Vice President
TITLE

Effective January 1, 2011

Resolution No. -

Schedule No. LIRA
LOW-INCOME RATEPAYER ASSISTANCE (LIRA)
(Page 2)

SPECIAL CONDITIONS

1. LIRA Household: A LIRA household is one for which the total gross income from all sources is less than or equal to the maximum household income level for the CARE programs approved by the Commission. Southern California Edison's (Edison) CARE program will be applicable to customers residing within Edison's service area and Pacific Gas and Electric Company's (PG&E) CARE program will be applicable to customers residing within PG&E's service area. Total gross income shall include income from all sources, both taxable and non-taxable. The billed customer must not be a person who is claimed as a dependent on another person's income tax return.
2. Application and Eligibility Declaration: Proof of active participation in a CARE program or an application and eligibility declaration on a form authorized by the Commission is required for each request for service under this schedule. Renewal of a customer's eligibility declaration may be required consistent with CARE program renewal requirements, but not more often than annually. Customers, excluding qualified non-profit group living facilities, qualified agricultural employee housing facilities, and migrant farm worker housing centers, are eligible to receive service under this rate schedule at no more than one residential location at any one time, and the rate applies only to the customer's permanent primary residence.
3. Commence of Rate: LIRA rates become effective January 1, 2007. After LIRA rates are effective eligible customers shall be billed on this schedule commencing no later than one billing period after receipt and approval of the customer's application by the Utility.
4. Verification: Information provided by the applicant is subject to verification by the Utility. Refusal or failure of a customer to provide sufficient documentation of eligibility acceptable to the Utility, upon the request of the Utility, shall result in removal from this rate schedule. Failure to comply with any terms of the LIRA program shall result in removal from this rate schedule.
5. Notice from Customer: It is the customer's responsibility to notify the Utility if there is a change in the customer's eligibility status.
6. Customers may be re-billed for periods of ineligibility under the applicable rate schedule.
7. The RSF-LIRA program approved in D.06-08-011 requires a \$10 credit for customers in Antelope Valley, Kern River Valley, and Redwood Valley districts regardless of the amount of a 5/8" x 3/4" service charge in those districts.

Schedule No. AV-4

Antelope Valley Tariff Area

(All Antelope Valley Service Areas)

SERVICE TO PRIVATELY OWNED FIRE PROTECTION SYSTEMS

APPLICABILITY

Applicable to all water service furnished for privately owned fire protection systems.

TERRITORY

All communities served by the Antelope Valley District.

RATES

For each inch of diameter of service connection Per Month \$9.1863 (I)

SPECIAL CONDITIONS

1. All bills are subject to the reimbursement fee set forth on Schedule UF.
2. The customer will pay, without refund, the entire cost of the private fire service facilities.
3. The private fire service facilities shall be installed by the utility or under the utility's direction and shall be the sole property of the applicant but subject to the control of the utility, with the right to alter, repair, replace and the right to remove upon discontinuance of service.
4. The minimum diameter for the private fire service connection will be four inches. The maximum diameter shall not be larger than the diameter of the water main to which the private fire service facilities are connected.
5. If a water main of adequate size is not available adjacent to the premises to be served, then a new main from the nearest existing main of adequate size will be installed by the utility at the cost of the customer. Such cost shall not be subject to refund.
6. The private fire service facilities will include a detector check valve or other similar device acceptable to the utility which will indicate the use of water. The facilities may be located within the customer's premises or within public rights of way adjacent thereto. Where located within the premises, the utility and its duly authorized agents shall have the right of ingress to and egress from the premises for all purposes related to said facilities. In the event the installation is solely for a private fire hydrant facility, the requirement for a detector check valve or other similar device may be waived.
7. No structure shall be built over the private fire service facilities and the customer shall maintain and safeguard the area occupied by the private fire service facilities from traffic and other hazardous conditions. The customer will be responsible for any damage to the private fire service facilities whether resulting from the use or operation of appliances and facilities on customer's premises or otherwise.
8. Subject to the approval of the utility, any change in the location or construction of the private fire service facilities as may be requested by public authority or the customer will be made by the utility following payment to the utility of the entire cost of such change.
9. The customer's installation must be such as to separate effectively the private fire service facilities from that of the customer's regular domestic water service. Any unauthorized use of water from the private fire service facilities will be charged for at the applicable tariff rates and may be grounds for the utility's discontinuing private fire service without liability to the utility.
10. There shall be no cross connection between the systems supplied by water through the utility's private fire service facilities and any other source of supply without the specific approval of the utility. The specific approval, if given, will at least require at the customer's expense a special double check valve installation or other backflow prevention device acceptable to the utility. Any cross connection may be grounds for immediately discontinuing private fire service without liability to the utility.
11. The utility will supply only such water at such pressure as may be available from time to time as a result of its normal operation of the system. The customer shall indemnify the utility and save it harmless against any and all claims arising against the utility for any loss or damage resulting from service under this schedule. Section 774 of the Public Utilities Commission Code limits the liability of the utility resulting from a claim regarding adequacy of pressure or supply for fire protection service.
12. The customer shall be responsible for the periodic testing of any backflow prevention devices as required by public authority or the utility. Any repair or replacement of such devices or of any other facilities installed to provide private fire service shall be done at the customer's expense. Any refusal to comply with the above requirements may be grounds for the utility's discontinuing private fire service without liability to the utility

For..... 6 - inch connection	38.83	
For..... 8 - inch connection	51.77	
For..... 10 - inch connection	64.71	(R)

SPECIAL CONDITIONS

1. The facilities for service to a privately owned fire protection system will be installed by the Utility at the cost of the applicant. Such cost shall not be subject to refund.
2. If a distribution main of adequate size to serve a private fire protection system in addition to all other normal service does not exist in the street or alley adjacent to the premises to be served, then a service main from the nearest existing main of adequate capacity will be installed by the Utility at the cost of the applicant. Such cost shall not be subject to refund.
3. Service hereunder is for private fire protection systems to which no connections for other than fire protection purposes are allowed and which are regularly inspected by the underwriters having jurisdiction, are installed according to specifications of the Utility, and are maintained to the satisfaction of the Utility. The Utility may require the installation of a detector check valve with meter for protection against theft, leakage, or waste of water.
4. For water delivered for other than service to privately owned fire protection systems, charges will be made therefor under one of the following schedules: BK-1-R or BK-1-NR. (T)

SERVICE TO PUBLIC FIRE HYDRANTS

APPLICABILITY

Applicable to all water service furnished to public fire hydrants of a public authority; such as, a municipality, county, or other political subdivision of the State.

TERRITORY

Bakersfield and vicinity, Kern County.

RATES

Per Hydrant Per
Month*
Facilities Installed at
Cost of Public Authority

For each hydrant \$1.50

SPECIAL CONDITIONS

1. The above rates cover delivery of water used for fire protection and for no other purpose. For water delivered through fire hydrants for any other purpose, charges will be made therefore at the quantity rate under Schedule No. BK-1-NR Nonresidential Metered Service. (T)
2. The cost of relocation of any hydrant shall be paid by the party requesting relocation.
3. Fire hydrants will be attached to the Utility's distribution mains only as authorized by the proper public authority. Such authorization must designate the ownership and size of hydrants and specifically state the location at which each is to be installed.
4. The Utility will supply to the hydrant only such water at such pressure as may be available from time to time in the operation of Utility's system. However, unless otherwise authorized by the Commission, all new and replacement mains installed after June 5, 1975, have been designed so as to comply with the minimum flow requirement set forth in G.O. No. 103.
5. Whenever the facilities are installed at the cost of a public authority, such costs shall include all labor and materials except that the utility will provide the materials for the service tee and the shutoff valve. The service tee and valve will be installed only by authorized utility personnel.

*All rates are subject to the reimbursement fees set forth on Schedule UF.

Applicable to all water service furnished to public fire hydrants of a public authority; such as, a municipality, country, or other political subdivision of the State.

TERRITORY

The communities of Atherton, Menlo Park, Portola Valley, Woodside, and vicinity, San Mateo County.
 The Skyline service area in San Mateo County.

RATES

	<u>Per Hydrant Per Month</u>
For fire hydrants owned and maintained by the public authority, installed on a water main 4 inches in diameter, or larger	\$1.00
For fire hydrants owned by the Utility, installed on a water main 4 inches in diameter, or larger	\$1.50
For fire hydrants owned and maintained by the public authority, installed on a water main less than 4 inches in diameter	\$0.50
For fire hydrants owned by the Utility, installed on a water main less than 4 inches in diameter, or larger	\$1.00

SPECIAL CONDITIONS

1. Hydrants owned by the public authority will be installed, maintained, painted, inspected and relocated at the expense of the public authority. The utility will install and own the tee in the main, the hydrant branch and the control valve.
2. Hydrants owned by the Utility will be maintained by it. The Utility will install and own the tee in the main, hydrant branch, valve, bury and hydrant. The public authority will pay for the relocation of any hydrants owned by the Utility.
3. The above rates cover delivery of water used for fire protection and for no other purpose. For water delivered through fire hydrants for any other purpose, charges will be made therefore at the quantity rate under Schedule No. BG-1-NR, Nonresidential Metered Service.
4. The Utility will supply to the hydrant only such water at such pressure as may be available from time to time in the operation of the Utility's system.
5. Fire hydrants will be attached to the Utility's distribution mains only as authorized by the proper public authority. Such authorization must designate the ownership and size of hydrants and specifically state the location at which each is to be installed.
6. All rates are subject to the reimbursement fees set forth on Schedule UF.
7. A one-time surcharge of \$0.3243 is to be added to each bill after May 28, 2009, the effective date of Advice Letter 1922 to recover the amount paid to the CPUC for the Division of Ratepayer Advocates' audit of Cal Water's General Office.
8. A surcredit of \$-0.0167 is to be added to each bill on or after June 1, 2009, the effective date of Advice Letter 1923-A to reflect the Cost of Capital authorized by the CPUC in Decision 09-05-019. (N)

METERED RECYCLED WATER SERVICE

Page 2 of 2

SPECIAL CONDITIONS

1. All bills are subject to the reimbursement fees set forth on Schedule UF.
2. Recycled water service refers to non-potable water that has been processed and treated by one of the following methods:
 - a. Title 22 Water refers to wastewater that has undergone tertiary treatment that meets recycled water use standards as established in Title 22 of the California Code of Regulations, Division 4 Environmental Health, Chapter 3 Reclamation Criteria, Articles 1 through 10.
 - b. R.O. Water refers to Title 22 Water that has further undergone reverse osmosis treatment to remove salts and dissolved solids.
 - c. Nitrified Water refers to Title 22 Water that has further undergone a biological treatment and processing for removal of ammonia.
3. A Recycled Water Memorandum Account has been established to track under/over collections associated with the purchase and sale of recycled water. This account will include all charges from West Basin Municipal Water District not included in the current recycled rate, as well as the lower cost of water derived from charges and billings under West Basin's declining block structure and the Company's declining block structure. West Basin Municipal Water District credits not credited directly to a customer will be credited to this account and will offset future rate increases for recycled water customers. This account will be reconciled at least annually on or about the date date when West Basin Municipal Water District changes its rates.
4. All bills are subject to any applicable surcharges on Schedules RSF and LIRA-SC.
5. A surcharge of \$0.0452 per 100 cubic feet of water is to be added to each bill for 24 months on or after January 1, 2011, to reflect interim rates authorized by the Commission in Decision 10-12-017.
6. A WRAM-MCBA true-up surcharge of \$0.0070 per 100 cu. ft. of water used is to be applied to the quantity rates for 12 months beginning May 3, 2012, the effective date of Advice Letter 2073-B. (N)

SERVICE TO PRIVATELY OWNED FIRE PROTECTION SYSTEMS

APPLICABILITY

Applicable to all water service furnished for privately owned fire protection systems.

TERRITORY

Portions of Carson, Los Angeles, Long Beach, Torrance, and vicinity, Los Angeles County.

RATES

	<u>Per Month</u>	
For each inch of diameter of service connection	\$10.37	(1)

SPECIAL CONDITIONS

1. All bills are subject to the reimbursement fees set forth on Schedule UF.
2. The customer will pay, without refund, the entire cost of the private fire service facilities.
3. The private fire service facilities shall be installed by the utility or under the utility's direction and shall be the sole property of the applicant but subject to the control of the utility, with the right to alter, repair, replace and the right to remove upon discontinuance of service.
4. The minimum diameter for the private fire service connection will be four inches. The maximum diameter shall not be larger than the diameter of the water main to which the private fire service facilities are connected.
5. If a water main of adequate size is not available adjacent to the premises to be served, then a new main from the nearest existing main of adequate size will be installed by the utility at the cost of the customer. Such cost shall not be subject to refund.
6. The private fire service facilities will include a detector check valve or other similar device acceptable to the utility which will indicate the use of water. The facilities may be located within the customer's premises or within public rights of way adjacent thereto. Where located within the premises, the utility and its duly authorized agents shall have the right of ingress to and egress from the premises for all purposes related to said facilities. In the event the installation is solely for a private fire hydrant facility, the requirement for a detector check valve or other similar device may be waived.
7. No structure shall be built over the private fire service facilities and the customer shall maintain and safeguard the area occupied by the private fire service facilities from traffic and other hazardous conditions. The customer will be responsible for any damage to the private fire service facilities whether resulting from the use or operation of appliances and facilities on customer's premises or otherwise.
8. Subject to the approval of the utility, any change in the location or construction of the private fire service facilities as may be requested by public authority or the customer will be made by the utility following payment to the utility of the entire cost of such change.
9. The customer's installation must be such as to separate effectively the private fire service facilities from that of the customer's regular domestic water service. Any unauthorized use of water from the private fire service facilities will be charged for at the applicable tariff rates and may be grounds for the utility's discontinuing private fire service without liability to the utility.
10. There shall be no cross connection between the systems supplied by water through the utility's private fire service facilities and any other source of supply without the specific approval of the utility. The specific approval, if given, will at least require at the customer's expense a special double check valve installation or other backflow prevention device acceptable to the utility. Any cross connection may be grounds for immediately discontinuing private fire service without liability to the utility.
11. The utility will supply only such water at such pressure as may be available from time to time as a result of its normal operation of the system. The customer shall indemnify the utility and save it harmless against any and all claims arising against the utility for any loss or damage resulting from service under this schedule. Section 774 of the Public Utilities Commission Code limits the liability of the utility resulting from a claim regarding adequacy of pressure or supply for fire protection service.
12. The customer shall be responsible for the periodic testing of any backflow prevention devices as required by public authority or the utility. Any repair or replacement of such devices or of any other facilities installed to provide private fire service shall be done at the customer's expense. Any refusal to comply with the above requirements may be grounds for the utility's discontinuing private fire service without liability to the utility

SERVICE TO PRIVATELY OWNED FIRE PROTECTION SYSTEMS

APPLICABILITY

Applicable to all water service furnished for privately owned fire protection systems.

TERRITORY

All communities served by Kern River Valley District.

RATES

For each inch diameter of service connection Per Month
\$7.32 (I)

SPECIAL CONDITIONS

1. All bills are subject to the reimbursement fee set forth on Schedules No. UF.
2. The customer will pay, without refund, the entire cost of the private fire service facilities.
3. The private fire service facilities shall be installed by the utility or under the utility's direction and shall be the sole property of the applicant but subject to the control of the utility, with the right to alter, repair, replace and the right to remove upon discontinuance of service.
4. The minimum diameter for the private fire service connection will be four inches. The maximum diameter shall not be larger than the diameter of the water main to which the private fire service facilities are connected.
5. If a water main of adequate size is not available adjacent to the premises to be served, then a new main from the nearest existing main of adequate size will be installed by the utility at the cost of the customer. Such cost shall not be subject to refund.
6. The private fire service facilities will include a detector check valve or other similar device acceptable to the utility which will indicate the use of water. The facilities may be located within the customer's premises or within public rights of way adjacent thereto. Where located within the premises, the utility and its duly authorized agents shall have the right of ingress to and egress from the premises for all purposes related to said facilities. In the event the installation is solely for a private fire hydrant facility, the requirement for a detector check valve or other similar device may be waived.
7. No structure shall be built over the private fire service facilities and the customer shall maintain and safeguard the area occupied by the private fire service facilities from traffic and other hazardous conditions. The customer will be responsible for any damage to the private fire service facilities whether resulting from the use or operation of appliances and facilities on customer's premises or otherwise.
8. Subject to the approval of the utility, any change in the location or construction of the private fire service facilities as may be requested by public authority or the customer will be made by the utility following payment to the utility of the entire cost of such change.
9. The customer's installation must be such as to separate effectively the private fire service facilities from that of the customer's regular domestic water service. Any unauthorized use of water from the private fire service facilities will be charged for at the applicable tariff rates and may be grounds for the utility's discontinuing private fire service without liability to the utility.
10. There shall be no cross connection between the systems supplied by water through the utility's private fire service facilities and any other source of supply without the specific approval of the utility. The specific approval, if given, will at least require at the customer's expense a special double check valve installation or other backflow prevention device acceptable to the utility. Any cross connection may be grounds for immediately discontinuing private fire service without liability to the utility.
11. The utility will supply only such water at such pressure as may be available from time to time as a result of its normal operation of the system. The customer shall indemnify the utility and save it harmless against any and all claims arising against the utility for any loss or damage resulting from service under this schedule. Section 774 of the Public Utilities Commission Code limits the liability of the utility resulting from a claim regarding adequacy of pressure or supply for fire protection service.
12. The customer shall be responsible for the periodic testing of any backflow prevention devices as required by public authority or the utility. Any repair or replacement of such devices or of any other facilities installed to provide private fire service shall be done at the customer's expense. Any refusal to comply with the above requirements may be grounds for

GENERAL METERED SERVICE
(Page 2 of 2)

SPECIAL CONDITIONS

1. The SDWBA (Safe Drinking Water Bond Act) monthly surcharge for mobile home parks is \$1.85 per space for all meters. The surcharge is in addition to the regular monthly metered water bill. The total monthly surcharge must be identified on each bill. This surcharge is specifically for the repayment of the California SDWBA loan authorized by Decision 92711. It shall apply only to service rendered on or after December 1, 1981.
2. In accordance with Section 2714 of the California Public Utilities Code, if a tenant in a rental unit leaves owing the company, service to subsequent tenants in that unit will, at the company's option, be furnished on the account of the landlord or property owner.
3. The amount of the Service Fee for New Service shall be equal to the accumulated total of the monthly surcharge, which would have been applicable to such service from the effective date of surcharge implementation until the date of the new service. The accumulated service fee shall not exceed the maximum charges listed in the table above and shall only apply to previously unserved lots. The effective date for the SDWBA service fee for new lots is December 1, 1981. The effective date for the SDWSRF service fee for new lots is January 11, 2010.
4. All bills are subject to the reimbursement fees set forth on Schedule UF.
5. Qualifying low-income individually metered and flat rate residential customers, non-profit group living facilities, agricultural employee housing facilities, and migrant farm worker housing centers are eligible for credits as shown on Schedule LIRA.

GENERAL METERED SERVICE
Page 1 of 2

APPLICABILITY

Applicable to all metered water service where furnished on an annual basis.

TERRITORY

The unincorporated community of Armstrong, Woods Valley, Lone Mountain Subdivision and vicinity, located approximately 1.5 miles north of the City limits of Guerneville, Sonoma County.

RATES

Quantity Rates:

Per 100 Cu. ft. \$8.3472

Service Charge:		<u>Per Meter</u> <u>Per Month</u>
For	5/8 x 3/4 - inch meter	\$55.52
For	3/4 - inch meter	83.28
For	1 - inch meter	138.80

For	2 - inch meter	444.16
For	3 - inch meter	832.80
For	4 - inch meter	1,388.01

The service charge is a readiness-to-serve charge which is applicable to all metered service and to which is added the charge for water used computed at the quantity rate.

SPECIAL CONDITIONS

1. The annual service charge applies to service during the twelve-month period commencing July 1, and is due in advance. If a permanent resident of the area has been a customer of the utility for at least twelve months, he may elect at the beginning of each year to pay prorated service charges in advance at intervals of less than one year in accordance with the utility's established billing cycle.
2. The opening bill for metered service, except from conversion from flat rate service, shall be the established annual service charge for the service. Where initial service is established after the first day of any year, the portion of such annual charge applicable to the current year shall be determined by multiplying the annual charge by one three-hundred-sixty-fifth (1/365) of the number of days remaining in the year. The balance of the payment of the initial annual charge shall be credited against the charges for the succeeding annual period. If service is not continued for at least one year after the period of initial service, no refund of the initial annual charges shall be due the customer.
3. The established billing cycle is every other month (bi-monthly). The billing cycle may be at longer intervals during the winter season.

Buena Vista Tariff Area

GENERAL METERED SERVICE

APPLICABILITY

Applicable to all metered water service.

TERRITORY

Buena Vista Water Systems in Monterey County.

RATES

Quantity Rates:

Per 100 Cu. ft. \$1.1338

Service Charge:

	<u>Per Meter</u>
For.....5/8 x 3/4 - inch meter	\$7.22
For.....3/4 - inch meter	7.22
For.....1-inch meter and 1 1/2 inch meter with residential fire sprinklers	10.83

For.....10 - inch meter	681.60

The service charge is a readiness-to-serve charge which is applicable to all metered service and to which is added the charge for water used computed at the quantity rate.

SPECIAL CONDITIONS

1. Any service to a residential customer who requires a larger meter and service line because of fire flow requirement to a residential fire sprinkler system will be billed at the rate for "1-inch meter and 1-1/2 inch meter with residential fire sprinkler systems" and the quantity rate based on the quantity of water used. Determination of eligibility for this tariff condition will be determined by the utility at customer's request.
2. All bills are subject to the reimbursement fees set forth on Schedule UF.
3. The Utility undertakes to supply only such water at such pressure as may be available from time to time as the result of its normal operation of the system. Section 774 of the Public Utilities Code limits the liability of the Utility resulting from a claim regarding the provision of maintenance of an adequate water supply, water pressure, equipment or other fire protection facility or service. This limit of liability includes but is not limited to the construction and repair of fire protection facilities. Acceptance of service under this tariff is acknowledgement of notice of the provisions of Section 774 of the Public Utilities Code.
4. In accordance with Section 2714 of the Public Utilities Code, if a tenant in a rental unit leaves owing the company, service to subsequent tenants in that unit will, at the company's option, be furnished on the account of the landlord or property owner.
5. All bills are subject to the surcharges set forth on Schedule PB. (N)

RATES

	<u>Per Hydrant Per Month</u>
City of Salinas	N/C
For fire hydrants with facilities installed at cost of Utility	\$6.00
For fire hydrants with facilities installed at cost of Public Authority	\$2.00

SPECIAL CONDITIONS

1. Within the City of Salinas, the city is responsible for the hydrant installation and maintenance costs including, without limitation: the capital cost of new hydrant installations starting with the tee in the main and the branch gate valve; any hydrant replacements caused by age, wear or change in hydrant standards; relocations to accommodate street improvements or changes of grade to the utility's pipeline of changes to the right-of-way; relocations or reconnections of hydrants brought about by replacement of the main by the utility; maintenance (including repairs caused by traffic accidents and the expense of shutting down and re-establishment of service); mechanical maintenance or adjustments of the hydrant; painting; and clearing of weeds.
2. Outside of the City of Salinas, whenever the facilities are installed at the cost of the public authority, such costs include all labor and materials except that the utility will provide the materials for the service tee and the shutoff valve. The service tee and valve will be installed only by authorized utility personnel.
3. Relocation of any hydrant shall be at the expense of the party requesting relocation.
4. The above rates cover delivery of water used for fire protection and for no other purpose. For water delivered through fire hydrants for any other purpose, charges will be made therefore at the quantity rate under Schedule No. SA-1-NR, Nonresidential Metered Service.
4. The Utility will supply to the hydrant only such water at such pressure as may be available from time to time in the operation of the Utility's system.
5. Fire hydrants will be attached to the Utility's distribution mains only as authorized by the proper public authority. Such authorization must designate the ownership and size of hydrants and specifically state the location to which each is to be installed.

SERVICE TO PUBLIC FIRE HYDRANTS

APPLICABILITY

Applicable to all water service furnished to public fire hydrants of the City of Stockton and the certificated area of the former Mayfair Water Company.

TERRITORY

City of Stockton and the certificated area of the former Mayfair Water Company, San Joaquin County.

RATES

	<u>Per Hydrant</u> <u>Per Month*</u>
For fire hydrants owned by the Public Authority	\$1.00

SPECIAL CONDITIONS

1. Hydrants owned by the public authority will be installed, maintained, painted, inspected and relocated at the expense of the public authority. The utility will install and own the tee in the main, the hydrant branch and the control valve.
2. Hydrants owned by the Utility will be maintained by it. The Utility will install and own the tee in the main, hydrant branch, valve, bury and hydrant. The public authority will pay for the relocation of any hydrants owned by the Utility.
3. The above rates cover delivery of water used for fire protection and for no other purpose. For water delivered through fire hydrants for any other purpose, charges will be made therefore at the quantity rate under Schedule No. ST-1-NR, Nonresidential Metered Service.
4. The Utility will supply to the hydrant only such water at such pressure as may be available from time to time in the operation of the Utility's system.
5. Fire hydrants will be attached to the Utility's distribution mains only as authorized by the proper public authority. Such authorization must designate the ownership, and size and type of hydrants and specifically state the location at which each is to be installed.
