**BACKGROUND**

Public Utilities Code Section 761.3 establishes a process for the adoption and implementation of maintenance and operations standards for many of the electric power plants that serve California. First, the California Electricity Generation Facilities Standards Committee (Committee) adopts and revises the standards. Then, the California Public Utilities Commission (Commission) implements and enforces the standards adopted by the Committee. Various generating facilities including many nuclear, publicly owned, and qualifying facilities have been exempted from maintenance and operations standards. (See Public Utilities Code Section 761.3 (d), (h) for further details.)

For more information on the Commission's proceeding to implement these standards, please see the Commission website:

[http://www.cpuc.ca.gov/proceedings/R0211039\\_doc.htm](http://www.cpuc.ca.gov/proceedings/R0211039_doc.htm).

**SEPTEMBER 20-21 WORKSHOPS**

At the workshops on September 20 - 21, Committee Staff will consider feedback regarding draft Operations Standards listed on the Committee website under "Items of Interest":

<http://www.cpuc.ca.gov/static/cegfsc/index.htm>. You can also reach this website by clicking on the Committee link at the lower left of the Commission's webpage at <http://www.cpuc.ca.gov>.

Before the workshops, Committee Staff solicits comments and reply comments from interested parties and stakeholders which will be used to shape workshop agenda. Opening comments are due on September 10, 2004 and reply comments on September 15, 2004. Focus of the workshops will be the policy and technical aspects of the standards. They will also primarily focus on the performance standards with secondary focus on implementation guidelines.

The policy of the Committee and the Commission is to schedule hearings, meetings, workshops and similar events in locations accessible to people with disabilities. To verify that a particular location is accessible, please call: Calendar Clerk (415) 703-1203. If specialized accommodations for the disabled are needed (e.g., sign language interpreter), those requesting the accommodations must call the Commission's Public Advisor at (415) 703-2074, TTY 1-866-836-7825 or (415) 703-5282

**Summary:** On August 27, 2004, Richard B. Severy, Director of State Regulatory-West, MCI, Inc. (MCI), met with Cmmr. Lynch in San Francisco. Also present were Tom Long, advisor to Cmmr. Lynch, and William C. Harrelson, Senior Counsel, MCI. Written materials (attached to the notice) were used. MCI representatives explained that the revised proposed decision (PD) reflects declining loop costs better than prior recommended decisions, but still requires some modifications to ensure that the finally adopted rates are TELRIC compliant. MCI explained that the PD and the HM5.3 cost model use SBC's 'fully loaded' hourly labor rate, which results in artificially inflated costs. Harrelson also explained that the PD proposes an inflated cost of capital that should properly be reduced. Severy emphasized that it is important for the Commission to set loop prices correctly.
