

Regulatory Liaisons History & Description of Persons and Parties Represented

On August 15, 2015, we filed our Articles of Incorporation and the Ca Secretary of State processed them on September 21, 2015. That day, we received the confirming e-mail and generated our Bylaws. We realized on Sept 22 that the Bylaws we generated also needed Article 15 and passed it.

By then, we represented two Cal-Am Monterey customers: Stone Creek Village (August 31) and a single family residential customer (September 16) consisting of two sisters living together in Monterey. Their identity is confidential and we are prepared to share their records to the ALJs upon request and under NDA/seal.

Both Stone Creek Village and the two Sisters were represented by us on October 6, 2015 when we submitted our original NOI. We inadvertently failed to attach Article 15 to the original NOI at that time and it is now attached.

We were not sure when we filed the original NOI what exact verbiage to use since we were transitioning to Regulatory Liaisons during this Proceeding. We checked the "prior finding of hardship within the past year" box, which was correct for Bob Burke and not for Regulatory Liaisons.

Stone Creek Village withdrew as a Party with its letter written Dec 10, 2015. The de-brief of Ms. Glanville, Stone Creek Village's property manager, revealed that her supervisor called her into his office and ordered her to withdraw Stone Creek Village.

On Jan 18, 2016, Public Water Now requested that Regulatory Liaisons represent it and has been a joint Party with us since that date.

On Feb 19, 2016, Water Plus requested that Regulatory Liaisons represent it. Water Plus was a Joint Party Response to ALJ Weatherford's Ruling to provide Comments on Resolution to the Schedule Conflicts between A12-04-019 and A15-07-019 submitted on Feb 22, 2016 and in the Rebuttal Testimonies to Cal-AM, MPWMD & ORA submitted on March 4, 2016.

On Feb 21, Public Trust Alliance notified us that it would be a Joint Party in the Response to ALJ Weatherford's Ruling to provide Comments on Resolution to the Schedule Conflicts between A12-04-019 and A15-07-019 submitted on Feb 22, 2016.
