For each 12-inch diameter service connection	77.15	(I)
For each 14-inch diameter service connection	105.21	(I)

SPECIAL CONDITIONS:

1. The fire protection service connection will be installed by the utility and the cost paid by the applicant. Such cost shall not be subject to refund.
2. The minimum diameter for fire protection service shall be two inches, and the maximum diameter shall not be more than the diameter of the main to which the service is connected.
3. If a distribution main of adequate size to serve a private fire protection system in addition to all other normal services does not exist in the street or alley adjacent to the premises to be served, then a service main from the nearest existing main of adequate capacity shall be installed by the utility and the cost paid by the applicant. Such payment shall not be subject to refund.
4. Service hereunder is for private fire protection systems to which no connections for other than fire protection purposes are allowed and which are regularly inspected by the underwriters having jurisdiction, and installed according to specifications of the utility, and are maintained to the satisfaction of the utility. The utility may install the standard detector type meter approved by the Board of Fire Underwriters for protection against theft, leakage or waste of water, and the cost paid by the applicant. Such payment shall not be subject to refund.
5. The utility will supply only such water at such pressure as may be available from time to time as a result of its normal operation of the system.
6. All bills within the City of San Jose are subject to a 2% Franchise Fee imposed by the City of San Jose on all customers within the City limits. The Franchise Fee is not in addition to the rates set forth on this Schedule No. 4, but are already included in the rates. (N)
7. All bills are subject to the reimbursement fee set forth in Schedule No. UF. (D)
