**BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA**

Order Instituting Rulemaking Regarding Policies, Procedures and Rules for the California Solar Initiative, the Self-Generation Incentive Program and Other Distributed Generation Issues.

Rulemaking 10-05-004  
(Filed May 6, 2010)

**ADMINISTRATIVE LAW JUDGE'S RULING  
REQUESTING COMMENT ON THE SELF-GENERATION  
INCENTIVE PROGRAM BUDGET THROUGH 2014**

This ruling requests comments on the Self-Generation Incentive Program (SGIP) budget for 2012, 2013 and 2014 in order to implement Assembly Bill (AB) 1150 (Stats. 2011, Ch. 310). AB 1150 extends the authority of the Commission to authorize annual collections for SGIP through December 31, 2014 at a rate not more than the amount authorized for SGIP in the 2008 calendar year.

In Decision (D.) 09-12-047, the Commission authorized annual total collections of \$83 million for SGIP in 2010 and 2011. The decision noted that this was the amount authorized for SGIP in 2008, in conformance with Senate Bill (SB) 412 (Stats. 2009, Ch. 182). D.09-12-047 also adopted an allocation of the SGIP budget across the four relevant utilities, namely Pacific Gas and Electric Company (PG&E), Southern California Edison Company (SCE), San Diego Gas &

Electric Company (SDG&E), and Southern California Gas Company (SoCalGas), as follows:

**SGIP Budget Allocation for 2012-2014**

<b>Utility</b>	<b>Annual SGIP Budget (in millions)</b>
PG&E	\$36
SCE	\$28
SDG&E	\$11
SoCalGas	\$8
<b>Total</b>	<b>\$83 million per year</b>

This ruling proposes that the Commission authorize PG&E, SCE, SDG&E and SoCalGas to collect \$83 million per year in 2012, 2013, and 2014 for SGIP according to the allocation adopted in D.09-12-047, as shown in this ruling.

In D.09-12-047, the Commission addressed many other SGIP budget details, involving SGIP accounting, reporting and return of funds collected and unallocated as of January 1, 2016. In September 2011, the Commission issued D.11-09-015 to implement provisions of SB 412 and modify SGIP with regard to, among other things, eligibility criteria, incentive amounts, metering requirements, and budget allocation among eligible technologies. Nothing in this ruling proposes modification of any elements of D.09-12-047 or D.11-09-015. This ruling merely proposes extension of the annual \$83 million collection for SGIP, in accordance with AB 1150. Parties should limit their comments to this SGIP budget authorization question.

Therefore, **IT IS RULED** that parties may comment no later than October 28, 2011 on whether the Commission should authorize Self Generation Incentive Program collections of \$83 million per year, allocated across the four relevant utilities as set forth in this ruling, for the years 2012, 2013, and 2014.

Dated October 19, 2011, at San Francisco, California.
