**BEFORE THE PUBLIC UTILITIES COMMISSION  
OF THE STATE OF CALIFORNIA**

Order Instituting Rulemaking Regarding Policies and Protocols for Demand Response Load Impact Estimates, Cost-Effectiveness Methodologies, Megawatt Goals and Alignment with California Independent System Operator Market Design Protocols.

Rulemaking 07-01-041

(U 39 E)

**PACIFIC GAS AND ELECTRIC COMPANY (U 39 E) COMPLIANCE FILING  
PURSUANT TO LOAD IMPACT PROTOCOL FILING REQUIREMENT,  
NOTICE OF AVAILABILITY OF BASE INTERRUPTIBLE PROGRAM SUMMARY  
REPORT AND EX POST LOAD IMPACT REPORTS FOR 2011 DEMAND RESPONSE  
PROGRAMS**

Pursuant to Commission Decision (D.) 08-04-050, as modified by D.10-04-006, Ordering Paragraph (OP) 1, and D.10-06-034, OP 1.f, Pacific Gas and Electric Company (PG&E) submits its Notice of Availability of Base Interruptible Program (BIP) summary report and Ex Post Load Impact Reports for 2011 Demand Response Programs. Pursuant to the cited Commission decisions, the executive summary and accompanying appendices for its ex ante April 1, 2012 load impact reports normally would be filed with this pleading. However, on March 13, 2012, the Commission's Executive Director, Mr. Clanon, granted PG&E, Southern California Edison Company and San Diego Gas & Electric Company an extension of time to June 1, 2012 to file the annual load impact reports, because the utilities are awaiting the Commission's decision on 2012-2014 demand response (DR) programs so the ex ante reports can reflect the results of that pending decision. The 2012-2014 DR decision is currently on the agenda for the Commission's April 19, 2012 meeting. Therefore, PG&E's annual ex ante executive summary will be filed no later than June 1, 2012 instead of April 2, 2012. The complete ex ante reports also will be available on June 1, 2012.

PG&E's BIP summary report and its ex post reports for its demand response programs for program year 2011 are available now. They are voluminous and can be accessed at:

<http://apps.pge.com/regulation/search.aspx?CaseID=729>

The case is "Demand Response OIR"; the document type is "All"; the party is "All"; and the date fields are "4/2/2012". The titles of the PG&E-specific load impact reports are:

*1) 2011 Impact Evaluation of Pacific Gas & Electric's PeakChoice Program for Commercial and Industrial Customers – Ex Post Report*

*2) 2011 Ex Post Load Impact Evaluation of Pacific Gas and Electric Company's Residential Time-Based Pricing*

*3) 2011 Load Impact Evaluation for Pacific Gas and Electric Company's SmartAC Program—Ex Post Report*

*4) Pacific Gas and Electric 2012 Analysis of Reliability-Based Demand Response Capacity Eligible for Resource Adequacy Pursuant to D.10-06-034*

PG&E has demand response programs that are included in state-wide reports for programs that exist at more than one utility, and were evaluated across all three utilities. The state-wide ex post load impact reports are under SDG&E's auspices and parties may review the reports at SDG&E's website at:

<http://sdge.com/node/742>

As stated above, because the Commission has not issued a decision on the utilities' 2012-2014 Demand Response Applications, at this time, PG&E is unable to provide new ex ante impact estimates that incorporate the Commission's decision. The ex ante impact estimates PG&E previously filed in April 2011 can be found at:

///

///

PG&E makes its load impact reports available pursuant to Load Impact Protocol 27,  
Attachment A to D.08-04-050.

Respectfully Submitted,

By:           /s/ Shirley A. Woo
