Resolution ST-159
June 12, 2014

REDACTED**RESOLUTION**

RESOLUTION ST-159 GRANTING APPROVAL OF THE FINAL REPORT ON THE 2013 TRIENNIAL ON-SITE SECURITY REVIEW OF LOS ANGELES COUNTY METROPOLITAN TRANSPORTATION AUTHORITY.

Summary

This resolution approves the California Public Utilities Commission Safety and Enforcement Division final report titled, "2013 Triennial On-Site Security Review of Los Angeles County Metropolitan Transportation Authority," dated October 30, 2013. The report compiles the results of Commission staff review of the Los Angeles County Metropolitan Transportation Authority security program. Background information and review procedures only are included in the redacted report.

Background

Commission General Order No. 164-D, "Rules and Regulations Governing State Safety Oversight of Rail Fixed Guideway Systems" requires Commission staff (Staff) to conduct on-site security review of the transit agencies operating rail fixed guideway systems triennially.

From 1996 to 2008, the Commission's Rail Transit Safety Section (RTSS) partnered with the Transportation Security Administration (TSA) in performing rail transit security reviews. However, in the later half of 2008, RTSS took over the responsibility of security reviews from the TSA. Staff

conducted an on-site security review of the Los Angeles County Metropolitan Transportation Authority (LACMTA) security program in October 2013. LACMTA is Los Angeles County's Transportation Authority, which provides bus and transit rail services 365 days of the year throughout the county of Los Angeles.

A full description of the security review, including the scope, results, and recommendations, is contained in the final security review report identified in this resolution as Attachment A.

The security review results show that the LACMTA is in compliance with its System Security Plan. Staff did not find any areas of non-compliance during the review. Activities of each checklist can be found in Section D of the security report.

Staff sent Los Angeles Sheriff Department (LASD) a copy of the draft security review report for a 30-day comment period on March 27, 2014. LASD did not have any comments.

Discussion

The final report, "2013 Triennial On-Site Security Review Of Los Angeles County Metropolitan Transportation Authority," dated October 30, 2013, included as Attachment A, identifies staff's activities for each of the five Federal Transit Administration security elements evaluated during the security review. Staff recommends the Commission approve the final security review report titled, "2013 Triennial On-Site Security Review of Los Angeles County Metropolitan Transportation Authority," dated October 30, 2013.
