**SAN DIEGO GAS & ELECTRIC COMPANY (U 902 E)
RESPONSE TO PETITION FOR MODIFICATION OF D.07-07-027**

**I.
INTRODUCTION**

In accordance with Rule 16.4 of the Rules of Practice and Procedure of the California Public Utilities Commission (the “Commission”), San Diego Gas & Electric Company (“SDG&E”) hereby responds to the Petition for Modification of Decision (“D.”) 07-07-027 (the “Petition”) submitted by Solutions for Utilities, Inc. (“SFUI”).

In the Petition, SFUI seeks to amend pricing and other contract terms included in certain tariffs and related standard contracts adopted pursuant to D.07-07-027. As discussed below, SDG&E does not support the Petition. SFUI’s proposed amendment to the pricing provision adopted by the Commission exceeds the Commission’s limited authority to set pricing and is too vague to implement. Its proposed revisions to other aspects of the Commission-approved tariffs ignores the record developed in the proceeding and is based upon unsupported allegations. Accordingly, SFUI’s Petition should be denied in its entirety.

II. DISCUSSION

A. SFUI's Proposed Amendment to the Pricing Term Would Exceed the Commission's Limited Authority to Set Pricing and is Too Vague to Implement

In D.07-07-027, the Commission implemented Assembly Bill (“AB”) 1969,^{1/} which required the investor-owned utilities (“IOUs”) to adopt tariffs and related standard contracts for purchase of Renewable Portfolio Standard (“RPS”)-eligible generation from certain water and wastewater customers (each a “feed-in tariff” or “FIT”). The decision adopted water/wastewater FITs for each IOU and also adopted the proposals of Southern California Edison Company (“SCE”) and Pacific Gas & Electric Company (“PG&E”) to offer their respective FITs to other customers subject to the same basic terms applicable to the water/wastewater program.^{2/} In D.08-09-033, the Commission approved a similar expansion of FIT eligibility for SDG&E customers.

Subsequent to issuance of D.07-07-027, the California Legislature adopted Senate Bill (“SB”) 380, which required the IOUs to offer FITs to non-water/wastewater customers under terms nearly identical to those set forth in AB 1969. SB 380 directs, *inter alia*, that “[t]he tariff shall provide for payment for every kilowatt hour of electricity generated by an electric generation facility at the market price as determined by the commission pursuant to Section 399.15 for a period of 10, 15, or 20 years, as authorized by the commission.”^{3/} The Commission has established pursuant to § 399.15 the Market

^{1/} Assembly Bill (AB) 1969 (Stats. 2006, Ch. 731), codified at Public Utilities Code § 399.20. All code references herein are to the Public Utilities Code unless otherwise noted.

^{2/} See D.07-07-027, *mimeo*, pp. 46-48.

^{3/} See § 399.15(c) (“The commission shall establish a methodology to determine the market price of electricity for terms corresponding to the length of contracts with eligible renewable energy resources . . .”).

Price Referent (“MPR”) methodology, which estimates the long-term market price of electricity for use in evaluating bids received during RPS solicitations.^{4/} Thus, the Commission is required under current state law to set FIT pricing at the market price determined pursuant to § 399.15 – *i.e.*, at the MPR.^{5/} In proposing the prices be set by the Commission without regard for the MPR,^{6/} presumably at a level that exceeds the MPR, SFUI ignores the express directive set forth under SB 380.

Moreover, SFUI’s pricing proposal is vague and lacking in necessary detail. SFUI does not propose a methodology to be used by the Commission to set FIT market prices. Nor does it provide specific suggestions regarding what data the Commission should use to develop a market price, merely referring to (but not providing) reports developed over the past few years by unnamed consultants. The proposal also fails to address basic issues such as the frequency of the Commission’s market price determination or the role that stakeholders would have in the process. In short, the pricing proposal is ill-conceived and the cursory discussion offered by SFUI too superficial for the proposal to be seriously considered by the Commission. Accordingly, it must be rejected.

B. SFUI’s Petition Ignores Commission Precedent and is Based Upon Unsupported Conclusions

^{4/} See D.04-06-015, *et seq.*

^{5/} SDG&E does not, herein, address the limitations on the Commission’s pricing authority existing under federal law. As SDG&E explained in its “Opening Brief Regarding Jurisdiction Over Feed-In Tariff Pricing” filed June 19, 2010 in R.08-08-009, under authority delegated by the Federal Energy Regulatory Commission (“FERC”), the Commission may set pricing for wholesale transactions involving “Qualifying Facilities” (“QFs”) at avoided cost. *In re Southern California Edison Company, et al.*, 132 FERC ¶ 61,047 (2010). SDG&E’s FIT program requires that participants have QF status. The question of whether the MPR adequately reflects “avoided cost” is not raised in the Petition and, accordingly, is not addressed in these comments.

^{6/} Petition, pp. 9-10.

In D.07-07-027, the Commission rejected a proposal to develop FIT-specific interconnection procedures, observing that “Commission-approved Rule 21 already provides orderly and timely interconnection procedures and processes.”^{7/} Nevertheless, SFUI proposes a change to the interconnection procedures associated with SCE’s FIT, including deletion of SCE’s “Interconnection Facilities Financing and Ownership Agreement” (“IFFOA”), which governs interconnection with SCE’s distribution system.^{8/} SFUI proposes that SCE’s IFFOA be replaced by interconnection provisions appearing in agreements developed for use in Germany and Florida. It also challenges SCE’s exercise of the Income Tax Component of Contribution (“ITCC”) provision included in its IFFOA.^{9/} Inasmuch as SDG&E, like SCE, incorporates existing Rule 21 interconnection provisions into its FIT, it objects to the modifications proposed by SFUI.

SFUI’s proposal to completely eliminate long-standing, Commission-approved Rule 21 interconnection procedures is improper. SFUI offers no analysis whatsoever of the alternate interconnection procedures it proposes; it provides no rational basis upon which the Commission could even consider modifications to Rule 21 or its applicability to FITs. With regard to SFUI’s concerns related to the ITCC provision, the tax gross-up practice is well-established and was approved by the Commission long ago. As with its pricing proposal, SFUI’s interconnection proposal is poorly conceived and lacks even the most basic detail necessary for Commission consideration. Accordingly, it must be rejected.

Taken as a whole, SFUI’s proposed changes to SCE’s FIT amount more to a litany of complaints than to a rational proposal. SFUI engages in no analysis of the

^{7/} D.07-07-027, *mimeo*, p. 41.

^{8/} Petition, pp. 7-9.

^{9/} *Id.* at pp. 8-9.

impact that its proposed changes would have on ratepayers. Indeed, its proposed revisions appear to be intended solely to benefit sellers participating in the FIT program. Protecting the market for sellers does not necessarily further the interests of ratepayers, however, and SFUI offers scant evidence to support a Commission finding that its proposed changes to SCE's FIT are necessary to protect the public interest. While SFUI asks the Commission to take official notice of "the verifiable historical data that, in approximately two years, the Feed-In-Tariff Program has resulted in one hand full of project,"^{10/} its suggestion that this purported fact establishes the need for the modifications it proposes is a logical stretch.

A more likely explanation for the relatively low rate of participation in the FIT program is that such participation renders a generator ineligible for participation in other, potentially more lucrative, incentive programs such as the self-generation incentive program ("SGIP") and/or the California Solar Initiative ("CSI") incentive programs. In D.07-07-027, the Commission determined that parties may not simultaneously obtain benefits under the FIT program and SGIP and/or the CSI incentive programs.^{11/} In earlier comments on the FIT proposal, SDG&E proposed that the Commission revisit and modify its determination in D.07-07-027 that electric generation facilities participating in the FIT program should not be eligible to participate in the SGIP and CSI incentive programs.^{12/}

^{10/} *Id.* at p. 3.

^{11/} *See*, D.07-07-027, *mimeo*, p. 27. In accordance with this direction, SDG&E's current AB 1969 tariff states "Participants under this program will not simultaneously be eligible to receive benefits under the Commission's Self Generation Incentive Program (SGIP), California Solar Initiative, net metering program, or other similar programs."

^{12/} Comments of San Diego Gas & Electric Company Regarding Phase 2 of Tariff and Standard Contract Implementation for RPS Generators, filed July 3, 2008 in R.06-05-027, pp. 5-7.

SDG&E noted that making FIT program participation mutually exclusive with participation in these incentive programs may inadvertently create a disincentive to participation in the FIT program. It appears that this outcome may have been realized, and that this aspect of the program structure, rather than the specific Commission-approved provisions singled out by SFUI, are the cause of the low level of FIT program participation. In any event, SFUI has failed to demonstrate that its proposed revisions would cause greater participation in the FIT program or would ultimately benefit ratepayers.

III. CONCLUSION

For the reasons set forth herein, SDG&E respectfully requests that the Commission deny SFUI's Petition in its entirety.

Respectfully submitted this 19th day of July, 2010.
