Resolution ALJ 176-3405 regarding ratification of preliminary determinations of category and notice of assignment is included in this calendar.

The Commission's policy is to schedule hearings (meetings, workshops, etc.) in locations that are accessible to people with disabilities.

The CPUC encourages all Californians to participate in its meetings, hearings, workshops, and proceedings. We try to hold our public meetings only in places that are wheelchair accessible and which can accommodate specialized equipment and other services useful to people with disabilities. Please see the notice of the meeting you wish to attend for more specifics.

If you plan to attend and need specialized accommodations for a particular meeting that are not listed in the notice, request them from the Public Advisor's Office at least three business days in advance of the meeting. Contact the Public Advisor's Office by any one of the following:

---	---

AGENDA

The Physical Security Proceeding (R.15-06-009) is evaluating existing and proposed protocols, practices, and standards, and as they relate to the physical security of electric utility assets in California. Workshop IV will continue to review relevant topics, including how the Senate Bill 699 legislative directive informs the appropriate CPUC response and responsibility in addressing physical security of California’s distribution system. Workshop IV is expected to include discussion of a joint-utility proposal to implement voluntary security and resiliency protocols to carry out the expectations set forth by SB 699. Contact Martin Kurtovich (415-703-2623) or Jeremy Battis (415-703-3041) for more information.

Webinar - Public Meeting Notice: R.13-11-007 - Vehicle-Grid Integration Communications Protocol Working Group**Meeting Schedule**

<p>October 2, 2017 8:30 am – 11:30 am</p>	<p><u>To Join Web Conference:</u> Click here: https://energy.webex.com; Meeting ID: 925 866 516</p> <p>Details about location and remote access options for each meeting will be posted in advance at www.cpuc.ca.gov/vgi</p>
--	---

AGENDA

The Vehicle-Grid Integration (VGI) Communication Protocol working group, which is designed to inform the Commission’s rulemaking under R.13-11-007 and related proceedings, will meet according to the above schedule. Any changes to the schedule will be noticed on the Daily Calendar, including updates on locations for the all-day meetings. A current schedule will also be available at www.cpuc.ca.gov/vgi.

Background

The California Public Utilities Commission, California Energy Commission, and other State agencies convened this working group to assess how and whether the adoption of a communications protocol is necessary to enable Plug-In Electric Vehicle-Grid Integration (VGI) resources to more economically participate in electricity markets at scale.

Participants of the working group will identify and assess opportunities in which VGI can create value from multiple market participants’ perspectives, communication protocols needed to deliver that value, and concepts for how utilities, automakers, electric vehicle service providers, aggregators, and others can develop pathways to market for a VGI resource.

The working group will allow participants to review, understand, and discuss the technical details of existing communication protocols. The recommendations of the working group will be considered and incorporated in CPUC’s Rulemaking 13-11-007 (and/or the SB 350 Transportation Electrification applications A.17-01-020, A.17-01-021 and A.17-01-022) and the Energy Commission’s Integrated Energy Policy Report (IEPR) proceeding for future policy decisions. Anyone interested in

participating in the VGI Working Group should contact Amy Mesrobian (amy.mesrobian@cpuc.ca.gov or 415-703-3175) or Carrie Sisto (cs8@cpuc.ca.gov or 415-703-2872).

AGENDA

Pursuant to Ordering Paragraph 27 and Table 3 of Resolution E-4868, the Investor Owned Utilities (IOUs) are holding the first Customer Data Access Committee (CDAC) meeting on October 2, 2017, to discuss the click-through process for customers to authorize release of their energy related data to third-party demand response providers (DRPs). The CDAC is a forum for soliciting ongoing feedback and resolving disputes informally, with the goal of addressing data access issues associated with customer authorization to third-party providers, including, but not limited to:

- Providing timely input into design of OAuth Solution 3 including – the overall design, the connectivity to mobile devices, the links to terms and conditions, the user experience and other technical features;
- Developing proposals for Advice Letter filings requesting funding within the caps including performance metrics for the Utility websites, and additional improvements;
- Developing proposals for the application filing including forming the business requirements for API Solution 1, expanding the click-through solution(s) to other distributed energy resource and energy management providers, and additional improvements beyond what can be accomplished in the funding caps; and
- Informally resolving dispute that may arise among stakeholders. For questions about this workshop, please contact Katherine Stockton at katherine.stockton@cpuc.ca.gov.

--	---

AGENDA

This is the third in a series of joint agency workshops designed to assist CAISO in its stakeholder initiative process to develop clear tariff rules and practices around pre-contingency dispatch of Demand Response (DR) resources to count for local Resource Adequacy (RA) capacity, as well as operating procedures for post-contingency notification of DR resources. Topics that will be presented and discussed include the results of an analysis on potential availability requirements for slow response resources (for example demand response resources that cannot respond in less than 20 minutes) that must be dispatched pre-contingency to meet local capacity area reliability needs. An initial analysis was presented at the joint workshop on October 3, 2016. The workshop discussion will include how the availability needs determined by the Transmission Planning Process (TPP) study could be operationalized into market rules, resource adequacy rules and demand response program requirements. A more detailed agenda will be provided to the Demand Response and Resource Adequacy service lists. For questions about this workshop, please contact Bruce Kaneshiro at bsk@cpuc.ca.gov.
