VINTAGING BRIEFING**

I.

INTRODUCTION

In accordance with Rule 11.1 of the Rules of Practice and Procedure of the Public Utilities Commission (“Commission” or “CPUC”), Southern California Edison Company (“SCE”); the Alliance for Retail Energy Markets and Direct Access Customer Coalition (“AReM/DACC”); and the City of Lancaster (“Lancaster”) (collectively, “the Parties”) file this joint stipulation and move that the assigned Administrative Law Judge (“ALJ”) admit this stipulation into the formal record in this proceeding. Pursuant to Rule 1.8(d) of the Commission’s Rules of Practice and Procedure, counsel for SCE has been authorized by AReM/DACC and Lancaster to file this joint stipulation on behalf of the Parties.¹

¹ On September 28, 2016, SCE inadvertently filed this stipulation in another SCE ERRRA docket (A.16-04-001). SCE withdrew that filing, and with ALJ Miles’s authorization SCE is now late-filing this stipulation in the correct docket (A.16-05-001).

II.

JOINT STIPULATION

The Parties jointly agree and stipulate as follows:

1. Key Commission decisions regarding the bundled service customer indifference principle for departing load that inform the Power Charge Indifference Adjustment (“PCIA”) vintaging debate between the Direct Access Parties and SCE include, but are not limited to, D.02-11-022, D.04-12-048, D.06-07-030, D.07-05-005, D.08-09-012, D.13-10-052, D.14-05-003, and D.15-10-037.
2. SCE’s assigned Department of Water Resources (“DWR”) contracts are no longer in effect and are no longer in SCE’s generation portfolio.
3. The Indifference Amount, defined as the difference between the annual costs of the resources in each vintaged portfolio and its current market value, sets the annual Indifference Charge to be collected from departing customers. The Indifference Charge is split into two rate components: the Competition Transition Charge (“CTC”) and the PCIA.
4. The resource composition of SCE’s generation portfolio underlying the pre-2009 vintaged portfolios is almost exclusively made up of pre-2001 (i.e., “legacy”) SCE Utility Owned Generation (“UOG”), legacy Qualifying Facilities (“QF”) contracts, and legacy inter-utility contracts.
5. Legacy QF and inter-utility contracts are CTC-eligible; all above- or below-market costs associated with such contracts are collected through the CTC rate component.
6. All above- or below-market costs associated with UOG are collected through the PCIA rate component.
7. Since 2013, the CTC-eligible resources have been determined to be below-market; as such, SCE’s CTC rate component has been negative since 2013.

Respectfully submitted,
FADIA R. KHOURY
