DECLARATION OF VICTORIA MAY

I, Victoria May, do hereby declare as follows:

1. I am employed by Southern California Edison Company (SCE) as an administrative assistant, and work in SCE's Consumer Affairs Department.
2. In that capacity, I am responsible for SCE's compliance with public notice requirements contained in the California Public Utilities Commission's Rules of Practice and Procedure.
3. On October 20, 2009, I distributed a copy of the attached notice to SCE's local offices, and instructed each office to post the notice for public viewing.

Sworn to under penalty of perjury this 3rd day of November, 2009 at Rosemead, California.

/s/Victoria May

NOTICE OF EVIDENTIARY HEARINGS TO CONSIDER SOUTHERN CALIFORNIA EDISON'S

PROPOSAL TO INCREASE YOUR ELECTRIC RATES

In compliance with California Public Utilities Commission (CPUC) decisions, Southern California Edison Company (SCE) has filed an Energy Resource Recovery Account (ERRA) application, which sets forth SCE's procurement-related operations for the Record Period January 1, 2008 through December 31, 2008. In this application, SCE demonstrates that during the Record Period: (1) its recorded fuel expenses and energy expenses were reasonable, (2) its contract administration, dispatch of generation resources, and related spot market transactions complied with Standard of Conduct Four in SCE's CPUC-approved procurement plan, and (3) its other operations subject to CPUC review were reasonable.

In addition to presenting SCE's recorded 2008 costs for review, this application requests approval to recover \$35.796 million (including franchise fees and uncollectibles) associated with under-collections in four memorandum accounts authorized by the CPUC: (1) the Department of Energy Litigation Memorandum Account (DOELMA), (2) the Market Redesign and Technology Upgrade Memorandum Account (MRTUMA), (4) the New System Generation Memorandum Account (NSGMA), and the Project Development Division Memorandum Account (PDDMA).

Compared to revenue at present rates as of March 1, 2009, this application requests a revenue increase of \$35.796 million, or 0.323% beginning in 2010. If the CPUC approves SCE's request, an average residential customer using 600 kilowatt-hours per month would see an increase of \$0.15 per month, from \$81.93 to \$82.08. The following table shows an estimate of proposed revenues and rate changes by customer group:

Customer Group	Revenue Change (\$Millions)	% Change	Present Rates ¢/kWh	Proposed Rates ¢/kWh
Residential	13,588	0.316%	14.724	14.771
Lighting - Small and Medium Power	13,306	0.329%	14.363	14.409
Large Power	7,888	0.347%	10.379	10.412
Agricultural and Pumping	892	0.266%	10.451	10.479
Street and Area Lighting	122	0.098%	17.532	17.549
TOTAL	35,796	0.323%	13.409	13.451

The CPUC is a state agency that regulates privately owned utilities. It decides if and how much your electric rates will be increased.

The Division of Ratepayer Advocates (DRA) is an independent arm of the CPUC. The DRA participates in CPUC proceedings, workshops, and other forums with significant dollar impacts on consumers that address issues of consumer protection, development of fair rules for competition or other significant policy issues, and that address service quality, rate levels, and rate of return. The DRA’s mission is to represent the interests of all utility customers throughout the state to obtain the lowest possible rates for service consistent with reliable and safe service levels. DRA has a multi-disciplinary staff with expertise in economics, finance, accounting, and engineering.

The CPUC has scheduled formal evidentiary hearings to analyze the need for the proposed changes. These hearings are open to the public to attend and listen, but in order to participate you have to become what is called a “formal party of record.” Contact the Public Advisor’s Office (see below for contact information) if you have questions about becoming a formal party of record. At the evidentiary hearing, a CPUC Administrative Law Judge (ALJ) hears testimony, including testimony from expert witnesses. After the hearings are completed, the ALJ will consider all of the evidence presented and make recommendations to the Commissioner. The final decision is made by a majority vote of the five CPUC Commissioners during their official business meeting. The Commissioners may approve the company’s proposal, the ALJ’s recommendations, an alternate decision filed by one of the Commissioners, or completely reject the proposal.

The Hearing will be held on October 29, 30, and November 2, 2009 in the Commission Courtroom, State Office Building, 505 Van Ness Avenue, San Francisco, California at 9:00 a.m.

You may view a copy of this application at SCE’s corporate headquarters, 2244 Walnut Grove Avenue, Rosemead, CA 91770. You may also contact SCE at one of its multicultural service numbers:

**NOTICE OF EVIDENTIARY HEARINGS TO CONSIDER
SOUTHERN CALIFORNIA EDISON'S**

PROPOSAL TO INCREASE YOUR ELECTRIC RATES

In compliance with California Public Utilities Commission (CPUC) decisions, Southern California Edison Company (SCE) has filed an Energy Resource Recovery Account (ERRA) application, which sets forth SCE's procurement-related operations for the Record Period January 1, 2008 through December 31, 2008. In this application, SCE demonstrates that during the Record Period: (1) its recorded fuel expenses and energy expenses were reasonable, (2) its contract administration, dispatch of generation resources, and related spot market transactions complied with Standard of Conduct Four in SCE's CPUC-approved procurement plan, and (3) its other operations subject to CPUC review were reasonable.

In addition to presenting SCE's recorded 2008 costs for review, this application requests approval to recover \$35.796 million (including franchise fees and uncollectibles) associated with under-collections in four memorandum accounts authorized by the CPUC: (1) the Department of Energy Litigation Memorandum Account (DOELMA), (2) the Market Redesign and Technology Upgrade Memorandum Account (MRTUMA), (4) the New System Generation Memorandum Account (NSGMA), and the Project Development Division Memorandum Account (PDDMA).

Compared to revenue at present rates as of March 1, 2009, this application requests a revenue increase of \$35.796 million, or 0.323% beginning in 2010. If the CPUC approves SCE's request, an average residential customer using 600 kilowatt-hours per month would see an increase of \$0.15 per month, from \$81.93 to \$82.08. The following table shows an estimate of proposed revenues and rate changes by customer group:

Customer Group	Revenue Change (\$Millions)	% Change	Present Rates \$/kWh	Proposed Rates \$/kWh
Residential Lighting - Small and Medium Power	13,588	0.316%	14.724	14.771
Large Power	13,306	0.329%	14.363	14.409
Agricultural and Pumping	7,888	0.347%	10.379	10.412
Street and Area Lighting	892	0.266%	10.451	10.479
TOTAL	122	0.098%	17.532	17.549
TOTAL	35,796	0.323%	13.409	13.451

The CPUC is a state agency that regulates privately owned utilities. It decides if and how much your electric rates will be increased.

The Division of Ratepayer Advocates (DRA) is an independent arm of the CPUC. The DRA participates in CPUC proceedings, workshops, and other forums with significant dollar impacts on consumers that address issues of consumer protection, development of fair rules for competition or other significant policy issues, and that address service quality, rate levels, and rate of return. The DRA's mission is to represent the interests of all utility customers throughout the state to obtain the lowest possible rates for service consistent with reliable and safe service levels. DRA has a multi-disciplinary staff with expertise in economics, finance, accounting, and engineering.

The CPUC has scheduled formal evidentiary hearings to analyze the need for the proposed changes. These hearings are open to the public to attend and listen, but in order to participate you have to become what is called a "formal party of record." Contact the Public Advisor's Office (see below for contact information) if you have questions about becoming a formal party of record. At the evidentiary hearing, a CPUC Administrative Law Judge (ALJ) hears testimony, including testimony from expert witnesses. After the hearings are completed, the ALJ will consider all of the evidence presented and make recommendations to the Commissioner. The final decision is made by a majority vote of the five CPUC Commissioners during their official business meeting. The Commissioners may approve the company's proposal, the ALJ's recommendations, an alternate decision filed by one of the Commissioners, or completely reject the proposal.

The Hearing will be held on October 29, 30, and November 2, 2009 in the Commission Courtroom, State Office Building, 505 Van Ness Avenue, San Francisco, California.

You may view a copy of this application at SCE's corporate headquarters, 2244 Walnut Grove Avenue, Rosemead, CA 91770. You may also contact SCE at one of its multicultural/service numbers:

NOTICE OF EVIDENTIARY HEARINGS TO CONSIDER SOUTHERN CALIFORNIA EDISON'S

PROPOSAL TO INCREASE YOUR ELECTRIC RATES

In compliance with California Public Utilities Commission (CPUC) decisions, Southern California Edison Company (SCE) has filed an Energy Resource Recovery Account (ERRA) application, which sets forth SCE's procurement-related operations for the Record Period January 1, 2008 through December 31, 2008. In this application, SCE demonstrates that during the Record Period: (1) its recorded fuel expenses and energy expenses were reasonable, (2) its contract administration, dispatch of generation resources, and related spot market transactions complied with Standard of Conduct Four in SCE's CPUC-approved procurement plan, and (3) its other operations subject to CPUC review were reasonable.

In addition to presenting SCE's recorded 2008 costs for review, this application requests approval to recover \$35,796 million (including franchise fees and uncollectibles) associated with under-collections in four memorandum accounts authorized by the CPUC: (1) the Department of Energy Litigation Memorandum Account (DOELMA), (2) the Market Redesign and Technology Upgrade Memorandum Account (MRTUMA), (4) the New System Generation Memorandum Account (NSGMA), and the Project Development Division Memorandum Account (PDDMA).

Compared to revenue at present rates as of March 1, 2009, this application requests a revenue increase of \$35,796 million, or 0.323% beginning in 2010. If the CPUC approves SCE's request, an average residential customer using 600 kilowatt-hours per month would see an increase of \$0.15 per month, from \$81.93 to \$82.08. The following table shows an estimate of proposed revenues and rate changes by customer group:

Customer Group	Revenue Change (\$Millions)	% Change	Present Rates \$/kWh	Proposed Rates \$/kWh
Residential	13,588	-0.316%	14.724	14.771
Lighting - Small and Medium Power	13,306	0.329%	14.363	14.409
Large Power	7,888	0.347%	10.379	10.412
Agricultural and Pumping	892	0.266%	10.451	10.479
Street and Area Lighting	122	0.098%	17.532	17.549
TOTAL	35,796	0.323%	13.409	13.451

The CPUC is a state agency that regulates privately owned utilities. It decides if and how much your electric rates will be increased.

The Division of Ratepayer Advocates (DRA) is an independent arm of the CPUC. The DRA participates in CPUC proceedings, workshops, and other forums with significant dollar impacts on consumers that address issues of consumer protection, development of fair rules for competition or other significant policy issues, and that address service quality, rate levels, and rate of return. The DRA's mission is to represent the interests of all utility customers throughout the state to obtain the lowest possible rates for service consistent with reliable and safe service levels. DRA has a multi-disciplinary staff with expertise in economics, finance, accounting, and engineering.

The CPUC has scheduled formal evidentiary hearings to analyze the need for the proposed changes. These hearings are open to the public to attend and listen, but in order to participate you have to become what is called a "formal party of record." Contact the Public Advisor's Office (see below for contact information) if you have questions about becoming a formal party of record. At the evidentiary hearing, a CPUC Administrative Law Judge (ALJ) hears testimony, including testimony from expert witnesses. After the hearings are completed, the ALJ will consider all of the evidence presented and make recommendations to the Commissioner. The final decision is made by a majority vote of the five CPUC Commissioners during their official business meeting. The Commissioners may approve the company's proposal, the ALJ's recommendations, an alternate decision filed by one of the Commissioners, or completely reject the proposal.

The Hearing will be held on **October 29, 30, and November 2, 2009** in the Commission Courtroom, State Office Building, 505 Van Ness Avenue, San Francisco, California at 9:00 a.m.

You may view a copy of this application at SCE's corporate headquarters, 2244 Walnut Grove Avenue, Rosemead, CA 91770. You may also contact SCE at one of its multicultural service numbers:

PROPOSAL TO INCREASE YOUR ELECTRIC RATES**

In compliance with California Public Utilities Commission (CPUC) decisions, Southern California Edison Company (SCE) has filed an Energy Resource Recovery Account (ERRA) application, which sets forth SCE's procurement-related operations for the Record Period January 1, 2008 through December 31, 2008. In this application, SCE demonstrates that during the Record Period: (1) its recorded fuel expenses and energy expenses were reasonable, (2) its contract administration, dispatch of generation resources, and related spot market transactions complied with Standard of Conduct Four in SCE's CPUC-approved procurement plan, and (3) its other operations subject to CPUC review were reasonable.

In addition to presenting SCE's recorded 2008 costs for review, this application requests approval to recover \$35.796 million (including franchise fees and uncollectibles) associated with under-collections in four memorandum accounts authorized by the CPUC: (1) the Department of Energy Litigation Memorandum Account (DOELMA), (2) the Market Redesign and Technology Upgrade Memorandum Account (MRTUMA), (4) the New System Generation Memorandum Account (NSGMA), and the Project Development Division Memorandum Account (PDDMA).

Compared to revenue at present rates as of March 1, 2009, this application requests a revenue increase of \$35.796 million, or 0.323% beginning in 2010. If the CPUC approves SCE's request, an average residential customer using 600 kilowatt-hours per month would see an increase of \$0.15 per month, from \$81.93 to \$82.08. The following table shows an estimate of proposed revenues and rate changes by customer group:

Customer Group	Revenue Change (\$Millions)	% Change	Present Rates \$/kWh	Proposed Rates \$/kWh
Residential	13,588	0.316%	14.724	14.771
Lighting - Small and Medium Power	13,306	0.329%	14.363	14.409
Large Power	7,888	0.347%	10.379	10.412
Agricultural and Pumping	892	0.266%	10.451	10.479
Street and Area Lighting	122	0.098%	17.532	17.549
TOTAL	35,796	0.323%	13.409	13.451

The CPUC is a state agency that regulates privately owned utilities. It decides if and how much your electric rates will be increased.

The Division of Ratepayer Advocates (DRA) is an independent arm of the CPUC. The DRA participates in CPUC proceedings, workshops, and other forums with significant dollar impacts on consumers that address issues of consumer protection, development of fair rules for competition, or other significant policy issues, and that address service quality, rate levels, and rate of return. The DRA's mission is to represent the interests of all utility customers throughout the state to obtain the lowest possible rates for service consistent with reliable and safe service levels. DRA has a multi-disciplinary staff with expertise in economics, finance, accounting, and engineering.

The CPUC has scheduled formal evidentiary hearings to analyze the need for the proposed changes. These hearings are open to the public to attend and listen, but in order to participate you have to become what is called a "formal party of record." Contact the Public Advisor's Office (see below for contact information) if you have questions about becoming a formal party of record. At the evidentiary hearing, a CPUC Administrative Law Judge (ALJ) hears testimony, including testimony from expert witnesses. After the hearings are completed, the ALJ will consider all of the evidence presented and make recommendations to the Commissioner. The final decision is made by a majority vote of the five CPUC Commissioners during their official business meeting. The Commissioners may approve the company's proposal, the ALJ's recommendations, an alternate decision filed by one of the Commissioners, or completely reject the proposal.

The Hearing will be held on **October 29, 30, and November 2, 2009 in the Commission Courtroom, State Office Building, 505 Van Ness Avenue, San Francisco, California at 9:00 a.m.**

You may view a copy of this application at SCE's corporate headquarters, 2244 Walnut Grove Avenue, Rosemead, CA 91770. You may also contact SCE at one of its multicultural service numbers:

NOTICE OF EVIDENTIARY HEARINGS TO
CONSIDER SOUTHERN CALIFORNIA EDISON'S

PROPOSAL TO INCREASE YOUR ELECTRIC RATES

In compliance with California Public Utilities Commission (CPUC) Edison Company (SCE) has filed an Energy Resource Recovery Account (ERCA) for the period ending December 31, 2008. In this application, SCE demonstrates that its recorded fuel expenses and energy expenses were reasonable, dispatch of generation resources, and related spot market transactions. Conduct Pursuant to SCE's CPUC-approved procurement plan, and (3) CPUC review were reasonable.

In addition to presenting SCE's recorded 2008 costs for recovery, approval to recover \$35.796 million (including franchise fees and under-collections in four memorandum accounts authorized by the Department of Energy Litigation Memorandum Account (DOELMA), (2) the Major Upgrade Memorandum Account (MRTUMA), (4) the New System Generation (NSGMA), and the Project Development Division Memorandum Account (PDDMA).

Compared to revenue at present rates as of March 1, 2009, this increase of \$35.796 million, or 0.323% beginning in 2010. If the CPUC average residential customer using 600 kilowatt-hours per month would pay, from \$81.93 to \$82.08. The following table shows an estimate of changes by customer group:

Customer Group	Revenue Change (\$Millions)	% Change
Residential	13,588	0.316%
Lighting - Small and Medium Power	13,306	0.329%
Large Power	7,888	0.347%
Agricultural and Pumping	892	0.266%
Street and Area Lighting	122	0.098%
TOTAL	35,796	0.323%

The CPUC is a state agency that regulates privately owned utility electric rates will be increased.

The Division of Ratepayer Advocates (DRA) is an independent organization that participates in CPUC proceedings, workshops, and other forums with consumers that address issues of consumer protection, development of other significant policy issues, and that address service quality, rate of service, and other issues. DRA's mission is to represent the interests of all utility customers through the lowest possible rates for service consistent with reliable and safe service. DRA staff with expertise in economics, finance, accounting, and law.

The CPUC has scheduled formal evidentiary hearings to analyze the proposed changes. These hearings are open to the public to attend and listen, and to become what is called a "formal party of record." Contact the DRA below for contact information) if you have questions about becoming a party of record at an evidentiary hearing, a CPUC Administrative Law Judge (ALJ) hears from expert witnesses. After the hearings are completed, the ALJ will present and make recommendations to the Commissioner. The final vote of the five CPUC Commissioners during their official business may approve the company's proposal, the ALJ's recommendations, any of the Commissioners, or completely reject the proposal.

The Hearing will be held on October 29, 30, and November 2, 2009 in Courtroom, State Office Building, 505 Van Ness Avenue, San Francisco, CA 94102.

You may view a copy of this application at SCE's corporate office, 505 Van Ness Avenue, San Francisco, CA 94102. You may also contact SCE at 1-800-452-5252.

**NOTICE OF EVIDENTIARY HEARINGS TO CONSIDER
SOUTHERN CALIFORNIA EDISON'S
PROPOSAL TO INCREASE YOUR ELECTRIC RATES**

In compliance with California Public Utilities Commission (CPUC) decisions, Southern California Edison Company (SCE) has filed an Energy Resource Recovery Account (ERRA) application, which sets forth SCE's procurement-related operations for the Record Period January 1, 2008 through December 31, 2008. In this application, SCE demonstrates that during the Record Period: (1) its recorded fuel expenses and energy expenses were reasonable, (2) its contract administration, dispatch of generation resources, and related spot market transactions complied with Standard of Conduct Four in SCE's CPUC-approved procurement plan, and (3) its other operations subject to CPUC review were reasonable.

In addition to presenting SCE's recorded 2008 costs for review, this application requests approval to recover \$35.796 million (including franchise fees and uncollectibles) associated with under-collections in four memorandum accounts authorized by the CPUC: (1) the Department of Energy Litigation Memorandum Account (DOELMA), (2) the Market Redesign and Technology Upgrade Memorandum Account (MRTUMA), (4) the New System Generation Memorandum Account (NSGMA), and the Project Development Division Memorandum Account (PDDMA).

Compared to revenue at present rates as of March 1, 2009, this application requests a revenue increase of \$35.796 million, or 0.323% beginning in 2010. If the CPUC approves SCE's request, an average residential customer using 600 kilowatt-hours per month would see an increase of \$0.15 per month, from \$81.93 to \$82.08. The following table shows an estimate of proposed revenues and rate changes by customer group:

Customer Group	Revenue Change (\$Millions)	% Change	Present Rates ¢/kWh	Proposed Rates ¢/kWh
Residential	13,588	0.316%	14.724	14.771
Lighting - Small and Medium Power	13,306	0.329%	14.363	14.409
Large Power	7,888	0.347%	10.379	10.412
Agricultural and Pumping	892	0.266%	10.451	10.479
Street and Area Lighting	122	0.098%	17.532	17.549
TOTAL	35,796	0.323%	13.409	13.451

The CPUC is a state agency that regulates privately owned utilities. It decides if and how much your electric rates will be increased.

The Division of Ratepayer Advocates (DRA) is an independent arm of the CPUC. The DRA participates in CPUC proceedings, workshops, and other forums with significant dollar impacts on consumers that address issues of consumer protection, development of fair rules for competition or other significant policy issues, and that address service quality, rate levels, and rate of return. The DRA's mission is to represent the interests of all utility customers throughout the state to obtain the lowest possible rates for service consistent with reliable and safe service levels. DRA has a multi-disciplinary staff with expertise in economics, finance, accounting, and engineering.

The CPUC has scheduled formal evidentiary hearings to analyze the need for the proposed changes. These hearings are open to the public to attend and listen, but in order to participate you have to become what is called a "formal party of record." Contact the Public Advisor's Office (see below for contact information) if you have questions about becoming a formal party of record. At the evidentiary hearing, a CPUC Administrative Law Judge (ALJ) hears testimony, including testimony from expert witnesses. After the hearings are completed, the ALJ will consider all of the evidence presented and make recommendations to the Commissioner. The final decision is made by a majority vote of the five CPUC Commissioners during their official business meeting. The Commissioners may approve the company's proposal, the ALJ's recommendations, an alternate decision filed by one of the Commissioners, or completely reject the proposal.

The Hearing will be held on October 29, 30, and November 2, 2009 in the Commission Courtroom, State Office Building, 505 Van Ness Avenue, San Francisco, California at 9:00 a.m.

You may view a copy of this application at SCE's corporate headquarters, 2244 Walnut Grove Avenue, Rosemead, CA 91770. You may also contact SCE at one of its multicultural service numbers:
