Application 14-01-018
(Filed January 23, 2014)

D E C I S I O N G R A N T I N G A P P L I C A T I O N**Summary**

This decision grants the application of Goldencare Medical Transportation, LLC, a California Limited Liability Company, pursuant to Pub. Util. Code §§ 1031, et seq., for a Certificate of Public Convenience and Necessity to operate as a Passenger Stage Corporation, as defined in Pub. Util. Code § 226, and to establish a Zone of Rate Freedom, pursuant to Pub. Util. Code § 454.2.

Discussion

Goldencare Medical Transportation, LLC (Applicant), requests authority to operate as an on-call Passenger Stage Corporation (PSC) to transport passengers between points in the Counties of Los Angeles, San Bernardino, Orange, and Riverside, on the one hand, and Los Angeles International Airport (LAX), on the other hand. Applicant states that it will offer riders not only convenience but value; as a small boutique shuttle service, it says it will have the flexibility to adjust to its riders' needs.

Applicant states that there is a need for this proposed service. The proposed service will encourage the public to share ride and reduce congestion on the highways. A California Environmental Quality Act review is not required, because approval of this application will not have a significant adverse effect on the environment.

The proposed one-way fare ranges from \$50 (Los Angeles) to \$230 (Palm Springs). Applicant will offer a 100% on-time guarantee. Applicant will arrive on time to the passenger's point of origin or the passenger will receive a discount on that trip.

Applicant requests authority to establish a Zone of Rate Freedom (ZORF) of \$20 above and below the proposed fares. The minimum fare will be \$30. Applicant will be competing with transportation charter party (TCP) carriers, transportation network companies, taxi-cab, rental car, on-call shuttle services, and private automobiles. This competitive environment should result in Applicant pricing its service at a reasonable level.

Applicant provided a balance sheet (Exhibit E) as of November 1, 2013, indicating total assets of \$222,200, total liabilities of \$137,350, and net worth of \$84,850.

Notice of filing of the application appeared in the Commission's Daily Calendar on January 27, 2014. Applicant served notice of the application to the involved cities, counties, airport, and public transit operators in the service area.

In Resolution ALJ 176-3330, dated February 5, 2014, the Commission preliminarily categorized this application as ratesetting, and preliminarily determined that hearings were not necessary. No protest has been received. Given this status, public hearing is not necessary and it is not necessary to alter the preliminary determinations made in Resolution ALJ 176-3330.

Safety Considerations

In order to be authorized to commence operations as a PSC, the Applicant must comply with the following requirements in order to protect public safety: Proof of insurance pursuant to General Order Series 101, compliance with the controlled substance and alcohol testing program pursuant to Pub. Util. Code §1032.1 and General Order Series 158, and enrollment in the pull notice system as required by Section 1808.1 of the Vehicle Code.

Waiver of Comment Period

This is an uncontested matter in which the decision grants the relief requested. Accordingly, pursuant to Section 311(g)(2) of the Public Utilities Code and Rule 14.6(c)(2) of the Commission's Rules of Practice and Procedure, the otherwise applicable 30-day period for public review and comment is waived.

Assignment of Proceeding

Denise Y. Tyrrell is the assigned Examiner in this proceeding.

Findings of Fact

1. The application requests authority to operate as an on-call PSC to transport passengers between points in the Counties of Los Angeles, San Bernardino, Orange, and Riverside and LAX.
2. Public convenience and necessity requires the proposed service.
3. Applicant requests authority to establish a Zone of Rate Freedom of \$20 above and below the proposed fares. The minimum fare will be \$30.
4. Applicant will compete with other means of passenger transportation.
5. No protest to the application has been filed.
6. A public hearing is not necessary.

7. Proposed service will reduce the number of vehicles on the public highways therefore it can be seen with certainty that there is no possibility that the activity in question may have a significant adverse effect on the environment.

Conclusions of Law

1. Public convenience and necessity has been demonstrated and the application should be granted.
2. The request for a ZORF should be granted because the ZORF is fair and reasonable.
3. Before Applicant changes any fares under the ZORF authorized below, Applicant should be required to give this Commission at least ten days' notice. The tariff should show the high and low ends of the ZORF and the then currently effective fare between each pair of service points.
4. Because the matter is uncontested, the decision should be effective on the date it is signed.
5. Only the amount paid to the State for operative rights may be used in rate fixing. The State may grant any number of rights and may cancel or modify these rights at any time.
