10/22/04 R04-04-003 Order Instituting Rulemaking to promote policy and program coordination and integration in electric utility resource planning.

Summary: On October 19, 2004, Erik Jacobson, Chief, Regulatory Relations, Pacific Gas and Electric Company (PG&E), met with David Gamson, advisor to Cmmr. Brown, and Trina Horner, advisor to Cmmr. Lynch, in two separate meetings in San Francisco. Also present were Gary Jeung, Director, Gas and Electric Procurement, and Joe Lawlor, Energy Trading Consultant, Gas and Electric Supply Strategic Consulting, PG&E. Written material (attached to the notice) was used. Lawlor and Jeung stated that system contracts with liquidated damage provisions should be eligible to count as qualified capacity, as long as they are limited to no more than 25 percent of a LSE's total MW need. Lawlor and Jeung explained why it is not feasible to require a demonstration that the generator's asset portfolio is not oversold. Jacobson emphasized that the Department of Water Resources contracts should be provided full value and should not be subject to a deliverability test. Lawlor explained PG&E's concern with both ALJ Wetzell's proposed decision and Cmmr. Lynch's alternate.

Summary: On October 25, 2004, Mark Pocta, Program Manager of the Office of Ratepayer Advocates (ORA), met with Julie Fitch, advisor to Pres. Peevey, in San Francisco. Also present was Raminder Kahlon, advisor to Pres. Peevey. Pocta urged the adoption of the proposed decision of ALJ Halligan. Pocta explained that ORA was especially concerned with the magnitude of the potential penalties and rewards of \$41.6 million in the alternate proposed decisions (APDs) of both Cmmr. Wood and Cmmr. Kennedy. Pocta stated that if the Commission intends to adopt an incentive mechanism, ORA recommends that the mechanism be modified to incorporate more modest System Average Interruption Duration Index and System Average Interruption Frequency Index rewards and penalties totaling \$24 million, as originally proposed by Pacific Gas and Electric Company, rather than \$41.6 million the APDs would adopt.

| | I95-04-044 | Investigation on the Commission's own motion into competition for local exchange service. |

Summary: On October 26, 2004, Richard Severy, Director, State Regulatory, for MCI, Inc. (MCI), met with Pres. Peevey in San Francisco. Also present were Lester Wong, advisor to Pres. Peevey, and Anita Taff-Rice, an attorney for MCI. Written materials (attached to the notice) were used. Severy explained that improved hot cut processes are critical to the success of mass market local telephone competition. Severy explained that MCI agreed with the findings in the proposed decision (PD) that current hot cut systems are deficient and supported the process created by the PD to further address and resolve various technical and operational issues that would lead to improved hot cut processes. Severy explained that the Commission has the authority to resolve hot cut issues, and that the Federal Communications Commission is not addressing the details of these processes. Severy and Taff-Rice further explained that it is important for the Commission to resolve these issues to ensure that adequate systems are in place that address a range of customer migration scenarios. Taff-Rice explained that the PD is consistent with the national NENA standard. Finally, MCI representatives indicated that the PD needs to be modified in some respects to reflect the cost of the most efficient technology, processes and network configuration associated with hot cut processes.

Rubin discussed the sales forecast for the 2001-2003 timeframe provided by PG&E to the California Department of Water Resources in February 2001. Eisenman indicated that if MDL customers are exempted from the CRS, remaining PG&E customers will have to pay more.
