PUBLIC UTILITIES COMMISSION REPORT PURSUANT TO PUBLIC UTILITIES CODE SECTION 321.6**Introduction**

Pub. Util. Code Sections 1701.1 et al. apply to cases filed after 1998 and which were subject to hearing at the Commission. This report contains data related to these proceedings, as well as important case management information on other proceedings.

Pub. Util. Code Sections 1701.1 et al. require that matters be resolved within certain time periods, depending on the categorization of a proceeding. Generally, adjudicatory matters must be resolved within 12 months and ratesetting and quasi-legislative matters are to be resolved within 18 months of the issuance of the scoping memo ruling. A proceeding has been resolved when the main issues have been decided such that the proceeding could usually be closed. At times, proceedings that have had all substantive issues decided may remain open or are “re-opened” because of other tangential issues, such as petitions for modifications, various motions, or request for intervenor compensation.

The information is contained in attached Appendices A-J described below:

Appendix A – Formal Proceedings not Subject to Hearings, Active During this Reporting Period.

Appendix A lists the 345 cases active during the time period but which were not subject to the legislative guidelines. Many of these proceedings are ratesetting or adjudicatory matters that were conducted without formal evidentiary hearings. Also, these appendices list 31 quasi-legislative matters that were processed through the exchange of written documents and formal evidentiary hearings were not required.

Of the 345 cases, 217 were resolved timely. The remaining 128 proceedings are currently active.

Appendix B – Complaints Under the Expedited Complaint Procedure, Active During the Reporting Period.

Appendix B lists 35 Expedited Complaint Proceedings (ECP) that are small complaint cases handled under special procedures analogous to “small claims” court. We are reporting these matters separately because the CPUC has adopted more aggressive

timelines for these cases than the legislative timelines. The Commission has established a 132-day target for this type of proceeding to be resolved.

During the reporting period, 20 of these 35 cases were resolved. All 20 resolved matters met the 12 months mandate. Fifteen proceedings remain active.

Appendix C – Federal Telecommunications Arbitration Proceedings, Active During the Reporting Period.

The Federal Telecommunications Act of 1996 created a new type of proceeding with aggressive timelines. These proceedings are not subject to the legislative timelines. During the reporting period, 12 of these arbitration proceedings were closed and three are active at the Commission.

Appendix D – Formal Proceedings Subject to Hearings, Active During the Reporting Period – Proceedings Resolved on Schedule.

During the reporting period the Commission timely resolved 60 (40 ratesetting, 18 adjudicatory, and 2 quasi-legislative) proceedings subject to the legislative timelines.

Appendix E – Formal Proceedings Subject to Hearing, Active During the Reporting Period – Proceedings not Resolved on Schedule.

Two cases were subject to hearing at the Commission during the reporting period and were not resolved within the timelines prescribed by Pub. Util. Sections 1701.1 et al.

Of the two proceedings, the Commission has issued at least one decision (often many more) in those proceedings. This indicates that although the proceedings may not have been completed within the 12 and 18 month requirement, the Commission was actively managing these often very complex proceedings. These are not proceedings that are languishing from inattention.

Appendix F – Formal Proceedings Subject to Hearing, Currently Active and on Schedule.

Appendix F contains cases that are subject to hearing not yet resolved and currently still active and currently on schedule. There are 146 such cases – 33 adjudicatory, 2 quasi-legislative and 111 ratesetting.

Appendix G – Petitions for Rulemaking

Petitions for Rulemaking are a new statutorily mandated type of proceeding not subject to SB 960 guidelines. The Commission is mandated to issue a decision in this type of proceeding within six months. During the reporting period, Appendix G shows that four such proceedings were active and that the Commission has issued timely final decisions in two of the proceedings. The two remaining proceedings are on schedule.

Appendix H – Commissioner Attendance

Appendix H reports the Commissioner attendance at hearings during the period. The table shows that Commissioners attended 48 days of hearings and presided during 18 of those 48 days.

Appendix I – 60-90 Day Compliance

The legislature has also established guidelines for the length of time between the issuance of a proposed decision and the adoption of a final decision by the Commission. The guidelines are either 60 or 90 days depending on certain circumstances.

During the period, the Commission considered 24 proposed decisions. The Commission issued 19 final decisions. In 14 instances the final decision was issued within the guidelines and in five instances the Commission was late issuing the final decision. Three proposed decisions are currently on Commission's Agenda and 2 proposed decisions were withdrawn for further consideration.

Appendix J – Issuance of Presiding Officer Decisions and Proposed Decisions

During the period, the Commission issued six presiding officer decisions and 19 proposed decisions. Out of these 25 decisions, 22 (88%) were issued within the mandatory 60- and 90-day timelines. This is an improvement from year 2008 where 69% of the decisions complied with the mandatory 60- and 90-day timelines. We will continue to strive for improvement in this area.

Conclusion
