PG&E Data Request No.:	CARE_001-02		
PG&E File Name:	GasTransmissionSystemRecordsOII_DR_CARE_001-Q02		
Request Date:	March 30, 2011	Requester DR No.:	001
Date Sent:	April 11, 2011	Requesting Party:	Californians for Renewable Energy
PG&E Witness:		Requester:	Martin Homec

QUESTION 2

Please provide copies of documents showing the engineers who signed the drawings or other documents providing final natural gas transportation or storage designs or inspections.

Were these engineers registered or certified by the state licensing authority for the physical location for these facilities?

Were these engineers insured or did they provide bonds or other guarantees for their work?

ANSWER 2

PG&E objects to this data request on the grounds that it is vague and overbroad. Also, it seeks information that is beyond the scope of this proceeding as described by the Commission in the OII:

By this order, the Commission institutes a formal investigation to determine whether the named Respondent, Pacific Gas and Electric Company (PG&E), violated any provision or provisions of the California Public Utilities Code, Commission general orders or decisions, or other applicable rules or requirements pertaining to safety recordkeeping for its gas service and facilities. This proceeding will pertain to PG&E's safety recordkeeping for the San Bruno, California gas transmission pipeline that ruptured on September 9, 2010, killing eight persons. This investigation will also review and determine whether PG&E's recordkeeping practices for its entire gas transmission system have been unsafe and in violation of the law.
