BACKGROUND

Public Utilities Code Section 761.3 establishes a process for the adoption and implementation of maintenance and operations standards for many of the electric power plants that serve California. First, the California Electricity Generation Facilities Standards Committee (Committee) adopts and revises the standards. Then, the California Public Utilities Commission (Commission) implements and enforces the standards adopted by the Committee. Various generating facilities including many nuclear, publicly owned, and qualifying facilities have been exempted from maintenance and operations standards. (See Public Utilities Code Section 761.3 (d), (h) for further details.)

For more information on the Commission's proceeding to implement these standards, please see the Commission website:

http://www.cpuc.ca.gov/proceedings/R0211039_doc.htm

They will also primarily focus on the performance standards with secondary focus on implementation guidelines.

8/30/04 R03-10-003 Order Instituting Rulemaking to Implement Portions of AB117 concerning Community Choice Aggregation.

Summary: LATE FILED. On August 23, 2004, Mike Preston, Vice Mayor of the City of San Marcos (City), met with Cmmr. Wood in San Diego. Also present were Steven Weissman, advisor to Cmmr. Wood, and Rick Gittings, the City Manager. Vice Mayor Preston discussed the impacts associated with Community Choice Aggregation relating to not only the exit fee issue, as well as to direct access issues, but also the concept of investor owned utilities (IOUs) adding an additional 'exit fee' in order to fully plan their resource allocation mix in the future if communities began buying energy for customers within their community, which are also customers of the IOU. The City representatives also discussed a Joint Powers Agreement between the City of Victorville and the City of San Marcos and explained how that might assist in generating new energy within the State of California, particularly energy that may be found and declared to be 'renewable resources/green energy'. The City representatives also noted the importance of the process and establishing the rules for AB 117 Community Choice Aggregation.

9/7/04 A04-02-026 Southern California Edison Company, for authorization to replace San Onofre Nuclear Generating Station Unit Nos. 2 & 3 (SONGS 2 & 3) steam generators; establish ratemaking for cost recovery; and address other related steam generator replacement issues.

Summary: LATE FILED. On August 31, 2004, Bruce Foster, Vice President of Regulatory Operations, Southern California Edison Company (SCE), met with Pres. Peevey in San Francisco. Also present were Julie Fitch, advisor to Cmmr. Peevey, and Alan Fohrer, Chief Executive Officer, and Robert Foster, President, of SCE. The SCE representatives indicated that replacement of the San Onofre Nuclear Generating Station Unit Nos. 2 and 3 (SONGS 2 & 3) steam generators was going to be difficult because of the need to cut a hole in the containment buildings and detension tendons in those buildings. SCE representatives stated that SCE needed to get into the queue for replacement steam generator (RSG) fabrication within the next 30-60 days so that SONGS 2 RSGs could be available in spring 2009. SCE representatives also stated that SCE will shortly file a motion requesting an interim decision on cost-effectiveness and ratemaking issues on its SONGS 2 & 3 Steam Generator Replacement Application in April 2005 and urged the Commission to grant SCE's request.
