2016 Safety En Banc

October 19, 2016
9:15 am – 5:30 pm

*California Public Utilities Commission
505 Van Ness Avenue, Auditorium
(Corner of Van Ness Avenue and McAllister Street)
San Francisco, CA 94102*

The California Public Utilities Commission (CPUC) will hold its annual *Safety En Banc* on October 19, 2016.

The CPUC's Safety Action Plan, which helps to fully integrate safety in all aspects of the CPUC's work, calls for an annual *Safety En Banc* that provides for an interactive discussion of utility safety. The 2016 *Safety En Banc* is devoted to a discussion of interconnected critical infrastructures, such as gas, electric, communications, transportation, and water. The *En Banc* will explore the manner in which critical infrastructures are interconnected, such that a disruption in one infrastructure may have cascading adverse effects in others. The *En Banc* will include a presentation on interconnected infrastructures, and small breakout sessions during which Commissioners and invited stakeholders will discuss different topics related to interconnected infrastructures.

Although a quorum of Commissioners and/or their staff may be in attendance, no official CPUC action will be taken at this event. With the exception of the breakout sessions, this *En Banc* will be available via webcast at:

<http://www.adminmonitor.com/ca/cpuc/>

Agenda and media advisory available at: <http://www.cpuc.ca.gov/General.aspx?id=12125>. For questions, please contact April Mulqueen at april.mulqueen@cpuc.ca.gov or 415.703.1112. If you require special accommodations, please notify the

Public Advisor's Officer at toll free 1-866-849-8390 or public.advisor@cpuc.ca.gov, at least 5 business days before the *En Banc*.

Notice of Public Participation Hearing: A.16-08-006 - Application of Pacific Gas and Electric Company for Approval of the Retirement of Diablo Canyon Power Plant, Implementation of the Joint Proposal, And Recovery of Associated Costs Through Proposed Ratemaking Mechanisms (U39E).

<p>October 20, 2016 1:30 pm and 7 pm</p>	<p>San Luis Obispo Botanical Garden – Oak Glen Pavilion Room (in El Chorro Regional Park), 3450 Dairy Creek Road, San Luis Obispo, CA 93405</p>
---	---

The Public Participation Hearing in the above entitled matter will be held at the date, time and location above. Assigned Commissioner Michael Picker and/or Administrative Law Judge Peter V. Allen will preside. There may be a quorum of Commissioners present, however, no voting will occur.

Questions about the hearing date, time or place, call the Calendar Clerk at (415) 703-1203 or ahg@cpuc.ca.gov.

If special arrangements are needed for attendees, such as sign and/or foreign language interpreters, please contact the CPUC Public Advisor's Office at 1-866-849-8391 or 1-415-703-2074 or email: public.advisor@cpuc.ca.gov at least three days prior to the hearing.

CPUC Regionalization Workshop

<p>October 25, 2016 9:15 - 4:15 p.m.</p>	<p>California State Capitol 1315 10th St. Sacramento, CA 95814</p>
---	--

California Public Utilities Commission (CPUC) is currently headquartered in San Francisco with offices in Sacramento and Los Angeles. Senate Bill (SB) 840 directs the CPUC to report on options to locate operations and staff outside of the CPUC's headquarters. Pursuant to the bill the CPUC will hold workshops to gather information from a broad group of participants including but not limited to the employee Unions representing CPUC staff. As stated in the bill, the objective of the workshops is to hear suggestions, concerns, ideas, and comments from stakeholders and interested members of the public on options for leveraging additional facilities in areas of the State, such as Sacramento, which would allow the CPUC to collaborate with other departments and also allow staff more opportunities for growth in promotion in the other state departments. In order to frame the discussions and have a productive meeting, we consider three scenarios as options to relocate CPUC operations and staff outside San Francisco headquarters. In the report that will be presented to the Legislators, these scenarios will be compared in terms of real-estate costs and other unquantifiable factors that concern employees and quality of the CPUC operations. Please see the scenarios and agenda at <http://www.cpuc.ca.gov/General.aspx?id=6442450975>.

“The below notices having been duly noticed in the Daily Calendar and along with the requisite ruling, scoping memo or other order issued in the specific proceedings satisfy the requirements of the Commission’s Rules of Practice and Procedure Rule 8.1(c) such that no ex parte communication shall be considered to occur should a decisionmaker or an advisor be present at the meeting or workshop.”

Public Workshop Notice: Distributed Energy Resources (DER) Action Plan

October 18, 2016
10 am – 1 pm

Milton Marks Auditorium
455 Golden Gate Avenue, State Building
San Francisco, CA 94102

No WiFi or Web-Ex is available at this location

Teleconference: 866.832.3002
Participant Passcode: 7708062

This purpose of this workshop is to discuss the draft [Distributed Energy Resources \(DER\) Action Plan](#), which was introduced by President Michael Picker at the September 29, 2016, Commissioners’ Meeting. Commissioner Michel Florio will preside, with support from Commissioners Advisors and Energy Division staff. At Pres. Picker’s request, the DER Action Plan was developed by Energy Division to provide a coherent vision for the CPUC’s activities on distributed resources and facilitate the coordination of numerous proceedings that affect DER deployment. The intent is for the DER Action Plan to be a “living document” that will continue to be refined over time.

Stakeholders and interested parties are invited to submit their pre-workshop comments by COB on Tuesday, October 11, 2016, and their post-workshop comments by COB on Monday, October 31 at this [on-line portal](#). Following the workshop and with subsequent additional refinements, Pres. Picker is looking for endorsement of the DER Action Plan at an upcoming Commission meeting.

For questions about this workshop, please contact Natalie Guishar at natalie.guishar@cpuc.ca.gov.

AGENDA

Commission Decision 16-06-008 (“the Decision”) resolves issues related to customer authorization for the utility to share data with third party Demand Response providers. This includes completing the Customer Information Service Request Demand Response Provider Form (CISR-DRP Form) in paper form or through a “Click-Through” process.

The Decision requires the utilities to hold working group meetings with stakeholders and Energy Division to “develop a consensus proposal to streamline and simplify the direct participation enrollment process, including adding more automation, mitigating enrollment fatigue, and resolving any remaining electronic signature issues.” (See Ordering Paragraph 9, D.16-06-008).

For questions about this workshop, please contact Katherine Stockton at katherine.stockton@cpuc.ca.gov.

On January 28, 2016, the California Public Utilities Commission (Commission) adopted a successor tariff to the current net energy metering (NEM) tariff in Decision 16-01-044. That decision directed Energy Division staff, in collaboration with R.14-07-002 parties, to undertake further consideration of consumer protection measures, including the development of an information packet for customers interested in taking service under the NEM successor tariff. As a first step in the Commission’s further consideration of these issues, the purpose of this workshop will be to identify:

1. Consumer protection issues NEM customers have encountered; and
2. Existing regulation and jurisdiction over consumer protection for NEM customers.

The workshop agenda and presentation slides will be provided in advance of the workshop. For further information, please contact Shannon O’Rourke (sr6@cpuc.ca.gov / 415.703.5574).

Grid-optimized distributed energy resources (DERs) participate in the management and provision of water and energy services to the ratepayers of the State of California. DERs as defined by AB 327 include energy efficiency, demand response, electric vehicles, electric storage, and solar generation and other renewable generation facilities. In compliance with electric utility and CAISO interconnection tariffs, DERs require communications for DER facility management and optimization. DERs have the potential to help manage scarce water resources which require intensive energy inputs to pump, treat, heat and move water in residential, commercial, industrial and agricultural applications across the state. DERs in water applications, and the water facilities themselves, require telemetry and communications for optimized management and use.

Just as devices designed for the “Internet of Things” are less functional things without the internet, communications enable new possibilities for water and energy management, operation, and analysis. DERs, aggregators, and energy generation facilities need communications to interconnect to the grid and provide a greater range of grid services. Communications gaps in urban, suburban and rural areas complicate and add expense and delays to the process of negotiating and getting connected. Individualized communications agreements may be time consuming and expensive, yet the only alternative. This workshop will explore communications gaps, barriers, opportunities, and potential solutions to connect innovative DER and energy projects critical to California's greener future. For questions regarding the workshop, please contact Jamie Ormond at Jamie.Ormond@cpuc.ca.gov or 415-703-1193.

This is the first of two or more webinars on scenario development and portfolio evaluation for the CPUC's 2017 Integrated Resource Planning (IRP) process. In this webinar, Energy Division staff will present a summary of its proposed approach to scenario development and portfolio evaluation for 2017. Energy Division staff will also answer clarifying questions from parties. Parties may provide informal comments in response to specific questions posed within the slides that will be presented in this webinar. Instructions and deadlines for distributing comments, along with the slides to be presented in this webinar, will be circulated to the service list of the LTPP-IRP Rulemaking (R.16-02-007) and will be posted on the [LTPP-IRP website](#) prior to this webinar.

Please note that the webinars on scenario development are intended to be complementary to the webinar meetings of the IRP Modeling Advisory Group (MAG). In general, the MAG webinars will tend to be more technical in nature and will focus on the specific modeling and analytical tools anticipated to be used in IRP in 2017. The webinars on scenario development will be more conceptual and will focus on planning concepts and issues.

California Public Utilities Commission (CPUC) is currently headquartered in San Francisco with offices in Sacramento and Los Angeles. Senate Bill (SB) 840 directs the CPUC to report on options to locate operations and staff outside of the CPUC's headquarters. Pursuant to the bill the CPUC will hold workshops to gather information from a broad group of participants including but not limited to the employee Unions representing CPUC staff. As stated in the bill, the objective of the workshops is to hear suggestions, concerns, ideas, and comments from stakeholders and interested members of the public on options for leveraging additional facilities in areas of the State, such as Sacramento, which would allow the CPUC to collaborate with other departments and also allow staff more opportunities for growth in promotion in the other state departments. In order to frame the discussions and have a productive meeting, we consider three scenarios as options to relocate CPUC operations and staff outside San Francisco headquarters. In the report that will be presented to the Legislators, these scenarios will be compared in terms of real-estate costs and other unquantifiable factors that concern employees and quality of the CPUC operations. Please see the scenarios and agenda at <http://www.cpuc.ca.gov/General.aspx?id=6442450975>.

AGENDA

Commission Decision 16-06-008 (“the Decision”) resolves issues related to customer authorization for the utility to share data with third party Demand Response providers. This includes completing the Customer Information Service Request Demand Response Provider Form (CISR-DRP Form) in paper form or through a “Click-Through” process.

The Decision requires the utilities to hold working group meetings with stakeholders and Energy Division to “develop a consensus proposal to streamline and simplify the direct participation enrollment process, including adding more automation, mitigating enrollment fatigue, and resolving any remaining electronic signature issues.” (See Ordering Paragraph 9, D.16-06-008).

For questions about this workshop, please contact Katherine Stockton at katherine.stockton@cpuc.ca.gov.
