Application of Pacific Gas and Electric Company for Adoption of Electric Revenue Requirements and Rates Associated with its 2011 Energy Resource Recovery Account (ERRA) and 2011 Ongoing Competition Transition Charge (CTC) Forecasts.

Application 10-05-____

(U 39 E)

**APPLICATION OF
PACIFIC GAS AND ELECTRIC COMPANY**

I. INTRODUCTION

Pursuant to Rules 2.1 and 3.2 of the Rules of Practice and Procedure of the California Public Utilities Commission (Commission or CPUC), as well as Public Utilities Code Section 454.5(d)(3) and related CPUC decisions, Pacific Gas and Electric Company (PG&E) submits this 2011 Energy Resource Recovery Account (ERRA) Forecast Application requesting that the Commission adopt PG&E's forecasted electric revenue requirements of \$3,999.1 million to become effective in rates on January 1, 2011. This total is \$210.8 million lower than the 2011 revenue would be at present rates. The system average electric rate decrease that would result from this forecast electric revenue requirement alone would be 1.7 percent. However, because the outcome of this proceeding will be consolidated with other approved electric rate changes later in 2010 through the Annual Electric True-Up (AET), it is difficult to predict the eventual net change in rates.

II. 2011 ERRA, ONGOING CTC, AND SALES FORECASTS

A. Request

The ERRA records energy costs associated with service bundled customers. These costs include post-2002 contracted resource costs, fuel costs of PG&E-owned generation resources, qualifying facility (QF) and purchased power costs, and other electric procurement costs such as electric and natural gas hedging and collateral costs. The Ongoing CEC

forecast revenue requirement consists of the above-market costs associated with eligible contract arrangements entered into before December 20, 1995, and QF contract restructuring costs. Ongoing CTC costs are recorded in the Modified Transition Cost Balancing Account (MTCBA). Related to the Ongoing CTC is the Power Charge Indifference Amount (PCIA), which is applicable to departing load customers that are responsible for a share of the Department of Water Resources (DWR) power contracts of new generation resource commitments. The PCIA is intended to ensure that the departing load customers pay their share of the above-market portion of the DWR contract or new generation resource costs, and that bundled customers remain indifferent to customer departures.

PG&E requests that the Commission adopt its 2011 ERRA forecast revenue requirement of \$3,564.0 million, ongoing CTC forecast revenue requirement of \$459.2 million, and a PCIA credit of \$24.1 million, for a combined total of \$3,999.1 million. This total is \$210.8 million lower than the 2011 revenue would be at present rates. PG&E also requests, as in previous years, that the Commission adopt the proposed forecasts of 2011 electric sales.

Consistent with past ERRA forecast proceedings, PG&E proposes to update its 2011 ERRA and Ongoing CTC forecast revenue requirements in early November 2010 to reflect market conditions close to the time when 2011 rates go into effect and to revise the forecasted year-end 2010 ERRA and MTCBA balances. The approved amounts will be consolidated with other approved electric revenue requirements and rate changes through the Annual Electric True-Up (AET) process later in 2010, to become effective in rates on January 1, 2011.

B. Legal and Regulatory Background

Public Utilities (P.U.) Code Section 454.5(d)(3) requires the Commission to:

Ensure timely recovery of prospective procurement costs incurred pursuant to an approved procurement plan. The commission shall establish rates based on forecasts of procurement costs adopted by the commission, actual

procurement costs incurred, or combination thereof, as determined by the commission. The commission shall establish power procurement balancing accounts to track the differences between recorded revenues and costs incurred pursuant to an approved procurement plan. The commission shall review the power procurement balancing accounts, not less than semiannually, and shall adjust rates or order refunds, as necessary, to promptly amortize a balancing account, according to a schedule determined by the commission. Until January 1, 2006, the commission shall ensure that any overcollection or undercollection in the power procurement balancing account does not exceed 5 percent of the electrical corporation's actual recorded generation revenues for the prior calendar year excluding revenues collected for the Department of Water Resources. The commission shall determine the schedule for amortizing the overcollection or undercollection in the balancing account to ensure that the 5 percent threshold is not exceeded. After January 1, 2006, this adjustment shall occur when deemed appropriate by the commission consistent with the objectives of this section.

In Decision 02-10-062, as modified by subsequent decisions, the Commission implemented this provision by ordering PG&E and the state's other investor-owned utilities to establish procurement-related balancing accounts, to be referred to as the Energy Resource Recovery Account. (*See* D.02-10-062, mimeo, pp. 59-64). These Commission decisions also established the regulatory framework for the utilities' annual ERRA forecast filings and expedited "trigger" applications.

C. Relationship to Other Proceedings

The ERRA regulatory process includes two annual proceedings.

The first, which PG&E files in mid-February of each year, is an annual compliance proceeding to review the utility's compliance in the preceding year regarding energy resource contract administration, least-cost dispatch, fuel procurement, and the ERRA balancing account. PG&E's pending ERRA Compliance proceeding, for the record period 2009, is Application 10-02-012.

The second, which PG&E is to file by June 1 each year (as it has done with this filing), is an annual forecast proceeding to adopt a forecast of the utility's electric

procurement cost revenue requirement and electricity sales for the coming year. PG&E's last ERRA Forecast proceeding, for forecast year 2010, was Application 09-06-001, which was resolved by Decision 09-12-021. In addition in Decision (D.) 02-10-062 (*see* mimeo at pages 64-66), the Commission established an ERRA "trigger" mechanism to comply with P.U. Code §454.5(d)(3)'s requirement that "any overcollection or undercollection in the power procurement balancing account does not exceed 5 percent of the electrical corporation's actual recorded generation revenues for the prior calendar year excluding revenues collected for the Department of Water Resources." In D.04-01-050 the Commission ordered that the ERRA trigger amount Advice Letter should be filed (D.04-01-050, mimeo, pp. 175-177), with such filings to be made by April 1 of each year. PG&E's 2010 trigger amount is \$270.4 million, as established via Advice Letter 3639-E approved on May 17, 2010.

Finally, in Decision 07-12-052 resolving Rulemaking 06-02-013, the CPUC adopted, with modifications, PG&E's 2006 Long-Term Procurement Plan (LTPP) covering the 10-year period 2007 – 2016. In Resolution E-4177, effective June 26, 2008, the CPUC approved PG&E's Conformed 2006 LTPP. PG&E's forecasted 2011 electric procurement activities are consistent with the Conformed 2006 LTPP and are eligible for cost recovery.

III. OVERVIEW OF PREPARED TESTIMONY

PG&E's prepared testimony accompanying this 2011 ERRA Forecast Application consists of one exhibit (PG&E-1), titled "ERRA/Ongoing CTC and Rate Proposal," which consists of the following nine chapters:

Chapter 1 – Introduction and Policy

Chapter 2 – Sales and Load Forecast

Chapter 3 – Post-2002 Contracted Resources and Procurement Costs

Chapter 4 – Fuel Costs

Chapter 5 - Qualifying Facility and Purchased Power Costs

Chapter 6 – Costs of Other Electric Procurement Activities

Chapter 7 – Departing Load, Ongoing Competition Transition Charge and Indifference Amount

Chapter 8 - Revenue Requirements

Chapter 9 – Rate Proposal

PG&E provides in Exhibit (PG&E-1) a public (redacted) version of this prepared ERRA Compliance testimony, but also provides to appropriate parties a confidential (unredacted) version (PG&E-1a) which is submitted under P.U. Code Section 454.5(g) and 583. PG&E is concurrently submitting declarations identifying the types of confidential material subject to protection under D.06-06-066.¹ The confidential material PG&E is identifying satisfies the necessary requirements and, as such, the confidential (unredacted) version of PG&E's testimony (PG&E-1a) should be filed under seal and remain sealed for a period of three years from the effective date of the CPUC's final decision (as has been the practice in previous ERRA proceedings). (*See e.g.*, D.09-12-002, mimeo, p. 3.)

IV. INFORMATION REQUIRED BY THE COMMISSION'S RULES OF PRACTICE AND PROCEDURE

A. Statutory and Other Authority (Rule 2.1)

PG&E files this Application pursuant to Sections 451, 454, 454.5, and 701 of the Public Utilities Code of the State of California, the Commission's Rules of Practice and Procedure, and prior decisions, orders and resolutions of the Commission, including but not limited to Decisions 02-10-062, 02-12-074, 03-06-067, 03-06-076, 03-07-030, 04-01-050, 04-12-048, 05-01-031, 05-02-040, 07-12-052 and 08-11-004 and Resolutions E-4093 and E-4177.

¹ This is consistent with the CPUC's direction in D.08-04-023 and the August 22, 2006 Administrative Law Judge's Ruling Clarifying Interim Procedures for Complying with D.06-06-066, in Rulemaking 05-06-040. Through these actions the CPUC clarified the means for demonstrating the confidentiality of such material and invoking protection of such confidential utility information. (*See also* the terms of the matrix shown in Appendix 1 of D.06-06-066 and Appendix C of D.08-04-023.)

D. Categorization, Hearings, And Issues To Be Considered (Rule 2.1(c))

1. Proposed Categorization

PG&E proposes that this application be categorized as a ratesetting proceeding.

2. Need for Hearings

3. Should the Commission adopt PG&E's proposed PCIA credit of \$24.1 million?
4. Should the Commission adopt PG&E's 2011 electric sales forecast?
5. Should the Commission adopt PG&E's proposed total electric revenue requirements of \$3,999.1 million, subject to an update in early November 2010?
6. Should the Commission approve PG&E's rate proposals associated with its proposed total electric procurement related revenue requirements to be effective in rates on January 1, 2011?
