Re: Canyon Fire, October 21, 2007

Dear NextG Networks of California:

The purpose of this letter is to notify NextG Networks of California of potential claims which may be filed against NextG Networks of California with respect to the Canyon Fire that occurred in the Malibu area on or about October 21, 2007. It has been represented to the Southern California Edison Company by the investigating authorities that three poles, jointly and partially owned by NextG Networks of California, may be involved in the ignition of the fire. The pole numbers involved are 1169253E, 1169252E, and 2279212E.

In light of the potential litigation regarding this incident, the Southern California Edison Company requests you preserve any and all records related to the subject poles. We also request you identify and preserve any item(s) which may reasonably be identified as potential evidence regarding the above-referenced incident. We also specifically request that no destructive testing take place with respect to any potential evidence related to the Canyon Fire, unless all interested parties are notified and given an opportunity to participate.

Thank you for your immediate attention to this matter. Please feel free to contact me at (626) 302-6867 should you wish to discuss the matter further.

Sincerely,

Frederick C. McCollum

Re: Canyon Fire, October 21, 2007

Dear Ms. Wager:

The purpose of this is to letter notify AT&T Wireless of potential claims which may be filed against AT&T Wireless with respect to the Canyon Fire that occurred in the Malibu area on or about October 21, 2007. It has been represented to the Southern California Edison Company by the investigating authorities that three poles, jointly and partially owned by AT&T Wireless, may be involved in the ignition of the fire. The pole numbers involve 1169253E, 1169252E, and 2279212E.

In light of the potential litigation regarding this incident, the Southern California Edison Company requests you preserve any and all records related to the subject poles. We also request you identify and preserve any item(s) which may reasonably be identified as potential evidence regarding the above-referenced incident. We also specifically request that no destructive testing take place with respect to any potential evidence related to the Canyon Fire, unless all interested parties are notified and given an opportunity to participate.

Thank you for your immediate attention to this matter. Please feel free to contact me at (626) 302-6867 should you wish to discuss the matter further.

Sincerely,

Frederick C. McCollum
