SURCHARGE TO FUND

PUBLIC UTILITIES COMMISSION

REIMBURSEMENT FEE

A0907001

APPLICABILITY

This surcharge applies to all water bills rendered under all tariff rate schedules authorized by the Commission, with the exception of resale rate schedules where the customer is a public utility.

TERRITORY

This schedule is applicable within the entire territory served by the utility.

RATES *

A 1.5% surcharge shall be added to all customer bills

(1)

* In 1982, the Legislature established a Public Utilities Commission Reimbursement Fee to be paid by utilities to fund their regulation by the Commission (Public Utilities (PU) Code Sections 401-443). The surcharge to recover the cost of that fee is ordered by the Commission under authority granted by PU Code Section 433.

Schedule No. LIRA
LOW-INCOME RATEPAYER ASSISTANCE (LIRA)
(Page 2)

SPECIAL CONDITIONS

1. **LIRA Household:** A LIRA household is one for which the total gross income from all sources is less than or equal to the maximum household income level for the CARE programs approved by the Commission. Southern California Edison's (Edison) CARE program will be applicable to customers residing within Edison's service area and Pacific Gas & Electric Company's (PG&E) CARE program will be applicable to customers residing within PG&E's service area. Total gross income shall include income from all sources, both taxable and non-taxable. The billed customer must not be a person who is claimed as a dependent on another person's income tax return.
2. **Application and Eligibility Declaration:** Proof of active participation in a CARE program or an application and eligibility declaration on a form authorized by the Commission is required for each request for service under this schedule. Renewal of a customer's eligibility declaration may be required consistent with CARE program renewal requirements, but not more often than annually. Customers, excluding qualified non-profit group living facilities, qualified agricultural employee housing facilities, and migrant farm worker housing centers, are eligible to receive service under this rate schedule at no more than one residential location at any one time, and the rate applies only to the customer's permanent primary residence.
3. **Commencement of Rate:** LIRA rates become effective January 1, 2007. After LIRA rates are effective eligible customers shall be billed on this schedule commencing no later than one billing period after receipt and approval of the customer's application by the Utility.
4. **Verification:** Information provided by the applicant is subject to verification by the Utility. Refusal or failure of a customer to provide sufficient documentation of eligibility acceptable to the Utility, upon the request of the Utility, shall result in removal from this rate schedule. Failure to comply with any terms of the LIRA program shall result in removal from this rate schedule.
5. **Notice from Customer:** It is the customer's responsibility to notify the Utility if there is a change in the customer's eligibility status.
6. Customers may be re-billed for periods of ineligibility under the applicable rate schedule.
7. The RSF-LIRA program approved in D.06-08-011 requires a \$10 credit for customers in the Antelope Valley, Kern River Valley, and Redwood Valey districts regardless of the amount of a 5/8" x 3/4" service charge in those districts.

SERVICE TO PRIVATELY OWNED FIRE PROTECTION SYSTEMS

APPLICABILITY

Applicable to all water service furnished for privately owned fire protection systems.

TERRITORY

All communities served by the Antelope Valley District.

RATES

For each inch of diameter of service connection Per Month
\$6.50

SPECIAL CONDITIONS

1. All bills are subject to the reimbursement fee set forth on Schedules No. UF.
2. The customer will pay, without refund, the entire cost of the private fire service facilities.
3. The private fire service facilities shall be installed by the utility or under the utility's direction and shall be the sole property of the applicant but subject to the control of the utility, with the right to alter, repair, replace and the right to remove upon discontinuance of service.
4. The minimum diameter for the private fire service connection will be four inches. The maximum diameter shall not be larger than the diameter of the water main to which the private fire service facilities are connected.
5. If a water main of adequate size is not available adjacent to the premises to be served, then a new main from the nearest existing main of adequate size will be installed by the utility at the cost of the customer. Such cost shall not be subject to refund.
6. The private fire service facilities will include a detector check valve or other similar device acceptable to the utility which will indicate the use of water. The facilities may be located within the customer's premises or within public rights of way adjacent thereto. Where located within the premises, the utility and its duly authorized agents shall have the right of ingress to and egress from the premises for all purposes related to said facilities. In the event the installation is solely for a private fire hydrant facility, the requirement for a detector check valve or other similar device may be waived.
7. No structure shall be built over the private fire service facilities and the customer shall maintain and safeguard the area occupied by the private fire service facilities from traffic and other hazardous conditions. The customer will be responsible for any damage to the private fire service facilities whether resulting from the use or operation of appliances and facilities on customer's premises or otherwise.
8. Subject to the approval of the utility, any change in the location or construction of the private fire service facilities as may be requested by public authority or the customer will be made by the utility following payment to the utility of the entire cost of such change.
9. The customer's installation must be such as to separate effectively the private fire service facilities from that of the customer's regular domestic water service. Any unauthorized use of water from the private fire service facilities will be charged for at the applicable tariff rates and may be grounds for the utility's discontinuing private fire service without liability to the utility.
10. There shall be no cross connection between the systems supplied by water through the utility's private fire service facilities and any other source of supply without the specific approval of the utility. The specific approval, if given, will at least require at the customer's expense a special double check valve installation or other backflow prevention device acceptable to the utility. Any cross connection may be grounds for immediately discontinuing private fire service without liability to the utility.
11. The utility will supply only such water at such pressure as may be available from time to time as a result of its normal operation of the system. The customer shall indemnify the utility and save it harmless against any and all claims arising against the utility for any loss or damage resulting from service under this schedule. Section 774 of the Public Utilities Commission Code limits the liability of the utility resulting from a claim regarding adequacy of pressure or supply for fire protection service.
12. The customer shall be responsible for the periodic testing of any backflow prevention devices as required by public authority or the utility. Any repair or replacement of such devices or of any other facilities installed to provide private fire service shall be done at the customer's expense. Any refusal to comply with the above requirements may be grounds for the utility's discontinuing private fire service without liability to the utility.
