CPUC Regionalization Workshop**December 8, 2016**

10 am - 2 pm

Los Angeles CPUC Office Building
320 West 4th Street, Auditorium
Los Angeles, CA 90013

The California Public Utilities Commission (CPUC) is currently headquartered in San Francisco with offices in Sacramento and Los Angeles. Senate Bill (SB) 840 directs the CPUC to report on options to locate operations and staff outside of the CPUC's headquarters. Pursuant to the bill the CPUC will hold workshops to gather information from a broad group of participants including but not limited to the employee Unions representing CPUC staff. As stated in the bill, the objective of the workshops is to hear suggestions, concerns, ideas, and comments from stakeholders and interested members of the public on options for leveraging additional facilities in areas of the State, such as Sacramento, which would allow the CPUC to collaborate with other departments and also allow staff more opportunities for growth in promotion in the other state departments. In order to frame the discussions and have a productive meeting, we consider three scenarios as options to relocate CPUC operations and staff outside San Francisco headquarters. In the report that will be presented to the Legislators, these scenarios will be compared in terms of real-estate costs and other unquantifiable factors that concern employees and quality of the CPUC operations. Please see the scenarios and agenda at <http://www.cpuc.ca.gov/calEvent.aspx?id=6442451564>.

Public Workshop Notice: Joint Agency Workshop on Vehicle-Grid Integration Communications Standards in R.13-11-007

<p>December 7, 2016 10 am – 4 pm</p>	<p>California Energy Commission 1516 Ninth Street, 1st Floor, Imbrecht Hearing Room Sacramento, CA 95814</p>
---	---

AGENDA

CPUC Energy Division staff along with California Energy Commission (CEC), California Air Resources Board (CARB), California Independent System Operator (California ISO), and other organizations will discuss the consideration of communication standards for Vehicle-Grid Integration related to transportation electrification.

A September 14, 2016 Assigned Commissioner Ruling in R.13-11-007, which was subsequently ratified by D.16-11-005, requires that the forthcoming IOU transportation electrification applications address how their programs will comply with the ISO/IEC 15118 Standard that is described in the guidance ruling. Alternatively, the utilities must provide justification on why alternative approaches sufficiently meet code requirements and policy objectives. The Ruling also stated that “for the Commission to decide whether statewide communication standards need to be adopted, the parties to these TE applications should be prepared to provide testimony to support or oppose adopting such a standard.”

Consistent with ALJ Kersten's Ruling of November 21, 2016 noticing this Technical Best Practices Workshop, the CPUC's Safety and Enforcement Division, in cooperation with the California Air Resources Board (CARB) will facilitate this Workshop located at the San Francisco EDF office. The purpose of this Workshop is to clarify requirements for 26 methane emissions reduction best practices (Attachment A of ALJ November 21st Ruling) and discuss realistic deadlines. For questions about this workshop, including a copy of the refined agenda and agenda materials, please contact Ms. Wendy al-Mukdad at Wendy.al-Mukdad@cpuc.ca.gov or (415) 703-2311 and cc: Winardi Setiawan at wsetiawa@arb.ca.gov.

Parties/Stakeholders must provide names of all planned attendees to Ms. al-Mukdad by COB Thursday, December 8, 2016 in order for building security to allow attendees access to EDF's office.

Public Workshop Notice: Third Annual California Multi-Agency Update on Vehicle-Grid Integration Research, R.13-11-007

December 12, 2016
 9:30 am – 5 pm

California Energy Commission
 1516 Ninth Street
 First Floor, Rosenfeld Hearing Room

Sacramento, CA 95814

AGENDA

California Energy Commission staff, in coordination with staff from CPUC and other state agencies, will lead a public workshop to review the progress of research called for in the California Vehicle-Grid Integration Roadmap as part of the Governor's Zero-Emission Vehicle Action Plan.

A September 14, 2016 Assigned Commissioner Ruling in R.13-11-007, which was subsequently ratified by D.16-11-005, requires Pacific Gas and Electric Company, San Diego Gas & Electric Company, and Southern California Edison Company, in consultation with the Commission's Energy Division, to hold a workshop to review the results of transportation electrification pilots and programs already completed or near completion. This workshop fulfills the IOUs' requirement, as each IOU will present the results of recent transportation electrification pilots.

For information please contact Amy Mesrobian (amy.mesrobian@cpuc.ca.gov or 415-703-3175).

AGENDA

Pursuant to the October 21, 2016 Assigned Commissioner's Ruling (ACR) on Track 3 Issues in R.14-08-013, this workshop is being held to discuss issues pertaining to a Distribution Investment Deferral Framework, which is the focus of Sub-track 3. The high level objective of the workshop will be to explore utility and stakeholder perspectives on the Sub-track 3 scoping items described in the ACR in order to inform a Staff Proposal on a Distribution Investment Deferral Framework. These scoping items include:

- Establishment of a process to identify opportunities for distributed energy resources (DERs) to defer or avoid traditional distribution infrastructure projects;
- Establishment of a process for utilities to seek authorization and cost recovery for DERs sourcing to enable deferral or avoidance of traditional investments; and
- Consideration of a process to ensure that the savings from deferred or avoided distribution investments are accurately reflected in concurrent or subsequent General Rate Case filings.

A detailed agenda and summary report on relevant Deferral Framework proposals will be issued to the R.14-08-013 service list in advance of the workshop. For more information, please contact Marc Monbouquette at (415) 355-5504 or at mm7@cpuc.ca.gov.

Purpose

This workshop will be used to explore in more detail the options for Integrated Resource Planning (IRP) Scenario Development and the role of GHG targets within IRP. A quorum of Commissioners may attend the workshop, but no votes will be taken.

Background

IRP Scenarios and Modeling: In October and November 2016, Energy Division staff initiated two different series of public webinars to foster transparency and facilitate the ability of Energy Division staff to develop a proposal for implementing the IRP process in 2017.

Modeling Advisory Group: One series of webinars focused specifically on the technical, modeling-related aspects of IRP.

Scenario Development: The second series of webinars focused on higher level planning concepts and issues involved in developing and selecting scenarios and portfolios of future resources.

GHG Planning Targets: On Tuesday, November 15, 2016 the CPUC Energy Division Staff White Paper on Implementing GHG Planning Targets in the IRP Process was circulated to parties of CPUC Rulemaking R.16-02-007. Informal comments from parties were requested by November 30th, 2016. The purpose of this paper was to:

- Propose objectives to guide implementation of GHG planning targets in the IRP process
- Present four potential GHG target-setting options
- Solicit feedback from parties on the above items

This workshop will be used to discuss party feedback on these items. This December 16th workshop will be posted to the Commission's Daily Calendar. An agenda and other workshop materials will be emailed to the service list in advance of the workshop. **For more information, please contact:** Jason Ortego at jason.ortego@cpuc.ca.gov or Nathan Barcic at nathan.barcic@cpuc.ca.gov.

AGENDA

Commission Decision 16-06-008 (“the Decision”) resolves issues related to customer authorization for the utility to share data with third party Demand Response providers. This includes completing the Customer Information Service Request Demand Response Provider Form (CISR-DRP Form) in paper form or through a “Click-Through” process.

Pursuant to the Decision, the utilities held working group meetings to “develop a consensus proposal to streamline and simplify the direct participation enrollment process, including adding more automation, mitigating enrollment fatigue, and resolving any remaining electronic signature issues.” (See Ordering Paragraph 9, D.16-06-008).

The consensus proposals detailing plans to implement the “Click-Through” solution will be filed by the utilities as Advice Letters by January 3, 2017. During this workshop, the utilities will present these Advice Letters. For questions about this workshop, please contact Katherine Stockton at katherine.stockton@cpuc.ca.gov.
