

Decision _____

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In The Matter of the Application of SAN DIEGO GAS & ELECTRIC COMPANY (U902E) for a Certificate of Public Convenience and Necessity for the Sycamore-Penasquitos 230 Kilovolt Transmission Line Project.

Application 14-04-011
(Filed April 7, 2014)

ORDER EXTENDING STATUTORY DEADLINE

Public Utilities Code Section 1701.5 provides that ratesetting proceedings shall be resolved within 18 months of the date the scoping memo is issued, unless the scoping memo sets a later date. The Commission may also, upon making a written determination that the deadline cannot be met, including findings as to the reason, issue an order extending the deadline for no more than 60 days.

Decision (D.) 16-02-005 extended the statutory deadline for resolving this proceeding from February 24, 2016, to May 24, 2016, in order to allow time for the issuance of the final Environmental Impact Report (EIR) and to take evidence and argument on the issues of whether the EIR was completed in compliance with the California Environmental Quality Act, whether the mitigation measures or project alternatives identified in the EIR are infeasible, and whether there are overriding considerations that merit project approval notwithstanding the significant and unavoidable adverse impacts identified in the EIR.

The final EIR issued on March 7, 2016, which did not allow sufficient time to take such evidence and argument within the extended deadline. Thus, D.16-05-022 further extended the deadline to July 23, 2016.

Pursuant to the schedule agreed to by the parties, prepared testimony was served on May 3 and May 17, 2016, and opening and reply briefs were filed on June 14 and June 28, 2016, respectively. Additional time is required to consider the evidence and argument, prepare a proposed decision, and allow public review and comment on the proposed decision as required by Pub. Util. Code § 311(d) before it may resolve the proceeding.

Waiver of Comments on Proposed Decision

Under Rule 14.6(c)(4) of the Commission's Rules of Practice and Procedure (Rule), the Commission may reduce or waive the period for public review and comment of decisions extending the deadline for resolving ratesetting proceedings. We waive the period for public review and comment pursuant to this rule.

Assignment of Proceeding

Michael Picker is the assigned Commissioner and Hallie Yacknin is the assigned Administrative Law Judge and presiding officer in this proceeding.
