(Corner of Van Ness Avenue and Mc Allister Street)

The Commission is conducting a two-day workshop seeking input from the public on the operations and funding of the state's Universal Service Public Policy Programs (PPP). The purpose of the OIR will be to conduct a comprehensive review of the PPPs. The Commission is seeking input at the workshop to help identify whether the existing programs meet the objectives of applicable universal service statutes and what, if any, changes are required to improve the existing program structure, ease program administration, aid in managing the size of the funds, and ensure adequate monitoring of the programs' costs to consumers.

The Commission is interested in hearing the views of the public, the industry experts, and other participants at the workshop. To facilitate the discussion at the workshop, the Commission staff has issued a report discussing the funding mechanism and three of the programs:

R04-01-025

Order Instituting Rulemaking to establish policies and rules to ensure reliable, long-term supplies of Natural Gas to California.

Summary: AUGMENTATION REQUIRED. On April 18, Marzia Zafar, CPUC Relations Manager for Southern California Gas Company (SoCalGas) and San Diego Gas & Electric Company (SDG&E), met with Andy Campbell, advisor to Cmmr. Chong. A copy of exhibit 129 in this proceeding was used. Zafar stated that SoCalGas and SDG&E have proposed a Wobbe index range of 1290 to 1400 for gas supplies delivered to its system. Zafar explained that this Wobbe range decreases the existing maximum while increasing the existing minimum gas quality specifications. Zafar explained that a narrower Wobbe range will not only reduce existing supplies but also future supplies. Zafar stated that the Air Quality District's proposal of a maximum Wobbe of 1360 could eliminate up to thirty percent of existing supplies. Zafar urged the Commission to not issue an overly restrictive standard.
