AA. Village District Mandatory Conservation Rationing Implementation Memorandum Account (N)  
California American Water Company requests to establish a Mandatory Conservation Rationing Implementation Memorandum Account (MEMCRIMA) for its Village District.

1. PURPOSE: The purpose of the MEMCRIMA is to track the operating costs and administration costs, as well as any penalties paid or collected, associated with the implementation of Schedule 14.1-VL in its Village District.
2. APPLICABILITY: The MEMCRIMA will record the operating costs and administration costs associated with the implementation of Schedule No. 14.1-VL in its Village District. The memorandum account will also track the penalties or fees, which may be imposed by the relevant water agency, related to California American Water Company for exceeding any assigned allocation. Any fines collected from customers under Schedule No. 14.1-VL in the Village District will also be recorded in this memorandum account.
3. ACCOUNTING PROCEDURE: California American Water Company shall maintain the MEMCRIMA by making entries at the end of each month as follows:
  - a. A debit entry shall be made to the MEMCRIMA at the end of each month to record the incremental expenses or penalties paid.
  - b. A credit entry shall be made to the MEMCRIMA at the end of each month to record the penalty charges collected.
  - c. Interest shall accrue to the MEMCRIMA on a monthly basis by applying a rate equal to one-twelfth of the 3-month non-financial Commercial Paper Rate, as reported in the Federal Reserve Statistical Release, to the average of the beginning-of-month and the end-of-month balances.
4. EFFECTIVE DATE: The MEMCRIMA shall go into effect on the effective date of the Advice Letter activating Stage 1 or higher of Schedule 14.1.
5. TERMINATION DATE: California American Water Company will terminate this memorandum account when all implementation costs and penalties have been incurred and recorded or upon removal of penalty rates by the relevant water agency.
6. DISPOSITION: Disposition of amounts recorded in the MEMCRIMA will be determined in a regulatory proceeding, as authorized by the Commission.

FF. Larkfield District Mandatory Conservation Rationing Implementation Memorandum Account (N)  
California American Water Company requests to establish a Mandatory Conservation Rationing Implementation Memorandum Account (MEMCRIMA) for its Larkfield District.

1. PURPOSE: The purpose of the MEMCRIMA is to track the operating costs and administration costs as well as any penalties paid or collected, associated with the implementation of Schedule 14.1-LK in its Larkfield District.
2. APPLICABILITY: The MEMCRIMA will record the operating costs, administration costs and associated fines collected with the implementation of Schedule No. 14.1-LK in its Larkfield District. The memorandum account will also track the penalties or fees, which may be imposed by the relevant water agency, related to California American Water Company for exceeding any assigned allocation. Any fines collected from customers under Schedule No. 14.1-LK in its Larkfield District will also be recorded in this memorandum account.
3. ACCOUNTING PROCEDURE: California American Water Company shall maintain the MEMCRIMA by making entries at the end of each month as follows:
  - a. A debit entry shall be made to the MEMCRIMA at the end of each month to record the incremental expenses or penalties paid.
  - b. A credit entry shall be made to the MEMCRIMA at the end of each month to record the penalty charges collected.
  - c. Interest shall accrue to the MEMCRIMA on a monthly basis by applying a rate equal to one-twelfth of the 3-month non-financial Commercial Paper Rate, as reported in the Federal Reserve Statistical Release, to the average of the beginning-of-month and the end-of-month balances.
4. EFFECTIVE DATE: The MEMCRIMA shall go into effect on the effective date of the Advice Letter activating Stage 2 or higher of Schedule 14.1.
5. TERMINATION DATE: California American Water Company will terminate this memorandum account when all implementation costs and penalties have been incurred and recorded or upon removal of penalty rates by the relevant water agency.
6. DISPOSITION: Disposition of amounts recorded in the MEMCRIMA will be determined in a regulatory proceeding, as authorized by the Commission.

Schedule No. 14.1-BH

STAGED WATER CONSERVATION PLAN
BALDWIN HILLS SERVICE AREA OF LOS ANGELES DISTRICT

A. APPLICABILITY

- 1. This schedule applies to all water customers served under all tariff rate schedules authorized by the Commission for the Baldwin Hills Service Area of Los Angeles District of California American Water Company. It is only effective in times of mandatory conservation, as required by Rule No. 14.1-SD, and only for the period noted in the Special Conditions section below.
2. This schedule shall remain dormant until a specific stage is activated by Commission authorization of a Tier 1 advice letter.
3. When a particular stage of this schedule is activated, the period over which it shall be effective will be added to tariff language.

(N)

B. TERRITORY

This rule is applicable within the Baldwin Hills Service Area of Los Angeles District of California American Water Company. All others served by California American Water Company are excluded from this particular tariff, but are included in separate and distinct Water Conservation Plans.

C. STAGES

- 1. The Permanent water conservation requirements established in Rule 14.1-SD Section D are in effect at all times and reinforcement of them will be the initial response when water supplied to the utility is reduced by 0%-10%.
2. Stage 1 Mandatory Water Conservation - Water supply is reduced 10.01%-20% or water restrictions under Permanent water conservation have not been effective in reducing water usage to prescribed level.
3. Stage 2 Mandatory Water Conservation - Water supply is reduced 20.01%-30% or water restrictions at Stage 1 have not been effective in reducing water usage to prescribed level.
4. Stage 3 Mandatory Water Conservation - Water supply is reduced 30.01% or more or water restrictions at Stage 2 have not been effective in reducing water usage to prescribed level.

D. WATER USE VIOLATION FINE

- 1. When a stage of this schedule has been activated by Commission authorization, the water use restrictions of the conservation program in Sections D, F, G and H of Rule 14.1-SD as applicable for each Stage become mandatory and are listed in the Special Condition of this tariff. If the Utility determines that a customer is violating the water usage restrictions, as outlined in Rule No. 14.1-SD and the Special Conditions below, the customer will be subject to the following fine structure:
a. First offense: Written warning, including explanation of penalty for subsequent offense.
b. Second offense (of the same restriction): Written warning, including explanation of penalty for subsequent offense and \$100 fine.
c. Third offense (of the same restriction): Installation of flow restrictor, and written warning, including explanation of penalty for subsequent offense.

RESOLUTION NO. \_\_\_\_\_

Schedule No. 14.1-BH (continued)

STAGED WATER CONSERVATION PLAN  
BALDWIN HILLS SERVICE AREA OF LOS ANGELES DISTRICT

(N)

D. WATER USE VIOLATION FINE (continued)

- 2. Offenses for separate water use restrictions will each start at the warning stage.
- 3. The water use violation fine is in addition to the regular rate schedule charges

E. FLOW RESTRICTOR REMOVAL CHARGE

The charge for removal of a flow-restricting device shall be:

<u>Connection Size</u>	<u>Removal Charges</u>
5/8" to 1" .....	\$150.00
1-1/2" to 2".....	\$200.00
3" and larger .....	Actual Cost

F. SPECIAL CONDITIONS

- 1. The Tier 1 advice letter requesting activation of any stage of Schedule 14.1 shall include documentation of the overall water shortage justifying activation of that particular stage.
- 2. This tariff schedule shall remain in effect until the utility files a Tier 1 advice letter to deactivate specific stage of mandatory conservation and such is authorized by Commission.
- 3. Water use violation fines must be separately identified on each bill.
- 4. All bills are subject to the reimbursement fee set forth on Schedule No. UF.
- 5. All monies collected by the utility through water use violation fines shall not be accounted for as income. All expenses incurred by utility to implement Rule 14.1-SD and Schedule 14.1-BH that have not been considered in a General Rate Case or other proceeding, shall be recoverable by utility if determined to be reasonable by Commission. These monies shall be accumulated by the utility in a separate memorandum account for disposition as directed or authorized from time to time by the Commission.
- 6. No customer shall use utility-supplied water in Stage 1 Mandatory Water Conservation for non-essential or unauthorized uses, including but not limited to:
  - a. Limits on Watering Hours: Watering or irrigating of lawn, landscape or other vegetated area with potable water is prohibited between the hours of 9:00 a.m. and 5:00 p.m. on any day, except by use of a hand-held bucket or similar container, a hand-held hose equipped with a positive self-closing water shut-off nozzle or device, or for the express purpose of adjusting or repairing an irrigation system.
  - b. Limit on Watering Duration: Watering or irrigating of lawn, landscape or other vegetated area with potable water using a landscape irrigation system or a watering device that is not continuously attended is limited to no more than fifteen (15) minutes watering per day per station. This subsection does not apply to landscape irrigation systems that exclusively use very low-flow drip type irrigation systems when no emitter produces more than two (2) gallons of water per hour and weather based controllers or stream rotor sprinklers that meet a 70% efficiency standard.

F. SPECIAL CONDITIONS (continued)

- 6. No customer shall use utility-supplied water in Stage 1 Mandatory Water Conservation for non-essential or unauthorized uses, including but not limited to: (continued)
  - c. No Excessive Water Flow or Runoff: Watering or irrigating of any lawn, landscape or other vegetated area in a manner that causes or allows excessive water flow or runoff onto an adjoining sidewalk, driveway, street, alley, gutter or ditch is prohibited.
  - d. No Washing Down Hard or Paved Surfaces: Washing down hard or paved surfaces, including but not limited to sidewalks, walkways, driveways, parking areas, tennis courts, patios or alleys, is prohibited except when necessary to alleviate safety or sanitary hazards, and then only by use of a hand-held bucket or similar container, a hand-held hose equipped with a positive self-closing water shut-off device, a low-volume, high-pressure cleaning machine equipped to recycle any water used, or a low-volume high-pressure water broom.
  - e. Obligation to Fix Leaks, Breaks or Malfunctions: All leaks, breaks, or other malfunctions in the water user's plumbing or distribution system must be repaired within seventy-two (72) hours of notification by California American Water Company unless other arrangements are made with California American Water Company.
  - f. Re-circulating Water Required for Water Fountains and Decorative Water Features: Operating a water fountain or other decorative water feature that does not use re-circulated water is prohibited.
  - g. Limits on Washing Vehicles: Using water to wash or clean a vehicle, including but not limited to any automobile, truck, van, bus, motorcycle, boat or trailer, whether motorized or not is prohibited, except by use of a hand-held bucket or similar container or a hand-held hose equipped with a positive self-closing water shut-off nozzle or device. This subsection does not apply to any commercial car washing facility.
  - h. Drinking Water Served Upon Request Only: Eating or drinking establishments, including but not limited to a restaurant, hotel, cafe, cafeteria, bar, or other public place where food or drinks are sold, served, or offered for sale, are prohibited from providing drinking water to any person unless expressly requested. Establishments must prominently display notice of this option in each bathroom using clear and easily understood language.
  - i. Commercial Lodging Establishments Must Provide Guests Option to Decline Daily Linen Services: Hotels, motels and other commercial lodging establishments must provide customers the option of not having towels and linen laundered daily. Commercial lodging establishments must prominently display notice of this option in each bathroom using clear and easily understood language.
  - j. No Installation of Single Pass Cooling Systems: Installation of single pass cooling systems is prohibited in buildings requesting new water service.

F. SPECIAL CONDITIONS (continued)

(N)

- 6. No customer shall use utility-supplied water in Stage 1 Mandatory Water Conservation for non-essential or unauthorized uses, including but not limited to: (continued)
  - k. No Installation of Non-re-circulating Water Systems in Commercial Car Wash and Laundry Systems: Installation of non-re-circulating water systems is prohibited in new commercial conveyor car wash and new commercial laundry systems.
  - l. Restaurants Required to Use Water Conserving Dish Wash Spray Valves: Food preparation establishments, including but not limited to restaurants or cafes, are prohibited from using non-water conserving dish wash spray valves.
  - m. Use of potable water for watering streets with trucks, except for initial wash-down for construction purposes (if street sweeping is not feasible), or to protect the health and safety of the public is prohibited;
  - n. Use of potable water for construction purposes, such as consolidation of backfill, dust control, or other uses unless no other source of water or other method can be used is prohibited.
  - o. Use of potable water for construction purposes unless no other source of water or other method can be used is prohibited;
  - p. Use of potable water for street cleaning is prohibited;
  - q. Operation of commercial car washes without recycling at least 50% of the potable water used per cycle is prohibited; and
  - r. Use of potable water to flush hydrants, except where required for public health or safety is prohibited.
  - s. Limits on Watering Days: Watering or irrigating of lawn, landscape or other vegetated area with potable water is limited to three days per week on a schedule established and posted by the California American Water Company. During the months of November through March, watering or irrigating of lawn, landscape or other vegetated area with potable water is limited to no more than one day per week on a schedule established and posted by the California American Water Company. This provision does not apply to landscape irrigation zones that exclusively use very low flow drip type irrigation systems when no emitter produces more than two (2) gallons of water per hour. This provision also does not apply to watering or irrigating by use of a hand-held bucket or similar container, a hand-held hose equipped with a positive self-closing water shut-off nozzle or device, or for the express purpose of adjusting or repairing an irrigation system.

8. No customer shall use utility-supplied water in Stage 3 Mandatory Water Conservation for non-essential or unauthorized uses, including but not limited to those above in Stages 1 and 2 and the following:

a. No Watering or Irrigating: Watering or irrigating of lawn, landscape or other vegetated area with potable water is prohibited. This restriction does not apply to the following categories of use, unless California American Water Company has determined that recycled water is available and may be applied to the use:

- i. Maintenance of vegetation, including trees and shrubs, that are watered using a hand-held bucket or similar container, hand-held hose equipped with a positive self-closing water shut-off nozzle or device;
- ii. Maintenance of vegetation, including trees and shrubs, that are watered using a hand-held bucket or similar container, hand-held hose equipped with a positive self-closing water shut-off nozzle or device;
- iii. Maintenance of existing landscape necessary for fire protection;
- iv. Maintenance of existing landscape for soil erosion control;
- v. Maintenance of plant materials identified to be rare or essential to the well-being of protected species;
- vi. Maintenance of landscape within active public parks and playing fields, day care centers, golf course greens, and school grounds, provided that such irrigation does not exceed two (2) days per week according to the schedule established in Section G. 2. a. and time restrictions in Section D. 1. of Rule 14.1-SD;
- vii. Actively irrigated environmental mitigation projects.

(N)

b. Obligation to Fix Leaks, Breaks or Malfunctions: All leaks, breaks, or other malfunctions in the water user's plumbing or distribution system must be repaired within twenty four (24) hours of notification by California American Water Company unless other arrangements are made with California American Water Company.

Schedule No. 14.1-COR

STAGED WATER CONSERVATION PLAN  
CORONADO DISTRICT

A. APPLICABILITY

(N)

1. This schedule applies to all water customers served under all tariff rate schedules authorized by the Commission for the Coronado District of California American Water Company. It is only effective in times of mandatory conservation, as required by Rule No. 14.1-SD, and only for the period noted in the Special Conditions section below.
2. This schedule shall remain dormant until a specific stage is activated by Commission authorization of a Tier 1 advice letter.
3. When a particular stage of this schedule is activated, the period over which it shall be effective will be added to tariff language.

B. TERRITORY

This rule is applicable within the Coronado District of California American Water Company. All others served by California American Water Company are excluded from this particular tariff, but are included in separate and distinct Water Conservation Plans.

C. STAGES

1. The Permanent water conservation requirements established in Rule 14.1-SD Section D are in effect at all times and reinforcement of them will be the initial response when water supplied to the utility is reduced by 0%-10%.
2. Stage 1 Mandatory Water Conservation - Water supply is reduced 10.01%-20% or water restrictions under Permanent water conservation have not been effective in reducing water usage to prescribed level.
3. Stage 2 Mandatory Water Conservation - Water supply is reduced 20.01%-30% or water restrictions at Stage 1 have not been effective in reducing water usage to prescribed level.
4. Stage 3 Mandatory Water Conservation - Water supply is reduced 30.01% or more or water restrictions at Stage 2 have not been effective in reducing water usage to prescribed level.

D. WATER USE VIOLATION FINE

1. When a stage of this schedule has been activated by Commission authorization, the water use restrictions of the conservation program in Sections D, F, G and H of Rule 14.1-SD as applicable for each Stage become mandatory and are listed in the Special Condition of this tariff. If the Utility determines that a customer is violating the water usage restrictions, as outlined in Rule No. 14.1-SD and the Special Conditions below, the customer will be subject to the following fine structure:
  - a. First offense: Written warning, including explanation of penalty for subsequent offense.
  - b. Second offense (of the same restriction): Written warning, including explanation of penalty for subsequent offense and \$100 fine.
  - c. Third offense (of the same restriction): Installation of flow restrictor, and written warning, including explanation of penalty for subsequent offense.

D. WATER USE VIOLATION FINE (continued)

- 2. Offenses for separate water use restrictions will each start at the warning stage.
- 3. The water use violation fine is in addition to the regular rate schedule charges

E. FLOW RESTRICTOR REMOVAL CHARGE

The charge for removal of a flow-restricting device shall be:

<u>Connection Size</u>	<u>Removal Charges</u>
5/8" to 1" .....	\$150.00
1-1/2" to 2.....	\$200.00
3" and larger .....	Actual Cost

F. SPECIAL CONDITIONS

- 1. The Tier 1 advice letter requesting activation of any stage of Schedule 14.1 shall include documentation of the overall water shortage justifying activation of that particular stage.
- 2. This tariff schedule shall remain in effect until the utility files a Tier 1 advice letter to deactivate specific stage of mandatory conservation and such is authorized by Commission.
- 3. Water use violation fines must be separately identified on each bill.
- 4. All bills are subject to the reimbursement fee set forth on Schedule No. UF.
- 5. All monies collected by the utility through water use violation fines shall not be accounted for as income. All expenses incurred by utility to implement Rule 14.1-SD and Schedule 14.1-COR that have not been considered in a General Rate Case or other proceeding, shall be recoverable by utility if determined to be reasonable by Commission. These monies shall be accumulated by the utility in a separate memorandum account for disposition as directed or authorized from time to time by the Commission.
- 6. No customer shall use utility-supplied water in Stage 1 Mandatory Water Conservation for non-essential or unauthorized uses, including but not limited to:
  - a. Limits on Watering Hours: Watering or irrigating of lawn, landscape or other vegetated area with potable water is prohibited between the hours of 9:00 a.m. and 5:00 p.m. on any day, except by use of a hand-held bucket or similar container, a hand-held hose equipped with a positive self-closing water shut-off nozzle or device, or for the express purpose of adjusting or repairing an irrigation system.
  - b. Limit on Watering Duration: Watering or irrigating of lawn, landscape or other vegetated area with potable water using a landscape irrigation system or a watering device that is not continuously attended is limited to no more than fifteen (15) minutes watering per day per station. This subsection does not apply to landscape irrigation systems that exclusively use very low-flow drip type irrigation systems when no emitter produces more than two (2) gallons of water per hour and weather based controllers or stream rotor sprinklers that meet a 70% efficiency standard.

(N)

- 6. No customer shall use utility-supplied water in Stage 1 Mandatory Water Conservation for non-essential or unauthorized uses, including but not limited to: (continued)
  - c. No Excessive Water Flow or Runoff: Watering or irrigating of any lawn, landscape or other vegetated area in a manner that causes or allows excessive water flow or runoff onto an adjoining sidewalk, driveway, street, alley, gutter or ditch is prohibited.
  - d. No Washing Down Hard or Paved Surfaces: Washing down hard or paved surfaces, including but not limited to sidewalks, walkways, driveways, parking areas, tennis courts, patios or alleys, is prohibited except when necessary to alleviate safety or sanitary hazards, and then only by use of a hand-held bucket or similar container, a hand-held hose equipped with a positive self-closing water shut-off device, a low-volume, high-pressure cleaning machine equipped to recycle any water used, or a low-volume high-pressure water broom.
  - e. Obligation to Fix Leaks, Breaks or Malfunctions: All leaks, breaks, or other malfunctions in the water user's plumbing or distribution system must be repaired within seventy-two (72) hours of notification by California American Water Company unless other arrangements are made with California American Water Company.
  - f. Re-circulating Water Required for Water Fountains and Decorative Water Features: Operating a water fountain or other decorative water feature that does not use re-circulated water is prohibited.
  - g. Limits on Washing Vehicles: Using water to wash or clean a vehicle, including but not limited to any automobile, truck, van, bus, motorcycle, boat or trailer, whether motorized or not is prohibited, except by use of a hand-held bucket or similar container or a hand-held hose equipped with a positive self-closing water shut-off nozzle or device. This subsection does not apply to any commercial car washing facility.
  - h. Drinking Water Served Upon Request Only: Eating or drinking establishments, including but not limited to a restaurant, hotel, cafe, cafeteria, bar, or other public place where food or drinks are sold, served, or offered for sale, are prohibited from providing drinking water to any person unless expressly requested. Establishments must prominently display notice of this option in each bathroom using clear and easily understood language.
  - i. Commercial Lodging Establishments Must Provide Guests Option to Decline Daily Linen Services: Hotels, motels and other commercial lodging establishments must provide customers the option of not having towels and linen laundered daily. Commercial lodging establishments must prominently display notice of this option in each bathroom using clear and easily understood language.
  - j. No Installation of Single Pass Cooling Systems: Installation of single pass cooling systems is prohibited in buildings requesting new water service.

Schedule No. 14.1-DT

STAGED WATER CONSERVATION PLAN  
DUARTE SERVICE AREA OF LOS ANGELES DISTRICT

A. APPLICABILITY

(N)

1. This schedule applies to all water customers served under all tariff rate schedules authorized by the Commission for the Duarte Service Area of Los Angeles District of California American Water Company. It is only effective in times of mandatory conservation, as required by Rule No. 14.1-SD, and only for the period noted in the Special Conditions section below.
2. This schedule shall remain dormant until a specific stage is activated by Commission authorization of a Tier 1 advice letter.
3. When a particular stage of this schedule is activated, the period over which it shall be effective will be added to tariff language.

B. TERRITORY

This rule is applicable within the Duarte Service Area of Los Angeles District of California American Water Company. All others served by California American Water Company are excluded from this particular tariff, but are included in separate and distinct Water Conservation Plans.

C. STAGES

1. The Permanent water conservation requirements established in Rule 14.1-SD Section D are in effect at all times and reinforcement of them will be the initial response when water supplied to the utility is reduced by 0%-10%.
2. Stage 1 Mandatory Water Conservation - Water supply is reduced 10.01%-20% or water restrictions under Permanent water conservation have not been effective in reducing water usage to prescribed level.
3. Stage 2 Mandatory Water Conservation - Water supply is reduced 20.01%-30% or water restrictions at Stage 1 have not been effective in reducing water usage to prescribed level.
4. Stage 3 Mandatory Water Conservation - Water supply is reduced 30.01% or more or water restrictions at Stage 2 have not been effective in reducing water usage to prescribed level.

D. WATER USE VIOLATION FINE

1. When a stage of this schedule has been activated by Commission authorization, the water use restrictions of the conservation program in Sections D, F, G and H of Rule 14.1-SD as applicable for each Stage become mandatory and are listed in the Special Condition of this tariff. If the Utility determines that a customer is violating the water usage restrictions, as outlined in Rule No. 14.1-SD and the Special Conditions below, the customer will be subject to the following fine structure:
  - a. First offense: Written warning, including explanation of penalty for subsequent offense.
  - b. Second offense (of the same restriction): Written warning, including explanation of penalty for subsequent offense and \$100 fine.
  - c. Third offense (of the same restriction): Installation of flow restrictor, and written warning, including explanation of penalty for subsequent offense.

It is only effective in times of mandatory conservation, as required by Rule No. 14.1-SD, and only for the period noted in the Special Conditions section below.
2. This schedule shall remain dormant until a specific stage is activated by Commission authorization of a Tier 1 advice letter.
3. When a particular stage of this schedule is activated, the period over which it shall be effective will be added to tariff language.

B. TERRITORY

This rule is applicable within the San Marino Service Area of Los Angeles District of California American Water Company. All others served by California American Water Company are excluded from this particular tariff, but are included in separate and distinct Water Conservation Plans.

C. STAGES

1. The Permanent water conservation requirements established in Rule 14.1-SD Section D are in effect at all times and reinforcement of them will be the initial response when water supplied to the utility is reduced by 0%-10%.
2. Stage 1 Mandatory Water Conservation - Water supply is reduced 10.01%-20% or water restrictions under Permanent water conservation have not been effective in reducing water usage to prescribed level.
3. Stage 2 Mandatory Water Conservation - Water supply is reduced 20.01%-30% or water restrictions at Stage 1 have not been effective in reducing water usage to prescribed level.
4. Stage 3 Mandatory Water Conservation - Water supply is reduced 30.01% or more or water restrictions at Stage 2 have not been effective in reducing water usage to prescribed level.

D. WATER USE VIOLATION FINE

1. When a stage of this schedule has been activated by Commission authorization, the water use restrictions of the conservation program in Sections D, F, G and H of Rule 14.1-SD as applicable for each Stage become mandatory and are listed in the Special Condition of this tariff. If the Utility determines that a customer is violating the water usage restrictions, as outlined in Rule No. 14.1-SD and the Special Conditions below, the customer will be subject to the following fine structure:
  - a. First offense: Written warning, including explanation of penalty for subsequent offense.
  - b. Second offense (of the same restriction): Written warning, including explanation of penalty for subsequent offense and \$100 fine.
  - c. Third offense (of the same restriction): Installation of flow restrictor, and written warning, including explanation of penalty for subsequent offense.

D. WATER USE VIOLATION FINE (continued)

2. Offenses for separate water use restrictions will each start at the warning stage.
3. The water use violation fine is in addition to the regular rate schedule charges

E. FLOW RESTRICTOR REMOVAL CHARGE

The charge for removal of a flow-restricting device shall be:

<u>Connection Size</u>	<u>Removal Charges</u>
5/8" to 1" .....	\$150.00
1-1/2" to 2.....	\$200.00
3" and larger .....	Actual Cost

F. SPECIAL CONDITIONS

1. The Tier 1 advice letter requesting activation of any stage of Schedule 14.1 shall include documentation of the overall water shortage justifying activation of that particular stage.
2. This tariff schedule shall remain in effect until the utility files a Tier 1 advice letter to deactivate specific stage of mandatory conservation and such is authorized by Commission.
3. Water use violation fines must be separately identified on each bill.
4. All bills are subject to the reimbursement fee set forth on Schedule No. UF.
5. All monies collected by the utility through water use violation fines shall not be accounted for as income. All expenses incurred by utility to implement Rule 14.1-SD and Schedule 14.1-SM that have not been considered in a General Rate Case or other proceeding, shall be recoverable by utility if determined to be reasonable by Commission. These monies shall be accumulated by the utility in a separate memorandum account for disposition as directed or authorized from time to time by the Commission.
6. No customer shall use utility-supplied water in Stage 1 Mandatory Water Conservation for non-essential or unauthorized uses, including but not limited to:
  - a. Limits on Watering Hours: Watering or irrigating of lawn, landscape or other vegetated area with potable water is prohibited between the hours of 9:00 a.m. and 5:00 p.m. on any day, except by use of a hand-held bucket or similar container, a hand-held hose equipped with a positive self-closing water shut-off nozzle or device, or for the express purpose of adjusting or repairing an irrigation system.
  - b. Limit on Watering Duration: Watering or irrigating of lawn, landscape or other vegetated area with potable water using a landscape irrigation system or a watering device that is not continuously attended is limited to no more than fifteen (15) minutes watering per day per station. This subsection does not apply to landscape irrigation systems that exclusively use very low-flow drip type irrigation systems when no emitter produces more than two (2) gallons of water per hour and weather based controllers or stream rotor sprinklers that meet a 70% efficiency standard.

F. SPECIAL CONDITIONS (continued)

- 6. No customer shall use utility-supplied water in Stage 1 Mandatory Water Conservation for non-essential or unauthorized uses, including but not limited to: (continued)
  - c. No Excessive Water Flow or Runoff: Watering or irrigating of any lawn, landscape or other vegetated area in a manner that causes or allows excessive water flow or runoff onto an adjoining sidewalk, driveway, street, alley, gutter or ditch is prohibited.
  - d. No Washing Down Hard or Paved Surfaces: Washing down hard or paved surfaces, including but not limited to sidewalks, walkways, driveways, parking areas, tennis courts, patios or alleys, is prohibited except when necessary to alleviate safety or sanitary hazards, and then only by use of a hand-held bucket or similar container, a hand-held hose equipped with a positive self-closing water shut-off device, a low-volume, high-pressure cleaning machine equipped to recycle any water used, or a low-volume high-pressure water broom.
  - e. Obligation to Fix Leaks, Breaks or Malfunctions: All leaks, breaks, or other malfunctions in the water user's plumbing or distribution system must be repaired within seventy-two (72) hours of notification by California American Water Company unless other arrangements are made with California American Water Company.
  - f. Re-circulating Water Required for Water Fountains and Decorative Water Features: Operating a water fountain or other decorative water feature that does not use re-circulated water is prohibited.
  - g. Limits on Washing Vehicles: Using water to wash or clean a vehicle, including but not limited to any automobile, truck, van, bus, motorcycle, boat or trailer, whether motorized or not is prohibited, except by use of a hand-held bucket or similar container or a hand-held hose equipped with a positive self-closing water shut-off nozzle or device. This subsection does not apply to any commercial car washing facility.
  - h. Drinking Water Served Upon Request Only: Eating or drinking establishments, including but not limited to a restaurant, hotel, cafe, cafeteria, bar, or other public place where food or drinks are sold, served, or offered for sale, are prohibited from providing drinking water to any person unless expressly requested. Establishments must prominently display notice of this option in each bathroom using clear and easily understood language.
  - i. Commercial Lodging Establishments Must Provide Guests Option to Decline Daily Linen Services: Hotels, motels and other commercial lodging establishments must provide customers the option of not having towels and linen laundered daily. Commercial lodging establishments must prominently display notice of this option in each bathroom using clear and easily understood language.
  - j. No Installation of Single Pass Cooling Systems: Installation of single pass cooling systems is prohibited in buildings requesting new water service.

Schedule No. 14.1-VL

STAGED WATER CONSERVATION PLAN  
VILLAGE DISTRICT

A. APPLICABILITY

(N)

1. This schedule applies to all water customers served under all tariff rate schedules authorized by the Commission for the Village District of California American Water Company. It is only effective in times of mandatory conservation, as required by Rule No. 14.1-SD, and only for the period noted in the Special Conditions section below.
2. This schedule shall remain dormant until a specific stage is activated by Commission authorization of a Tier 1 advice letter.
3. When a particular stage of this schedule is activated, the period over which it shall be effective will be added to tariff language.

B. TERRITORY

This rule is applicable within the Village District of California American Water Company. All others served by California American Water Company are excluded from this particular tariff, but are included in separate and distinct Water Conservation Plans.

C. STAGES

1. The Permanent water conservation requirements established in Rule 14.1-SD Section D are in effect at all times and reinforcement of them will be the initial response when water supplied to the utility is reduced by 0%-10%.
2. Stage 1 Mandatory Water Conservation - Water supply is reduced 10.01%-20% or water restrictions under Permanent water conservation have not been effective in reducing water usage to prescribed level.
3. Stage 2 Mandatory Water Conservation - Water supply is reduced 20.01%-30% or water restrictions at Stage 1 have not been effective in reducing water usage to prescribed level.
4. Stage 3 Mandatory Water Conservation - Water supply is reduced 30.01% or more or water restrictions at Stage 2 have not been effective in reducing water usage to prescribed level.

D. WATER USE VIOLATION FINE

1. When a stage of this schedule has been activated by Commission authorization, the water use restrictions of the conservation program in Sections D, F, G and H of Rule 14.1-SD as applicable for each Stage become mandatory and are listed in the Special Condition of this tariff. If the Utility determines that a customer is violating the water usage restrictions, as outlined in Rule No. 14.1-SD and the Special Conditions below, the customer will be subject to the following fine structure:
  - a. First offense: Written warning, including explanation of penalty for subsequent offense.
  - b. Second offense (of the same restriction): Written warning, including explanation of penalty for subsequent offense and \$100 fine.
  - c. Third offense (of the same restriction): Installation of flow restrictor, and written warning, including explanation of penalty for subsequent offense.

A. APPLICABILITY

(N)

1. This schedule applies to all water customers served under all tariff rates schedules authorized by the Commission. It is only effective in times of mandatory rationing, as required by Rule No. 14.1-LK, and only for the period noted in the Special Conditions section below.
2. This schedule shall remain dormant until a specific stage is activated by Commission authorization of a Tier 1 advice letter.
3. When a particular stage of this schedule is activated, the period over which it shall be effective will be added to tariff language.

B. TERRITORY

This rule is applicable within the Larkfield District of California American Water Company. All others served by California American Water Company are excluded from this particular tariff, but are included in separate and distinct Water Conservation and Rationing Plans.

C. STAGES

1. Stage 1 – Voluntary Conservation – Water supply is reduced 0% - 15%. This stage is initiated by the utility when necessary and it is not part of any mandatory measures.
2. Stage 2 Mandatory Conservation - Water supply is reduced 15.01% - 20% and water restrictions are needed to ensure District's supply and distribution system will be able to meet all the water demands of its customers in the immediate future.
3. Stage 3 Mandatory Rationing - Water supply is reduced 20.01% - 30% or water restrictions at Stage 2 have not been effective in that the District's supply, storage, and distribution system will probably not continue to meet all the water demands of its customers.
4. Stage 4 Mandatory Rationing - Water supply is reduced by greater than 30% or water restrictions at Stage 3 have not been effective in that the District's supply, storage, and distribution system will not continue to meet all the water demands of its customers

D. WATER USE VIOLATION FINE

1. When a mandatory stage of this schedule has been activated by Commission authorization, the water use restrictions of the conservation program in Section E of Rule 14.1-LK become mandatory. If a customer is seen violating the water usage restrictions, as outlined in Rule No. 14.1-LK and the Special Conditions below, the customer will be subject to the following fine structure:

- |  |  |
|--|--|
| a. First offense:                            | Written warning, including explanation of penalty for subsequent offense.                                      |
| b. Second offense (of the same restriction): | Written warning, including explanation of penalty for subsequent offense and \$100 fine.                       |
| c. Third offense (of the same restriction):  | Installation of flow restrictor, and written warning, including explanation of penalty for subsequent offense. |

(N)

D. WATER USE VIOLATION FINE (continued)

2. Offenses for separate water use restrictions will each start at the warning stage.
3. The water use violation fine is in addition to the regular rate schedule charges

E. FLOW RESTRICTOR REMOVAL CHARGE

The charge for removal of a flow-restricting device and/or reconnecting water service shall be:

<u>Connection Size</u>	<u>Removal Charges</u>
5/8" to 1" .....	\$150.00
1-1/2" to 2".....	\$200.00
3" and larger .....	Actual Cost

F. SPECIAL CONDITIONS

1. The Tier 1 advice letter requesting activation of any stage of Schedule 14.1 shall include documentation of the overall water shortage justifying activation of that particular stage.
2. This tariff schedule shall remain in effect until the utility files a Tier 1 advice letter to deactivate specific stage of mandatory conservation and such is authorized by the Commission.
3. Water use violation fines must be separately identified on each bill.
4. All bills are subject to the reimbursement fee set forth on Schedule No. UF.
5. All monies collected by the utility through water use violation fines shall not be accounted for as income. All expenses incurred by utility to implement Rule 14.1-LK and Schedule 14.1-LK that have not been considered in a General Rate Case or other proceeding, shall be recoverable by utility if determined to be reasonable by Commission. These monies shall be accumulated by the utility in a separate memorandum account for disposition as directed or authorized from time to time by the Commission.
6. During Stage 1 Voluntary Conservation, all customers will be encouraged to voluntarily end "non-essential or unauthorized water uses" that are specified in Rule 14.1-LK Section E
7. No customer shall use utility-supplied water in Stage 2 Mandatory Rationing for non-essential or unauthorized uses, including but not limited to those above in Stage 1 and the following:
  - a. Limits on Watering Days: Watering or irrigating of lawn, landscape or other vegetated area with potable water is limited to three days per week on a schedule established and posted by the California American Water Company. During the months of November through March, watering or irrigating of lawn, landscape or other vegetated area with potable water is limited to no more than one day per week on a schedule established and posted by the California American Water Company. This provision does not apply to landscape irrigation zones that exclusively use very low flow drip type irrigation systems when no emitter produces more than two (2) gallons of water per hour. This provision also does not apply to watering or irrigating by use of a hand-held bucket or similar container, a hand-held hose

- 7. No customer shall use utility-supplied water in Stage 2 Mandatory Rationing for non-essential or unauthorized uses, including but not limited to those above in Stage 1 and the following: (continued)
  - b. Obligation to Fix Leaks, Breaks or Malfunctions: All leaks, breaks, or other malfunctions in the water user's plumbing or distribution system must be repaired within seventy-two (72) hours of notification by the California American Water Company unless other arrangements are made with the California American Water Company.
  
- 8. No customer shall use utility-supplied water in Stage 3 Mandatory Rationing for non-essential or unauthorized uses, including but not limited to those above in Stage 2 and the following:
  - a. Watering Days: Watering or irrigating of lawn, landscape or other vegetated area with potable water is limited to two days per week on a schedule established and posted by California American Water Company. During the months of November through March, watering or irrigating of lawn, landscape or other vegetated area with potable water is limited to no more than one day per week on a schedule established and posted by California American Water Company. This provision does not apply to landscape irrigation zones that exclusively use very low flow drip type irrigation systems when no emitter produces more than two (2) gallons of water per hour. (N)

- 9. No customer shall use utility-supplied water in Stage 4 Mandatory Rationing for non-essential or unauthorized uses, including but not limited to those above in Stages 2 and 3 and the following:
  - a. No Watering or Irrigating: Watering or irrigating of lawn, landscape or other vegetated area with potable water is prohibited. This restriction does not apply to the following categories of use, unless California American Water Company has determined that recycled water is available and may be applied to the use:
    - i. Maintenance of vegetation, including trees and shrubs, that are watered using a hand-held bucket or similar container, hand-held hose equipped with a positive self-closing water shut-off nozzle or device;
    - ii. Maintenance of existing landscape necessary for fire protection;
    - iii. Maintenance of existing landscape for soil erosion control;
    - iv. Maintenance of plant materials identified to be rare or essential to the well-being of protected species;
    - v. Maintenance of landscape within active public parks and playing fields, day care centers, golf course greens, and school grounds, provided that such irrigation does not exceed two (2) days per week according to the schedule established in Section H. 2. a. and time restrictions in Section E. 1. of Rule 14.1-LK;
    - vi. Actively irrigated environmental mitigation projects.
  - b. Obligation to Fix Leaks, Breaks or Malfunctions: All leaks, breaks, or other malfunctions in the water user's plumbing or distribution system must be repaired within twenty four (24) hours of notification by California American Water Company unless other arrangements are made with California American Water Company.
