

Decision 07-07-035 July 26, 2007

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Application of Carlo Fernandez Martinez, doing business as Lime Shuttle Service for authority to operate as an on-call passenger stage corporation between points in the Counties of Sacramento and Placer and Sacramento Int'l Airport and to establish a Zone of Rate Freedom.

Application 07-05-015
(Filed May 10, 2007)

O P I N I O N

Summary

This decision grants the application of Carlo Fernandez Martinez (Applicant), an individual, pursuant to Pub. Util. Code § 1031 et seq., for a certificate of public convenience and necessity to operate as a passenger stage corporation (PSC), as defined in Pub. Util. Code § 226, and to establish a zone of rate freedom (ZORF), pursuant to Pub. Util. Code § 454.2.

Discussion

The application, as amended by letter dated June 28, 2007, requests authority to operate as an on-call PSC to transport passengers and their baggage between points in Sacramento and Placer Counties, on the one hand, and Sacramento International Airport (SMF), on the other hand. Applicant advises that SMF is experiencing tremendous growth. The number of international and direct domestic flights has increased. Additionally, Sacramento and Placer Counties are experiencing growth in population and commercial activity.

Applicant plans to operate from 5:00 a.m. to 12:00 a.m. using a luxuriously equipped van. Passengers will be offered amenities such as bottled water and

packaged snacks. At the start, Applicant will focus on serving the Roseville – Rocklin area of Placer County. Service will eventually expand to the entire service territory.

Applicant indicates that he has the knowledge and financial ability to conduct the proposed PSC operation. He worked for a major computer company for more than 22 years, during which he gained significant experience in the areas of accounting and customer support. Applicant is confident that his long exposure to business operations will enable him to successfully operate a transportation service. Attached to the application as Exhibit D is Applicant's unaudited balance sheet that discloses assets of \$818,000, liabilities of \$375,000, and net worth of \$443,000.

The proposed fares, as shown in Exhibit A of the application, range between \$15 (Sacramento – SMF) and \$67 (Auburn – SMF). Applicant requests authority to establish a ZORF of \$10 above and below the proposed fares under \$30 and \$15 above and below the proposed fares of \$30 and over. Applicant will compete with other PSCs, taxicabs, charter limousines and sedans, public transit, and private automobiles in his service area. This highly competitive environment should result in Applicant pricing his services at a reasonable level. Many other PSCs have been granted ZORFs. The requested ZORF is generally consistent with the ZORFs held by other PSCs.

Notice of filing of the application appeared in the Commission's Daily Calendar on May 16, 2007. Applicant served notice of the application to SMF and the involved cities, counties, and transit districts.

In Resolution ALJ 176-3192 dated May 24, 2007, the Commission preliminarily categorized this application as ratesetting, and preliminarily determined that hearings were not necessary. No protest has been received.

Given this status, public hearing is not necessary, and it is not necessary to alter the preliminary determinations made in Resolution ALJ 176-3192.

This is an uncontested matter in which the decision grants the relief requested. Accordingly, pursuant to Pub. Util. Code § 311(g)(2), the otherwise applicable 30-day period for public review and comment is being waived.

Assignment of Proceeding

Richard Clark is the assigned Examiner in this proceeding.

Findings of Fact

1. Applicant requests authority to operate as an on-call PSC to transport passengers and their baggage between points in Sacramento and Placer Counties, on the one hand, and SMF, on the other hand.
2. Public convenience and necessity requires the proposed service.
3. Applicant requests authority to establish a ZORF of \$10 above and below the proposed fares under \$30 and \$15 above and below the proposed fares of \$30 and over, as shown in Exhibit A of the application.
4. Applicant will compete with PSCs, taxicabs, charter limousines and sedans, public transit, and private automobiles in his operations. The ZORF is fair and reasonable.
5. No protest to the application has been filed.
6. A public hearing is not necessary.
7. It can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment.

Conclusions of Law

1. Public convenience and necessity has been demonstrated and the application, as amended, should be granted.
2. The request for a ZORF should be granted.

3. Before Applicant changes any fares under the ZORF authorized below, Applicant should give this Commission at least ten days' notice. The tariff should show the high and low ends of the ZORF and the then currently effective fare between each pair of service points.

4. Since the matter is uncontested, the decision should be effective on the date it is signed.

5. Only the amount paid to the State for operative rights may be used in rate fixing. The State may grant any number of rights and may cancel or modify the monopoly feature of these rights at any time.
