**BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA**

In the Matter of the Application of Fox Express, LLC for passenger stage authority under Section 1031 et seq., of the California Public Utilities (PU) Code to transport passengers and baggage express, on an on-call, county to county basis, between the counties of San Diego, Imperial, Orange, Los Angeles, San Bernardino, Riverside, Kern, Tulare, Fresno, Monterey, Santa Clara, San Francisco, Alameda, and Sacramento, described in the body of the Application; and to establish a Zone of Rate Freedom (ZORF) under Section 454.2 et seq., of the PU Code.

Application 12-08-021  
(Filed August 29, 2012)

**D E C I S I O N****Summary**

This decision grants the application of Fox Express, LLC (Applicant), a limited liability company, pursuant to Pub. Util. Code § 1031 et seq., for a certificate of public convenience and necessity to operate as a passenger stage corporation (PSC), as defined in Pub. Util. Code § 226, and to establish a zone of rate freedom (ZORF), pursuant to Pub. Util. Code § 454.2.

**Discussion**

The application requests authority to transport passengers, their baggage, and express<sup>1</sup> as a PSC. Applicant proposes to provide on-call, “county-to-county” transportation between points in 14 counties.<sup>2</sup> The customer base will be primarily Spanish speaking families, visitors, business people, and migrant workers whose need for competitive, licensed transportation service is not currently being met. According to Applicant, members of this community are particular about the type of transportation they use, and their choice of transportation provider is usually based on common language and price. Applicant’s owners belong to the community and have a clear understanding of its culture and transportation needs.

The service will operate daily, 24 hours per day. Operations will be conducted initially with ten 14-passenger vans. Vehicles will be added to the fleet as needed to meet passenger demand. Attached to the application as Exhibit D is an unaudited balance sheet for Applicant’s founding members, which discloses assets of \$135,000, liabilities of \$6,400, and net worth of \$128,600. Applicant states that its owner-members will contribute any additional resources necessary to operate and ensure the viability of the service. Applicant has held a certificate from the Commission to operate as a charter-party carrier (TCP 21536-B) since 2007.

---

<sup>1</sup> Express shipments will be limited to packages and unaccompanied baggage weighing not more than 30 pounds per item.

<sup>2</sup> The counties to be served are San Diego, Imperial, Orange, Los Angeles, San Bernardino, Riverside, Kern, Tulare, Fresno, Monterey, Santa Clara, San Francisco, Alameda, and Sacramento.

The proposed fares, as shown in Exhibit B of the application, range between \$10 and \$110. Applicant requests authority to establish a ZORF of \$5 above and below the proposed fares of \$20 and under, \$10 above and below the proposed fares greater than \$20 and less than \$40, and \$20 above and below the proposed fares of \$40 and over. Applicant will compete with other PSCs, public transit, taxicabs, charter vehicles, and private automobiles in its service area. This competitive environment should result in Applicant pricing its services at a reasonable level. Many other PSCs have been granted ZORFs. The requested ZORF is generally consistent with the ZORFs held by other PSCs.

Notice of filing of the application appeared in the Commission's Daily Calendar on September 17, 2012. Applicant requests a waiver from the provisions of Rule 3.3(b) of the Commission's Rules of Practice and Procedure which require service of a notice of the application on all city and county officials within whose boundaries the passengers will be loaded or unloaded. Applicant served a notice of the application to the involved counties and five cities, and sent a copy of the application to the public transit operators in the service area. Applicant believes the Commission's Daily Calendar provides adequate notice to parties that may have an interest in PSC applications. We shall exercise the discretion accorded to us by Rule 1.2 and grant the waiver requested by Applicant because it will be providing on-call service, not scheduled service, and service on all cities in the service territory would be burdensome.

In Resolution ALJ 176-3301 dated September 27, 2012, the Commission preliminarily categorized this application as ratesetting, and preliminarily determined that hearings were not necessary. No protest has been received. Given this status, public hearing is not necessary, and it is not necessary to alter the preliminary determinations made in Resolution ALJ 176-3301.

This is an uncontested matter in which the decision grants the relief requested. Accordingly, pursuant to Pub. Util. Code § 311(g)(2), the otherwise applicable 30-day period for public review and comment is being waived.

**Assignment of Proceeding**

Emory J. Hagan, III is the assigned Examiner in this proceeding.

**Findings of Fact**

1. Applicant requests authority to operate as a PSC to transport passengers, their baggage, and express on an on-call basis between points in the Counties of San Diego, Imperial, Orange, Los Angeles, San Bernardino, Riverside, Kern, Tulare, Fresno, Monterey, Santa Clara, San Francisco, Alameda, and Sacramento.
2. Applicant requests authority to establish a ZORF of \$5 above and below the proposed fares of \$20 and under, \$10 above and below the proposed fares greater than \$20 and less than \$40, and \$20 above and below the proposed fares of \$40 and over, as shown in Exhibit B of the application.
3. Applicant will compete with other PSCs, public transit, taxicabs, charter vehicles, and private automobiles in its operations. The ZORF is fair and reasonable.
4. Applicant requests a waiver of the notice requirements of Rule 3.3(b) of the Rules of Practice and Procedure as it has served notice of the application to the involved counties and five cities, and sent a copy of the application to the public transit operators in the service area.
5. Public convenience and necessity requires the proposed service.
6. No protest to the application has been filed.
7. A public hearing is not necessary.
8. It can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment.

**Conclusions of Law**

1. Public convenience and necessity has been demonstrated and the application should be granted.
2. The request to waive the notice requirements of Rule 3.3(b) should be granted.
3. The request for a ZORF should be granted.
4. Before Applicant changes any fares under the ZORF authorized below, Applicant should give this Commission at least ten days' notice. The tariff should show the high and low ends of the ZORF and the then currently effective fare between each pair of service points.
5. Since the matter is uncontested, the decision should be effective on the date it is signed.
