**APPLICATION OF SAN DIEGO GAS & ELECTRIC COMPANY (U 902 E) TO
AMEND RENEWABLE ENERGY POWER PURCHASE AGREEMENT WITH
NATURENER RIM ROCK WIND ENERGY, LLC AND FOR AUTHORITY TO
MAKE A TAX EQUITY INVESTMENT IN THE PROJECT**

**I.
INTRODUCTION**

Pursuant to California Public Utilities Code (“P.U. Code”) Sections 399.11 *et seq.*, 454, 454.5 and 701, and the California Public Utilities Commission’s (“Commission”) Rules of Practice and Procedure, San Diego Gas & Electric Company (“SDG&E”) hereby submits this application (“Application”) to amend an existing renewable energy power purchase agreement (“PPA”) with NaturEner Rim Rock Wind Energy, LLC (“Rim Rock Wind”) and for authority to make a tax equity investment in the project.

In Resolution E-4277, the Commission approved a renewable energy PPA between SDG&E and Rim Rock Wind.^{1/} In this Application, SDG&E seeks to amend the term, pricing and commercial operation date of the PPA. SDG&E also seeks to amend the PPA to allow the project to be built in phases.^{2/}

^{1/} November 20, 2009.

^{2/} As stated above, SDG&E’s counterparty in the existing PPA is with Rim Rock Wind. If the project is developed in phases, there may be differently-named counterparties to each Amended PPA.

In conjunction with SDG&E’s request to amend its existing PPA with Rim Rock Wind, SDG&E also seeks the Commission’s authority to make a tax equity investment of up to \$600 million in a project holding company that will develop the project. As SDG&E describes in its testimony supporting this Application, because of the financing difficulties renewable energy developers are facing in today’s constrained markets, SDG&E’s proposed tax equity investment will significantly enhance the viability of this important 309 MW wind project.

II. BACKGROUND ON RENEWABLE ENERGY PROCUREMENT

The 2010 deadline for compliance with the State of California’s Renewables Portfolio Standard (“RPS”) is rapidly approaching. In recent decisions approving the RPS Procurement Plans for the three California investor-owned utilities (“IOUs”), the Commission has reaffirmed that the IOUs are to “undertake all reasonable actions to comply with RPS targets, including Utility Owned Generation (“UOG”) when necessary and appropriate.”^{3/} In discussing its role in assessing the IOU’s RPS compliance efforts, the Commission further noted that it would consider:

[T]he degree to which each utility implements Commission orders; reasonably elects to take or reject the guidance provided herein; reasonably demonstrates creativity, innovation and vigor in program execution; reaches program targets and requirements; and shows it took all reasonable actions to achieve compliance.^{4/}

Among the guidance provided in the referenced decision, the Commission noted that utilities should build and operate their own plants, if necessary, to meet the RPS targets.^{5/} The Commission further noted with approval the proposal from Pacific Gas and Electric Company

^{3/} Decision (D.) 09-06-018. Conclusion of Law 24.

^{4/} *Id.* at Ordering Paragraph 5.

^{5/} *Id.* at p. 32-33, *citing* D.08-02-008 at pp. 16, 32. *See also* D.07-12-052 at p.79 and D.07-02-011 at pp. 23-24 (as modified by D.08-11-008) *citing* D.06-05-039 at p. 24.

(“PG&E”) to expand its contracting options to include joint development and ownership of projects along with the developer, and encouraged SDG&E and Southern California Edison to adopt a similar expansion of their contracting options.^{6/}

In directing the IOUs to explore their options, the Commission observed that certain federal income tax credits that had previously not been available to utility owned or developed projects had been extended to the utilities by Congress. Along with those tax credits, the Commission observed that financial markets had deteriorated^{7/} - all of which dramatically changed the landscape with respect to the possibility of utility investment in renewable generation.

The above language from the Commission highlights the “hybrid” state of California’s markets for electricity generation, wherein UOG exists side-by-side with generation facilities developed and operated by independent power producers (“IPPs”). As described below, SDG&E’s proposed transaction reflects this hybrid market concept by contemplating direct utility investment in an IPP project, thus representing both UOG and IPP elements of facility ownership and operation in a single project.

III. THE ROLE OF TAX EQUITY IN FINANCING RENEWABLE GENERATION

The federal government offers significant tax incentives to assist in the development of renewable resources. First, Production Tax Credits (“PTCs”) are direct dollar-for-dollar reductions in an investor’s tax liability. A wind project will generate a benchmark PTC of \$15 for each megawatt hour of electricity produced; this benchmark is escalated annually for inflation and currently stands at \$22 for 2010. Next, the Modified Accelerated Cost Recovery System (“MACRS”) allows for faster recovery of the costs of a wind energy facility. Most of the

^{6/} D.09-06-018 at p. 50.

^{7/} Id. at p. 51.

facility can be depreciated within five years, rather than the normal 20-25 year book life of the equipment. PTCs and MACRS together provide investors with a very large percentage – nearly 45% - of the return on their investment.

Traditionally, tax equity investors have been large investment or commercial banks, with large appetites for tax credits and low financing costs. The U.S. economic recession has reduced corporate profitability. With the onset of the financial crisis, fewer of these tax equity investors have a sizeable tax appetite. Additionally, a tight credit market has made the availability of low cost financing more scarce.

The impact of this credit crisis and global economic crisis has caused a disruption in renewable energy project development. One major cause of this is the lack of capital available for financing renewable energy projects by typical bank investors. As one market analyst study noted at the time:

The current US financial crisis, which began in earnest in September 2008, has created turmoil in the US wind project debt and tax equity investment markets [internal citations omitted]. The credit crunch has virtually frozen wind project debt finance, and the cost of debt that is available has risen sharply. At the same time, the supply of US third-party wind project tax equity has shrunk significantly. The two major dominant investors—JP Morgan and GE Energy Financial Services (GEFS)—have scaled back, and the bankruptcy of Lehman Brothers and near bankruptcy of Wachovia and AIG has further reduced the pool of investors.^{8/}

Although the market for renewable project finance may have improved somewhat, SDG&E does not believe the market is as robust as it was prior to the September 2008 Lehman bankruptcy. For example, the size of SDG&E's proposed investment (up to \$600 million) would demand a level of liquidity in the market that would be hard to access without a complex syndication of the transaction. For example, in an April 2010 panel discussion regarding

^{8/} Emerging Energy Research, "US Wind Hit by Financial Crisis", November 12, 2008.

regarding renewable finance, one panelist observed that of the banks investing in renewable energy this year, “about half of them will commit to \$100 million on a transaction, with the average bank debt per transaction being about \$40 million.”⁹ This reduction in available financing is occurring at a time when the requirements for renewable power are increasing and the pipeline for projects seeking financing also is increasing. This competing demand for tax equity investment, not just for wind but for other technologies such as solar and geothermal, creates further challenges.

In addition to the reduction in the amount of capital available to monetize tax benefits available for investment in renewable generation, there also has been an increase in the cost of tax equity capital. While in years past the utility rate of return had been higher than rates charged by financial institutions, that relationship has now been reversed. SDG&E can offer renewable projects lower financing and these savings can be passed through directly to ratepayers.

The important point is that SDG&E believes that there is a constructive role utilities can play in financing renewable energy projects to facilitate their development and construction, and bring down the delivered price of renewable energy for the benefit of customers.

IV. RIM ROCK WIND PROJECT STRUCTURE

The structure of this proposed transaction (graphically depicted below) is common for renewable generation projects in contrast with conventional (non-renewable) generation. The key difference that allows for this sharing of the project ownership between the IPP and the utility is the role of tax equity – tax equity is fundamental to an RPS project. The financing of renewables is generally 100% equity financing, whereas financing of conventional generation is

⁹ Novogradac Journal of Tax Credits, “Panelists Predict Sunny Skies for Energy Tax Credit Projects.” June 2010, Volume I, Issue VI (at p. 1).

described in the advice letter SDG&E filed seeking approval of the original PPA with Rim Rock Wind,¹² during the operating life of the project, SDG&E ratepayers will pay for the power produced by the project when it is online and producing energy, then resell the null power back to the project company. SDG&E will retain the Green Attributes, which will be delivered to California pursuant to the California Energy Commission's RPS deliverability guidelines. The project company will resell the null power into the energy markets in Alberta, Canada. As described in the testimony of Mr. McClenahan, SDG&E may engage in some hedging arrangements to support the null power sales by the project to unrelated third parties. Under SDG&E's currently-approved long-term procurement plan, SDG&E has the authority to hedge power sales only for periods up to five years.¹³ In this Application, SDG&E seeks authority from the Commission to engage in hedging associated with the null power sales from the project company for a period of up to ten years in order to ensure price stability for the null power sales for longer periods.

The project will be generating PTCs for a period of ten years from the online date. As the tax equity investor, SDG&E will be able to monetize the value of the PTCs by reducing its federal income tax obligations, which savings will be passed on to ratepayers. In addition, the project's capital costs will be eligible for accelerated depreciation as authorized by the Tax Reform Act of 1986, Pub. L. No. 99-514. This depreciation benefit also will pass through to

balance of plan [sic], cash flow and shadow models, and detailed documentation (from manufacturer and/or developer) clearly showing the reasoning for the increase.”

In this Application and supporting testimony, SDG&E demonstrates that it clearly meets this standard for re-pricing an already-approved PPA.

^{11/} The official name of SDG&E's counterparty also may change from Rim Rock Wind (with whom SDG&E has the existing PPA) to the name of one of the project companies.

^{12/} See SDG&E Advice Letter 2088-E filed May 29, 2009.

¹³ D.08-11-008.

ratepayers as part of the repayment of their investment. At the end of ten years, ratepayers are forecast to have been fully repaid their total investment.

V.
THE BENEFITS OF SDG&E'S TAX EQUITY INVESTMENT IN RIM ROCK WIND

The current environment is well suited for IOU investment in tax equity wind projects. With few developers able to fully monetize tax benefits (PTCs and MACRS) or secure construction financing without a long-term financing arrangement in place, it makes sense to look to IOUs to monetize these tax benefits. IOUs that have healthy balance sheets and established customer bases are able to secure financing at a reasonable cost in this constrained credit environment. If approved by the Commission, the Rim Rock Wind transaction could potentially serve as a template for future IOU tax equity investments.

The deal is structured such that, upon completion of construction and achievement of commercial operations, SDG&E will make an equity investment in the project holding company equal to the lesser of \$600 million or up to 79.99% of the total equity to be invested. SDG&E's tax equity investment will be treated as an intangible capital asset and earn a return similar to ratebased plant in service at SDG&E's currently authorized cost of capital (8.4% pre-tax, or 7.36% after tax). By virtue of its investment, SDG&E will become a passive partner (with certain approval rights for major decisions), along with the developer/manager, in a limited liability project holding company that will own and manage the wind project. The developer will remain an owner/manager and serve the same role as if the tax equity investor had been a bank rather than SDG&E. Thus, the tax equity investment simultaneously exhibits the benefits and characteristics of both a UOG and IPP project. The utility lends its strong balance sheet to the project to assure financing and the IPP lends its development and managerial expertise to the wind facility.

Ratepayers benefit from the development, in a difficult financial environment, of an important new renewable resource that supports SDG&E's RPS goals. Ratepayers also benefit because tax equity offers a risk profile that is lower than UOG. In a UOG investment, ratepayers are the sole investor and bear the risk of poor performance by the generation project. As an investor in a tax-equity arrangement, ratepayers will receive the benefits of project ownership while at the same time incurring lower risk. This is due to a number of factors.

First, SDG&E's portion of the overall investment retains characteristics that are similar to debt in that ratepayers are repaid their investment in full prior to the developer receiving the bulk of the return of, and on, its investment. In fact, while ratepayers will reimburse SDG&E for its investment over the 20-year project life, the ratepayer investment should be fully repaid after ten years, meaning that the expected benefits of the project will have fully offset the cost of their investment. After ten years, ratepayers will retain a small interest in the project and share cash flows through year 20, such that the impact of the investment on rates should be \$0 over the life of the project (the PPA, like all PPAs will impact rates).¹⁴

Second, throughout the term of the investment, ratepayers will have a PPA with the project through which SDG&E as the buyer obtains the project's Green Attributes; if the project does not perform, ratepayers are largely free of any obligation to pay for these green attributes (as discussed in the attached testimony, it may, however, be beneficial for SDG&E to enter into certain hedging or collateral arrangements to support the null power sales from the project).

Third, the method of ratepayer repayment of their investment comes primarily through reasonably assured tax benefits. Fourth, ratepayers' investment is not made until construction is complete and upon commercial operations, thus mitigating construction risk for ratepayers.

¹⁴ After ratepayers' investment has been fully repaid, which SDG&E forecasts to occur after ten years, NaturEner would have the option to buy out SDG&E's share of the project holding company. SDG&E would seek the Commission's approval under P.U. Code Section 851 if NaturEner elects to exercise this option.

Lastly, and perhaps most importantly, tax equity financing by SDG&E will provide enhanced project economics – to the benefit of ratepayers – in the current financial environment. As discussed above, there currently exists a gap between the utility’s cost of capital and the rate charged by traditional tax equity investors for capital. While in years past the utility rate of return had been higher than rates charged by financial institutions, that relationship has now been reversed. SDG&E can offer the project lower financing and this savings is passed through directly to ratepayers. For every 100 basis points that SDG&E’s cost of capital is below the market cost of capital, customers will save approximately \$120 million over the life of the project.

VI. SUPPORTING TESTIMONY

In support of the Application, SDG&E attaches the testimony of the following witnesses:

- **Chapter 1 (Michael R. Niggli)** – This chapter provides an overview of the rationale for and benefits of SDG&E’s proposed tax equity investment in the Rim Rock Wind project holding company.
- **Chapter 2 (Mike McClenahan)** – This chapter provides the justification for the proposed amendments to the existing Rim Rock Wind PPA and describes the commercial structure of the transaction and why this particular investment furthers the public interest in renewable generation to serve SDG&E ratepayers and meet California’s ambitious renewable energy goals, representing value for ratepayers both as owners of the project and as customers under the PPA. If the Commission rejects SDG&E’s proposed tax equity investment, this chapter describes the alternative relief SDG&E seeks – to adopt the proposed amendments to the PPA on a stand-alone basis.

- **Chapter 3 (Amir Moftakhar)** – This chapter describes the financial structure and supporting details of SDG&E’s tax equity investment, some of the market dynamics that give rise to SDG&E’s proposed investment and how ratepayers’ contribution in reimbursing SDG&E for the revenue requirement associated with this investment is expected to be fully offset by allocations of cash flows and tax benefits from the project.
- **Chapter 4 (Ragan G. Reeves)** – This chapter describes the federal tax incentives that the project will be eligible to receive, which are an important driver for SDG&E’s proposed tax equity investment, and how SDG&E will monetize these benefits on behalf of its customers.
- **Chapter 5 (Kenneth J. Deremer)** – This chapter describes the ratemaking treatment and cost recovery proposals for SDG&E’s proposed tax equity investment.

**VII.
STATUTORY AND PROCEDURAL REQUIREMENTS**

A. Category, Need for Hearings, Issues, and Schedule - Rule 2(1)(c)

1. Category

SDG&E proposes that this proceeding be categorized as “ratesetting.”

2. Need for Hearings

SDG&E believes that evidentiary hearings may be required.

3. Issues to be Considered

The issues to be considered in this proceeding are whether the Commission should approve SDG&E’s proposed (1) amendments to the existing Rim Rock Wind PPA and (2) tax equity investment in the Rim Rock Wind project holding company. If the Commission

rejects the request for authorization to make the tax equity investment, then the Commission still should consider approval of the proposed amendments to the PPA on a stand-alone basis.

4. Proposed Schedule

SDG&E respectfully requests that the Commission approve its Application expeditiously due to the time sensitive nature of its investment. In order to be eligible for PTCs, the project currently must achieve commercial operation by no later than December 31, 2012. In order to achieve that commercial operation date, the project must have its Construction Financial Closing by June 1, 2011. In order to achieve Construction Financial Closing by that date, the Commission would need to issue a decision approving the Application no later than the last business meeting of March 2011. During the period between the filing of this Application and the requested decision, SDG&E will continue to engage in due diligence, so that the Equity Capital Contribution Agreement (“ECCA”) can be executed upon receiving all necessary regulatory approvals and NaturEner can arrange for construction financing. The availability of PTCs is a critical part of the economics of the project, and the loss of them would be a severe setback for the project. Accordingly, SDG&E requests approval of the Application no later than the last meeting in March 2011.

SDG&E proposes the following schedule to achieve these goals:

<u>DATE</u>	<u>EVENT</u>
July 15, 2010	Application filing date
August 16, 2010	Protests
August 26, 2010	Replies to protests
August 31, 2010	Prehearing conference
October 11, 2010	Opening intervenor testimony
October 28, 2010	Concurrent rebuttal testimony

November 3-9, 2010	Evidentiary hearings (if needed)
December 7, 2010	Opening briefs
December 21, 2010	Reply briefs
February 2011	CPUC issues Proposed Decision
March 2011	CPUC issues Final Decision

Adoption of SDG&E’s proposed schedule will allow the project to proceed under the timeline graphically depicted below:

PROJECT TIMELINE

B. Authority - Rule 2.1

This Application is filed in accordance with P.U. Code Sections 399.11 *et seq*, 454, 454.5 and 701, the Commission's Rules of Practice and Procedure and prior Commission decisions, orders and resolutions.

C. Corporate Information and Correspondence - Rules 2.1(a) and 2.1(b)

SDG&E is a public utility organized and existing under the laws of the State of California. SDG&E's principal place of business and mailing address is 8306 Century Park Court, San Diego, California, 92123.

All correspondence and communications to SDG&E regarding this Application should be addressed to:

Jennifer Wright
Regulatory Case Administrator
8306 Century Park Court
San Diego, California, 92123
Telephone: (858) 654-1891
Facsimile: (858) 776-8611
E-mail: JWright@semprautilities.com

with a copy to:

Steven C. Nelson
Assistant General Counsel
101 Ash Street
San Diego, CA 92101
Telephone: (619) 699-5136
Facsimile: (619) 699-5027
Email: SNelson@sempra.com

D. Organization and Qualification to Transact Business – Rule 2.2

A copy of SDG&E's Restated Articles of Incorporation as last amended, presently in effect and certified by the California Secretary of State, was filed with the Commission on August 31, 2009 in connection with SDG&E's Application No. 09-08-019, and is incorporated herein by reference.

E. Balance Sheet and Income Statement – Rule 3.2(a)(1)

Attachment A to this Application is SDG&E’s Balance Sheet as of March 31, 2010. Attachment B to this Application is SDG&E’s Income Statement for the three-month period ended March 31, 2010.

F. Rates - Rules 3.2(a)(2) and 3.2(a)(3)

The potential rate changes for SDG&E that will result from this Application are described in Section VII.K below. A statement of all of SDG&E’s presently effective electric rates is Attachment C to this Application.

G. Property and Equipment - Rule 3.2(a)(4)

A general description of SDG&E’s property and equipment was previously filed with the Commission on October 5, 2001, in connection with SDG&E’s Application No. 01-10-005 and is incorporated herein by reference. A statement of the original cost and depreciation reserve attributable thereto is Attachment D to this Application.

H. Summary of Earnings - Rules 3.2(a)(5) and (6)

Attachment E to this Application is a SDG&E Summary of Earnings for the three months ended March 31, 2010.

I. Depreciation - Rule 3.2(a)(7)

For financial statement purposes, depreciation of utility plant for SDG&E has been computed on a straight-line remaining life basis at rates based on the estimated useful lives of plant properties. For federal income tax accrual purposes, SDG&E generally computes depreciation using the straight-line method for tax property additions prior to 1954, and liberalized depreciation, which includes Class Life and Asset Depreciation Range Systems, on tax property additions after 1954 and prior to 1981. For financial reporting and rate-fixing purposes, “flow through accounting” has been adopted for such properties. For tax property

additions in years 1981 through 1986, SDG&E has computed its tax depreciation using the Accelerated Cost Recovery System. For years after 1986, SDG&E has computed its tax depreciation using the Modified Accelerated Cost Recovery Systems and, since 1982, has normalized the effects of the depreciation differences in accordance with the Economic Recovery Tax Act of 1981 and the Tax Reform Act of 1986.

J. Proxy Statement - Rule 3.2(a)(8)

A copy of SDG&E's most recent proxy statement, dated April 29, 2010, as sent to all shareholders of SDG&E's parent company, Sempra Energy, was mailed to the Commission on May 13, 2010, and is incorporated herein by reference.

K. Pass Through of Costs - Rule 3.2(a)(10)

The rate change SDG&E seeks in this Application reflects projected costs from SDG&E's tax equity investment in the project. Although SDG&E anticipates that rates will increase in some years due to SDG&E's equity investment, the investment is forecasted to be rate neutral when factoring in the net present value costs and benefits over the life of the project.

L. Service and Notice - Rule 1.9

SDG&E is serving this Application on all parties to the Commission's 2010 RPS proceeding (R.08-08-009) and SDG&E's most recent LTPP proceeding (R.06-02-013). Within ten days of filing, SDG&E will mail notice of this Application to the State of California and to cities and counties served by SDG&E (in accordance with the service list provided in Attachment F), and SDG&E will post the notice in their offices and publish the notice in newspapers of general circulation in each county in their service territory. In addition, within forty-five days of filing, SDG&E will include notices with the regular bills mailed to all customers affected by the proposed rate changes.

VIII.
CONFIDENTIAL INFORMATION

SDG&E is submitting opening written testimony supporting this Application in both public (redacted) and non-public (unredacted and confidential) form, consistent with SDG&E's declarations of confidential treatment attached to its opening written testimony, in conformance with P.U. Code Section 454.5(g) and S.B. 1488, the decisions arising out of R.05-06-040 (including D.06-06-066 and D.08-04-023), P.U. Code Section 583 and General Order 66-C. Confidential treatment and redaction of such information is necessary in this proceeding to protect against inappropriate disclosure of confidential, commercially sensitive information pertaining to SDG&E's electric procurement resources and strategies and the NaturEner companies' confidential and proprietary cost information.

IX.
AFFILIATE ISSUES

If SDG&E ultimately makes its proposed tax equity investment in the Rim Rock Wind project holding company (after CPUC approval of this Application **and** after all of the conditions precedent of the transaction documents have been met, including commercial operation of the project), the project companies likely would be considered "Affiliates" of SDG&E under the Commission's Affiliate Transaction Rules.¹⁵ SDG&E intends to fully comply with these rules. Indeed, recognizing the likelihood that the Commission would view SDG&E and the project companies to be affiliates, SDG&E has ensured that the negotiations between SDG&E and

¹⁵ See, e.g., D.06-12-029. In *AES Creative Resources, L.P., et al*, 129 FERC P 61,239 (FERC 2009), FERC found that passive tax equity investments in several wind projects did not confer control on the investors and, as such, did not render the investors affiliates of the wind projects. Due to the passive nature of SDG&E's proposed tax equity investment in the Rim Rock Wind project holding company, the Commission could find, as FERC did in *AES Creative Resources*, that the tax equity investment will not make SDG&E an affiliate of the project. SDG&E intends to seek a determination at FERC on the applicability of *AES Creative Resources* to the facts and circumstances of this transaction. However FERC decides this question, SDG&E stands ready to seek all FERC approvals necessary for this transaction. Moreover, FERC already has and will continue to have jurisdiction over SDG&E's wholesale power sales, and FERC will have jurisdiction over the project company's wholesale power sales.

NaturEner of the proposed tax equity investment by SDG&E were conducted at arms length, and had an Independent Evaluator present to witness these negotiations. The request for approval of the Amended PPA - even if SDG&E's proposed investment is denied - further demonstrates that the Amended PPA is an arms-length transaction.

If SDG&E's tax equity investment in the project holding company triggers an obligation (e.g., pursuant to Rule IV.F or any other of the Commission's Affiliate Transaction Rules) to make public certain confidential information identified in the declarations attached to this Application, SDG&E requests a limited waiver of such rules to preserve the confidentiality of NaturEner's cost and counterparty data - which NaturEner considers highly proprietary, extremely commercially sensitive, and whose disclosure would prejudice both NaturEner and its various vendors and suppliers - and any particularly sensitive SDG&E information pertaining to SDG&E's electric procurement resources and strategies. The NaturEner and SDG&E confidential information which would be the subject of this waiver request is identified in the attached declarations of confidential treatment. SDG&E observes that most parties during the course of this proceeding already will have access to this confidential information pursuant to a protective order to the extent consistent with the decisions arising out of R.05-06-040.

When the project goes into commercial operations, SDG&E will have no role in the project's day-to-day operations. SDG&E will have the right, however, to participate in "major decisions" impacting the project. These major decisions are identified in the LLC Agreement between SDG&E and the project. When participating in discussions with the project company regarding these major decisions, SDG&E will convey no non-public utility information to the project (any information flows will be the other way - from the project to SDG&E). Moreover, preserving SDG&E's right to participate in these major decisions will benefit ratepayers by providing SDG&E with an opportunity to further protect its interests in the project. SDG&E

does not believe it would need to seek any waivers of the Commission's Affiliate Transaction Rules to participate in discussions with the project company regarding major decisions, but is providing this information to the Commission by way of background.

Finally, as described in the testimony of Mr. McClenahan and above in Section IV, it is possible that SDG&E may elect to provide some form of credit support associated with the hedge of the price of the null power to be sold by the project company. This credit support would benefit ratepayers by facilitating the project power sale hedge, which acts in part to ensure repayment of ratepayers' investment in the project. P.U. Code Section 701.5 generally prohibits a regulated utility such as SDG&E from providing credit support to an affiliate unless such actions:

[S]upport the electric . . . corporation in its operations or service, these activities are, or will be, regulated either by the commission or a comparable federal agency, and the issuance of the bond, note, lien, guarantee, or indebtedness is specifically approved in advance by the commission.¹⁶

In considering such requests, the Commission also must find that "the proposed financing will benefit the interests of the utility and its ratepayers."¹⁷

In this instance, the Commission should approve SDG&E's request because (1) the project company will support SDG&E and benefit SDG&E's ratepayers by helping SDG&E fulfill its RPS goals at a reasonable cost, (2) the project company's wholesale power sales will be regulated by FERC and (3) SDG&E is requesting the Commission's advance approval of this activity.¹⁸

¹⁶ P.U. Code Section 701.5(c).

¹⁷ Id.

¹⁸ As previously described, SDG&E also is asking the Commission to approve in this Application a modification to its current long-term procurement plan to allow SDG&E to enter into hedging arrangements for the project company's null power sales for a period of up to ten years. SDG&E's current long-term procurement plan only allows SDG&E to enter into hedging arrangements for periods up to five years. *See D.07-12-052 as modified by D.08-11-008.*

X.
RELIEF REQUESTED

SDG&E respectfully requests that the Commission approve this Application in all respects including:

- Approval of SDG&E’s proposed tax equity investment in the Rim Rock Wind project holding company of up to \$600 million and SDG&E’s request to enter into the implementing transactional documents attached to the Application.
- Approval of SDG&E’s proposed amendments to the existing Rim Rock Wind PPA and adoption of the following findings:
 - The PPA, as amended, is consistent with SDG&E’s CPUC-approved RPS Plan and procurement from the proposed agreement will contribute towards SDG&E’s RPS procurement obligation.
 - The terms and conditions of the Amended PPA are reasonable and the Amended PPA is approved in its entirety. All costs of the purchase associated with the Amended PPA, including for energy, green attributes, resource adequacy, and load uplift are fully recoverable in rates over the life of the Amended PPA, subject to Commission review of SDG&E’s administration of the Amended PPA.
 - Generation procured pursuant to the Amended PPA constitutes generation from an eligible renewable energy resource for purposes of determining SDG&E’s compliance with any obligation that it may have to procure eligible renewable energy resources pursuant to the California RPS program (Public Utilities Code §§ 399.11, et seq. and/or other applicable law) and relevant Commission

decisions.

- Approval of SDG&E's ratemaking and cost recovery proposals, including a return on investment that is fixed for the life of the investment at SDG&E's currently-authorized return.
- Approval of SDG&E's request to modify its current long-term procurement plan to allow SDG&E to enter into hedging arrangements for a period of up to ten years in order to ensure price stability for the null power sales associated with the transaction.
- Approval of SDG&E's request to provide credit support as necessary to the project company pursuant to P.U. Code Section 701.5(c).
- Approval, as necessary, of any limited waivers of the Commission's Affiliate Transaction Rules to effect the transactions described herein and to preserve the confidentiality of certain NaturEner cost data and sensitive SDG&E renewable procurement information.
- Approval of any other relief as necessary and proper.

[Remainder of page intentionally left blank]

**XI.
CONCLUSION**

In conclusion, SDG&E respectfully requests that the Commission approve this Application in its entirety.

DATED at San Diego, California, this 15th day of July, 2010.

Respectfully submitted,

SAN DIEGO GAS & ELECTRIC COMPANY

II. Balancing Accounts (Continued)

Electric Distribution Fixed Cost Account (EDFCA).....	20731, 21115, 2116-E
Rate Design Settlement Component Account (RDSCA)	19448-E
California Solar Initiative Balancing Account (CSIBA).....	21843, 21844, 21845-E
SONGS O&M Balancing Account (SONGSBA).....	21130-E

III. Memorandum Accounts

Description/Listing of Accounts	19451, 21399-E
Catastrophic Event Memorandum Account (CEMA).....	19453, 19454, 19455-E
Generation Divestiture Transaction Costs Memorandum Account (GDTCMA).....	19458-E
Streamlining Residual Account (SRA).....	20137, 20138-E
Nuclear Claims Memorandum Account (NCMA).....	19465-E
Electric Meter Pilot Memorandum Account (EMPMA).....	19467-E
Interruptible Load and Rotating Outage Programs Memorandum Account (ILROPMA).....	19469, 19470, 19471-E
Real-Time Energy Metering Memorandum Account (RTEMMA)..	19472-E
Net Energy Metering Memorandum Account (NEMMA).....	19473-E
Residential Demand Responsiveness Program Memorandum Account (RDRPMA).....	19475, 19476-E
Self-Generation Program Memorandum Account (SGPMA).....	19530, 19531-E
Bond Payment Memorandum Account (BPMA).....	19481-E
Direct Access Cost Responsibility Surcharge Memorandum Account (DACRSMA).....	19576, 19577, 19578-E
Electric Energy Transaction Administration Memorandum Account (EETAMA).....	19484-E
Advanced Metering and Demand Response Memorandum Account (AMDRMA).....	19673, 20873, 20874, 21256, 20875-E
Distributed Generation Implementation Cost Memorandum Account (DGICMA).....	19490-E
Annual Earnings Assessment Proceeding Memorandum Account (AEAPMA).....	19491-E
Procurement Transaction Auditing Memorandum Account (PTAMA).....	19492-E
Reliability Costs Memorandum Account (RCMA).....	19493-E

**BEFORE THE PUBLIC UTILITIES COMMISSION
OF THE STATE OF CALIFORNIA**

Application of San Diego Gas & Electric Company) (U 902 E) to Amend Renewable Energy Power) Purchase Agreement with NaturEner Rim Rock Wind) Energy, LLC and for Authority to Make a Tax Equity) Investment in the Project.))	Application 10-07-____ (Filed July 15, 2010)
--	---

**NOTICE OF AVAILABILITY
OF APPLICATION OF SAN DIEGO GAS & ELECTRIC COMPANY (U 902 E)
TO AMEND RENEWABLE ENERGY POWER PURCHASE AGREEMENT
WITH NATURENER RIM ROCK WIND ENERGY, LLC AND FOR
AUTHORITY TO MAKE A TAX EQUITY INVESTMENT IN THE PROJECT**

Pursuant to Rule 1.9(c) of the Commission’s Rules of Practice and Procedure, San Diego Gas & Electric Company (U 902-E) (“SDG&E”) hereby gives notice of its *Application to Amend Renewable Energy Power Purchase Agreement With Naturener Rim Rock Wind Energy, LLC and for Authority to Make a Tax Equity Investment in the Project* (the “Application”) filed with the Commission today, July 15, 2010. The Application is available to all interested parties and to the public. Consistent with Rule 1.9(c), SDG&E is issuing this Notice of Availability of the above-referenced application because the Application and its related attachments exceed 50 pages in length. This Notice of Availability is being served on all parties to the Commission’s 2010 Renewables Portfolio Standard (“RPS”) proceeding, R.08-08-009, and SDG&E's most recent Long Term Procurement Plan (“LTPP”) proceeding, R.06-02-013. Any recipient of this Notice of Availability may request a copy of the filing. A copy of the document

described above will be provided immediately upon the request of the party receiving this notice. All requests should be directed to:

Jennifer Wright
Regulatory Case Administrator
8306 Century Park Court
San Diego, California, 92123
Telephone: (858) 654-1891
Facsimile: (858) 776-8611
E-mail: JWright@semprautilities.com

In addition, SDG&E has established a link <http://www.sdge.com/regulatory/cpuc.shtml> where the application may be accessed electronically.

The Application asks the Commission for authority to amend an existing renewable energy power purchase agreement (“PPA”) with NaturEner Rim Rock Wind Energy, LLC (“Rim Rock Wind”) and for authority to make a tax equity investment in the project. In Resolution E-4277, issued November 20, 2009, the Commission approved a renewable energy PPA between SDG&E and Rim Rock Wind. In this Application, SDG&E seeks to amend the term, pricing and commercial operation date of the PPA. SDG&E also seeks to amend the PPA to allow the project to be built in phases.

In conjunction with SDG&E’s request to amend its existing PPA with Rim Rock Wind, SDG&E also seeks the Commission’s authority to make a tax equity investment of up to \$600 million in a project holding company that will develop the project. As SDG&E describes in its testimony supporting this Application, because of the financing difficulties renewable energy developers are facing in today’s constrained markets, SDG&E’s proposed tax equity investment will significantly enhance the viability of this important 309 MW wind project.

Respectfully Submitted,

/s/ STEVEN C. NELSON

Steven C. Nelson
