected amounts for capital expenditures reflected in the Strategic Capital Expenditures Plan ("SCEP"). Refunds were projected based on historical averages.

ORA POSITION:

ORA projected the balance for Advances for Construction based on five-year historical average additions and refunds.

RESOLUTION:

CAW and ORA agreed to calculate the projected balance for Advances for Construction based on amounts in the SCEP and using a historical average for refunds. Refer to the table below for details of settlement of Advances for Construction by district and Cal Corp.

Projected Test Year Advances for Construction	CAW Direct 2015	ORA Report 2015	Difference	2015 Settlement	2016 Settlement
Larkfield	$ (435,117)	$ (481,896)	$ (46,780)	$ (411,316)	$ (430,424)
Los Angeles County	(535,596)	(599,217)	(63,621)	(543,735)	(540,263)
Monterey County	(1,248,804)	(1,386,104)	(137,301)	(1,556,427)	(1,680,805)
Sacramento	(9,230,132)	(9,332,418)	(102,285)	(8,876,899)	(9,209,687)

4.9 Contributions in Aid of Construction (CIAC)

CAW REQUEST:

CAW projected the balance for CIAC based on projected amounts for capital expenditures reflected in the Strategic Capital Expenditures Plan.

ORA POSITION:

ORA projected the balance for CIAC based on five-year historical average additions. Additionally, for the Monterey and Los Angeles Districts ORA added in a little over $2,000,000 to contributions in 2015 relating to CAW's request for regulatory treatment of MTBE contamination proceeds (see Special Request #3).

RESOLUTION:

CAW and ORA agreed to calculate the projected balance for CIAC based on amounts in the SCEP. In addition, the balance in CIAC for 2015 and 2016 was increased by $339,000 based on the settled growth in customers using $2,000 for residential, $5,000 for commercial and $10,000 for Other Public Authority for each new customer in growth. Refer to table below for details of settlement of CIAC by district and Cal Corp. Please see the Special Request Section (Section 21.3) for settlement details on the MTBE contamination proceeds issue and why there is no longer any recognition of any contributions for this item.

Projected Test Year CIAC	CAW Direct 2015	ORA Report 2015	Difference	2015 Settlement	2016 Settlement
Larkfield	$ (698,323)	$ (639,333)	$ 58,990	$ (611,323)	$ (702,313)
Los Angeles County	(2,451,484)	(4,703,236)	(2,251,752)	(2,519,804)	(2,499,916)
Monterey County	(15,949,343)	(20,460,402)	(4,511,059)	(16,318,173)	(15,900,220)
Sacramento	(17,359,579)	(17,532,299)	(172,720)	(16,779,659)	(17,638,849)
San Diego County	(1,942,345)	(2,547,485)	(605,140)	(2,025,985)	(2,050,529)
Ventura County	(11,475,598)	(11,667,248)	(191,650)	(11,612,418)	(11,253,941)
Cal Corp	-	-	-	-	-

4.10 Deferred Income Taxes

CAW REQUEST:

Deferred income taxes are calculated for temporary timing differences used for book and tax purposes. The largest element of deferred taxes is associated with the timing difference for book and tax depreciation. CAW calculated deferred taxes based on the timing differences between

book and tax depreciation, utilizing bonus depreciation in 2013 and reflecting tax repairs deductions.

ORA POSITION:

ORA utilized the same method to calculate the deferred income taxes in rate base that the Company used. The difference between ORA and CAW's methodology is the amount of utility plant that ORA reflected in rate base in its report as compared to the Company's proposed level.

RESOLUTION:

CAW and ORA have agreed to the level of deferred taxes as shown below based on the stipulated level of plant additions, the depreciation rates reflected in calculation of depreciation expense, the use of bonus depreciation in 2013 and utilization of the tax repairs deduction. Refer to table below for details of settlement of Deferred Income Taxes by district and Cal Corp.

Projected Test Year Deferred Income Taxes	CAW Direct 2015	ORA Report 2015	Difference	2015 Settlement	2016 Settlement
Larkfield	$ (1,967,018)	$ (1,901,951)	$ 65,067	$ (1,905,374)	$ (2,256,072)
Los Angeles County	(7,613,320)	(7,084,909)	528,411	(7,041,147)	(7,324,885)
Monterey County	(16,037,767)	(15,422,201)	615,566	(15,824,570)	(15,545,821)
Sacramento	(18,597,160)	(18,712,418)	(115,258)	(17,104,475)	(17,533,143)
San Diego County	(1,662,675)	(883,121)	779,554	(877,423)	(1,074,999)
Ventura County	(2,973,021)	(3,052,066)	(79,045)	(2,976,547)	(3,334,105)
Cal Corp	(494,458)	(1,267,276)	(772,818)	(1,503,431)	(2,756,279)

REFERENCES: CAW Revised Exh. A, Ch. 9, Table 9.2; Hearing Exh. 7, ORA Shia Direct, ORA Report Results of Operations Tables.

4.11 Unamortized Advances and Contributions

CAW REQUEST:

CAW is currently amortizing the balance in Advances and Contributions associated with "imputed" balances that the Company assumed as an offset to rate base at the time of the Citizens Acquisition to offset the actual Advances for Construction and CIAC that Citizens had on its books but were not acquired by CAW.

ORA POSITION:

ORA agreed with the balances proposed by the Company.

RESOLUTION:

There is no issue to resolve. Refer to table below for details of settlement of Unamortized Advances and Contributions by district and Cal Corp.

Projected Test Year Unamortized Adv/Contrib	CAW Direct 2015	ORA Report 2015	Difference	2015 Settlement	2016 Settlement

4.13 Average Plant Weighting Factors

CAW REQUEST:

CAW calculated the Average Plant Weighting Factors using six years of historical information. The factors were used to develop the average utility plant in service based on the proposed level of capital expenditures and retirements (see Section 4.1).

ORA POSITION:

ORA agreed with the Company's calculation and used the same factors in its Report.

RESOLUTION:

There is no issue to resolve. Refer to table below for details of settlement of Average Plant Weighting Factors by district and Cal Corp.

Average Plant 6 Yr Weighting Factor	CAW Direct 2015	ORA Report 2015	Difference	2015 Settlement	2016 Settlement

5.1 TORO

This section of the settlement document between CAW and ORA addresses the level of customers, use per customer, total consumption, revenues, operating expenses, rate base and capital expenditures which were used to develop the revenue requirement.

5.2 Revenues and Customers

CAW REQUEST:

CAW has projected 405 residential customers and 7 commercial customers through the rate case cycle of 2015 - 2017. The Company is projecting no growth in customers. Consumption per customer was based on a three-year average of 2010 - 2012. Total Consumption was calculated by multiplying the average number of customers by the consumption per customer. Present rate revenues for 2015 are based on the current Standard Tariff rate design using the 2014 Step Rates.

ORA POSITION:

ORA recommended the same level of customers but used a five-year average consumption per customer using 2008 - 2012.

RESOLUTION:

CAW and ORA agree to use more current consumption per customer information and therefore the settlement reflects the use of a four-year average of 2010 - 2013. Shown below are the customer, consumption per customer, total consumption and revenue tables detailing the settlement.

2013 GRC Toro Average # Customers	2015 CAW Direct	2015 ORA Report	Difference	Test Year 2015 Settlement	Escalation Year 2016 Settlement	Attrition Year 2017 Settlement

5.3 Operating Expenses

CAW REQUEST:

CAW projected total operating expenses, excluding income taxes in the amount of $569,004 which included amounts for labor, purchased power, chemicals, Service Company, California General Office, other O&M, depreciation, Ad Valorem Taxes and payroll taxes.

ORA POSITION:

ORA recommended a total of $569,536 for the same cost categories identified above. ORA recommended reductions in labor, Chemicals, Service Company, California General Office and payroll taxes. ORA recommended an increase in depreciation expense to reflect higher capital expenditures in 2013.

RESOLUTION:

CAW and ORA agreed to a level of operating expenses in the amount of $579,240 which reflects higher depreciation to higher capital expenditures in 2013. Also, lower Service Company and California General Office are based on the discussion in the Expense Section of the settlement document (Section 7). Shown below is the operating expenses table detailing the settlement. Please refer to the operating expense section of the settlement for further discussion.

5.4 Rate Base and Capital Expenditures

CAW REQUEST:

CAW proposed an average 2015 rate base of $1,526,464 based on total capital expenditures of $975,500 for 2013 - 2016 taken from the Strategic Capital Expenditure Plan (SCEP).

ORA POSITION:

ORA recommended a total average rate base for 2015 of $1,482,392 based on total capital expenditures of $834,850 for 2013 - 2016.

RESOLUTION:

CAW and ORA agree to total capital expenditure of $976,802 for the years 2013 - 2016 which results in a settlement of rate base in the amounts of $1,559,638 and $1,631,544 for 2015 and 2016, respectively. Shown below are the capital expenditure, rate base, and depreciation rates tables detailing the settlement.

6.1 GARRAPATA

The California Public Utilities Commission approved the acquisition of the Garrapata system in D.13-01-033 on January 24, 2013 and Garrapata's current tariff rates were authorized per Advice

Letter 992 effective April 1, 2013. The system serves approximately 49 residential and commercial customers. Currently, the customers are unmetered with plans to install meters by the end of the 2015 - 2017 rate case cycle.

This section of the settlement document between CAW and ORA addresses the level of customers, revenues, operating expenses, rate base and capital expenditures which were used to develop the revenue requirement. The expectation is that CAW will propose to move these customers to metered rates in the next GRC cycle.

6.2 Revenues and Customers

CAW REQUEST:

CAW has projected 47 residential customers and 2 commercial customers through the rate case cycle of 2015 - 2017. Present rate revenues for 2015 were initially based on the rates prior to the acquisition of the Garrapata system.

ORA POSITION:

ORA recommended the same level of customers and revenues as proposed by CAW.

RESOLUTION:

Present rate revenues were based on the agreed upon level of customers and the rates authorized by Advice Letter 992 which became effective April 1, 2013. Shown below are the customer and revenue tables detailing the settlement.

2013 GRC Garrapata Average # Customers	2015 CAW Direct	2015 ORA Report	Difference	Test Year 2015 Settlement	Escalation Year 2016 Settlement	Attrition Year 2017 Settlement

6.3 Operating Expenses

CAW REQUEST:

CAW projected total operating expenses, excluding income taxes in the amount of $64,488, which included amounts for labor, purchased power, chemicals, uncollectibles, Service Company, California General Office, tank painting, other O&M, depreciation, Ad Valorem Taxes and payroll taxes.

ORA POSITION:

ORA recommended a total of $60,892 for the same cost categories identified above. ORA recommended reductions in labor, Service Company, California General Office, depreciation and payroll taxes.

RESOLUTION:

CAW and ORA agreed to a level of operating expenses in the amount of $61,876 which reflects lower depreciation and Ad Valorem Taxes due to lower capital expenditures. Also, lower labor and payroll taxes and lower Service Company and California General Office are based on the discussion in the Expense Section of the settlement document (Section 7). Shown below is the operating expenses table detailing the settlement. Please refer to the operating expense section of the settlement for further discussion.

6.4 Rate Base and Capital Expenditures

CAW REQUEST:

CAW proposed an average 2015 rate base of $179,339 based on total capital expenditures of $94,900 for 2013 - 2016 taken from the Strategic Capital Expenditure Plan (SCEP).

ORA POSITION:

ORA recommended a total average rate base for 2015 of $131,589 based on total capital expenditures of $44,900 for 2013 - 2016.

RESOLUTION:

CAW and ORA agree to total capital expenditure of $44,900 for the years 2013 - 2016, which results in a settlement of rate base in the amounts of $126,763 and $135,002 for 2015 and 2016, respectively. Shown below are the capital expenditure, rate base, and depreciation rates tables detailing the settlement.

REFERENCES: CAW Revised Exh. A, Ch. 12, Garrapata; Hearing Exh. 15 and 15-A, ORA Report, Workpapers Ch. 12 Garrapata.

The California Public Utilities Commission approved the acquisition of the Garrapata system in D.13-01-033 on January 24, 2013 and Garrapata's current tariff rates were authorized per Advice Letter 992 effective April 1, 2013. The system serves approximately 49 residential and commercial customers. Currently, the customers are unmetered with plans to install meters by the end of the 2015 - 2017 rate case cycle.

This section of the settlement document between CAW and ORA addresses the level of customers, revenues, operating expenses, rate base and capital expenditures which were used to develop the revenue requirement. The expectation is that CAW will propose to move these customers to metered rates in the next GRC cycle.

7.1 CAW COMPANY EXPENSES

7.2 Overview of Settlement Discussion of Expenses

This section of the Settlement agreement addresses the settlement of specific CAW operation expenses that are general in nature and are allocated in some manner to all of the districts in the determination of the revenue requirement. The expenses that will be covered in this section are labor expense, pensions, group insurance, post-retirement benefits (OPEB's), Insurance Other Than Group, rate case expense and postage.

Other operating expenses are addressed in separate sections of the settlement agreement, including Service Company expenses (Section 9), other California American Corporate expenses (Section 8.1.4), district specific expenses such as purchased water, purchased power, uncollectibles, etc. (Section 14), and Taxes Other than Income and Income Taxes (Section 12). The revenue requirement for Wastewater, Toro and Garrapata are discussed in Sections 19.0, 5.0, and 6.0, respectively).

7.1.1 Labor Expense

CAW POSITION:

CAW projected a Cal Corp labor expense cost of $6,215,239 for 2015, which includes Annual Incentive Plan ("AIP"), LTIP Long-Term Incentive Plan ("LTIP"), and a payroll reserve. The projection was based on 80 employees and reflected actual wage rates for 2013 escalated by a 3% inflation factor for 2014 and 2015 for the non-union employees and 3.5% and 2.26% increases for the union employees for 2014 and 2015. In addition, a 0.5% payroll reserve factor and AIP at 100% of the target amounts were was included in the Company's forecast.

CAW projected district labor expense of $15,167,545 for 2015, which includes AIP and a payroll reserve. The projection was based on 210 employees and reflected actual wage rates for 2013 escalated by a 3% inflation factor for 2014 and 2015 for the non-union employees and 3.5% and 2.26% increases for the union employees for 2014 and 2015. In addition, a 0.5% payroll reserve factor and AIP at 100% of the target amounts were included in the Company's forecast.

ORA POSITION:

ORA projected a Cal Corp labor expense cost of $5,291,025 and district labor expense of $14,023,163 for 2015. The projection was based on 80 corporate and 210 district employees, and reflecting actual wage rates for 2012 and using a 2.1% inflation factor for 2013 and then using a 1.5% inflation factor for 2014 and 2015 for the non-union employees and 2.25% and 1.5% increases for the union employees for 2014 and 2015. In addition, the Annual Incentive compensation was reduced to 20% of the target amounts and the ORA excluded the 0.5% payroll reserve factor. ORA also adjusted overtime for two employees in Monterey as they believed the actual recorded hours were excessive.

RESOLUTION:

CAW and ORA agree to a projection of labor expense in the amount of $5,875,603 for Corporate Office and $15,029,883 for district payroll in 2015. This projection was based on the following agreement: 1) eliminate the 0.5% payroll reserve, 2) reflect 75% recovery for Annual Incentive Plan costs and 15% for LTIP Costs 3) reflect inflation factors of 2.5% for 2014 and 2015, unless otherwise dictated in a union contract, 4) allow the recorded overtime hours as presented by CAW and 5) add in two employees in Monterey for customer service to meet the agreed upon Customer Service recommendations.

7.1.2 Pension Expense

CAW POSITION:

CAW projected a pension expense cost of $2,473,565 for 2015. This projection was based on a total pension cost from American Water of $59.3 million and an allocation factor of 4.999% to CAW.

ORA POSITION:

ORA projected a pension expense cost of $1,918,709 for 2015. This projection was based on an updated total pension cost from American Water of $46.0 million and using an allocation to CAW of 4.999%.

RESOLUTION:

CAW and ORA agree to a pension expense of $1,918,709 for 2015 based on the updated projected cost from American Water.

Pension 2015 Projected Test Year	CAW Direct	ORA Direct	Difference	2015 Settlement
Larkfield	$ 75,155	$ 58,297	$ (16,858)	$ 58,314

Montero, dated March 28, 2014, ("ORA Roberts Direct and ORA Josefina Direct"), *ORA Report on Administrative and General Expenses, Special Request #17, (ORA Report #1, Ch. 1 pp.1-6 and 7),*, ORA Report Workpapers, CA Corp Exhibit A

7.1.3 Group Insurance

CAW POSITION:

CAW projected group insurance expense cost of $3,626,390. This projection was based on 290 employees and claims expense in 2012. The 2012 actual claims expense was then inflated by

7.4%, 9.2% and 7.6% for 2013, 2014 and 2015, respectively. These inflation factors were based on information provided by the Company's actuary and estimates of costs that would be incurred to comply with the Affordable Health Care Act.

ORA POSITION:

ORA projected a group insurance expense cost of $3,273,682. This projection was based on 286 employees and using the actual 2012 medical expense. The 2012 actual claims expense was then inflated by 3.1%, 4.5% and 5.0% for 2013, 2014 and 2015, respectively. These inflation factors were based on IHS Global Insight inflation factors.

RESOLUTION:

CAW and ORA agree to a group insurance expense of $3,352,017 for 2015 based on 286 employees, adjusted annually by 6% for inflation for 2013, 2014 and 2015, respectively. In addition, the settlement reflects the correction to eliminate double counted inflation and capitalized amounts.

Group Insurance 2015 Projected Test Year	CAW Direct	ORA Direct	Difference	2015 Settlement
Larkfield	$ 83,763	$ 76,693	$ (7,070)	$ 77,559
Los Angeles County	$ 476,447	$ 455,969	$ (20,478)	$ 439,984

7.1.4 Post-retirement Benefits (OPEB)

CAW POSITION:

CAW projected OPEB expense of $722,373 for 2015. This projection was based on a total OPEB cost from American Water of $24.4 million and an allocation factor of 3.29% to CAW .

ORA POSITION:

ORA projected a Cal Corp pension expense cost of $532,898 for 2015. This projection was based on an updated total OPEB cost from American Water of $16.2 million and using an allocation to CAW of 3.29%

RESOLUTION:

CAW and ORA agree to a OPEB expense of $532,898 for 2015 based on the updated projected cost from American Water.

7.1.5 Insurance Other Than Group

CAW POSITION:

CAW projected a Cal Corp Insurance Other Than Group expense cost of $1,767,012 for 2015. The projection was based on a five-year average adjusted for inflation , customer growth, and an increase for sales tax in 2013.

ORA POSITION:

ORA projected a Cal Corp Insurance Other Than Group expense cost of $1,736,672, for 2015. The projection was based on using a five-year average and increasing for inflation factors but excluding customer growth and the increase for sales tax in 2013.

RESOLUTION:

CAW and ORA agree to an Insurance Other Than Group expense cost of $1,743,313 for 2015 based on a five-year average adjusted for inflation factors and excluding the adjustments for customer growth and sales tax increase.

Cal Corp	CAW	ORA		2015

7.1.6 Rate Case Expense

CAW POSITION:

CAW projected total rate case expenses of $4,279,592 to be recovered over three years in amounts of $279,592, $2,000,000 and $2,000,000. CAW based its regulatory expense estimate on historical costs, information from outside counsel, its substantial experience with general rate case proceedings and its assessment as to the effect of having a single statewide case every three years. The estimate contains the rate case expense which is to be recovered in the 2015-2017 period rate cycle consistent with Decision 12-06-016. As per Special Request # 17, CAW is requesting recovery of a small portion of total estimated rate case expense in 2015 with the bulk of the recovery in 2016 and 2017. This more closely aligns with the typical spending and timing of rate case expenses.

With regards to regulatory expenses, CAW has requested that the authorized level of rate case expense be amortized over 27 months instead of 36. With this proposal, the recovery is authorized for 3 months of the 2015 Test Year with the remaining amount recovered equally in the Escalation and Attrition years. The Company has made this request to better match costs incurred with recovery. At present, it incurs very little rate case expenses in the first year of the rate case cycle. This is because work is usually just beginning at this time and the work that is beginning on the next case can, for the most part, be performed by the internal rate case staff. Internal rate case staff costs are recovered through labor, labor related and other administrative costs and are not part of rate case expense.

ORA POSITION:

ORA projected total rate case expense of $1,373,181 to be recovered over three years in equal amounts of $457,727, $457,727, and $457,727. ORA recommends a reduction in Rate Case expenses to reflect legal and consulting cost savings offset by the hiring of a new in-house regulatory attorney and a rates analyst. ORA recommends a reduction to rate case printing and mailing expenses to reflect recorded invoice amounts from the previous GRC, adjusted for inflation. ORA recommends the Commission adopt an equal sharing of Rate Case expense between ratepayers and shareholders in order to properly align the expenses incurred with the parties receiving benefits. ORA also recommends evenly recovering the Rate Case expense instead of back-weighting the expense into the escalation and attrition years.

RESOLUTION:

CAW and ORA agree to a total rate case cost of $3,201,255 to be recovered over three years. The amount to be recovered in 2015 is $1,067,085. This total cost reflects lower costs for legal expenses and consultants in the amount of $1,270,592 as proposed by ORA. The settled rate case costs will be recovered evenly over the three-year rate cycle.

Cal Corp	CAW	ORA		2015
2015 Projected Test Year	Direct	Direct	Difference	Settlement
Total Cal Corp Rate Case Expense	$ 279,513	$ 457,141	$ 177,627	$ 1,066,784

7.1.7 Postage Expense

CAW POSITION:

CAW projected a Cal Corp postage expense cost of $885,553 for 2015. The estimate was based on the projected number of average customers for 2015 multiplied by 12 bills per customer times $0.43 per bill.

ORA POSITION:

ORA projected a Cal Corp postage expense cost of $709,495 for 2015. The projections was based on the projected number of average customers for 2015 multiplied by 12 bills per customer and reduced by 32,675 customers projected to -sign up for e-billing. This was then multiplied by $0.42 per bill.

RESOLUTION:

CAW and ORA agree to a postage expense of $877,112 based on the current actual number of customers receiving a paper bill of 169,649 and a cost of $0.42 per bill.

Cal Corp	CAW	ORA		2015

7.1.8 Escalation

CAW POSITION

CAW adjusts its five-year average of recorded data for inflation, customer growth, and a sales tax increase for 2013. CAW then arrives at its test year 2015 forecast by applying these inflation and customer growth factors as "multipliers" on recorded year expenses according to the Memorandum of the Estimates of Non-Labor and Wage Escalation Rates for 2013 through 2017 and Compensation (Memo) published by the ORA Energy Cost of Services (ECOS) and Water Branches dated May 2013. This Memo generates its factors from a composite index of ten

Wholesale Price Indexes (WPI) for material and supplies expenses and the Consumer Price Index (CPI) weighted 5% for services and consumer-related items.

ORA POSITION:

ORA also agrees with the use of the Memo to bring historic dollars to base year dollars by inflating recorded dollars to test year levels. ORA disagrees with CAW's proposed methodology of applying an annual average customer growth factor to recorded years 2009-2012 and including a 2013 sales tax increase of 0.25%.

RESOLUTION:

ORA and CAW, for purposes of Settlement in this case, agree to remove the customer growth factor from all escalation in this proceeding and also agree to remove any consideration of an additional 2013 0.25% sales tax increase.

8.1 CAW CORPORATE

8.2 Overview

This section of the Settlement agreement will address and explain the settlement of general Cal Corp operating expenses that are allocated to all of the districts in the determination of the revenue requirement. The expenses that will be covered in this section are depreciation expense, return on Cal Corp rate base, Other Employee Benefits, and Other Operating Expenses.

8.1.1 Depreciation Expense on Cal Corp Utility Plant

CAW POSITION:

CAW projected depreciation expense of $2,087,700 for 2015 based on the projected average utility plant in service proposed by the Company (as discussed in the Rate Base and Plant sections (Sections 19.6 and 22)) and applying the depreciation rates (as discussed in the Depreciation section of this settlement) including a depreciation rate of 10% for Computer Software.

ORA POSITION:

ORA projected depreciation expense of $1,096,281 for 2015 based on the projected average utility plant in service proposed by ORA (as discussed in the Rate Base and Plant sections of this settlement) and applying the depreciation rates (as discussed in the Depreciation section (Section 19.5) including a depreciation rate of 5.49% for Computer Software.

RESOLUTION:

CAW and ORA have agreed to a depreciation expense of $1,154,712 for 2015 based on the settled amount of average utility plant in service and the settled depreciation rates, including a 5.49% rate for Computer Software.

8.1.2 Return on Cal Corp Rate Base

CAW POSITION:

CAW proposed a return on Cal Corp rate base of $2,367,684 for 2015 based on its proposed average rate base for 2015 and multiplied by the pre-tax return of 12.38%. The average rate base for 2015 was discussed in the Rate Base Section of the settlement agreement (Section 19.6).

ORA POSITION:

ORA proposed a return on Cal Corp rate base of $2,091,629 for 2015 based on its proposed average rate base for 2015 and multiplied by the pre-tax return of 12.38%. The average rate base for 2015 was discussed in the Rate Base Section of the settlement agreement (Section 19.6).

RESOLUTION:

CAW and ORA agree to a return on Cal Corp rate base for 2015 in the amount of $2,205,225 based on a rate base of $17,812,801(as discussed in the Rate Base Section of the settlement agreement) and a pre-tax return of 12.38%.

Cal Corp	CAW	ORA		2015
2015 Projected Test Year	Direct	Direct	Difference	Settlement
Total Cal Corp Return on Rate Base	$ 2,367,684	$ 2,091,629	$ (276,056)	$ 2,205,225

8.1.3 Other Employee Benefits

CAW POSITION:

CAW projected Other Employee Benefits costs of $548,143 for 2015 based on five-year averages and its proposed escalation factors including customer growth and an increase in sales tax of .25% for 2013. For benefits tied to labor (401(k), deferred contribution plan ("DCP"), etc.), these projections were based on the projected level of labor expense.

ORA POSITION:

ORA projected Other Employee Benefits costs of $502,789 for 2015 based on five-year averages and its proposed escalation factors and excluded customer growth and an increase in sales tax of .25% for 2013. For benefits tied to labor (401(k), DCP, etc.), these projections were based on the projected level of labor expense.

RESOLUTION:

CAW and ORA agreed to Other Employee Benefits costs of $540,684 for 2015 based on five-year averages and escalation factors that excludes customer growth and an increase in sales tax for 2013. For benefits tied to labor (401k, DCP, etc.), these projections were based on the settled amount of labor expense.

8.1.4 Other Operating Expenses Cal Corp

CAW POSITION:

CAW projected Other Operating Expenses for Cal Corp of $4,276,361 for 2015. This was based on five-year averages and its proposed escalation factors and included customer growth and an increase in sales tax of .25% for 2013. In addition, bank service charges and customer forms were adjusted to reflect the increased number of bills as a result of monthly billing.

ORA POSITION:

ORA projected Other Operating Expenses for Cal Corp of $3,938,067 for 2015. This was based on five-year averages and its proposed escalation factors and excluded customer growth and an increase in sales tax of .25% for 2013. In addition, bank service charges and customer forms were adjusted to reflect the increased number of bills as a result of monthly billing and a reduction for e-bills. ORA also reduced Dues and Memberships by $119,799.

RESOLUTION:

CAW and ORA agreed to Other Operating Expenses of $4,188,248 for 2015 based on five-year averages and escalation factors that excludes customer growth and an increase in sales tax for 2013. In addition, dues and memberships have been reduced by $29,488.

9.0 SERVICE COMPANY EXPENSES

AWWSC provides services to CAW that enable the Company to fulfill its public utility responsibilities. The services that AWWSC provides includes customer service, water quality testing, innovation and environmental stewardship, human resources, communications, information technology, finance, accounting, tax, legal, engineering, supply chain and insurance services. AWWSC provides these services to CAW at cost. It bills CAW for its services on a monthly basis. Whenever practicable, AWWSC costs are charged directly for services provided. When services benefit more than one entity in American Water, the costs are allocated based on the contract between CAW and AWWSC.

CAW POSITION:

CAW projected AWWSC costs of $12,996,713 for 2015. The projection was based on starting with 2013 detailed Service Company budget. The detailed 2013 budget was adjusted to arrive at the 2015 projected amount. The major adjusting factors were a 3% annual increase for non-union labor, 2% to 2.5% annual increase for union labor, 3% annual increase for pension and other post-retirement benefits expense and a 7.61% annual increase for group insurance. These cost escalations resulted in a 5.3% annual increase in Service Company costs to CAW.

ORA POSITION:

ORA recommended a projection of AWWSC costs of $11,444,769. The projection was based on starting with actual 2012 Service Company labor and labor related costs, with the exception of Information Technology. ORA used the 2013 Information Technology budgeted costs. ORA eliminated labor and labor related costs associated with Service Company Business Development and Service Company Corporate Administration. ORA also recommended eliminating $116,799 of External Affairs costs and $24,932 of Contract Services costs related to Public Relations. Incentive plan costs were reduced 80% for the Annual Incentive Plan and 77.5% for the Long-

term Incentive Plan. For non-labor related expenses, ORA started with the 2013 budgeted expenses. ORA then used inflation factors of 2.1% for 2013 and 1.5% for 2014 and 2015 for labor and related expenses. For non-labor related expenses, ORA used 1.6% and 2.28% inflation for 2014 and 2015.

RESOLUTION:

CAW and ORA agreed to a level of AWWSC costs for 2015 in the amount of $11,600,000, which reflects the inclusion of approximately $200,000 of additional Incentive Plan costs over the amount proposed by ORA. This is consistent with the stipulation reflecting 75% of the Annual Incentive Plan and 15% of the Long-term Incentive Plan costs which is discussed in the CAW section(Section 7.1.1).

Service Company 2015 Projected Test Year	CAW Direct	ORA Direct	Difference	2015 Settlement
Projected Amount	$ 12,996,713	$ 11,444,769	$ (1,551,944)	$ 11,600,000

10.1 REVENUES AND RATE DESIGN

10.2 Revenues

10.1.1 Calculation of Present and Proposed Revenues for Results of Operation Purposes

CAW REQUEST:

CAW uses Standard PUC rate design to calculate revenues at both present and proposed rates.

ORA POSITION:

ORA recommends that CAW be required to present actual rates included in the company's tariff sheet in all of its workpapers, which would simplify analysis between the application workpapers and actual rate design.

RESOLUTION:

ORA and CAW agree that CAW will use the actual present and proposed tariff rates to develop revenues at both present and proposed rates in future GRCs. CAW may still develop revenues under the Standard CPUC rate design for cost of service allocation. All bill comparisons will be done under the actual present and proposed tariff rate designs.

REFERENCES: CAW Application Exhibit A's Chapter 3, page 2. Hearing Exh. 12 and 12-A, ORA Korthamar Direct, ORA Report 6 on Revenues and Rate Design, Chapter 2, pp.1-3.

10.1.2 Presentation of Relationship Between Percent of Revenue to Percent of Consumption in Each Customer Classification

CAW POSITION:

CAW did not raise this issue in its direct showing in this proceeding.

ORA POSITION:

ORA recommends that CAW provide workpapers showing the relationship between the percentage of revenue for each customer classification and the percentage of consumption for the same customer classes in future GRC's so that the CPUC and future ORA analysts remain aware of this as there appears to be an increasing divergence of these percentages between 2012 and 2015.

RESOLUTION:

CAW agrees to provide workpapers showing the relationship between the percentage of revenue for each customer classification and the percentage of consumption for the same customer classes in future GRC's. The presentation will be made via a bar chart and be shown for both present and proposed test year rates. The presentation will be included in the operating revenue chapter of the Results of Operations Reports for all water districts.

REFERENCES: Hearing Exh. 12 and 12-A, ORA Korthamar Direct, ORA Report 6 on Revenues and Rate Design, Chapter 2, pp. 1-3.

10.1.3 Presentation of Percentage of Revenues Collected Through Meter Charges

CAW POSITION:

CAW did not raise this issue in its direct showing in this proceeding.

ORA POSITION:

ORA recommends that in future GRC's, CAW provide workpapers showing the decreasing percentage of revenue collected from meter charges and the effects this may have on CAW's risk profile.

RESOLUTION:

CAW agrees to provide workpapers showing the percentage of revenue collected through meter charges in future GRC's. The presentation will be made via a table presentation and will include five years of historical data and a projection of the applicable test year. The presentation will be included in the operating revenue chapter of the Results of Operations Reports for all water districts.

REFERENCES: Hearing Exh. 12 and 12-A, ORA Report 6 on Revenues and Rate Design, Chapter 2, pp. 1-3

10.1.4 Monterey Free Water Use Customers

CAW REQUEST:

CAW did not file any request in this application in regards to free water customers in the Monterey District

ORA POSITION:

ORA recommends that CAW be required to update the Commission in its next GRC on the status of reviewing the deeds and contracts to determine whether it can negotiate termination of free service and if so at what cost in conformity with the settlement agreement that ORA and CAW agreed to in D.09-02-006.

RESOLUTION:

CAW agrees that it will provide an update on the Monterey free water customers as proposed by ORA in conformity with the settlement agreement that ORA and CAW agreed to in D.09-02-006.

REFERENCES: Hearing Exh. 12 and 12-A, ORA Report 6 on Revenues and Rate Design, Chapter 1, pp. 1-3 and 37.

10.3 Rate Design

10.2.1 Proposed General Metered Rate Designs for All Water Districts Except Monterey Main System and Sacramento

CAW REQUEST:

CAW did not propose any specific rate design changes for any district except to adjust the block widths and rate percentage differences between blocks to correspond to the settlement provisions in D.12-11-006.

ORA POSITION:

ORA does not oppose the rate design proposed by CAW in this application for Larkfield, Ventura, San Diego, Los Angeles, Garrapata, and Toro service areas.

RESOLUTION:

ORA and CAW agree to the design as proposed by CAW.

REFERENCES: Hearing Exh. 30-D**,** CAW Stephenson Supplemental pp 2-17, Hearing Exh. 12 and 12-A, ORA Report 6 on Revenues and Rate Design, Chapter 2, pp. 1

10.2.2 Proposed General Metered Rate Design & WRAM/MCBA for Sacramento

CAW REQUEST:

CAW proposes that residential customers in the Sacramento District be placed under a two-tier inclining block rate design with a modest price differential of 10% between the tier rates and 25% of fixed costs recovered in the monthly fixed charges, and that all other customers continue on a single block rate with 25% of the fixed costs recovered in the monthly fixed charges. In addition, with the proposal to institute a WRAM/MCBA program consistent with the same parameters as in all other CAW districts, it is appropriate to have modest changes in the rates and tiers break points so that drastic changes do not result in large balances in the WRAM. Just as with all other districts where tiered residential conservation are in place, the requested WRAM/MCBA mechanism will authorize CAW to track fixed cost recovery variations as a result of implementing a rate design in which more fixed costs are recovered in the quantity rate and tiered rates are employed. The requested WRAM would track all under or over recoveries of authorized fixed costs collected as part of the quantity rates, and the requested MCBA would track the under or over recovery of actual purchased water and power costs from customers. The calculations that the Commission authorizes for the Sacramento district should determine the actual over or under collections. With the adoption of a WRAM in Sacramento, all districts in CAW where tiered rates are in place will be supported by a WRAM, including Toro.

ORA POSITION:

ORA does not oppose the rate design proposed by CAW in this application for the Sacramento District. ORA does not oppose the WRAM/MBCA for the Sacramento District.

RESOLUTION:

ORA and CAW agree to the design as proposed by CAW, including the establishment of the WRAM/MCBA for the Sacramento District in accordance with D.08-11-023 Appendix A, as modified by the settlement agreement adopted in D.12-06-016.

REFERENCES: Hearing Exh. 30-D**,** CAW Stephenson Supplemental pp 4-9, Hearing Exh. 12 and 12-A, ORA Report 6 on Revenues and Rate Design, Chapter 2, pp.1-3 and 5-6.

10.2.3 Proposed General Metered Rate Design for Monterey, Excluding Mixed-use Customers

CAW REQUEST:

CAW proposes that the appropriate presentation in this case is to maintain the parameters agreed to by all the parties in the Settlement Agreement approved by the California Public Utilities Commission ("Commission") in D.12-11-006. The maintenance of the terms of the Settlement Agreement and D.12-11-006 for the Toro sub-system, and application of the same general

parameters to the Ambler Park and Ralph Lane sub-systems, allows for the development of new rates that meet the goal of promoting conservation through appropriate price signals. This rate design will maintain a separate design for Garrapata wherein the rates are inflated by CPI only. The Ambler Park and Ralph Lane systems are increased only by the overall increase percentage for the Monterey system. The exact details of the Monterey rate design and revenue cost of service allocation are detailed in Attachment A-6.

ORA POSITION:

ORA does not oppose the rate design proposed by CAW in this application for general metered customers (except mixed-use per Section 10.2.4 below) in Monterey.

RESOLUTION:

ORA and CAW agree to the design as proposed by CAW. A WRAM in Toro shall be in place in accordance with the provisions specified in Appendix A to D.09-07-021 and as modified by D12-06-016, Appendix A.

REFERENCES: Hearing Exh. 30-D**,** CAW Stephenson Supplemental p 2, Hearing Exh. 12 and 12-AORA Report 6 on Revenues and Rate Design, Chapter 2, pp. 17.

10.2.4 Proposed Rate Design for Monterey Mixed-Use Customers

CAW REQUEST:

CAW proposes to define a calculation methodology that can be used consistently among current mixed-use customers, which are defined by the tariff as on or before December 31, 2014 with domestic water service on the customer's premise, with both residential and non-residential uses through a single meter. Minor changes are being proposed to remain consistent with the design established in D.12-06-016 for the residential and non-residential customers in the Monterey County District. Mixed-use customers are currently billed under residential rates and the residential rate design parameters. Tier 1 allotment is the allotment based on the number of occupants per service. The Tier 2 allotment is the amount for occupants plus the non-residential allotment. Tier 3 and 4 allotments are 7.5% of Tier 2 allotment plus the allotment for the number of occupants.

ORA POSITION:

ORA recommends that the mixed-use customers continue to be billed according to the residential rates and rate-design parameters. To the extent that mixed-use customers are currently billed based on the allotments that CAW reported as "current," these are not consistent with the rate design settlement adopted in Decision 13-07-041 and the Commission should order CAW to immediately correct those billing allotments.

RESOLUTION:

The parties agree to continue to bill these customers under the residential rate design, but in a manner that provides allotments for both the residential and non-residential use that are then combined together to develop a specific allotment for each of the 5 residential tiers. See Attachment E-6 for the agreed upon tariff language. ORA and CAW further agree that, at the next general rate case, they will consider reviewing the billing methodology for mixed-use customers under the tariff. The review would affect only those mixed use customers who have been grandfathered into residential rates because their CAW service commenced on or prior to December 31, 2014.

REFERENCES: Hearing Exh. 30-D, CAW Stephenson Supplemental pp 8-9, Hearing Exh. 12 and 12-A, ORA Report 6 on Revenues and Rate Design, Chapter 2, pp. 11-12 and 14-15.

10.2.5 Proposed Low Income Discount Modification

CAW REQUEST:

CAW proposed a change to the Low Income assistance program to allow the credit to be based on 20% of the total billed amount.

ORA POSITION:

ORA recommends that the Commission adopt ORA's proposed Low Income Program in which upon review of each customer bill, CAW would apply the lesser of the two low income discounts, either the existing flat fee discount or the CAW proposed 20% off the total bill.

RESOLUTION:

CAW and ORA agree that the low income discount of 20% shall be applied to all monthly service fees, the tier one billed usage amount and the tier two usage amount. This will in fact put a cap in the total allowed amount in all districts and is appropriate. The difference between what would have been billed at the regular residential rates for the meter charge, and the tier 1 and tier 2 rates; and the amounts actually billed under the low income rates for the meter charge, and the tier 1 and 2 rates will be the amount debited to the low income balancing account as the low income discounts provided.

REFERENCES: Hearing Exh. 30, ***Direct Testimony of David P. Stephenson, dated July 1, 2013,*** **("**CAW Stephenson Direct"), pp 27-30, Hearing Exh. 12 and 12-A, ORA Report 6 on Revenues and Rate Design, Chapter 2, p. 19.

10.2.6 Chualar and Ralph Lane

CAW REQUEST:

For Chualar, CAW proposes that the present rates at the time of a decision in this case be simply inflated by the most current ORA composite inflation factor, and continue to be inflated in such a manner, at least through 2017.

ORA POSITION:

ORA did not opine on this request in this case.

RESOLUTION:

CAW and ORA agree that there is currently no summary of earnings that identifies specific costs associated with serving Chualar and Ralph Lane. For 2015, CAW will increase base rates in these two systems by the overall revenue percentage increase for the Monterey system. In lieu of a traditional step advice letter that includes a pro-forma earnings test for escalation years 2016 and 2017, CAW will only increase rates in the Chualar by inflation, as determined by the consumer price index. CAW will increase base rates in Ralph Lane by the overall Step increase percentage in 2016 and 2017.

REFERENCES: Exh. 30, *Direct Testimony of David P. Stephenson, dated July 1, 2013,* **("**CAW Stephenson Direct"), pp 46-47, Exh. 12 and 12-A,

11.1 ESCALATION AND ATTRITION

11.2 Use of Recorded Revenues for the Pro-Forma Test

CAW POSITION:

CAW uses its interpretation of the Pro-Forma test requirements and multiplies the actual number of customers by the authorized consumption per customers for residential and commercial classifications and then multiplies the product by the appropriate rates to determine the Pro Forma revenues for these two classifications, and then adds to that the recorded revenues for all other classifications.

ORA POSITION:

ORA recommends that for CAW's 2016 and 2017 escalation year filings, the Commission should require CAW to use the recorded revenues for the Pro-Forma year for the "Pro-Forma Revenues" used to calculate the Pro-Forma Rates of Return.

RESOLUTION:

For purposes of this application, ORA will withdraw the requests to use recorded revenues and customers in the escalation and attrition year revenue requirement determinations.

REFERENCES: Exh. 30-B and 30-C, CAW Stephenson Rebuttal, pp 4-16; Exh. 32, Direct Testimony of Suzie Rose, dated March 28, 2014, ("ORA Rose Direct"), *ORA Analysis and Recommendations Report on Escalation and Attrition of CAW Company Application 13-07-002,* dated March 28, 2014*, "(*ORA Report # 10"), pp 13-19

11.3 Use of Five-year Customer Growth for Escalation Year Filings

CAW POSITION:

CAW uses its interpretation of the requirements for customer growth and uses actual number of customers in the pro forma calculations and uses the latest Commission authorized number of customers for the escalation year and the difference between the escalation year and test year number of customers added to the escalation year to set the number of customers in the attrition year.

ORA POSITION:

ORA recommends that for CAW's 2016 and 2017 escalation year filings, in estimating the escalation year revenues, the Commission should require CAW to adjust for the five-year average growth for all customer classes.

RESOLUTION:

For purposes of this application, ORA will withdraw the requests to use the actual five-year growth in customers in the escalation and attrition year revenue requirement determinations, and instead rely on the accepted growth as shown above (see Section 3.1) above for determining the proposed step rate increase and associated rates.

REFERENCES: Exh. 30-B and 30-C, CAW Stephenson Rebuttal pp 4-16, ORA Report # 10 pp 19-23.

12.1 INCOME TAX

12.2 State and Federal Tax Rates

CAW REQUEST:

CAW has used tax rates of 8.84% and 35% respectively for the determination of the forecasted expense for State and Federal taxable income.

ORA POSITION:

ORA agrees with the recommendations of CAW.

RESOLUTION:

CAW and ORA agree on the tax rates applicable to taxable net income.

REFERENCES: CAW Chapter 6 of Exhibit A, Exh. 22, Direct Testimony of Edward Grubb, dated July 1, 2013, ("CAW Grubb Direct"), pp. 2-3; Exh. 13 and 13-A, Direct Testimony of Michael Conklin, dated March 28, 2014, *ORA Analysis and Recommendations on General Office, Jncome Taxes and Taxes and Other Jncome of CAW Company Application 13-07-002,* dated March 28, 2014 ("ORA Report No. 5"), Ch. 2, p. 79.

12.3 State Tax Deductibility for Federal Tax

CAW REQUEST:

CAW has used the prior year State taxes for the current deduction for Federal taxable income.

ORA POSITION:

ORA currently recommends no change to CAW's timing of the California Corporate Franchise Tax ("CCFT") expense deduction for Federal Income Tax ("FIT") due to the Commission granting a limited rehearing on the proper treatment of the matter in another proceeding.

RESOLUTION:

CAW and ORA agree on the methodology used by CAW for revenue requirement determinations in this case.

REFERENCES: CAW Chapter 6 of Exhibit A, Exh. 22, CAW Grubb Direct, pp. 2-3; Exh. 13 and 13-A, ORA Report #5, Chapter 2, p.79.

12.4 Ratemaking Interest

CAW REQUEST:

CAW has calculated its Ratemaking Interest Expense for CCFT and FIT by multiplying its authorized Weighted Cost of Debt by its Weighted Average Rate Base. CAW determined its Weighted Cost of Debt using the factors adopted by the Commission in D.12-07-009.

ORA POSITION:

ORA agrees with the calculation as proposed by CAW.

RESOLUTION:

CAW and ORA agree on the methodology used by CAW.

REFERENCES: CAW Chapter 6 of Exhibit A, Exh. 22, CAW Grubb Direct, pp. 3-4; Exh. 13 and 13-A, ORA Report #5, Chapter 2, p.79.

12.5 Domestic Production Activities Deduction ("DPAD")

CAW REQUEST:

CAW calculates the DPAD using the procedure recommended by the Commission in its previous GRC.[3]

ORA POSITION:

ORA agrees with the calculation as proposed by CAW.

RESOLUTION:

CAW and ORA agree on the methodology used by CAW.

REFERENCES: CAW Chapter 6 of Exhibit A, Exh. 22, CAW Grubb Direct, pp. 3-4; Exh. 13 and 13-A, ORA Report #5, Chapter 2, pp. 79-80.

12.6 168 (k) Bonus Depreciation

CAW REQUEST:

In this GRC filing CAW made the assumption that bonus depreciation would expire on January 1, 2014.

ORA POSITION:

ORA notes that although the most recent allowance for 50% bonus depreciation is set to expire on January 1, 2014, throughout the year Congress is still able to vote to extend bonus depreciation retroactively, and has done so in the past. In fact, there has been at least some type of bonus depreciation enacted each year beginning in 2001. In the event Sec.168(k) bonus depreciation is extended through 2014, ORA recommends the Commission require CAW to submit an Advice Letter establishing a memorandum account to capture its effects. ORA recommends this memorandum account follow the directives of Commission Resolution L-411A, and as such should be a one-way memorandum account.

RESOLUTION:

CAW and ORA agree on the ORA proposal to establish a memorandum account in line with Commission Resolution L-411A effective with the date of the decision. The memorandum account shall reflect not only the tax benefits of the Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010 (the "Tax Act") and any extensions of the Tax Act, but other direct changes in revenue requirement resulting from CAW's taking advantage of the Tax Act. Such changes may include, but are not limited to, impacts on Section 199

[3] In CAW's last GRC, the Commission explained that it is reasonable to apply the DPAD to reduce the income tax obligation for ratemaking purposes. D.12.06.016 at 44.

deductions, working cash, and contributions in aid of construction. So as not to discourage CAW from using the tax savings resulting from the Tax Act for investment in additional, needed infrastructure, CAW and ORA agree that the costs and expenses of that infrastructure during the rate case cycle and not otherwise reflected in rates shall also be reflected in the memorandum account. This memorandum account shall be used in determining whether any future rate adjustment is appropriate in CAW's next general rate case (TY 2018) to reflect impacts of the Tax Act during 2015, 2016, and 2017. In maintaining this memorandum account, CAW shall record, among other things: (1) changes in revenue requirement resulting from increases in deferred tax reserve; (2) offsets to reflect additional costs or expenses, not otherwise recovered in rates, incurred as a result of additional utility infrastructure investment enabled by the bonus depreciation provisions of the Tax Act. In the next GRC, the Commission shall address the disposition of amounts (a) recorded in the memorandum account and (b) forecast for the remainder of this general rate case period (2015-2017), and may reflect any net revenue requirement impacts in prospective rates. Consistent with Commission Resolution L-411A, the memorandum account will be a one-way memorandum account. This means that this memorandum account shall not be used to recover any net revenue requirement increase. If, at the end of the period covered by the memorandum account, the account reflects a net revenue requirement increase, the memorandum account shall be terminated without any impact on rates. The following limits apply to the additional needed utility infrastructure investments that may be tracked in the memorandum account: the property that the investment is made in must be Commission-jurisdictional; the property that the investment is made in must itself be eligible for bonus depreciation; (d) at least 90% of the investment must have a tax depreciable life of at least 15 years, and any remaining investments must be ancillary to such investments.

12.7 Internal Revenue Code ("IRC") Sec. 481 (a) Adjustment for T.D. 9636

CAW REQUEST:

In this GRC filing CAW made no assumption in regards to any adjustment that may be required to the rules it employs to determine a final repairs expense deduction.

ORA POSITION:

To the extent the IRS final repairs expense deduction rules provided for in T.D. 9636 cause CAW or Service Company to file for a Sec. 481(a) adjustment, or to file a Form 3115, ORA recommends treating the associated accumulated deferred federal income taxes ("ADFIT") on a normalized basis. ORA further requests that the Commission require CAW to submit an Advice Letter establishing a memorandum account in order to capture and quantify any resulting benefits to ratepayers.

RESOLUTION:

CAW and ORA agree that CAW shall file for a memorandum account to capture qualified benefits resulting from a ruling by the IRS on the deductibility of repair costs as assumed by CAW. The memorandum account will be filed through a Tier 2 advice letter if and when the IRS causes American Water Works to file for an adjustment. Any benefits will be captured prospectively from the date of the advice letter filing.

13.0 AFUDC PROPOSAL

CAW REQUEST:

CAW has historically included all spend on construction in rate base including spend on projects that are in the development/construction phase. This was to allow the Company to earn a return on all spend to ensure that continued funding would be available for all construction projects.

The Commission's Water Action Plan states:

> "AFUDC does not provide utilities with needed cash flow for significant investments, and results in higher costs to customers due to higher carrying charges on invested capital."[4]
>
> "Sharp increases in rates over a short period of time can provide substantial financial challenges to ratepayers. With Construction Work in Progress, it is possible to level-off plant investment start-up costs by averaging those costs over several billing periods, and ratepayers are better able to allocate the funds required to pay their bills. The overall costs of the plant are reduced, because the water utility has lower interest payments, and the ratepayers benefit from the resulting lower rates. Water utilities also benefit from having start-up costs averaged over several billing periods early during the investment cycle, rather than having to wait until the plant actually is ready for service (as they would if AFUDC were used instead). For certain long-term projects, the Commission will consider accounting for Construction Work in Progress in rate base as the appropriate policy."[5]

[4] 2005 Water Action Plan, p. 22.
[5] *Jd.*

> "Similarly, certain valid development costs incurred prior to actual plant start-up, such as environmental compliance costs and engineering costs, can be passed-through to ratepayers as they occur, rather than deferring the charges until actual plant start-up, which ratepayers may find more difficult to pay as a much larger one-time charge. This prepay account would reduce the carrying cost of the plant, thereby reducing the overall cost of the plant."[6]

> "The Commission will seek to develop and implement programs that will increase the ability of water utilities, particularly the smaller utilities to get access to the capital they need to build adequate infrastructure to provide clean and reliable water not only today but in the future. The Commission encourages all participants in our proceedings to develop and propose innovative approaches to assist water utilities, particularly the smaller Class C and D water utilities."[7]

In the current GRC, ORA has not forecast 2017 plant additions or taken any position on the prudency or reasonableness of projects scheduled for completion in 2017 after 2016. ORA also states that for any projects not completed prior to 2017, recovery of prudent and reasonable costs (including capitalized carrying costs) should be authorized and begin with the next GRC. There are at least eight capital projects impacted by ORA's approach:

Los Angeles - Patton Tank Rehabilitation/Reconstruction project (I15-500050) - $232,000 in 2017; completion in 2019.

Los Angeles - Oak Knoll Reservoir Rehabilitation project (I15-500051) - $580,000 in 2017; completion in 2018.

San Diego - Replace 52,000 Ft of 16-inch Main in Silver Strand project (I15-300010) - $232,000 in 2017; completion in each year, ten year program.

Ventura - Upgrade Springwood Booster Station project (I15-510030) - $93,000 in 2017; completion in 2018.

Ventura - Upgrade Wildwood Hydro Booster Station project (I15-510031) - $104,000 in 2017; completion in 2018.

Ventura - Replace White Stallion Domestic Booster Station project (I15-510032) - $46,000 in 2017; completion in 2018.

Ventura - Upgrade Wildwood Booster Station project (I15-510033) - $23,000 in 2017;

---

[6] *Jd.*
[7] *Jd.*

completion in 2018.

Ventura - Upgrade SCADA System (I15-510034) - $58,000 in 2017; completion in 2020.

ORA also removes CWIP from the two test years for all projects expected to be placed into service after 2016. There are at least six capital projects that are impacted by ORA's approach:

Los Angeles - Rehabilitate/Redrill Longden Well project (I15-500036) - $4,044,000; 2016 - $225,000; 2017 - $1,739,000; 2018 - $2,080,000.

Los Angeles - Booster Station Upgrades project (I15-500038) - $2,326,000; 2016 - $135,000; 2017 - $1,391,000; 2018 - $800,000.

Los Angeles - Upgrade SCADA System project (I15-500041) - $1,710,000; 2015 - $55,000; 2016 - $844,000; 2017 - $811,000.

Los Angeles - Arlington Well TCE Treatment project (I15-500048) - $1,635,000; 2016 - $281,000; 2017 - $754,000; 2018 - $600,000.

San Diego - Replace 2,450 Ft of 18-inch Main in Elm Avenue project (I15-300008) - $2,020,000; 2015 - $546,000; 2016 - $1,126,000; 2017 - $348,000.

San Diego - Upgrade SCADA System project (I15-300011) - $1,129,000; 2015 - $109,000; 2016 - $788,000; 2017 - $232,000.

ORA POSITION:

Since CAW's estimates of projects to be completed in 2017 fall outside of the two ratebase test years, ORA takes no position on the prudency or reasonableness of these projects. CAW should exercise the managerial diligence necessary in determining the necessity and reasonableness of capital projects. For projects that neither CAW nor ORA anticipate to be completed prior to 2017, recovery of all prudent and reasonable costs (including capitalized carrying costs) should be authorized and begin in CAW's next GRC.

In the current proceeding, CAW has estimated twelve plant additions to be completed and in service in 2017. However, the only rate impacts associated with these projects in the current GRC cycle are the estimated amounts of construction work in progress ("CWIP"). Furthermore, CWIP can only impact rates in the test years to the extent the Commission allows CWIP to be included in ratebase for projects that are neither complete nor expected to be used and useful during the test years. ORA has removed CWIP amounts from the two test years for all projects CAW anticipates being in service after 2016. Removing CWIP amounts from ratebase for projects that will not be used or useful in the test years is reasonable. ORA recommends that CAW be permitted to capitalize interest at the Company's actual weighted cost of debt during construction on all projects to be completed after the two test years in A.13-07-002. In CAW's next general rate case and after actual (not forecasted) completion of these projects, CAW should be permitted to place all reasonable and prudent capital costs in ratebase.

RESOLUTION:

CAW and ORA agree that for the purposes of determining rate base for 2015, 2016, and 2017, in this proceeding and for this rate case cycle only, for projects not completed and in service prior to 12/31/2016, the spend on those projects will not be included in rate base (or in the revenue requirements). This is for the purposes of this case only and will not be precedential in any succeeding proceeding. CAW reserves its right to earn AFUDC during the rate case cycle as set forth below for all projects not included in the revenue requirement as well as for projects not identified in this settlement agreement during the rate case cycle.

In lieu of including the proposed accumulated spend in rate base, CAW and ORA agree that CAW will be able to capitalize the carrying cost (AFUDC) of the project's reasonable and prudent costs into the project's overall cost up until the time the project is completed and in service and then capture separately in an off book regulatory account the carry cost of the project from the time it is completed until it goes into rates and rate base.

CAW and ORA agree that the utility shall conduct its ongoing construction programs in a manner that is deemed appropriate by utility management, consistent with Commission requirements, and which includes meeting the requirements of other agencies to provide safe and reliable service, meet water quality regulations and to adhere to environmental agreements and laws.

The agreed-upon process for settlement purposes only in this rate case is in recognition of ORA's concern for associated with the proposed spend authorized in the previous general rate case proceeding for CAW and the variance between actual and proposed spend. The Settling Parties intend that the AFUDC proposal shall allow the Company to remain whole on actual spend by capitalizing the AFUDC and then recovering the carry cost after the project is in service prior to being authorized in the revenue requirement, in recognition of ORA's concern that delays could impact the current cost to customers.

The agreed upon process will be as follows: For the projects that are under construction by CAW but are not included in rate base, nor the revenue requirement by 12/31/16, the Company will be allowed to capitalize AFUDC on the project until it is completed and in service. This compromise treatment and process is for this proceeding and this rate case cycle and will end at 12/31/17. Once in service CAW will then track in an off book regulatory account the full carry cost of the project until it is recognized in rate base and the revenue requirement. The AFUDC component will be charged to the project in compliance with Standard Practice U-38-W, Utility Plant Instruction 17, which states:

> "'Interest during construction' includes the net cost of borrowed funds used for construction purposes and a reasonable rate upon the utility's own funds when so used. Interest during construction may be charged to the individual job upon which the funds are expended and, if so charged, shall be credited to Account 536, Interest Charged to Construction-Cr."

Additionally, the Standard Practice states that no AFUDC will be charged to a project after the project is in service, and therefore CAW and ORA agree that the carry cost of the project will need to be tracked in an off book regulatory account for recovery in rates as an additional cost of service to be made as new rates are proposed in the succeeding general rate case.

For purposes of the actual AFUDC calculation, it will be calculated as follows:

1. During Construction:
   a. The weighted average authorized cost to debt in effect for the relevant time period will be used to calculate the AFUDC charged to the project while under construction.
2. Once in Service but before allowed in rate base:
   a. The current authorized weighted after-tax cost of capital for CAW will be used
   b. The carry cost as computed by the above will be tracked in the off book regulatory account.

One purpose for the allowance of CWIP in rate base is to give the utility some assurance that prudency of the project has been reviewed by the Commission before work on that project has begun. With the proposal in this case, wherein projects not completed by 2016 are not in any way reviewed for prudency or any other approval metric, the risk of recovery of the costs expended by the utility on those projects is shifted in the entirety to the utility until such time as the project is recognized as reasonable and prudent by the Commission.

14.1 DISTRICT EXPENSES

14.2 Purchased Water

CAW REQUEST:

CWA's Purchased Water estimates, except for Monterey County, are based on normalized consumption and production estimates computed at the most current commodity and assessment rates from the Purchased Water provider. For Monterey County, the amount is based on a five-year average of Seaside Basin Replenishment fees escalated for inflation, customer growth and sales tax increase. *See* Exhibit A, Chapter 3.

ORA POSITION:

ORA finds CAW's estimates using a five-year average escalated for inflation only reasonable. ORA also finds CAW's methodology reasonable for districts other than Monterey based on

normalized consumption and production estimates but recommends that its consumption forecasts change.

RESOLUTION:

ORA and CAW agree to calculate purchased water costs consistent with agreed upon total production and recognition of set well and other source limitations. CAW and ORA also agree that the cost of purchased water should be as determined in Attachment B-1 to this Settlement, and that determination accounts for purchases reflecting the price structures of the providers. CAW and ORA also agree to reduce Monterey purchased water expense to $54,780 from $591,000 to reflect most recent amount of Seaside Administrative Fees. The Seaside Administrative Fees are tracked as part of the Seaside Groundwater Basin Balancing Account and are therefore not part of Monterey's Modified Cost Balancing Account.

Purchased Water	CAW	ORA		2015
2015 Projected Test Year	Direct	Direct	Difference	Settlement
Larkfield	$ 327,069	$ 356,970	$ 29,900	$ 329,496
Los Angeles County	$ 4,610,883	$ 5,080,080	$ 469,197	$ 4,637,593
Monterey County	$ 541,669	$ 539,969	$ (1,700)	$ 56,735
Sacramento	$ 1,655,309	$ 1,783,064	$ 127,755	$ 1,671,863
San Diego County	$ 11,097,290	$ 11,935,387	$ 838,097	$ 16,197,091
Ventura County	$ 19,445,957	$ 21,413,752	$ 1,967,795	$ 20,880,389

REFERENCES: CAW Exh. A,- Ch. 2, Tbl2.2, ORA Exh.A,-Ch2, Tbl2.2, Exh. 21, Direct Testimony of Jeffrey Dana dated July 1, 2014, ("CAW Dana Direct"), p.43, Exh. 7, Direct Testimony of Terence Shia, dated March 28, 2014 ("ORA Shia Direct"), *ORA Analysis and Recommendations on Operations & Maintenance Expenses and Special Requests: 18,23,27,30,31 of CAW Company Application 13-07-002*, dated March 28, 2014, (ORA Report # 2), pp.1-12, 1-13.

14.3 Purchased Power

CAW REQUEST:

Purchased power costs were calculated using a one-year historical average of kilowatt usage and kilowatt per water production unit figures. An average kilowatt-hour cost was computed based on the most recent actual billing data from CAW's power providers. This average kilowatt per hour cost was then multiplied by the total estimated kilowatt usage calculated based on estimated water production quantities (estimated production times the historical kilowatt per production unit figure).

ORA POSITION:

ORA recommends that its consumption forecasts be used to forecast purchased power.

RESOLUTION:

ORA and CAW agree to align purchased power costs to reflect agreed upon total production and the latest power provider costs and rate structures of the providers.

Purchased Power	CAW	ORA		2015
2015 Projected Test Year	Direct	Direct	Difference	Settlement
Larkfield	$ 90,709	$ 99,002	$ 8,293	$ 91,382
Los Angeles County	$ 1,851,602	$ 1,958,116	$ 106,514	$ 1,795,793
Monterey County	$ 2,334,395	$ 2,436,838	$ 102,443	$ 2,302,832
Sacramento	$ 2,405,435	$ 2,600,391	$ 194,956	$ 2,432,065
San Diego County	$ -	$ -	$ -	$ -
Ventura County	$ 248,823	$ 275,752	$ 26,929	$ 254,041

14.4 Chemicals

CAW REQUEST:

CAW estimated chemical costs for 2015 using a five year historical inflated average.

ORA POSITION:

ORA removes CAW's customer growth and sales tax multipliers from the calculated averages.

RESOLUTION:

ORA and CAW agree to compromise on chemical expenses as set forth below.

Chemicals	CAW	ORA		2015
2015 Projected Test Year	Direct	Direct	Difference	Settlement
Larkfield	$ 25,768	$ 25,250	$ (518)	$ 25,158
Los Angeles County	$ 118,821	$ 118,326	$ (496)	$ 117,867
Monterey County	$ 521,008	$ 517,567	$ (3,441)	$ 515,701
Sacramento	$ 510,051	$ 497,786	$ (12,265)	$ 495,914
San Diego County	$ -	$ -	$ -	$ -
Ventura County	$ -	$ -	$ -	$ -

REFERENCES: CAW Exh. A,- Ch. 2, Tbl2.2, ORA Exh.A,-Ch2, Tbl2.2 , Exh. 21, CAW Dana Direct , p.44, Exh. 7, ORA Shia Direct, *ORA Analysis and Recommendations on Operations & Maintenance Expenses and Special Requests: 18,23,27,30,31 of CAW Company Application 13-07-002*, dated March 28, 2014, (ORA Report # 2), pp.1-15.

14.5 Uncollectibles

CAW REQUEST:

CAW based its estimate on the average uncollectible percentage of the last 5 years of history. In addition, starting in 2015 an amount was included for leak adjustments, which was recommended by ORA's November 6, 2012 protest to Advice Letter 970.

Recognizing that leak adjustments increased significantly in the Monterey County District, ORA and CAW signed a Memorandum of Understanding in February of 2013 agreeing to a methodology for incorporating leak adjustments in the revenue requirement on a going-forward basis. The estimated leak adjustments were based on the 2012 actual percentage. On June 27, 2013, the Commission adopted Res. W-4951 which authorized CAW's Advice Letter (Advice Letter 991) that requested a memorandum account to track revenue shortfalls associated with leak adjustments.

ORA POSITION:

Any differences between ORA and CAW forecasts are a result of different revenue forecasts.

RESOLUTION:

ORA and CAW agree to compromise on uncollectibles expenses as set forth below.

Uncollectibles	CAW	ORA		2015
2015 Projected Test Year	Direct	Direct	Difference	Settlement
Larkfield	$ 27,770	$ 24,630	$ (3,140)	$ 27,311
Los Angeles County	$ 242,700	$ 224,314	$ (18,386)	$ 228,363
Monterey County	$ 3,806,400	$ 3,252,690	$ (553,710)	$ 3,557,546
Sacramento	$ 337,600	$ 300,909	$ (36,691)	$ 315,321
San Diego County	$ 133,650	$ 129,330	$ (4,320)	$ 159,905
Ventura County	$ 215,020	$ 216,330	$ 1,310	$ 218,745

REFERENCES: CAW Exh. A,- Ch. 2, Tbl2.2, ORA Exh.A,-Ch2, Tbl2.2, , Exh. 21, CAW Dana Direct, p. 44, Exh. 7, ORA Shia Direct, *ORA Analysis and Recommendations on Operations & Maintenance Expenses and Special Requests: 18,23,27,30,31 of CAW Company Application 13-07-002*, dated March 28, 2014, (ORA Report # 2), pp.. 1-24.

14.6 Tank Painting/Maintenance

CAW REQUEST:

The tank maintenance program maximizes the life span of numerous tanks and reservoirs throughout the state through continual assessment and regular maintenance. The tank maintenance program is also designed to implement tank and reservoir improvements to meet existing and future laws, codes, and regulations. The expenditures included for tank painting in the Tank Maintenance Program are deferred tank painting expenses. These expenses were

derived by assessing which tanks would require maintenance in years 2015-2018 in compliance with existing and future laws, codes and regulations. The number of tanks scheduled for tank painting maintenance from 2015-2018, by district, are as follows:

- San Diego County-2,
- Los Angeles County District-13,
- Ventura County District-12,
- Sacramento District-9,
- Monterey County District-25,
- Larkfield District-0.

Dollars discussed in this section do not include the capitalized portion of the Tank Maintenance program which is discussed as part of the recurring project section of the capital budget.

ORA POSITION:

ORA recommends reducing the forecast of 2015 expenditures for tank painting amortization expenses based on the issues ORA found in discovery regarding proposed tank projects in 2013 that were not completed.

RESOLUTION:

ORA and CAW agree to compromise on tank painting/maintenance expenses as set forth below. Tank painting/maintenance expenditures were revised in Monterey and Sacramento to shift 2015 expenditures by $1.91M to 2016 and $1.895M of expenditures from 2016 to 2017. It is agreed that all tank painting/maintenance expense should be deferred and amortized to expense over a useful life of five years for study costs and ten years for all other tank painting costs. A more detailed list of tank projects by districts is included here as Attachment B-4.

Tank Painting 2015 Projected Test Year	CAW Direct	ORA Direct	Difference	2015 Settlement
Larkfield	$ 28,157	$ 13,177	$ (14,980)	$ 52,697
Los Angeles County	$ 162,927	$ 70,674	$ (92,253)	$ 131,890
Monterey County	$ 468,870	$ 385,266	$ (83,604)	$ 468,498
Sacramento	$ 286,529	$ 151,109	$ (135,420)	$ 196,748
San Diego County	$ 41,486	$ 26,626	$ (14,860)	$ 39,711
Ventura County	$ 338,207	$ 205,478	$ (132,729)	$ 283,338

REFERENCES: CAW Ex A-Ch 4 Expenses Acct.766 TD Maint Plt, ORA Ex A-Ch4 Expenses Acct.766 TD Maint Plt, Exh. 2, Direct Testimony of Mark Schubert Dated July 1, 2014, pp 148-151 ("CAW Schubert Direct"); Exh. 7, ORA Shia Direct, *ORA Analysis and Recommendations*

on Operations & Maintenance Expenses and Special Requests: 18,23,27,30,31 of CAW Company Application 13-07-002, dated March 28, 2014, (ORA Report # 2), pp.1-30,1-31.

14.7 Comprehensive Planning Study ("CPS") & Geographical Information Systems ("GIS")

CAW REQUEST:

CAW based its CPS cost estimate on prior Commission authorizations. CAW considered the 2008 Monterey GRC, in which the Commission adopted $150,000 per year for the Monterey CPS, to be amortized over a three-year period. CAW also considered the Commission's decision in the 2009 GRC for the Sacramento and Los Angeles County Districts. It should be recognized that the expenditures will be amortized over a three-year period and the annual amounts will be charged to the expense accounts.

Both the Commission's G.O. 103-A and the DPH Waterworks Standards require that CAW have on file updated plans, maps, drawings, or other records of all system facilities. CAW estimated that about 20 percent of the work on each system map task will be performed by CAW staff, 30 percent by the American Water Service Company staff, and the remaining 50 percent by external consultants. The estimate of the internal staff hourly rate is about $40 per hour, plus 55 percent labor overhead, for a total of $62 per hour. CAW estimated $70 per hour, including labor overhead, for the average cost of support by the American Water Service Company and about $120 per hour for the average hourly rate by external consulting firms.

ORA POSITION:

ORA excluded any expenses related to CPS & GIS from A&G accounts and instead included them in O&M Account 756.

RESOLUTION:

ORA and CAW agree to compromise on GIS & CPS expenses as set forth below.

CPS & GIS	CAW	ORA		2015
2015 Projected Test Year	Direct	Direct	Difference	Settlement
Larkfield	$ 33,950	$ 33,950	$ -	$ 83,950
Los Angeles County	$ 235,600	$ 235,600	$ -	$ 235,600
Monterey County	$ 333,300	$ 333,300	$ -	$ 333,300
Sacramento	$ 395,200	$ 395,200	$ -	$ 645,200
San Diego County	$ 174,940	$ 174,940	$ -	$ 174,940
Ventura County	$ 177,970	$ 177,970	$ -	$ 177,970

14.7 Other O&M

CAW REQUEST:

Other O&M includes, but is not limited to, Source of Supply, Pumping, Water treatment, T&D Maintenance, customer accounting and Rent expenses. In general, CAW's estimates are based on a five-year escalated average adjusted for inflation, customer growth, and a 2013 increase to sales tax.

ORA POSITION

ORA removed CAW's customer growth and sales tax multipliers from the calculated averages for Other O&M expenses. ORA also disagreed with Rents for CAW's San Diego County District.

RESOLUTION:

ORA and CAW agree to compromise on other O&M expenses as set forth below.

Other O&M 2015 Projected Test Year	CAW Direct	ORA Direct	Difference	2015 Settlement
Larkfield	$ 67,991	$ 19,473	$ (48,518)	$ 66,639
Los Angeles County	$ 1,077,644	$ 1,072,807	$ (4,837)	$ 1,069,364
Monterey County	$ 2,707,297	$ 2,885,322	$ 178,024	$ 3,300,264
Sacramento	$ 1,379,686	$ 1,958,386	$ 578,699	$ 1,348,633
San Diego County	$ 193,800	$ 191,242	$ (2,558)	$ 191,472
Ventura County	$ 270,098	$ 260,153	$ (9,945)	$ 337,456

14.8 Salaries and Wages

CAW REQUEST:

A discussion on salaries and wages is included in the General Office section of this settlement for all districts.

14.9 Insurance

CAW REQUEST:

The Insurance estimate is comprised of Property Insurance and Workers' Comp, Injuries and Damages. Insurance estimates are based on a five-year average of recorded numbers, adjusted for inflation.

ORA POSITION:

In general, ORA and CAW's Insurance estimates have a minimal difference. ORA and CAW have the same estimate for the Los Angeles District. For San Diego, ORA excluded a one-time expense of $13,000 in 2011 from sub-account Injuries and Damages which represented an employee related settlement.

RESOLUTION:

ORA and CAW agree on the requested insurance below.

Insurance 2015 Projected Test Year	CAW Direct	ORA Direct	Difference	2015 Settlement
Larkfield	$ 618	$ 612	$ (6)	$ 609
Los Angeles County	$ 479	$ 479	$ 0	$ 479
Monterey County	$ 15,574	$ 15,517	$ (57)	$ 15,443
Sacramento	$ 13,066	$ 12,840	$ (226)	$ 12,778
San Diego County	$ 6,995	$ 4,171	$ (2,824)	$ 6,925
Ventura County	$ 7,387	$ 7,340	$ (47)	$ 7,307
Total California American	$ 44,119	$ 40,959	$ (3,160)	$ 43,541

14.10 Other Benefits

CAW REQUEST:

CAW applied an inflation factor and adjusted historical five-year average customer count to forecast most expenses in this category, including but not limited to, training, tuition, safety incentive, 401k operating and other welfare benefits. CAW projected 401(k) costs using the matching guidelines based on the current contribution election for employees. Employees hired after December 31, 2005 also receive a Company funded contribution of 5.25% of their salary in the Defined Contribution Plan (DCP) to compensate for the fact that they are no eligible for the pension plan.

Group insurance, pension and post-retirement benefits other than pension ("PBOP") costs are discussed in the CAW Company Expenses section of this settlement (Section 7.0).

ORA POSITION:

The differences between CAW's and ORA's estimates are a result of differences in payroll estimates and ORA excluding recorded items such as appreciation awards and social activities for employees, training related to GIS and ORM and charitable contributions.

RESOLUTION:

ORA and CAW agree to Other Benefits costs as set forth below.

Other Benefits 2015 Projected Test Year	CAW Direct	ORA Direct	Difference	2015 Settlement
Larkfield	$ 23,210	$ 21,492	$ (1,719)	$ 22,921
Los Angeles County	$ 82,642	$ 65,960	$ (16,682)	$ 75,781
Monterey County	$ 261,881	$ 229,657	$ (32,224)	$ 240,349
Sacramento	$ 243,972	$ 224,130	$ (19,843)	$ 240,790
San Diego County	$ 69,922	$ 61,579	$ (8,343)	$ 69,000
Ventura County	$ 59,983	$ 53,403	$ (6,581)	$ 56,072
Total California American	$ 741,611	$ 656,220	$ (85,391)	$ 704,914

14.11 Outside Services

CAW REQUEST:

Outside services costs include all outside professional services including, but not limited to, legal, finance, recruiting, audit, information technology and accounting. CAW employs these services to manage a variety of operational, engineering, and corporate activities. CAW estimated most expenses based on a five-year average, adjusted for inflation, customer growth, and a 2013 sales tax increase.

CAW also requested $904,110 $504,000 per year over a five year period for a total of $2,520,000 to fund arc flash studies to assess potential arc flash hazards at its facilities

ORA POSITION:

For all districts, ORA excluded Comprehensive Planning Study (CPS) and Geographical Information Systems (GIS) from the historical period since the forecasted dollars were presented

in Account 756 - Miscellaneous T&D. ORA excluded $504,000 per year over a five year period for a total of $2,520,000 from Test Year 2015 related to arc flash studies.

RESOLUTION:

CAW and ORA agree to reflect CPS and GIS dollars under Account 756 and have reached a compromise to reflect Arc Flash Studies costs in outside services expenses. Please refer to the tables below.

Arc Flash Studies 2015 Projected Test Year	CAW Direct	ORA Direct	Difference	2015 Settlement
Larkfield	$ 26,953	$ -	$ (26,953)	$ 4,838
Los Angeles County	$ 125,276	$ -	$ (125,276)	$ 25,435

14.12 Other Administrative and General

CAW REQUEST:

Other Administrative and General Expenses includes, but is not limited to, office supplies and other expenses, regulatory expense, materials and supplies, transportation, bill inserts, telephone, and general plant. Office supplies and other expenses and general plant are based on a five-year average of recorded years adjusted for inflation. Additional information on regulatory expense can be found in the General Office section of this settlement.

ORA POSITION:

In general, CAW and ORA agree on office supplies and other expenses with the exception of certain one-time expenses and Dues and Membership fees. ORA disallowed the regulatory expense in the Monterey and Sacramento districts because they were due to amortization of a depreciation study that ended in 2008. ORA removed charitable contributions, donations, coffee expenses, erroneous expenses from the transportation, and other sub-accounts from the requested miscellaneous general expense.

RESOLUTION:

CAW and ORA agree that there are no regulatory expenses at the district level because it is accounted for in the General Office. ORA generally agreed with CAW's estimates of general plant. Please refer to the table below for the agreed upon estimates of other A&G.

Other A&G 2015 Projected Test Year	CAW Direct	ORA Direct	Difference	2015 Settlement
Larkfield	$ 88,765	$ 85,954	$ (2,811)	$ 86,808
Los Angeles County	$ 557,295	$ 535,895	$ (21,400)	$ 220,400
Monterey County	$ 2,077,122	$ 1,803,465	$ (273,657)	$ 2,011,698
Sacramento	$ 1,438,818	$ 1,274,235	$ (164,583)	$ 1,385,864
San Diego County	$ 235,549	$ 202,746	$ (32,804)	$ 230,019
Ventura County	$ 363,026	$ 310,151	$ (52,875)	$ 327,904
Total California American	$ 4,760,576	$ 4,212,446	$ (548,130)	$ 4,262,692

REFERENCES: CAW Exh. A,- Ch. 2, Tbl2.2, ORA Exh.A,-Ch2, Tbl2.2, Exh. 16 and 16-A, ORA Roberts/Montero Direct, *ORA Analysis and Recommendations on A&G Expenses Payroll and Special Request 17 of CAW Company Application 13-07-002*, dated March 28, 2014, (ORA Report #1),pp. 2-2, 2-3, 3-3,3-4, 3-5, 4-4, 4-5, 4-6, 4-7, 6-3, 6-4, 6-5, 6-6, 6-7, 7-3, 7-4, 7-5, 8-2, 8-3, 8-4".

14.13 Rents

CAW REQUEST:

CAW based property lease expenses projections on actual leases that it has entered into for office space. Office equipment, storage, etc., were generally escalated using an inflation adjusted historical five-year average.

ORA POSITION:

The minor differences between ORA and CAW's estimates are due to CAW including customer growth to derive the restatement factor, which ORA removes to develop its test year estimate. In Sacramento there are two one-time expenses that ORA removes which are the rental of a compressor for the Walnut Grove facility and "temporary labor". For San Diego, ORA agrees with the Palm Avenue office estimate, but suggests the removal from rate base of the book value of the Cherry Avenue office. ORA proposes to include $579,000 as an estimate of the gain that is expected when CAW moves from and disposes of its current operations facilities.

RESOLUTION:

CAW and ORA agree that any gain related to the sale of the old San Diego Office facility should be reviewed in the next General Rate Case in compliance with Minimum Data Requirement II.D.8, which requires an accounting of real property sales in a general rate case.

Many other expenses were also reduced. These were either minor amounts to reflect elimination or errors, amounts that are contributions, or amounts that are true one-time non-recurring expenses.

ORA and CAW also agree to San Diego Office's Rent at the level requested by CAW.

Rents 2015 Projected Test Year	CAW Direct	ORA Direct	Difference	2015 Settlement
Larkfield	$ 29,869	$ 29,387	$ (482)	$ 29,276
Los Angeles County	$ 57,434	$ 57,333	$ (101)	$ 57,113
Monterey County	$ 500,982	$ 500,918	$ (64)	$ 500,829
Sacramento	$ 17,363	$ 16,157	$ (1,206)	$ 16,979
San Diego County	$ 202,593	$ 184,924	$ (17,670)	$ 202,121
Ventura County	$ 337,912	$ 335,408	$ (2,504)	$ 334,099
Total California American	$ 1,146,155	$ 1,124,128	$ (22,027)	$ 1,140,416

15.0 RESERVED

16.1 DEPRECIATION

16.2 Annual Depreciation Accrual

CAW REQUEST:

CAW's proposed depreciation rates for all of its districts and property classes were obtained directly from the CAW Depreciation Study performed by the third-party contractor, Alliance Consulting Group in 2010 and accepted by the Commission in D.13-06-016.

ORA POSITION:

To ensure that CAW's annual depreciation updates represent reasonable estimates that can be reviewed in general rate cases prior to impacting customer rates, ORA recommends the Commission instruct CAW to include in subsequent general rate case applications the three most recent annual depreciation updates available at the time of filing.

Consistent with the settlement adopted in CAW's previous general rate case, the reasonableness of the depreciation rates used for "book purposes" in CAW's annual update should be considered when the Commission reviews escalation and attrition year rate requests between general rate cases in order to ensure the continuation of just and reasonable water rates.

RESOLUTION:

CAW and ORA agree with the recommendations requested by ORA. CAW and ORA also agree that the depreciation rates to be used in the calculation of the revenue requirements shall be those filed in the annual update submitted to the Commission on October 30, 2013. Further CAW and ORA agree that for accounts where the depreciation study provides rates for sub-portions of the plant account that a weighted average of all the sub-account rates shall be used.

Based on the overall agreement on the forecasted level of plant additions, ORA and CAW agree to the annual depreciation accrual rates as set forth below for each district.

16.3 Contribution Depreciation

CAW REQUEST:

CAW's position in filing was to apply the proposed annual depreciation rate by plant account to the level of average contributions by plant account.

ORA POSITION:

ORA did not provide any comments on the procedure to be used by CAW.

RESOLUTION:

ORA and CAW agree on the methodology as stated above.

REFERENCES: CAW Exh. A, Chs. 8.

16.4 Retirements

CAW REQUEST:

CAW's position in filing was based on a five-year average of recorded plant retirements versus total plant additions.

ORA POSITION:

ORA did not propose any changes to the methodology proposed by CAW.

RESOLUTION:

ORA and CAW agree on the methodology as stated above.

REFERENCES: CAW Exh. A, Chs. 8.

16.5 Net Negative Salvage Factors

CAW REQUEST:

The net negative salvage factors were analyzed as part of the depreciation study. CAW proposed continuing the same factors as authorized in D.13-06-016.

ORA POSITION:

ORA agreed with the methodology proposed by CAW.

RESOLUTION:

ORA and CAW agree on the methodology as stated above. Please also see the resolution in Special Request #22 (Section 21.22).

REFERENCES: CAW Exh. A, Chs. 8.

16.6 Depreciation Weighting Factor

CAW REQUEST:

CAW's position in filing was based on developing a 6-year average of 13 month average changes versus the total annual changes.

ORA POSITION:

ORA did not dispute the methodology proposed by CAW.

RESOLUTION:

ORA and CAW agree on the methodology but had to adjust the result for the Monterey County District due to an error in base data in the calculation. ORA and CAW agree to the following:

Average Depr 6 Yr Weighting Factor	CAW Direct 2015	ORA Report 2015	Difference	2015 Settlement	2016 Settlement
Larkfield	52.80%	52.80%	0.00%	52.80%	52.80%
Los Angeles County	52.95%	52.95%	0.00%	52.95%	52.95%
Monterey County	48.44%	48.44%	0.00%	48.44%	48.44%
Sacramento	49.89%	49.89%	0.00%	49.89%	49.89%
San Diego County	50.19%	50.19%	0.00%	50.19%	50.19%
Ventura County	51.99%	51.99%	0.00%	51.99%	51.99%
Cal Corp	50.00%	50.00%	0.00%	50.00%	50.00%

REFERENCES: CAW Exh. A, Chs. 8;

16.7 Depreciation Expense

CAW REQUEST:

CAW's position in filing was based on applying the proposed depreciation accrual rates against the annual weighted average plant balance by account (less contributions).

ORA POSITION:

ORA did not comment on the methodology proposed by CAW.

RESOLUTION:

ORA and CAW agree on the methodology and also agree to the below amounts for all districts where all plant issues have been resolved.

REFERENCES: CAW Exh. A, Chs. 8.

17.1 CONSERVATION

17.2 Overview

CAW REQUEST:

CAW submitted a three year combined budget total of $3,551,802 for its Larkfield ($90,524), Los Angeles County ($642,929), Sacramento ($1,463,998), San Diego County ($493,053), and Ventura County ($861,298) districts for years 2015, 2016 and 2017.

In addition, CAW and Monterey Peninsula Water Management District (MPWMD) submitted a joint, three-year proposed conservation budget of $3,297,500 for the Monterey County district ($2,398,500 for CAW; $899,000 for MPWMD).

ORA POSITION:

ORA did not oppose CAW's request.

RESOLUTION:

CAW and ORA agree on a three year combined budget total of $3,551,802 for its Larkfield ($90,524), Los Angeles County ($642,929), Sacramento ($1,463,998), San Diego County ($493,053), and Ventura County ($861,298) districts for years 2015, 2016 and 2017.

CAW and ORA also agree that the CAW-MPWMD joint conservation program should be authorized a three-year budget of $2,398,500 for CAW and a three-year surcharge amount of $899,000 for MPWMD.

CAW agrees that the funding category, Public Information Program will be subject to spending caps for all districts. A similar spending cap shall be in place for Monterey district's rebate program

Except for those categories mentioned above, CAW, at its discretion, may move dollars from one budget conservation program element to another as long as the total for all elements remains as authorized.

CAW and ORA also agree that three year conservation funding monies may be moved between the three rate case years as long as the total three year funding levels are not exceeded. CAW may not move monies between different districts.

ORA and CAW agree that if mandatory conservation or rationing is implemented that if CAW believes it is necessary, that additional dollars that are spent on the conservation programs may be captured in an authorized mandatory conservation/rationing memorandum account, if one is so approved, for future review or prudent and reasonable costs in such account.

Detailed conservation program budgets for each district are discussed below.

17.3 One-Way Balancing Account for Conservation Expense

CAW REQUEST:

CAW requests to continue to utilizing a one-way balancing account to track conservation expenses with any unspent funds refunded to ratepayers. A one-way balancing account will ensure that funds authorized for conservation programs are dedicated to that purpose.

ORA POSITION:

ORA agreed with CAW's request.

RESOLUTION:

CAW and ORA agree to continue tracking expenses in a capped, one-way balancing account with any unspent funds refunded to ratepayers after the end of the rate case period, which for this rate case period is December 31, 2017.

REFERENCES: Hearing Exh. 34, MPWMD Locke Direct, pp 26 Q/A 40

17.4 Rationing Memorandum Account (specific for Monterey District)

CAW REQUEST:

CAW requests to retain its rationing memorandum account initially approved by the Commission in D.03-02-030 and re-confirmed in D.08-07-010, D.09-05-029 and D.12-06-016, to track CAW's rationing related expenditures should rationing in the Monterey County District occur.

ORA POSITION:

ORA did not oppose CAW's request.

RESOLUTION:

CAW and ORA agree that CAW shall retain its rationing memorandum account to track CAW's rationing related expenditures. ORA and CAW agree that the language that the Commission previously authorized for this memorandum account in D.03-02-030, D.08-08-010, D.09-05-029 and D.12-06-016 shall continue to apply to the memorandum account.

REFERENCES: Hearing Exh. 1, CAW Pilz Direct, pp.16, Q/A28

17.5 MPWMD Rationing Memorandum Account (specific for Monterey District)

MPWMD REQUEST:

MPWMD requests the establishment of a memorandum account for MPWMD emergency rationing costs, similar to the one authorized for CAW. MPWMD's unique regulatory powers are necessary to implement and enforce a successful water rationing program.

ORA POSITION:

ORA did not oppose the MPWMD request.

RESOLUTION:

ORA agrees in principle that reasonable and prudent rationing costs authorized by the Commission should be able to be recovered however does not believe the Commission has jurisdiction over MPWMD and therefore the Commission lacks the ability to require MPWMD to submit its books and records for the reasonableness and prudency review that would otherwise be necessary prior to authorizing the recovery of expenses incurred by a regulated utility. The Parties agree that CAW may track the costs that it incurs from MPWMD rationing activities in a CAW rationing memo account.

REFERENCES: Hearing Exh. 34, MPWMD Locke Direct, pp 13Q/A 17

17.6 Larkfield

CAW REQUEST:

CAW requested a total three year conservation budget of $90,524 for 2015, 2016 and 2017.

ORA POSITION:

ORA did not oppose CAW's request.

RESOLUTION:

ORA accepts CAW 's budget of $90,524 for 2015, 2016 and 2017 Further, ORA and CAW agree to the following:

- CAW's water conservation spending will be tracked in a one-way balancing account.
- CAW will include in its annual report a detailed conservation summary report as per prior Partial Settlement Agreement between the Division of Ratepayer Advocates, the Utility Reform Network and CAW adopted in D.12-06-016
- **CAW will provide ORA with a copy of its CUWCC BMP** Implementation Reports upon ORA's request.
- The Public Information Program should be capped at $10,781.

- At its discretion, CAW may move its budget amount among the conservation programs excluding moving funds into Public Information.

17.7 Los Angeles

CAW REQUEST:

CAW requested a total conservation budget of $642,929 for years 2015, 2016 and 2017.

ORA POSITION:

ORA did not oppose CAW's request.

RESOLUTION:

ORA agrees to CAW 's budget of $642,929 for 2015, 2016 and 2017.

Further, ORA and CAW agree to the following:

a) CAW's water conservation spending will be tracked in a one-way balancing account.

b) CAW will include in its annual report a detailed conservation summary report as per prior Partial Settlement Agreement between the Division of Ratepayer Advocates, the Utility Reform Network and CAW adopted in D.12-06-016

c) **CAW will provide ORA with a copy of its CUWCC BMP** Implementation Reports upon ORA's request.

d) The Public Information Program should be capped at $76,891

e) At its discretion, CAW may move its budget amount among the conservation programs excluding moving funds into Public Information.

17.8 Monterey

CAW REQUEST:

CAW and MPWMD requested a total combined conservation budget of $3,297,500 for the years 2015 through 2017.

ORA POSITION:

ORA did not oppose CAW's request.

RESOLUTION:

ORA, CAW and MPWMD agree to a total three year budget of $2,398,500 for CAW conservation programs in the Monterey County district and a three-year surcharge of $899,000 for MPWMD's conservation programs.

Further, ORA and CAW agree to the following:

a) CAW's water conservation spending will be tracked in a one-way balancing account.

b) MPWMD's water conservation spending will be tracked in a one-way balancing account.

c) CAW will retain its rationing memorandum account to track CAW's rationing related expenditures. ORA and CAW agree that the provision that the Commission previously authorized for this memorandum account in D.03-02-030, D.08-08-010 ,D.09-05-029 and D12-06-016 shall continue to apply to the memorandum account

d) CAW will include in its annual report for each district, estimated water savings per year, per measure and lifetime measure savings for each quantifiable program as shown in its CAW-MPWMD Joint Conservation Report for Monterey County district.

e) CAW will be able to track its costs incurred in the event of MPWMD emergency rationing. CAW will include in its annual report a detailed conservation summary report as per prior Partial Settlement Agreement between the Division of Ratepayer Advocates, the Utility Reform Network and CAW adopted in D.12-06-016.

f) CAW will provide ORA with a copy of its CUWCC BMP Implementation Reports upon ORA's request.

g) The Public Information Program should be capped at $400,000 for three years.

17.9 Sacramento

CAW REQUEST:

CAW requested a total conservation budget of $1,463,998 for years 2015, 2016 and 2017.

ORA POSITION:

ORA did not oppose CAW's request.

RESOLUTION:

ORA agrees to CAW 's budget of $1,463,998 for 2015, 2016 and 2017.

Further, ORA and CAW agree to the following:

a) CAW's water conservation spending will be tracked in a one-way balancing account.

b) CAW will include in its annual report a detailed conservation summary report as per prior Partial Settlement Agreement between the Division of Ratepayer Advocates, the Utility Reform Network and CAW adopted in D.12-06-016

c) CAW will provide ORA with a copy of its CUWCC BMP Implementation Reports upon ORA's request.

d) The Public Information Program should be capped at $199,916.

At its discretion, CAW may move its budget amount among the conservation programs excluding moving funds into Public Information

18.0 CARMEL RIVER MITIGATION BALANCING ACCOUNT

MPWMD REQUEST: As part of CAW's Application, MPWMD provided testimony supporting continuation of Carmel River mitigations that the State Water Resources Control Board (SWRCB) determined in Order WR 95-10 help alleviate the effects of CAW's diversions on the river. The MPWMD operates a mitigation program- that includes general mitigation and specific mitigation measures relating to selective environmental resources, such as steelhead, riparian and lagoon habitat. Total costs of the program for the period 2015-2017 include $7,404,236 for staff, consultant, operation and maintenance, and direct capital costs for five components of the mitigation program.

CAW POSITION: A MPWMD Balancing Account already exists. CAW supports MPWMD's mitigation program since the SWRCB determined that CAW would be responsible for these activities if MPWMD ceased doing them.

ORA POSITION: ORA did not contest this matter.

RESOLUTION: Parties agree that the MPWMD Balancing Account shall remain open, but that it will be renamed the Carmel River Mitigation Program Balancing Account. The 2015-17 costs that will be incurred by MPWMD and reimbursed by CAW for the Carmel River Mitigation

Program are $2,367,219 in 2015, $2,456,888 in 2016 and $2,580,129 in 2017. They are capped annually at the listed amounts and will be collected through a surcharge applied against the meter and total tiered rates. CAW agrees to include the preliminary statement tariff as part of its updated tariff sheets.

19.1 WASTEWATER

19.2 Average Number of Customers

CAW REQUEST:

For each District, the Company reviewed the actual growth in the number of customers from 2007 through the end of 2012. In addition, District managers were asked to review the actual growth trends and to make recommendations on the future growth of customers in their Districts. Based on the review of the actual data and each District manager's review of their service territories, the Company projected annual customer growth to be four wastewater customers.

ORA POSITION:

ORA recommends the use of a four year customer growth (2009-2012) to forecast active service connections.

RESOLUTION:

ORA and CAW agree on the number of customers between the active and passive systems, as set forth below. Based on information provided, ORA and CAW agree to the level of customers proposed by ORA as shown below by customer class and system.

2013 GRC Monterey Wastewater Average # Customers	2015 CAW Direct	2015 ORA Report	Difference	Test Year 2015 Settlement	Escalation Year 2016 Settlement	Attrition Year 2017 Settlement
Residential	2,563	2,519	44	2,519	2,514	2,509
Commercial	44	67	(23)	67	67	67
Public Authority	4	4	0	4	4	4
Industrial	3	3	0	3	3	3
Golf Course	1	1	0	1	1	1
Hotel	1	1	0	1	1	1
Total Customers	2,616	2,595	21	2,595	2,590	2,585

2013 GRC Monterey Wastewater Average # Customers	2015 CAW Direct	2015 ORA Report	Difference	Test Year 2015 Settlement	Escalation Year 2016 Settlement	Attrition Year 2017 Settlement
Passive	788	809	21	809	820	831
Active	1,828	1,786	(42)	1,786	1,770	1,754
Total Customers	2,616	2,595	(21)	2,595	2,590	2,585

REFERENCES: CAW Revised Exh. A, Ch. 3, Table 3.5; Exh. 12 and 12-A, ORA Korthamar Direct, *ORA Analysis and Recommendations on Operating Revenues, Rate Design and Special Requests 5, 6, 8, 9, 21, 24, 25 of CAW Company Application 13-07-002*, dated March 28, 2014, ("ORA Report No. 6"), Workpapers Ch. 3, Table 3.5.

19.3 Operations and Maintenance Expense

19.2.1 Purchased Power

CAW REQUEST:

CAW estimated purchased power costs based on 2012 recorded costs adjusted for inflation, customer growth, and a 2013 sales tax increase.

ORA POSITION:

ORA recommends removal of the customer growth and sales tax multipliers.

RESOLUTION:

CAW agrees to ORA's proposal.

	2015 CAW Direct	2015 ORA Report	Difference	Test Year 2015 Settlement
Acct 726 - Purchased Power	$126,023	$123,731	($2,292)	$122,927

REFERENCES: CAW Revised Exh. A, Ch. 4, Table 4.1, Exh. 7, ORA Shia Direct, *ORA Analysis and Recommendations on Operations & Maintenance Expenses and Special Requests: 18, 23, 27, 30, 31of CAW Company Application 13-07-002, dated March 28, 2014,* ("ORA Report No. 2), Workpapers Ch. 4, Table 4.1.

19.2.2 Chemicals

CAW REQUEST:

CAW used a five year historical average to project its chemicals costs, adjusted for inflation, customer growth, and a 2013 sales tax increase.

ORA POSITION:

ORA recommends removal of the customer growth and sales tax multipliers.

RESOLUTION:

CAW agrees to ORA's proposal.

	2015 CAW Direct	2015 ORA Report	Difference	Test Year 2015 Settlement
Acct 744 - WT Chemicals	$339,267	$331,980	($7,287)	$330,710

REFERENCES: CAW Revised Exh. A, Ch. 4, Table 4.1, Exh. 7, ORA Shia Direct, ORA Report No. 2, Workpapers Ch. 4, Table 4.1.

19.2.3 Uncollectibles

CAW REQUEST:

CAW based its estimate on the average uncollectible percentage of the last five years of history.

ORA POSITION:

ORA agrees with CAW's approach. Any difference between ORA and CAW's estimates of forecasted uncollectibles expense is due to different revenue forecasts.

RESOLUTION:

ORA agrees to the use of CAW's approach for estimating uncollectibles. Any differences in the level of uncollectibles expense is driven by changes in the revenue forecasts.

	2015 CAW Direct	2015 ORA Report	Difference	Test Year 2015 Settlement
Acct 775 - Uncollectibles	$17,930	$16,510	($1,420)	$16,821

REFERENCES: CAW Revised Exh. A, Ch. 4, Table 4.1, Exh. 14 and 14-A, ORA Direct Rauschmeier, ORA Report No. 4, Workpapers Ch. 4, Table 4.1.

19.2.4 Other Operating and Maintenance Expense

CAW REQUEST:

CAW also requested dollars for the Comprehensive Planning Study ("CPS"), Sewer System Management Programs ("SSMP"), and system maps. The 2015 estimates were based on prior Commission authorizations in the 2010 GRC (A.10-07-007). CAW escalated the 2015 estimate by 3% to determine its 2016 estimate. Specifically, the 2010 GRC adopted $77,200 in CPS costs for the Monterey Wastewater system. In this proceeding, CAW requested $77,200 for CPS/SSMPs in 2015, $79,600 in 2016, and $82,000 in 2017. For system maps, CAW asked for $42,900 in 2015, $45,575 in 2016, and $47,302 in 2017.

ORA POSITION:

ORA agrees with CAW's 2015 estimates, but escalates by 2.3% to arrive at 2016 estimates. Specifically, ORA recommended $77,200 for 2015 and $78,976 for 2016. For system maps, ORA recommended $42,900 in 2015 and $43,887 in 2016.

RESOLUTION:

CAW and ORA agree to an annual spend of $50,000 for CPS and system maps for years 2015-2017.

	2015 CAW Direct	2015 ORA Report	Difference	Test Year 2015 Settlement
CPS & System Maps	$50,000	$120,100	$70,100	$50,000
Other O&M	$366,943	$359,160	($7,784)	$357,815

REFERENCES: CAW Revised Exh. A, Ch. 4, Table 4.1, Exh. 14 and 14-A, ORA Direct Rauschmeier, ORA Report No. 4, Workpapers Ch. 4, Table 4.1.

19.4 Administrative and General Expense

19.3.1 Salaries and Wages

A discussion on salaries and wages is included in the CAW Company Expenses section of this settlement (Section 7.0). CAW and ORA agree to the following level of salaries for the Monterey Wastewater district;

	2015 CAW Direct	2015 ORA Report	Difference	Test Year 2015 Settlement
Acct - 791 Labor	$1,029,968	$930,678	($99,290)	1,016,071

REFERENCES: CAW Revised Exh. A, Ch. 4, Table 4.1, Exh. 16 and 16-A, ORA Roberts/Montero Direct, ORA Report No. 1, Workpapers Ch. 4, Table 4.1.

19.3.2 Pensions and Benefits

CAW REQUEST:

CAW applied a 3% annual inflation factor to budgeted 2013 expenses in these categories to forecast most expenses in this category, including but not limited to training, tuition, and other welfare. CAW projected 401(k) costs using the matching guidelines based on the current contribution elections of employees. Employees hired after December 31, 2005 also receive a Company funded contribution of 5.25% of their salary in the Defined Contribution Plan (DCP) to compensate for the fact that they are not eligible for the pension plan.

Group insurance, pension and post-retirement benefits other than pension ("PBOP") costs are discussed in the CAW Company Expensessection of this settlement (Section 7.0).

ORA POSITION:

ORA recommends using base year 2012 recorded expenses in these categories, and escalating those expenses to Test Year 2015 using labor inflation factors published in the September 2013 ECOS/ORA memorandum

RESOLUTION:

CAW agrees to remove the customer growth and sales tax multipliers.

	2015 CAW Direct	2015 ORA Report	Difference	Test Year 2015 Settlement
Acct 795 - Pensions & Benefits	$69,923	$62,755	($7,168)	$69,685

REFERENCES: CAW Revised Exh. A, Ch. 4, Table 4.1, Exh. 16 and 16-A, ORA Roberts/Montero Direct, ORA Report No. 1, Workpapers Ch. 4, Table 4.1.

19.3.3 Outside Services

CAW REQUEST:

CAW estimated most expenses based on a five-year average, adjusted for inflation, customer growth, and a 2013 sales tax increase. CAW also requested $35,000 in the Monterey Wastewater district to fund arc flash studies to assess potential arc flash hazards at its facilities.

ORA POSITION:

ORA recommends disallowance of arc flash studies. ORA also removed historical dollars related to the Comprehensive Planning Studies (CPS), Sewer System Management Program (SSMP) and system maps because they are reflected in Acct 756 - Miscellaneous Transmission and Distribution (T&D) costs under other O&M.

RESOLUTION:

CAW and ORA agree to reflect Test Year 2015 CPS, SSMP and system mapping costs under Acct 756 as part of other O&M expense. ORA and CAW also agree to a total Company annual amount of $188,206 for arc flash studies to be shared among the districts. Monterey Wastewater's share is $11,586 annually for years 2015-2017 and is reflected in the table below, along with other outside services costs.

	2015 CAW Direct	**2015 ORA Report**	**Difference**	**Test Year 2015 Settlement**
Arc Flash Studies	$35,000	$0	($35,000)	$11,586
Acct 798 - All Outside Services	$51,654	$51,471	($184)	$50,710

REFERENCES: CAW Revised Exh. A, Ch. 4, Table 4.1, Exh. 16 and 16-A, ORA Roberts/Montero Direct, ORA Report No. 1, Workpapers Ch. 4, Table 4.1.

19.3.4 Other Administrative and General

CAW REQUEST:

CAW generally estimated other administrative and general expenses (including, but not limited to office supplies, dues, telephone, cell phone, meals, security, and other miscellaneous expense) using an inflation and customer adjusted historical five-year average based on ORA's inflation rates and actual customer growth rates.

ORA POSITION:

ORA adjusted CAW's forecast by excluding historical dollars related to penalties totaling $10,241, transportation totaling $8,170, and materials & supplies of $11,256 from the five-year average.

RESOLUTION:

CAW agrees with ORA's above adjustments to historical dollars for penalties, transportation and materials and supplies. CAW and ORA agree to the expense level below for other administrative and general costs.

	2015 CAW Direct	2015 ORA Report	Difference	Test Year 2015 Settlement
Other A&G	$66,725	$62,284	($4,442)	$63,806

REFERENCES: CAW Revised Exh. A, Ch. 4, Table 4.1, Exh. 16 and 16-A, ORA Roberts/Montero Direct, ORA Report No. 1, Workpapers Ch. 4, Table 4.1.

19.3.5 Rents

CAW REQUEST:

CAW estimated rent expense based on the lease costs of its Pacific Gove office, a portion of which is allocated to the Monterey Wastewater district based on customer count.

ORA POSITION:

ORA finds CAW's estimate reasonable.

RESOLUTION:

ORA finds CAW's estimate reasonable.

	2015 CAW Direct	2015 ORA Report	Difference	Test Year 2015 Settlement
Acct 811 - Rents	$30,217	$30,217	$0	$30,217

REFERENCES: CAW Revised Exh. A, Ch. 4, Table 4.1, Exh. 16 and 16-A, ORA Roberts/Montero Direct, ORA Report No. 1, Workpapers Ch. 4, Table 4.1.

19.5 Capital Projects

19.4.1 Recurring Projects ("RP")

CAW REQUEST:

CAW requested total estimated cost of the Recurring Projects for 2015 of $192,000 and for 2016 of $192,000.

ORA POSITION:

Agreed with the need for the Recurring Projects, but recommended a reduced total cost for the Recurring Projects for 2015 of $150,917 and for 2016 of $151,361.

RESOLUTION:

In the spirit of compromise, ORA and CAW agree with the following total recurring project capital amounts: 2015 - $171,459; and 2016 - $171,816. ORA and CAW also agree that these annual amounts shall be reflected in each respective year's Utility Plant In Service ("UPIS"). Finally, ORA agrees to allow CAW to manage the overall bottom-line RP budget by district, with flexibility to allocate different spending levels to specific RP line items, consistent with the 2010 GRC settlement between ORA and CAW.

REFERENCES:

19.6 DEPRECIATION

19.5.1 Annual Depreciation Accrual

CAW REQUEST:

CAW's proposed depreciation rates for all of its districts and property classes were obtained directly from the CAW Depreciation Study performed by the third-party contractor, Alliance Consulting Group in 2010 and accepted by the Commission in D.13-06-016.

ORA POSITION:

To ensure that CAW's annual depreciation updates represent reasonable estimates that can be reviewed in general rate cases prior to impacting customer rates, ORA recommends the Commission instruct CAW to include in subsequent general rate case applications the three most recent annual depreciation updates available at the time of filing.

Consistent with the settlement adopted in CAW's previous general rate case, the reasonableness of the depreciation rates used for "book purposes" in CAW's annual update should be considered when the Commission reviews escalation and attrition year rate requests between general rate cases in order to ensure the continuation of just and reasonable water rates.

RESOLUTION:

CAW and ORA agree with the recommendations requested by ORA. CAW and ORA also agree that the depreciation rates to be used in the calculation of the revenue requirements shall be those filed in the annual update submitted to the Commission on October 30, 2013. Further CAW and ORA agree that for accounts where the depreciation study provides rates for sub-portions of the plant account that a weighted average of all the sub-account rates shall be used.

Based on the overall agreement on the forecasted level of plant additions, ORA and CAW agree to the annual depreciation accrual rates as set forth below.

PUC Acct	Description	Monterey WW
303	Other Intangible Plant	1.76%
311	Structures & Improvements	0.00%

19.5.2 Contribution Depreciation

CAW REQUEST:

CAW's position in filing was to apply the proposed annual depreciation rate by plant account to the level of average contributions by plant account.

ORA POSITION:

ORA did not provide any comments on the procedure to be used by CAW.

RESOLUTION:

ORA and CAW agree on the methodology as stated above.

REFERENCES: CAW Exh. A, Chs. 8.

19.5.3 Retirements

CAW REQUEST:

CAW's position in filing was based on a five-year average of recorded plant retirements versus total plant additions.

ORA POSITION:

ORA did not propose any changes to the methodology proposed by CAW.

RESOLUTION:

ORA and CAW agree on the methodology as stated above.

REFERENCES: CAW Exh. A, Chs. 8.

19.5.4 Net Negative Salvage Factors

CAW REQUEST:

The net negative salvage factors were analyzed as part of the depreciation study. CAW proposed continuing the same factors as authorized in D.13-06-016.

ORA POSITION:

ORA agreed with the methodology proposed by CAW.

RESOLUTION:

ORA and CAW agree on the methodology as stated above. Please also see the resolution in Special Request #22 (Section 21.22).

REFERENCES: CAW Exh. A, Chs. 8.

19.5.5 Depreciation Weighting Factor

CAW REQUEST:

CAW's position in filing was based on developing a 6-year average of 13 month average changes versus the total annual changes.

ORA POSITION:

ORA did not dispute the methodology proposed by CAW.

RESOLUTION:

ORA and CAW agree on the methodology but had to adjust the result for the Monterey County District due to an error in base data in the calculation.

Average Depr 6 Yr Weighting Factor	CAW Direct 2015	ORA Report 2015	Difference	2015 Settlement	2016 Settlement
Monterey WW	50.80%	50.80%	0.00%	50.80%	50.80%

REFERENCES: CAW Exh. A, Chs. 8;

19.5.6 Depreciation Expense

CAW REQUEST:

CAW's position in filing was based on applying the proposed depreciation accrual rates against the annual weighted average plant balance by account (less contributions).

ORA POSITION:

ORA did not comment on the methodology proposed by CAW.

RESOLUTION:

ORA and CAW agree on the methodology and also agree to the below amounts for Monterey wastewater where all plant issues have been resolved.

REFERENCES: CAW Exh. A, Chs. 8.

19.7 RATE BASE

This section addresses the settlement of rate base for 2015 and 2016 for Monterey Wastewater.

Shown below is a summary of the settled rate base amounts for 2015 and 2016. Discussion of individual components of rate base will be discussed below and a full detailed rate base for each district and Cal Corp will be shown at the end of the section. In addition, a discussion of the settled Average Plant Weighting Factors will be addressed.

REFERENCES: CAW Revised Exh. A, Ch. 9, Table 9.2; Exh. 7, ORA Report Results of Operations Tables, Workpapers Ch. 9, Table 9.2.

The components of rate base that will be discussed below are Average Utility Plant in Service, Materials and Supplies, Working Cash (Operational and Lead Lag), Accumulated Depreciation, Customer Advances, Contributions in Aid of Construction (CIAC), Unamortized Advances / Contributions and Deferred Income Taxes (Federal and State).

19.6.1 Average Utility Plant in Service

CAW REQUEST:

CAW calculated average utility plant in service by projecting capital expenditures and plant retirements for 2013 - 2016. Total plant expenditures were taken from the Company's Strategic Capital Expenditure Plan (SCEP). Please refer to the Depreciation Section for Wastewater of the Settlement Agreement for discussion of the projection of plant retirements.

ORA POSITION:

ORA recommends a level of plant expenditures as outlined in its direct testimony and shown below in the tables.

RESOLUTION:

CAW and ORA agreed to total capital expenditures as shown below in the tables. Please refer to the Plant Section for Wastewater of the Settlement Agreement for further discussion of capital expenditures included in the Settlement.

Wastewater	CAW	ORA		
Total SCEP	Direct	Report	Difference	Settlement
Total SCEP 2013	$ 198,279	$ 136,579	(61,700)	$ 245,891
Total SCEP 2014	202,993	150,917	(52,076)	150,917
Total SCEP 2015	192,000	150,923	(41,077)	171,459
Total SCEP 2016	192,000	151,372	(40,628)	171,816
Total SCEP	$ 785,272	$ 589,791	$ (195,481)	$ 740,083

REFERENCES: CAW Revised Exh. A, Ch. 7, Workpapers RB 100 thru 105; Exh. 15 and 15-A, *ORA Analysis and Recommendations on Utility Plant in Service of CAW Company Application 13-07-002*, dated March 28, 2014, ("ORA Report No. 3"), ORA Report Workpapers RB 100 thru 105.

Shown below is the average utility plant reflected in rate base in the Settlement.

Monterey Wastewater	CAW	ORA		2015	2016
Projected Test Year Rate Base	Direct 2015	Report 2015	Difference	Settlement	Settlement
Average Utility Plant	$ 16,238,377	$ 16,109,701	$ (128,676)	$ 16,226,413	$ 16,384,872

REFERENCES: CAW Revised Exh. A, Ch. 9, Table 9.2; Exh. 7. Direct Testimony of Terence Shia, dated March 28, 2014, ("ORA Shia Direct"), *ORA Analysis and Recommendations on Results of Operation Tables of CAW Company Application 13-07-002*, dated March 28, 2014, ("ORA Report Results of Operations Tables"), ORA Report #2.

19.6.2 Construction Work In Progress (CWIP)

CAW REQUEST:

CAW has historically included all spend on construction in rate base including spend on projects that are in the development/construction phase. This was to allow the Company to earn a return on all spend to ensure that continued funding would be available for all construction projects.

ORA POSITION:

ORA recommends removing CWIP amounts from the two test years for all projects CAW anticipates being in service after 2016. Removing CWIP amounts from rate base for projects that will not be used or useful in the test years is reasonable. ORA recommends that CAW be permitted to capitalize interest at the company's actual weighted cost of debt during construction on all projects to be completed after the two test years in A.13-07-002. In the next general rate case and after actual (not forecasted) completion of these projects, the Company shall be permitted to place all reasonable and prudent capital costs in rate base.

RESOLUTION:

Please refer to the detailed discussion of this issue in the section labelled AFUDC Proposal (Section 13) for the proposed resolution of the issue

19.6.3 Materials and Supplies

CAW REQUEST:

CAW calculated a five-year average of plant material and supplies.

ORA POSITION:

ORA recommended a five-year average of plant materials and supplies.

RESOLUTION:

CAW and ORA agree to ORA's recommendation. Refer to table below for details of settlement of Materials and Supplies.

Monterey Wastewater Projected Test Year Rate Base	CAW Direct 2015	ORA Report 2015	Difference	2015 Settlement	2016 Settlement
Materials and Supplies	44,903	43,862	(1,041)	43,617	44,611

19.6.4 Working Cash – Lead Lag

CAW REQUEST:

CAW calculated Working Cash - Lead Lag using a detailed lead lag study and applying the expense lags to the projected test year expenses.

ORA POSITION:

ORA calculated Working Cash - Lead Lag by utilizing CAW's study and making three adjustments. ORA included interest expense at 91.25 lag days, excluded depreciation and deferred income taxes and assigned 45 days to the purchased water expense for San Diego County and Ventura County Districts.

RESOLUTION:

CAW and ORA agree to a level of Working Cash - Lead Lag that balances the differences in the positions of both parties. Refer to table below for details of settlement of Working Cash - Lead Lag by district.

Monterey Wastewater Projected Test Year Rate Base	CAW Direct 2015	ORA Report 2015	Difference	2015 Settlement	2016 Settlement
Working Cash - Lead Lag	21,000	4,000	(17,000)	3,000	2,000

REFERENCES: CAW Revised Exh. A, Ch. 9, Table 9.2; Ex. 7, ORA Report Results of Operations Tables.

19.6.5 Accumulated Depreciation

CAW REQUEST:

CAW calculated the accumulated depreciation based on its projected levels of plant additions, depreciation expense, retirements and cost of removal, net of salvage.

ORA POSITION:

ORA calculated the accumulated depreciation based on its projected levels of plant additions, depreciation expense, plant retirements and cost of removal, net of salvage.

RESOLUTION:

The resolution of plant additions is discussed below under Average Utility Plant in Service (Section 4.1) and in the Plant Section (Section 22) of this Settlement. Also, please refer to the Depreciation Section of the Settlement (Section 16) which discusses plant retirements and cost of removal, net of salvage. Refer to the table below for details of settlement of Accumulated Depreciation.

Monterey Wastewater	CAW	ORA		2015	2016
Projected Test Year Rate Base	Direct 2015	Report 2015	Difference	Settlement	Settlement
Accumulated Depreciation	(8,345,598)	(8,241,383)	104,215	(8,067,347)	(8,355,204)

REFERENCES: CAW Revised Exh. A, Ch. 9, Table 9.2; Exh. 7, ORA Report Results of Operations Tables

19.6.6 Contributions in Aid of Construction (CIAC)

CAW REQUEST:

CAW projected the balance for CIAC based on projected amounts for capital expenditures reflected in the Strategic Capital Expenditures Plan.

ORA POSITION:

ORA projected the balance for CIAC based on five-year historical average additions.

RESOLUTION:

CAW and ORA agreed to calculate the projected balance for CIAC based on amounts in the SCEP. In addition, the balance in CIAC for 2015 and 2016 was increased by $339,000 based on the settled growth in customers using $2,000 for residential, $5,000 for commercial and $10,000 for Other Public Authority for each new customer in growth. Refer to table below for details of settlement of CIAC.

Monterey Wastewater	CAW	ORA		2015	2016
Projected Test Year Rate Base	Direct 2015	Report 2015	Difference	Settlement	Settlement
Contributions in Aid of Construction	(6,145,360)	(6,145,360)	-	(6,145,360)	(6,049,290)

REFERENCES: CAW Revised Exh. A, Ch. 9, Table 9.2; Exh. 7, ORA Shia Direct, ORA Report Results of Operations Tables.

19.6.7 Deferred Income Taxes

CAW REQUEST:

Deferred income taxes are calculated for temporary timing differences used for book and tax purposes. The largest element of deferred taxes is associated with the timing difference for book and tax depreciation. CAW calculated deferred taxes based on the timing differences between book and tax depreciation, utilizing bonus depreciation in 2013 and reflecting tax repairs deductions.

ORA POSITION:

ORA utilized the same method to calculate the deferred income taxes in rate base that the Company used. The difference between ORA and CAW's methodology is the amount of utility plant that ORA reflected in rate base in its report as compared to the Company's proposed level.

RESOLUTION:

CAW and ORA have agreed to the level of deferred taxes as shown below based on the stipulated level of plant additions, the depreciation rates reflected in calculation of depreciation expense, the use of bonus depreciation in 2013 and utilization of the tax repairs deduction. Refer to table below for details of settlement of Deferred Income Taxes.

Monterey Wastewater	CAW	ORA		2015	2016
Projected Test Year Rate Base	Direct 2015	Report 2015	Difference	Settlement	Settlement
Deferred Federal Income Taxes	(312,239)	(319,780)	(7,541)	(363,588)	(369,687)
Deferred State Income Taxes	(91,910)	(93,938)	(2,028)	(107,144)	(111,890)

REFERENCES: CAW Revised Exh. A, Ch. 9, Table 9.2; Exh. 7, ORA Shia Direct, ORA Report Results of Operations Tables.

19.6.8 Rate Base by Line Category

Shown below are rate base tables for Monterey Wastewater comparing CAW and ORA and the settlement positions for 2015 and 2016.

Monterey Wastewater Projected Test Year Rate Base	CAW Direct 2015	ORA Report 2015	Difference	2015 Settlement	2016 Settlement
Average Utility Plant	$ 16,238,377	$ 16,109,701	$ (128,676)	$ 16,226,413	$ 16,384,872
Materials and Supplies	44,903	43,862	(1,041)	43,617	44,611
Working Cash - Operational	-	-	-	-	-
Working Cash - Lead Lag	21,000	4,000	(17,000)	3,000	2,000
Accumulated Depreciation	(8,345,598)	(8,241,383)	104,215	(8,067,347)	(8,355,204)
Advances for Construction	-	-	-	-	-
Contributions in Aid of Construction	(6,145,360)	(6,145,360)	-	(6,145,360)	(6,049,290)
Deferred Federal Income Taxes	(312,239)	(319,780)	(7,541)	(363,588)	(369,687)
Deferred State Income Taxes	(91,910)	(93,938)	(2,028)	(107,144)	(111,890)
Unamortized Advances	-	-	-	-	-
Unamortized Contributions	-	-	-	-	-
Total Rate Base	$ 1,409,173	$ 1,357,102	$ (52,071)	$ 1,589,591	$ 1,545,412

19.6.9 Average Plant Weighting Factors

CAW REQUEST:

CAW calculated the Average Plant Weighting Factors using six years of historical information. The factors were used to develop the average utility plant in service based on the proposed level of capital expenditures and retirements (see Section 4.1).

ORA POSITION:

ORA agreed with the Company's calculation and used the same factors in its Report.

RESOLUTION:

No issue to resolve. Refer to table below for details of settlement of Average Plant Weighting Factors.

Average Plant 6 Yr Weighting Factor	CAW Direct 2015	ORA Report 2015	Difference	2015 Settlement	2016 Settlement
Monterey WW	36.30%	36.30%	0.00%	36.30%	36.30%

REFERENCES: CAW Revised Exh. A, Ch.7, Table 7.1; ORA Report re Results of Operations Tables Workpapers Ch. 7, Table 7.1.

19.8 Settlement with Las Palmas Ranch on Irrigation System Odor Issues

19.7.1 Existing System

The current Las Palmas Recycle/Reclamation System consists of a wastewater collection system with two parallel treatment trains rated at 90,000 gallons per day (gpd) and 145,000 gpd, and an

average daily flow rate of 200,000 gpd. The System discharges to two holding ponds described as the lower pond (10 MG located at the treatment plant) and the upper pond (14 MG accessed via Acclaim Drive). Chlorinated plant effluent is discharged to the lower pond; a high-speed floating aerator is utilized to improve dissolved oxygen content. Effluent is pumped from the lower pond to the upper pond via two remote controlled pumps. Recycled water is held in the upper pond and used by the irrigation system operator as needed. A slow speed mixer is installed in the upper pond to ensure mixing and prevent thermal stratification. The irrigation system draws from two outlets at the upper pond and supplies recycled water to 41 acres of turf and landscape. Each outlet supplies a separate irrigated area referred to as the lower irrigated area and upper irrigated area. The lower irrigation system outlet flows through a Y-strainer located within the plant site.

19.7.2 Odor Issue

Odors have been reported as occurring for more than 20+ years. The typical odor is described as "raw sewage" or "rotten egg" type smell. The severity of the odors is reported to have gotten worse over time, specifically over the past four years. Numerous complaints have been received regarding the odors and these were voiced most recently at the California Public Utility Commission's (CPUC) Public Participation Hearings in April 2014. As a result of the odors, concerns have been raised by residents and the Las Palmas Wastewater Committee ("LPWC") as to the water quality of the recycled water as it pertains to the use of common areas by residents.

19.7.3 Resolution

Water Quality Sampling

In consideration for LPWC's participation in settlement discussions, CAW has taken water quality samples from (i) the Las Palmas Drinking Water System (as a reference), (ii) treatment plant influent, (iii) treatment plant effluent to lower pond, (iv) upper pond, (v) irrigation System at discharge point (irrigated space). While the results of the samples are considered preliminary, the most important aspect as it relates to health concerns is the bacteriological quality of the recycled irrigation water. At this time, the results indicate that the recycled irrigation water is safe for human contact; however, as stated at the PPH, the water should be considered non-potable.

Pond Cleaning

Based on its investigation, CAW believes that a primary contributor of the odors emanating from the System is hydrogen sulfide. The hydrogen sulfide is generated by a layer of solids at the bottom of the upper pond that is anoxic in nature (lacking oxygen). The organisms present in this environment "feed" on compounds contained in the sludge layer forming hydrogen sulfide as a byproduct. The removal of this layer prevents the formation of hydrogen sulfide, which ameliorates the odor.

CAW shall drain the upper pond and remove the layer of solids at the bottom of the pond. CAW will need the cooperation of Las Palmas residents and homeowners to reduce the water level of the pond. LPWC shall make reasonable efforts to secure the cooperation of Las Palmas residents

while the pond is drained. While the pond is drained for cleaning, it will be impossible to irrigate the Upper Back area of Las Palmas with recycled wastewater from the System. During this time, CAW shall not be responsible for providing alternative sources of irrigation water.

Chemical Treatment

CAW shall also make good faith efforts to implement a chemical treatment process at the plant to oxidize hydrogen sulfide compounds believed to be forming in the upper pond and causing the unpleasant odors. Oxidation is the most common form of treatment used to eliminate hydrogen sulfide. A small chemical feed pump will be used to feed the chlorine solution into the recycle stream and this may provide adequate contact time to allow for oxidation of the hydrogen sulfide. CAW must obtain regulatory authorization prior to implementing this process change. CAW shall make reasonable efforts to obtain such regulatory authorization.

Rates

CAW shall not raise or attempt to raise rates in connection with any of the expenses associated with the water quality sampling, pond cleaning, or chemical treatment processes identified above.

CAW is currently participating in a proceeding for an Order Instituting Rulemaking ("OIR") considering the establishment of high-cost maintenance funds. As part of this Settlement Agreement, CAW shall continue to make good faith efforts to participate in the OIR proceeding for the purpose of establishing a mechanism to request a high-cost maintenance fund for Las Palmas. If the OIR proceeding results in a change that would allow CAW to seek a high-cost maintenance fund for Las Palmas prior to its next general rate case, then CAW shall make reasonable efforts to establish one.

Semi-Annual Meetings

In each of the years at issue in this General Rate Case -- 2015, 2016, and 2017 -- CAW shall meet with representatives from LPWC on a semi-annual basis to discuss Las Palmas residents' concerns about the operation of the System. The first of these meetings shall take place after the close of the first quarter of the year 2015. Thereafter, the meetings shall take place every six months through 2017.

Prior to each of the semi-annual meetings, CAW shall provide LPWC with: (1) invoices for all maintenance expenses -- including capital repairs and improvements -- totaling more than $5,000 that are directly charged to the System; and (2) a document showing the trial balances of direct charges to the active system (this document shall not include allocations by account).

In addition, on an annual basis, CAW shall provide LPWC with a summary of annual operating expenses, operating revenue, depreciation, and general and income taxes which are allocated to the active wastewater systems (collectively, Las Palmas, Indian Springs, Carmel Valley Ranch, Pasadera) and passive wastewater systems (collectively, White Oaks, Spreckels, Village Green, Oak Hills) in CAW's Monterey Wastewater Division. CAW shall provide this document in April of each of the years at issue in this General Rate Case.

20.1 CUSTOMER SERVICE

20.2 Overview

CAW REQUEST:

CAW submitted a number of requests for billing and tariff changes. Among them were the requests to change billing for residential services with two or more adjacent land parcels, billing on parcels where there is no service to a residential structure (both contained in Special Request # 20), billing of compound meters or master battery meter set ups (Special Request #21) and tariff related changes to update outdated tariff language or make minor modifications to tariff language for consistency purpose amongst all district areas Please see Section 21.20 and 21.21 of the Settlement for further information on these Special Requests . In addition, CAW requested additional funding in its Monterey district to offset the increase in incurred costs for implementing additional outreach efforts as proposed by ORA, provide highest levels of local customer service, improve response time to customer inquiries and appropriately staff both the Customer Service and Conservation department according to the workload present.

ORA POSITION:

ORA addressed CAW's proposed changes and furthermore submitted a number of recommendations beyond CAW's request.
ORA opposed CAW's requests contained in Special Request #20 as unnecessary and potentially being perceived as discriminatory. ORA does not oppose CAW's request to clarify how compound meters or master battery meter set ups are being described, as proposed in Special Request # 21, but only approves new language describing three of the five proposed multiple meter set ups; ORA strongly disagrees with the other two of five proposed multiple meter set ups. ORA did not oppose the request for updating outdated tariff language and minor modifications to tariff language for consistency purpose. Please see Section 21.20 and 21.21 for further clarification of the ORA position.
In addition, ORA proposed a number of initiatives that CAW should undertake to improve its outreach in Monterey particularly to Limited English Proficiency ("LEP") customers and areas that had bill spikes. Among those proposed initiatives from ORA are using GIS and census data to identify areas for targeted outreach such as LEP and low income customer areas, developing more Spanish language outreach materials, tracking language preferences of customers, developing and publishing a typical bill translated in Spanish, suspending collection activities until a set of outreach initiatives take place, circulating customer satisfaction surveys in Spanish and using community based organizations to increase outreach efforts.

MPWMD POSITION:

MPWMD opposed CAW's request for billing changes contained in Special Request #20. MPWMD does not oppose clarification of CAW's tariff language for compound and master battery meter set ups proposed in Special Request #21, however, MPWMD concurs with ORA and only approves proposed language for three of the five multiple meter set ups.

RESOLUTION:

Please see Section 21.20 and 21.21 of the settlement for the Resolution of Special Requests 20 and 21. ORA, CAW, and MPWMD agree on some of the proposed Customer outreach initiatives while finding other proposed initiatives not feasible or cost effective to implement at this point. In particular, ORA, CAW, and MPWMD agree that CAW should increase the number of outreach materials that are printed in both English and Spanish. ORA, CAW, and MPWMD further agree to CAW developing GIS and Census data analysis capabilities to better understand areas of increased complaint and customer inquiry levels in a district.
Lastly, ORA, CAW, and MPWMD agree on CAW developing a Spanish translated bill and investigating conducting customer satisfaction surveys in Spanish for such customers.

Both, CAW and ORA agree, however, to not implement ORA's proposed changes to CAW's collection and shut off process, Monterey's high bill threshold amount, and changes proposed to tracking language preferences of customers.
ORA, CAW, and MPWMD agree on an additional $200,000 revenue requirement increment for CAW's Monterey District to offset the increase in costs for implementing some of the ORA proposed outreach initiatives and the additional staffing in the Monterey district office, as set forth below.

20.3 Additional Outreach Initiatives Proposed by ORA

ORA POSITION:

ORA proposed a number of initiatives that CAW should undertake to improve its outreach in Monterey particularly to Limited English Proficiency ("LEP") customers and areas that had bill spikes. Among those proposed initiatives from ORA are, using GIS and census data to identify areas for targeted outreach such as LEP and low income customer areas, developing more Spanish language outreach materials, tracking language preferences of customers, develop and publish a typical bill translated in Spanish, suspending collection activities until a set of outreach initiatives take place, circulate customer satisfaction surveys in Spanish and using community based organizations to increase outreach efforts.

CAW POSITION:

CAW agreed to a number of proposed initiatives but opposed the following initiatives for the reasons mentioned:

- System wide customer language preference tracking: CAW currently does not request such customer preference when an account is opened. Its current Customer Information

System ("CIS") is not set up for tracking language preference for customers. Accounts for all states within American Water are being set up via Customer Service Reps ("CSR") located at two centralized call centers. This proposed system feature would require nationwide implementation at significant costs due to standardized system platforms. CAW therefore opposes this initiative.

- Revising CAW's Collection and Shut off Procedures: CAW opposes this request due to its current collection and shut off process having received previous Commission approval plus requiring significant implementation costs and increase in accounts receivable levels.
- ORA's proposed change to bill amount thresholds for high bill alerts in Monterey: CAW opposes the request due to the current Monterey high bill process already being highly labor intensive and employing significant resources.
- ORA's proposed request for additional reporting requirements for Service Shut off and Collection activity: CAW opposes this request due to its implementation requiring substantial individual manual account research that cannot be automated and thus would require additional resources to be implemented.

RESOLUTION:

CAW and ORA agree on the following initiatives on the condition that CAW is authorized an additional $200,000 increase in revenue requirement in its Monterey District as detailed in the paragraph below:

- CAW to increase the number of outreach material that is printed in both English and Spanish beginning in Q3 and Q4 of 2014
- CAW to develop GIS and Census data analysis capabilities to better understand areas of increased complaint and customer inquiry levels in a district. This effort is to collect data and evaluate if high complaint and inquiry areas exist in a district and to evaluate if targeted outreach can be done more cost effectively than providing outreach to all customers in a district.
- CAW to develop a Spanish translated bill to be posted on its Company website by July 31, 2014
- CAW to investigate conducting customer satisfaction surveys in Spanish if a Spanish speaking customer is being selected for a survey.

To offset the costs of the additional requirements that would be imposed as a result of the agreed upon initiatives, CAW shall be authorized an additional $200,000 increase in revenue requirement for Monterey that may be used to offset the increase in staffing and other costs in Monterey. This increase will not only allow for recovery of costs related to the implementation of the agreed-upon additional outreach initiatives, it will partially compensate for the creation of three new positions in Monterey to appropriately staff the Customer Service and Conservation department according to the workload needs, provide highest levels of local customer service and to improve response time to customer inquiries. CAW compliance with the above conditions and the associated costs incurred in achieving compliance should be reviewed in CAW's next GRC.

REFERENCES: Exh. 8, *Direct Testimony of Richard Rauschmeier, dated March 28, 2014.*

21.1 SPECIAL REQUESTS

21.2 Special Request #1: Recover Balance in Interim Rate Memo Account Using Either the Proposed Rates requested in Application or Modified Surcharge that Accounts for Collection Lag.

CAW REQUEST:

CAW requests authorization to recover the balance in the Interim Rate Memo Account either using the proposed rates requested in this filing or a modified surcharge that takes into account the collection lag. Edward J. Grubb's testimony supports this special request.

ORA POSITION:

ORA contends that this proposal would be a deviation from the law as articulated in section 455.2(b) of the California Public Utilities Code. CAW's first option would have the Commission reverse this procedural process and allow CAW's entire proposed increase to take effect immediately. Additionally, CAW's second option would have the same effect as allowing the interim rate memorandum account to accrue interest at CAW's full rate of return, which ORA contends is inconsistent with the Commission's standard practice. ORA recommends the Commission deny CAW's Special Request #1.

RESOLUTION:

Based on the resolution as agreed to in Section 4.5, CAW agrees to withdraw the request in this case.

REFERENCES: Exh. 22, CAW Grubb Direct, pp. 21-30; Exh. 10. ORA Row Direct, ORA Report No. 8, Ch. 2;, Exh. 21, CAW Dana Direct, pp. 46-48; Exh. 14- and 14-A, ORA Rauschmeier Direct, ORA Report No. 4, Ch. 6.

21.3 Special Request #2: Accrue interest in the WRAM/MCBA Balancing Account using the Approved Cost of Long-Term Debt.

CAW REQUEST:

CAW requests authorization to accrue interest in the Water Adjustment Mechanism/Modified Cost Balancing Accounts ("WRAM/MCBA") Balancing Accounts using the approved cost of long-term debt. Edward J. Grubb's testimony supports this special request.

ORA POSITION: ORA did not address this Special Request in its report, as the Commission had already ruled that this request was outside the scope of this proceeding.

RESOLUTION:

The Commission has determined that CAW's Special Request #2 is outside the scope of this (A.13-07-002) proceeding.

REFERENCES: Exh. 22, CAW Grubb Direct, pp. 21-30; Exh. 10. ORA Row Direct, ORA Report No. 8, Ch. 3.

21.4 Special Request #3: MTBE Contamination Proceeds.

CAW REQUEST:

CAW requests to share 25% of the currently held net proceeds related to Methyl-tert-butyl-ether (commonly referred to as MTBE) contamination of $4,131,694 with customers and provide the balance to shareholders. David P. Stephenson's testimony supports this special request.

ORA POSITION:

Properly accounting for the settlement proceeds results in no net proceeds available to allocate. ORA recommends that settlement proceeds related to contaminated water supplies be used to partially offset the new investment in water supplies in the affected districts. As a result of CAW's proposed new investment for the district significantly exceeding the entire settlement value, ORA contends no proceeds should be allocated between customers and shareholders. All net proceeds should be considered as contributions-in-aid-of-construction.

RESOLUTION:

CAW and ORA agree that the requested recovery of the net proceeds of $4,131,694 shall be shared between customers and shareholders. Customers shall receive $2,000,000 as a reduction to expenses in the authorized revenue requirements, while $2,131,694 shall be apportioned to shareholders. The $2,000,000 shall be allocated as $1,000,000 to the Los Angeles district and $1,000,000 to the Monterey District. The reductions shall be a non-inflatable expenses reduction of $333,333 in each year of this GRC to each district and recorded as reduction in Miscellaneous General Expense. The amounts so recorded in the 2015-2017 period shall not be used for future forecasting purposes in any subsequent GRC. The amount of $333,333 recorded for each district in 2015 shall not be inflated in 2016 or 2017 for the purposes of the authorized step rate calculations in those years.

REFERENCES: Exh. 30, CAW Stephenson Direct, pp. 8-13; Exh. 14 and 14-A, ORA Rauschmeier Direct, ORA Report No. 4, Ch. 3.

21.5 Special Request #4: Recovery of the Low Income Program Costs.

CAW REQUEST:

CAW requests Commission authorization to recover low income program costs on a company-wide ongoing basis through a uniform prospective customer surcharge and the tracking of program costs and collections in a balancing account instead of a memorandum account.

ORA POSITION

ORA recommends that the Commission approve CAW's Special Request #4 subject to the following following three requirements:

1. CAW's Low Income Customer Data Sharing Memorandum Account ("LICDS MA") will remain open through December 31, 2014. CAW's LICDS MA will be closed at the end of the rate case cycle ending December 31, 2014. Thereafter, "ongoing data sharing costs billed by Accenture" should be forecasted in the revenue requirement for the rate cycle beginning January 1, 2015. See ORA's testimony on the LICDS MA in Special Request #29 for the amounts to be incorporated into the revenue requirement for the rate cycle beginning January 1, 2015.
2. CAW's Low Income Ratepayer Assistance Program Memorandum Account ("LIRAP MA") will remain open through December 31, 2014. This account shall be closed after review of the account's December 31, 2014 outstanding balance in the next GRC.
3. CAW's Low Income Ratepayer Assistance Program Balancing Account ("LIRAP BA") applicable to all of CAW's districts shall be established for the rate cycle beginning January 1, 2015 and will only track LIRAP discounts provided to customers and the LIRAP surcharges collected from the customers not qualified to participate in the LIRA program.

RESOLUTION:

ORA and CAW agree to the request subject to the above three conditions that are also set forth in the ORA Report. Additionally, in regards to this program, ORA and CAW further agree:

1. The program will be a Company-wide program,

2. A surcharge will be based on the parameters and calculations as detailed in the above Rate Design Section 10 of this document,

3. The surcharge will be applicable to all non-low Income water and wastewater customers,

4. The surcharge will be evaluated and adjusted annually in the annual Step rate filings to ensure appropriate collection, and

5. The annual adjustment will be based on calculations as provided in Attachment E-7 to this Settlement wherein actual data for discounts, Low Income customers and total customers are inserted into the calculation to replace estimates that are currently shown. Actual data should be through September 30, of the latest recorded period.

REFERENCES: Exh. 30. CAW Stephenson Direct, pp. 25-30; Exh. 10, ORA Report No. 8, Ch. 4.

21.6 Special Request #5: Establish a Connection Fee for All Areas in All Districts.

CAW REQUEST:

CAW requests authorization to establish a connection fee for all areas in all districts where a special facilities fee or connection fee does not currently exist. David P. Stephenson's testimony supports this special request.

ORA POSITION:

ORA does not support CAW's request to establish a connection fee tariff for all Districts except those that already have a Special Facilities Fee because the language of the request is unclear. CAW is requesting a connection fee where a special facilities fee does not currently exist. A special facilities fee serves a different purpose and is based on a different cost analysis than that of a connection fee, therefore, the two fees should not be substituted for one another. ORA recommends that the Commission require CAW to submit additional cost analysis to ensure the connection fee covers only CAW's cost of hooking a new customer into an already existing main for each of its service districts.

MPWMD POSITION:

MPWMD was not able to support the request as originally drafted.

RESOLUTION:

As per the testimony of CAW, ORA, CAW, and MPWMD argree the following proposal as requested by CAW will be approved subject to the following conditions.

4. A connection fee as shown in the Attachment E-5 shall now be applicable to all new non-contributed water services in all areas of CAW, except for Placer County (which has a required fee already in place by Placer County Water Agency).

5. The current fee called a Special Facilities Fee ("SFF") in the Larkfield district will be renamed more appropriately as a connection fee.

6. A new SFF would be instituted in the Monterey District in all areas that are to be served water produced by the proposed Monterey Peninsula Water Supply Project ("MPWSP")[8].

[8] All service areas except those in the Toro, Garrapata, Ambler Park, Ralph Lane and Chualar, new connections in Sand City, new customers in the Pebble Beach area who have purchased

7. The SFF adopted in the Monterey District shall be based on the cost of the additional facilities at the MPWSP necessary to serve new customers divided by the AF of additional capacity yield of the new facilities. The fee is agreed to be established at $24,000 per acre foot of annual water use. The fee can be charged in increments of less than an acre foot depending on the projected annual needs. Please see Attachment E-5 for the recommended proposed tariff.

CAW, ORA, and MPWMD further agree that the fees shall all be recorded as contributions-in-aid-of-construction and that the estimate of fees in this case, for rate base purposes, shall be based on the expected customer growth in each service area times $2,000. The fee will only be assessed on new customers.

REFERENCES: Exh. 30, CAW Stephenson Direct, pp. 17-20; Exh. 12 and 12-A, ORA Report No. 6, Ch. 3; Exh. 4, MPWMD Stoldt Direct, pp. 7-8.

21.7 Special Request #6: New Tariff with List of all "Special Fees".

CAW REQUEST:

CAW requests authorization for a new tariff which will list all "Special Fees" (e.g. turn on - Late payment charge, etc.). David P. Stephenson's testimony supports this special request.

ORA POSITION:

ORA does not oppose CAW's request for a single tariff sheet listing all the fees.

RESOLUTION:

ORA and CAW agree that the proposed single tariff sheet listing of all Special Fees shall be approved. A copy of the recommended tariff is provided as Attachment E-5.

---

water rights through the Pebble Beach Company, MPWMD Public Allocation water, and properties with existing MPWMD documented on-site water credits.

REFERENCES: Exh. 30, CAW Stephenson Direct, pp. 16-17; Exh. 12 and 12-A, ORA Report No. 6, Ch. 4.

21.8 Special Request #7: Memorandum Account to Track Costs related to Limiting Chromium 6 in Drinking Water.

CAW REQUEST:

CAW requests authorization for a memorandum account to track costs related to limiting Chromium 6 in drinking water. David P. Stephenson's testimony supports this special request.

ORA POSITION:

ORA recommends the Commission dismiss this special request as CAW has already filed and received approval for Advice Letter 1020 to establish a memorandum account for the final Chromium 6 MCL.

RESOLUTION:

CAW and ORA agree that this Special Request is no longer necessary as the requested memorandum account has already been approved by the Commission through Advice Letter 1020.

REFERENCES: Exh. 30, CAW Stephenson Direct, pp. 30-31; Exh. 11. Direct Testimony of Alex Lau, dated March 28, 2014, ("ORA Lau Direct"), ORA Analysis and Recommendations on Special Requests7, 22, 32, and 33, dated March 28, 2014, ("ORA Report No. 7"), Ch. 1.

21.9 Special Request #8: After-Hours Activation Charge Increase.

CAW REQUEST:

CAW requests authorization to increase the after-hours activation charge. David P. Stephenson's testimony supports this special request.

ORA POSITION:

ORA does not oppose the request for an increase in the after-hours activation charge.

RESOLUTION:

CAW and ORA agree that an after-hours reconnection fee of $175 is equitable and shall be charged in all cases where the after-hours service is requested by customers. The fee will better align costs with cost causation. CAW and ORA agree that the present rate revenue requirements need to be increased by $29,675 to accommodate the expected increase in fees billed to customers. The fee and conditions are as set forth inAttachment E-5 for Rule 11 and Special Fees.

REFERENCES: Exh. 30. CAW Stephenson Direct, pp. 24-25; Exh. 12 and 12-A, ORA Korthamar Direct, ORA Report No. 6, Ch. 5.

21.10 Special Request #9: Authorization for a New Late Payment Fee.

CAW REQUEST:

CAW requests authorization for a new late payment fee. David P. Stephenson's testimony supports this special request.

ORA POSITION:

ORA does not oppose the request for a new late payment fee for all Districts, however ORA recommends the Commission adopt ORA's proposed tariff language, which is that CAW clarify the language to ensure the customer understands that 1.5% is a late payment fee of the entire amount past due but does not compound.

RESOLUTION:

CAW and ORA agree that customers will be notified on the monthly issued bill that a late fee of 1.5% will be applied to any account that is not paid before the past due date shown on the bill. The fee shall be applied at the time a late payment notice is issued. If the customer pays the balance on the date the late payment notice is mailed, then that assessed fee will be forgiven. CAW and ORA agree that the fee shall be assessed on all upaid balances regardless of whether it is an initial or subsequent bill when a total balance has not been paid or there should have been a shut off for non-payment. CAW and ORA agree that the fee shall be compounded on all balances that are past due, unless they are under payment agreement or over 180 days old. CAW and ORA agree that for purposes of establishing the expected revenues received as a result of implementation of the fee that $418,280 shall be reflected in the present rate revenues for water customers, and $11,396 for wastewater customers. Please see Attachment E-5 for Rule 9 and Special Fees for copies of the proposed tariffs.

REFERENCES: Exh. 30, CAW Stephenson Direct, p. 17; Exh. 12 and 12-A, ORA Korthamar Direct, ORA Report No. 6, Ch. 6.

21.11 Special Request #10: Authorization to Consolidate Private Fire Hydrant and Private Fire Service Tariffs into a Single Tariff.

CAW REQUEST:

CAW requests authorization to consolidate private fire hydrant and private fire service tariffs into a single tariff, ultimately with consolidated rates. David P. Stephenson's testimony supports this special request.

ORA POSITION:

ORA does not oppose establishing a process to achieve uniform Private Fire Service ("PFS") and Private Fire Hydrant ("PFH") rates across all ratemaking districts. However, an arbitrary process where the highest rates of all CAW's districts serve as the targets for setting the remaining districts' PFS and PFH rates should not be approved. If the Commission is to allow uniform rates

for PFS and PFH services across all ratemaking districts, ORA recommends a process by which PFS and PFH rates converge towards a system wide average.

RESOLUTION:

CAW and ORA agree with the ORA recommendations as shown in its Report. Those recommendations are:

1. The Commission should adopt an approach that allows PFS and PFH rates to gradually converge towards the company-wide average,

2. The Commission should utilize a pricing approach similar to that currently utilized in the San Diego, Los Angeles, Sacramento, and Ventura Districts, where all service sizes less than 4" are assigned the same uniform PFS rate,

3. The Commission should target uniform PFS and PHF rates that can be achieved in four rate case cycles and the rates for each district in the current rate case that would be consistent with uniformly achieving these targets over four cycles, and

4. The Commission should adopt the PFS and PFH rates recommended by ORA for CAW's 2015 test year and not be adjusted until the first test year of the next rate case cycle.

Rates will be established as shown on the appended Attachment E-4.

REFERENCES: Exh. 30. CAW Stephenson Direct, pp. 21-24; Exh. 14 and 14-A, ORA Rauschmeier Direct, ORA Report No.4, Ch. 4..

21.12 Special Request #11: Establish a Group Insurance Balancing Account.

CAW REQUEST:

CAW requests authorization to establish a Group Insurance Balancing Account. David P. Stephenson's testimony supports this special request.

ORA POSITION:

ORA does not agree with CAW on the need for a balancing account to cover increases in group insurance expenses.

RESOLUTION:

CAW and ORA agree that based on the allowance for higher inflation rates for 2013 and 2014, that the balancing account is not necessary.

REFERENCES: Exh. 30. CAW Stephenson Direct, pp.31-33; Exh. 9, Direct Testimony of Josefina Montero, dated March 28, 2014, ("ORA Montero Direct"), ORA Analysis and

Recommendations on Non-Tariffed Products & Services and Special Request 11 dated March 28, 2014 ("ORA Report No. 11"),ORA Report No. 1, Ch. 2.

21.13 Special Request #12: Authorization to Recover Leak Adjustments as Part of General Metered Rates.

CAW REQUEST:

CAW requests authorization to recover leak adjustments as part of general metered rates. Jeffrey M. Dana's testimony supports this special request.

ORA POSITION:

ORA recommends that CAW's Special Request #12 be approved to allow recovery in general metered rates of a reasonable forecast of customer billing adjustments on a prospective basis.

MPWMD POSITION:

MPWMD supports billing adjustments for atypical water use.

RESOLUTION:

CAW, ORA, and MPWMD agree to the request as proposed by CAW to include an estimate of future leak adjustments in proposed expenses of each district. CAW shall continue to separately identify billing adjustments in workpapers for all WRAM and GRC filings.

REFERENCES: Exh. 21, CAW Dana Direct, p. 44; Exh. 14 and 14-A, ORA Rauschmeier Direct, ORA Report No. 4 Ch. 5. ; Exh. 34-A, MPWMD Locke Supplemental Direct, p. 4.

21.14 Special Request #13: Authorization to Increase the Authorized per Acre Foot of Delivered Water Produced at the Sand City Desalination Plant.

CAW REQUEST:

CAW requests authorization to increase the authorized cost per acre foot of delivered water produced at the Sand City Desalination Plant, as authorized by D.13-04-015. The testimony of Jeffrey M. Dana supports this request.

ORA POSITION:

ORA supports CAW's request.

MPWMD POSITION:

MPWMD supports CAW's request.

RESOLUTION:

CAW, ORA, and MPWMD agree to the request of CAW to authorize an increase in the cost per acre foot of delivered water produced at the Sand City Desalination Plant, as authorized by D.13-04-015, from $2,599 to $3,164.

REFERENCES: Exh. 21, CAW Dana Direct, pp. 46-48; Exh. 14 and 14-A, ORA Rauschmeier Direct, ORA Report No. 4 , Ch. 6. Exh. 4, MPWMD Stoldt Direct, p.8.

21.15 Special Request #14: Authorization to Consolidate the Larkfield and Sacramento Districts for Ratemaking Purposes.

CAW REQUEST:

CAW requests authorization to consolidate the Larkfield and Sacramento Districts for ratemaking purposes. David P. Stephenson's testimony supports this special request.

ORA POSITION:

ORA did not address this Special Request in its report, as the Commission had already ruled that this request was outside the scope of this proceeding.

RESOLUTION:

The Commission has determined that CAW's Special Request #14 is outside the scope of this (A.13-07-002) proceeding.

REFERENCES: Ex. 30, CAW Stephenson Direct, pp. 33-44; A.13-07-002, *Scoping Memo of the Assigned Commissioner and Administrative Law Judge*, dated November 22, 2013, p. 5.

21.16 Special Request #15: Authorization to Consolidate the Fixed Costs for the Los Angeles County, San Diego County, and Ventura County Districts for Ratemaking Purposes.

CAW REQUEST:

CAW requests authorization to consolidate the fixed costs for the Los Angeles County, San Diego County, and Ventura County Districts for ratemaking purposes. David P. Stephenson's testimony supports this special request.

ORA POSITION:

ORA did not address this Special Request in its report, as the Commission had already ruled that this request was outside the scope of this proceeding.

RESOLUTION:

The Commission has determined that CAW's Special Request #15 is outside the scope of this (A.13-07-002) proceeding.

REFERENCES: Ex. 30, CAW Stephenson Direct, pp. 47-51; A.13-07-002, *Scoping Memo of the Assigned Commissioner and Administrative Law Judge*, dated November 22, 2013, p. 5.

21.17 Special Request #16: Authorization to Implement a Consumption Adjustment Mechanism.

CAW REQUEST:

CAW requests authorization to implement a Consumption Adjustment Mechanism. David P. Stephenson's testimony supports this special request.

ORA POSITION:

ORA continues to oppose the request of CAW in A.12-07-007 and recommends against approval of CAW's revised Special Request #16 in this proceeding.

MPWMD POSITION:

MPWMD did not provide testimony on this special request.

RESOLUTION:

CAW modified its original request to mirror that requested by Cal Water in A.12-07-007. CAW, ORA, and MPWMD agree that, if Cal Water's request in A.12-07-007 is successful, CAW may implement, through a Tier 1 advice letter filing, a Consumption Adjustment Mechanism consistent with Commission approval of Cal Water's request in A.12-07-007. If Cal Water's request in A.12-07-007 is not approved, then CAW will not implement Special Request #16. Nothing in resolution of this issue should prevent CAW from being able to make a similar request in a subsequent proceeding.

REFERENCES: Exh. 30, CAW Stephenson Direct, pp.54-55; Exh. 14 and 14-A, ORA Rauschmeier Direct, ORA Report No. 4, Ch. 7.

21.18 Special Request #17: Authorization to Recover Rate Case Expense on a Specific Annual Amount.

CAW REQUEST:

CAW requests authorization to recover rate case expense on a specific annual amount to better match the recovery in the revenue requirement with the expense incurred. David P. Stephenson's testimony supports this special request.

ORA POSITION:

ORA recommends against this request as unnecessary and unsupported.

RESOLUTION:

CAW agrees to withdraw this request and continue to forecast rate case expense for the Test Year based on one-third of the total Settlement agreed-upon costs.

REFERENCES: Ex. 30, CAW Stephenson Direct, pp. 55-57; Exh. 16 and 16-A, ORA Roberts/Montero Direct, ORA Report No. 1, Ch. 17.

21.19 Special Request #18: Authorization to Establish State Water Resources Control Board Cease and Desist Order Memorandum Account.

CAW REQUEST:

CAW requests authorization to file for the establishment of a memorandum account to track all penalties and fines that could be assessed as a result of a violation of the State Water Resources Control Board ("SWRCB") Cease and Desist Order ("CDO"), should such an account be necessary. David P. Stephenson's testimony supports this special request.

ORA POSITION:

ORA recommends that CAW's request for establishing a SWRCB CDO Memo Account be approved only as a subaccount within CAW's existing Cease and Desist Order Memorandum Account (CDOMA), which currently captures any and all activities related to the CDO.

RESOLUTION:

CAW and ORA agree that a subaccount within CAW's existing Cease and Desist Order Memorandum Account (CDOMA) be established to track any penalties or fines that may be assessed as a result of a violation of the SWRCB Cease and Desist Order.

REFERENCES: Exh. 30, CAW Stephenson Direct, pp. 60-62; Exh. 7, ORA Shia Direct, ORA Report No. 2, Ch. 2.

21.20 Special Request #19: Authorization to Continue Monterey County District Rationing Memorandum Account.

CAW REQUEST:

CAW requests authorization to continue its Monterey County District Rationing memorandum account. Patrick Pilz's testimony supports this special request.

ORA POSITION:

ORA does not oppose CAW's request.

MPWMD POSITION:

MPWMD did not oppose CAW's request but requested establishment of a similar account to cover MPWMD emergency rationing costs. Based on previous rationing enforcement experience, MPWMD anticipates rationing costs associated with additional personnel, training, hardware and software, programming, rent, furniture and equipment, office supplies, utilities, insurance, transportation, legal fees and legal notices.

RESOLUTION:

CAW, ORA, and MPWMD agree to the request as proposed by CAW. The account authorizes CAW to continue its Monterey County District Rationing memorandum account to track extraordinary expenses in the event that advanced stage rationing is necessary. This account was previously authorized under D.03-02-030, D.08-07-010, and D.09-05-029. Additionally, based on a request by MPWMD to have its own memorandum account for rationing related marginal costs, CAW and ORA agree that CAW shall be authorized to pay and recover from customers Commission-authorized, reasonable, and prudent costs incurred by MPWMD approved in the rationing memo account.

REFERENCES: Exh. 1, *Direct Testimony of Patrick Pilz, dated July 1, 2013*, ("CAW Pilz Direct"), p. 16; Exh. 14 and 14-A, ORA Rauschmeier Direct, ORA Report No. 4, Ch. 8. . Exh. 34, MPWMD Locke Pintar Direct, p. 13.

21.21 Special Request #20: Authorization to Combine Multiple General Metered Services to a Single Residential Structure into a Single Consolidated Bill.

CAW REQUEST:

CAW requests authorization to combine multiple general metered services to a single residential structure into a single consolidated bill. Patrick Pilz's testimony supports this request.

ORA POSITION:

ORA does not support this request because. the tariff changes that CAW proposes in Special Request #20 are unnecessary and could be perceived as discriminatory.

MPWMD POSITION:

MPWMD opposes this request if the effect is to discourage separate metering.

RESOLUTION:

CAW, ORA, and MPWMD agree that the request made by CAW shall be withdrawn.

REFERENCES: Exh. 1, CAW Pilz Direct, p. 25; Exh. 14 and 14-A, ORA Rauschmeier Direct, ORA Report No. 4, Ch. 9. . Exh. 34-A, MPWMD Locke Supplemental Direct, pp. 5 - 6.

21.22 Special Request #21: Clarify how Compound and Multiple Meters Should be Billed.

CAW REQUEST:

CAW requests authorization to clarify how compound and multiple meters should be billed. Patrick Pilz's testimony supports this special request.

ORA POSITION:

ORA does not oppose the request to clarify how compound and multiple meters are billed; however, ORA only approves the new language used to describe Compound Meter Set up with one meter body and two registers (setup a); Compound Meter Set up with two meters in a manifold set-up, both meters are open and active (setup b); Compound Meter Set up with two meter in a manifold set-up, only one meter is open and active (setup c).

MPWMD POSITION:

Based on responses to data requests, MPWMD supports this special request.

RESOLUTION:

CAW, ORA, and MPWMD agree that there shall be a separate tariff for multiple meter set-ups and that the billing shall be based on the following:

1. For compound meters in a single meter body - the billing meter size shall be based on the larger meter in the setup.

2. For installations where there are two meters in a manifold set-up and one is used solely for testing purposes, the billing meter size shall be based on the meter size of the meter used for continuous flow purposes.

3. For installations where there are two or more meters in a manifold set-up and all meters are used for continuous billing purposes, the billing meter size shall be based on the flow capabilities of the combined flow of all meters. CAW, ORA, and MPWMD agree that CAW shall bill these meters in accordance with the billing sizes as shown in Attachment E-8.

REFERENCES: Exh. 1, CAW Pilz Direct, pp. 25-26; Exh. 12 and 12-A, ORA Korthamar Direct, ORA Report No. 6, Ch. 7,;Exh. 34-A, MPWMD Locke Supplemental Direct, p. 6.

21.23 Special Request #22: Increase the Net Salvage Factor for Los Padres Dam Removal.

CAW REQUEST:

CAW requests that the Commission increase the net salvage factor to negative 25% in order to gradually accumulate funds to remove the Los Padres Dam. F. Mark Schubert's testimony supports this special request.

ORA POSITION:

ORA recommends the Commission approve this request. The Commission is recommended to order a review of the status of the Dam and the appropriateness of the net salvage factor in each GRC going forward.

MPWMD POSITION:

MPWMD did not support CAW's request initially because the request appeared premature, no comprehensive study of the dam's future had been undertaken, and sediment accumulation was only in the context of dam removal.

RESOLUTION:

CAW, ORA, and MPWMD agree that the net salvage factor for Los Padres Dam Removal shall be increased to negative 25% in order to gradually accumulate funds to remove the Los Padres Dam and/or the accumulated sediments. CAW and ORA further agree that ORA shall have continuing review of this factor in future rate cases.

REFERENCES: Exh. 2, CAW Schubert Direct, p. 152; Exh. 11, ORA Lau Direct, ORA Report No. 7, Ch. 2. . Exh. 4. MPWMD Stoldt Direct, pp. 9 - 10.

21.24 Reserved

21.25 Special Request #24: Authorization of a Metered Construction Tariff for All Districts.

CAW REQUEST:

CAW requests authorization of a metered construction tariff for all districts. David P. Stephenson's testimony supports this special request.

ORA POSITION:

ORA does not oppose the request for a metered construction tariff in all Districts similar to the existing Ventura County District tariff.

MPMD POSITION:

MPWMD did not provide testimony on this special request.

RESOLUTION:

CAW, ORA, and MPWMD agree to this request as proposed by CAW. The result of the implementation of this request is that present rate revenue is reduced by $49,923 mostly in the Monterey District. The tariff rates related to this implementation are attached to this Settlement as referenced in the Rate Design Portion of this Settlement, Section 10.

REFERENCES: Exh. 30, CAW Stephenson Direct, pp. 14-16, Attachment 2; Exh. 12 and 12-A, Korthamar Direct.; ORA Report No. 6, Ch. 8,

21.26 Special Request #25: Authorization to Eliminate the Duarte Irrigation Tariff and Transfer Irrigation Customers to Commercial Tariffs.

CAW REQUEST:

CAW requests authorization to eliminate, in Duarte, irrigation tariffs and transfer irrigation customers to commercial tariffs. David P. Stephenson's testimony supports this special request.

ORA POSITION:

ORA recommends approval of CAW's request to eliminate the Duarte Irrigation Tariff and transfer the customers to the Commercial Tariff in this GRC.

RESOLUTION:

CAW and ORA agree to this request as proposed by CAW. As customers' current irrigation service is terminated and the service is transferred to the domestic system, their service will then be considered as a commercial customer service on the domestic system for billing purposes.

REFERENCES: Exh. 30. CAW Stephenson Direct, pp. 20-21; Exh. 12 and 12-A, Korthamar Direct.;ORA Report No. 6, Ch. 9.

21.27 Special Request #26: Remove the "Pilot" Designation for CAW's Conservation Programs.

CAW REQUEST:

CAW requests authorization to remove the "Pilot" designation from its Conservation Programs. David P. Stephenson's testimony supports this special request.

ORA POSITION:

ORA recommends that the "pilot" designation that is currently applied to CAW's conservation programs remain in place until integration of the pilot program's decoupling mechanisms can be achieved with a revised Rate Case Plan for Class A Water Utilities.

MPWMD POSITION:

MPWMD supports this special request.

RESOLUTION:

Settling Parties agree to remove the "Pilot" designation from the Conservation Programs title for all districts. This resolution extends to all prior settlement agreements between ORA (and its predecessor, DRA) and CAW to the extent that those agreements establish or continue conservation programs for CAW districts: those settlement agreements are also modified to remove the "pilot" designation.[9]

REFERENCES: Exh. 30, CAW Stephenson Direct, pp. 53-54; Exh. 14 ad 14-A, Rauschmeier Direct.; ORA Report No. 4, Ch. 10. Exh. 34-A, Exh. 34-A, MPWMD Locke Supplemental Direct, p. 6.

21.28 Special Request #27: Authorization to Move All Wastewater Customers to Monthly Billing.

CAW REQUEST:

CAW requests authorization to move all wastewater customers to monthly billing. David P. Stephenson's testimony supports this special request.

ORA POSITION:

ORA agrees with CAW's request to bill all of its wastewater customers in the Monterey County District on a monthly basis.

RESOLUTION:

CAW and ORA agree to the request as proposed by CAW.

REFERENCES: Exh. 30, CAW Stephenson Direct, pp. 52-53; Exh. 3, ORA Shia Direct, ORA Report No. 2, Ch. 3..

21.29 Special Request #28: Authorization to Consolidate all Monterey Small Water Systems for Ratemaking and Billing Purposes.

CAW REQUEST:

CAW requests authorization to consolidate all Monterey small water systems for ratemaking and billing purposes. David P. Stephenson's testimony supports this special request.

---

[9] *See, e.g.*, July 28, 2011 Partial Settlement Agreement between DRA, TURN, and CAW on Revenue Requirement Issues in A.10-07-007 at 136 (discussing the Operational Energy Efficiency pilot project), 305 (discussing Distribution System Improvement Charge Pilot program).

ORA POSITION: The Commission determined that Special Request # 28 was outside the scope of this proceeding. Thus, ORA did not address this Special Request in its report.

RESOLUTION:

The Commission has determined that CAW's Special Request #28 is outside the scope of this (A.13-07-002) proceeding.

REFERENCES: Exh. 30, CAW Stephenson Direct, pp. 44-47; A.13-07-002, *Scoping Memo of the Assigned Commissioner and Administrative Law Judge*, dated November 22, 2013, p. 5.

21.30 Special Request #29: Authorization to Recover All Current Memorandum and Balancing Accounts.

21.29.1 Special Request 29-1: Global Agreement

CAW and ORA agree the following global terms shall apply to the balancing and memorandum accounts:

1. ORA and CAW agree that it is reasonable for customer notices to indicate the percentage bill impacts of the amortization schedule for these accounts. CAW shall include as part of the customer notice of the next general rate case (2016) an estimated percent bill impact of proposed surcharges, in addition to requested base rate impacts, subject to Public Advisor's Office review and approval.

2. CAW's preliminary statements shall be updated to reflect all current individual memorandum and balancing accounts, with an alpha-numerical reference to those accounts. CAW shall also provide a summary table listing each account, the accounts corresponding alphabetical label, and the CPUC Sheet Number referencing the accounts preliminary statement. This summary table along with the updated preliminary statements shall be uploaded to CAW's website.

3. Unless otherwise noted, recovery of memorandum and balancing accounts shall be recovered through the Consolidated Expense Balancing Account (CEBA). If the net CEBA balance after the transfers is under collected, the account will be amortized by applying a uniform volumetric surcharge. If the net CEBA balance after the transfers is over collected, the net over collection shall be amortized and credited to the service charge of all customers, based upon the meter equivalent size of the service connection.

4. Recovery of all agreed-upon accounts shall cover balances through May 31, 2013 unless otherwise noted.

5. Recovery of all agreed-upon accounts shall also include interest which accrues at the 90-day commercial paper rate (per Standard Practice U-27-W) and from May 31, 2013 (the date at which the account's balance was reviewed) up until the

balance is requested for recovery or refund to customers and transferred to the district CEBA. Interest will still be allowed to accrue at the 90-day commercial paper rate on the balances of the district CEBAs.

21.29.2 Special Request 29-2: National Oceanic and Atmospheric Endangered Species Act (NOAA/ESA)

CAW REQUEST:

The NOAA/ESA memorandum account tracks compliance payments made by CAW to NOAA or its designated payee for ESA mitigation in CAW's Monterey County District. CAW seeks to continue the current memorandum account authorized by the Commission on July 11, 2009, in D.09-07-021 and again in D.12-06-016. Additionally, CAW requests authorization to continue the ability to seek annual recovery of the annual payments as established in Advice Letter 652, so long as they are required to be paid.

ORA POSITION:

ORA does not oppose CAW's request to continue the NOAA/ESA MA and to continue seeking recovery (via Tier 3 Advice Letter) of annual payments made to NOAA per Advice Letter 652.

RESOLUTION:

CAW and ORA agree to continue the account and that the approved balances will be transferred to the Monterey CEBA. Recovery of annual payments shall be through a Tier 2 advice letter. Balances in this account shall be recovered from customers in the Monterey main system through a uniform volumetric-based surcharge. In the event the NOAA agreement is extended beyond 2016 due to delays in the MPWSP, CAW may file a Tier 3 advice letter to request such costs be included in the NOAA/ESA memorandum account.

Account Name	District	Interest	Over/(Under) Collection		
			Cal Am	ORA	Settlement
National Oceanic & Atmospheric Endangered Species Act (NOAA/ESA) Memorandum Account	Monterey	90-day	(8,441,046)	(8,441,046)	(8,441,046)

REFERENCES: Exh. 28, Direct Testimony of Todd Pray, dated July 1, 2013, ("CAW Pray Direct"), pp. 2-3; Exh. 10, ORA Row Direct, ("ORA Report 8"), Chapter 5, pp. 41-45.

21.29.3 Special Request 29-3: Credit Card Memorandum Account

CAW REQUEST:

The Credit Card Memorandum Account ("CCMA") is applicable to all of CAW's Districts. It tracks avoided costs of check processing fees when customers pay by credit card instead of check. CAW requests approval to transfer the remaining outstanding balances that occurred between May 31, 2010 and memorandum account closure (in accordance with the settlement terms adopted in D.12-06-016). The balances for each District would be transferred to the expense balancing account for refund or recovery.

ORA POSITION:

ORA is not opposed to CAW's request to transfer the amounts to each district CEBA and to fully close the CCMA in each of CAW's districts.

RESOLUTION:

Parties agree to transfer the remaining outstanding balances in the Credit Card Memorandum Account (CCMA) for each District that occurred between May 31, 2010 and closure of the CCMAs to the respective district CEBAs for refund through a Tier 1 Advice Letter. CAW shall fully close the CCMAs.

Account Name	District	Interest	Over/(Under) Collection		
			Cal Am	ORA	Settlement
Credit Card Memorandum Account	Coronado	90-day	69,253	69,253	28,870
	Larkfield	90-day	8,091	8,091	4,043
	Los Angeles - Baldwin Hills	90-day	31,126	31,126	13,855
	Los Angeles - Duarte	90-day	21,230	21,230	9,331

REFERENCES: Exh. 28, CAW Pray Direct, pp. 3-4; Exh. 10, ORA Row Direct, ORA Report 8, Chapter 5, pp. 91-93.

21.29.4 Special Request 29-4: Endangered Species Act ("ESA") Memorandum Account

CAW REQUEST:

The ESA Memorandum Account tracks costs incurred complying with ESA requirements, except for ESA compliance costs associated with the San Clemente Dam. CAW seeks continued approval of this account for tracking unforeseen requirements by governmental agencies. CAW remains under the restriction of State Water Resources Control Board's ("SWRCB") Order WR 95-10, as well as the Cease and Desist Order issued by SWRCB in October 2009. Continuance of this account allows CAW to comply with ESA-related requirements issued by agencies and potentially recover the expenditures at a later time. CAW also requests authorization to transfer the outstanding balances in this account at the end of 2014 to plant for recovery in rate base.

ORA POSITION:

ORA recommends the Commission authorize the following: CAW shall be allowed to continue the ESA memorandum account to track all future ESA compliance costs. 1) CAW should not

transfer any and all ESA compliance costs to plant for recovery in rate base. 2) CAW should remove from its recorded 2012 Monterey CWIP end of year balance $1,018,090. In addition, $355,425 in ESA compliance costs shall be transferred to the Monterey CEBA for recovery. 3) CAW shall be allowed to transfer costs associated with ESA compliance and recorded to the ESA MA from June 1, 2010 through May 31, 2013 in the amount of ($807,966) to the Monterey CEBA for recovery.

RESOLUTION:

CAW and ORA agree to retain the account and transfer the $889,797 balance (recorded from June 1, 2010 to May 31, 2013) to the Monterey CEBA. The $1,018,090 that was transferred to Monterey CWIP as part of the prior rate case settlement in D.12-06-016, for expenditures prior to December 1, 2006 up until May 31, 2010, shall also be transferred to the Monterey CEBA for recovery. Both balance transfers to the CEBA shall occur through a Tier 1 Advice Letter. Balances in this account shall be recovered from customers in the Monterey main system through a quantity based surcharge.

Account Name	District	Interest	Over/(Under) Collection		
			Cal Am	ORA	Settlement
Endangered Species Act (ESA) Memorandum Account	Monterey	90-day	(1,907,887)	(807,966)	(1,907,887)

REFERENCES: Exh. 28, CAW Pray Direct, pp. 5-6; Exh. 10, ORA Row Direct, ORA Report 8, Chapter 5, pp. 46-48.

21.29.5 Special Request 29-5: Monterey Peninsula Water Management District (MPWMD) Conservation Balancing Account

CAW REQUEST:

The MPWMD Conservation Balancing Account is a one-way balancing account granted in D.09-05-029 to track conservation-related expenses and surcharges, with a cap of $1,156,000. CAW requests the continuance of the balancing account and the related latest Commission authorized volumetric surcharge in order to readily track all expenses and surcharges connected to MPWMD's conservation program. CAW also requests authorization to transfer the outstanding balances as of December 31, 2014 to the expense balancing account for refund or recovery.

ORA POSITION:

ORA recommends the Commission allow CAW to file a Tier 1 Advice Letter to transfer the May 31, 2013 net balance in this account, $110,740, to the Monterey CEBA. ORA does not oppose CAW's request to continue this account and the related, latest Commission-authorized, volumetric-based surcharge in order to readily track all expenses and surcharges connected to MPWMD's conservation program.

RESOLUTION:

Parties agree that CAW shall continue the account and the related, latest Commission-authorized, volumetric-based surcharge in order to readily track all expenses and surcharges connected to MPWMD's conservation program. CAW shall use the ending balance at December 31, 2014. CAW shall file a Tier 2 Advice Letter after this date to transfer any over-/under collections to the Monterey CEBA. The service charge credit will be applicable to customers in the Monterey County District, excluding the Ambler, Ralph Lane, Chualar, and Toro service areas, which are outside MPWMD's jurisdiction.

Account Name	District	Interest	Over/(Under) Collection		
			Cal Am	ORA	Settlement
Monterey Peninsula Water Management District (MPWMD) Conservation Balancing Account	Monterey	90-day	December 31, 2014 balance	110,740	December 31, 2014 balance

21.29.6 Special Request 29-6: Low-Income Ratepayer Assistance (LIRA) Program Memorandum Account

CAW REQUEST:

The LIRA Program Memorandum Account tracks revenues lost as a result of customer usage of the LIRA Program, incurred costs as a result of mailings and other program setup requirements, and recoveries associated with the LIRA Program offered in each District. CAW requests the continuance of the memorandum account through at least December 31, 2014 and authorization to transfer any outstanding balance to the expense balancing account for refund or recovery.

ORA POSITION:

ORA recommends the Commission authorize CAW to transfer the Company's reported May 31, 2013 net balance in the LIRAP MAs as presented in Table 3 to each district CEBA and to continue this account through the rate cycle ending on December 31, 2014.

Note that CAW in Special Request #4 in the current proceeding is requesting Commission authorization to recover LIRAP costs on an ongoing basis through a customer surcharge and the tracking of program costs and collections in a BA instead of the MA (currently in place). ORA, subject to three requirements, which are identified in ORA's testimony on Special Request #4, does not oppose CAW's request. Should the Commission approve CAW's Special Request #4, subject to ORA's three requirements, which are identified in Special Request #4, the LIRAP MA should be closed beginning January 1, 2015 and the LIRAP MA December 31, 2014 outstanding balance would be reviewed in the next GRC or in an advice letter if the balance is greater than 2% of the latest authorized revenue requirement per Standard Practice U-27.

RESOLUTION:

CAW shall continue the LIRAP Memorandum Account through at least December 31, 2014 and transfer the reported May 31, 2013 net balances in said account to each district's CEBA through

a Tier 1 Advice Letter. ORA and CAW agree to retain this account until the effective date of the decision in this general rate case and until the approval of LIRA balancing account through the advice letter process.

Account Name	District	Interest	Over/(Under) Collection

21.29.7 Special Request 29-7: Low-Income Customer Data Sharing Memorandum Account

CAW REQUEST:

This memorandum account tracks one-time and ongoing data sharing costs not already included in rates in accordance with Ordering Paragraph 7 of D.11-05-020. CAW requests authorization to recover the balance as of December 31, 2014 by transferring it to the Expense Balancing Account, then to close the memorandum account and recover further costs in the proposed Low Income balancing account discussed in the direct testimony of Mr. Stephenson.

ORA POSITION:

ORA recommends the Commission authorize the following: 1.) CAW should be allowed to recover the Company's reported May 31, 2013 net balance of ($98,983) in the LICDS MA. Recovery of this balance would be apportioned to each district based on the number of customers in each district. 2) CAW's LICDS MA will be closed at the end of the rate case cycle ending December 31, 2014. 3.) Ongoing data sharing costs billed by Accenture should be forecasted into the revenue requirement for the rate cycle beginning January 1, 2015. The forecasted cost in the amount of $60,552 would be included as an additional line item- "Ongoing data sharing costs billed by Accenture"- in CAW's A&G PUC Account #798. The $60,552 should be apportioned to each district based on the number of customers in each district for Test Year 2015.

RESOLUTION:

Parties agree that CAW may transfer $98,983 and distribute the balance to each district's CEBA based upon the number of customer service connections in each district from this rate case through a Tier 1 Advice Letter. Forecasted costs for the rate cycle beginning January 1, 2015 of $60,552 will be moved to base rates. The balance between May 31, 2013 and December 31, 2014 shall be recovered subject to review in the next general rate case or through the advice letter process. ORA and CAW agree to close the account once all balances have been transferred.

21.29.8 Special Request 29-8: CAW Conservation Surcharge ("CAWCS")

CAW REQUEST:

The CAWCS Balancing Account is a one-way balancing account approved to track conservation-related expenses and surcharges associated with CAW's conservation efforts. The CAWCS is currently in effect for all Districts. CAW requests that the one-way conservation program dollars remain funded through a separate surcharge and tracked, along with related expenses, in the balancing accounts. This will ensure that dollars collected for conservation are applied directly to conservation programs. CAW requests authorization for the outstanding balances in all accounts as of December 31, 2014 to be transferred to the expense balancing account for refund or recovery.

ORA POSITION:

ORA recommends that CAW should be allowed to transfer $557,011 in the CAWCS BAs to the district CEBAs. ORA is not opposed to CAW's request to retain this account.

RESOLUTION:

Parties agree that CAW shall continue the account and the related, latest Commission-authorized, volumetric-based surcharge in order to readily track all expenses and surcharges connected to CAW's conservation program. CAW shall use the ending balance at December 31, 2014. CAW shall file a Tier 2 Advice Letter after this date to transfer any over/(under) -collection to each district's CEBA

Account Name	District	Interest	Over/(Under) Collection

21.29.9 Special Request 29-9: Water Contamination Litigation Expense Memorandum Account

CAW REQUEST:

The WCLE Memorandum Account tracks costs associated with litigating water contamination legal cases in CAW's districts. In accordance with Resolution W-4084, CAW requests continuance of this memorandum account and authorization to transfer outstanding balances to the expense balancing account for refund or recovery, should further costs be incurred.

ORA POSITION:

ORA is not opposed to CAW's request to retain the WCLE MA for Los Angeles. However, because no costs have ever been recorded to the WCLE MA for Sacramento, ORA recommends the Commission order CAW to close the WCLE MA for Sacramento. ORA also recommends that the Commission should deny CAW's request to transfer outstanding balances in this account to the expense BA, should further costs be incurred. In addition, ORA recommends that should CAW seek recovery of any costs to be booked to the WCLE MA, CAW must provide in the future GRC Application the documentation specified in OP 3 of Resolution No. W-4925.

RESOLUTION:

Parties agree that CAW may continue the account for the Los Angeles and Sacramento districts. Balances as of December 31, 2013 shall be transferred to the district CEBA through a Tier 1 Advice Letter. Should CAW seek recovery of any additional costs booked to the WCLE MA, CAW must provide the documentation specified in Ordering Paragraph 3 of Res. No.W-4925.

Account Name	District	Interest	Over/(Under) Collection

21.29.10 Special Request 29-10: Catastrophic Event Memorandum Account (CEMA)

CAW REQUEST:

The purpose of the Catastrophic Event Memorandum Account ("CEMA") is to recover costs associated with the restoration of service and CAW facilities affected by a catastrophic event declared a disaster or state of emergency by competent federal or state authorities. The balance in the CEMA will be recovered in rates after Commission review and audit of the recorded CEMA balance. The authority to establish this account was granted in CPUC Resolution E-3228, dated July 24, 1991.

At the time of this filing, there are no balances to report in the CEMA. CAW requests that CEMA be retained for future use.

ORA POSITION:

ORA is not opposed to CAW's request to retain the CEMA.

RESOLUTION:

ORA and CAW agree that there is no balance to report as of May 31, 2013 and that this account shall be retained for future use in all districts.

Account Name	District	Interest	Over/(Under) Collection		
			Cal Am	ORA	Settlement
Catastrophic Event Memorandum Account (CEMA)	All CA	90-day	-	-	-

REFERENCES: Exh. 28, CAW Pray Direct, pp. 9-10; Exh. 10, ORA Row Direct, ORA Report 8, Chapter 5, pp. 61-62.

21.29.11 Special Request 29-11: Temporary Interest Rate Balancing Account (TIRBA)

CAW REQUEST:

The purpose of the TIRBA is to record any difference between the actual and forecast incremental cost of debt included in the cost of capital. Specifically, the TIRBA records the difference in interest expense between the actual interest cost for long-term debt for debt issued after May 7, 2009, and the interest cost included in the adopted cost of capital for issuances in 2009 or later subject to a standard reasonableness review.

TIRBA balances are currently being recovered through a surcharge authorized in Advice Letter 960. CAW requests that any remaining balances be transferred to the general expense recovery

balancing account for refund or recovery. The account will be closed once the balances are fully recovered.

ORA POSITION:

CAW is currently recovering the balance in the TIRBA through a meter-based surcharge authorized in Advice Letter 960. It is unclear at this time what the remaining balance in the TIRBA will be on the date at which the meter-based surcharge authorized in Advice Letter 960 ceases. Therefore, ORA recommends the Commission should not authorize CAW's request to transfer any remaining balance, after the meter-based surcharge authorized in Advice Letter 960 ceases, to the district CEBA. ORA also recommends the Commission deny CAW's request in this proceeding to close the TIRBA. After the meter-based surcharge authorized in Advice Letter 960 ceases CAW may submit a request to the Commission in an Advice Letter filing or in the next GRC to close the TIRBA and to recover any outstanding balance in the TIRBA.

RESOLUTION:

Parties agree that the TIRBA balance as of April 30, 2014 is $43,279 and that this balance shall be transferred to the respective district CEBA's for refund to ratepayers.. The distribution of the balance to each district CEBA will be based upon the number of customer service connections in each district from this rate case. The TIRBA shall be closed after the balance in the account has been transferred to each district CEBA.

			Over/(Under) Collection

21.29.12 Special Request 29-12: Seaside Basin Adjudication Balancing Account

CAW REQUEST:

The Seaside Basin Adjudication Balancing Account tracks the amortization of costs and related interest on the unamortized balance of costs incurred to litigate and secure Seaside Basin water rights in the Monterey County District as granted in D.09-07-021. In accordance with Advice Letter 778, effective July 19, 2009, a meter surcharge is assessed on customers in the Monterey Main, Hidden Hills, Ryan Ranch, and Bishop areas to recover $2,755,960 over a ten-year period. This account accrues interest at the 90-day commercial rate. CAW requests this account remain open to continue tracking the interest and surcharge collections.

ORA POSITION:

ORA recommends the Commission approve CAW's request to keep its Seaside Basin Adjudication Balancing Account open to continue tracking the interest and surcharge collections associated with the $2,755,960 approved for recovery in Advice Letter 778.

RESOLUTION:

Parties agree that the Seaside Basin Adjudication Balancing Account shall remain open to continue tracking the interest and surcharge collections associated with the $2,755,960 approved for recovery in Advice Letter 778.

Account Name	District	Interest	Over/(Under) Collection		
			Cal Am	ORA	Settlement
Seaside Basin Adjudication	Monterey	90-day	(1,559,529)	(1,559,529)	(1,559,529)

21.29.13 Special Request 29-13: Seaside Groundwater Basin Memorandum Account

CAW REQUEST:

In this account, CAW tracks payments made to the Seaside Basin Water Master for replenishment water. CAW is requesting that the account remain open since the offsets are an annual determination and assessments could be required to be paid annually in any given year.

ORA POSITION:

ORA recommends that the Commission authorize CAW to retain the Seaside Groundwater Basin Memorandum Account, which is currently authorized by the Commission, through the rate cycle ending December 2017, and that the memorandum account be closed at that time if no further costs are recorded.

RESOLUTION:

Parties agree that there is a current balance of zero in the account. Parties agree the account shall remain open to track payments associated with the replenishment fees assessed by the Seaside Basin Water Master. ORA and CAW agree that this account will be reviewed in the next general rate case.

Account Name	District	Interest	Over/(Under) Collection

21.29.14 Special Request 29-14: Seaside Groundwater Basin Balancing Account ("SGBA")

CAW REQUEST:

The SGBA tracks costs associated with Administrative and other payments made to the Seaside Basin Water Master, as well as recovery of such payments from customers in the Monterey County District. The SGBA was authorized in D.09-07-021. In accordance with the settlement terms adopted in D.12-06-016, CAW transferred balances up to May 31, 2010, to the consolidated expense balancing account. CAW also agreed to incorporate adjudication expenses, such as administrative fees, in its O&M expense forecasts for this rate case cycle. CAW requests authorization to transfer outstanding balances incurred after May 31, 2010 to the expense balancing account for refund or recovery.

ORA POSITION:

ORA recommends that the Commission deny CAW's request to transfer outstanding balances incurred after May 31, 2010 in its SGB BA to the expense BA for refund or recovery. CAW has not presented a balance in its SGB BA in A.13-07-002. ORA recommends that the Commission authorize CAW to retain the account, which is currently authorized by the Commission, through the rate cycle ending December 2017, and that the account be closed at that time if no further costs are recorded.

RESOLUTION:

Parties agree that there is a current balance of zero in the account. Parties agree the account shall remain open to track payments associated with administrative and other payments to the Seaside Basin Water Master. ORA and CAW agree that this account will be reviewed in the next general rate case.

21.29.15 Special Request 29-15: Monterey Peninsula Water Management District (MPWMD) Balancing Account

CAW REQUEST:

The MPWMD Balancing Account contains the balance of previously recorded and transferred costs from the MPWMD User Fee Memorandum Account as outlined in Advice Letter 935. It also tracks annual billings from the District to CAW for the Interim Implementation Agreement for the 2011-2012 Carmel River Mitigation Program. The annual billings shall not exceed $1.6 million for 2012, $1.76 million for 2013, and $1.94 million for 2014. Additionally, Advice Letter 967 authorized the transfer of prior MPWMD billings recorded in the Cease and Desist Order ("CDO") Memorandum Account.

CAW requests permission to leave the account open until no further payments under the prior settlement are necessary and to transfer any outstanding balances to the expense balancing account for recovery.

ORA POSITION:

ORA recommends that the Commission deny CAW's request "to transfer any outstanding balances to the expense balancing account for recovery." ORA also recommends the Commission approve CAW's request to continue the MPWMD BA through the rate cycle ending December 2017. After the surcharge authorized in Advice Letter 967 ceases, CAW may submit a request to the Commission in an Advice Letter filing or in the next GRC to close the MPWMD BA and to recover any outstanding balance in the MPWMD BA. In addition, the Commission should order CAW to implement and submit to the DWA a draft copy of the preliminary statement tariff applicable to the MPWMD BA.

RESOLUTION:

Parties agree that the account shall remain open and re-titled the Carmel River Mitigation Program Balancing Account (also discussed in Section 18 of this Settlement). After the surcharge authorized in Advice Letter 967 ceases, CAW can request in a Tier 2 Advice Letter filing or in the next GRC to recover any outstanding balance in the Balancing Account. CAW agrees to include the preliminary statement tariff as part of its updated tariff sheets.

Account Name	District	Interest	Over/(Under) Collection

21.29.16 Special Request 29-16: Pension Balancing Account ("PBA")

CAW REQUEST:

The Pension Balancing Account tracks the difference between Commission-authorized pensions and actual required ERISA payments - including payments to avoid at risk status - for all Districts served by CAW. CAW requests authority to transfer all balances to the expense balancing account. CAW further recommends retaining this account through 2017 in order to ensure minimum funding levels are not over or under recovered.

ORA POSITION:

ORA recommends that the Commission deny CAW's request in this proceeding to recover the May 31, 2013 outstanding balance in the Pension Balancing Account (PBA). Prior to seeking amortization of any outstanding balance in the PBA, CAW should provide to the Commission

and to ORA the updated balance in the PBA without incorporating any inflationary factors and the accompanying workpapers reflecting the updated calculation. Additionally, the Commission should order CAW to seek recovery of the December 31, 2013 net balance in the PBA. CAW should retain the PBA for all districts through December 31, 2017.

RESOLUTION:

ORA and CAW agree to transfer the ending balance at December 31, 2013 to the respective district CEBA's through a Tier 1 Advice Letter. Prospectively, CAW shall not apply any inflationary factor to authorized pension levels. Parties agree to retain the account.

21.29.17 Special Request 29-17: Other Post-Employment Benefits (OPEB) Balancing Account

CAW REQUEST:

The OPEB Balancing Account tracks the difference between Commission-authorized OPEB costs and actual OPEB payments for all CAW Districts. CAW requests to transfer balances to the expense balancing account for refund or recovery as part of this proceeding. CAW further recommends retaining this account through 2017.

ORA POSITION:

ORA recommends that the Commission deny CAW's request in this proceeding to recover the May 31, 2013 outstanding balance in the OPEB balancing account. Prior to seeking amortization of any outstanding balance in the OPEB balancing account, CAW should provide to the Commission and to ORA the updated balance (and the accompanying workpapers) in the OPEB balancing account reflecting no inflationary factors incorporated into the calculation of OPEB balancing account. Additionally, the Commission should order CAW to seek recovery of the December 31, 2013 net balance in the OPEB balancing account. CAW should be allowed to retain the OPEB balancing account for all districts through December 31, 2017.

RESOLUTION:

ORA and CAW agree to transfer the ending balance at December 31, 2013 to the respective district CEBA's through a Tier 1 Advice Letter. Prospectively, CAW shall not apply any inflationary factor to authorized pension levels. Parties agree to retain the account

21.29.18 Special Request 29-18: Operational Energy Efficiency Program ("OEEP") Memorandum Account

CAW REQUEST:

The OEEP Memorandum Account tracks the OEEP project expenditures incurred by CAW until the Commission issued D.10-04-030 in response to the Joint Petition for Modification of D.08- 11-057 filed by the California Water Association ("CWA"), Pacific Gas and Electric Company ("PG&E"), and Southern California Edison Company ("SoCal Edison"). The Commission approved the OEEP in Advice Letter 814 for the Los Angeles County and Monterey County Districts. D.10-04-030 allowed CAW to file an advice letter to establish an OEEP Memorandum Account to track its costs and payments from SoCal Edison, and PG&E associated with OEEPs approved in D.08-11-057.

CAW requests authorization for the OEEP Memorandum Account balance as follows: 1) allow into rate base all unreimbursed amounts related to capital investments, and 2) transfer all other costs in the OEEP memorandum account to the expense balancing account for refund or recovery. The account will then close once all transfers have been completed.

ORA POSITION:

ORA recommends the Commission approve CAW's requested treatment of the May 31, 2013 net balance reported in the OEEPMA for Los Angeles and Monterey.

RESOLUTION:

CAW has filed Advice Letter 1044 for recovery of the balance of the OEEP MA for the Monterey County District. The residual balance for the Los Angeles District may be transferred to the Los Angeles CEBA. Parties agree that CAW shall close the OEEP Memorandum Accounts for the Los Angeles District and Monterey County District after the costs in AL 1044 are moved into rate base and the residual balance for Los Angeles is transferred to CEBA.

21.29.19 Special Request 29-19: Old Monterey Style Water Revenue Adjustment Mechanism ("Old WRAM") Balancing Account

CAW REQUEST:

The Old Monterey Style Water Revenue Adjustment Mechanism Balancing Account was first approved in D.96-12-050 in conjunction with the rate design effective in Monterey at that time. This Old WRAM account differs from the new WRAM account adopted in D.09-07-021, in that its purpose was to track the difference between revenues that would have been collected under the Commission's standard rate design and the tiered conservation rate design actually implemented in Monterey.

Advice Letter 987 authorized recovery of the balances through a volumetric surcharge. The Old WRAM account will be closed once the balances are fully recovered. CAW requests that any remaining Old WRAM balance be transferred to the general expense recovery balancing account for recovery.

ORA POSITION:

ORA recommends that the Commission not authorize CAW's request to transfer any remaining balance, after the volumetric surcharge authorized in Advice Letter 987 ceases, to the district CEBA. ORA also recommends that the Commission deny CAW's request to close the account after any remaining balance, after the volumetric surcharge authorized in Advice Letter 987 ceases, is transferred to the district CEBA. After the volumetric surcharge authorized in Advice Letter 987 ceases CAW may submit a request to the Commission in an Advice Letter filing or in the next GRC to close the Old WRAM balancing account and to recover any outstanding balance in the Old WRAM balancing account.

RESOLUTION:

Parties agree that the account shall remain open. Any existing balance at the time the surcharge expires on December 31, 2014 shall be reviewed in the next general rate case or through a Tier 2 advice letter filing. Interest will continue to accrue at the 90-day commercial paper rate until the balance is fully recovered.

21.29.20 Special Request 29-20: Emergency Rationing Costs Incurred by CAW Memorandum Account

CAW REQUEST:

The Emergency Rationing Costs Memorandum Account tracks increased expenses that CAW would incur in its Monterey County District in the event that rationing is implemented under MPWMD's Ordinance No. 92. Ordinance No. 92 is an expanded water conservation and standby water-rationing plan, the implementation of which requires both CAW and MPWMD to engage in activities to promote, monitor and enforce its terms. No costs have been incurred in this account. CAW requests this account remain open in the event emergency rationing is implemented and Stage 2 or higher of the Expanded Conservation and Rationing Plan is implemented.

ORA POSITION:

Given the current drought California is experiencing along with the State Water Resources Control Board ordered cutbacks from the Carmel River, ORA understands the need for the account. ORA recommends the Commission approve CAW's request to retain the memorandum account for the rate case cycle ending in December 2017. In addition, the Commission should order CAW to implement and submit to the DWA a draft copy of the preliminary statement tariff applicable to the memorandum account.

RESOLUTION:

Parties agree that there is a zero balance in the account and that the account shall remain open to track costs in the event Stage 4 or higher emergency rationing is implemented. CAW agrees to include the preliminary statement tariff as part of its updated tariff sheets.

21.29.21 Special Request 29-21: Purchased Water, Purchased Power and Pump Tax Expense Balancing Account

CAW REQUEST:

The balancing accounts track certain production expense-related items that could severely deter utilities from achieving their authorized earnings. CAW recommends transferring to the expense balancing account all balances for refund or recovery as part of this proceeding unless the

balance exceeds 2% of a district's authorized revenue requirement before a decision in this case is issued. If the 2% threshold is reached prior to the decision, CAW may file a separate advice letter to recover or refund the balance. CAW also requests continuance of the account since changes in certain production costs are beyond its control.

ORA POSITION:

ORA recommends the Commission authorize CAW to transfer ($1,755,801) in the Balancing Account to the Sacramento CEBA and to retain the account for Sacramento District through the rate case cycle ending in December 2017. ORA recommends the Commission order CAW to close the Monterey Wastewater Purchased Water, Purchased Power and Pump Expense Balancing Account.

RESOLUTION:

ORA and CAW agree to transfer the Sacramento district's May 31, 2013 balance to the district CEBA through a Tier 1 Advice Letter. Recording of balances to the Incremental Cost Balancing Account ("ICBA") for the Sacramento District will continue from June 1, 2013 through closure of the account effective December 31, 2014, and a MCBA shall be opened for Sacramento for the rate case cycle beginning in 2015. The WRAM/MCBA shall be retroactive to January 1, 2015 should a decision in the case be delayed. Balances between May 31, 2013 and December 31, 2014 shall be recovered subject to review in the next general rate case or through the advice letter process. CAW shall maintain the balancing account for the Sacramento District to collect interest costs through the rate case cycle ending in December 2017 or once all balances have been transferred.

Parties also agree that the Monterey Waste Water account has a zero balance as of May 31, 2013, and this account shall remain open to track costs. The account shall be reviewed in the next general rate case and CAW may seek recovery of balances in its next general rate case or through the advice letter process. CAW agrees to include the preliminary statement tariff as part of its updated tariff sheets.

21.29.22 Special Request 29-22: Cease and Desist Order ("CDO") Memorandum Account

CAW REQUEST:

In Resolution W-4824, the Commission granted CAW a memorandum account to track the costs it incurs to address the State Water Resources Control Board ("SWRCB") CDO for unauthorized diversion of water from the Carmel River in the Monterey County District and any other such costs. If the SWRCB orders CAW to comply with new conditions in a CDO, the Monterey County District will incur significant costs until the SWRCB deems it in compliance or some other resolution is achieved.

CAW is requesting that this account remain open, effective, and with the same provisions as authorized by Resolution W-4824. CAW also requests authorization to transfer all balances in the account to either capital or to the expense balancing account for refund or recovery.

ORA POSITION:

ORA recommends the Commission should authorize CAW to transfer the CDO Memorandum Account May 31, 2013 net balance, ($394,612), to the Monterey CEBA for recovery. The deadline for CAW to comply with the SWRCB CDO is December 31, 2016. Therefore, CAW should be allowed to retain the CDO Memorandum Account for Monterey through the rate case cycle ending in December 2017.

RESOLUTION:

Parties agree that CAW shall continue to use the CDO Memorandum Account to track costs it incurs to address the SWRCB's CDO until the CDO is removed. The May 31, 2013 balance shall be transferred to the Monterey CEBA. Recovery will be through a quantity charge from customers in the Monterey main system via a Tier 1 Advice Letter.

21.29.23 Special Request 29-23: Water Quality Memorandum Account ("WQMA")

CAW REQUEST:

The Commission granted the WQMA in D.10-06-038 to track incremental costs to comply with the Federal Ground Water Rules ("GWR"). CAW requests authorization to transfer outstanding balances to the expense balancing account for refund or recovery. CAW also requests continuing this account since costs related to the Federal GWR remain uncertain at this time and could become substantial.

ORA POSITION:

There are no costs that have ever been recorded to the WQMA and CAW has not provided any indication of any new Federal Ground Water rules coming out in the near future. ORA recommends the Commission order CAW to close the WQMA.

RESOLUTION:

There are no costs currently in the account. ORA and CAW agree to close the memorandum account.

Account Name	District	Interest	Over/(Under) Collection		
			Cal Am	ORA	Settlement
Water Quality Memorandum Account	All CA	90-day	-	-	-

21.29.24 Special Request 29-24: Pressure Reducing Valve Modernization and Energy Recovery Memorandum Account ("PRVMA")

CAW REQUEST:

In Resolution W-4854, CAW was granted a memorandum account to track all of the costs associated with the Research, Development and Demonstration of electrical regenerative flow control valve projects. CAW requests it be allowed to continue the current memorandum account through the rate case period ending in 2017 to explore opportunities in other CAW systems.

ORA POSITION:

For the reasons stated in ORA's testimony on the San Diego PRV Modernization Program (I15-300006), ORA recommends that the Commission deny CAW's request to continue the current PRVMA through the rate case period ending in 2017 since the project is expected to be placed into service before the beginning of the rate case cycle.. CAW should close its PRVMA and remove this Memorandum Account from its preliminary statements.

RESOLUTION:

Parties agree that the balance in this account shall be recovered as a part of rate base in this GRC. The balance in the PRVMA will be transferred to plant in service and the account should subsequently be closed.

21.29.25 Special Request 29-25: Affiliate Transaction Memorandum Account

CAW REQUEST:

The Affiliate Transaction Memorandum Account was established in Ordering Paragraph 8 of D.10-10-019. The purpose of the account is to track fees paid to CAW for the transfer, assignment, or employment of an employee by an affiliate, in accordance with Affiliate Transaction Rule IV.D.2. CAW requests authorization to transfer any outstanding balance to the expense balancing account for refund. CAW further recommends retaining this account through the rate case period ending in 2017.

ORA POSITION:

The ATRMA is required by the Commission per Affiliate Transaction Rule IV.E.2. ORA recommends that the Commission authorize CAW to retain the ATRMA for the rate case cycle ending in December 2017.

RESOLUTION:

ORA and CAW agree that the account account has a balance of zero as of May 31, 2013 and that this account shall remain open to track costs.

21.29.26 Special Request 29-26: Main San Gabriel Contamination Memorandum Account

CAW REQUEST:

The purpose of this memorandum account is to track all costs incurred by CAW to respond to, mitigate, or control contamination in the Main San Gabriel Groundwater Basin, including but not limited to, additional sampling, pumping modifications, engineering consultant fees, permitting costs, treatment facilities, government agency coordination, and legal fees. CAW requests authorization to transfer any outstanding balance to the expense balancing account for refund or recovery. CAW also requests continuance of this account since costs related to contamination remain uncertain and could become substantial.

ORA POSITION:

There are no costs that have ever been recorded to the Main San Gabriel Contamination Memorandum Account and CAW is not a party to any ongoing litigation relating to

contamination in the Main San Gabriel Groundwater Basin. Therefore, ORA recommends the Commission order CAW to close the account.

RESOLUTION:

ORA and CAW agree that the account has a balance of zero as of May 31, 2013 and that this account shall remain open to track potential costs.

21.29.27 Special Request 29-27: Aquifer Storage and Recovery (ASR) Well 4 Memorandum Account

CAW REQUEST:

The ASR Well 4 memorandum account records the costs for well ASR-4 to be constructed at the Seaside Middle school site, not to exceed $4.7 million. When complete, those costs will be recorded to the Monterey rate base with a Tier 2 advice letter. Any costs for well ASR-4 that exceed the cap of $4.7 million may be presented to the Commission for reasonableness review and ratemaking consideration in a Tier 3 advice letter or in the next general rate case. CAW requests that it be allowed to continue the current memorandum account authorized by the Commission in D.12-06-020, and, upon project completion, to close the account once all costs have been properly accounted for and moved to plant in service.

ORA POSITION:

CAW has been ordered by the Commission to request amortization of the ASR Well 4 MA via a Tier 2, and if applicable Tier 3, Advice Letter only after ASR Well 4 is completely constructed and placed in service. Accordingly, ORA did not audit the May 31, 2013 net balance in the ASR Well 4 MA. ORA recommends the Commission approve CAW's request to continue the ASR Well 4 MA through project completion. ORA reserves it right to review the balances requested at that time.

RESOLUTION:

Parties agree that in accordance with Ordering Paragraph 2 of D.12-06-020, CAW may seek to recover the costs for well ASR-4 upon completion through a Tier 2 advice letter filing for up to $4.7 million in costs for the project, and through a Tier 3 advice letter filing for costs exceeding $4.7 million.

21.29.28 Special Request 29-28: Consolidated Expense Balancing Account

CAW REQUEST:

The purpose of the expense balancing account is to consolidate the amortization of Commission approved balancing and memorandum accounts where appropriate. CAW requests that it be allowed to continue the current balancing account authorized by the Commission in D.12-06-016 and recover any additional incremental balances added.

ORA POSITION:

ORA recommends CAW be allowed to retain its CEBA for each district through the 2015-2017 rate cycle. Any additional incremental balances added will be reviewed in any future Advice Letter (AL) filed by CAW to modify the current CEBA Commission authorized surcharge. CAW should submit to the Division of Water and Audits ("DWA") a draft of the preliminary statement applicable to its CEBAs. The "Purpose" section of the CEBA preliminary statement should, at a minimum, include the phrase "The consolidated expense balancing account is to consolidate the amortization of Commission approved balancing and memorandum accounts."

RESOLUTION:

ORA and CAW agree that it is reasonable for CAW to identify all current and authorized memorandum and balancing accounts for which CAW includes in a district CEBA. The CEBA surcharge will include all agreed to incremental transfers along with recorded balances at the time of the Advice Letter filing. To the extent that CAW does not transfer amounts from any memorandum or balancing account to the district CEBA, it will provide an explanation as to the recovery. CAW shall use descriptive language to identify all incremental balances added into the CEBA. This will be reviewed in the next general rate case and on an ongoing basis. Parties agree that the CEBA shall remain open for each district.

21.29.29 Special Request 29-29: 2012 General Rate Case Interim Rate True-Up Memorandum Account

CAW REQUEST:

CAW tracks the difference between interim rates and final rates adopted by the Commission pursuant to the Rate Case Plan in D.07-05-062. CAW is in the process of filing advice letters for the General Rate Case balances and, pending Commission approval, requests them to be transferred to the expense balancing account for refund or recovery.

ORA POSITION:

ORA recommends the Commission order CAW to close and remove from its preliminary statements the 2012 General Rate Case Interim Rate True-Up Memorandum Account for both Monterey and for Monterey Wastewater.

RESOLUTION:

ORA and CAW agree that there is a current balance of zero in the account and that the account shall be closed. Nothing in this agreement shall preclude CAW from seeking interim rate recovery of the difference between interim rates and final rates adopted by the Commission in this general rate case pursuant to the Rate Case Plan in D.07-05-062.

21.29.30 Special Request 29-30: 2012 Cost of Capital Interim Rate Memorandum Account

CAW REQUEST:

CAW tracks the difference between interim rates and final rates adopted by the Commission pursuant to the Rate Case Plan in D.07-05-062. CAW is in the process of filing advice letters for the Cost of Capital balances and, pending Commission approval, requests them to be transferred to the expense balancing account for refund or recovery.

ORA POSITION:

ORA recommends the Commission order CAW to remove from its current preliminary statement tariffs the 2012 Cost of Capital Interim Rate Memorandum Account.

RESOLUTION:

ORA and CAW agree that there is a current balance of zero in the account and that the account shall be closed. Nothing in this agreement shall preclude CAW from seeking interim rate recovery difference between interim rates and final rates adopted by the Commission in this general rate case pursuant to the Rate Case Plan in D.07-05-062.

21.29.31 Special Request 29-31: Statewide Non Revenue Water Action Plan Memorandum Account

CAW REQUEST:

The purpose of the account is to track engineering, financial evaluation, and studies of measures costs to reduce non-revenue water in each district. CAW requests authorization to transfer any

outstanding balance to the expense balancing account for refund or recovery and that this account stay open since costs remain uncertain at this time and could become substantial.

ORA POSITION:

ORA recommends the Commission authorize CAW to transfer the May 31, 2013 net balance of ($22,740) in the Non Revenue Water Action Plan Memorandum Account proportionately to each district CEBA and to keep the account open through the rate cycle ending in December 2017.

RESOLUTION:

Parties agree that CAW shall transfer the balance in the account, proportionately to each district CEBA (based on the number of customer service connections in each district from this rate case), and shall keep the account open through the rate case cycle ending in December 2017.

Account Name	District	Interest	Over/(Under) Collection

21.29.32 Special Request 29-32: Monterey Leak Adjustments Memorandum Account ("LAMA")

CAW REQUEST:

CAW filed Advice Letter 991 requesting approval to track revenue collection shortfalls attributable to Company-provided customer billing adjustments. Per Resolution W-4951, the advice letter was approved to track revenue collection shortfalls attributable to CAW's customer billing adjustment program beginning February 26, 2013 and ending December 31, 2014. CAW requests authorization to transfer any outstanding balance to the expense balancing account for refund or recovery. If the Commission authorizes collection through the uncollectible rate in this rate case cycle, then CAW recommends closing this account. Otherwise, it requests the account remain open and allow for an annual review and amortization since the balances are likely to be substantial.

ORA POSITION:

ORA recommends the Commission deny CAW's request to transfer any outstanding balance in the LAMA to the expense balancing account and to continue the LAMA beyond December 31, 2014. CAW should follow the Commission's orders outlined in Resolution No. W-4951.

RESOLUTION:

Parties agree that the account shall be closed as of December 31, 2014 and that CAW may seek recovery of the December 31, 2014 balance in its next general rate case or through an advice letter filing.

Account Name	District	Interest	Over/(Under) Collection

21.29.33 Special Request 29-33: Sand City Desalination Plant Purchased Water Balancing Account

CAW REQUEST:

CAW was authorized to establish the Sand City Desalination Plant Purchased Water Balancing Account in D.13-04-015. The Balancing Account shall reflect a forecasted amount of water to be delivered from the Sand City Desalination Plant, subject to annual adjustment to reflect actual water delivered. CAW may include in the balancing account all water delivered from and after the date of the decision where the Commission has determined that the price for such water deliveries is just and reasonable. CAW will follow the recommendations outlined in Commission orders.

ORA POSITION:

CAW did not request amortization of the May 31, 2013 net balance in this account in its testimony. Therefore, the Commission, in this proceeding, should not need to make a determination on the amounts that have been booked to this account as of May 31, 2013. CAW should be allowed to continue the Sand City Desalination Plant Purchased Water Balancing Account through the rate cycle ending December 2017.

RESOLUTION:

CAW and ORA agree that CAW shall follow the recommendations outlined in Commission order D.13-04-015 at 50-51 with respect to the balancing account for Sand City Desalination Plant Purchased Water. That decision provides that CAW shall file Tier 2 Advice Letters creating the Sand City Desalination Plant Purchased Water Surcharge and incorporate into its tariffs the Sand City Desalination Plant Purchased Water Balancing Account. Such filings shall be in accordance with Standard Practice U-27-W.

Account Name	District	Interest	Over/(Under) Collection

21.31 Reserved

21.32 Special Request #31: Authorization to Establish Memorandum Account to track Certain Purchased Water Costs

CAW REQUEST:

CAW requests authorization to establish a memorandum account to track all increased purchased water costs and the costs of capital investment related to changes in modifications in the Placer County Water Agency purchased water agreement that expires on December 31, 2015. The testimony of David P. Stephenson supports this special request.

ORA POSITION: ORA recommends that CAW's Special Request # 31be denied because it is duplicative of CAW's existing incremental cost balancing account in Sacramento for purchased water.

RESOLUTION:

This request was an inadvertent duplication of Special Request #23, and should be withdrawn.

REFERENCES: 30-B and 30-C**,** CAW Stephenson Rebuttal Q&A 41, pp. 29; ORA Shia Direct.; ORA Report #2, Chapter 5, pp. 5-1.

21.33 Special Request #32: Authorization to Track Lost Revenues Associated with Loss of Sales to Pacific Grove Properties

CAW REQUEST:

CAW requests that it be authorized to track in the Monterey County District's WRAM/MCBA all lost revenues associated with the loss of sales to certain City of Pacific Grove properties as the City plans to build, own, operate, and distribute water to these properties from a yet to be constructed water reclamation facility which will be located on City property. The testimony of David P. Stephenson supports this request.

ORA POSITION:

ORA recommends that the Commission deny this request as the Monterey District already has a WRAM/MCBA mechanism to recover costs associated with conservation.

MPWMD POSITION:

MPWMD opposed this request.

CITY OF PACIFIC GROVE POSITION:

City of Pacific Grove opposed this request.

RESOLUTION:

CAW and ORA agree that the existing WRAM/MCBA mechanism is the proper place to track all lost revenue due to any consumption variation resulting from the City of Pacific Grove projects. MPWMD and City of Pacific Grove also support this resolution.

REFERENCES: Exh. 30. CAW, Stephenson Direct, pp. 73-74; Exh. 11, ORA Lau Direct, ORA Report 7, Chapter 3, pp. 3-1 - 3-6.; Exh. 4, MPWMD Stoldt Direct, pp. 10 - 11; Exh. 5, PG Frutchey Direct Testimony at 6-7.

21.34 Special Request #33: Authorization to Establish Memo Account to Track Re: Larkfield Well

CAW REQUEST:

CAW requests that it be authorized to establish a memorandum account to track all costs incurred to explore and possibly develop a well in the Larkfield District on the Fulton Processing Plant property. F. Mark Schubert's testimony supports this request.

ORA POSITION:

ORA recommends that the Commission not allow the establishment of a new memorandum account relating to the Fulton Well.

RESOLUTION: Based on other resolutions in this Application, CAW agrees to withdraw the request in this case.

REFERENCES: Exh. 2, CAW, Schubert Direct, pp. 142-143; Exh. 11, ORA Lau Direct, ORA Report 7, Chapter 4, pp. 4-1 - 4-3.

22.1 PLANT

22.2 PLANT Recurring Projects (R15-Xxxx) - Total State-Wide

CAW REQUEST: The total estimated cost of the Recurring Projects for 2015 of $14,455,898 and for 2016 of $14,598,069 is reasonable (state-wide).

ORA POSITION: Agreed with the need for the Recurring Projects, but recommended a reduced total cost for the Recurring Projects for 2015 of $10,517,642 and for 2016 of $10,594,396 (state-wide).

RESOLUTION: In the spirit of compromise, ORA and CAW agree to the following total recurring project capital amounts on a state-wide basis: 2015 - $12,460,664; and 2016 -

$12,610,107. ORA and CAW also agree that these annual amounts shall be reflected in each respective year's UPIS. Finally, ORA agrees to allow CAW to manage the overall bottom-line recurring project budget by district, with flexibility to allocate different spending levels to specific recurring project line items, consistent with the 2010 GRC settlement between ORA and CAW. The total recurring project capital amounts for each individual district are discussed in each district summary below.

REFERENCES: Exh. 2, CAW Schubert Direct, pp. 23-29; Exh. 2-A, Rebuttal Testimony of F. Mark Schubert, P.E., dated June 2, 2014, ("CAW Schubert Rebuttal"), pp. 7-9; Exh. 15 and 15-A, Direct Testimony of Justin Menda and Alex Lau, dated March 28, 2014, ("ORA Menda/Lau Direct Testimony"), ("ORA Report No. _"), pp. 1-7 to 1-10.

22.3 Los Angeles County District

22.2.1 Richardson Well Rehabilitation Project (I15-500004)

CAW REQUEST: Project is under construction and should be recognized in rate base for a total estimated cost of $2,128,000, since the project now has an expected completion date of year end 2014.

ORA POSITION: ORA recommended removal of this project and its associated cost because of historical project scheduling delays.

RESOLUTION: After review of supplemental information provided by CAW relative to the total expected capital expenditures to complete this project by the end of 2014, ORA now agrees that this project will be placed into service in 2014. The parties agree that the total capital expenditure for this capital project shall be $2,128,000, and this capital expenditure amount shall be placed into 2014 UPIS.

REFERENCES: Exh. 2-A, CAW Schubert Rebuttal, pp. 12-17; Exh. 15 and 15-A, ORA Menda/Lau Direct.; ORA Report No. 3, p. 2-2.

22.2.2 Redrill Lamanda Well Project (I15-500006)

CAW REQUEST: The original estimated cost of $1,700,000 for this project is reasonable.

ORA POSITION: ORA agrees with the need for this project, but recommends a lower project cost of $1,500,464.

RESOLUTION: In the spirit of compromise, ORA and CAW agree to a total capital expenditure for this project of $1,600,000. Both parties also agree that the $1,600,000 shall be reflected in rate base as 2016 UPIS.

REFERENCES: Exh. 2, CAW Schubert Direct, p. 32; Exh. 2-A. CAW Schubert Rebuttal, pp. 18-19; Exh. 15 and 15-A; ORA Menda/Lau Direct, ORA Report No. _, p. 2-7.

22.2.3 Rosemead Reservoir Reconstruction (I15-500021)

CAW REQUEST: The original estimated cost of $3,155,000 for this project is reasonable.

ORA POSITION:
ORA agrees with the need for this project, but recommends a lower project cost of $2,936,640.

RESOLUTION: In the spirit of compromise, ORA and CAW agree to a total capital expenditure for this project of $3,045,820. Both parties also agree that the $3,045,820 shall be reflected in rate base as 2016 UPIS.

REFERENCES: Exh. 2, CAW Schubert Direct, p. 33; Exh. 2-A, CAW Schubert Rebuttal, p. 20; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 2-8 to 2-9.

22.2.4 Duarte Main Relocation – Metro Gold Line project (I15-500026)

CAW REQUEST: The original estimated cost of $3,290,299 reflected two capital projects being fast-tracked for this type of work at the time the Strategic Capital Expenditure Plan ("SCEP") was prepared in March 2013.

ORA POSITION: ORA agrees with the need for this project, but recommends a lower project cost of $2,126,043.

RESOLUTION: Upon further review of this project and the completed recorded costs, CAW agrees with ORA's recommended total capital expenditure amount for this project of $2,126,043 in 2013 UPIS. The difference in the capital project costs occurred because only one capital project was completed, while the other capital project was deferred by the light rail agency.

REFERENCES: Exh. 2, CAW Schubert Direct, pp. 42-43; Exh. 2-ACAW Schubert Rebuttal, p. 23; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, p. 2-10.

22.2.5 Baldwin Avenue Light Rail Line Main Relocation Project (I15-500044)

CAW REQUEST: The original estimated cost of $536,132 for this project is reasonable.

ORA POSITION: Agreed with the need for this project, but reduced the total cost for the project to $503,809.

RESOLUTION: In the spirit of compromise, ORA and CAW agree to a total capital expenditure for this project of $519,970. Both parties also agree that the $519,970 shall be reflected in rate base as 2014 UPIS.

REFERENCES: : Exh. 2, CAW Schubert Direct, p. 44; Exh. 2-A, CAW Schubert Rebuttal, p. 24; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 2-10 to 2-11.

22.2.6 Combine Domestic/Irrigation System in Duarte Project (I15-500037)

CAW REQUEST: The original estimated cost of $3,890,000 for this project is reasonable, and the justification for the additional well supply is well documented in direct testimony and in the capital investment project workpapers.

ORA POSITION: ORA recommends a lower total project cost of $1,117,601, which reflects removing the proposed source of supply component of the project and a lower project development phase project cost.

RESOLUTION: After review of supplemental information provided by CAW in rebuttal testimony on the need for an additional well to supply the Duarte system upon completion of the consolidation of the domestic and irrigation systems, ORA now agrees that this capital project shall include the additional well supply. In addition, ORA and CAW agree on a total capital expenditure for this capital project of $3,890,000, and that this capital expenditure amount shall be placed into 2016 UPIS.

REFERENCES: Exh. 2, CAW Schubert Direct, pp. 76-78; Exh. 2-A, CAW Schubert Rebuttal, pp. 25-26; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 2-11 to 2-13.

22.2.7 Purchase Groundwater Rights Annually Project (I15-500042)

CAW REQUEST: The original estimated total cost for this project of $4,312,000 is reasonable ($1,395,000 in 2015, $1,437,000 in 2016, and $1,480,000 in 2017), and the justification for having funding to purchase groundwater rights is well documented in direct testimony and in the capital investment project workpapers.

ORA POSITION: ORA recommends disallowing the project and associated cost due to uncertainty of the project and the feasibility in obtaining water rights.

RESOLUTION: After review of supplemental information provided by CAW in rebuttal testimony relative to a recent bid offering to purchase water rights, ORA now agrees with providing CAW with the flexibility to pursue opportunities to purchase water rights. In the spirit

of compromise, ORA and CAW agree that the annual capital expenditure for this on-going capital project shall be $697,500 in 2015 and $718,500 in 2016. Both parties also agree that the $697,500 shall be reflected in rate base as 2015 UPIS and $718,500 shall be reflected in rate base as 2016 UPIS.

REFERENCES: Exh. 2, CAW Schubert Direct, pp. 82-86; Exh. 2-A, CAW Schubert Rebuttal, pp. 28-34; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 2-16 to 2-17.

22.2.8 Tier 4 Compliance/Standby Power Project (I15-500047)

CAW REQUEST: The original estimated total cost for this project of $1,689,000 is reasonable ($546,000 in 2015, $563,000 in 2016, and $580,000 in 2017), and the justification for this capital project is well documented in direct testimony and in the capital investment project workpapers.

ORA POSITION: ORA recommends disallowing this project and associated cost.

RESOLUTION: In the spirit of compromise, ORA and CAW agree to an annual capital expenditure for this on-going capital project of $0 in 2015; $0 in 2016; and $0 in 2017. CAW reserves the right to request this capital project in the next GRC.

REFERENCES: Exh. 2, CAW Schubert Direct, pp. 88-89; Exh. 2-A, CAW Schubert Rebuttal, pp. 35-37; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 2-17 to 2-19.

22.2.9 Retire Fairfax Tank Project (I15-500052)

CAW REQUEST: The original estimated cost of $135,000 for this project is reasonable.

ORA POSITION:
ORA agrees with the need for this project, but recommends a lower total project cost of $97,984.

RESOLUTION: In the spirit of compromise, ORA and CAW agree that the total capital expenditure for this project shall be $116,492. Both parties also agree that the $116,492 shall be reflected in rate base as 2016 UPIS.

REFERENCES: Exh. 2, CAW Schubert Direct, pp. 92-93; Exh. 2-A, CAW Schubert Rebuttal, pp. 38-39; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 2-13 to 2-15.

22.2.10 Recurring Projects (R15-50xx)

CAW REQUEST: The total estimated cost of the Recurring Projects for 2015 of $3,830,365 and for 2016 of $3,893,665 is reasonable.

ORA POSITION: ORA agreed with the need for the Recurring Projects, but recommended a reduced total cost for the Recurring Projects for 2015 of $2,812,049 and for 2016 of $2,820,320.

RESOLUTION: In the spirit of compromise, ORA and CAW agree with the following total recurring project capital amounts: 2015 - $3,300,000; and 2016 - $3,366,000. ORA and CAW also agree that these annual amounts shall be reflected in each respective year's UPIS. Finally, ORA agrees to allow CAW to manage the overall bottom-line recurring project budget by district, with flexibility to allocate different spending levels to specific recurring project line items, consistent with the 2010 GRC settlement between ORA and CAW.

REFERENCES: Exh. 2, CAW Schubert Direct, p. 27, Attachment 7; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 2-19 to 2-20.

22.2.11 Olympiad Booster Station Replacement Project (I15-500010)

CAW REQUEST: This previously approved project is currently under construction, and is expected to be completed by the end of 2014. The total estimated project cost is $2,365,000.

ORA POSITION: ORA agreed with the need for this project, the estimated timeframe, and the total estimated cost of $2,365,000.

RESOLUTION: ORA and CAW agree that this project shall be reflected in rate base as 2014 UPIS at a total estimated cost of $2,365,000.

REFERENCES: Exh. 2, CAW Schubert Direct, pp. 31-32; Exh. 2-A, CAW Schubert Rebuttal, pp. 17-18; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3 , p. 2-3.

22.2.12 Santa Fe Well Replacement (IP-0550-118)

CAW REQUEST: This previously approved project is planned for construction to commence in 2015 and be completed in 2016. The total estimated project cost is $1,777,658.

ORA POSITION: ORA agreed with the need for this project, the estimated timeframe, and the total estimated cost of $1,777,658.

RESOLUTION: ORA and CAW agree that this project shall be reflected in rate base as 2016 UPIS at a total estimated cost of $1,777,658.

REFERENCES: Exh. 2, CAW Schubert Direct, pp. 33-34; Exh. 2-A, CAW Schubert Rebuttal, p. 21; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, p. 2-4.

22.2.13 2,800 Ft of 8-Inch Main in Armijo, Rock Rose, Graydon, Monrovia and Spanner (I15-500019)

CAW REQUEST: This project was approved in the 2010 GRC in the amount of $915,000. This project is currently under construction and is expected to be completed by the end of August 2014. The total estimated project completion cost from the current 2013 GRC application is $784,885.

ORA POSITION: ORA agreed with the need for this project, the estimated timeframe, and the total estimated cost of $784,885.

RESOLUTION: ORA and CAW agree that this project shall be reflected in rate base as 2014 UPIS at a total estimated cost of $784,885. CAW notes that the current estimated cost to complete this project is projected to be $865,246, and requests the incremental increase in cost be reviewed as part of the next GRC.

REFERENCES: Exh. 2, CAW Schubert Direct, p. 34; Exh. 2-A, CAW Schubert Rebuttal, pp. 22-23; Exh. 15 and 15-A, ORA Menda/Lau Direct,ORA Report No. 3, p. 2-3.

22.2.14 Spinks Reservoir Booster Station Improvements (I15-500020)

CAW REQUEST: This previously approved project is currently is expected to be completed by the end of 2014. The total estimated project cost is $532,000.

ORA POSITION: ORA agreed with the need for this project, the estimated timeframe, and the total estimated cost of $532,000.

RESOLUTION: ORA and CAW agree that this project shall be reflected in rate base as 2014 UPIS at a total estimated cost of $532,000.

REFERENCES: Exh. 15 and 15-A, ORA Menda/Lau Direct ORA Report No. 3, p. 2-2.

22.2.15 San Gabriel Boulevard Light Rail Mains Relocation Project (I15-500045)

CAW REQUEST: This investment project is expected to be completed by the end of 2015. The total estimated project cost is $1,000,000.

ORA POSITION: ORA agreed with the need for this project, the estimated timeframe, and the total estimated cost of $1,000,000.

RESOLUTION: ORA and CAW agree that this project shall be reflected in rate base as 2015 UPIS at a total estimated cost of $1,000,000.

REFERENCES: : Exh. 2, CAW Schubert Direct, p. 34; Exh., 2-A, CAW Schubert Rebuttal, pp. 22-23; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, p. 2-3.

22.2.16 Main Replacement Program (I15-500039) – Project A-6, Baldwin Hills; Project A-3, Duarte; and Project A-4, Duarte

CAW REQUEST: This annual investment project is planned for construction and completion in each year of the GRC cycle. The total estimated dollars in 2015 are $656,000 and the total estimated dollars in 2016 are $900,000.

ORA POSITION: ORA agreed with the need for this project, the estimated annual timeframe, and the total estimated cost of $656,000 in 2015 and $900,000 in 2016.

RESOLUTION: ORA and CAW agree that this project shall be reflected in rate base as 2015 UPIS at a total estimated cost of $656,000 and in rate base as 2016 UPIS at a total estimated cost of $900,000.

REFERENCES: Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, p. 2-2.

22.2.17 San Gabriel Boulevard Light Rail Mains Relocation Project (I15-500045)

CAW REQUEST: This investment project is expected to be completed by the end of 2015. The total estimated project cost is $1,000,000.

ORA POSITION: ORA agreed with the need for this project, the estimated timeframe, and the total estimated cost of $1,000,000.

RESOLUTION: ORA and CAW agree that this project shall be reflected in rate base as 2015 UPIS at a total estimated cost of $1,000,000.

REFERENCES: . Exh. 2, CAW Schubert Direct, pp. 86-87; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, p. 2-3.

22.2.18 Main Replacement Program (I15-500039) – Project A-6, Baldwin Hills; Project A-3, Duarte; and Project A-4, Duarte)

CAW REQUEST This annual investment project is planned for construction and completion in each year of the GRC cycle. The total estimated dollars in 2015 are $656,000 and the total estimated dollars in 2016 are $900,000.

ORA POSITION: . ORA agreed with the need for this project, the estimated annual timeframe, and the total estimated cost of $656,000 in 2015 and $900,000 in 2016.

RESOLUTION: ORA and CAW agree that this project shall be reflected in rate base as 2015 UPIS at a total estimated cost of $656,000 and in rate base as 2016 UPIS at a total estimated cost of $900,000.

REFERENCES: Exh. 2, CAW Schubert Direct, pp. 79-81; Exh. 2-A, CAW Schubert Rebuttal, pp. 27-28.

22.4 San Diego County District

22.3.1 Leasehold Improvements for new San Diego County Operations Building (R15-30N1)

CAW REQUEST: In its application, CAW requests $420,000 for leasehold improvements for the new operations building on Palm Avenue for the San Diego district. In CAW's rebuttal testimony, the company mentioned that there were additional costs mandated by the City of Imperial Beach that increased to the total project cost for CAW to $569,694. CAW believes the additional cost to complete this project is reasonable.

ORA POSITION: ORA agreed with the need for this project and its associated cost proposed in the original applicaton.

RESOLUTION: After review of supplemental information provided by CAW in rebuttal testimony relative to the additional capital expenditures to complete this project in March 2014, ORA agrees that the total capital expenditure for this capital project shall be $569,694 (an increase of $150,000), and this total capital expenditure amount of $569,694 shall be recognized in 2014 UPIS.

REFERENCES: Exh. 2, CAW Schubert Direct, pp. 46-50; Exh. 2-A, CAW Schubert Rebuttal, pp. 40-43; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 3-5 to 3-6

22.3.2 San Diego PRV Modernization Program (I15-300006)

CAW REQUEST: This investment project has a total estimated cost of $1,250,000, and is expected to be completed in 2014.

ORA POSITION: ORA agreed with the need for this project and the estimated cost.

RESOLUTION: The parties agree that the total estimated cost of this investment project of $1,250,000 shall be reflected in 2014 UPIS. Refer to Special Request 29 relating to how the cost of the project shall be recovered.

REFERENCES: Exh. 2, CAW Schubert Direct, pp. 44-46; Exh. 2-A, CAW Schubert Rebuttal, p. 39; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 3-4 to 3-5.

22.3.3 Small Main Replacement Program (I15-300002)

CAW REQUEST: The original estimated cost of $554,000 for this project ($273,000 in 2015 and $281,000 in 2016) is reasonable.

ORA POSITION: ORA agreed with the need for this project, but recommends a lower total cost for the project to $485,213 ($242,250 in 2015 and $242,963 in 2016).

RESOLUTION: In the spirit of compromise, CAW agrees with ORA's recommended total capital expenditure amount for this project of $485,213, or $242,250 in 2015 and $242,963 in 2016. Both parties agree that the $242,250 shall be reflected in 2015 UPIS, and that the $242,963 shall be reflected in rate base as 2016 UPIS.

REFERENCES: Exh. 2, CAW Schubert Direct, pp. 93-94; Exh. 2-A, CAW Schubert Rebuttal, p. 44; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, p. 3-6.

22.3.4 Replace 500 Ft of 20-inch Main in Palm Avenue project (I15-300009)

CAW REQUEST: At the time the GRC application was prepared, it appeared this project (and its associated estimated cost of $546,000) was reasonable and would be completed in 2015.

ORA POSITION:

ORA recommends removing this project and associated cost from this rate case cycle since the project would not be completed during this rate cycle.

RESOLUTION: CAW agrees with ORA's removal of this capital project from this GRC. CAW and ORA agree that this capital project will not be completed during this rate cycle (2015-2017), since the City of Imperial Beach has placed a paving moratorium on Palm Avenue until October 2018. Accordingly, CAW and ORA agree that CAW shall have the opportunity to request this project as part of the next GRC application should it determine the project is necessary.

REFERENCES: : Exh. 2, CAW Schubert Direct, pp. 95-96; Exh. 2-A, CAW Schubert Rebuttal, p. 45; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, p. 3-7.

22.3.5 Phase 2 Hollister Street Transmission Main Project (I15-300007)

CAW REQUEST: This previously approved project is currently expected to be completed by the end of 2014. The total estimated project cost is $1,364,485.

ORA POSITION: ORA agreed with the need for this project, the estimated timeframe, and the total estimated cost of $1,364,485.

RESOLUTION: ORA and CAW agree that this project shall be reflected in rate base as 2014 UPIS at a total estimated cost of $1,364,485.

REFERENCES: Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. _, p. 3-2.

22.3.6 Phase 3 Hollister Street Transmission Main Project (I15-300004)

CAW REQUEST: This previously approved project is currently is expected to be completed by the end of 2014. The total estimated project cost is $2,759,750.

ORA POSITION: ORA agreed with the need for this project, the estimated timeframe, and the total estimated cost of $2,759,750.

RESOLUTION: ORA and CAW agree that this project shall be reflected in rate base as 2014 UPIS at a total estimated cost of $2,759,750.

REFERENCES: Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, p. 3-2.

22.3.7 Recurring Projects (R15-30xx)

CAW: The total estimated cost of the Recurring Projects for 2015 of $1,341,069 and for 2016 of $1,252,000 is reasonable.

ORA POSITION: ORA agreed with the need for the Recurring Projects, but recommended a reduced total cost for the Recurring Projects for 2015 of $834,575 and for 2016 of $837,030.

RESOLUTION: In the spirit of compromise, ORA and CAW agree to the following total recurring project capital amounts: 2015 - $1,087,822; and 2016 - $1,044,515. ORA and CAW also agree that these annual amounts shall be reflected in each respective year's UPIS. Finally, ORA agrees to allow CAW to manage the overall bottom-line RP budget by district, with flexibility to allocate different spending levels to specific recurring project line items, consistent with the 2010 GRC settlement between ORA and CAW.

REFERENCES: Exh. 2, CAW Schubert Direct, p. 29, Attachment 7; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 3-8 to 3-9.

22.5 Ventura County District

22.4.1 Replace Los Robles Tank # 1 project (I15-510003)

CAW REQUEST: This project was initially approved in the 2010 GRC with a total estimated project cost of $1,282,500. In this rate case application, the company estimated that the cost of the project would be $1,031,369 and be placed into service in 2014. In CAW's rebuttal testimony, the company requested a revised estimated project cost of $1,481,569 to account for the updated scope of the project.

ORA POSITION:
ORA agrees with the need for this project, at the estimated total project cost of $1,031,369 proposed in this rate case application.

RESOLUTION: In the spirit of compromise, CAW agrees with ORA's recommended total capital expenditure amount for this project of $1,031,369, and this amount shall be reflected in rate base as 2014 UPIS. ORA agrees that the incremental increase in cost for this project shall be reviewed in CAW's next GRC application.

REFERENCES: Exh. 2-A, CAW Schubert Rebuttal, pp. 46-48; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, p. 4-2.

22.4.2 Upsize White Stallion Transmission Booster project (I15-510015)

CAW REQUEST: This project was initially approved in the 2010 GRC with a total estimated cost for this project of $593,750. In this rate case application, the company estimated that the cost of the project would be $590,096 and be placed into service in 2014. In CAW's rebuttal testimony, the company requested a revised estimated project cost of $934,153 to account for the updated scope of the project.

ORA POSITION: ORA agrees with the need for this project, at the estimated total project cost of $590,096 proposed in this rate case application.

RESOLUTION: In the spirit of compromise, CAW agrees to ORA's recommended total capital expenditure amount for this project of $590,096, and this amount shall be reflected in rate base as 2014 UPIS. ORA agrees that a variance in actual cost for this project shall be reviewed in CAW's next GRC application.

REFERENCES: Exh. 2-A, CAW Schubert Rebuttal, pp. 48-50; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, p. 4-2.

22.4.3 Moorpark Reservoir Rehabilitation project (I15-510006)

CAW REQUEST: The revised original estimated cost of $2,372,676 for this project is reasonable. Additionally, the 2010 GRC approved a total estimated cost for this project of $2,287,579.

ORA POSITION: Agreed with the need for this project, but recommended the previously estimated total cost for the project of $2,287,579 be retained.

RESOLUTION: In the spirit of compromise, CAW agrees with ORA's recommended total capital expenditure amount for this project of $2,287,579, and ORA and CAW agree that this amount shall be reflected in rate base as 2015 UPIS. ORA agrees that a variance in actual cost for this project shall be reviewed in CAW's next GRC application.

REFERENCES: : Exh. 2, CAW Schubert Direct, pp. 34-35; Exh. 2-A, CAW Schubert Rebuttal, pp. 51-53; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, p. 4-5.

22.4.4 Pace Reservoir Rehabilitation project (I15-510016)

CAW REQUEST: This project was initially approved in the 2010 GRC with a total estimated cost for this project of $2,497,500. In CAW's rebuttal testimony, the company requested a revised estimated project cost of $2,873,172 to account for the updated scope of the project.

ORA POSITION: ORA agrees with the need for this project, at the estimated total project cost of $2,497,500 proposed in this rate case application.

RESOLUTION: In the spirit of compromise, CAW agrees with ORA's recommended total capital expenditure amount for this project of $2,497,500, and ORA and CAW agree that this amount shall be reflected in rate base as 2015 UPIS. ORA states there was insufficient time to review the supplemental information provided by CAW in rebuttal testimony relative to the total expected capital expenditures to complete this project of $2,873,172. ORA agrees that a variance in actual cost for this project shall be reviewed in CAW's next GRC application.

REFERENCES: Exh. 2, CAW Schubert Direct, pp. 35-36; Exh. 2-A, CAW Schubert Rebuttal, pp. 53-54; ORA Report No. 3, p. 4-3.

22.4.5 Potrero Reservoir Rehabilitation project (I15-510020)

CAW REQUEST: In this rate case application, the company requested a revised total estimated project cost of $2,497,500. In CAW's rebuttal testimony, the company requested a revised estimated project cost of $2,820,500 to account for the updated scope of the project.

ORA POSITION:ORA agrees with the need for this project, at the estimated total project cost of $2,497,500 proposed in this rate case application.

RESOLUTION: In the spirit of compromise, CAW agrees with ORA's recommended total capital expenditure amount for this project of $2,497,500, and ORA and CAW agree that this amount shall be reflected in rate base as 2015 UPIS. ORA states there was insufficient time to review the supplemental information provided by CAW in rebuttal testimony relative to the total expected capital expenditures to complete this project of $2,820,500. ORA agrees that a variance in actual cost for this project shall be reviewed in CAW's next GRC application.

REFERENCES: : Exh. 2, CAW Schubert Direct, p. 36; Exh. 2-A, CAW Schubert Rebuttal, pp. 55-57; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, p. 4-3.

22.4.6 Replace Moorpark Booster Station project (I15-510025)

CAW REQUEST: The total estimated cost of $1,381,590 for this project is reasonable.

ORA POSITION: ORA agrees with the need for this project, but recommends a lower estimated cost of $1,177,831

RESOLUTION: In the spirit of compromise, ORA and CAW agree to a total capital expenditure for this project of $1,248,110. Both parties also agree that the $1,248,110 shall be reflected in rate base as 2014 UPIS.

REFERENCES: Exh. 2, CAW Schubert Direct, p. 51; Exh. 2-A, CAW Schubert Rebuttal, pp. 57-59; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 4-6 to 4-7.

22.4.7 Wildwood Tank Rehab project (I15-510019)

CAW REQUEST: In this rate case application, the company requested a revised total estimated project cost of $184,371. In CAW's rebuttal testimony, the company requested a revised estimated project cost of $195,000 to account for the updated scope of the project.

ORA POSITION:
ORA agrees with the need for this project, at the estimated total project cost of $184,371 proposed in this rate case application.

RESOLUTION: In the spirit of compromise, CAW agrees with ORA's recommended total capital expenditure amount for this project of $184,371, and ORA and CAW agree that this

amount shall be reflected in rate base as 2014 UPIS. ORA states there was insufficient time to review the supplemental information provided by CAW in rebuttal testimony relative to the total expected capital expenditures to complete this project of $195,000. ORA agrees that a variance in actual cost for this project shall be reviewed in CAW's next GRC application.

REFERENCES: Exh. 2-A, CAW Schubert Rebuttal, pp. 50-51; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, p. 4-2.

22.4.8 Improve Low Pressure in Gainsborough Zone (I15-510002)

CAW REQUEST: This previously approved project is currently expected to be completed by the end of 2015. The total estimated project cost is now $2,850,000.

ORA POSITION: ORA agreed with the need for this project, the estimated timeframe, and the total estimated cost of $2,850,000.

RESOLUTION: ORA and CAW agree that this project shall be reflected in rate base as 2015 UPIS at a total estimated cost of $2,850,000.

REFERENCES: : Exh. 2, CAW Schubert Direct, pp. 36-38; Exh, 2-A, CAW Schubert Rebuttal, p. 55; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 4-5 to 4-6.

22.4.9 Install 1,200 Feet of Main in Rolling Oaks & Los Padres Drive (I15-510021)

CAW REQUEST: This previously approved project is currently expected to be completed by the end of 2015. The total estimated project cost is $477,000.

ORA POSITION: ORA agreed with the need for this project, the estimated timeframe, and the total estimated cost of $477,000.

RESOLUTION: ORA and CAW agree that this project shall be reflected in rate base as 2015 UPIS at a total estimated cost of $477,000.

REFERENCES: Exh. 2, CAW Schubert Direct, p. 38; Exh. 2-A, CAW Schubert Rebuttal, p. 57; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, p. 4-3.

22.4.10 Calle Yucca Turnout – 14 Inch Main (I15-510018)

CAW REQUEST: This previously approved project is currently is expected to be completed by the end of 2015. The total estimated project cost is $475,000.

ORA POSITION: ORA agreed with the need for this project, the estimated timeframe, and the total estimated cost of $475,000.

RESOLUTION: ORA and CAW agree that this project shall be reflected in rate base as 2015 UPIS at a total estimated cost of $475,000.

REFERENCES: Exh. 2-A, CAW Schubert Rebuttal, p. 50; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, p. 4-2..

22.4.11 Upgrade Mayfield Booster Station Project (I15-510027)

CAW REQUEST: This investment project is currently expected to be completed by the end of 2016. The total estimated project cost is $788,000.

ORA POSITION: ORA agreed with the need for this project, the estimated timeframe, and the total estimated cost of $788,000.

RESOLUTION: ORA and CAW agree that this project shall be reflected in rate base as 2016 UPIS at a total estimated cost of $788,000.

REFERENCES: Exh. 2, CAW Schubert Direct, pp. 99-100; Exh. 2-A, CAW Schubert Rebuttal, pp. 59-60; ORA Report No. 3, p. 4-3.

22.4.12 Replace 1,400 Feet of 10-inch Main to Los Posas Tanks (I15-510028)

CAW REQUEST: This investment project is currently expected to be completed by the end of 2016. The total estimated project cost is $900,000.

ORA POSITION: ORA agreed with the need for this project, the estimated timeframe, and the total estimated cost of $900,000.

RESOLUTION: ORA and CAW agree that this project shall be reflected in rate base as 2016 UPIS at a total estimated cost of $900,000.

REFERENCES: Exh. 2, CAW Schubert Direct, pp. 100-101; Exh. 2-A, CAW Schubert Rebuttal, p. 60; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. _, p. 4-3.

22.4.13 Replace Los Robles Booster Station Project (I15-510026)

CAW REQUEST: The original estimated cost of $1,150,000 for this project is reasonable.

ORA POSITION: ORA takes no position on the need for this project since this project is expected to be placed into service in 2017.

RESOLUTION: In the spirit of compromise, ORA and CAW agree to a total capital expenditure for this project of $1,150,000. Both parties also agree that the $281,000 shall be reflected in rate base as 2016 UPIS, and $869,000 shall be reflected in 2017 UPIS.

REFERENCES: Exh. 2, CAW Schubert Direct, pp. 98-99; Exh. 2-A, CAW Schubert Rebuttal, p. 6.

22.4.14 Recurring Projects (R15-51xx)

CAW REQUEST: The total estimated cost of the Recurring Projects for 2015 of $2,599,256 and for 2016 of $2,600,096 is reasonable.

ORA POSITION: ORA agreed with the need for the Recurring Projects, but recommended a reduced total cost for the Recurring Projects for 2015 of $1,931,750 and for 2016 of $1,937,431.

RESOLUTION: In the spirit of compromise, ORA and CAW agree to the following total RP capital amounts: 2015 - $2,265,503; and 2016 - $2,268,764. ORA and CAW also agree that these annual amounts shall be reflected in each respective year's UPIS. Finally, ORA agrees to allow CAW to manage the overall bottom-line RP budget by district, with flexibility to allocate different spending levels to specific RP line items, consistent with the 2010 GRC settlement between ORA and CAW.

REFERENCES: Exh. 2, CAW Schubert Direct, p. 29; Exh. 15 and 15-A, ORA Menda/Lau Direct; ORA Report No. 3, pp. 4-8 to 4-9.

22.6 Monterey County Water District

22.5.1 Seaside Mains Replacement Phase 2 project (IP-0540-249)

CAW REQUEST: The recorded UPIS additions for 2012 ($2,974,959), 2013 ($1,921,479) and 2014 ($509,562) are reasonable.

ORA POSITION: ORA agreed with the need for this project, but recommended an adjustment to UPIS for 2012 ($0), 2013 ($4,969,712) and 2014 ($436,288).

RESOLUTION: After review of supplemental information provided by CAW relative to the historical capital expenditure level on this project, ORA agrees to UPIS additions of: $2,974,959 in 2012; $1,921,479 in 2013; and the 2014 forecast additions of $509,562 for the Seaside Mains

Replacement Phase 2 project. ORA and CAW agree that these amounts shall be reflected in each respective year's UPIS.

REFERENCES: Exh. 2-A, CAW Schubert Rebuttal, pp. 62-63; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 5-14 to 5-15.

22.5.2 Bishop Wells # 1 and #2 Rehab and 2012 Well Rehab projects (IP-0540-107, IP-0540-131)

CAW REQUEST: The recorded UPIS additions for 2012, 2013 and 2014 were the actual recorded capital expenditures for this project, and were reflected in the SCEP. CAW indicated this approach was based on the assumption that accounting treatment would be performed later to accurately reflect the split of costs between 70 percent for expense and 30 percent for capital, consistent with the terms of the 2010 GRC settlement agreement.

ORA POSITION: ORA agreed with the need for this project, but recommended an adjustment to UPIS for 2012 ($59,500), 2013 ($59,500) and 2014 ($58,918).

RESOLUTION: After review of the information in ORA's report, CAW agrees to the UPIS additions as shown by ORA of: $59,500 in 2012; $59,500 in 2013; and the 2014 forecast additions of $58,918. ORA and CAW agree that these amounts shall be reflected in each respective year's UPIS.

REFERENCES Exh. 2-A, CAW Schubert Rebuttal, pp. 63-64; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 5-15 to 5-16.

22.5.3 Valley Greens Flow Control Valve project (I15-400022)

CAW REQUEST: The total estimated cost of $342,000 for this project is reasonable, and this capital project needs to be installed now to help with current system operations.

ORA POSITION: ORA disallowed this project and the forecasted cost from rate base, since ORA stated this project is really part of the Monterey Peninsula Water Supply Project.

MPWMD POSITION: MPWMD included no testimony on this specific project.

RESOLUTION: CAW, ORA, and MPWMD agree to the removal of this capital project from this GRC, as it will not be completed during this rate cycle (2015-2017). The parties also agree that this capital project may be requested as part of the next GRC application for work to be implemented in 2018 at an approximate cost of $342,000. The parties also agree with the capital project as presented and the value of the project moving forward in conjunction with the implementation of the Monterey Peninsula Water Supply Project facilities.

REFERENCES: : Exh. 2, CAW Schubert Direct, p. 39; Exh. 2-A, CAW Schubert Rebuttal, pp. 64-66; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 5-16 to 5-17.

22.5.4 Carmel Valley Endangered Species Act (ESA) projects – 2013, 2014, 2015, 2016, 2017 (I15-400098, 99, 100)

CAW REQUEST: The treatment of the estimated annual costs for this project as capital is reasonable.

ORA POSITION: ORA agreed with the need for this project, but disagrees with the recovery of these expenditures (i.e., expense versus capital).

RESOLUTION: CAW now agrees with ORA's treatment of the expenditures associated with this project as expense. CAW and ORA agree that CAW shall be allowed to recover the ESA compliance expenses incurred and tracked in the ESA Memorandum Account for each year (2013, 2014, 2015, 2016 and 2017).

REFERENCES: : Exh. 2, CAW Schubert Direct, pp. 51-56; Exh. 2-A, CAW Schubert Rebuttal, p. 68; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, p. 5-20.

22.5.5 Service Line Replacement Program (I15-400091)

CAW REQUEST: CAW requested to continue its polybutylene service line replacement program in its Monterey District for a total amount of $1,950,000 over the three year GRC cycle. As a result of further analysis and reassessment by CAW, the number of necessary future replacements was reduced to 49. CAW has also agreed to certain write-offs based on its assessment of work completed.

ORA POSITION: ORA agreed with the need for this program to continue, and recommended continued annual expenditure amounts of $648,000 over each year of the three year GRC cycle. ORA also recommended that CAW institute a "catch-up" program to accelerate replacements and be funded by shareholders.

MPWMD POSITION: MPWMD included no testimony on this specific program.

RESOLUTION: CAW expects to complete the replacement of the estimated remaining 49 polybutylene services in 2015 in the amount of $150,000 (or approximately $3,000 per service). This amount is fairly close to the recent average historical cost to replace a polybutlene service of $2,945. ORA has supported the service line replacement program in several GRCs, and CAW, ORA, and MPWMD agree that this pro-active program to replace service lines should continue for other types of problematic service line materials, in particular, galvanized service lines typically installed between the 1920s and 1940s. CAW respectfully submits that such work continue in 2016 and 2017 also in the amount of $150,000 per year. Finally, CAW submits that due to its further analysis and assessment of work undertaken and completed, it will reduce rate

base by $384,000 in the Monterey District. Accordingly, CAW, ORA, and MPWMD agree that the amount of $384,000 shall be a one-time reduction to rate base in 2014.

REFERENCES Exh. 2, CAW Schubert Direct, pp. 106-107; Exh. 2-A, CAW Schubert Rebuttal, pp. 76-77; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 5-22 to 5-25.

22.5.6 Regional Desal Project – CAW only facilities (IP-0540-305)

CAW REQUEST: The total estimated cost of $2,663,816 is reasonable, has an in-service completion date of 2015, and should be considered part of this GRC.

ORA POSITION: ORA disallowed this project and the forecasted cost from rate base, since ORA stated this project is being considered as part of another proceeding (i.e., the Monterey Peninsula Water Supply Project).

MPWMD POSITION: MPWMD did not testify on this issue.

RESOLUTION: CAW, ORA, and MPWMD agree to the removal of this capital project from this GRC, and that this capital project should be considered as part of the proceeding addressing the MPWSP. This action results in the removal of $2,663,816 from 2015 rate base.

REFERENCES: : Exh. 2-A, CAW Schubert Rebuttal, p. 77; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 5-33 to 5-35.

22.5.7 Well Rehabilitation Program (I15-400093)

CAW REQUEST: The original estimated total annual expenditures for this project of $880,000 in 2015, $872,000 in 2016, and $689,000 in 2017 are reasonable, and the justification for this funding is well documented in direct testimony and in the capital investment project workpapers.

ORA POSITION: ORA agreed with the need for this project, but recommended total annual expenditure dollars of $275,141 in 2015 and $275,827 in 2016.

MPWMD POSITION: MPWMD supports CAW's request and suggests that even more funding may be needed for this program.

RESOLUTION: After review of supplemental information provided by CAW in rebuttal testimony relative to the historical average cost to rehabilitate wells in the 2012 to 2013 time period, ORA and MPWMD now agree to the following amounts for expense and capital expenditures for 2015 and 2016 as follows. For 2015, expense shall be $616,000 and capital shall be $264,000; for a total of $880,000 in expenditures for 2015. In 2016, the expense amount shall be $610,400 and the capital amount shall be $261,600. CAW, ORA, and MPWMD agree that the capital expenditures shown above for 2015 and 2016 shall be reflected in rate base as

2015 UPIS and 2016 UPIS, respectively. For reference, in 2017 the total expenditure amount would be $689,000, with the expense amount at $482,300 and the capital amount at $206,700.

REFERENCES: Hearing Exh. 2, CAW Schubert Direct, pp. 107-108; Hearing Exh. 2-A, CAW Schubert Rebuttal, pp. 77-80; Hearing Exh. 4, *Direct Testimony of David J. Stoldt* (MPWMD Stoldt Direct"), dated May 15, 2014, p. 11; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 5-38 to 5-41.

22.5.8 Booster Station Rehabilitation Program (I15-400090)

CAW REQUEST: The original estimated cost of $1,000,000 for this project over the 2015-2016 time period ($500,000 per year) is reasonable.

ORA POSITION: ORA agreed with the need for this project, but reduced the total cost for the project over the 2015-2016 time period to $949,146.

RESOLUTION: In the spirit of compromise, CAW agrees with ORA's recommended total capital expenditure amount for this project of $949,146, or $473,982 in 2015 and $475,164 in 2016. Both parties agree that the $473,982 shall be reflected in 2015 UPIS, and that the $475,164 shall be reflected in rate base as 2016 UPIS.

REFERENCES: Exh. 2, CAW Schubert Direct, pp. 108-109; Exh. 2-A, CAW Schubert Rebuttal, pp. 80-81; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 5-35 to 5-37.

22.5.9 Interconnect Ryan Ranch, Hidden Hills and Bishop Satellite Systems to Main Monterey System project (I15-400097)

CAW REQUEST: The original estimated cost of $3,650,000 for this project is reasonable, as well as its recommended designation as an Advice Letter project.

ORA POSITION: ORA disagreed with the need for this project, and its associated cost.

MPWMD POSITION: MPWMD supports CAW's request.

RESOLUTION: After review of supplemental information provided by CAW during settlement discussions, ORA and MPWMD now agree with the need for this project. CAW shall be permitted to request recovery of all reasonable and prudent costs in its next GRC as the planned completion date for this project is 2017, at an estimated capital cost of $3,650,000. MPWMD and CAW also agree that only water from the Seaside Basin Coastal Subarea or other non-Carmel River sources may flow through this interconnection. MPWMD's approval of this project in this Commission proceeding in no way restricts its legislative permitting authority when processing CAW's application to amend its water distribution system permit.

REFERENCES: Exh. 2, CAW Schubert Direct, pp. 110-112; Exh 2-A, CAW Schubert Rebuttal, pp. 81-87; Hearing Exh. 4, MPWMD Stoldt Direct, p. 13, Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 5-25 to 5-33.

22.5.10 Main Replacement Program (I15-400089)

CAW REQUEST: The original estimated cost of $5,400,000 for this annual project over the 2015-2017 time period is reasonable.

ORA POSITION: ORA agreed with the need for this annual investment project, but reduced the total cost for the project to $1,725,227 per year or $3,450,817 for the 2015-2016 time period.

MPWMD POSITION: MPWMD has supported the main replacement program over several GRCs and continues its support in this proceeding.

RESOLUTION: In the spirit of compromise, CAW, ORA, and MPWMD agree to the following adjusted total capital expenditure amount for this project of $4,067,192 over the 2015-2016 time period, with $1,767,192 in 2015 and $2,300,000 in 2016. They agree that the $1,767,192 shall be reflected in 2015 UPIS, and that the $2,300,000 shall be reflected in rate base as 2016 UPIS. For reference, in 2017 the total expenditure amount would be $1,400,000, thereby totaling to CAW's original requested amount of $5,400,000 for the three-year time period of this GRC.

REFERENCES: Hearing Exh. 2, CAW Schubert Direct, pp. 112-113; Hearing Exh. 2-A, CAW Schubert Rebuttal, pp. 87-90; Hearing Exh. 4, MPWMD Stoldt Direct, p. 11, Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 5-37 to 5-38.

22.5.11 Redrill Ralph Lane Well project (I15-400094)

CAW REQUEST: The original estimated cost of $750,000 for this project is reasonable.

ORA POSITION: ORA had no position on this capital project.

RESOLUTION: In the spirit of compromise, ORA agrees with the project and the total capital expenditure amount of $750,000. ORA also agrees with the $750,000 being reflected in 2016 UPIS.

REFERENCES: Exh. 2, CAW Schubert Direct, pp. 113-115; Exh. 2-A, CAW Schubert Rebuttal, p. 90.

22.5.12 Valve and PRV Replacement Program (I15-400092)

CAW REQUEST: The original estimated cost of $650,000 for this project over the 2015-2016 time period ($325,000 per year) is reasonable.

ORA POSITION: ORA agreed with the need for this project, but reduced the total cost for the project over the 2015-2016 time period to $600,000.

RESOLUTION: In the spirit of compromise, CAW agrees to ORA's recommended total capital expenditure amount for this project of $600,000, or $300,000 in 2015 and $300,000 in 2016. Both parties agree that the $300,000 shall be reflected in 2015 UPIS, and that the $300,000 shall be reflected in rate base as 2016 UPIS.

REFERENCES: Exh. 2, CAW Schubert Direct, pp. 115-116; Exh. 2-A, CAW Schubert Rebuttal, p. 91; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 5-41 to 5-42.

22.5.13 Upgrade SCADA System project (I15-400096)

CAW REQUEST: The original estimated cost of $500,000 for this project over the 2015-2016 time period is reasonable.

ORA POSITION: ORA agreed with the need for this project, but reduced the total cost for the project over the 2015-2016 time period to $433,334.

RESOLUTION: In the spirit of compromise, CAW agrees to ORA's recommended total capital expenditure amount for this project of $433,334, or $216,667 in 2015 and $216,667 in 2016. Both parties agree that the $216,667 shall be reflected in 2015 UPIS, and that the $216,667 shall be reflected in rate base as 2016 UPIS.

REFERENCES: : Exh. 2, CAW Schubert Direct, pp. 120-121; Exh. 2-A, CAW Schubert Rebuttal, pp. 91-92; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 5-41 to 5-42.

22.5.14 Fire Flow Improvement Program (I15-400095)

CAW REQUEST: The original estimated cost of $650,000 for this project over the 2015-2016 time period is reasonable.

ORA POSITION: ORA agreed with the need for this project, but reduced the total cost for the project over the 2015-2016 time period to $515,582.

RESOLUTION: In the spirit of compromise, CAW agrees to ORA's recommended total capital expenditure amount for this project of $515,582, or $257,470 in 2015 and $258,112 in 2016. Both parties agree that the $257,470 shall be reflected in 2015 UPIS, and that the $258,112 shall be reflected in rate base as 2016 UPIS.

REFERENCES: Exh. 2, CAW Schubert Direct, p. 119; Exh. 2-ACAW Schubert Rebuttal, pp. 92-93; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 5-35 to 5-37..

22.5.15 Monterey Billing SAP Modifications project

CAW REQUEST: CAW originally wanted to ensure recognition of costly improvements in the SAP billing program, should implementation of a new rate design be delayed for the Monterey District. However, since the new rate design has been approved and is in effect in Monterey, these estimated expenditures are no longer necessary.

ORA POSITION: Disallowed this project and the forecasted cost from rate base due to lack of support for the request.

RESOLUTION: CAW agrees with the disallowance by ORA of this capital project and the removal of its associated expenditures of $500,000 from 2014 rate base.

REFERENCES: : Exh. 2-A, CAW Schubert Rebuttal, pp. 93-94; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, p. 5-42.

22.5.16 Ryan Ranch – Bishop Intertie (I15-400006)

CAW REQUEST: This project will provide an interconnection between the Ryan Ranch service area and the Bishop service area to meet demands and supplement the supply when necessary.

ORA POSITION: ORA takes no position on this advice letter project in this GRC.

MPWMD POSITION: MPWMD has repeatedly opposed this project since the 2008 GRC.

RESOLUTION: ORA and CAW agree to continue this project as an Advice Letter project with a planned completion date in early 2015 with a budget of $277,000 plus interest. MPWMD's approval of this project in this Commission proceeding in no way restricts its legislative permitting authority when processing CAW's application to amend its water distribution system permit.

REFERENCES: Hearing Exh. 2, CAW Schubert Direct, p. 62; Hearing Exh. 2-A, CAW Schubert Rebuttal, pp. 72-73, pp. 151-152; Hearing Exh. 4, MPWMD Stoldt Direct, p. 12, Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 5-20 to 5-21.

22.5.17 Los Padres Dam Fish Passage Project (05400049)

CAW REQUEST: $4,200,000 to complete a downstream fish passage facility at Los Padres Dam. This capital project would remain an Advice Letter project, subject to review and approval once the project is complete.

ORA POSITION: ORA takes no position on this capital project.

MPWMD POSITION: MPWMD generally supports improvements to fish passage at Los Padres Dam but has various concerns about CAW's proposal.

RESOLUTION: After review of supplemental information provided by CAW during settlement discussions, ORA now agrees that this capital project may be added to rate base once it is completed and in service, after ORA has completed a reasonableness review of this project in the next GRC. CAW represents that this capital project has a planned completion date of 2016, and that the current total estimated cost is approximately $4,200,000. CAW has also represented that this project has regulatory agency support, including from the Monterey Peninsula Water Management District (MPWMD), California Department of Fish and Wildlife and NOAA Fisheries. CAW and MPWMD also agree to include the cost of a camera to record the number of steelhead passing downstream as part of this project's scope. The cost of the camera equipment is about $30,000, and does not include the cost of personnel to process the data. MPWMD will work with CAW to provide funding or personnel to process data acquired with the monitoring camera. The cost of the camera equipment shall be included as part of the total estimated cost of $4,200,000 for this project. CAW agrees to pursue this project as a long term solution for the passage of steelhead trout to the best of its abilities.

REFERENCES: Hearing Exh. 2, CAW Schubert Direct, pp62-66; Hearing Exh. 2-A, CAW Schubert Rebuttal, pp. 75-76, pp. 152-156, Hearing Exh. 33, *Direct Testimony of Larry Hampson* ("MPWMD Hampson Direct"), dated May 15, 2014, p.6.

22.5.18 Los Padres Dam Long-Term Plan Project (I15-400101)

CAW REQUEST: $200,000 in 2015, $350,000 in 2016, and $450,000 in 2017 to conduct a detailed feasibility study "to determine the ultimate fate of the Los Padres Dam."

ORA POSITION: ORA takes no position on this project.

MPWMD POSITION: MPWMD basically believes that CAW's question of "Is the Carmel River better with or without the Los Padres Dam?" is overly simplified and proposes that it is in a better position to conduct the study rather than CAW.

RESOLUTION: After review of supplemental information provided by MPWMD during settlement discussions, the parties agree that CAW will co-fund MPWMD so they may pursue

on-going efforts and studies as described below to determine the best overall fate for the Los Padres Dam and Carmel River. CAW will contribute up to $1,000,000 minus CAW staff time of $24,000 per year to assist MPWMD. Furthermore, the parties also agree that this study should not be capitalized, but that it shall be expensed as follows: $200,000 in 2015; $350,000 in 2016; and $450,000 in 2017**.** Studies will include evaluating upstream steelhead passage at Los Padres Dam, whether the Carmel River is better or worse with surface storage at Los Padres Dam, and what options exist to maintain physical existing surface storage in Los Padres Reservoir (i.e., manage annual sediment inflow to the reservoir). Also included in the studies would be an analysis of the potential geomorphic effects of a resumption or increase of the natural flow of sediment.

22.5.19 Recurring Projects (R15-40xx)

CAW REQUEST: The total estimated cost of the Recurring Projects for 2015 of $3,272,000 and for 2016 of $3,393,500 is reasonable.

ORA POSITION: ORA agreed with the need for the Recurring Projects, but recommended a reduced total cost for the Recurring Projects for 2015 of $2,163,878 and for 2016 of $2,170,242.

RESOLUTION: In the spirit of compromise, ORA and CAW agree with to following total RP capital amounts: 2015 - $2,717,939; and 2016 - $2,781,821. ORA and CAW also agree that these annual amounts shall be reflected in each respective year's UPIS. Finally, ORA agrees to allow CAW to manage the overall bottom-line RP budget by district, with flexibility to allocate different spending levels to specific RP line items, consistent with the 2010 GRC settlement between ORA and CAW.

REFERENCES Exh. 2, CAW Schubert Direct, p. 29, Attachment 7; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 5-13 to 5-14.

22.7 Toro District

22.6.1 Vista Dorado Tank project (I15-480006)

CAW REQUEST: The original estimated cost of $110,000 for this project is reasonable.

ORA POSITION: ORA agreed with the need for this project, but reduced the total cost for the project to $94,556.

RESOLUTION: In the spirit of compromise, CAW agrees to ORA's recommended total capital expenditure amount for this project of $94,556. Both parties agree that the $94,556 shall be reflected in rate base as 2015 UPIS.

REFERENCES: Exh. 2, CAW Schubert Direct, p. 122; Exh. 2-A, CAW Schubert Rebuttal, pp. 95-96; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 6-7 to 6-8.

22.6.2 Corte Cordillera Tank project (I15-480007)

CAW REQUEST: The original estimated cost of $200,000 for this project is reasonable.

ORA POSITION: Agreed with the need for this project, but reduced the total cost for the project to $158,710.

RESOLUTION: In the spirit of compromise, ORA and CAW agree to a total capital expenditure for this project of $174,554. Both parties also agree that the $174,554 shall be reflected in rate base as 2016 UPIS.

REFERENCES Exh. 2, CAW Schubert Direct, pp. 122-123; Exh. 2-A, CAW Schubert Rebuttal, pp. 96-97; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 6-8 to 6-9.

22.6.3 Recurring Projects (R15-48xx)

CAW REQUEST: The total estimated cost of the Recurring Projects for 2015 of $167,000 and for 2016 of $167,000 is reasonable.

ORA POSITION: ORA agreed with the need for the Recurring Projects, but recommended a reduced total cost for the Recurring Projects for 2015 of $81,793 and for 2016 of $82,033.

RESOLUTION: In the spirit of compromise, ORA and CAW agree to the following total RP capital amounts: 2015 - $124,397 and 2016 - $124,397. ORA and CAW also agree that these annual amounts shall be reflected in each respective year's UPIS. Finally, ORA agrees to allow CAW to manage the overall bottom-line RP budget by district, with flexibility to allocate different spending levels to specific RP line items, consistent with the 2010 GRC settlement between ORA and CAW.

REFERENCES: Exh. 2, CAW Schubert Direct, p. 29, Attachment 7; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 6-5 to 6-7.

22.8 Monterey County Wastewater District

22.7.1 Recurring Projects (R15-49xx)

CAW REQUEST: The total estimated cost of the Recurring Projects for 2015 of $192,000 and for 2016 of $192,000 is reasonable.

ORA POSITION: ORA agreed with the need for the Recurring Projects, but recommended a reduced total cost for the Recurring Projects for 2015 of $150,917 and for 2016 of $151,361.

RESOLUTION: In the spirit of compromise, ORA and CAW agree to the following total RP capital amounts: 2015 - $171,459; and 2016 - $171,816. ORA and CAW also agree that these annual amounts shall be reflected in each respective year's UPIS. Finally, ORA agrees to allow CAW to manage the overall bottom-line RP budget by district, with flexibility to allocate different spending levels to specific RP line items, consistent with the 2010 GRC settlement between ORA and CAW.

REFERENCES: Exh. 2, CAW Schubert Direct, p. 29, Attachment 7; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No.3, p. 8-4.

22.9 Sacramento County District

22.8.1 Pumping Efficiency Studies Project (no ID number)

CAW REQUEST: This project will provide extremely useful direction and information to help identify the wells in the Sacramento District that will need to be replaced based on age, condition and pumping capacity. CAW states that the total estimated cost of $750,000 is reasonable.

ORA POSITION: ORA disallowed this project and the forecasted cost from rate base in 2015 and 2016 based on insufficient support for prudency of project.

RESOLUTION: CAW proposes to designate the funds for this study as expense instead of capital. Accordingly, CAW reduced capital expenditures by $500,000 in 2015 (from $500,000 to $0) and by $250,000 in 2016 (from $250,000 to $0) as related to this specific project. Instead, CAW recommends that this project cost be treated as an expense and be included as part of the CPS budget in 2015 and 2016. As a compromise, CAW further requests that $250,000 be added to the overall CPS expense budget for the Sacramento County District in 2015, and that $125,000 be added to the overall CPS expense budget for the Sacramento County District in 2016. Accordingly, CAW and ORA agree that the Sacramento County District CPS expense budget shall increase from $257,500 to $507,500 in 2015; and from $265,225 to $390,225 in 2016, and a pump efficiency study report will be completed in 2016.

REFERENCES: Exh. 2-A, CAW Schubert Rebuttal, pp. 99-100; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, p. 9-12.

22.8.2 Walnut Grove Permanent Sewer Connection project (IP-0560-42, 187)

CAW REQUEST: The original estimated cost of $414,774 for this project is reasonable.

ORA POSITION: ORA agreed with the need for this project, but reduced the total cost for the project to $348,000.

RESOLUTION: In the spirit of compromise, CAW agrees to ORA's recommended total capital expenditure amount for this project of $348,000, and both parties agree that the $348,000 shall be reflected in 2014 UPIS.

REFERENCES: Exh. 2, CAW Schubert Rebuttal, p. 101; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 9-12 to 9-13

22.8.3 Elverta Road Bridge Water Main Relocation project (I15-600007)

CAW REQUEST: The original estimated cost of $348,000 for this project is reasonable, and the estimated completion date of 2014 was reasonable at the time this project was included in the GRC application.

ORA POSITION: ORA disallowed this project because of the continued delay in the project schedule, and recommended the current recorded expenditures in CWIP be carried forward.

RESOLUTION: CAW reports that the latest information from Sacramento County indicates that this capital project has no funding for the foreseeable future, which is on the order of six years. CAW and ORA agree that CAW shall be permitted to request this project within the 2016 GRC, if there are new indications from Sacramento County that construction of the new bridge will occur in the 2019-2020 time period. ORA and CAW also agree to allow the current recorded expenditures in CWIP to be carried forwarded.

REFERENCES: Exh. 2, CAW Schubert Direct, pp. 39-41; Exh 2-A, CAW Schubert Rebuttal, pp. 101-102; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 9-13 to 9-14.

22.8.4 Arden Intertie project (I15-600051)

CAW REQUEST: The original estimated cost of $2,398,034 for this project is reasonable, as well as a completion date of 2014.

ORA POSITION: ORA disallowed this project and its associated previously approved capital expenditures, because of the continued delay in the project schedule.

RESOLUTION: After review of supplemental "real-time" information provided by CAW regarding the pending purchase of land, and the importance of insuring an adequate source of supply to meet demands in the Arden service area through the purchase of City of Sacramento surface water, ORA agrees to the continued need for this project. ORA and CAW agree that the $2,398,034 shall continue to be reflected in rate base as 2014 UPIS, since CAW still expects the project be in service by the end of 2014.

REFERENCES: Exh. 2, CAW Schubert Direct, pp. 41-42; CAW Schubert Rebuttal, pp. 102-105; ORA Report No. 3, pp. 9-14 to 9-15.

22.8.5 Walnut Grove Tank project (I15-600063)

CAW REQUEST: The original estimated cost of $2,800,000 for this project is reasonable.

ORA POSITION: ORA agreed with the need for this project, but reduced the total cost for the project to $2,701,355.

RESOLUTION: In the spirit of compromise, ORA and CAW agree to a total capital expenditure for this project of $2,750,000. Both parties also agree that this project will be completed in 2015 and the $2,750,000 shall be reflected in rate base as 2015 UPIS.

REFERENCES: : Exh. 2, CAW Schubert Direct, pp. 125-126; CAW Schubert Rebuttal, pp. 112-113; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 9-26 to 9-28.

22.8.6 Isleton Distribution System Improvement project (I15-600067)

CAW REQUEST: The original estimated cost of $870,000 for this project is reasonable.

ORA POSITION: ORA agreed with the need for this project, but reduced the total cost for the project to $793,440.

RESOLUTION: In the spirit of compromise, ORA and CAW agree to a total capital expenditure for this project of $831,720. Both parties also agree that the $831,720 shall be reflected in rate base as 2016 UPIS.

REFERENCES: . Exh. 2, CAW Schubert Direct, pp. 127-128; Exh. 2-A, CAW Schubert Rebuttal, pp. 114-115; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 9-28 to 9-29.

22.8.7 Lincoln Oaks Wellhead Treatment project (I15-600064)

CAW REQUEST: The original estimated cost of $1,500,000 for this project is reasonable, and the reasons provided for this project were well documented and supported in direct testimony and in the capital investment project workpapers

ORA POSITION: ORA disagreed with the need for this project and its associated cost. ORA stated there was sufficient capacity from existing wells.

RESOLUTION: After review of supplemental information provided by CAW in rebuttal testimony relative to the need for treatment of the groundwater contamination in the Lincoln Oaks service area, ORA now agrees that this capital project is necessary. In addition, ORA and CAW agree that the total capital expenditure for this capital project shall remain at $1,500,000, and this capital expenditure amount shall be placed into 2016 UPIS.

REFERENCES: Exh. 2, CAW Schubert Direct, pp. 130-131; Exh. 2-A, CAW Schubert Rebuttal, pp. 116-117; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 9-17 to 9-20.

22.8.8 Antelope 1MG Tank, Booster Station and Well project (I15-600073)

CAW REQUEST: The original estimated cost of $500,000 for this project is reasonable. This cost was to capture work related to design, permitting and land acquisition.

ORA POSITION:ORA disagreed with the need for this project and its associated cost. ORA concluded the project was not needed until after 2020.

RESOLUTION: In the spirit of compromise, ORA and CAW agree to a reduced capital expenditure for this project that reflects only the cost to acquire the additional land. Both parties agree that the cost shall not exceed $150,000, unless CAW provides documentation supporting the additional cost above the $150,000 threshold. However, the recovery of any additional costs over the $150,000 threshold shall only occur upon review in the 2016 GRC. Both parties also agree that $150,000 shall be reflected in rate base as 2015 UPIS with the expectation that the design, permitting, and land acquisition will be completed in 2015.

REFERENCES: Exh. 2, CAW Schubert Direct, pp. 133-134; Exh. 2-A, CAW Schubert Rebuttal, pp. 119-122; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 9-20 to 9-22.

22.8.9 Well Rehabilitation Program (I15-600071)

CAW REQUEST: The original estimated total expenditures for this project of $1,700,000 in 2015 and $1,600,000 in 2016 are reasonable, and the justification for this funding is well documented in direct testimony and in the capital investment project workpapers.

ORA POSITION: ORA agreed with the need for this project, but recommended the total expenditure dollars be reduced to $275,141 in 2015 and $275,827 in 2016 based on a 70/30 split between expenses and capital expenditures similar to the accounting in the Monterey District.

RESOLUTION: ORA recognizes the importance of this long-term, on-going program that has been in place since 2004. CAW also acknowledges the support ORA has provided the combined program in the 2004 GRC, the 2007 GRC, the 2009 GRC, the 2010 GRC, as well as the current GRC. After review of additional information provided by CAW regarding the combined program of expenditures for "below the ground" facilities and "above the ground" facilities at CAW well stations across the Sacramento District, and in the spirit of compromise, ORA concurs on the budget for this project in this GRC. As a compromise, CAW agrees to adjust the previously requested capital expenditure amounts for 2015 and 2016 in this GRC. ORA now agrees to the adjusted proposed capital expenditure amounts of $1,500,000 in 2015 and $1,500,000 in 2016. ORA and CAW also agree that the $1,500,000 shall be reflected in rate base as 2015 UPIS and that the $1,500,000 shall be reflected in rate base as 2016 UPIS.

REFERENCES: Exh. 2, CAW Schubert Direct, pp. 134-135; Exh. 2-A, CAW Schubert Rebuttal, pp. 122-126; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 9-29 to 9-32.

22.8.10 Annual Generator Program (I15-600069)

CAW REQUEST: The original estimated total cost for this project of $700,000 is reasonable ($300,000 in 2015, and $400,000 in 2016), and the justification for this capital project is well documented in direct testimony and in the capital investment project workpapers.

ORA POSITION: ORA agreed for expenditures of $100,000 in 2015 but disagreed with the need to replace existing generators prior to 2019 due to premature replacement of currently compliant equipment and sufficient existing capacity in the system
RESOLUTION: In the spirit of compromise, ORA and CAW agree to an annual capital expenditure for this on-going capital project of $0 in 2015 and $0 in 2016. Based upon additional information provided by CAW in rebuttal testimony, ORA also agrees that CAW shall be permitted to request this project in its next GRC should it determine the project prudent and reasonable.

REFERENCES: : Exh. 2, CAW Schubert Direct, pp. 136-137; Exh. 2-A, CAW Schubert Rebuttal, pp. 127-129; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 9-22 to 9-26.

22.8.11 Recurring Projects (R15-60xx)

CAW REQUEST: The total estimated cost of the Recurring Projects for 2015 of $2,664,141 and for 2016 of $2,723,141 is reasonable.

ORA POSITION: ORA agreed with the need for the Recurring Projects, but recommended a reduced total cost for the Recurring Projects for 2015 of $2,213,965 and for 2016 of $2,264,887.

RESOLUTION: In the spirit of compromise, ORA and CAW agree to the following total RP capital amounts: 2015 - $2,439,053; and 2016 - $2,494,014. ORA and CAW also agree that these annual amounts shall be reflected in each respective year's UPIS. Finally, ORA agrees to allow CAW to manage the overall bottom-line RP budget by district, with flexibility to allocate different spending levels to specific RP line items, consistent with the 2010 GRC settlement between ORA and CAW.

REFERENCES: : Exh. 2, CAW Schubert Direct, p. 29, Attachment 7; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 9-11 to 9-12.

22.8.12 SCADA Maintenance Program (I15-600068)

CAW REQUEST: This investment project is currently expected to be completed annually through the end of 2017. The total estimated project cost is $360,000.

ORA POSITION: ORA agreed with the need for this project, the estimated timeframe, but spread the total estimated dollars evenly between 2015 and 2016 ($120,000 in each year).

RESOLUTION: ORA and CAW agree that this annual investment project shall have $120,000 reflected in rate base as 2015 UPIS, and also have $120,000 reflected in rate base as 2016 UPIS.

REFERENCES: Exh. 2, CAW Schubert Direct, pp. 135-136; Exh. 2-A, CAW Schubert Rebuttal, pp. 126-127; ORA Report No. 3, p. 9-29.

22.8.13 Main Replacement Program (I15-600072)

CAW REQUEST: This annual investment program is continuing in every year of the GRC cycle, and has an annual total estimated cost of $1,500,000. The total estimated program cost is $4,500,000.

ORA POSITION: ORA agreed with the need for this project, the estimated timeframe, and the total estimated dollars for 2015 and 2016 ($1,500,000 in each year).

RESOLUTION: ORA and CAW agree that this annual investment project shall have $1,500,000 reflected in rate base as 2015 UPIS, and shall also have $1,500,000 reflected in rate base as 2016 UPIS.

REFERENCES: Exh. 2, CAW Schubert Direct, pp. 137-138; Exh. 2-A, CAW Schubert Rebuttal, pp. 129-130; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 9-29.

22.8.14 Security Park Pump Station Rehabilitation (I15-600065)

CAW REQUEST: This investment project is currently expected to be completed by the end of 2016. The total estimated project cost is $490,000.

ORA POSITION: ORA agreed with the need for this project, the estimated timeframe, and the total estimated cost of $490,000.

RESOLUTION: The parties agree that this project will be completed in 2016 and shall be reflected in rate base as 2016 UPIS at a total estimated cost of $490,000.

REFERENCES: Exh. 2, CAW Schubert Direct, p. 131; Exh. 2-A, CAW Schubert Rebuttal, p. 118; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, p. 9-10.

22.8.15 Suburban/Rosemont Route 50 Pipe Crossing (I15-600066)

CAW REQUEST: This investment project is currently expected to be completed by the end of 2016. The total estimated project cost is $1,425,000.

ORA POSITION: ORA agreed with the need for this project, the estimated timeframe, and the total estimated cost of $1,425,000.

RESOLUTION: The parties agree that this project will be completed in 2016 and shall be reflected in rate base as 2016 UPIS at a total estimated cost of $1,425,000.

REFERENCES: Exh. 2, CAW Schubert Direct, p. 132; Exh. 2-A, CAW Schubert Rebuttal, pp. 118-119; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, p. 9-10.

22.8.16 Sacramento Office Solar Project (I15-600074)

CAW REQUEST: This investment project is currently expected to be completed by the end of 2016. The total estimated project cost is $164,000.

ORA POSITION: ORA agreed with the need for this project, the estimated timeframe, and the total estimated cost of $164,000.

RESOLUTION: The parties agree that this project will be completed in 2016 and reflected in rate base as 2016 UPIS at a total estimated cost of $164,000.

REFERENCES: CAW Schubert Direct, p. 138; CAW Schubert Rebuttal, pp. 130-131; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, p. 9-10.

22.8.17 Antelope Backyard Main Replacement Project (I15-600075)

CAW REQUEST: This investment project is currently expected to be completed by the end of 2016. The total estimated project cost is $375,000.

ORA POSITION: ORA agreed with the need for this project, the estimated timeframe, and the total estimated cost of $375,000.

RESOLUTION: The parties agree that this project will be completed in 2016 and shall be reflected in rate base as 2016 UPIS at a total estimated cost of $375,000.

REFERENCES: Exh. 2, CAW Schubert Direct, pp. 132-133; Exh. 2-A, CAW Schubert Rebuttal, p. 119; ORA Report No. 3, p. 9-10.

22.8.18 Isleton Chemical Feed Building Improvements Project (I15-600076)

CAW REQUEST: This investment project is currently expected to be completed by the end of 2016. The total estimated project cost is $262,000.

ORA POSITION: ORA agreed with the need for this project, the estimated timeframe, and the total estimated cost of $262,000.

RESOLUTION: The parties agree that this project will be completed in 2016 and shall be reflected in rate base as 2016 UPIS at a total estimated cost of $262,000.

REFERENCES: Exh 2, CAW Schubert Direct, pp. 126-127; Exh. 2-A, CAW Schubert Rebuttal, p. 113; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, p. 9-10.

22.8.19 Isleton Pumped Storage Tank and Booster Station Project (I15-600077)

CAW REQUEST: The original estimated cost of $1,700,000 for this project is reasonable.

ORA POSITION:
ORA took no position on this project to be completed outside of the test years 2015 and 2016. ORA recommended CAW exercise its managerial diligence to determine the necessity and reasonableness of this project and for CAW to seek recovery in a future GRC after a prudency and cost review by ORA.

RESOLUTION: In the spirit of compromise, ORA and CAW agree to a total capital expenditure for this project of $1,700,000. Both parties also agree that this project will be completed in 2016 and the $1,700,000 shall be reflected in rate base as 2016 UPIS.

REFERENCES: Exh. 2, CAW Schubert Direct, pp. 128-129; Exh. 2-A, CAW Schubert Rebuttal, p. 115; ORA Report No. 3, p. 9-32..

22.8.20 Lincoln Oaks SCADA Improvements at SSWS Interconnection Project (I15-600070)

CAW REQUEST: The original estimated cost of $280,000 for this project is reasonable.

ORA POSITION: ORA took no position on this project. ORA recommended CAW exercise its managerial diligence to determine the necessity and reasonableness of this project and for CAW to seek recovery in a future GRC after a prudency and cost review by ORA

RESOLUTION: In the spirit of compromise, ORA and CAW agree to a total capital expenditure for this project of $280,000. Both parties also agree that the project will be completed in 2016 and $280,000 shall be reflected in rate base as 2016 UPIS.

REFERENCES: Exh. 2, CAW Schubert Direct, pp. 129-130; Exh. 2-A, CAW Schubert Rebuttal, pp. 115-116; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, p. 9-32.

22.10 Sonoma County (Larkfield)

22.9.1 Faught Road Well and Transmission Main project (I15-610002)

CAW REQUEST: This important source of supply project has been fully vetted in previous GRCs and approved by the Commission in related decisions. The complete justification for this capital project is also well documented in direct testimony, the capital investment project workpapers and in rebuttal testimony.

ORA POSITION: ORA disagreed with the need for this project and its associated cost, because ORA concluded that this source of supply project is not necessary because of declining system demand and a sufficient source of supply.

RESOLUTION: In the spirit of compromise, ORA and CAW agree to this capital project and its continued designation as an Advice Letter project, and the previous GRC settlement agreement maximum cost amount of $2,390,000, plus interest and including $212,230 in CWIP. CAW continues to agree that the total estimated cost will be subject to a reasonableness and prudency review at the time this investment project is completed, placed into service, and an Advice Letter application is submitted to the Commission for review and approval into rate base.

22.9.2 Well Rehab 2012-2014 project (IP-0561-7)

CAW REQUEST: The current estimated total expenditures for this project of $307,598 to complete this capital project in 2014 is reasonable, and the justification for this funding is documented in direct testimony and in the capital investment project workpapers.

ORA POSITION: ORA agreed with the need for this project, but recommended the total expenditure dollars be reduced to the previously approved GRC amount of $296,400.

RESOLUTION: After review of supplemental information provided by CAW on the increased cost of $11,198 for this project (from $296,400 to $307,598), ORA agrees to the requested new amount of $307,598 to complete this project in 2014. Both parties agree that the $307,598 shall be reflected in rate base as 2014 UPIS.

REFERENCES: : Exh. 2-A, CAW Schubert Rebuttal, pp. 135-136; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, p. 10-9.

22.9.3 Londonberry Drive Creek Crossing project (I15-610009)

CAW REQUEST: The original estimated total expenditures for this project of $558,000 in 2016 is reasonable.

ORA POSITION: ORA agreed with the need for this project, but recommended the total expenditure dollars be reduced to $444,000 in 2016.

RESOLUTION: In the spirit of compromise, ORA and CAW agree to a total capital expenditure for this project of $444,000. Both parties also agree that this project will be

completed in 2016 and the $444,000 shall be reflected in rate base as 2016 UPIS. Both parties agree on the budget dollars of $82,500 for 2015 and $361,500 for 2016.

REFERENCES: Exh. 2, CAW Schubert Direct, p. 139; Exh. 2-A, CAW Schubert Rebuttal, pp. 136-137; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, p. 10-13.

22.9.4 Fulton Well project (I15-6100xx)

CAW REQUEST: The Larkfield District still needs a new source of supply in the intermediate future, and this project is considered an optional source of supply should the Faught Road Well and Transmission Main project discussed previously not come to fruition.

ORA POSITION: ORA disallowed this project and its associated cost, since demand in the system is declining, and it is not needed from a source of supply basis.

RESOLUTION: CAW and ORA agree that with the continued support of the Faught Road Well and Transmission Main project, this project is no longer necessary.

REFERENCES: Exh. 2, CAW Schubert Direct, pp. 141-143; Exh. 2-A, CAW Schubert Rebuttal, pp. 140-141; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, p. 10-12.

22.9.5 Tank Replacement Study (I15-610008)

CAW REQUEST: This project would analyze and identify an operational plan for the various tanks located within the Larkfield District. CAW states that the total estimated cost of $150,000 is reasonable.

ORA POSITION: ORA disagreed with the need for this project and the forecasted cost from rate base in 2015 and 2016.

RESOLUTION: CAW proposes to designate the funds for this study as expense instead of capital. Accordingly, CAW reduces capital expenditures by $50,000 in 2015 (from $50,000 to $0) and by $100,000 in 2016 (from $100,000 to $0) as related to this specific project. Instead, CAW recommends that this project cost be treated as an expense and be included as part of the CPS expense budget in 2015 and 2016. As a compromise, CAW further requests that $25,000 be added to the overall CPS expense budget for the Sonoma County District in 2015, and $50,000 be added to the overall CPS expense budget for the Sonoma County District in 2016. Accordingly, the parties agree that the Sonoma County District CPS expense budget shall increase from $20,600 to $45,600 in 2015; and from $21,200 to $71,200 in 2016 and that a Tank Replacement Study report will be completed in 2016.

REFERENCES: Exh. 2, CAW Schubert Direct, pp. 140-141; Exh. 2-A, CAW Schubert Rebuttal, pp. 137-140; ORA Report No. 3, pp. 10-14 to 10-16.

22.9.6 Larkfield Well # 6 (05610202)

CAW REQUEST: This project was approved as part of a previous Commission decision, and capital dollars were approved to be recorded in UPIS in the amount of $169,878.

ORA POSITION: ORA disagrees with this project and the amount shown in CWIP.

RESOLUTION: After review of supplemental information provided by CAW on this project, ORA agrees that CAW may retain the current amount of $169,878 in UPIS. ORA understood that the SCEP document provided by CAW mistakenly showed these dollars as CWIP, which was incorrect.

REFERENCES: Exh. 2-A, CAW Schubert Rebuttal, pp. 141-143; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 10-16 to 10-17..

22.9.7 Recurring Projects (R15-61xx)

CAW REQUEST: The total estimated cost of the Recurring Projects for 2015 of $377,667 and for 2016 of $369,167 is reasonable.

ORA POSITION: Agreed with the need for the Recurring Projects, but recommended a reduced total cost for the Recurring Projects for 2015 of $316,315 and for 2016 of $323,592.

RESOLUTION: In the spirit of compromise, ORA and CAW agree to the following total RP capital amounts: 2015 - $346,991; and 2016 - $346,380. ORA and CAW also agree that these annual amounts shall be reflected in each respective year's UPIS. Finally, ORA agrees to allow CAW to manage the overall bottom-line RP budget by district, with flexibility to allocate different spending levels to specific RP line items, consistent with the 2010 GRC settlement between ORA and CAW.

REFERENCES: Exh. 2, CAW Schubert Direct, p. 29, Attachment 7; Exh. 15 and 15-A, ORA Menda/Lau Direct, ORA Report No. 3, pp. 10-8 to 10-9..

22.9.8 SCWA Interconnection Improvement (IP-0561-23)

CAW REQUEST: This investment project is currently expected to be completed by the end of 2016. The total estimated project cost is $50,000.

ORA POSITION: Agreed with the need for this project, the estimated timeframe, and the total estimated cost of $50,000.

RESOLUTION: ORA and CAW agree that this project will be completed in 2016 and shall be reflected in rate base as 2016 UPIS at a total estimated cost of $50,000.

REFERENCES: Exh. 2, CAW Schubert Direct, pp. 139-140; Exh. 2-A, CAW Schubert Rebuttal, p. 137.

22.9.9 ADVICE LETTER PROJECTS – Monterey County and Sacramento County Districts

CAW REQUEST: CAW (through the Commission's rate case plan) has reflected the capital expenditures for those previously authorized advice letter projects that have been completed and placed into service during the year prior to the test year of a GRC (which in this case is 2015).

ORA POSITION: ORA is not opposed to the need for previously authorized advice letter projects, but states that "if the projects are necessary and actually constructed, CAW has the ability to seek full recovery of all reasonable and prudent costs (including interest or carrying charges) in a future GRC application." ORA is concerned about the appearance of a potential double recovery of capital expenditures, and how CAW forecasted these capital expenditures in rate base for completed advice letter projects.

RESOLUTION: As a result of supplemental information provided during settlement discussions and rebuttal testimony, ORA agrees that CAW can include those capital advice letter projects in 2014, but only to the extent the rates to cover these capital advice letter projects are in current rates and present rate revenues. ORA remains concerned about a mismatch between what is authorized in this GRC versus previous GRCs. CAW and ORA agree that if the capital projects are not included in present rate revenue, then the respective capital projects shall continue to be designated advice letter projects and accrue interest in the same manner as the prior settlement. CAW and ORA further agree that these capital advice letter projects would have to be filed after a decision is reached in this GRC. Accordingly, CAW provides the latest completion date information for the various advice letter projects. In summary, CAW represents that the following projects are complete, or they will be completed in 2014, or they will be completed in 2015:

Monterey County
Ambler Tank (05400509) - scheduled for completion in March 2015.
Upper Rimrock Tanks (15400090) - scheduled for completion in October 2014.
Ryan Ranch/Bishop Intertie (I15400101) - scheduled for completion in early 2015.
Chualar Tank (I15400155) - scheduled for completion in March 2015.
Carmel Woods Tank (05400034) - completed in December 2013, AL filed.

ASR Well # 4 (05400307) - scheduled for completion in fall 2014.
ASR Well # 3 (05400301) - scheduled for completion in fall 2014.

Sacramento County
Walnut Grove Tank (05600038) - scheduled for completion in early 2015.
Security Park Interconnection (05600127) - completed in spring 2014.
Walnut Grove System Improvements (05600100) scheduled for completion in fall 2014.

In addition, the parties reached an agreement regarding advice letter treatment for the following project:

Monterey County - Los Padres Dam Fish Passage project (05400049)
After review of supplemental information provided by CAW during settlement discussions, ORA now agrees that this capital project may be added to base rates once it is completed and in service, after ORA has completed a reasonableness review of this project in the next GRC. CAW represents this capital project has a planned completion date of 2016, and that the current total estimated cost is approximately $4,200,000. CAW has also represented that this project has regulatory agency support, including from the Monterey Peninsula Water Management District, California Department of Fish and Wildlife and NOAA Fisheries.

REFERENCES: Exh. 2, CAW Schubert Direct, pp. 58-68; Exh. 2-a, CAW Schubert Rebuttal, pp. 68-76, 105-111; Exh. 15 and 15-a, ORA Menda/Lau Direct, ORA Report No. 3, pp. 5-20 to 5-22, 9-16 to 9-17.

23.0 RULE 1 ISSUE

BACKGROUND:

Over the course of this proceeding, issues arose between CAW and ORA regarding whether CAW provided accurate information in response to Minimum Data Requirement ("MDR") II.D.5 and the interpretation of MDR II.D.5.

MDR II.D.5 requires a "list of the plant improvements authorized in the test years but not built." ORA alleged that CAW provided inaccurate information in response to this MDR in violaton of Rule 1. CAW responded that the information provided was accurate at the time the MDR responses were prepared, based on its interpretation of the MDR. CAW and ORA differed as to which were the "test years" for reporting purposes, whether "not built" included projects that were temporarily on hold, projects that CAW expected to complete by the end of 2013, projects that were still in progress at the time the MDR response was prepared, and whether the MDR applied to advice letter projects and multi-year projects.

RESOLUTION:

In the interest of compromise, CAW and ORA agree that future MDR II.D.5 reports will include the information set forth below, which CAW will use in subsequent general rate case filings, unless and until the reporting requirements of MDR II.D.5 are modified by Commission decision. CAW will further ensure that all MDR responses are complete and accurate in future general rate case filings in compliance with this interpretation of the MDR II.D.5 requirement.

In providing information subject to MDR II.D.5, CAW will include the status of all projects authorized by the Commission in the last general rate case, including:

1. advice letter projects,
2. multi-year projects,
3. projects authorized in the test years but not built for whatever reason, even if the project is temporarily on hold and CAW expects to the complete the project, and
4. projects authorized in all test years, even if the reporting occurs during a particular test year,
5. projects authorized in all test years, even if the project is currently in progress, and
6. projects authorized in all test years, even if CAW expects the project to be complete during the years in which the GRC is filed and decided.

The MDR shall include the status on both a recorded and forecast basis through the end of the prior GRC cycle. CAW will update the status as close to the application date as reasonably possible, and any further updates will be provided in response to data requests issued in the general rate case. This compromise interpretation applies going forward, but not retroactively. Neither CAW nor ORA admit to any fault in interpretation of the MDR II.D.5 reporting requirements for the current proceeding and neither party concedes any issues with respect to the current Order to Show Cause. Because it is part of the overall Settlement Agreement, CAW and ORA agree that the compromise interpretation cannot be used as precedent or for the purposes of the current Order to Show Cause.

CALIFORNIA-AMERICAN WATER COMPANY
APPLICATION 13-07-002
2013 GENERAL RATE CASE
ATTACHMENT A-6
GENERAL GUIDELINES FOR MONTEREY RATE DESIGN & COST OF SERVICE

Cost of Service Description – Monterey system, excluding Toro & Garrapata[1]

- To calculate 2015 rates, California American Water starts with the authorized base revenue requirement for Monterey. This includes the following systems; Main, Bishop, Hidden Hills, Ryan Ranch, Ambler, Ralph Lane and Chualar.
- Prior authorized costs related to the Regional Desalination Project are added to the base revenue requirement to reach a total revenue requirement and rate base for the Monterey water system, less Garrapata and Toro.
- To develop a revenue requirement – and rate design - for the Monterey Main System (including Bishop, Hidden Hills & Ryan Ranch) – you would need to exclude the following revenues from the calculation;
    - Revenues for private fire service and hydrants,
    - Other miscellaneous service revenue items such as returned check fees, reconnection fees and other non-direct water service fees, and
    - Revenues for Ambler, Ralph Lane, Chualar, and Other Water Utilities

- After the elimination of the revenues as noted above - the remaining revenue is the final revenue requirement that is distributed across the Monterey Main (including Bishop, Hidden Hills & Ryan Ranch) customers in accordance with the rate design parameters approved in D.13-07-041, adjusted for consumption and other factors from this proceeding.
- As footnoted below - the revenue requirements for Toro and Garrapata are calculated separately and kept independent of each other and the rest of Monterey.
- There was no separate cost of service done that fully identifies operating revenue, expenses and rate base by system – except for Garrapata and Toro. The 2015 revenue requirement for Ralph Lane and Chualar were calculated by taking the 2014 present rates agreed to in this proceeding and increasing them by the overall revenue percentage increase 2015 for Monterey.
- The Step rate increases for Chualar in 2016 and 2017 are developed by simply adding inflation (based on CPI) to rates adopted in the previous year. The Step rates for Ralph will be calculated by increasing the base rates by the overall step percentage increase in 2016 and 2017.

[1] The cost of service and revenues are held completely separate for Garrapata and Toro

Notes on Larkfield

1) Amount shown in Well #6 represents the monitoring well that was agreed to as part of the settlement in D.10-06-038. Dollars associated with the land that the monitoring well sits on is included in PUC plant account 306 Land & Land rights for $41,359. Any other dollars for this project are currently not part of rate base.
2) Faught Road Well - Approximately $212k in CWIP, project estimated to cost $2,390,000 plus interest.

(1) Excludes applicable taxes and reflects surcharge items reviewed and agreed to in this proceeding. Certain surcharges were calculated based on an estimate of Dec 31, 2014 ending balances. Where applicable, the balances will be updated to reflect recorded data when the decision is approved and advice letters are filed. For the purpose of this presentation, other surcharges authorized outside of this proceeding were held constant at current levels and may be subject to adjustment at a later date.

(2) Monterey main and Ambler bills include surcharges that are added to the base rates. For the purposes of this presentation, these surcharges were held constant at current levels, but may be subject to adjustment at a later date.

CALIFORNIA AMERICAN WATER

2013 GENERAL RATE CASE

D. XX-XX-XXX

Attachment E-1 For Settlement

Preliminary Statement

PRELIMINARY STATEMENT
(Continued)

X. Affiliate Transaction Rule IV.D.2 Memorandum Account ("ATRMEMO")

1. PURPOSE:
The purpose of the Affiliate Transaction Rule IV.D.2 Memorandum Account ("ATRMEMO") is to track the fees paid to the utility for the transfer, assignment, or employment of an employee by an affiliate in compliance with Affiliate Transaction Rule IV.D.2. California American Water was granted authority to establish this memorandum account by Ordering Paragraph 8 of Decision (D.) 10-10-019, which adopted the Rules for Water and Sewer Utilities Regarding Affiliate Transactions and the Use of Regulated Assets for Non-Tariffed Utility Services. California American Water was granted authority to continue this account in Decision (D.) XX-XX-XXX.

2. APPLICABILITY:
All areas served by California American Water.

3. ACCOUNTING PROCEDURE:
Rule IV.D.2 provides that fees paid shall be accounted for in a separate memorandum account which tracks them for future ratemaking treatment either on an annual basis, or as otherwise necessary to ensure that the utility's ratepayers receive the fees.
   a. A credit entry will be made to a regulatory liability account for transfer fees.
   b. A debit entry will be made to transfer the balances to the appropriate district Consolidated Expense Balancing Account's (CEBA) upon Commission approval.

4. RATEMAKING PROCEDURE:
There is currently no ratemaking component to the memorandum account. Requests for recovery of any balance are to be processed according to General Order 96-B and Standard Practices or otherwise determined in a Commission decision. Upon Commission review and approval, ATRMEMO balances shall be transferred to the district CEBA's for refund. California American Water will apply the fees, proportionally based upon the customer service connections, to the applicable district(s) affected by such transfer, assignment or employment.

PRELIMINARY STATEMENT
(Continued)

This is a placeholder statement. It is anticipated this will be removed when the advice letter is filed

X. Aquifer Storage and Recovery ("ASR") Well 4 Memorandum Account

1. PURPOSE:
   The purpose of the Memorandum Account is to record the costs, not to exceed $4.7 million, for ASR well 4 to be constructed at the Seaside Middle school site. California American Water was granted authority to continue the memorandum account in D.XX-XX-XXX. Any costs for well ASR-4 that exceed the cap of $4.7 million may be presented to the Commission for reasonableness review and ratemaking consideration in a Tier 3 advice letter or in the Utility's next general rate case.

2. APPLICABILITY:
   The Monterey County District.

3. ACCOUNTING PROCEDURE:
   The following entries will be recorded to the memorandum account:
   a. A debit entry for recorded costs associated with the Aquifer Storage and Recovery ("ASR") Project.
   b. Upon completion and approval through a Tier 2 advice letter, a credit entry equal to the amount that shall be transferred to rate base.

4. RATEMAKING PROCEDURE:
   There is currently no ratemaking component to the memorandum account. Requests for recovery of any balance are to be processed according to General Order 96-B and Standard Practices or requested in a general rate case.

PRELIMINARY STATEMENT
(continued)

X. Catastrophic Event Memorandum Account ("CEMA")

1. PURPOSE:

The purpose of the CEMA is to recover the costs resulting from a catastrophic event declared a disaster or state of emergency by competent federal or state authorities. These costs can include but are not limited to expenses related to the restoration of service and California American Water facilities affected by the catastrophic event. California American Water was granted authority for this account in CPUC Resolution E-3238, dated July 24, 1991.

Should a disaster occur, California American Water will inform the Executive Director of the CPUC by letter within 30 days after the catastrophic event that California American Water has started booking costs in the CEMA.

The letter shall specify the declared disaster, date, time, location, service area affected, impact on California American Water's facilities, and an estimate of the extraordinary costs expected to be incurred, with costs due to expenses and capital items shown separately.

California American Water shall not record any capital costs or expenses incurred prior to the start of the declared disaster or state of emergency, as identified by the appropriate Authorities, pursuant to Government Code Sections 8558, 8588, and 8625, or comparable federal authority.

Descriptions of the terms and definitions used in this section are found in Rule 1.

2. APPLICABILITY:

The CEMA balance will be recovered from all customer classes, except those specifically excluded by the CPUC.

3. CEMA RATES:

The CEMA does not currently have a rate component. Any balance in the CEMA will be recovered in rates after CPUC review and audit of the recorded CEMA balance.

4. ACCOUNTING PROCEDURE: Upon declaration of a disaster or state of emergency, California American Water shall maintain the CEMA from the date of the event causing the disaster occurred by making entries to this account at the end of each month as follows:

a. A debit entry equal to the amounts recorded in California American Water's Operations and Maintenance, and Administrative and General Expense Accounts that were incurred as a result of the disaster and related events.

b. A debit entry equal to:

1) depreciation expense on the average of the beginning and the end-of-month balance of plant installed to restore service to customers, or to replace, repair, or restore any plant or facilities, or to comply with government agency orders, in connection with events declared disasters, at one-twelfth the annual depreciation rates approved by the CPUC for these plant accounts; plus

2) the return on investment on the average of the beginning and the end-of-month balance of plant installed to restore service to customers or replace, repair, or restore any plant or facilities, or to comply with government agency orders, in connection with events declared disasters, at one-twelfth of the annual rate of return on investment last adopted for California American Water's Water Department by the CPUC; plus

PRELIMINARY STATEMENT
(continued)

3) the return on the appropriate allowance for working capital using calculations last adopted by the CPUC for the Water Department, and the return in G.4.b.2 above; plus
4) the return on net cost of removal of facilities required as a result of the disaster and related events, using the rate of return in G.4.b.2 above; less
5) the return on the average of beginning and end-of-month accumulated depreciation, and on average accumulated net deferred taxes on income resulting from the normalization of federal tax depreciation, using the rate of return in G.4.b.2 above.

c. A debit entry equal to federal and state taxes based on income associated with item G.4.b above, calculated at marginal tax rates currently in effect. This will include all applicable statutory adjustments. For federal and state taxes, this will conform to normalization requirements as applicable. Interest cost will be at the percentage of net investment last adopted by the CPUC with respect to California American Water.

d. A credit entry to transfer all or a portion of the balance in this CEMA to other adjustment clauses for future rate recovery, as may be approved by the CPUC.

e. An entry equal to interest on the average balance in the account at the beginning of the month and the balance after the entries from G.4.a through G.4.c above, at a rate equal to one twelfth the interest rate on three-month Commercial Paper for the previous month, as reported in the Federal Reserve Statistical Release, G.13, or its successor. Entries in items G.4.a and G.4.b above, shall be made net of the appropriate insurance proceeds. Items G.4.a, G.4.b, and the appropriate determinants of item G.4.c above, in any month, shall be pro-rated to reflect the latest jurisdictional allocation factors.

5. FINANCIAL REPORTING: California American Water may, at its discretion, record the balance in the CEMA as a deferred debit on its balance sheet with entries to the appropriate income statement accounts, as necessary.

PRELIMINARY STATEMENT

X. California American Water Conservation Surcharge ("CAWCS") Balancing Accounts

1. PURPOSE:
   The purpose of the CAWCS Balancing Accounts is to track conservation-related expenses and surcharges associated with California American Water's conservation efforts. The balancing account shall be capped at $5,950,302 for the three year period from January 1, 2015 through December 31, 2017. California American Water was granted authority to continue this account in Decision (D.) XX-XX-XXX.

2. APPLICABILITY:
   All ratemaking areas included in Application A.13-07-002 covering the years 2015-2017

3. ACCOUNTING PROCEDURE:
   The following entries will be recorded to the balancing account:
   a. A debit entry equal to the amounts spent as part of conservation efforts
   b. A credit entry equal to the amounts collected through surcharges as part of conservation efforts
   c. This is a one-way balancing account, whereby California American Water will refund customers through the appropriate district CEBA:
      i. Amounts that were collected as part of the authorized conservation budget, but were not spent and/or
      ii. Amounts collected in excess of the authorized conservation budget for each district.
      iii. Any amounts subject to refund will be amortized after the end of the district's rate case period.

4. RATEMAKING PROCEDURE:
   One-way conservation program dollars remain funded through a separate surcharge and tracked, along with related expenses, in the Conservation Surcharge Balancing Accounts. The dollars funded begin with the start of the rate case cycle and continue through the end of the cycle. Upon Commission review and approval, balances shall be transferred to the appropriate district CEBA's for refund after the end of the rate case cycle.

PRELIMINARY STATEMENT
(continued)

X. Cease and Desist Order Memorandum Account ("CDOMA")

1. PURPOSE:
The purpose of the Cease and Desist Order Memorandum Account ("CDOMA") is to track outside legal counsel; experts needed to represent California American Water in administrative proceedings; temporary legal measures regarding stays of the CDO; court appeals related to any final CDO adopted by the SWRCB; challenges, clarifications, and/or compliance with the CDO including any additional or more stringent conservation and reporting activities, the development and obtainment of water supply and water rights; and any and all other immediate activities beyond those approved in the general rate case related to the CDO to address the State Water Resources Control Board ("SWRCB") Cease and Desist Order for unauthorized diversion of water from the Carmel River in the Monterey District. California American Water was granted authority to continue this balancing in Decision (D.) XX-XX-XXX.

2. APPLICABILITY:
The Monterey County District Main Service Area

3. ACCOUNTING PROCEDURE:
The following entries shall be recorded to the memorandum account:
   a. A debit entry will be created each month to record expenses associated with the SWRCB CDO.
   b. A debit or credit entry equal to interest on the balance in the account at the beginning of the month and half the balance after the above entries, at a rate equal to one-twelfth of the rate on 90 day non-financial Commercial Paper, as reported in the Federal Reserve Statistical Release, H.15 or its successor.
   c. A credit entry will be made to transfer the balances to the appropriate district Consolidated Expense Balancing Account's (CEBA) upon Commission approval.

4. RATEMAKING PROCEDURE:
There is currently no ratemaking component to the memorandum account. Requests for recovery of any balance are to be processed according to General Order 96-B and Standard Practices or otherwise determined in a Commission decision. Upon Commission review and approval, balances shall be transferred to the appropriate district CEBA's for recovery/refund.

PRELIMINARY STATEMENT
(continued)

X. Coastal Water Project Memorandum Account

1. PURPOSE:

   The purpose of the Coastal Water Project Memorandum Account is to track costs associated with the development of a new water supply in the Monterey County District. California American Water was granted a memorandum account in Decision No. 03-09-022. Per Decision No. 11-09-039 interest is to accrue at 4%.

2. APPLICABILITY:
   The Monterey County District Main, Hidden Hills, Ryan Ranch, and Bishop Service Areas

3. ACCOUNTING PROCEDURE:
   The following entries will be recorded to the memorandum account:
   a. A debit entry equal to the amount of costs associated with the Coastal Water Project
   b. A credit entry equal to the amount of surcharge collected to offset the costs associated with the Coastal Water Project.
   c. A debit or credit entry equal to interest on the balance in the account at the beginning of the month and half the balance after the above entries, at a rate equal to 4%.

4. RATEMAKING PROCEDURE:
   The Special Request 1 Surcharge shall remain at the 15% level until the full amount authorized for preconstruction costs is collected.

PRELIMINARY STATEMENT
(Continued)

X. Consolidated Expense Balancing Account (CEBA)

1. PURPOSE:
   The purpose of the Consolidated Expense Balancing Account is to consolidate the amortization of Commission approved balancing and memorandum accounts where appropriate. California American Water was granted authority to continue this balancing account in Decision (D.) XX-XX-XXX.

2. APPLICABILITY:
   Applicable districts served by California American Water.

3. ACCOUNTING PROCEDURE:
   The following entries will be recorded to the CEBA:
   a. Authorized balancing or memorandum account under collections will be credited from the current account and debited to the CEBA.
   b. Authorized balancing or memorandum account over collections will be debited from the current account and credited to the CEBA.
   c. Any surcharge collections will be applied as a credit to the overall balance.
   d. Any surcredits will be applied as a debit to the overall balance.
   e. A debit or credit entry equal to interest on the balance in the account at the beginning of the month and half the balance after the above entries, at a rate equal to one-twelfth of the rate on 90 day Commercial Paper, as reported in the Federal Reserve Statistical Release, H.15 or its successor.

4. RATEMAKING PROCEDURE:
   The CEBA is recoverable through a Tier 1 advice letter filing. If the net CEBA balance after incremental transfers is under collected, the account will be amortized by applying a uniform volumetric surcharge. If the net CEBA balance after incremental transfers is over collected, the net over collection shall be amortized and credited to the service charge of all customers, based upon the meter equivalent size of the service connection.

PRELIMINARY STATEMENT
(continued)

X. Emergency Rationing Costs Incurred by CAW Memorandum Account

1. PURPOSE:

   The purpose of this memorandum account is to track increased expenses that California American Water would incur in its Monterey County District in the event that rationing is implemented under the Monterey Peninsula Water Management District's (MPWMD) Ordinance No. 92. Ordinance No. 92 is an expanded water conservation and standby water-rationing plan whose implementation requires both California American Water and MPWMD to engage in activities to promote, monitor and enforce its terms. The account shall also capture costs of MPWMD that are considered reasonable and prudent. California American Water was granted authority to continue this account in Decision (D.) XX-XX-XXX.

2. APPLICABILITY:

   The Monterey County District Main, Hidden Hills, Ryan Ranch, and Bishop Service

3. ACCOUNTING PROCEDURE:

   Upon implementation of rationing, California American Water shall maintain the account from the date of declaration by making entries at the end of each month as follows:

   a. A debit entry to record expenses associated with the emergency rationing.
   b. A debit or credit entry equal to interest on the balance in the account at the beginning of the month and half the balance after the above entries, at a rate equal to one-twelfth of the rate on 90 day non-financial Commercial Paper, as reported in the Federal Reserve Statistical Release, H.15 or its successor.
   c. A credit entry to transfer all or a portion of the balance in this account to other adjustment clauses for future rate recovery, as may be approved by the CPUC.

4. RATEMAKING PROCEDURE:

   There is currently no ratemaking component to the memorandum account. Requests for recovery of any balance are to be processed according to General Order 96-B and Standard Practices or otherwise determined in a Commission decision.

PRELIMINARY STATEMENT
(Continued)

X. Endangered Species Act ("ESA") Memorandum Account

1. PURPOSE:
   The purpose of the ESA Memorandum Account is to track costs incurred for compliance with Endangered Species Act ("ESA") requirements, except for ESA compliance costs associated with the San Clemente Dam. California American Water was granted authority to continue its memorandum account for ESA costs in Decision D.XX-XX-XXX.

2. APPLICABILITY:
   The Monterey County District Main Service Area

3. ACCOUNTING PROCEDURE:
   The following entries will be recorded to the memorandum account:
   a. A debit entry equal to the costs associated with ESA compliance.
   b. A debit or credit entry equal to interest on the balance in the account at the beginning of the month and half the balance after the above entries, at a rate equal to one-twelfth of the rate on 90 day non-financial Commercial Paper, as reported in the Federal Reserve Statistical Release, H.15 or its successor.
   c. Fines related to ESA may not be tracked in this account.
   d. A credit entry will be made to transfer the balances to the appropriate district Consolidated Expense Balancing Account's (CEBA) upon Commission approval.

4. RATEMAKING PROCEDURE:
   There is currently no ratemaking component to the memorandum account. Requests for recovery of any balance are to be processed according to General Order 96-B and Standard Practices or otherwise determined in a Commission decision. Upon Commission review and approval, balances shall be transferred to the appropriate district CEBA's for recovery/refund.

PRELIMINARY STATEMENT

GARRAPATA SERVICE AREA OF MONTEREY COUNTY DISTRICT

Memorandum Accounts

The following memorandum accounts were originally established by Garrapata Water Company and are only applicable to the Garrapata service area of Monterey County District. The purpose of these accounts is to recover costs not anticipated in rates. The balance in these accounts will be recovered in rates after CPUC review and audit of the reasonableness of the costs recorded therein. The accounts are listed with the authorizing CPUC Resolution, Decision or Public Utilities Code (PU Code). Additional description can be found in the authorizing document (s).

1. Unanticipated Repair Cost Memorandum Account (URCMA), Decision 92-03-093, dated March 31, 1992.
2. Infrastructure Act Memorandum Account (IAMA), Decision 06-05-041, dated May 25, 2006 and PU Code 789. Note: This account is established to track gains on real property.
3. Water Contamination Litigation Expense Memorandum Account, Resolution W-4094, dated March 26, 1998.

Balancing Accounts

The following balancing accounts were originally established by Garrapata Water Company and are only applicable to the Garrapata service area of Monterey County District. The purpose of these accounts is to track changes in costs for the named expense category. The balance in these accounts will be recovered in rates after CPUC review and audit of the costs recorded therein. The accounts are listed with the authorizing CPUC Resolution, Decision or Public Utilities Code (PU Code).

4. Purchased Power, Resolution W-4467, April 22, 2004.
5. Purchased Water, Resolution W-4467, April 22, 2004.
6. Pump Tax, Resolution W-4467, April 22, 2004.
7. Payroll, Resolution W-4467, April 22, 2004.
8. Payroll Taxes, Resolution W-4467, April 22, 2004.
9. Contract Labor, Resolution W-4467, April 22, 2004. Note: Restricted to the Operational and Maintenance portion of contract labor.
10. Water Quality Balancing Account (WQBA), Resolution W-4698, July 31, 2008.
11. California Department of Public Health User Fees Balancing Account (UFBA), Resolution W-4698, July 31, 2008. Note: Pertains to fees that are billed under Section 4019.10, superseded by Sections 116590 and 116595 of the California Health and Safety Code.

PRELIMINARY STATEMENT
(Continued)

X. Leak Adjustments Memorandum Account (LAMA)

1. PURPOSE:
   The purpose of the Leak Adjustments Memorandum account is to track revenue collection shortfalls attributable to California American Water's customer billing adjustment program beginning February 26, 2013 and ending December 31, 2014. California American Water was granted a memorandum account in Resolution W-4951.

2. APPLICABILITY:
   All customers in the Monterey County District.

3. ACCOUNTING PROCEDURE:
   The following entries will be recorded to the memorandum account.
   a. A debit entry equal to the customer billing adjustments provided by the Company through its customer billing adjustment program.
   b. A debit or credit entry equal to interest on the balance in the account at the beginning of the month and half the balance after the above entries, at a rate equal to one-twelfth of the rate on 90 day Commercial Paper, as reported in the Federal Reserve Statistical Release, H.15 or its successor
   c. A credit entry will be created once recovery is later determined by the Commission.

4. RATEMAKING PROCEDURE:
   There is currently no ratemaking component to the memorandum account. Requests for recovery of any balance are to be processed according to General Order 96-B and Standard Practices or otherwise determined in a Commission decision. The memorandum account will be closed for recording new entries, with the exception of interest, on the last day of California American Water's current GRC cycle (December 31, 2014).

PRELIMINARY STATEMENT
(Continued)

X. Low-Income Ratepayer Assistance ("LIRA") Program Memorandum Account

1. PURPOSE:
   The purpose of the LIRA Memorandum Account is to track revenues lost as a result of customer usage of the LIRA Program and incurred costs as a result of mailings and other program setup requirements. California American Water was granted authority to continue this account in Decision (D.) XX-XX-XXX until the approval of the LIRAP balancing account through the advice letter process.

2. APPLICABILITY:
   All districts served by California American Water.

3. ACCOUNTING PROCEDURE:
   The following entries will be recorded to the memorandum account through at least December 31, 2014 and until the approval of the LIRA balancing account through the advice letter process:
   a. A debit entry equal to the amounts spent on activities associated with the program.
   b. A debit entry equal to the recorded reduction in billed service charge revenue that results from providing the discount to qualified customers.
   c. A debit or credit entry equal to interest on the balance in the account at the beginning of the month and half the balance after the above entries, at a rate equal to one-twelfth of the rate on 90 day non-financial Commercial Paper, as reported in the Federal Reserve Statistical Release, H.15 or its successor.
   d. A credit entry will be made to transfer the balances to the appropriate district Consolidated Expense Balancing Account's (CEBA) upon Commission approval.

4. RATEMAKING PROCEDURE
   There is currently no ratemaking component to the memorandum account. Requests for recovery of any balance are to be processed according to General Order 96-B and Standard Practices or otherwise determined in a Commission decision. Upon Commission review and approval, balances shall be transferred to the appropriate district CEBA's for recovery/refund.

PRELIMINARY STATEMENT
(Continued)

X. Low-Income Ratepayer Assistance Program ("LIRAP") Balancing Account

1. PURPOSE:
   The purpose of the LIRAP Balancing Account is to track the LIRAP discounts provided, the LIRAP surcharges collected, and to adjust the LIRAP surcharges on January 1 of each year. The surcharge will be applicable to all non-low income water and wastewater customers. California American Water was granted authority to establish this account in Decision (D.) XX-XX- XXX.

2. APPLICABILITY:
   All areas served by California American Water.

3. ANNUAL SURCHARGE ADJUSTMENT:
   The surcharge will be evaluated and adjusted annually in the annual Step rate filings and will reflect:
   a. A forecast of the December 31st balance in the LIRAP for the current year that reflects:
      i. the most recent recorded balance;
      ii. the assumption that the proportion of LIRAP to non-LIRAP residential enrollment in September will remain constant as a proportion of adopted numbers for October through December; and
      iii. the assumption that current LIRAP surcharges will be applied to the estimated non-LIRAP portion of adopted sales (adopted sales minus estimated LIRAP sales based on the proportion of LIRAP to non-LIRAP residential customers in September), plus interest; and
   b. A forecast of the December 31 balance in the LIRAP for the following year that reflects:
      i. the assumption that the proportion of LIRAP to non-LIRAP residential enrollment in September of the previous year will remain constant as a proportion of adopted numbers; and
      ii. the assumption that the new surcharges will be applied to the estimated non-LIRAP portion of adopted sales (adopted sales minus estimated LIRAP sales based on the proportion of LIRAP to non-LIRAP residential customers in September of the previous year), plus interest.

4. ACCOUNTING PROCEDURE:
   The following entries will be recorded effective with the date of Decision (D.) XX-XX-XXX:
   a. A debit entry equal to the recorded customer discounts.
   b. A credit entry equal to the surcharges collected from the customers not qualified to participate in the LIRAP.
   c. A debit or credit entry equal to interest on the balance in the account at the beginning of the month and half the balance after the above entries, at a rate equal to one-twelfth of the rate on 90 day non-financial Commercial Paper, as reported in the Federal Reserve Statistical Release, H.15 or its successor.

PRELIMINARY STATEMENT
(Continued)

5. RATEMAKING PROCEDURE:
Low income discount of 20% shall be applied to all monthly service fees, the tier one billed usage amount and the tier two usage amount. Surcharges will be evaluated and adjusted annually in the annual Step rate filings to ensure appropriate collection.

PRELIMINARY STATEMENT
(Continued)

Main San Gabriel Groundwater Basin Contamination Memorandum Account ("MSGGBCMA")

1.) PURPOSE:
The purpose of the Main San Gabriel Groundwater Basin Contamination Memorandum Account ("MSGGBCMA") to track all costs incurred by California American Water to respond to, mitigate, or control contamination in the Main San Gabriel Groundwater Basin, including but not limited to, additional sampling, pumping modifications, engineering consultant fees, permitting costs, treatment facilities, government agency coordination, and legal fees. California American Water was granted authority to continue this account in Decision (D.) XX-XX-XXX.

2.) APPLICABILITY:
The Los Angeles County District San Marino Service Area

3.) ACCOUNTING PROCEDURE:
California American Water shall track all MSGGBCMA related costs paid by California American Water including, but not limited to, the cost of additional sampling, pumping modifications, engineering consultant fees, permitting costs, treatment facilities, government agency coordination, and legal fees related to contamination in the Man San Gabriel Groundwater Basin.

California American Water shall maintain the MSGGBCMA by making entries as follows:

a.) A debit entry will be created each month to record incurred costs.

b.) A credit entry will be created to reflect any proceeds received from responsible parties or government agencies to offset recorded costs. California American Water will account for contamination proceeds as required by Commission decisions, including D.10-10-018.

c.) A debit entry equal to interest on the balance in the account at the beginning of the month and half the balance after the above entry (a.) , at a rate equal to one-twelfth of the rate on three month Commercial Paper, as reported in the Federal Reserve Statistical Release, H.15 or its successor.

4.) RATEMAKING PROCEDURE:
There is currently no ratemaking component to the memorandum account. Requests for recovery of any balance are to be processed according to General Order 96-B and Standard Practices or otherwise determined in a Commission decision.

PRELIMINARY STATEMENT
(Continued)

X. Monterey Wastewater Purchased Power Expense Balancing Account

1. PURPOSE:
   The purpose of the Monterey Wastewater Purchased Power Expense Balancing Account is to track differences in purchased power expenses based upon changes in recorded unit prices versus adopted. California American Water was granted authority to continue this account in Decision (D.) XX-XX-XXX.

2. APPLICABILITY:
   All customer classes of the Monterey Wastewater District

3. ACCOUNTING PROCEDURE:
   The following entries shall be recorded to the balancing account:
   a. A debit entry will be created each month to record expenses associated with the account. The expenses are determined as follows:
      1) Difference between recorded and adopted unit costs for purchased power and pump taxes.
      2) Multiply the difference in (1) by the recorded quantities.
   b. A debit or credit entry equal to interest on the balance in the account at the beginning of the month and half the balance after the above entries, at a rate equal to one-twelfth of the rate on 90 day non-financial Commercial Paper, as reported in the Federal Reserve Statistical Release, H.15 or its successor.
   c. A credit entry will be made to transfer the balances to the district's Consolidated Expense Balancing Account (CEBA) upon Commission approval.

4. RATEMAKING PROCEDURE:
   There is currently no ratemaking component to the balancing account. Requests for recovery of any balance are to be processed according to General Order 96-B and Standard Practices or otherwise determined in a Commission decision. Upon Commission review and approval, balances shall be transferred to the appropriate district CEBA's for recovery/refund.

PRELIMINARY STATEMENT
(Continued)

X. Carmel River Mitigation Program Balancing Account

1. PURPOSE:
   The purpose of the Balancing Account is to track costs related to the Interim Implementation Agreement for the Carmel River Mitigation Program. Per the agreement, California American Water reimburses the Monterey Peninsula Water Management District (MPWMD) for its work on the program. It also contains the balance of previously recorded and transferred costs from the MPWMD User Fee Memorandum Account. California American Water was granted authority to continue this account in Decision (D.) XX-XX- XXX.

2. APPLICABILITY:
   The Monterey County District Main, Hidden Hills, Ryan Ranch, and Bishop Service Areas

3. ACCOUNTING PROCEDURE:
   The following entries will be recorded to the balancing account:
   a. A debit entry will be created each month to record expenses associated with the agreement.
   b. A debit or credit entry equal to interest on the balance in the account at the beginning of the month and half the balance after the above entries, at a rate equal to one-twelfth of the rate on 90 day Commercial Paper, as reported in the Federal Reserve Statistical Release, H.15 or its successor.
   c. A credit entry equal to the amount of surcharge collected to offset the costs associated with the program.

4. RATEMAKING PROCEDURE:
   The annual costs of the program are $2,367,219 in 2015, $2,456,888 in 2016 and $2,580,129 in 2017. These costs are capped annually at the listed amounts and will be collected through a surcharge applied against the meter and total tiered rates.

PRELIMINARY STATEMENT
(Continued)

X. Monterey Peninsula Water Management District (MPWMD) Conservation Balancing Account

1. PURPOSE:
   The MPWMD Conservation Balancing Account is a one-way balancing account to track conservation-related expenses, surcharges and credits connected to MPWMD's conservation program. The balancing account shall be capped at $899,000 for the three year period from January 1, 2015 through December 31, 2017. California American Water was granted authority to continue this account in Decision (D.) XX-XX-XXX.

2. APPLICABILITY:
   The Monterey County District Main, Hidden Hills, Ryan Ranch, and Bishop Service Areas

3. ACCOUNTING PROCEDURE:
   The following entries will be recorded to the balancing account:
   a. A debit entry equal to the amounts spent as part of the program
   b. A credit entry equal to the amounts collected through surcharges
   c. This is a one-way balancing account, whereby California American Water will refund customers through the appropriate district CEBA:
      i. Amounts that were collected as part of the authorized conservation budget, but were not spent and/or
      ii. Amounts collected in excess of the authorized conservation budget.
      iii. Any amounts subject to refund will be amortized after the end of the rate case period.

4. RATEMAKING PROCEDURE:
   One-way conservation program dollars remain funded through a separate surcharge and tracked, along with related expenses, in the MPWMD Conservation Balancing Account. The dollars funded begin with the start of the rate case cycle and continue through the end of the cycle. Upon Commission review and approval, balances shall be transferred to the appropriate district CEBA's for refund.

PRELIMINARY STATEMENT
(Continued)

X. National Oceanic and Atmospheric Administration Endangered Species Act ("NOAA/ESA") Memorandum Account

1. PURPOSE:
   The purpose of the NOAA Memorandum Account is to track compliance payments made by California American Water to the United States Department of Commerce National Oceanic Atmospheric Administration ("NOAA"), or its designated payee, for Federal Endangered Species Act ("ESA") mitigation. The account shall remain open through the end of the agreement, July 1, 2016. In the event the NOAA agreement is extended beyond 2016 due to delays in the water supply project, California American Water may file a Tier 2 advice letter to request such costs be included in the account. California American Water was granted authority to continue this account in Decision (D.) XX-XX-XXX.

2. APPLICABILITY:
   The Monterey County District Main Service Area

3. ACCOUNTING PROCEDURE:
   The following entries will be recorded to the memorandum account:
   a. A debit entry equal to each compliance payment made in connection with the NOAA settlement.
   b. A debit or credit entry equal to interest on the balance in the account at the beginning of the month and half the balance after the above entries, at a rate equal to one-twelfth of the rate on 90 day Commercial Paper, as reported in the Federal Reserve Statistical Release, H.15 or its successor.
   c. A credit entry will be made to transfer the balances to the appropriate district Consolidated Expense Balancing Account's (CEBA) upon Commission approval.

4. RATEMAKING PROCEDURE:
   There is currently no ratemaking component to the memorandum account. Requests for recovery of any balance are to be processed according to General Order 96-B and Standard Practices or otherwise determined in a Commission decision. Upon Commission review and approval, balances shall be transferred to the appropriate district CEBA's.

PRELIMINARY STATEMENT
(Continued)

X. Non-Revenue Water Action Plan Memorandum Account (NRWAPMA)

1. PURPOSE:
   The purpose of the Non-Revenue Water Action Plan Memorandum account is to track costs related to engineering and financial evaluation and studies of measures to reduce non-revenue water in each district. California American Water was granted authority to continue this account in Decision (D.) XX-XX-XXX.

2. APPLICABILITY:
   All districts served by California American Water.

3. ACCOUNTING PROCEDURE:
   The following entries will be recorded to the memorandum account:
   a. A debit entry equal to the amounts spent on the costs related to engineering and financial evaluation and studies of measures to reduce non-revenue water in each district.
   b. A debit or credit entry equal to interest on the balance in the account at the beginning of the month and half the balance after the above entries, at a rate equal to one-twelfth of the rate on 90 day Commercial Paper, as reported in the Federal Reserve Statistical Release, H.15 or its successor.
   c. A credit entry will be made to transfer the balances to the appropriate district Consolidated Expense Balancing Account's (CEBA) upon Commission approval.

4. RATEMAKING PROCEDURE:
   There is currently no ratemaking component to the memorandum account. Requests for recovery of any balance are to be processed according to General Order 96-B and Standard Practices or otherwise determined in a Commission decision. Upon Commission review and approval, balances shall be transferred to the appropriate district CEBA's. California American Water will apply the costs, proportionally based upon the number of customer service connections, to the applicable district(s).

PRELIMINARY STATEMENT
(continued)

X. Old Monterey Style Water Revenue Adjustment Mechanism ("Old WRAM") Balancing Account

1. PURPOSE:
The Old Monterey Style Water Revenue Adjustment Mechanism ("WRAM") Balancing Account was first approved in D.96-12-050 in conjunction with the rate design effective in Monterey at that time. This WRAM differs from the current WRAM account adopted in D.09-07-021, in that its purpose was to track the difference between revenues that would have been collected under the Commission's standard rate design and the tiered conservation rate design actually implemented. The purpose of the balancing account is to recover the Old WRAM amounts approved in Advice Letter 987. California American Water was granted authority to continue this account in Decision (D.) XX-XX-XXX.

2. APPLICABILITY:
The Monterey County District Main Service Area

3. ACCOUNTING PROCEDURE:
The following entries shall be recorded to the balancing account:
   a. A credit entry equal to the amount of volumetric surcharges collected to offset the approved balance.
   b. A debit or credit entry equal to interest on the balance in the account at the beginning of the month and half the balance after the above entries, at a rate equal to one-twelfth of the rate on 90 day non-financial Commercial Paper, as reported in the Federal Reserve Statistical Release, H.15 or its successor.

4. RATEMAKING PROCEDURE:
Any existing balance at the time the surcharge expires on December 31, 2014 shall be reviewed in a Tier 2 advice letter filing or otherwise determined in a Commission decision. Upon Commission review and approval, balances shall be transferred to the appropriate district CEBA. Interest will continue to accrue at the 90-day commercial paper rate until the balance is fully recovered.

PRELIMINARY STATEMENT
(Continued)

X. Other Post-Employment Benefits Balancing Account ("OPEBBA")

1. PURPOSE:
   The purpose of the Other Post-Employment Benefits Balancing Account ("OPEBBA") is to track the difference between Commission-authorized OPEB costs and actual OPEB payments calculated according Federal Accounting Standard 106. California American Water was granted authority to continue this account in Decision (D.) XX-XX-XXX.

2. APPLICABILITY:
   All areas served by California American Water

3. ACCOUNTING PROCEDURE:
   The following entries will be recorded to the memorandum account:
   a. The OPEBBA shall be calculated monthly. The calculation shall be the expense difference of the adopted costs and the actual required payments.
   b. A debit or credit entry will be created each month to record the expense difference discussed above.
   c. A debit or credit entry equal to interest on the balance in the account at the beginning of the month and half the balance after the above entries, at a rate equal to one-twelfth of the rate on 90 day Commercial Paper, as reported in the Federal Reserve Statistical Release, H.15 or its successor.
   d. A credit entry will be made to transfer the balances to the appropriate district Consolidated Expense Balancing Account's (CEBA) upon Commission approval.

4. RATEMAKING PROCEDURE:
   There is currently no ratemaking component to the balancing account. Requests for recovery of any balance are to be processed according to General Order 96-B and Standard Practices or otherwise determined in a Commission decision. Upon Commission review and approval, balances shall be transferred to the appropriate district CEBA's for recovery/refund.

PRELIMINARY STATEMENT
(Continued)

X. Pension Balancing Account ("PBA")

1. PURPOSE:
   The purpose of the Pension Balancing Account ("PBA") is to track the difference between Commission-authorized pension costs and actual pension payments calculated according to ERISA. California American Water was granted authority to continue this account in Decision (D.) XX-XX-XXX.

2. APPLICABILITY:
   All areas served by California American Water

3. ACCOUNTING PROCEDURE:
   The following entries will be recorded to the memorandum account:
   a. The PBA shall be calculated monthly. The calculation shall be the expense difference of the adopted costs and the actual required payments.
   b. A debit or credit entry will be created each month to record the expense difference discussed above.
   c. A debit or credit entry equal to interest on the balance in the account at the beginning of the month and half the balance after the above entries, at a rate equal to one-twelfth of the rate on 90 day Commercial Paper, as reported in the Federal Reserve Statistical Release, H.15 or its successor.
   d. A credit entry will be made to transfer the balances to the appropriate district Consolidated Expense Balancing Account's (CEBA) upon Commission approval.

4. RATEMAKING PROCEDURE:
   There is currently no ratemaking component to the balancing account. Requests for recovery of any balance are to be processed according to General Order 96-B and Standard Practices or otherwise determined in a Commission decision. Upon Commission review and approval, balances shall be transferred to the appropriate district CEBA's for recovery/refund.

PRELIMINARY STATEMENT
(Continued)

X. Purchased Water, Purchased Power and Pump Tax Balancing Account

1. PURPOSE:
The purpose of the Purchased Water, Purchased Power and Pump Tax Balancing Account is to track differences in the aforementioned expenses based upon changes in recorded unit prices versus adopted. California American Water was granted authority to maintain this balancing account in Decision (D.) XX-XX-XXX.

2. APPLICABILITY:
All customer classes of the Sacramento District.

3. ACCOUNTING PROCEDURE:
With the approval of the MCBA in D.XX-XX-XXX, expense entries past December 31, 2014 will no longer be recorded to the account. However, prior balances will remain and interest will continue to accrue until all balances are transferred. The entries are as follows:
   a. A debit entry will be created each month until December 31, 2014 to record expenses associated with the account. The expenses are determined as follows:
      1) Difference between recorded unit cost for purchased water and adopted, including service charges
      2) Multiply difference in (1) by recorded quantities

      3) Difference between recorded unit cost for purchased power and pump taxes and adopted
      4) Multiply difference in (3) by recorded quantities

      5) Total net balance = (2) + (4)
   b. A debit or credit entry equal to interest on the balance in the account at the beginning of the month and half the balance after the above entries, at a rate equal to one-twelfth of the rate on 90 day non-financial Commercial Paper, as reported in the Federal Reserve Statistical Release, H.15 or its successor.
   c. A credit entry will be made to transfer the balances to the appropriate district Consolidated Expense Balancing Account's (CEBA) upon Commission approval.

4. RATEMAKING PROCEDURE:
There is currently no ratemaking component to the balancing account. Requests for recovery of any balance are to be processed according to General Order 96-B and Standard Practices or otherwise determined in a Commission decision. Upon Commission review and approval, balances shall be transferred to the appropriate district CEBA's for recovery/refund.

PRELIMINARY STATEMENT

X. Mandatory Conservation Rationing Implementation Memorandum Account (MCRIMA)

1. PURPOSE:
The MCRIMA will record the operating costs, administration costs and associated fines collected with the implementation of Rule or Schedule No. 14.1in the various California American Water districts. The memorandum account will also track the penalties or fees, which may be imposed by the relevant water agencies, related to California American Water exceeding any assigned allocations. Any additional income generated from the implementation of Rule 14.1 will also be recorded in this memorandum account.

2. APPLICABILITY:
All customer classes, except those specifically excluded by the CPUC.

3. ACCOUNTING PROCEDURE:
The following entries shall go into effect on the effective date of the Advice Letter activating Stage 1 or higher of Schedule 14.1:
   a. A debit entry to record the incremental expenses or penalties paid.
   b. A credit entry to record the income from penalty charges collected.
   c. A debit or credit entry equal to interest on the balance in the account at the beginning of the month and half the balance after the above entries, at a rate equal to one-twelfth of the rate on 90 day non-financial Commercial Paper, as reported in the Federal Reserve Statistical Release, H.15 or its successor.

4. RATEMAKING PROCEDURE:
There is currently no ratemaking component to the memorandum account. Requests for recovery of any balance are to be processed according to General Order 96-B and Standard Practices or otherwise determined in a Commission decision. Upon Commission review and approval, balances shall be transferred to the appropriate district CEBA's for recovery/refund.

PRELIMINARY STATEMENT
(Continued)

X. Sacramento District Voluntary Conservation or Mandatory Rationing Revenue Adjustment Mechanism Memorandum Account.

1. PURPOSE:

The purpose of this Voluntary Conservation or Mandatory Rationing Revenue Adjustment Mechanism Account (VCMRRAMA) is to track impacts of voluntary conservation or mandatory rationing on water revenues for future disposition in the Sacramento district. The Commission has determined that this mechanism is appropriate in coordination with increasing water conservation activities or mandatory rationing required by outside governmental agencies or entities. The water revenues subject to this account is limited to those which may be affected by Rule 14.1 and Schedule 14.1. The account will be effective through December 31, 2014 until the WRAM/MCBA is in effect with the start of the new rate cycle on January 1, 2015

2. APPLICABILITY:

All quantity related rate revenue collected through the water usage charge in the Sacramento district. Generally, eligible revenues include residential, commercial, industrial and public authority customers; and exclude public and private fire protection service, flat rate residential service, and other unmetered miscellaneous revenue.

3. ACCOUNTING PROCEDURE:

The following entries will be recorded to the memorandum account through December 31, 2014:

a. Recorded quantity revenues billed.
b. The most recently adopted quantity revenues adjusted for all subsequent rate increases, reduced by an amount equal to a 20-basis point reduction in the most recently adopted return on equity.
c. Most recently adopted variable expenses for purchased water, pump tax and power.
d. Recorded variable expenses.
e. Total net VCMRRAMA balance = (a – b) + (c – d)
f. A positive (+) balance in the memorandum account reflects a utility over collection to be refunded, while a negative (-) balance reflects a utility under collection to be recovered in rates.
g. The Company will record the accumulated VCMRRAMA balance monthly, by adding its entry in section e above to the prior accumulated monthly balance.
h. A debit or credit entry equal to interest on the balance in the account at the beginning of the month and half the balance after the above entries, at a rate equal to one-twelfth of the rate on 90 day non-financial Commercial Paper, as reported in the Federal Reserve Statistical Release, H.15 or its successor.

4. RATEMAKING PROCEDURE:

There is currently no ratemaking component to the memorandum account. The memorandum account will be closed for recording new entries, with the exception of interest, on the last day of California American Water's current GRC cycle (December 31, 2014). Requests for recovery of any balance are to be processed according to General Order 96-B and Standard Practices or otherwise determined in a Commission decision. Upon Commission review and approval, balances shall be transferred to the appropriate district CEBA's for recovery/refund.

PRELIMINARY STATEMENT
(Continued)

X. Safe Drinking Water State Revolving Fund (SDWSRF) Loan Repayment Balancing Account

1. PURPOSE:
   The purpose of the SDWSRF Loan Repayment Balancing Account is to track recovery of the balance on the SDWSRF loan provided under the American Recovery and Reinvestment Act for SDWSRF projects authorized by Resolution W-4788, dated September 24, 2009.

2. APPLICABILITY:
   Applicable to the Monterey County District Garrapata Service Area

3. ACCOUNTING PROCEDURE:
   California American Water shall use a balancing account to track revenues collected through the SDWSRF surcharge, and payments, including interest, on the SDWSRF loan. The surcharge rates to repay the loan shall last until the loan is fully paid.
   a. A credit entry will be made to a regulatory liability account for surcharges collected.
   b. A debit entry will be made in the same account for payments on the loan.

4. RATEMAKING PROCEDURE:
   The cost of the capital improvements financed through the surcharge shall be excluded from rate base for ratemaking purposes. Changes in future surcharge rates, or refunds, shall be accomplished by advice letter subject to review and approval.

PRELIMINARY STATEMENT
(Continued)

X. San Clemente Dam Balancing Account

1. PURPOSE:
   The purpose of the San Clemente Dam Balancing Account is to track all the authorized and actual expenditures as they are incurred for the Carmel River Reroute and San Clemente Dam Removal Project as authorized in D.12-06-040. This includes, but it not limited to, incurred pre-construction costs, permitting, compliance review and preliminary engineering costs, construction costs, interim dam and environmental safety measures, post-construction mitigation measures, and other application costs.

2. APPLICABILITY:
   Applicable to the Monterey County District Monterey Main, Ryan Ranch, and Bishop service areas.

3. ACCOUNTING PROCEDURE:
   California American Water was granted authority to establish a balancing account which will track actual expenditures for the project as they are incurred. The construction cost cap is $49 million, excluding the pre-construction costs and its related interest, interim dam safety and environmental costs for annual drawdowns and post-construction mitigation costs. The actual balance of the balancing account, less accumulated amortization and associated deferred taxes, will be authorized to earn a return based on the currently authorized cost of capital. The balancing account will be closed at the time the regulatory asset moved into base rates. The balance at that point will remain in the regulatory asset/balancing account and will continue to be collected over the remainder of the twenty year collection period using an updated levelized revenue requirement based on the ending net regulatory asset/balancing account balance, the current authorized cost of capital, the remaining years in the twenty year recovery period, projected deferred taxes, uncollectible account expenses and taxes. The levelized revenue requirement set in base rates may still need to be adjusted periodically for changes in authorized cost of capital or for other items that may be delayed into the account such as the tax benefits of the land donation.

   a. A debit entry will be made for project costs and their associated cost of capital.

   b. A credit will be made for the portion of surcharge collection that represents amortization of project costs. Amortization is calculated subtracting cost of capital, taxes and uncollectable accounts expenses from the total surcharges billed.

4. RATEMAKING PROCEDURE:
   California American Water will recover the revenue requirement of the regulatory/ balancing account through a surcharge in the applicable service areas. The regulatory asset will be moved into base rates on the first day of the first test year following final project review.

PRELIMINARY STATEMENT
(Continued)

X. Sand City Desalination Plant Purchased Water Balancing Account (SCDPPWBA)

1. PURPOSE:
   The purpose of the Sand City Desalination Plant Purchased Water Balancing Account is to track Sand City Desalination Plant production costs and associated recoveries. California American Water was granted authority for the balancing account in Decision D.13-04-015 and authority to maintain this balancing account in Decision (D.) XX-XX-XXX.

2. APPLICABILITY:
   The Monterey County District Main Service Area

3. ACCOUNTING PROCEDURE:
   The authorized price per acre foot is determined as follows:

Repair Costs	$197,379
Other O&M Costs	$99,821
Purchased Power	$168,765
Property Taxes	$68,509
Total Variable Cost	$534,474
Fixed Cost	$414,672
Total Cost	$949,146
Divided by AF	300
Price per AF	$3,164

   The following entries shall be recorded to the balancing account:
   a. A debit entry equal to the authorized price per acre foot above multiplied by the actual number of acre feet delivered less any amounts delivered to Moratorium Exception Service Tariff customers
   b. A credit entry equal to the amount of surcharges collected to offset the costs
   c. An annual true up entry for actual purchased power costs.
   d. A debit or credit entry equal to interest on the balance in the account at the beginning of the month and half the balance after the above entries, at a rate equal to one-twelfth of the rate on 90 day non-financial Commercial Paper, as reported in the Federal Reserve Statistical Release, H.15 or its successor.

4. RATEMAKING PROCEDURE:
   a. Fixed Cost: this amount shall not change for each year over the period of time water is purchased and delivered to the Monterey District for use by District customers, shall not be subject to further review, escalation, or modification, and may in no way be increased to reflect any other cost related to the Sand City Desalination Plant.
   b. Variable Costs: These amounts may be revised by the Commission in subsequent general rate cases.
   c. Actual Purchased Power: Shall be forecasted in each general rate case and trued up annually to actual costs incurred as part of the balancing account adjustment to reflect actual water deliveries.

PRELIMINARY STATEMENT
(Continued)

d. Annual Plant Production: this amount shall not change for each year over the period of time water is purchased and delivered to the Monterey District for use by District customers, shall not be subject to further review, modification, and may in no way be decreased to reflect any operational changes at the Sand City Desalination Plant, but this amount must be increased to reflect increased production at the Plant.

e. Surcharges must provide for recovery of amounts properly recorded in the SCDPPWBA and shall apply to all units of water consumed at the top two tiers of residential service, all volumes of irrigation tariff service, and all non-residential service not in compliance with Best Management Practices in systems subject to the service connection moratorium in Decision 11-03-048.

PRELIMINARY STATEMENT
(continued)

X. Seaside Basin Adjudication Balancing Account

1. PURPOSE:
The purpose of the Seaside Basin Adjudication Balancing Account is to track the surcharge collections and interest associated with the unamortized balance of costs incurred to litigate and secure Seaside Basin water rights. California American Water was granted authority to continue this account in Decision (D.) XX-XX-XXX.

2. APPLICABILITY:
The Monterey County District Main, Hidden Hills, Ryan Ranch, and Bishop Service Areas

3. ACCOUNTING PROCEDURE:
The following entries will be recorded to the balancing account:
   a. A credit entry equal to the amount of surcharges collected to offset the previously recorded costs.
   b. A debit or credit entry equal to interest on the balance in the account at the beginning of the month and half the balance after the above entries, at a rate equal to one-twelfth of the rate on 90 day non-financial Commercial Paper, as reported in the Federal Reserve Statistical Release, H.15 or its successor.

4. RATEMAKING PROCEDURE:
In accordance with Advice Letter 778, effective July 19, 2009, a meter surcharge is assessed on customers in the Monterey Main, Hidden Hills, Ryan Ranch, and Bishop areas to recover $2,755,960 over a ten-year period. This account accrues interest at the 90-day commercial rate.

PRELIMINARY STATEMENT
(Continued)

X. Seaside Groundwater Basin Balancing Account ("SGBA")

1. PURPOSE:
   The SGBA tracks costs associated with Administrative and other payments made to the Seaside Basin Water Master, as well as recovery of such payments from customers in the Monterey County District. California American Water was granted authority to continue this account in Decision (D.) XX-XX-XXX.

2. APPLICABILITY:
   The Monterey County District Main, Hidden Hills, Ryan Ranch, and Bishop Service Areas

3. ACCOUNTING PROCEDURE:
   The following entries will be recorded to the balancing account:
   a. A debit entry equal to the actual costs associated with the administrative and other payments made to the Seaside Basin Water Master.
   b. A credit entry equal to the amount of costs authorized in the revenue requirement per the general rate case.
   c. A debit or credit entry equal to interest on the balance in the account at the beginning of the month and half the balance after the above entries, at a rate equal to one-twelfth of the rate on 90 day non-financial Commercial Paper, as reported in the Federal Reserve Statistical Release, H.15 or its successor.

4. RATEMAKING PROCEDURE:
   There is currently no ratemaking component to the balancing account. Requests for recovery of any balance are to be processed according to General Order 96-B and Standard Practices or otherwise determined in a Commission decision. Upon Commission review and approval, balances shall be transferred to the appropriate district CEBA's for recovery/refund.

PRELIMINARY STATEMENT
(Continued)

X. Seaside Groundwater Basin Memorandum Account ("SGBMA")

1. PURPOSE:
   The purpose of the SGBMA is to track payments made to the Seaside Basin Water Master for replenishment water. California American Water was granted authority to continue this account in Decision (D.) XX-XX-XXX.

2. APPLICABILITY:
   The Monterey County District Main, Hidden Hills, Ryan Ranch, and Bishop Service Areas

3. ACCOUNTING PROCEDURE:
   The following entries shall be recorded to the memorandum account:
   a. A debit entry will be created to capture costs associated with the SGBMA.
   b. A debit or credit entry equal to interest on the balance in the account at the beginning of the month and half the balance after the above entries, at a rate equal to one-twelfth of the rate on 90 day non-financial Commercial Paper, as reported in the Federal Reserve Statistical Release, H.15 or its successor.
   c. A credit entry will be made to transfer the balances to the appropriate district Consolidated Expense Balancing Account's (CEBA) upon Commission approval.

4. RATEMAKING PROCEDURE:
   There is currently no ratemaking component to the memorandum account. Requests for recovery of any balance are to be processed according to General Order 96-B and Standard Practices or otherwise determined in a Commission decision. Upon Commission review and approval, balances shall be transferred to the appropriate district CEBA's for recovery/refund.

PRELIMINARY STATEMENT
(Continued)

X. Tax Act Memorandum Account

1. PURPOSE:
The purpose of the Tax Act Memorandum Account is to reflect any changes in the revenue requirement that could result from changes in Federal Tax Law with regard to bonus depreciation, should the utility take advantage of the new law. Such changes may include, but not limited to, impacts on Section 199 deductions, working cash, and contributions in aid of construction. So as not to discourage utilities from using the tax savings resulting from the New Tax Law for investment in additional, needed infrastructure, the costs and expenses of that infrastructure not otherwise reflected in rates shall also be reflected in the memorandum account, to the extent allowed by the limitations specified in Commission Resolution L-411A. The account shall be effective the date of Decision (D.) XX-XX-XXX.

2. APPLICABILITY:
All areas served by California American Water.

3. ACCOUNTING PROCEDURE:
The following entries shall be recorded effective with the date of Decision (D.) XX-XX-XXX and any change to the Federal Tax Law with regard to bonus depreciation:
   a. Debit for decrease in revenue requirement resulting from increases in deferred tax reserve.
   b. Credit for increase in revenue requirement resulting from the impact of any decrease in Section 199 deductions resulting from bonus depreciation taken.
   c. Credit or debit for increase or decrease, respectively, in revenue requirement resulting from impact of any calculations in the calculation of working cash resulting from the New Tax Law or from bonus depreciation taken.
   d. Credit or debit for increase or decrease, respectively, in revenue requirement resulting from any other direct change in revenue requirement resulting from the Utility's taking advantage of the New Tax Law.
   e. Credit for increase in revenue requirement resulting from additional Utility infrastructure investment consistent with the limitations set forth by Ordering Paragraph 5 of Resolution L-411A and detailed in Purpose of this Preliminary Statement.
   f. Balances in the Tax Memorandum Account will accrue interest at the 90-day commercial paper rate.

4. RATEMAKING PROCEDURE:
There is currently no ratemaking component to the memorandum account. Requests for recovery of any balance are to be processed according to General Order 96-B and Standard Practices or otherwise determined in a Commission decision. Upon Commission review and approval, balances shall be transferred to the appropriate district CEBA's for recovery/refund.

PRELIMINARY STATEMENT
(Continued)

X. Water Contamination Litigation Expense Memorandum Account ("WCLEMA")

1. PURPOSE:
   The purpose of the WCLEMA is to track costs associated with litigating water contamination legal cases. California American Water was granted authority to continue this account in Decision (D.) XX-XX-XXX.

2. APPLICABILITY:
   All customers in the Sacramento and Los Angeles Districts.

3. ACCOUNTING PROCEDURE:
   The following entries shall be recorded to the memorandum account:
   a. A debit entry will be created to record expenses associated with the WCLEMA.
   b. A debit or credit entry equal to interest on the balance in the account at the beginning of the month and half the balance after the above entries, at a rate equal to one-twelfth of the rate on 90 day non-financial Commercial Paper, as reported in the Federal Reserve Statistical Release, H.15 or its successor.
   c. A credit entry will be made to transfer the balances to the appropriate district Consolidated Expense Balancing Account's (CEBA) upon Commission approval.

4. RATEMAKING PROCEDURE:
   There is currently no ratemaking component to the memorandum account. Requests for recovery of any balance are to be processed according to General Order 96-B and Standard Practices or otherwise determined in a Commission decision. Upon Commission review and approval, balances shall be transferred to the appropriate district CEBA's for recovery/refund.

PRELIMINARY STATEMENT
(Continued)

X. West Placer Memorandum Account

1. PURPOSE:
   The purpose of the West Placer Memorandum Account is to track the construction costs, allowance for funds used during construction and post construction carrying costs at the Commission's authorized pre-tax rate of return, and the Special Facilities Fees collected from developers in the West Placer County service area of the Sacramento District. California American Water was granted authority to maintain its memorandum account in Decision D. 13- 10-003.

2. APPLICABILITY:
   Applicable to the Sacramento District

3. ACCOUNTING PROCEDURE:
   The following entries shall be recorded to the memorandum account:
   a. A debit entry equal to construction costs and AFUDC and post construction carrying costs at the Commission's authorized pre-tax rate of return.
   b. A credit entry to capture any Special Facility Fees collected from developers.

4. RATEMAKING PROCEDURE:
   There is currently no ratemaking component to the memorandum account. Any balances in this account should be resolved as part of a general rate case and any over collection must be treated as a credit against the Sacramento District rate base

PRELIMINARY STATEMENT
(Continued)

X. Water Revenue Adjustment Mechanism / Modified Cost Balancing Account ("WRAM/MCBA")

1. PURPOSE:
   The purpose of the WRAM Balancing Account is to track the differences between recorded and Commission authorized water revenues. The MCBA tracks the differences between recorded and Commission authorized amounts for purchased water, power, and pump taxes. The Commission has determined that these mechanisms are appropriate in coordination with increasing block rate structures and increased conservation activities.

2. APPLICABILITY:
   Applicable customers in the following areas – Larkfield, Los Angeles County, Sacramento, San Diego County, Ventura County, and Monterey County's Ambler, Bishop, Hidden Hills, Main, Ryan Ranch, and Toro Service Areas

3. DEFINITIONS:
   a. Non-WRAM revenue is all revenue excluded from the WRAM account, including metered service charges, sale for resale customers, private fire service, private hydrant service, irrigation service, flat rate residential service, and other unmetered miscellaneous revenue.
   b. In addition, surcharges and surcredits, unless specifically included in adopted revenue requirement, are excluded from WRAM accounting.
   c. WRAM-eligible revenue is all revenue not excluded in 3.a, above. Generally, WRAM eligible revenue results from potable quantity charges to permanent residential, commercial, industrial and public authority customers.
   d. Recorded WRAM-eligible revenue is the amount of revenue billed to applicable customers in a particular period.
   e. Adopted WRAM-eligible revenue is the amount of usage- related revenue necessary in conjunction with authorized non- WRAM revenue to generate the adopted revenue requirement.

4. ACCOUNTING PROCEDURE:
   a. The following entries will be recorded to each area's WRAM Balancing Account monthly and added to the prior accumulated monthly balance:
      1) Recorded WRAM-eligible revenue
      2) Adopted WRAM-eligible revenue
      3) Total net WRAM balance = (1) minus (2)

PRELIMINARY STATEMENT
(Continued)

b. The following entries will be recorded to each area's MCBA monthly and added to the prior accumulated monthly balance:
   1) Recorded purchased water cost, if applicable
   2) Adopted purchased water cost, if applicable
   3) Difference between (1) and (2)

   4) Recorded purchased power cost and pump taxes
   5) Adopted purchased power cost and pump taxes
   6) Difference between (4) and (5)

   7) Total net MCBA balance = (3) + (6)

c. Total net WRAM/MCBA balance = (a + b)

d. In addition to the above and only for the Monterey district, a Non-Revenue Water Penalty/Reward Program shall be included with the WRAM balancing account as follows:
   1) Calculate the actual non-revenue water for the period by determining the difference between each service area's production and each service area's consumption, in acre feet.
   2) Adopted non-revenue water for each area shall be the targeted amounts.
   3) A 5% one-way dead band will provide a cushion between the non-revenue water targets and the triggering of the penalty/reward mechanism. Multiply the target amounts by 1.05%.
   4) If the actual non-revenue water is less than the adopted, subtract (1) from (2). Multiply the difference by $1,820.30 per AF. This total amount is a reward and represents an under-collection (debit balance).
   5) If the actual non-revenue water is greater than the adopted but less than the deadband amount in (3) above, no penalty is incurred and no amount shall be recorded.
   6) If the actual non-revenue water is greater than the adopted and greater than the deadband amount in (3) above, subtract (1) from (3). Multiply the difference by $1,820.30 per AF. This is a penalty and represents an over-collection (credit balance).

5. RATEMAKING PROCEDURE:
   a. By March 31st of each year, California American Water will provide the Division of Water and Audit a written report on the status of the WRAM and MCBAs (with a copy to ORA). The written report will include a section on the WRAM in each district showing the net accumulated balance as of December 31st of the preceding calendar year. The written report will also include a section on the MCBA in each district showing the net accumulated balance as of December 31st of the preceding calendar year. If this report shows that the combined net accumulated balance for the WRAM and MCBA in any district exceeds 2.5% of the district's total recorded revenue requirement for the prior calendar year, California American Water will file an advice letter within 30 days that amortizes the combined balance.

PRELIMINARY STATEMENT
(Continued)

b. Recovery of under-collections and refunds of over-collections will be passed on to ratepayers through either volumetric surcharges or surcredits.

CALIFORNIA AMERICAN WATER

2013 GENERAL RATE CASE

D. XX-XX-XXX

Attachment E-2 For Settlement

General Metered Tariffs

Schedule No. SC-1
Sacramento District Tariff Area
GENERAL METERED SERVICE

APPLICABILITY

Applicable to all water furnished on a metered basis.

TERRITORY

The unincorporated communities, subdivisions, and adjacent areas generally known as Cordova, Rosemont, Parkway Estates, Lindale, Foothill Farms, Arlington Heights, Linwood, Loretto Heights, Arden Highlands, Arden Estates and Sunrise Security Park. A part of the City of Citrus Heights and the communities of Antelope and Sabre City in Sacramento and Placer counties. The city of Isleton and vicinity and the unincorporated community of Walnut Grove in Sacramento County. The lower southwestern portion of Placer County including the areas Known as Morgan Creek, Doyle Ranch, Sun Valley Oaks and Riolo Greens.

RATES

Quantity Rates:

	Base Rate Per 100 gal (CGL)
Residential Customers:	
For the first 142.1 CGL	$0.3698
For all water delivered over 142.1 CGL	$0.4030
All Other Customers:	
For all water delivered, per CGL	$0.3767

Service Charge: General Metered

	Per Meter Per Month
For 5/8 x 3/4-inch meter	$11.99
For 3/4-inch meter	$17.98
For 1-inch meter	$29.97
For 1-1/2-inch meter	$59.95
For 2-inch meter	$95.91
For 3-inch meter	$179.84
For 4-inch meter	$299.73
For 6-inch meter	$599.46
For 8-inch meter	$959.14
For 10-inch meter	$1,378.76
For 12-inch meter	$1,978.23

The Service Charge is a readiness-to-serve charge which is applicable to all general metered services and to which is added the charge for water used computed at the Quantity Rates.

(Continued)

Schedule No. SC-1 (Continued)
Sacramento District Tariff Area
GENERAL METERED SERVICE

RATES (Continued)

Service Charge: Residential Fire Sprinkler System (RFSS)

	Per Meter Per Month
For 5/8 x 3/4-inch residential to 1-inch residential metered fire sprinkler	$17.95
For 5/8 x 3/4-inch residential to 1 1/2-inch residential metered fire sprinkler	$21.00
For 5/8 x 3/4-inch residential to 2-inch residential metered fire sprinkler	$22.02
For 3/4-inch residential to 1-inch residential metered fire sprinkler	$26.17
For 3/4-inch residential to 1 1/2-inch residential metered fire sprinkler	$29.21
For 3/4-inch residential to 2-inch residential metered fire sprinkler	$30.22
For 1-inch residential to 1 1/2-inch residential metered fire sprinkler	$45.31
For 1-inch residential to 2-inch residential metered fire sprinkler	$46.15
For 1 1/2-inch residential to 2-inch residential metered fire sprinkler	$86.37

The Service Charge is a readiness-to-serve charge which is applicable to all Residential Fire Sprinkler System metered services only and to which is added the charge for water used computed at the Quantity Rates.

(Continued)

Schedule No. SC-1 (Continued)
Sacramento District Tariff Area
GENERAL METERED SERVICE

SPECIAL CONDITIONS:

General Items:

1. Qualifying low-income customers can receive a discount on their bill. Customers must apply with the Company for acceptance into the low-income program. For additional details, please see Tariff Schedule CA-LIRA.

2. Any customer paying for service at a premise where a Residential Fire Sprinkler System (RFSS) is required/requested to be installed by local fire and building codes shall be allowed to have their monthly service charge modified in accordance with the monthly costs for RFSS service charges. Provided, however, that the RFSS rate has been requested by the customer and verified by the Company that the smaller size of meter would be large enough to provide adequate service for the property in absence of the additional demand necessary to supply water to the sprinkler system. The RFSS will not be considered a fire service by the Company, but as an oversized general metered service. As such the rules and conditions of service for general metered service shall apply.

Fees and Surcharges:

1. All bills are subject to the reimbursement fee set forth in Schedule No. UF.

2. Per Advice Letter XXXX, a surcharge of $0.0047 per hundred gallons will be applied to each bill to fund conservation efforts. The surcharge will remain in effect until otherwise directed by the Commission.

3. Per Advice Letter XXXX, a surcharge of $1.54 for the Low-Income Ratepayer Assistance Program ("LIRAP") Balancing Account will be collected from all non-low income water and wastewater customers.

4. Per Advice Letter XXXX, the under-collected balance in the Sacramento District Consolidated Expense Balancing Account (CEBA) will be recovered through a quantity based surcharge of $0.0092 per 100 gallons over 12 months effective XXXXXX. The total amount will be recovered from all classes of customers.

Schedule No. LK-1
Larkfield District Tariff Area
GENERAL METERED SERVICE

APPLICABILITY

Applicable to all metered water service.

TERRITORY

The unincorporated areas known as the Larkfield and Wikiup subdivisions and the community of Fulton, three miles north of Santa Rosa, Sonoma County.

RATES

Quantity Rates:

Residential Customers:	Base Rate Per 100 gal (CGL)
For the first 52.4 CGL	$0.7900
For the next 52.4 CGL	$0.9081
For the next 89.8 CGL	$1.1792
For all water delivered over 246.8 CGL	$1.5437
All Other Customers:	
For all water delivered, per CGL	$0.9081

Service Charge: General Metered

	Per Meter Per Month
For 5/8 x 3/4-inch meter	$17.22
For 3/4-inch meter	$25.83
For 1-Iinch meter	$43.05
For 1-1/2-inch meter	$86.10
For 2-inch meter	$137.75
For 3-inch meter	$258.29
For 4-inch meter	$430.48
For 6-inch meter	$860.95
For 8-inch meter	$1,377.52

The Service Charge is a readiness-to-serve charge which is applicable to all general metered services and to which is added the charge for water used computed at the Quantity Rates.

Schedule No. LK-1 (Continued)
Larkfield District Tariff Area
GENERAL METERED SERVICE

SPECIAL CONDITIONS

General Items:

1. Qualifying low-income customers can receive a discount on their bill. Customers must apply with the Company for acceptance into the low-income program. For additional details, please see Tariff Schedule CA-LIRA.

2. Any customer paying for service at a premise where a Residential Fire Sprinkler System (RFSS) is required/requested to be installed by local fire and building codes shall be allowed to have their monthly service charge modified in accordance with the monthly costs for RFSS service charges. Provided, however, that the RFSS rate has been requested by the customer and verified by the Company that the smaller size of meter would be large enough to provide adequate service for the property in absence of the additional demand necessary to supply water to the sprinkler system. The RFSS will not be considered a fire service by the Company, but as an oversized general metered service. As such the rules and conditions of service for general metered service shall apply.

Fees and Surcharges:

1. All bills are subject to the reimbursement fee set forth in Schedule No. UF.

2. A surcharge is included on each bill to collect franchise fees and/or business license fees paid to the County of Sonoma. The amount collected is based on a percentage of the gross revenues of each bill. The percentage is as follows: Larkfield Franchise Fee – 1.00%

3. Per Advice Letter XXXX, a surcharge of $0.0106 per 100 gallons will be applied to each bill to fund conservation efforts. The surcharge will remain in effect until otherwise directed by the Commission.

4. Per Advice Letter XXXX, a surcharge of $1.54 for the Low-Income Ratepayer Assistance Program ("LIRAP") Balancing Account will be collected from all non-low income water and wastewater customers.

5. Water Revenue Adjustment Mechanism (WRAM) and Modified Cost Balancing Account (MCBA) Surcharge.
    a. A surcharge is included in each bill to recover the net under-collection in the Water Revenue Adjustment Mechanism (WRAM) and Modified Cost Balancing Account (MCBA). For the period ending December 31, 2013, the net under-collection totals $786,096 including interest. The surcharge is $0.0922 per 100 gallons and will remain effective for 36 months beginning May 9, 2013.

3. Per Advice Letter XXXX, the under-collected balance in the Larkfield District Consolidated Expense Balancing Account (CEBA) will be recovered through a quantity based surcharge of $0.0546 per 100 gallons over 36 months effective XXXXXXX. The total amount will be recovered from all classes of customers.

Schedule No. MO-1
Monterey County District Tariff Area
GENERAL METERED SERVICE
RESIDENTIAL AND MULTI-RESIDENTIAL CUSTOMERS

APPLICABILITY

Applicable to all water furnished on a metered basis.

TERRITORY

The incorporated cities of Monterey, Pacific Grove, Carmel-by-the-Sea, Del Rey Oaks, Sand City, a portion of Seaside, Hidden Hills and Ryan Ranch subdivisions, Bishop subdivision including the area known as Laguna Seca Ranch Estates and vicinity and certain unincorporated areas in the County of Monterey.

RATES

Quantity Rates:

MONTEREY MAIN, HIDDEN HILLS, RYAN RANCH, AND BISHOP SYSTEMS:

Residential & Multi-Residential Customers:	Base Rate Per 100 gal (CGL)
For the first 74.8 gal x Customer Allotment	$0.6159
For the second 74.8 gal x Customer Allotment	$0.9238
For the third 74.8 gal x Customer Allotment	$2.4635
For the fourth 74.8 gal x Customer Allotment	$4.9270
All Water over 299.2 gal x Customer Allotment	$6.1587

Meter Rates:

MONTEREY MAIN, HIDDEN HILLS, RYAN RANCH, AND BISHOP SYSTEMS:

	Per Meter Per Month
For 5/8 x 3/4-inch meter	$9.84
For 3/4-inch meter	$14.76
For 1-inch meter	$24.61
For 1-1/2-inch meter	$49.21
For 2-inch meter	$78.74
For 3-inch meter	$147.64
For 4-inch meter	$246.07
For 6-inch meter	$492.14
For 8-inch meter	$787.43

The Meter Charge is a readiness-to-serve charge which is applicable to all metered service and to which is added the charge for water used computed at the Quantity Rate.

(Continued)

Schedule No. MO-1 (Continued)
Monterey County District Tariff Area
GENERAL METERED SERVICE

SPECIAL CONDITIONS
General Items:

1. The boundaries in which the above rates apply are as set forth in the Preliminary Statement and delineated on the Tariff Service Area Maps filed as a part of these tariff schedules.

2. Any residential customer who has been required to install a Residential Fire Sprinkler System (R.F.S.S.) at their place of residence by local fire ordinances will be allowed to have their monthly service charge reduced by one meter size, provided it has been requested by the customer and verified by the Company that the lower size of meter would be large enough to provide adequate service to the residence. The R.F.S.S. Service is not considered a fire service by the Company, but is considered an oversized general metered service and therefore, only the rules and conditions of service for general metered service apply.

3. Qualifying low-income customers can receive a discount on their bill. Customers must apply with the Company for acceptance into the low-income program. For additional details, please see Tariff Schedule CA-LIRA.

4. The per capita design shall remain in effect and until ordered otherwise by the Commission.

5. In accordance with Section 2714 of the Public Utilities Code, if a tenant in a rental unit leaves owing the Company, service to subsequent tenants in that unit will, at the Company's option, be furnished on the account of the landlord or property owner.

Schedule No. MO-1 (Continued)
Monterey County District Tariff Area
GENERAL METERED SERVICE

SPECIAL CONDITIONS (continued):
General Items:

6. **Moratorium:** In portions of the Monterey District served, in whole or part, by Carmel River diversions, and subject to the following conditions and restrictions, California-American Water Company shall deny requests for new service connections and prohibit any increased use of water at existing service addresses resulting from a change in zoning or use:
   a. California-American Water Company shall not deny such requests or prohibit such increased use where all necessary written approvals for project construction and connection to California-American Water Company's system had been obtained prior to October 20, 2009;

   b. California-American Water Company shall not deny the installation of additional meters at an existing service provided that the additional metering does not result in an increase in water use.

   c. This special condition does not authorize California-American Water Company to deny service to:

      i. the area served by the Carmel Area Wastewater District Water Entitlement pursuant to Monterey Peninsula Water Management District Ordinances 39 and 109 and Rule 23.5, prior to January 1, 2017 ;

      ii. the area served by the Sand City Water Entitlement pursuant to Monterey Peninsula Water Management District Ordinance 132 and Rule 23.6;

      iii. Security National Guaranty, Inc. under its frontloading agreement;

      iv. the Ralph Lane, Chuluar, Bishop, Ambler Park, Ryan Ranch, Hidden Hills, and Toro subsystems within the Monterey District; and

      v. a connection or increased use where an authorized official of the State Water Resources Control Board has given written approval.

   d. California-American Water Company shall not deny a request for new service or prohibit the increased use of water at an existing service address if an authorized official of the State Water Resources Control Board has given written approval for such service or increased use.

   e. This special condition shall expire at the filing by California-American Water Company of a Tier 1 advice letter with the Commission transmitting the written concurrence of the Deputy Director of Water Rights of the State Water Resources Control Board with California-American Water Company's finding that a permanent supply of water is ready to serve as a replacement for the unlawful diversions of Carmel River water

Schedule No. MO-1 (Continued)

GENERAL METERED SERVICE
RESIDENTIAL AND MULTI-RESIDENTIAL CUSTOMERS

SPECIAL CONDITIONS (continued):

General Items:

7. (continued)

Block Width Adjustment for Landscape
Available in summer (May through October) only

Size of Lot	Allotted 10 cfs per month per block in Blocks 3, 4 & 5	Equivalent gallons per day
No outside space	0	0
Up to ¼ acre	10	25
Over ¼, up to ½ acre	20	50
Over ½ acre, up to 1 acre	20	50
Over 1 acre, up to 2 acres	30	75
Over 2 acres, up to 3 acres	30	75
Over 3 acres, up to 4 acres	30	75
Greater than 4 acres	30	75

a. Each customer's total block width for each block are calculated by adding block width adjustments according to the below:

Blocks 1 and 2 will only have an allotment for the number of people and number of large animals. Block 1 will also include an allotment for medical needs, if applicable. For authorization of additional water for medical needs, the customer will have to provide an authorization from a physician stating the quantity of water that will be necessary for the medical needs as well as the duration.

Blocks 3 and 4 will have an allotment for landscape in summer months (with decreasing amount per acre above 1 acre) as well as the per person allotment and the large animal allotment. Summer months are defined here as May, June, July, August, September, and October.

Example: The allotment, or total block width for each block, for a four person household on 1 acre lot with no large animals is as follows;

Calculation of allotment

	Winter (in 10 Cfs) Nov 1 – Apr 30	Summer (in 10 Cfs) May 1 – Oct 31
Adjustment for People	60	60
Adjustment for Animals	0	0
Adjustment for Landscape	0	20
Total Cfs Allowed in Each Block	**60**	**80**

GENERAL METERED SERVICE
RESIDENTIAL AND MULTI-RESIDENTIAL CUSTOMERS

SPECIAL CONDITIONS (continued)
General Items:

8. Calculation of residential and multi-residential allotment for Monterey Main, Hidden Hills, Ryan Ranch and Bishop systems:

   a. The five consumption blocks are calculated for each residential and multi-residential customer based on the number of people, season (winter/summer), size of lot, and number of large animals according to the following allotments for each characteristic:

Block Width Adjustment for Number of People

Number of people in a residence	Equivalent gallons per day
1	37.5
2	75
3	112.5
4	150
5	187.5
6	225
7	262.5

Block Width Adjustment for Large Animals

Number of large animals	Equivalent gallons per day
1 or 2	12.5
3 to 5	25
6 to 10	37.5
11 to 20	50
Over 20	62.5

SPECIAL CONDITIONS (continued)

Fees & Surcharges:

1. All bills are subject to the reimbursement fee set forth in Schedule No.UF.

2. A surcharge is included on each bill to collect franchise taxes and/or business license fees paid to various municipalities. The amount collected is based on a percentage of the gross revenues of each bill. The percentages are as follows: Ryan Ranch 2.05%, City of Pacific Grove 2.10%, City of Carmel-by-the-Sea 2.15%, City of Seaside 1.00%, City of Del Rey Oaks Business License Fee 0.11%, City of Del Rey Oaks Franchise Fee 2.00%, City of Sand, City 0.14%, City of Monterey 1.05%, and unincorporated areas of Monterey County 1.00%.

3. Coastal Water Project (CWP) Surcharge #1: Per Decision 06-12-040, a surcharge will be applied to customer bills to collect for pre-construction costs associated with the CWP. Per Decision No. 11-09-039, the surcharge is currently 15% until the outstanding approved amounts, with interest at 4%, are recovered. This surcharge is applicable to customers in the Monterey main system.

4. Per Advice Letter XXXX, a surcharge of $1.54 per hundred gallons for the Low-Income Ratepayer Assistance Program ("LIRAP") Balancing Account will be collected from all non-low income water and wastewater customers.

5. Per Advice Letter XXXX, a surcharge of $0.0218 per hundred gallons will be applied to each bill to fund California American Water conservation efforts. The surcharge will remain in effect until otherwise directed by the Commission. This surcharge is applicable to customers in the Monterey main, Bishop, Hidden Hills, Ryan Ranch, Ralph Lane, Chualar, Ambler, and Toro areas.

6. Per Advice Letter XXXX, a volumetric surcharge of $0.0086 per hundred gallons will be applied to each customer's bill to fund conservation efforts for the Monterey Peninsula Water Management District (MPWMD). The surcharge will remain in effect until otherwise directed by the Commission. This surcharge is applicable to customers in the Monterey main, Bishop, Hidden Hills and Ryan Ranch areas.

Fees & Surcharges:

7. In accordance with the final decision issued in Monterey General Rate Case Application 08-01-027, costs associated with securing Seaside Basin water rights shall be placed in a balancing account and collected through a meter charge over the next ten years. The total amount to be recovered is $2,755,960. The Seaside Basin Adjudication Balancing Account and surcharge is applicable to customers in the Monterey main, Bishop, Hidden Hills and Ryan Ranch areas and will earn interest at the 90-day commercial rate.

Meter Size	Meter Surcharge
For 5 / 8 x 3 / 4 meter	$0.37
For 3 / 4 meter	$0.55
For 1 meter	$0.91
For 1 1 / 2 meter	$1.83
For 2 meter	$2.93
For 3 meter	$5.49
For 4 meter	$9.15
For 6 meter	$18.29
For 8 meter	$29.27

8. Per Decision XX-XX-XXX, the capped 2015 amount of $2,367,219 related to the Carmel River Mitigation Program Balancing Account will be collected through a 4.64% surcharge on a customer's total bill over a 12 month period beginning January 1 and ending December 31, 2015. The surcharge is applicable to customers in the Monterey Main and Ryan Ranch Service areas.

RESIDENTIAL AND MULTI-RESIDENTIAL CUSTOMERS

SPECIAL CONDITIONS (continued):
Fees & Surcharges:

14. Per Advice Letter 987, a surcharge is included in each bill in the Monterey Main system to recover the under-collection in the Old Monterey-Style Water Revenue Adjustment Mechanism (WRAM) Balancing Account of $2,413,408. The surcharge is shown in the table below and will remain effective for 21 months beginning April 1, 2013.

Monterey Main Residential & Multi-Residential:	**Surcharge Per 100 gal (CGL)**
Block 1: For the first 74.8 gal x Customer Allotment	$0.0000
Block 2: For the second 74.8 gal x Customer Allotment	$0.0267
Block 3: For the third 74.8 gal x Customer Allotment	$0.0535
Block 4: For the fourth 74.8 gal x Customer Allotment	$0.1068
Block 5: All water over 299.2 gal x Customer Allotment	$0.1870

15. Per Advice Letter 1011-A, a surcharge is to be included as a part of the cost of water authorized by D.13-04-015 for each new service connection in Sand City authorized by D.11-03-048 to reflect the additional incremental cost of the Sand City Desalination Plant over the current average cost of production. The surcharge will be $0.4434 per hundred gallons and will be effective July 11, 2013, and will terminate in accordance with lifting of the Moratorium authorized by D.11-03-048.

16. Per Advice Letter 1013-B, a surcharge is included in each bill in the Monterey Main system to recover the total allowed actual and forecasted costs of the Sand City Desalination Plant through December 31, 2014 of $3,047,379. In compliance with D.13-04-015, the surcharge will be recalculated to take into account appropriate costs, collections, and future allowed recoveries.

Monterey Main Residential & Multi-Residential:	**Surcharge Per 100 gal (CGL)**
Block 4: For the fourth 74.8 gal x Customer Allotment	$0.6575
Block 5: All water over 299.2 gal x Customer Allotment	$0.6575

Schedule No. MO-1C
Monterey County District Tariff Area
GENERAL METERED SERVICE
NON-RESIDENTIAL CUSTOMERS

APPLICABILITY

Applicable to all water furnished on a metered basis to non-residential customers in the service areas defined below.

TERRITORY

The incorporated cities of Monterey, Pacific Grove, Carmel-by-the-Sea, Del Rey Oaks, Sand City, a portion of Seaside, Hidden Hills and Ryan Ranch subdivisions, Bishop subdivision including the area known as Laguna Seca Ranch Estates and vicinity and certain unincorporated areas in the County of Monterey.

RATES

Quantity Rates:

MONTEREY MAIN, HIDDEN HILLS, RYAN RANCH, AND BISHOP SYSTEMS:

	Base Rate Per 100 gal (CGL)
Division 1	$0.9225
Division 2	$1.0378
Division 3	$1.1531
Division 4	$2.3062

Meter Rates:

MONTEREY MAIN, HIDDEN HILLS, RYAN RANCH, AND BISHOP SYSTEMS:

	Per Meter Per Month
For 5/8 x 3/4-inch meter	$19.69
For 3/4-inch meter	$29.53
For 1-inch meter	$49.21
For 1-1/2-inch meter	$98.43
For 2-inch meter	$157.49
For 3-inch meter	$295.28
For 4-inch meter	$492.14
For 6-inch meter	$984.28
For 8-inch meter	$1574.85

The Meter Charge is a readiness-to-serve charge which is applicable to all metered service and to which is added the charge for water used computed at the Quantity Rate.

(Continued)

Schedule No. MO-1C (Continued)
Monterey County District Tariff Area
GENERAL METERED SERVICE
NON-RESIDENTIAL CUSTOMERS

DEFINITIONS:

1. SUPPLEMENTAL IRRIGATION SYSTEM – "Supplemental irrigation system" shall mean irrigation systems other than natural precipitation.
2. WATER BUDGET FEATURE – "Water budget feature" shall mean percent up/down adjust feature such as a button or dial on an irrigation controller that permits the user to increase or decrease the runtimes or application rate as for each zone by a prescribed amount or percent, by means of one adjustment without modifying the settings for that individual zone.
3. GEAR DRIVE ROTOR SPRINKLERS – "Gear drive rotor sprinklers" shall mean Irrigation sprinklers with high uniformity rates and lower precipitation rates than conventional sprinkler heads or impact rotors resulting in more efficient irrigation.
4. MULTI STREAM, MULTI TRAJECTORY ROTATING SPRINKLERS (MSMTR) – "Multi stream, multi trajectory rotating sprinklers" shall mean slowly turning irrigation sprinklers distributing water in a number of individual streams of varying trajectories with lower precipitation rates and higher uniformity than traditional fixed spray head sprinklers.
5. HIGH EFFICIENCY FIXED SPRAY NOZZLES – "High efficiency fixed spray nozzles" shall mean precision irrigation spray nozzles with larger and more uniform droplet size resulting in better wind resistance, lower precipitation rates and higher irrigation efficiency.
6. DRIP IRRIGATION - "Drip Irrigation" shall mean a low pressure, low volume watering system that applies water slowly to plants, near or at ground level, to minimize runoff and loss to evaporation. The term "Drip Irrigation" shall have the same meaning as "Micro Irrigation" and "Trickle Irrigation."
7. SUB SURFACE LOW VOLUME EMITTERS – "Sub surface low volume emitters" shall mean drip or low volume, low pressure irrigation systems that deliver a low flow of water at or near the root zone of plants - measured in gallons per hour versus gallons per minute.
8. LOW VOLUME IRRIGATION – "Low volume irrigation" shall mean drip, low volume or Micro Spray Irrigation, includes Low volume fixed spray nozzles.
9. Best Management Practices - "BMP" as referenced in Section V of the Settlement attached to D.13-07-041.
10. Customer Classification Conservation Base Rate – "CCCBR". the "Customer Class Conservation Base Rate" ("CCCBR") is defined as the low block or division quantity rate from each billing customer classification under conservation rates, and is determined as the rate necessary to equal the billing classification revenue requirement given the defined rate design parameters.

Schedule No. MO-1C (Continued)
Monterey County District Tariff Area
GENERAL METERED SERVICE
NON-RESIDENTIAL CUSTOMERS

SPECIAL CONDITIONS:

General Items:

1. The boundaries in which the above rates apply are as set forth in the Preliminary Statement and delineated on the Tariff Service Area Maps filed as a part of these tariff schedules.
2. This non-residential rate design shall remain in effect and until ordered otherwise by the Commission.
3. Abbreviations as used in this tariff are defined above.
4. Non-residential customers billed under this tariff shall be placed into one of four divisions for billing purposes. The determination of under which Division each individual customer shall be billed will be based on the following:
    a. Division 1: Customers that are indoor/outdoor Rate BMP-compliant and have outdoor landscape irrigation of no more than 10% of total parcel size covered by the meter (or meters) meant to serve such parcel, and excluding from the total parcel size for purposes of the 10% calculation areas of natural, non-irrigated open space. Meters designated as irrigation only meters will not be included in Division 1 regardless of the 10% parcel size allowance noted above.
    b. Division 2: Customers that are indoor/outdoor Rate BMP-compliant and have a business where the watering is essential to the product of the business (nurseries), golf courses and government parks, ball fields, and cemeteries.
    c. Division 3: Customers that are indoor/outdoor Rate BMP-compliant and have outdoor landscape irrigation exceeding the 10% parcel limit for Division 1, as well all Rate BMP-compliant irrigation meters, as previously noted in Special Condition 6 (a).
    d. Division 4: Customers that are not in compliance with Rate BMPs.
5. Upon approval of the tariff all customers who respond to the request to provide self-certified Rate BMP information will be appropriately categorized into Division 1, 2, 3 or 4 immediately so that all bills issued under the new tariff reflect the provision of a completed survey.
6. Customers that are subsequently found to be non Rate BMP compliant will be given 30 days from the date of notification to achieve compliance as noted in the non-compliance letter.
7. All Del Monte Forest golf courses served with emergency potable water from the connection at the Viscaino tank will be assigned an emergency allocation of 30 AF/year. Any potable use within this allotment will be billed at customer Division 1 rates. Usage above the annual allotment would be billed at customer Division 2 rates.

(Continued)

Schedule No. MO-1C (Continued)
Monterey County District Tariff Area
GENERAL METERED SERVICE
NON-RESIDENTIAL CUSTOMERS

SPECIAL CONDITIONS(Continued):

General Items:

8. Rate BMP Compliant will be defined as follows:
   a. Indoor Usage
      i. Showerheads – Maximum flow rate of 2.5 gallons per minute ("GPM").
      ii. Washbasin faucets with a maximum flow rate of 2.5 GPM.
      iii. Ultra low flow toilets (1.6 gallons per flush ("GPF")), High Efficiency Toilets (1.28 GPF) or Ultra High Efficiency Toilets (0.8 GPF). All toilets replaced after December 31, 2014 will have to be High Efficiency or Ultra High Efficiency
      iv. Water efficient urinals designed to flush with a maximum of 1.0 GPF. Includes High Efficiency Urinals (0.5 GPF), pint urinals (0.25 GPF), or waterless urinals. All urinals replaced after December 31, 2014 will have to be High Efficiency, Ultra High Efficiency, or waterless.
      v. Water Efficient (1.6 GPM) Pre-Rinse spray valves (as applicable), Medical and laboratory photographic, and/or X-Ray processing systems must recirculate water used in the rinse process.
      vi. Visitor-serving, Public, and Quasi-Public facilities must display placards or decals promoting water awareness and the need for conservation in visible locations in restrooms, kitchens, and dining areas.
      vii. Visitor-serving facilities must offer towel and linen reuse programs by providing written notice in the rooms.
      viii. Restaurants must provide written notice that drinking water is available only upon request. Notices must be placed on tables and/or menus. Drinking water will not be provided from the Monterey Peninsula Water Resource System, unless specifically requested.
   b. Outdoor Usage
      i. All supplemental irrigation systems require the use of an automated irrigation controller, which must include a water budget feature and may include products, which rely on soil or weather sensors to adjust irrigation schedules.
      ii. Turf grass areas that receive supplemental irrigation must be watered with gear drive rotor sprinklers, multi stream, multi trajectory rotating sprinklers, high efficiency fixed spray nozzles or sub surface low volume emitters.
      iii. Low volume irrigation is encouraged for landscaped areas containing trees, shrubs and groundcover. The use of standard fixed spray nozzles will not be allowed in landscape beds measuring 3' or less.
      iv. All automated irrigation controllers must include sensors, or devices that interrupt, or delay a scheduled irrigation event due to rainfall that equals or exceeds an established threshold.
      v. Hoses, used to hand water landscaped areas must be equipped with a positive shut off device.

9. The rate for Division 1 will be defined as the CCCBR for non-residential billing and will be set at the 100% level. It will be solved for in consideration of the fact that the rate for Division 2 shall be set at 112.5% of the Division 1 CCCBR, the rate for Division 3 will be set at 125% of the CCCBR and the rate for Division 4 will be set at 250% of the CCCBR.

GENERAL METERED SERVICE
NON-RESIDENTIAL CUSTOMERS

SPECIAL CONDITIONS (Continued):
General Items:

10. Leak adjustments will be provided in accordance with present determination of eligibility and calculated by billing all determined excess usage as a result of the leak at the SBR. The "Standard Base Rate" ("SBR") is defined as the quantity rate derived from the Commission's Standard Rate Design calculation, as established in D.86-05-064, for each of the customer class groupings and is the sum of the remainder of fixed costs not recovered through the fixed fees, plus variable costs, divided by the total authorized consumption.

11. Every meter will be categorized and issued a single bill unless a customer requests that a single consolidated bill be provided and then only if the system is capable of doing so without loss of any necessary data or delays in billing.

12. **Moratorium:** In portions of the Monterey District served, in whole or part, by Carmel River diversions, and subject to the following conditions and restrictions, California-American Water Company shall deny requests for new service connections and prohibit any increased use of water at existing service addresses resulting from a change in zoning or use:
    a. California-American Water Company shall not deny such requests or prohibit such increased use where all necessary written approvals for project construction and connection to California-American Water Company's system had been obtained prior to October 20, 2009;

    b. California-American Water Company shall not deny the installation of additional meters at an existing service provided that the additional metering does not result in an increase in water use.

    c. This special condition does not authorize California-American Water Company to deny service to:

        i. the area served by the Carmel Area Wastewater District Water Entitlement pursuant to Monterey Peninsula Water Management District Ordinances 39 and 109 and Rule 23.5, prior to January 1, 2017 ;

        ii. the area served by the Sand City Water Entitlement pursuant to Monterey Peninsula Water Management District Ordinance 132 and Rule 23.6;

        iii. Security National Guaranty, Inc. under its frontloading agreement;

        iv. the Ralph Lane, Chuluar, Bishop, Ambler Park, Ryan Ranch, Hidden Hills, and Toro subsystems within the Monterey District; and

        v. a connection or increased use where an authorized official of the State Water Resources Control Board has given written approval.

NON-RESIDENTIAL CUSTOMERS

SPECIAL CONDITIONS: (Continued)

Fees and Surcharges:

1. All bills are subject to the reimbursement fee set forth in Schedule No. UF.

2. A surcharge is included on each bill to collect franchise taxes and/or business license fees paid to various municipalities. The amount collected is based on a percentage of the gross revenues of each bill. The percentages are as follows: Ryan Ranch 2.05%, City of Pacific Grove 2.10%, City of Carmel-by-the-Sea 2.15%, City of Seaside 1.00%, City of Del Rey Oaks Business License Fee 0.11%, City of Del Rey Oaks Franchise Fee 2.00%, City of Sand, City 0.14%, City of Monterey 1.05%, and unincorporated areas of Monterey County 1.00%.

3. Coastal Water Project (CWP) Surcharge #1: Per Decision 06-12-040, a surcharge will be applied to customer bills to collect for pre-construction costs associated with the CWP. Per Decision No. 11-09-039, the surcharge is currently 15% until the outstanding approved amounts, with interest at 4%, are recovered. This surcharge is applicable to customers in the Monterey main system.

4. Per Advice Letter XXXX, a surcharge of $0.0218 per hundred gallons will be applied to each bill to fund California American Water conservation efforts. The surcharge will remain in effect until otherwise directed by the Commission. This surcharge is applicable to customers in the Monterey main, Bishop, Hidden Hills, Ryan Ranch, Ralph Lane, Chualar, Ambler, and Toro areas.

5. Per Advice Letter 962, a volumetric surcharge of $0.0086 per hundred gallons will be applied to each customer's bill to fund conservation efforts for the Monterey Peninsula Water Management District (MPWMD). The surcharge will remain in effect until otherwise directed by the Commission. This surcharge is applicable to customers in the Monterey main, Bishop, Hidden Hills and Ryan Ranch areas.

6. Per Advice Letter XXXX, a surcharge of $1.54 per hundred gallons for the Low-Income Ratepayer Assistance Program ("LIRAP") Balancing Account will be collected from all non-low income water and wastewater customers.

Fees & Surchages: (continued):

7. In accordance with the final decision issued in Monterey General Rate Case Application 08-01-027, costs associated with securing Seaside Basin water rights shall be placed in a balancing account and collected through a meter charge over the next ten years. The total amount to be recovered is $2,755,960. The Seaside Basin Adjudication Balancing Account and surcharge is applicable to customers in the Monterey main, Bishop, Hidden Hills and Ryan Ranch areas and will earn interest at the 90-day commercial rate.

Meter Size	Meter Surcharge
For 5 / 8 x 3 / 4 meter	$0.37
For 3 / 4 meter	$0.55
For 1 meter	$0.91
For 1 1 / 2 meter	$1.83
For 2 meter	$2.93
For 3 meter	$5.49
For 4 meter	$9.15
For 6 meter	$18.29
For 8 meter	$29.27

8. Per Decision XX-XX-XXX, the capped 2015 amount of $2,367,219 related to the Carmel River Mitigation Program Balancing Account will be collected through a 4.64% surcharge on a customer's total bill over a 12 month period beginning January 1 and ending December 31, 2015. The surcharge is applicable to customers in the Monterey Main and Ryan Ranch Service areas.

Monterey County District Tariff Area
GENERAL METERED SERVICE
OTHER CUSTOMERS

SPECIAL CONDITIONS
General Items:

1. The boundaries in which the above rates apply are as set forth in the Preliminary Statement and delineated on the Tariff Service Area Maps filed as a part of these tariff schedules.

2. Leak adjustments will be provided in accordance with present determination of eligibility and calculated by billing all determined excess usage as a result of the leak at the SBR. The "Standard Base Rate" ("SBR") is defined as the quantity rate derived from the Commission's Standard Rate Design calculation, as established in D.86-05-064, for each of the customer class groupings and is the sum of the remainder of fixed costs not recovered through the fixed fees, plus variable costs, divided by the total authorized consumption.

3. Every meter will be categorized and issued a single bill unless a customer requests that a single consolidated bill be provided and then only if the system is capable of doing so without loss of any necessary data or delays in billing..

4. This rate design shall remain in effect and until ordered otherwise by the Commission.

SPECIAL CONDITIONS
General Items:(continued)

5. **Moratorium:** In portions of the Monterey District served, in whole or part, by Carmel River diversions, and subject to the following conditions and restrictions, California-American Water Company shall deny requests for new service connections and prohibit any increased use of water at existing service addresses resulting from a change in zoning or use:
    a. California-American Water Company shall not deny such requests or prohibit such increased use where all necessary written approvals for project construction and connection to California-American Water Company's system had been obtained prior to October 20, 2009;

    b. California-American Water Company shall not deny the installation of additional meters at an existing service provided that the additional metering does not result in an increase in water use.

    c. This special condition does not authorize California-American Water Company to deny service to:

        i. the area served by the Carmel Area Wastewater District Water Entitlement pursuant to Monterey Peninsula Water Management District Ordinances 39 and 109 and Rule 23.5, prior to January 1, 2017 ;

        ii. the area served by the Sand City Water Entitlement pursuant to Monterey Peninsula Water Management District Ordinance 132 and Rule 23.6;

        iii. Security National Guaranty, Inc. under its frontloading agreement;

        iv. the Ralph Lane, Chuluar, Bishop, Ambler Park, Ryan Ranch, Hidden Hills, and Toro subsystems within the Monterey District; and

        v. a connection or increased use where an authorized official of the State Water Resources Control Board has given written approval.

    d. California-American Water Company shall not deny a request for new service or prohibit the increased use of water at an existing service address if an authorized official of the State Water Resources Control Board has given written approval for such service or increased use.

    e. This special condition shall expire at the filing by California-American Water Company of a Tier 1 advice letter with the Commission transmitting the written concurrence of the Deputy Director of Water Rights of the State Water Resources Control Board with California-American Water Company's finding that a permanent supply of water is ready to serve as a replacement for the unlawful diversions of Carmel River water

SPECIAL CONDITIONS (continued)
Fees & Surcharges

1. All bills are subject to the reimbursement fee set forth in Schedule No.UF

2. A surcharge is included on each bill to collect franchise taxes and/or business license fees paid to various municipalities. The amount collected is based on a percentage of the gross revenues of each bill. The percentages are as follows: Ryan Ranch 2.05%, City of Pacific Grove 2.10%, City of Carmel-by-the-Sea 2.15%, City of Seaside 1.00%, City of Del Rey Oaks Business License Fee 0.11%, City of Del Rey Oaks Franchise Fee 2.00%, City of Sand, City 0.14%, City of Monterey 1.05%, and unincorporated areas of Monterey County 1.00%.

3. Coastal Water Project (CWP) Surcharge #1: Per Decision 06-12-040, a surcharge will be applied to customer bills to collect for pre-construction costs associated with the CWP. Per Decision No. 11-09-039, the surcharge is currently 15% until the outstanding approved amounts, with interest at 4%, are recovered. This surcharge is applicable to customers in the Monterey main system.

4. Per Advice Letter XXXX, a surcharge of $0.0218 per hundred gallons will be applied to each bill to fund California American Water conservation efforts. The surcharge will remain in effect until otherwise directed by the Commission. This surcharge is applicable to customers in the Monterey main, Bishop, Hidden Hills, Ryan Ranch, Ralph Lane, Chualar, Ambler, and Toro areas.

5. Per Advice Letter XXXX, a surcharge of $1.54 for the Low-Income Ratepayer Assistance Program ("LIRAP") Balancing Account will be collected from all non-low income water and wastewater customers.

6. Per Advice Letter XXXX, a volumetric surcharge of $0.0086 per hundred gallons will be applied to each customer's bill to fund conservation efforts for the Monterey Peninsula Water Management District (MPWMD). The surcharge will remain in effect until otherwise directed by the Commission. This surcharge is applicable to customers in the Monterey main, Bishop, Hidden Hills and Ryan Ranch areas.

Fees & Surcharges

7. In accordance with the final decision issued in Monterey General Rate Case Application 08-01-027, costs associated with securing Seaside Basin water rights shall be placed in a balancing account and collected through a meter charge over the next ten years. The total amount to be recovered is $2,755,960. The Seaside Basin Adjudication Balancing Account and surcharge is applicable to customers in the Monterey main, Bishop, Hidden Hills and Ryan Ranch areas and will earn interest at the 90-day commercial rate.

Meter Size	Meter Surcharge
For 5 / 8 x 3 / 4 meter	$0.37
For 3 / 4 meter	$0.55
For 1 meter	$0.91
For 1 1 / 2 meter	$1.83
For 2 meter	$2.93
For 3 meter	$5.49
For 4 meter	$9.15
For 6 meter	$18.29
For 8 meter	$29.27

8. Per Decision XX-XX-XXX, the capped 2015 amount of $2,367,219 related to the Carmel River Mitigation Program Balancing Account will be collected through a 4.64% surcharge on a customer's total bill over a 12 month period beginning January 1 and ending December 31, 2015. The surcharge is applicable to customers in the Monterey Main and Ryan Ranch Service areas.

SPECIAL CONDITIONS (continued):
Fees & Surcharges:

12. Per Decision 12-06-040, all authorized incurred costs included in the San Clemente Dam memorandum account shall be transferred to the San Clemente Dam balancing account. California American Water will recover the regulatory asset / San Clemente Dam balancing account over a 20-year period. Recovery will be designed to collect $7,631,185.80 per annum which is an estimate to recover project costs and will be implemented through a volumetric surcharge on customers in the Monterey Main, Ryan Ranch, and Bishop services areas of the Monterey County District from July 1, 2012 until the first day of the first test year when the revenue requirement moves into base rates.

Monterey Main, Ryan Ranch, and Bishop	
	Surcharge Per 100 gal
Misc Construction	$1.1491
OWU-Permanent: Block 1	$0.2298
OWU-Permanent: Block 2	$0.4596
OWU-Permanent: Block 3	$1.8385
OWU-Temporary	$0.2298

13. Per Advice Letter 987, a surcharge is included in each bill in the Monterey Main system to recover the under-collection in the Old Monterey-Style Water Revenue Adjustment Mechanism (WRAM) Balancing Account of $2,413,408. The surcharge is shown in the table below and will remain effective for 21 months beginning April 1, 2013.

Monterey Main	
	Surcharge Per 100 gal
Misc Construction	$0.1965
OWU-Permanent: Block 1	$0.0393
OWU-Permanent: Block 2	$0.0786
OWU-Permanent: Block 3	$0.3144
OWU-Temporary	$0.0393

14. Per Advice Letter 1011-A, a surcharge is to be included as a part of the cost of water authorized by D.13-04-015 for each new service connection in Sand City authorized by D.11-03-048 to reflect the additional incremental cost of the Sand City Desalination Plant over the current average cost of production. The surcharge will be $0.4434 per hundred gallons and will be effective July 11, 2013, and will terminate in accordance with lifting of the Moratorium authorized by D.11-03-048.

GENERAL METERED SERVICE

SPECIAL CONDITIONS

General Items:

1. Qualifying low-income customers can receive a discount on their bill. Customers must apply with the Company for acceptance into the low-income program. For additional details, please see Tariff Schedule CA-LIRA.

2. Any residential customer who has been required to install a Residential Fire Sprinkler System (R.F.S.S.) at their place of residence by local fire ordinances will be allowed to have their monthly service charge reduced by one meter size for 3/4" and 1" meters and a reduction of two meter sizes for all 1-1/2" meters, provided it has been requested by the customer and verified by the Company that the lower size of meter would be large enough to provide adequate service to the residence. The R.F.S.S. Service is not considered a fire service by the Company, but is considered an oversized general metered service and therefore, only the rules and conditions of service for general metered service apply.

3. In accordance with Section 2714 of the Public Utilities Code, if a tenant in a rental unit leaves owing the company, service to subsequent tenants in that unit will, at the company's option, be furnished on the account of the landlord or property owner.

Fees and Surcharges:

1. All bills are subject to the reimbursement fee set forth in Schedule No. UF

2. A 1.00% surcharge is included on each bill to collect franchise taxes and/or business license fees paid to Monterey County. The amount collected is based on a percentage of the gross revenues of each bill.

3. Per Advice Letter XXXX, a surcharge of $0.0218 per hundred gallons will be applied to each bill to fund California American Water conservation efforts. The surcharge will remain in effect until otherwise directed by the Commission. This surcharge is applicable to customers in the Monterey main, Bishop, Hidden Hills, Ryan Ranch, Ralph Lane, Chualar, Ambler, and Toro areas.

4. Per Advice Letter XXXX, a surcharge of $1.54 for the Low-Income Ratepayer Assistance Program ("LIRAP") Balancing Account will be collected from all non-low income water and wastewater customers.

GENERAL METERED SERVICE

SPECIAL CONDITIONS

General Items:

1. The rates approved by Advice Letter No. 750-B are subject to refund and may be adjusted upward or Downward depending on the final rates authorized in A. 08-01-027 back to May 11, 2009

2. Any customer paying for service at a premise where a Residential Fire Sprinkler System (RFSS) is required/requested to be installed by local fire and building codes shall be allowed to have their monthly service charge modified in accordance with the monthly costs for RFSS service charges. Provided, however, that the RFSS rate has been requested by the customer and verified by the Company that the smaller size of meter would be large enough to provide adequate service for the property in absence of the additional demand necessary to supply water to the sprinkler system. The RFSS will not be considered a fire service by the Company, but as an oversized general metered service. As such the rules and conditions of service for general metered service shall apply.

3. Qualifying low-income customers can receive a discount on their bill. Customers must apply with the Company for acceptance into the low-income program. For additional details, please see Tariff Schedule CA-LIRA.

Schedule No. SD-1 (continued)
San Diego County District Tariff Area
GENERAL METERED SERVICE

SPECIAL CONDITIONS:

General Items:

1. Qualifying low-income customers can receive a discount on their bill. Customers must apply with the Company for acceptance into the low-income program. For additional details, please see Tariff Schedule CA-LIRA.

2. Any customer paying for service at a premise where a Residential Fire Sprinkler System (RFSS) is required/requested to be installed by local fire and building codes shall be allowed to have their monthly service charge modified in accordance with the monthly costs for RFSS service charges. Provided, however, that the RFSS rate has been requested by the customer and verified by the Company that the smaller size of meter would be large enough to provide adequate service for the property in absence of the additional demand necessary to supply water to the sprinkler system. The RFSS will not be considered a fire service by the Company, but as an oversized general metered service. As such the rules and conditions of service for general metered service shall apply.

Fees and Surcharges:

1. All bills are subject to the reimbursement fee set forth in Schedule No. UF.

2. A surcharge is included on each bill to collect franchise taxes and/or business license fees paid to various municipalities. The amount collected is based on a percentage of gross revenues of each bill. The percentage is 2% to City of San Diego and City of Imperial Beach.

3. Per Advice Letter XXXX, a surcharge of $0.0048 per 100 gallons will be applied to each bill to fund conservation efforts. The surcharge will remain in effect until otherwise directed by the Commission.

4. Per Advice Letter XXXX, a surcharge of $1.54 for the Low-Income Ratepayer Assistance Program (“LIRAP”) Balancing Account will be collected from all non-low income water and wastewater customers.

5. Per Advice Letter XXXX, the under-collected balance in the San Diego County District Consolidated Expense Balancing Account (CEBA) will be recovered through a quantity based surcharge of $0.0232 per 100 gallons over 24 months effective XXXXXXXX. The total amount will be recovered from all classes of customers.

Schedule No. LA-3M (Continued)
Los Angeles County District Tariff Area
MEASURED IRRIGATION SERVICE

SPECIAL CONDITIONS:

General Items:

1. To better manage peak demands, there will be time and day of use restrictions on all measured irrigation services. Customers will be split into two groups who will irrigate on alternate days and only during cooler evening and morning hours. Customers with even numbered addresses will be allowed to irrigate only on even numbered days of the month and customers with odd numbered addresses will be allowed to irrigate only on odd numbered days of the month.

   a. Limits on water hours: Water or irrigating of lawn, landscape or other vegetated area with water is prohibited between the hours of 9:00 a.m. and 5:00 p.m. on any day.

   b. Fines and Flow Restrictors:

      i. During 2012 California American Water will only issue warnings to customers who violate of the day and time of use restrictions.

      ii. Beginning in 2013, California American Water may impose penalties on customers who violate the day and time of use restrictions if peak use in 2012 continued to necessitate supplementation of the system with potable water.

      iii. Penalties for violation of the day and time of use restrictions will become effective upon California American Water filing a Tier 1 Advice Letter

      iv. If the Utility determines that a customer is in violation, the customer will be subject to the following fine structure.

First Offense:	Written warning, including explanation of penalty for subsequent offense.
Second Offense:	Written warning, including explanation of penalty for subsequent offense and a $100 fine.
Third Offense:	Installation of flow restrictor, and written warning, including explanation of penalty for subsequent offense.

      v. Flow Restrictor Removal Charge: The charge for the removal of a flow restrictor shall be:

Connection Sizes	Removal Charges
5/8" to 1"	$150.00
1 ½" to 2"	$200.00
3" and Larger	Actual Cost

LOW INCOME RATEPAYER ASSISTANCE PROGRAM

SPECIAL CONDITIONS APPLICABLE TO LOW INCOME

General Items:

1. **Low Income Ratepayer Assistance Program (LIRA):** As reflected in this tariff, qualifying customers receive a surcredit, as noted above, per month per qualifying residential customer. Customers must apply with the Company for acceptance into the low income program. Qualification criteria are outlined below. This program is also known as the H2O Help to Others Program.

    a. **LIRA Household**: A LIRA Household is a household where the total gross income from all sources, including total income from all persons living full-time in the household, is less than shown on the table below based on the number of persons in the household. Total gross income shall include both taxable and non-taxable income. Persons who are claimed as a dependent on another person's income tax return are not eligible for this program. The California American Water bill must be in the customer's name.

Household Size	CARE & Energy Savings Assistance Program (LIRA program)
1-2	$31,460
3	$39,580
4	$47,700
5	$55,820
6	$63,940
7	$72,060
8	$80,180
Each Additional person	$8,120

California American Water
LOW INCOME RATEPAYER ASSISTANCE PROGRAM

SPECIAL CONDITIONS APPLIACABLE TO LOW INCOME

General Items:

1. **Low Income Ratepayer Assistance Program (LIRA)** (Continued):

   b. **Application and Eligibility Declaration:** An application and eligibility declaration on a form authorized by the Commission is required for each request for service under this schedule. Renewal of a customer's eligibility declaration will be required every two years and may be required on an annual basis. Customers are only eligible to receive service under this rate schedule at one residential location at any one time, and the rate applies only to the customer's permanent primary residence. This schedule is not applicable where, in the opinion of the Company, either the accommodation or the occupancy is transitory. Customers may self certify and may be requested to present documentation verifying participation in a low income assistance program.

   c. **Commencement of Rate:** Eligible customers shall be billed on this schedule commencing no later than one billing period after receipt and approval of the customer's application by the Company.

   d. **Verification:** Information provided by the applicant is subject to verification by the Company. Refusal or failure of a customer to provide documentation of eligibility acceptable to the Company, upon the request of the Company, shall result in removal from this rate schedule.

   e. **Notice from Customer:** It is the customer's responsibility to notify the Company if there is a change in the customer's eligibility status. Notification should be made within 30 days of the customer's change in eligibility.

   f. Customers may be re-billed for periods of ineligibility under the applicable rate schedule.

California American Water
LOW INCOME RATEPAYER ASSISTANCE PROGRAM

SPECIAL CONDITIONS APPLICABLE TO LOW INCOME (Continued):

General Items:

2. **Low Income Ratepayer Assistance Program (LIRA) for Migrant Farm Worker Housing Centers (MFHC):** Consistent with Assembly Bill (AB) 868, signed on September 21, 2004, and with California Public Utilities Commission Decision No. 08-03-022, the low-income discount shall be offered to non-profit farm worker housing centers, including those not managed by the Office of Migrant Services (OMS). Qualifying facilities receive a surcredit equal to the applicable Low Income monthly discount in the service area per qualifying housing unit. Customers must apply with the Company for acceptance into the low income program. Qualification criteria are outlined below. This program is also known as the H2O Help to Others Program.

    a. **LIRA for MFWHC:** An MFWHC applying for acceptance into the program must meet the requirements listed below;

        1. The facility must provide pursuant to section 50710 of the Health and Safety Code or meet the definition in Subdivision (b) of Section 1140.4 of the Labor Code and have an exemption from local property taxes pursuant to Subdivision (g) of Section 214 of the Revenue and Taxation Code.

        2. The facility must provide a copy of current contract with the Office of Migrant Services, or a copy of tax-exempt documentation.

3. **Low-Income Ratepayer Assistance Program (LIRA) for Nonprofit Group Living Facilities:** Group living facilities, homeless shelters, hospices and women's shelters may be eligible for the low-income discount. Qualifying facilities receive a surcredit equal to the applicable Low-Income monthly discount in the service area per qualifying housing unit. Customers must apply with the Company for acceptance into the low income program. Qualification criteria are outlined below. This program is also known as the H2O Help to Others Program.

    a. **LIRA for Nonprofit Group Living Facilities:** A nonprofit group living facility applying for acceptance into the program must meet the following requirements;

        1. The organization operating the facility must provide a copy of the 501(c) (3) document certifying tax-exempt status.

        2. All California American Water accounts must be in the name of the organization holding the tax-exempt status.

        3. All of the residents or clients (including family units) occupying the facility at any given time must individually meet current income eligibility requirements as shown in Section 1 of this tariff schedule.

LOW INCOME RATEPAYER ASSISTANCE PROGRAM

SPECIAL CONDITIONS APPLICABLE TO LOW INCOME (Continued):

General Items:

3. **Low-Income Ratepayer Assistance Program (LIRA) for Nonprofit Group Living Facilities:**
   b. Facilities that are not eligible for the program:

      1. Nonprofit facilities providing social services only.

      2. Group living facilities providing no other service than a place to live.

      3. Government owned or operated facilities.

      4. Government-subsidized facilities providing lodging only.

   c. Additional requirements:

      Group living facilities must provide special-needs social services such as meals or rehabilitation, and may have satellite facilities in the name of one licensed organization that meet The same requirements as the main facility. Group living facilities include transitional housing such As drug rehabilitation centers or halfway houses, short-or long-term – care facilities, group homes for the physically or mentally Challenged and other nonprofit group living facilities.

      Homeless shelters, hospices and women's shelters must provide lodging as the primary Function, must be open for operation with at least six beds for a minimum of 180 days and/or nights per year and may also have satellite facilities in the name of one licensed organization that meet the same requirements as the main facility.

      Separate applications must be filed for each type of facility (a homeless shelter, a women's shelter, a hospice or group living facility), even if they are under one licensed organization.

Fees and Surcharges:

Please reference each district's Tariff Schedule 1 for a list of applicable fees and surcharges. Low Income Rate Assistance customers are exempt from the Low-Income Ratepayer Assistance Program ("LIRAP") Balancing Account surcharge.

SPECIAL CONDITIONS APPLICABLE TO ALL SERVICE AREAS

1. The fire protection service and connection shall be installed by the Utility or under the Utility's direction. Cost of the entire fire protection installation shall be paid for by the applicant. Such payment shall not be subject to refund.

2. If the distribution main of adequate size to serve a private fire protection system in addition to all other normal service does not exist in the street or alley adjacent to the premises to be served, then a service main from the nearest existing main of adequate capacity will be installed by the utility at the cost of the applicant. Such cost shall not be subject to refund.

3. The installation housing the detector type check valve and meter and appurtenances there to shall be in a location mutually agreeable to the applicant and the Utility. Normally, such installation shall be located on the premises of applicant, adjacent to the property line. The expense of maintaining the fire protection facilities on the applicant's premises (including the vault, meter, detector· type check valves, backflow device and appurtenances) shall be paid for by the applicant.

(continued)

Schedule No. CA-4
California American Water
PRIVATE FIRE PROTECTION SERVICE

SPECIAL CONDITIONS APPLICABLE TO ALL SERVICE AREAS (continued)

4. The utility will supply only such water at such pressure as may be available from time to time as a result of its normal operation of the system.

5. All bills are subject to the reimbursement fee set forth in Schedule No. UF.

6. Any unauthorized use of water other than fire protection purposes, charges shall be made therefore under Schedule No. 1 General Metered Service for the applicable district, at the regular established rate for general metered service, including applicable surcharges, and/or may be grounds for the Utility discontinuing the fire protection service without liability to the Utility.

7. All facilities paid for by the applicant, excluding the connection at the main and any service pipe located in a public right-of-way, shall be the sole property of the applicant. The Utility and its duly authorized agents shall have the right to ingress to and egress from the premises for all purposes relating to said facilities

8. The minimum diameter will be 1 inch, and maximum diameter will be the diameter of the main to which the service is connected.

9. Service hereunder if for private fire protection systems to which no connections for other than fire protection purposes are allowed and which are regularly inspected by the underwriters having jurisdiction. All facilities are to be installed according to the Utility's specifications and maintained to the Utility's satisfaction. The Utility may require the installation of a backflow prevention device and a standard protection against theft, leakage or waste of water

10. No structure shall be built over the fire protection service and the customer shall maintain and safeguard the area occupied by the service from traffic and other hazardous conditions. The customer will be responsible for any damage to the fire protection service facilities

11. Subject to the approval of the Utility, any change in the location or construction of fire protection service as may be requested by public authority or the customer will be made by the Utility following payment to the Utility of the entire cost of such change.

(continued)

Schedule No. CA-4
California American Water
PRIVATE FIRE PROTECTION SERVICE
(continued)

SPECIAL CONDITIONS APPLICABLE TO MONTEREY COUNTY DISTRICT (continued)

1. Customers who use Cal-Am's system to provide for fire flow, but do not receive their domestic supply from Cal-Am, will pay a special Private Fire Service rate equal to either the higher of the standard rate for their size service or a rate equal to the sum of the standard monthly Service Charges that would be billed for all the properties served by the Private Fire Service if they did receive domestic service. All fire service to non-domestic customers will be considered private fire service. If a new public fire hydrant is required to be installed for a non-domestic customer and other customers will benefit, no fee will be charged.

2. A surcharge is included on each bill to collect franchise taxes and/or business license fees paid to various municipalities. The amount collected is based on a percentage of the gross revenues of each bill. The percentages are as follows: Ryan Ranch 2.05%, City of Pacific Grove 2.10%, City of Carmel-by-the-Sea 2.15%, City of Seaside 1.00%, City of Del Rey Oaks Business License Fee 0.11%, City of Del Rey Oaks Franchise Fee 2.00%, City of Sand City 0.14%, City of Monterey 1.05%, and unincorporated areas of Monterey County 1.00%.

3. Coastal Water Project (CWP) Surcharge #1: Per Decision 06-12-040, a surcharge will be applied to customer bills to collect for pre-construction costs associated with the CWP. Costs to be recovered through CWP Surcharge #1 include $1,353,831 in public outreach costs and $1,639,429 in other costs, for a total of $2,993,260. A surcharge of 4% will be added to all bills rendered from January 1, 2007 through June 30, 2007. The surcharge will be increased to 7% from July 1, 2007 through December 31, 2007 and will increase to 10% from January 1, 2008 through September 29, 2011. On September 30, 2011, the surcharge will increase to 15% through a time when the outstanding approved amounts, with interest, are recovered. This surcharge is applicable to customers in the Monterey main system

California American Water Tariff Area

PRIVATE FIRE HYDRANT SERVICE

SPECIAL CONDITIONS APPLICABLE TO ALL SERVICE AREAS (continued)

1. The fire protection service and connection shall be installed by the Utility or under the Utility's direction. Cost of the entire fire protection installation shall be paid for by the applicant. Such payment shall not be subject to refund.

2. The installation housing the detector type check valve and meter and appurtenances thereto shall be in a location mutually agreeable to the applicant and the Utility. Normally, such installation shall be located on the premises of applicant, adjacent to the property line. The expense of maintaining all facilities which are the sole property of the applicant (including the vault, meter, detector type check valves, backflow devise and appurtenances) shall be paid for by the applicant.

3. All facilities paid for by the applicant, excluding the connection at the main and any service pipe located in a public right-of-way, shall be the sole property of the applicant. The Utility and its duly authorized agents shall have the right to ingress and to egress from the premises for all purposes relating to said facilities.

4. The minimum diameter will be 6 inches, and the maximum diameter will be the diameter of the main to which the service is connected.

5. If distribution main of adequate size to serve a private fire protection system in addition to all other normal services does no exist in the street or alley adjacent to the premises to be served, then a main from the nearest existing main of adequate capacity shall be installed by the Utility, or under the Utility's direction, and cost paid by the applicant. Such payment shall not be subject to refund.

6. Service hereunder is for private fire hydrant service which no connections for other than fire protection purposes are allowed and which are regularly inspected by the underwriters having jurisdiction. All facilities are to be installed according to the Utility's specifications and maintained to the Utility's satisfaction. The Utility may require the installation of a backflow prevention devise and a standard detector type meter approved by the Insurance Services Offices for protection against theft, leakage or waste of water.

7. No structure shall be built over the fire protection service and the customer shall maintain and safeguard the area occupied by the service from traffic and other hazardous conditions. The customer will be responsible for any damage to the fire protection service facilities.

(continued)

Schedule No. CA-4H
California American Water Tariff Area
PRIVATE FIRE HYDRANT SERVICE

SPECIAL CONDITIONS APPLICABLE TO ALL SERVICE AREAS (Continued):

8. Subject to the approval of the Utility, any change in the location or construction of the fire protection service as may be requested by public authority or the customer will be made by the Utility following payment to the Utility of the entire cost of such change.

9. Any unauthorized use of water other than fire protection purposes, charges shall be made therefore under Schedule No. 1 General Metered Service for the applicable district, at the regular established rate for general metered service, including applicable surcharges, and/or may be grounds for the Utility discontinuing the fire protection service without liability to the Utility.

10. All bills are subject to the reimbursement fee set forth on Schedule No. U.F.

SPECIAL CONDITIONS APPLICABLE TO MONTEREY DISTRICT:

1. Customers who use Cal-Am's system to provide for fire flow, but do not receive their domestic Supply from Cal-Am, will pay a special Private Fire Service rate equal to either the higher of the standard rate for their size service or a rate equal to the sum of the standard monthly Service Charges that would be billed for all the properties served by the Private Fire Service if they did receive domestic service. All fire service to non-domestic customers will be considered private fire service. If a new public fire hydrant is required to be installed for a non-domestic customer and other customers will benefit, no fee will be charged.

2. A surcharge is included on each bill to collect franchise taxes and/or business license fees paid to various municipalities. The amount collected is based on a percentage of the gross revenues of each bill. The percentages are as follows: Ryan Ranch 2.05%, City of Pacific Grove 2.10%, City of Carmel-by-the-Sea 2.15%, City of Seaside 1.00%, City of Del Rey Oaks Business License Fee 0.11%, City of Del Rey Oaks Franchise Fee 2.00%, City of Sand City 0.14%, City of Monterey 1.05%, and unincorporated areas of Monterey County 1.00%.

(continued)

Schedule No. CA-4H
California American Water Tariff Area
PRIVATE FIRE HYDRANT SERVICE

SPECIAL CONDITIONS APPLICABLE TO MONTEREY DISTRICT (continued):

3. Coastal Water Project (CWP) Surcharge #1: Per Decision 06-12-040, a surcharge will be applied to customer bills to collect for pre-construction costs associated with the CWP. Costs to be recovered through CWP Surcharge #1 include $1,353,831 in public outreach costs and $1,639,429 in other costs, for a total of $2,993,260. A surcharge of 4% will be added to all bills rendered from January 1, 2007 through June 30, 2007. The surcharge will be increased to 7% from July 1, 2007 through December 31, 2007 and will increase to 10% from January 1, 2008 through September 29, 2011. On September 30, 2011, the surcharge will increase to 15% through a time when the outstanding approved amounts, with interest, are recovered. This surcharge is applicable to customers in the Monterey main system.

SPECIAL CONDITIONS APPLICABLE TO SAN DIEGO DISTRICT

1. A Surcharge is included on each bill to collect franchise taxes and/or business license fees paid to various municipalities. The amount collected is based on a percentage of gross revenues of each bill. The percentage is 2% to City of San Diego and the City of Imperial Beach.

SPECIAL CONDITIONS APPLICABLE TO VENTURA DISTRICT

1. A surcharge is included on each bill to collect franchise taxes and/or business license fees paid to various municipalities. The amount collected is 2.0% based on gross revenues before taxes and PUC fees for the County of Ventura and the City of Thousand Oaks.

SPECIAL CONDITIONS APPLICABLE TO LOS ANGELES COUNTY DISTRICT

1. A surcharge is included on each bill to collect franchise taxes and/or business license fees paid to various municipalities. The amount collected is based on a percentage of the gross revenues of each bill. The percentages are as follows: City of San Marino 1.143%; City of San Gabriel 2.0%; City of Rosemead 1.183%; County of Los Angeles 2.417%; City of Duarte 1.966%; and City of Bradbury 1.959%. Franchise taxes in the Baldwin Hills District are 2.00% per customer on a monthly basis.

SPECIAL CONDITIONS APPLICABLE TO LARKFIELD DISTRICT

1. A surcharge is included on each bill to collect franchise fees and/or business license fees paid to the County of Sonoma. The amount collected is based on a percentage of the gross revenues of each bill. The percentage is as follows: Larkfield Franchise Fee – 1.00%

CALIFORNIA AMERICAN WATER

2013 GENERAL RATE CASE

Attachment E-5 For Settlement

Rules Tariff

Rule No. 9 (Continued)
RENDERING AND PAYMENT OF BILLS

C. Late Payment Charge.

A late payment charge of 1.5% may be applied to the total unpaid balance of a domestic or nondomestic Customer Account if the customer's payment is not received before the past due date shown on the bill. Customers will be notified on the monthly issued bill that such a late payment fee will be applied to any account that is not paid before the past due date.

The fee shall be applied at the time a late payment notice is issued. If the customer pays the balance on the date the late payment notice is mailed, then that assessed fee will be forgiven. The fee shall be assessed on all open balances regardless of whether it is an initial or subsequent bill when a total balance has not been paid or there should have been a shut off for non-payment. The fee shall be compounded on all balances that are past due, unless the customer is under a payment agreement or over 180 days old on wastewater customers. CAW and ORA agree that there should be 15% reduction factor on late payments as a result of the implementation of the fee.

Low Income Rate Assistance (LIRA) customers are exempt from application of the late payment charge.

Rule No.11 (continued)
DISCONTINUANCE AND RESTORATION OF SERVICE

. 2. For Noncompliance with Rules

The utility may discontinue service to any customer for violation of these rules after it has given the customer at least five days written notice of such intention. Where safety of water supply is endangered, service may be discontinued immediately without notice.

3. For Waste of Water

a. Where negligent or wasteful use of water exists on a customer's premises, the utility may discontinue the service if such practices are not remedied within five days after it has given the customer written notice to such effect.

b. In order to protect itself against serious and unnecessary waste or misuse of water, the utility may meter any flat rate service and apply the regularly established meter rates where the customer continues to misuse or waste water beyond five days after the utility has given the customer written notice to remedy such practices.

4. For Unsafe Apparatus or Where Service is Detrimental or Damaging to the Utility or its Customers.

If an unsafe or hazardous condition is found to exist on the customer's premises, or if the use of water thereon by apparatus, appliances, equipment or otherwise is found to be detrimental or damaging to the utility or its customers, the service may be shut off without notice. The utility will notify the customer immediately of the reasons for the discontinuance and the corrective action to be taken by the customer before service can be restored.

5. For Fraudulent Use of Service

When the utility has discovered that a customer has obtained service by fraudulent means, or has diverted the water service for unauthorized use, the service to that customer may be discontinued without notice. The utility will not restore service to such customer until that customer has complied with all filed rules and reasonable requirements of the utility and the utility has been reimbursed for the full amount of the service rendered and the actual cost to the utility incurred by reason of the fraudulent use.

C. Restoration of Service

1. Reconnection Charge

Where service has been discontinued for violation of these rules or for nonpayment of bills, the utility may charge $10.00 for reconnection of service during regular working hours or $175 for reconnection of service at other than regular working hours when the customer has requested that the reconnection be made at other than regular working hours.

(Continued)

Rule No. 15 (Continued)
MAIN EXTENSIONS

C. Extensions to Serve Subdivisions, Tracts, Housing Projects, Industrial Developments, Commercial Buildings, or Shopping Centers

1. Advances (continued)

g. A special facility fee for water supply will be contributed in lieu of any domestic water supply requirement covered under Section C. 1.b in the Monterey District in all areas that are to be served water produced by the proposed Monterey Peninsula Water Supply Project ("MPWSP"). This includes all areas in the Monterey County District except those in the Toro, Garrapata, Ambler Park, Ralph Lane and Chualar; new connections in Sand City, new customers in the Pebble Beach area who have purchased water rights through the Pebble Beach Company, MPWMD Public Allocation water, and properties with existing MPWMD documented on-site water credits.

h. The special facility fee shall be based on the cost of the additional facilities at the MPWSP necessary to serve new customers divided by the AF of additional capacity yield of the new facilities. The fee is agreed to be established at $24,000 per acre foot of annual water use. The fee can be charged in increments of less than an acre foot depending on the projected annual needs.

i. The special facility fee shall be recorded as a contribution-in-aid- of-construction and as such will offset the cost of the new facilities necessary to serve these new customers.

Attachment E-6 For Settlement

Mixed Use Tariff

Schedule No. MO-1 MU
California American Water
GENERAL METERED SERVICE
RESIDENTIAL/NON-RESIDENTIAL MIXED USE

APPLICABILITY –

Applicable to all water furnished on a metered basis to mixed-use customers of record as of December 31, 2014. See special conditions below for new mixed-use customers requesting service after this date.

TERRITORY –

The incorporated cities of Monterey, Pacific Grove, Carmel-by-the-Sea, Del Rey Oaks, Sand City, a portion of Seaside, Hidden Hills and Ryan Ranch subdivisions, Bishop subdivision including the area known as Laguna Seca Ranch Estates and vicinity and certain unincorporated areas in the County of Monterey.

RATES

Quantity Rates:

MONTEREY MAIN, HIDDEN HILLS, RYAN RANCH, AND BISHOP SYSTEMS:

Residential & Multi-Residential Customers:	Base Rate Per 100 gal (CGL)
For the first 74.8 gal x Customer Allotment	$0.6159
For the second 74.8 gal x Customer Allotment	$0.9238
For the third 74.8 gal x Customer Allotment	$2.4635
For the fourth 74.8 gal x Customer Allotment	$4.9270
All Water over 299.2 gal x Customer Allotment	$6.1587

Meter Rates:

MONTEREY MAIN, HIDDEN HILLS, RYAN RANCH, AND BISHOP SYSTEMS:

	Per Meter Per Month
For 5/8 x 3/4-inch meter	$9.84
For 3/4-inch meter	$14.76
For 1-inch meter	$24.61
For 1-1/2-inch meter	$49.21
For 2-inch meter	$78.74
For 3-inch meter	$147.64
For 4-inch meter	$246.07
For 6-inch meter	$492.14
For 8-inch meter	$787.43

The Meter Charge is a readiness-to-serve charge which is applicable to all metered service and to which is added the charge for water used computed at the Quantity Rate

GENERAL METERED SERVICE
RESIDENTIAL/NON-RESIDENTIAL MIXED USE

SPECIAL CONDITIONS:

General Items:

1. The boundaries in which the above rates apply are as set forth in the Preliminary Statement and delineated on the Tariff Service Area Maps filed as a part of these tariff schedules.

2. The per capita design shall remain in effect and until ordered otherwise by the Commission.

3. New mixed-use customers requesting service after December 31, 2014 will not be billed under this tariff, but will be billed under the appropriate non-residential rate division as defined in Tariff MO-1 C.

4. Calculation of residential and multi-residential allotment for Monterey Main, Hidden Hills, Ryan Ranch and Bishop systems:

   a. The five consumption blocks are calculated for each residential and multi-residential customer based on the number of people, season (winter/summer), size of lot, and number of large animals according to the following allotments for each characteristic:

Block Width Adjustment for Number of People

Number of people in a residence	Equivalent gallons per day
1	37.5
2	75
3	112.5
4	150
5	187.5
6	225
7	262.5

Schedule No. MO-1 MU (Continued)

GENERAL METERED SERVICE
RESIDENTIAL/NON-RESIDENTIAL MIXED USE

SPECIAL CONDITIONS (continued)
General Items:

Block Width Adjustment for Large Animals

Number of large animals	Equivalent gallons per day
1 or 2	12.5
3 to 5	25
6 to 10	37.5
11 to 20	50
Over 20	62.5

Block Width Adjustment for Landscape
Available in summer (May through October) only

Size of Lot	Equivalent gallons per day
No outside space	0
Up to ¼ acre	25
Over ¼, up to ½ acre	50
Over ½ acre, up to 1 acre	50
Over 1 acre, up to 2 acres	75
Over 2 acres, up to 3 acres	75
Over 3 acres, up to 4 acres	75
Greater than 4 acres	75

Block Width Adjustment for Non-Residential Use

Block	Equivalent gallons per day
1	0
2	100% of Non-Residential Allotment
3	7.5% of Non-Residential Allotment
4	7.5% of Non-Residential Allotment
5	All usage over 115% of Non-Residential Allotment

Schedule No. MO-1 MU (Continued)
California American Water
GENERAL METERED SERVICE
RESIDENTIAL/NON-RESIDENTIAL MIXED USE

SPECIAL CONDITIONS (continued)
General Items:

b. Each customer's total block width for each block are calculated by adding block width adjustments according to the below:

Blocks 1 will only have an allotment for the number of people and number of large animals. Blocks 2 will only have an allotment for the number of people, number of large animals and the 100% of non-residential set non-residential allotment.

Blocks 3 and 4 will have an allotment for landscape in summer months (with decreasing amount per acre above 1 acre) as well as the per person allotment, the large animal allotment and 15% of the non-residential allotment. Summer months are defined here as May, June, July, August, September, and October.

Fees & Surcharges:

1. All bills are subject to the reimbursement fee set forth in Schedule No. UF.

2. A surcharge is included on each bill to collect franchise taxes and/or business license fees paid to various municipalities. The amount collected is based on a percentage of the gross revenues of each bill. The percentages are as follows: Ryan Ranch 2.05%, City of Pacific Grove 2.10%, City of Carmel-by-the-Sea 2.15%, City of Seaside 1.00%, City of Del Rey Oaks Business License Fee 0.11%, City of Del Rey Oaks Franchise Fee 2.00%, City of Sand, City 0.14%, City of Monterey 1.05%, and unincorporated areas of Monterey County 1.00%.

3. Coastal Water Project (CWP) Surcharge #1: Per Decision 06-12-040, a surcharge will be applied to customer bills to collect for pre-construction costs associated with the CWP. Per Decision No. 11-09-039, the surcharge is currently 15% until the outstanding approved amounts, with interest at 4%, are recovered. This surcharge is applicable to customers in the Monterey main system.

4. Per Advice Letter XXXX, a surcharge of $1.54 per hundred gallons for the Low-Income Ratepayer Assistance Program ("LIRAP") Balancing Account will be collected from all non-low income water and wastewater customers.

5. Per Advice Letter XXXX, a surcharge of $0.0218 per hundred gallons will be applied to each bill to fund California American Water conservation efforts. The surcharge will remain in effect until otherwise directed by the Commission. This surcharge is applicable to customers in the Monterey main, Bishop, Hidden Hills, Ryan Ranch, Ralph Lane, Chualar, Ambler, and Toro areas.

Schedule No. MO-1 MU (Continued)
California American Water
GENERAL METERED SERVICE
RESIDENTIAL/NON-RESIDENTIAL MIXED USE

SPECIAL CONDITIONS: (Continued)
Fees & Surcharges:

6. Per Advice Letter XXXX, a volumetric surcharge of $0.0086 per hundred gallons will be applied to each customer's bill to fund conservation efforts for the Monterey Peninsula Water Management District (MPWMD). The surcharge will remain in effect until otherwise directed by the Commission. This surcharge is applicable to customers in the Monterey main, Bishop, Hidden Hills and Ryan Ranch areas.

7. In accordance with the final decision issued in Monterey General Rate Case Application 08-01-027, costs associated with securing Seaside Basin water rights shall be placed in a balancing account and collected through a meter charge over the next ten years. The total amount to be recovered is $2,755,960. The Seaside Basin Adjudication Balancing Account and surcharge is applicable to customers in the Monterey main, Bishop, Hidden Hills and Ryan Ranch areas and will earn interest at the 90-day commercial rate.

Meter Size	Meter Surcharge
For 5 / 8 x 3 / 4 meter	$0.37
For 3 / 4 meter	$0.55
For 1 meter	$0.91
For 1 1 / 2 meter	$1.83
For 2 meter	$2.93
For 3 meter	$5.49
For 4 meter	$9.15
For 6 meter	$18.29
For 8 meter	$29.27

8. Per Decision XX-XX-XXX, the capped 2015 amount of $2,367,219 related to the Carmel River Mitigation Program Balancing Account will be collected through a 4.64% surcharge on a customer's total bill over a 12 month period beginning January 1 and ending December 31, 2015. The surcharge is applicable to customers in the Monterey Main and Ryan Ranch Service areas.

Schedule No. MO-1 MU (Continued)
California American Water
GENERAL METERED SERVICE
RESIDENTIAL/NON-RESIDENTIAL MIXED USE

SPECIAL CONDITIONS: (Continued)
Fees & Surcharges:

10. Per Advice Letter XXXX, the balance in the Monterey County District Consolidated Expense Balancing Account will be recovered through a quantity based surcharge, as shown in the below table. The effective date for the surcharge is XXXXXX and will be recovered from all customer classes in all service areas excluding Chualar service area.

Service Area	Quantity Surcharge Per 100 gallons (CGL)	Number of Months Applicable from Effective Date
Monterey Main	$0.1170	36
Bishop	$0.0656	24
Hidden Hills	$0.0657	24
Ryan Ranch	$0.0657	24
Ambler Park	$0.0656	24
Ralph Lane	$0.0438	36

11. Per Decision 12-06-040, all authorized incurred costs included in the San Clemente Dam memorandum account shall be transferred to the San Clemente Dam balancing account. California American Water will recover the regulatory asset / San Clemente Dam balancing account over a 20-year period. Recovery will be designed to collect $7,631,185.80 per annum which is an estimate to recover project costs and will be implemented through a volumetric surcharge on customers in the Monterey Main, Ryan Ranch, and Bishop services areas of the Monterey County District from July 1, 2012 until the first day of the first test year when the revenue requirement moves into base rates.

Monterey Main & Ryan Ranch

Residential & Multi-Residential:	SCD Surcharge Per 100 gal (CGL)
Block 1: For the first 74.8 gal x Customer Allotment	$0.0000
Block 2: For the second 74.8 gal x Customer Allotment	$0.1217
Block 3: For the third 74.8 gal x Customer Allotment	$0.2433
Block 4: For the fourth 74.8 gal x Customer Allotment	$0.4866
Block 5: All water over 299.2 gal x Customer Allotment	$0.8516

Bishop

Residential & Multi-Residential:	Per 100 gal (CGL)
Block 1: For the first 74.8 gal x Customer Allotment	$0.0000
Block 2: For the second 74.8 gal x Customer Allotment	$0.1217
Block 3: For the third 74.8 gal x Customer Allotment	$0.2433
Block 4: For the fourth 74.8 gal x Customer Allotment	$0.3041
Block 5: All water over 299.2 gal x Customer Allotment	$0.4866

Schedule No. MO-1 MU (Continued)
California American Water
GENERAL METERED SERVICE
RESIDENTIAL/NON-RESIDENTIAL MIXED USE

SPECIAL CONDITIONS: (Continued)
Fees & Surcharges:

12. Per Advice Letter 987, a surcharge is included in each bill in the Monterey Main system to recover the under-collection in the Old Monterey-Style Water Revenue Adjustment Mechanism (WRAM) Balancing Account of $2,413,408. The surcharge is shown in the table below and will remain effective for 21 months beginning April 1, 2013.

Monterey Main Residential & Multi-Residential:	**Surcharge Per 100 gal (CGL)**
Block 1: For the first 74.8 gal x Customer Allotment	$0.0000
Block 2: For the second 74.8 gal x Customer Allotment	$0.0267
Block 3: For the third 74.8 gal x Customer Allotment	$0.0535
Block 4: For the fourth 74.8 gal x Customer Allotment	$0.1068
Block 5: All water over 299.2 gal x Customer Allotment	$0.1870

13. Per Advice Letter 1011-A, a surcharge is to be included as a part of the cost of water authorized by D.13-04-015 for each new service connection in Sand City authorized by D.11-03-048 to reflect the additional incremental cost of the Sand City Desalination Plant over the current average cost of production. The surcharge will be $0.4434 per hundred gallons and will be effective July 11, 2013, and will terminate in accordance with lifting of the Moratorium authorized by D.11-03-048.

14. Per Advice Letter 1013-B, a surcharge is included in each bill in the Monterey Main system to recover the total allowed actual and forecasted costs of the Sand City Desalination Plant through December 31, 2014 of $3,047,379. In compliance with D.13-04-015, the surcharge will be recalculated to take into account appropriate costs, collections, and future allowed recoveries.

Monterey Main Residential & Multi-Residential:	**Surcharge Per 100 gal (CGL)**
Block 4: For the fourth 74.8 gal x Customer Allotment	$0.6575
Block 5: All water over 299.2 gal x Customer Allotment	$0.6575

Attachment E-8 For Settlement

Compound Meter Tariff

Schedule No. CA-Compound Meters
California American Water
COMPOUND METERS

APPLICABILITY

Applicable to all service.

TERRITORY

All territories served by California American Water Company

RATES

Detailed rates to be provided as part of the proposed decision for each district, but in general the total flow of all meters should be used to find the closest flow of a single larger meter. And when deciding between two meter flows, use the lower flow meter, which would result in a lower charge to the customer. For example, consider that a 1.5" inch meter flows 100 gpm. Therefore two, 1.5" meters flow 200 gpm. Given that total flow, the nearest total equivalent flow is either a 2" meter (160 gpm) or a 3" meter (450 gpm). The charge should be rounded down to the customer benefit.

Mater Battery Accounts—flows

Meter size	Average flow at 100% accuracy
5/8"	20 gpm
3/4"	30 gpm
1"	50 gpm
1 ½"	100 gpm
2"	160 gpm
3"	450 gpm
4"	1,100 gpm
6"	2,300 gpm
8"	4,000 gpm
10"	7,250 gpm

Late, Reconnect, Connection Fees

Schedule No. WW-FEES
Monterey County Sewer Service
LATE PAYMENT FEES, RECONNECTION FEES, AND FACILITIES FEES

APPLICABILITY

Applicable to all sewer service.

TERRITORY

Subdivisions of Oak Hills and Indian Springs, the community of Spreckels, in the vicinity of Salinas, Monterey County, and Monterey County.

RATES

Late Payment Fee: A late charge of 1.5% on unpaid balance will be assessed. Customers will be notified on the monthly issued bill that the 1.5% late fee will be applied to any account that is not paid before the past due date shown on the bill. The fee shall be applied at the time a late payment notice is issued. If the customer pays the balance on the date the late payment notice is mailed, then that assessed fee will be forgiven. The fee shall be assessed on all open balances regardless of whether it is an initial or subsequent bill when a total balance has not been paid or there should have been a shut off for non-payment, except the fee shall not be applied when the account is over 180 days old. The fee shall be compounded on all balances that are past due, unless they are under payment agreement. All bills shall be subject to the PUC reimbursement fee as set forth in Schedule No. UF.

Reconnection Fee: Where service has been discontinued for violation of these rules or for nonpayment of bills, the utility may charge $10.00 for reconnection of service during regular working hours or $175.00 for reconnection of service at other than regular working hours when the customer has requested that the reconnection be made at other than regular working hours. If payment is received after 3:00 PM, service will not be restored until the next business day. All bills shall be subject to the PUC reimbursement fee as set forth in Schedule No. UF.

If payment is received after 3:00 PM, service will not be restored until the next business day. All bills shall be subject to the PUC reimbursement fee as set forth in Schedule No. UF.

Connection Fee for each Service Connection:

For 5/8 x 3/4 – inch meter	$2,000.00
For 3/4 – inch meter	3,000.00
For 1– inch meter	5,000.00
For 1 1/2 – inch meter	10,000.00
For 2 – inch meter	16,000.00

Connections larger than 2” will be billed at actual costs of construction.

Connection fees are payable in addition to and do not limit any charges for extensions of mains that may be applicable under Rule 15, Main Extensions. Connection fees are also in addition to any special facilities fees that may be applicable in any particular area. These fees are not subject to the Public Utility Commission Reimbursement Fee surcharge in schedule UF. These fees shall be used only for the installation of new infrastructure within all services areas, with the exception of Placer County in the Sacramento District. These fees shall be recorded as a contribution-in-aid-of-construction.

Attachment E-10 For Settlement

Larkfield Connection Fees

Schedule No. LK-F
Larkfield District Tariff Area
CONNECTION FEES

APPLICABILITY
Applicable to all customers applying for service from the Utility in the Larkfield District service area not previously connected to its distribution mains, for additional service connections to existing premises, and for increases in size of service connections to existing premises due to change in use.

TERRITORY
This schedule is applicable within the unincorporated areas known as the Larkfield and Wikiup subdivisions and the community of Fulton, three miles north of Santa Rosa, Sonoma County.

RATES

Initial Fee for each Service Connection:

For 5/8 x 3/4 – inch meter	$2,000.00
For 3/4 – inch meter	3,000.00
For 1– inch meter	5,000.00
For 1 1/2 – inch meter	10,000.00
For 2 – inch meter	16,000.00

SPECIAL CONDITIONS

1. Connection fees are payable in addition to and do not limit any charges for extensions of mains that may be applicable under Rule 15, Main Extensions.

2. These fees are not subject to the Public Utility Commission Reimbursement Fee surcharge in schedule UF.

3. These fees shall be used only for the repair and replacement or the installation of new infrastructure within the Larkfield District service area, including the Larkfield and Wikiup subdivisions and the community of Fulton.

4. These fees shall be deposited in a separate trustee account and used only upon permission of the Water Division or its successor.
