Electric utilities are required to support the widespread electrification of transportation. Utilities have proposed several ways to accomplish this, including by investing in charging infrastructure for electric cars, busses, trucks, and off-road equipment at seaports and airport. The CPUC is seeking public input into these plans. At each of the three community meetings, CPUC staff will briefly outline the utility's proposal, and then ask community members about their concerns and expectations. Members of the public are encouraged to attend to have a say about the transportation electrification needs of their community.

For those unable to attend in person, written comments may be submitted to: CPUC Public Advisor, 505 Van Ness Ave., San Francisco, CA 94102, or via email to [public.advisor@cpuc.ca.gov](mailto:public.advisor@cpuc.ca.gov).
