

**Q 15, 16, 17: What is a reasonable \_\_\_\_ case assumption for incremental EE relative to the 2009 IEPR forecast in GWh and MW for PG&E**

06-22-10  
10:06 AM

**Energy (GWh) Savings**

	Pre-2010*	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020
PG&E - Base Case												
PG&E - Low Case												
PG&E - High Case												
SCE - Base Case												
SCE - Low Case												
SCE - High Case												
SDG&E - Base Case												
SDG&E - Low Case												
SDG&E - High Case												

**Peak (MW) Savings**

	Pre-2010*	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020
PG&E - Base Case												
PG&E - Low Case												
PG&E - High Case												
SCE - Base Case												
SCE - Low Case												
SCE - High Case												
SDG&E - Base Case												
SDG&E - Low Case												
SDG&E - High Case												

\* Pre-2010 is to indicate any savings which may not be included, are higher, or lower, than the 2009 IEPR committed savings.
