**BEFORE THE PUBLIC UTILITIES COMMISSION  
OF THE STATE OF CALIFORNIA**

In the Matter of the Application of San Diego  
Gas & Electric Company (U 902-E) for a  
Certificate of Public Convenience and Necessity  
for the Sunrise Powerlink Transmission Project

Application No. 06-08-010  
(Filed August 4, 2006)

**THIRD QUARTERLY PROJECT STATUS REPORT  
OF SAN DIEGO GAS & ELECTRIC COMPANY  
Q3 2009**

Pursuant to D.08-12-058<sup>1</sup>, San Diego Gas & Electric Company (“SDG&E”) hereby serves the following quarterly project status report on the progress of the Sunrise Powerlink Transmission Project (“Sunrise”) in accordance with ordering paragraph #13.<sup>2</sup>

**I. THE DECISION DIRECTS SDG&E TO PROVIDE THE FOLLOWING INFORMATION**

Ordering paragraph #13, as well as in discussions in the body of the Decision,<sup>3</sup> directs SDG&E to provide project status updates, answering eight questions regarding the progress of the project.

**1. Comprehensive project development schedule, including estimated project in-service date;**

SDG&E’s Q3 2009 project development schedule is attached to this report as Appendix A. The estimated project in-service date remains approximately June 2012.

---

<sup>1</sup> Referred to herein as the “Decision”.

<sup>2</sup> While the ordering paragraph does not specifically identify a date for the quarterly reports, as described on p. 1 of its first quarterly project status report submitted herein, SDG&E is planning to serve the quarterly reports on the 15<sup>th</sup> day of the month following each natural end of the calendar quarter, *i.e.*, April 15, July 15, October 15 and January 15. This allows the reports to capture the quarter-ending financial data that is not available on the final day of the quarter, but is available in the early part of each following month. SDG&E believes that this schedule will provide the Commission with the most current and accurate information available.

<sup>3</sup> Decision at 276-277.

**2. Any changes in project scope and schedule, including the reasons for such changes;**

There are no changes to the project scope or schedule at this time.

**3. Specifically address the need for the Encina transformer, the cost of undergrounding in Alpine Boulevard, and the amount of undergrounding contemplated;**

The CAISO confirmed the need for the Encina transformer in a letter to ALJ Vieth and the Sunrise service list on April 28, 2009. The transformer is scheduled to be in-service on or before June 2012.

The status of the undergrounding in Alpine Boulevard has not changed; the portion of the route from Peutz Valley to the entrance to the Star Valley Option current design is 5.85 miles in length. There are still two alternatives under consideration for the eastern terminus of the underground line, the east Alpine Boulevard alternative (an additional 2.05 miles of underground) and the Revised Star Valley Option (an additional .35 miles of underground).

The total estimated cost of undergrounding in Alpine Blvd remains unchanged at \$335M for the Peutz Valley to Alpine Blvd Alternative and \$244M for the Peutz Valley to the revised Star Valley Option. These costs do not include AFUDC, support costs or mitigation costs.

**4. Any engineering difficulties encountered in constructing the project;**

The terrain continues to challenge SDG&E's determination of final structure locations. However, the engineering difficulties have not currently caused any change in cost, scope, or schedule.

**5. Total estimated project costs;**

The total estimated cost of the project remains unchanged at \$1.883 billion.

**6. Actual spending to date;**

The actual project spending through the end of the third quarter 2009 (9/30/09) is \$184 million.

**7. Any and all filings submitted to FERC for ultimate cost recovery through transmission rates; and**

No such filings have been submitted to date.

**8. Any additional information SDG&E believes relevant and necessary to accurately convey the status of the Sunrise project.**

**a. SDG&E-Citizens Energy agreement**

SDG&E and Citizens Energy reached a development and coordination agreement on May 11, 2009. This agreement is the result of discussions that follow from an earlier memorandum of agreement (“MOA”) regarding joint participation in the project, which was executed in 2006.<sup>4</sup> Under the agreement, Citizens would lease 50% of the transfer capability of the Sunrise Powerlink from the Imperial Valley substation to the Imperial/San Diego County line for a term of 30 years. Citizens will prepay a lease amount for the 30 year term. Citizens agrees to request the California Independent System Operator (“CAISO”) to treat Citizens as a Participating Transmission Owner (“PTO”), turn over operational control of that capacity to the CAISO, and to seek acceptance by Federal Energy Regulatory Commission (“FERC”) of transmission rates substantially similar to the rate SDG&E could recover if SDG&E constructed Sunrise without Citizens’ participation. Citizens’ transfer capability will revert back to SDG&E at the end of the 30 year lease.

SDG&E filed an application (also signed and verified by Citizens Energy) on October 9, 2009 with the Commission under Section 851 of the Public Utilities Code for approval of the development and coordination agreement with Citizens. Also on October 9, SDG&E and

---

<sup>4</sup> The original MOA was executed March 16, 2006 between SDG&E, Imperial Irrigation District (“IID”), and Citizens Energy. IID subsequently withdrew from this agreement in November 2007. The MOA, and IID’s withdrawal, was described in SDG&E’s prepared testimony admitted into the record of this proceeding. *See* Ex. SD-4 at 8-9; Ex. SD-5 at I-22 to I-24; Ex. SD-6 at IV-10 to IV-11 (describing MOA); Ex. SD-5 at Appendix I-2 (executed MOA and supplement); Ex. SD-5, Appendix II at II-36; Ex. SD-35 at 1.31-34 (addressing effects of IID’s withdrawal). *See also*, Ex. ID-3 at 8-9 (describing IID’s withdrawal).

Citizens Energy filed petitions for a declaratory order with the FERC for approval of certain ratemaking and accounting treatment for the lease under this agreement. The agreement provides that SDG&E will record the Citizens prepaid rent amount as a contra-account credit in SDG&E's Uniform System of Accounts ("USOA") Nos. 350-359 so that SDG&E's Gross Transmission Plant balance, for purposes of setting SDG&E's transmission revenue requirements, will be net of this prepaid Lease Payment. The agreement does not change SDG&E's renewable energy commitments, Citizens has agreed to use a rate substantially similar to the rate that would be charged by SDG&E, and Citizens agrees to invest at least 50% of its profits from the agreement in low-income programs in the Imperial Valley.

**b. Import Limitation at Miguel Substation**

Currently, imports into Miguel substation can be limited by the amount of generation that is being produced by the TDM and Intergen generators in Mexico. Low levels of generation restrict the amount of power that can be imported into Miguel substation because there is less generation that can be tripped—via a Special Protection Scheme ("SPS")—in the Imperial Valley to mitigate an overload of one 500/230 kV transformer at Miguel substation for the loss of the other transformer.

In coordination with the CAISO, IID, CFE, and APS, SDG&E has modified the existing SPS to eliminate the need to limit imports into Miguel substation when the output of the TDM and Intergen plants is low. With the modified SPS, the maximum level of imports into Miguel substation will be 1800 MW, regardless of how much power the TDM and Intergen plants are producing.

The SPS modifications were placed in service on August 3, 2009.

**c. Procurement activities**

As detailed in the last quarterly report, pre-construction activities such as procuring long-lead equipment, land right acquisition, environmental surveys, and detailed engineering design are moving forward in order to meet the construction start date.

SDG&E conducted a special RPS RFO for the Imperial Valley region. The response was robust. Offers were received on September 8, 2009 and are undergoing evaluation.

**d. Community outreach and environmental mitigation**

In order to grow communications with the communities along the approved Sunrise route, SDG&E has proactively formed seven Community Councils. The Councils will be made up of local area community and business representatives to get them involved and garner feedback as the project progresses. Each Community Council will meet a minimum of twice a year, or however many times SDG&E or the Community Council members believe is necessary. Members' primary role will be to provide their perspective on important community issues related to the Sunrise Powerlink and other SDG&E projects in their communities. In addition, members are encouraged to share what they learn with residents and businesses in their communities. The first round of meetings for the Sunrise Powerlink Community Councils will take place over the next 60 days.

The plan for acquiring land for environmental mitigation is proceeding with specific identification of lands that meet all criteria for mitigation of impacts. A draft of this plan was issued in June 2009, for review and comment by the relevant agencies, including the CPUC, BLM, U.S. Forest Service, U.S. Fish & Wildlife Service, CA Dept. of Fish & Game, City and County of San Diego. A second draft of the plan is being prepared for recirculation which will

incorporate comments made by the agencies. This draft is expected to be issued during the fourth quarter of 2009.

Respectfully submitted,

/s/ E. GREGORY BARNES \_\_\_\_\_
