Schedule No. AV-4

Antelope Valley Tariff Area

(All Antelope Valley Service Areas)

SERVICE TO PRIVATELY OWNED FIRE PROTECTION SYSTEMS

APPLICABILITY

Applicable to all water service furnished for privately owned fire protection systems.

TERRITORY

All communities served by the Antelope Valley District.

RATES

For each inch of diameter of service connection Per Month \$9.1863 (I)

SPECIAL CONDITIONS

1. All bills are subject to the reimbursement fee set forth on Schedule UF.
2. The customer will pay, without refund, the entire cost of the private fire service facilities.
3. The private fire service facilities shall be installed by the utility or under the utility's direction and shall be the sole property of the applicant but subject to the control of the utility, with the right to alter, repair, replace and the right to remove upon discontinuance of service.
4. The minimum diameter for the private fire service connection will be four inches. The maximum diameter shall not be larger than the diameter of the water main to which the private fire service facilities are connected.
5. If a water main of adequate size is not available adjacent to the premises to be served, then a new main from the nearest existing main of adequate size will be installed by the utility at the cost of the customer. Such cost shall not be subject to refund.
6. The private fire service facilities will include a detector check valve or other similar device acceptable to the utility which will indicate the use of water. The facilities may be located within the customer's premises or within public rights of way adjacent thereto. Where located within the premises, the utility and its duly authorized agents shall have the right of ingress to and egress from the premises for all purposes related to said facilities. In the event the installation is solely for a private fire hydrant facility, the requirement for a detector check valve or other similar device may be waived.
7. No structure shall be built over the private fire service facilities and the customer shall maintain and safeguard the area occupied by the private fire service facilities from traffic and other hazardous conditions. The customer will be responsible for any damage to the private fire service facilities whether resulting from the use or operation of appliances and facilities on customer's premises or otherwise.
8. Subject to the approval of the utility, any change in the location or construction of the private fire service facilities as may be requested by public authority or the customer will be made by the utility following payment to the utility of the entire cost of such change.
9. The customer's installation must be such as to separate effectively the private fire service facilities from that of the customer's regular domestic water service. Any unauthorized use of water from the private fire service facilities will be charged for at the applicable tariff rates and may be grounds for the utility's discontinuing private fire service without liability to the utility.
10. There shall be no cross connection between the systems supplied by water through the utility's private fire service facilities and any other source of supply without the specific approval of the utility. The specific approval, if given, will at least require at the customer's expense a special double check valve installation or other backflow prevention device acceptable to the utility. Any cross connection may be grounds for immediately discontinuing private fire service without liability to the utility.
11. The utility will supply only such water at such pressure as may be available from time to time as a result of its normal operation of the system. The customer shall indemnify the utility and save it harmless against any and all claims arising against the utility for any loss or damage resulting from service under this schedule. Section 774 of the Public Utilities Commission Code limits the liability of the utility resulting from a claim regarding adequacy of pressure or supply for fire protection service.
12. The customer shall be responsible for the periodic testing of any backflow prevention devices as required by public authority or the utility. Any repair or replacement of such devices or of any other facilities installed to provide private fire service shall be done at the customer's expense. Any refusal to comply with the above requirements may be grounds for the utility's discontinuing private fire service without liability to the utility

METERED RECYCLED WATER SERVICE

Page 2 of 2

SPECIAL CONDITIONS

1. All bills are subject to the reimbursement fees set forth on Schedule UF.
2. Recycled water service refers to non-potable water that has been processed and treated by one of the following methods:
 - a. Title 22 Water refers to wastewater that has undergone tertiary treatment that meets recycled water use standards as established in Title 22 of the California Code of Regulations, Division 4 Environmental Health, Chapter 3 Reclamation Criteria, Articles 1 through 10.
 - b. R.O. Water refers to Title 22 Water that has further undergone reverse osmosis treatment to remove salts and dissolved solids.
 - c. Nitrified Water refers to Title 22 Water that has further undergone a biological treatment and processing for removal of ammonia.
3. A Recycled Water Memorandum Account has been established to track under/over collections associated with the purchase and sale of recycled water. This account will include all charges from West Basin Municipal Water District not included in the current recycled rate, as well as the lower cost of water derived from charges and billings under West Basin's declining block structure and the Company's declining block structure. West Basin Municipal Water District credits not credited directly to a customer will be credited to this account and will offset future rate increases for recycled water customers. This account will be reconciled at least annually on or about the date date when West Basin Municipal Water District changes its rates.
4. All bills are subject to any applicable surcharges on Schedules RSF and LIRA-SC.
5. A surcharge of \$0.0452 per 100 cubic feet of water is to be added to each bill for 24 months on or after January 1, 2011, to reflect interim rates authorized by the Commission in Decision 10-12-017.

GENERAL METERED SERVICE
(Page 2 of 2)

SPECIAL CONDITIONS

1. The SDWBA (Safe Drinking Water Bond Act) monthly surcharge for mobile home parks is \$1.85 per space for all meters. The surcharge is in addition to the regular monthly metered water bill. The total monthly surcharge must be identified on each bill. This surcharge is specifically for the repayment of the California SDWBA loan authorized by Decision 92711. It shall apply only to service rendered on or after December 1, 1981.
2. In accordance with Section 2714 of the California Public Utilities Code, if a tenant in a rental unit leaves owing the company, service to subsequent tenants in that unit will, at the company's option, be furnished on the account of the landlord or property owner.
3. The amount of the Service Fee for New Service shall be equal to the accumulated total of the monthly surcharge, which would have been applicable to such service from the effective date of surcharge implementation until the date of the new service. The accumulated service fee shall not exceed the maximum charges listed in the table above and shall only apply to previously unserved lots. The effective date for the SDWBA service fee for new lots is December 1, 1981. The effective date for the SDWSRF service fee for new lots is January 11, 2010.
4. All bills are subject to the reimbursement fees set forth on Schedule UF.
5. Qualifying low-income individually metered and flat rate residential customers, non-profit group living facilities, agricultural employee housing facilities, and migrant farm worker housing centers are eligible for credits as shown on Schedule LIRA.
6. All bills are subject to any applicable surcharges and surcredits on Schedules RSF and LIRA-SC.
7. The established billing cycle is every other month (bi-monthly).
8. All bills are subject to the surcharges set forth on Schedule PB.
9. The SDWSRF (Safe Drinking Water State Revolving Fund) monthly surcharge is in addition to the regular monthly metered water bill. The total monthly surcharge must be identified on each bill. This surcharge is specifically for the repayment of the California SDWSRF loan authorized by Decision 08-09-002.
10. A WRAM-MCBA true-up surcharge of \$0.5079 per 100 cu. ft. of water used is to be applied to the quantity rates for 24 months beginning July 22, 2010, the effective date of Advice Letter 1983-B.
11. A surcharge of \$1.1569 per 100 cubic feet of water is to be added to each bill for 36 months on or after January 1, 2011, to reflect interim rates authorized by the Commission in Decision 10-12-017. (D)
12. (D)
13. (D)
14. A WRAM-MCBA true-up surcharge of \$0.7330 per 100 cu. ft. of water used is to be applied to the quantity rates for 36 months beginning April 14, 2011, the effective date of Advice Letter 2029-A.
15. A WRAM-MCBA true-up surcharge of \$1.3313 per 100 cu. ft. of water used is to be applied to the quantity rates for 28 months beginning May 3, 2012, the effective date of Advice Letter 2073-B. (N)

GENERAL METERED SERVICE
 Page 1 of 2

APPLICABILITY

Applicable to all metered water service where furnished on an annual basis.

TERRITORY

The unincorporated community of Armstrong, Woods Valley, Lone Mountain Subdivision and vicinity, located approximately 1.5 miles north of the City limits of Guerneville, Sonoma County.

RATES

Quantity Rates:

Per 100 Cu. ft. \$8.3472

Service Charge:	Per Meter Per Month
For 5/8 x 3/4 - inch meter	\$55.52
For 3/4 - inch meter	83.28
For 1 - inch meter	138.80
For 1-1/2 - inch meter	277.60
For 2 - inch meter	444.16
For 3 - inch meter	832.80
For 4 - inch meter	1,388.01

The service charge is a readiness-to-serve charge which is applicable to all metered service and to which is added the charge for water used computed at the quantity rate.

SPECIAL CONDITIONS

1. The annual service charge applies to service during the twelve-month period commencing July 1, and is due in advance. If a permanent resident of the area has been a customer of the utility for at least twelve months, he may elect at the beginning of each year to pay prorated service charges in advance at intervals of less than one year in accordance with the utility's established billing cycle.
2. The opening bill for metered service, except from conversion from flat rate service, shall be the established annual service charge for the service. Where initial service is established after the first day of any year, the portion of such annual charge applicable to the current year shall be determined by multiplying the annual charge by one three-hundred-sixty-fifth (1/365) of the number of days remaining in the year. The balance of the payment of the initial annual charge shall be credited against the charges for the succeeding annual period. If service is not continued for at least one year after the period of initial service, no refund of the initial annual charges shall be due the customer.
3. The established billing cycle is every other month (bi-monthly). The billing cycle may be at longer intervals during the winter season.

The service charge is a readiness-to-serve charge which is applicable to all metered service and to which is added the charge for water used computed at the quantity rate.

SPECIAL CONDITIONS

1. Any service to a residential customer who requires a larger meter and service line because of fire flow requirement to a residential fire sprinkler system will be billed at the rate for "1-inch meter and 1-1/2 inch meter with residential fire sprinkler systems" and the quantity rate based on the quantity of water used. Determination of eligibility for this tariff condition will be determined by the utility at customer's request.
2. All bills are subject to the reimbursement fees set forth on Schedule UF.
3. The Utility undertakes to supply only such water at such pressure as may be available from time to time as the result of its normal operation of the system. Section 774 of the Public Utilities Code limits the liability of the Utility resulting from a claim regarding the provision of maintenance of an adequate water supply, water pressure, equipment or other fire protection facility or service. This limit of liability includes but is not limited to the construction and repair of fire protection facilities. Acceptance of service under this tariff is acknowledgement of notice of the provisions of Section 774 of the Public Utilities Code.
4. In accordance with Section 2714 of the Public Utilities Code, if a tenant in a rental unit leaves owing the company, service to subsequent tenants in that unit will, at the company's option, be furnished on the account of the landlord or property owner.
5. All bills are subject to the surcharges set forth on Schedule PB. (N)

APPENDIX E

Notice of Filing by California Water Service Company Requesting Approval of Building Renovation

The California Public Utilities Commission (CPUC) would like to hear from you! On June __, 2012, California Water Service Company (Cal Water) filed an application in A.12-06-___ seeking approval to recover the costs for renovation of the building on Cal Water’s San Jose campus that houses the Information Technology and Human Resources Departments (IT/HR building).

To accommodate the gradual increase in employees, Cal Water began renovations to the IT/HR building in 2010 that included adding a partial second story, decreasing workspace sizes, removing hazardous materials, and bringing restrooms and other working environments up to current legal requirements, such as the Americans with Disabilities Act (ADA). The renovation was completed by the end of 2011.

In its application, Cal Water is proposing that the CPUC review whether the renovation costs incurred by Cal Water were prudent and reasonable, and can be recovered from ratepayers. If approved, the impact of these requests on the average residential water bill in each area is outlined in the chart below.

Note Regarding Upcoming GRC Application:

On July 2, 2012, Cal Water is filing a general rate case (GRC) application to request new rates that would begin on January 1, 2014. Any costs that the CPUC approves in this application (the building renovation application) will be rolled into those GRC rates. The component of the GRC rate increase that would result from approving this application is shown in the illustrative chart as if it were an additional surcharge on your bill.

In addition, if this application is approved before January 1, 2014, the relevant surcharge on the illustrative chart is what will appear on your bill until the new GRC rates go into effect (January 1, 2014).

Obtaining a Copy of the Application

The application and related attachments may be obtained from the company’s headquarters at 1720 North First Street, San Jose, CA 95112-4598, or by calling (408) 367-8200. In addition, the application may be inspected at the CPUC’s Central Files Office in San Francisco at 505 Van Ness Avenue, San Francisco, California 94102 between the hours of 8:00 a.m. to noon daily.

Evidentiary Hearings

The CPUC may hold formal Evidentiary Hearings (EHs) whereby the formal parties of record provide testimony and are subject to cross examination before the CPUC’s assigned Administrative Law Judge (ALJ). These hearings are open to the public to listen, but only those who are formal parties of record are allowed to participate. The CPUC has court reporters who take and transcribe a transcript of the verbal statements made during those hearings by formal parties of record and the ALJ. At the hearings, Cal Water would provide testimony. In addition, the Division of Ratepayer Advocates (DRA), which consists of engineers, accountants, economists and attorneys who independently evaluate the proposals of utilities, will present its analyses and recommendations. Once the hearings are completed, the ALJ will consider all of the evidence presented and draft a proposed decision. After formal parties of record have the opportunity to submit comments on the proposed decision, the commissioners at the CPUC will issue a final decision that may adopt, amend, or modify all or part of the ALJ’s proposed decision. The final decision may also differ from the requests in the Application.

Public Comments

If you wish to comment on the application, or informally protest it as a customer of Cal Water, you may do so by contacting the CPUC’s Public Advisor’s Office (PAO). Written public comments by Cal Water’s customers are very much desired by the CPUC, and may be sent to the Public Advisor’s Office at 505 Van Ness Avenue, San Francisco, California 94102, or via e-mail to public.advisor@cpuc.ca.gov. Please state that you are writing about **California Water Service Company’s Application for Building Renovation Approval** when sending any written correspondence to the CPUC. All public comments become part of the formal public comment file, and are circulated to the assigned ALJ, the Commissioner assigned to the case, and the appropriate internal CPUC staff for review.
