Table 1 from D.17-10-017 describes the tasks of the working group, which include providing status reports regarding CAISO settlement and technical barriers to integration, and issues affecting demand response resource adequacy. D.17-10-017 also tasks the working group with developing proposals regarding mismatched supply plans, wholesale market participant education, local and weather-sensitive demand response resource adequacy, multi-year procurement and positions regarding dual participation e.g. one load serving entity per CAISO resource. Further, Decision 17-12-003 tasked the working group with developing recommendations regarding the two percent demand response reliability cap.

This is the first meeting of the working group in which participants will discuss strategies for addressing the assigned tasks and scheduling future meetings. For general questions about this meeting, and a more detailed agenda, please contact Katherine Stockton at katherine.stockton@cpuc.ca.gov.
