Application 12-04-\_\_\_\_\_

**COST OF CAPITAL APPLICATION OF  
SOUTHERN CALIFORNIA GAS COMPANY (U 904 G)**

In accordance with Rule 2.1 of the California Public Utilities Commission’s (“Commission”) Rules of Practice and Procedure, Southern California Gas Company (“SoCalGas” or “Company”) hereby submits its test year 2013 cost of capital application (“Application”).

**I. PROCEDURAL BACKGROUND**

SoCalGas last filed a cost of capital application on May 8, 1996.<sup>1</sup> In its decision adopting SoCalGas’ test year 1997 cost of capital,<sup>2</sup> the Commission set a return on equity (“ROE”) of 11.60% for all California investor-owned utilities (“IOUs”).<sup>3</sup> By that decision, the Commission also approved SoCalGas’ request for a 270 basis point increase in debt, a 330 basis

---

<sup>1</sup> Application (“A.”) 96-05-024.

<sup>2</sup> D.96-11-060 adopted the capital structures, costs of debt and preferred stock, and the ROEs proposed in an all party settlement. The all party settlement was supported by SoCalGas, San Diego Gas & Electric Company (“SDG&E”), Pacific Gas and Electric Company (“PG&E”), and Southern California Edison Company (“SCE”), the Division of Ratepayer Advocates, Federal Executive Agencies, City of Los Angeles, the Cities of Burbank, Glendale, and Pasadena, and Consumers for the Public Interest.

<sup>3</sup> The California IOUs consist of SoCalGas, SDG&E, PG&E, and SCE.

point decrease in preferred stock and a 60 basis point increase in equity, and set SoCalGas' cost of capital for test year 1997 as follows:

**SoCalGas Cost of Capital for Test Year 1997**

<b>Component</b>	<b>Capital Ratio</b>	<b>Cost</b>	<b>Weighted Cost</b>
Long-Term Debt	45.60%	7.71%	3.52%
Preferred Stock	6.40%	6.35%	0.40%
Common Equity	48.00%	11.60%	5.57%
<b>ROR</b>			<b>9.49%</b>

Since 1997, SoCalGas has operated under a cost of capital automatic adjustment mechanism called the Market-Indexed Capital Adjustment Mechanism (“MICAM”), which was adopted by the Commission in the Performance Based Ratemaking (“PBR”) proceeding in D.97-07-054.<sup>4</sup> The MICAM utilizes two factors based on movements in the 30-year United States Treasury bond yield that must both be triggered to enact a change in SoCalGas’ cost of capital.<sup>5</sup> The Company filed a petition for modification of the PBR decision to suspend its MICAM in 2002 (when the MICAM first triggered) and 2009 (when SoCalGas anticipated a second triggering event) and reevaluate the appropriateness of the Treasury bond as a benchmark. The Commission denied both petitions, but neither decision precluded SoCalGas from addressing its MICAM in the future.<sup>6</sup> Most recently, SoCalGas expressed its intent to re-address its MICAM in the next state-wide utility COC proceeding in its 2012 Test Year General Rate Case

---

<sup>4</sup> The PBR plan did not provide for changes to SoCalGas’ cost of capital. However, it did provide for an adjustment in the event of a dramatic change in the Company’s cost of capital through the MICAM.

<sup>5</sup> The direct testimony of Herbert Emmrich describes in detail the mechanics of the MICAM triggering event.

<sup>6</sup> See D.03-01-008 and D.09-07-033.

(“GRC”),<sup>7</sup> believing it is more appropriate to have its COC proposal addressed along with the other IOUs in a state-wide proceeding instead of on a stand-alone basis.

The MICAM has triggered twice since its inception. The first trigger occurred in October 2002. As a result of that trigger, SoCalGas filed Advice Letter 3199 on October 29, 2002<sup>8</sup> to update its cost of capital, and reduced its ROE to 10.82% from 11.60%, and reduce its rate of return to 8.68% from 9.49% beginning January 1, 2003. Due to the subsequent slow economic recovery since 2008, SoCalGas’ MICAM triggered again in January 2012.

The Application is being filed change the MICAM, and consequently a new authorized cost of capital for test year 2013. This would supersede the cost of capital that would result from the most recent MICAM triggering event, which would otherwise become effective January 1, 2013.

## II. SUMMARY OF AUTHORIZATIONS REQUESTED

SoCalGas respectfully requests that the Commission adopt a test year 2013 cost of capital as summarized in the table below:

**SoCalGas Recommended Cost of Capital for Test Year 2013**

<b>Component</b>	<b>Capital Ratio</b>	<b>Cost</b>	<b>Weighted Cost</b>
Long-Term Debt	45.60%	5.72%	2.61%
Preferred Stock	2.40%	6.00%	0.14%
Common Equity	52.00%	10.90%	5.67%
<b>ROR</b>			<b>8.42%</b>

<sup>7</sup> See Direct testimony of Herbert Emmrich in A.10-12-006.

<sup>8</sup> The Company filed a supplemental Advice Letter (Advice Letter 3199-A), which replaced Advice No. 3199, in order to properly account for a gain on an interest rate swap realized in October 2002.

If adopted, this COC structure will decrease the Company's ROR by 0.26%, which will result in a \$1.43 million revenue requirement decrease for ratepayers.<sup>9</sup>

The seminal United States Supreme Court cases *Bluefield* and *Hope*<sup>10</sup> define the guiding legal principles for establishing the cost of capital for regulated public utilities. The *Bluefield* case established the standard for measuring just and reasonable rates:

A public utility is entitled to such rates as will permit it to earn a return upon the value of the property which it employs for the convenience of the public equal to that generally being made at the same time and in the same general part of the country on investments in other business undertakings which are attended by corresponding risks and uncertainties.... The return should be reasonably sufficient to *assure confidence* in the financial soundness of the utility, and should be adequate, under efficient and economical management, to *maintain and support its credit, and enable it to raise the money* necessary for the proper discharge of its public duties.<sup>11</sup>

The *Hope* case expanded the guidelines for establishing a utility's cost of capital, and reiterates the financial soundness and capital attraction principles of the *Bluefield* case:

From the investor or company point of view it is important that there be enough revenue not only for operating expenses but also for the capital costs of the business. These include service on the debt and dividends on the stock.... By that standard the return to the equity owner should be commensurate with returns on investments in other enterprises having corresponding risks. That return, moreover, should be sufficient to assure confidence in the financial integrity of the enterprise, so as to maintain its credit and attract capital.<sup>12</sup>

Based on the language in the *Bluefield* and *Hope* cases, it is clear that the Supreme Court recognizes that the allowed rate of return should be: (1) comparable to returns investors expect to earn on other investments of similar risk made at the same time in the same general part of the country; (2) sufficient to assure confidence in the company's financial integrity; and (3) adequate to maintain and support the company's credit and attract capital.

---

<sup>9</sup> Appendix A contains the statement of present and proposed rates.

<sup>10</sup> *Bluefield Water Works Co. v. Public Serv. Comm'n*, 262 US 679 (1923); *Federal Power Comm'n v. Hope Natural Gas Co.*, 320 U.S. 591 (1944).

<sup>11</sup> *Bluefield*, 262 U.S. 679, 692.

<sup>12</sup> *Hope*, 320 U.S. at 603.

**A. ROE of 10.90%**

SoCalGas has carefully evaluated numerous factors to determine an ROE that will allow it to fulfill its utility obligations to provide safe and reliable service at reasonable rates, while providing the Company a reasonable opportunity to earn a competitive and reasonable return on its investments. The recommended ROE of 10.90% is based on an independently-derived minimum ROE recommendation of 10.50% from witness, Dr. Roger Morin, and an additional 40 basis point adjustment to account for the additional and prospective risks and policy considerations supported by the testimonies of witnesses, Cheryl Shepherd and Robert Schlax.

**1. ROE Analysis Using the Financial Models**

The testimony of SoCalGas witness Dr. Morin provides a technical analysis of the various financial models used to establish a basis upon which to determine an ROE that strives to meet the tenets set forth in the *Hope* and *Bluefield* cases. In that regard, Dr. Morin explains and lists two appropriate proxy groups of regulated utilities for comparison and utilizes a variety of financial models in recognition that quantitative ROE analyses are generally more informative when a greater number of data points are considered. Dr. Morin identifies and uses the Discounted Cash Flow (“DCF”), the Risk Premium (“RPM”), and the Capital Asset Pricing Model (“CAPM”) methodologies to establish a proposed 10.50% ROE,<sup>13</sup> which is comprised of a 10.10% level from his quantitative analyses plus a 40 basis point adjustment based on four risk indicators.

Dr. Morin’s recommended 10.50% ROE is the basis upon which the Company applies its own ROE adjustment as sponsored by Mr. Schlax, to reflect additional prospective business and regulatory risk pressures associated with the Company’s anticipated level of capital spending

(described in Ms. Shepherd’s testimony), as well as other policy issues that merit additional consideration (described in Mr. Schlax’s testimony).

## **2. SoCalGas Risk Analysis**

In testimony, SoCalGas witness Cheryl Shepherd discusses the Company-specific business and regulatory risks confronting SoCalGas that support the proposed ROE and overall COC. As addressed in testimony, Ms. Shepherd describes that SoCalGas’ business risks arise from: 1) the current economic environment; 2) capital investments; 3) competition; 4) the California business environment; and 5) changes in the natural gas industry. Ms. Shepherd describes that SoCalGas’ regulatory risks can be addressed by: 1) an adequate ROE; 2) cost recovery; 3) regulatory certainty and predictability; and 4) alleviation of regulatory lag.

In addition, Ms. Shepherd evaluates the relative risk profile of SoCalGas vis-à-vis the other California IOUs, and also some of the specific Company business and regulatory risks in comparison to the proxy group of natural gas utilities.

## **3. SoCalGas Policy Considerations**

The testimony of Mr. Schlax supports the Company’s ROE proposal of 10.90%, and describes the justification for the additional 40 basis point adjustment to account for SoCalGas’ additional and prospective risk and policy considerations. Mr. Schlax explains that the requested ROE will incentivize investors to fund, at reasonable rates, the significant increases in Company infrastructure investments that are required to accommodate customer growth, enhanced pipeline safety standards and the Advanced Metering Infrastructure (“AMI”) program. Mr. Schlax further explains that because SoCalGas is entering a period of large capital investment and industry transition, it will require more frequent access to the capital markets. Accordingly, to

---

<sup>13</sup> Dr. Morin’s ROE recommendation is also predicated on the assumption that the Commission will approve

enable continued access to the debt capital markets given the Company's new financing requirements, while keeping rates reasonable for ratepayers over the long term, the SoCalGas recommends adoption of its proposed ROE of 10.90%.

### **B. Capital Structure and Embedded Costs**

As set forth in the testimony of witness Michael Foster, SoCalGas proposes a capital structure consisting of 45.60% long-term debt, 2.40% preferred stock, and 52.00% common equity. Mr. Foster explains that SoCalGas' proposal to maintain its current long-term debt weighting, reduce preferred stock weighting, and increase common equity weighting will maintain the Company's strong single "A" credit rating. This continued rating will enable SoCalGas to secure long-term debt at reasonable rates to fund the Company's significant capital program. In addition, Mr. Foster describes SoCalGas' current embedded costs of long-term debt and preferred stock and explains the basis for adjustments to the forecasts. For test year 2013, Mr. Foster calculates SoCalGas' forecasted cost of debt decreases from 6.96% to 5.72%, and SoCalGas' forecasted cost of preferred stock increases from 4.83% to 6.00%.

### **C. Cost of Capital Adjustment Mechanism**

The testimony of Mr. Emmrich sponsors the Cost of Capital Mechanism ("CCM") proposal, and addresses why the current MICAM should not be continued in 2013. His testimony documents the administrative history of the MICAM, discusses the mechanism's objectives and mechanics, and describes SoCalGas' experience with the current MICAM. SoCalGas believes that adoption of a CCM will bring SoCalGas more in line with the other California IOUs, which operate under a CCM benchmarked against utility bonds.

---

SoCalGas' recommended capital structure.

As noted earlier, SoCalGas' MICAM triggered in January 2012, thereby requiring SoCalGas to file an Advice Letter in October 2012 to update its cost of capital. Because SoCalGas is filing this Application for test year 2013, the Company requests that the Commission decision in this proceeding supersede the implementation of the MICAM triggering event, which would become effective January 1, 2013. Concurrently with this Application, SoCalGas is filing a motion for stay of the October Advice Letter filing.

### **III. STATUTORY AND PROCEDURAL REQUIREMENTS**

#### **A. Compliance with Rule 2.1**

In accordance with Rule 2.1 of the Commission's Rules of Practice and Procedure, SoCalGas provides the following information concerning "the proposed category for the proceeding, the need for hearing, the issues to be considered, and a proposed schedule."

##### **1. Proposed Category of Proceeding**

SoCalGas proposes to categorize this Application as "rate-setting" inasmuch as SoCalGas proposes to establish new gas rates based on proposed changes to its rate of return reflecting adjustments to its capital costs.

##### **2. Need for Hearing**

SoCalGas believes a hearing will be necessary in this proceeding because it is likely there will be questions of fact pertaining to its request to make changes to its rate of return and underlying capital costs. Accordingly, SoCalGas proposes the following procedural schedule:<sup>14</sup>

---

<sup>14</sup> As an initial step to facilitate the establishment of a procedural schedule, SoCalGas has conferred with the other California IOUs regarding the proposal of common dates for selected milestones. The requested dates take into account SoCalGas' hearing schedule conflicts for the periods July 31 – August 17 and September 17 – October 3.

<b>Event</b>	<b>Date</b>

Final Decision Issued	November 29, 2012

### **3. Issues to Be Considered**

SoCalGas proposes that the Commission need only consider the following issues:

- a. Should the Commission modify SoCalGas’ currently authorized revenues for 2013, effective January 1, 2013; and, are the revenue and ROR decreases, proposed by SoCalGas fair and reasonable;
- b. Should the Commission authorize for SoCalGas, effective January 1, 2013, a ROE of 10.90%;

- c. Should the Commission authorize, effective January 1, 2013, SoCalGas' embedded cost of long-term debt of 5.72% and embedded cost of preferred stock of 6.00%;
- d. Should the Commission authorize, effective January 1, 2013, SoCalGas' recommended capital structure of 45.60% long-term debt, 2.40% preferred stock, and 52.00% common equity;
- e. Should the Commission authorize for SoCalGas, effective January 1, 2013, an overall natural gas business ROR of 8.42%;
- f. Should the Commission authorize for SoCalGas, effective on or shortly after January 1, 2013, a revenue requirement decrease of \$1.43 million, as further specified in this Application; and
- g. Should the Commission authorize SoCalGas' proposal to replace the MICAM with its proposed CCM and permit the CCM to continue until the next scheduled COC proceeding proposed for test year 2016.

**B. Statutory Authority - Rule 2.1**

This Application is made pursuant to Sections 451, 454, 455.5, 491, 701, 728, and 729 of the Public Utilities Code of the State of California, the Commission's Rules of Practice and Procedure, and prior decisions, orders and resolutions of the Commission, including those specifically addressed herein.

**C. Legal Name and Correspondence**

SOUTHERN CALIFORNIA GAS COMPANY is a public utility organized and existing under the laws of the State of California. SoCalGas is subject to the jurisdiction of this Commission and is engaged in the business of providing public utility gas service in southern

and central California. The location of SoCalGas' principal place of business is Los Angeles, California and its address is 555 West Fifth Street, Los Angeles, California, 90013. SoCalGas' attorneys in this matter are Kim F. Hassan and Johnny J. Pong.

Correspondence or communications regarding this Application should be addressed to:

**D. Articles of Incorporation - Rule 2.2**

A copy of SoCalGas' current Articles of Incorporation, as amended and restated, certified by the California Secretary of State, was previously filed with the Commission in connection with A.98-10-012, and is incorporated herein by reference.

**E. Financial Statement, Balance Sheet, and Income Statement - Rule 3.2(a)(1)**

SoCalGas' Financial Statement and Balance Sheet and Income Statement are attached to this Application as Appendix B.

**F. Present and Proposed Rates -Rules 3.2(a)(2) and (3)**

A statement of SoCalGas' presently effective and proposed rates forth in Appendix A. SoCalGas' current rates and charges are contained in its tariffs and schedules on file with the Commission. These tariffs and schedules are filed with, and made effective by, the Commission in its decision, orders, resolutions, and approvals of advice letter filings made pursuant to Commission General Order 96-A.

**G. Description of Property and Equipment - Rule 3.2(a)(4)**

A general description of SoCalGas' property was filed with the Commission on October 5, 2001, in connection with A.01-10-005, and is incorporated herein by reference. A statement of account of the original cost and depreciation reserve attributable thereto is attached to this Application as Appendix C.

**H. Summary of Earnings - Rules 3.2(a)(5) and (6)**

SoCalGas' summary of earnings is included herein as Appendix D.

**I. Index to Appendices and Exhibits to this Application**

SoCalGas' submission in support of this Application includes the following, which are incorporated herein by reference.

Appendices to Application:

Appendix A - Statement of Present and Proposed Rates

Appendix B - Financial Statement, Balance Sheet, and Income Statement

Appendix C - Statement of Original Cost and Depreciation Reserve

Appendix D - Summary of Earnings

Appendix E - List of Governmental Agencies

**J. Depreciation - Rule 3.2(a)(7)**

For financial statement purposes, depreciation of utility plant has been computed on a straight-line, remaining life basis, at rates based on the estimated useful lives of plant properties. For federal income tax accrual purposes, SoCalGas generally computes depreciation using the straight-line method for tax property additions prior to 1954, and liberalized depreciation, which includes Class Life and Asset Depreciation Range Systems, on tax property additions after 1954 and prior to 1981. For financial reporting and rate-fixing purposes, "flow through accounting" has been adopted for such properties. For tax property additions in years 1981 through 1986, SoCalGas has computed its tax depreciation using the Accelerated Cost Recovery System. For years after 1986, SoCalGas has computed its tax depreciation using the Modified Accelerated Cost Recovery Systems and, since 1982, has normalized the effects of the depreciation differences in accordance with the Economic Recovery Tax Act of 1981 and the Tax Reform Act of 1986.

**K. Proxy Statement - Rule 3.2 (a)(8)**

A copy of SoCalGas' most recent proxy statement, dated May 2, 2011, was provided to the Commission on May 4, 2011, and is incorporated herein by reference.

**L. Service of Notice - Rule 3.2**

A list of the cities and counties affected by the rate changes resulting from this Application is attached as Appendix E. The State of California is also a customer of SoCalGas whose rates would be affected by the proposed revisions. Also, a notice describing in general terms the proposed revenue decreases and rate changes will be mailed to the governmental agencies identified in Appendix E. The notice will state that a copy of this Application and related attachments will be furnished by SoCalGas upon written request.

Within twenty days following the filing of this Application, SoCalGas will publish at least once in a newspaper of general circulation in each county in which the changes proposed here will become effective, a notice, in general terms, of the changes proposed in this Application. This notice will state that a copy of this Application and related attachments may be examined at the Commission's offices and such offices of SoCalGas as are specified in the notice. A similar notice will be included in the regular bills mailed to all customers within 45 days of the filing date of this Application.

SoCalGas will serve a Notice of Availability of this Application and related exhibits on parties of record in A.07-05-003, (SDG&E's last cost of capital proceeding) and A.10-12-006 (SoCalGas GRC) and will post copies of such documents on its website. The service list identifying these potentially interested parties is contained in the Certificate of Service to this Application.

#### **IV. CONCLUSION**

WHEREFORE, SoCalGas respectfully requests that the Commission:

1. Find that SoCalGas' currently authorized revenues for its Commission-jurisdictional gas business should be modified for 2013, effective January 1, 2013, and that the revenue and ROR decreases proposed herein for its gas and electric businesses are fair and reasonable;
2. Authorize for SoCalGas, effective January 1, 2013, an ROE of 10.90%;
3. Authorize for SoCalGas, effective January 1, 2013, an embedded cost of long-term debt of 5.72% and an embedded cost of preferred stock of 6.00%;
4. Authorize for SoCalGas, effective January 1, 2013, a capital structure of 45.60% long-term debt, 2.40% preferred stock, and 52.00% common equity;

5. Authorize for SoCalGas, effective January 1, 2013, an overall natural gas business ROR of 8.42%;

6. Authorize for SoCalGas, effective January 1, 2013, a total base natural gas rate revenue decrease of \$1.43 million, as further specified herein;

7. Authorize the decrease in SoCalGas' natural gas rates proposed in this Application to become effective for service rendered by SoCalGas on January 1, 2013 (which may be aggregated with other pending rate changes);

8. Adopt SoCalGas' proposed CCM, effective January 1, 2013; and

9. Grant SoCalGas such other and further relief as the Commission finds just and reasonable.

1) These rates are for Natural Gas Transportation Service from "Citygate to Meter". The BTS rate is for service from Receipt Point to Citygate.

2) These Transmission Level Service "TLS" amounts represent the average transmission rate.

3) BTS charge is a separate rate. Core will pay through procurement rate, noncore as a separate charge.
