**SOUTHERN CALIFORNIA EDISON COMPANY'S (U 338-E) NOTICE OF EX PARTE  
COMMUNICATION**

Pursuant to Rule 8.3 of the California Public Utilities Commission (Commission) Rules of Practice and Procedure, Southern California Edison Company (SCE) hereby gives notice of the *ex parte* communications below.

On Monday, October 26, 2009 at 3:00 p.m. SCE representative Michael Hoover, Director, Regulatory Affairs, and Joe Como, Chief Counsel, DRA met with CPUC President Peevey's advisor Andy Schwartz. The meeting took place at the Commission's office building, located at 505 Van Ness Avenue, in San Francisco. The communication was initiated by Mr. Hoover and was oral.

Mr. Hoover discussed SCE's Comments on the Proposed Decision Correcting Errors in Attachment of Decision 08-11-031, SCE's position that the Proposed Decision was incorrect in concluding that air conditioning in Climate Zone 13 was a new Low Income Energy Efficiency Measure in the 2009-2011 program cycle because Decision 06-12-038 approved the measure for the 2006-2008 program cycle.

Mr. Hoover handed out and also discussed the information in the attachment. To request a copy of this notice, please contact Henry Romero at (626) 302-4124, e-mail address (henry.romero@sce.com).

Respectfully submitted,

JENNIFER TSAO SHIGEKAWA

**ALJ Kim PD DECISION CORRECTING ERRORS  
IN ATTACHMENT OF DECISION 08-11-031**

**The PD is based on an incorrect premise that the Commission did not approve central A/Cs in Climate Zone 13 (cz13) for 2007 – 2008.**

The Commission approved central A/Cs in cz13 for 2007 – 2008 in D.06-12-038.

The PD would rewrite history by suggesting the measure was not approved.

Reversing course after measures have been delivered (1,000 central A/Cs in cz13 in 2007 and 2008) sets a dangerous precedent, and may lead to significantly increased requests for clarification and direction in areas of various Commission decisions that remotely may be subject to interpretation.

Such requests for clarification will clog the regulatory process and delay achievement of the Commission's goals.

To maintain trust and progress by all parties toward obtaining California's energy related goals, the Commission must provide clear direction and stand behind it.

When changing course, the Commission must clearly state its intent.

**The 2007 – 2008 LIEE PD was issued without clear direction on approved measures. SCE then requested and received clear direction in D.06-12-038**

SCE's comments on the PD include this excerpt: "The PD Should Be Clarified to Expressly Approve SCE's New LIEE Measures."

The PD summarizes SCE's proposed new LIEE measures, but fails to explicitly approve them. SCE requests that the PD be clarified to expressly authorize these measures. SCE cannot effectively implement its LIEE program if it does not know what measures it can install. Likewise, if the Commission requires SCE to file a new LIEE "marketing plan" SCE must know exactly what measures to include in the mix. **SCE's proposed new LIEE measures include: (1) air conditioning measures (including expanding air conditioning measures to Climate Zone 13); (2) heat pumps; (3) evaporative cooler maintenance; (4) torchiere replacement; and (5) pool pumps.**" Note: SCE footnoted each measure with more specific information on its request. For air conditioning measures, the footnote reads in part: "SCE proposed to (1) replace inoperable central air conditioning systems; (2) replace inoperable window/wall air conditioning units; (3) expand central air conditioning eligibility to Climate Zone 13; (4) permit renters to receive air conditioning measures; (5) implement a central air conditioner service pilot; and (6) replace central air conditioners with SEER rating of 10 or below or with an age of 10 years or older. ...

**In response, the PD language was modified and the following language added to D.06-12-038 approving SCE's requested measures.**

“We herein authorize the following new LIEE measures for SCE: (1) air conditioning measures; (2) heat pumps; (3) evaporative cooler maintenance; (4) torchiere replacement; (5) pool pumps.”

Findings of Fact

19. SCE's request for authority to implement new LIEE measures, including air conditioning measures, heat pump replacement, tankless water heaters, evaporative cooler maintenance, torchiere replacement, and pool pump replacement, is reasonable.

Conclusions of Law

12. The Commission should authorize SCE's proposed new LIEE measures and allow renters to be eligible for air conditioning and heat pump measures.

**ALJ Kim's PD states, “The findings of facts and conclusions of law in D.06-12-038 are general, and the decision does not explicitly list any individual approved measures for any of the climate zones.”**

This reasoning ignores the sequence of events described above that framed construction of the findings and conclusions. Moreover, this reasoning is not contained within the text of D.06-12-038, where the Commission often vocally expresses its concern or disapproval of specific utility requests. Examples below:

D.06-12-038 page 48 “We authorize the change in capitation fees in order to assure CBO involvement in outreach and marketing. We also find that SCE's other administrative costs are reasonable with one exception. . . .”

Findings of Fact

22. SCE provides inadequate justification for spending \$80,000 on a study of its cool centers, or for conducting a bill savings study or a process evaluation study.

Conclusions of law

18. SCE should not spend \$80,000 on a study of cool centers at this time or fund a study on bill savings or a process evaluation.

### Merits of central A/Cs in CZ13

Several communities in cz13 experience temperatures comparable to cz14 where central A/Cs are an approved measure.

The above data were obtained October 7, 2009 from [accuweather.com](http://accuweather.com) "Typical Weather"

Four of the six hottest counties in California are in cz13.

An efficient replacement central A/C provides resource benefit – although not cost effective in cz13, it addresses health, safety and comfort issues in hot extreme climates.

Public Utilities Code § 2790 directs the Commission in part to taking into fund LIEE programs, “taking into consideration both the cost-effectiveness of the services and the policy of reducing the hardships facing low-income households.” The Commission noted this balance on page 85 of D.05-04-052, stating: “Rather, we also considered less quantitative data, and found that we could adopt, retain or reinstate a measure even if it did not adhere strictly to the quantitative cost-effectiveness criteria we established in that decision. When we are considering the health and safety of low-income California electric and gas customers, it is important that we preserve this discretion so as not to impose hardships on these customers.”
