**Summary:** On July 1, 2003, Sabrina Chaw, Senior Regulatory Representative, Regulatory Relations, Pacific Gas and Electric Company (PG&E), met with Julie Fitch, advisor to Pres. Peevey, in San Francisco. Also present were Norm Stone, Manager, Customer Energy Management, and Gail Slocum, Attorney, for PG&E. Written materials (attached to the notice) were used. Chaw stated that the proposed decision (PD) deals a serious blow to the emerging and still fragile LEV industry and puts the Commission out-of-step with recent State and Federal LEV policies and initiatives. Chaw commented that the PD is inconsistent with the environmental goals of the Energy Action Plan and the Renewable Portfolio Standard. Chaw also stated that the PD increases utility system costs, jeopardizes distribution reliability and increases the risk of safety mishaps. Chaw asked that an alternative decision be drafted to authorize restoring funding for research and development and technology assessment and application, as well as authorize the recovery of the INEEL demonstration project, and customer education costs. Slocum stated that the PD does not allow for an orderly transition that supports the LEV industry and recommended that the alternative decision lay out a process that will allow for this orderly transition. Stone stated that the PD increases utility LEV operating costs and related infrastructure as well as increases distribution costs.

**Summary:** On July 3, 2003, Sabrina Chaw, Senior Regulatory Representative, Regulatory Relations, Pacific Gas and Electric Company (PG&E), met with Robert Kinosian, advisor to Cmmr. Lynch, in San Francisco. Also present was Paul Holton, Manager, Operations Revenue Requirements, PG&E. Chaw stated that in order to give the Commission an opportunity to update the costs associated with the Hunter Point Power Plant Decommissioning, the proposed decision should still find PG&E's decommissioning estimate of \$65 million to be reasonable, and order PG&E to use the estimate in determining the fossil decommissioning accrual in PG&E's 2003 general rate case.

Order Instituting Rulemaking regarding the implementation of the suspension of direct access pursuant to Assembly Bill 1X and Decision 01-09-060.

**Summary:** On July 2, 2003, Mike Ward, Council Member, the City of Irvine (Irvine), met with Cmmr. Lynch in San Francisco. Also present were Robert Kinoshian, advisor to Cmmr. Lynch, and Judy Vonada, Assistant City Manager, John Phillips, an energy efficiency consultant, and Jose E. Guzman, Jr., an attorney, for Irvine. Ward explained that Irvine first authorized the formation of a municipal electrical utility in 2002, and has proceeded carefully with its due diligence on the subject since then, expending more than \$400,000.00 of public funds. Ward explained that Irvine’s municipal utility was not interested in taking any existing electric customers away from Southern California Edison Company, but that Irvine would be serving only new customers, primarily in a currently undeveloped area of Irvine. Vonada stated that Irvine would decide whether to go forward with a municipal utility by August 2003, and that the time frame for serving new customers was fall, 2004. Guzman stated that the imposition of cost responsibility surcharges on new load to be served by Irvine utility would have a significant adverse impact on Irvine’s municipal utility and jeopardize the substantial investment of time and resources Irvine already has invested in its efforts to form a municipal utility.

**Summary:** On July 2, 2003, Mike Ward, Council Member, the City of Irvine (Irvine), met with Cmmr. Brown in San Francisco. Also present were David Gamson, advisor to

Cmmr. Brown, Kevin Coughlan, advisor to Pres. Peevey, and Judy Vonada, Assistant City Manager, John Phillips, an energy efficiency consultant, and Jose E. Guzman, Jr., an attorney, for Irvine. Ward explained that Irvine's municipal utility was not interested in taking any existing electric customers away from Southern California Edison Company, but that Irvine would be serving only new customers, primarily in a currently undeveloped area of Irvine. With respect to cost responsibility surcharges for municipal departing load, Phillips described the concept of creating an exemption from such charges for a municipal utility that committed to the use of a significant portion of its electric service revenues for energy efficiency programs. Irvine representatives cited its past commitments to energy efficiency initiatives and stated the City's willingness to continue spending significant resources from its municipal utility to continue to advance such programs. Guzman stated that the imposition of cost responsibility surcharges on new load to be served by Irvine utility would have a significant adverse impact on Irvine's municipal utility and jeopardize the substantial investment of time and resources Irvine already has invested in its efforts to form a municipal utility.

**Summary: AUGMENTATION REQUIRED.** On July 2, 2003, Jason Reiger, staff counsel, Office of Ratepayer Advocates (ORA), met with Cmmr. Kennedy in an all-party meeting San Francisco. Also present were Cmmr. Brown and Brian Prusnek, advisor to Cmmr. Kennedy. Reiger stated its views that no clear linkage has been established between any load forecasts provided to the Department of Water Resources and the actual contracts signed, and that given the use of public policy in exempting different types of self-generation projects from various components of the Cost Responsibility Surcharge (CRS), the Commission should examine whether or not

limited exemptions from CRS for types of departing municipal load would support the Commission's overall policy goals.
