CPUC Regionalization Workshop

November 1, 2016

(Corner of Van Ness Avenue and McAllister Street)

California Public Utilities Commission (CPUC) is currently headquartered in San Francisco with offices in Sacramento and Los Angeles. Senate Bill (SB) 840 directs the CPUC to report on options to locate operations and staff outside of the CPUC's headquarters. Pursuant to the bill the CPUC will hold workshops to gather information from a broad group of participants including but not limited to the employee Unions representing CPUC staff. As stated in the bill, the objective of the workshops is to hear suggestions, concerns, ideas, and comments from stakeholders and interested members of the public on options for leveraging additional facilities in areas of the State, such as Sacramento, which would allow the CPUC to collaborate with other departments and also allow staff more opportunities for growth in promotion in the other state departments. In order to frame the discussions and have a productive meeting, we consider three scenarios as options to relocate CPUC operations and staff outside San Francisco headquarters. In the report that will be presented to the Legislators, these scenarios will be compared in terms of real-estate costs and other unquantifiable factors that concern employees and quality of the CPUC operations. Please see the scenarios and agenda at <http://www.cpuc.ca.gov/General.aspx?id=6442450975>.
