Orders and Resolutions

- 1** **Res TL-19034**
[2678] Resolution approving issuance of charter-party carrier certificates pursuant to Section 5374(b) of the Public Utilities Code.
- 2** **Res ALJ 176-3121**
[2679] Ratification of preliminary determination of category for proceedings initiated by application. The preliminary determinations are pursuant to Article 2.5, Rules 4 and 6.1 of the Commission's Rules of Practice and Procedure.
- 3** **A03-02-001 - Zephyr Communications, L.L.C. (Applicant).**
[2605] This decision grants Applicant a certificate of public convenience and necessity under Pub. Util. Code § 1001 to provide local exchange, resold intraLATA and InterLATA telephone service, and hi-speed data services. This proceeding is closed.
(Comr Brown - ALJ Bemserderfer)
Pub. Util. Code §1701.1 -- This proceeding is categorized as Ratesetting.

- 4**
[2708] **A01-03-026 - PacifiCorp.**
This decision adopts an unopposed settlement of the general rate increase revenue requirement for PacifiCorp for a 2002/2003 test year. In addition, the decision adopts an all-party settlement of the revenue allocation and rate design. The result is an overall revenue requirement increase of \$2.8 million over the revenues generated by the present rates, as opposed to PacifiCorp's requested increase of \$11.4 million. This proceeding is closed.

- 5**
[2709] **R93-04-003 - Rulemaking on the Commission's own motion to govern open access to bottleneck services and establish a framework for network architecture development of dominant carrier networks.**
I93-04-002 - Related matters. This decision resolves two petitions for modification of D03-03-033. First, the Commission denies Verizon California Inc.'s (Verizon) request for an extension until March 2004 to implement the nonrecurring prices adopted in D03-03-033. Instead, Verizon may defer billing for nonrecurring charges, with interest, until its billing system changes are complete. Second, the Commission finds that customer notification of potential price floor changes is duplicative of existing General Order 96-A requirements. Verizon's petition on this issue is granted in part, but otherwise, D03-03-033 is left unchanged in that contract prices based on interim price floors are subject to adjustment once final price floors are adopted in a later phase of this proceeding.

For approval of energy efficient shareholder incentives for third claim for incentives for 1998 accomplishment for Pre-1998 Programs, and for recovery of costs for the 2002 Interruptible Load Programs. A03-05-003, A03-05-004, A03-05-009 - Related matters. This decision requires the Director of the Energy Division, or the Director's designee, to review and authorize the release of any reports regarding low-income energy efficiency (LIEE) impact evaluations that are conducted by utility contractors. The decision also directs that the utility managing such contracts shall not make payments to the contractor(s) without authorization by the Director of the Energy Division, or the Director's designee. These requirements apply to the LIEE impact evaluations conducted for 2003 and beyond, unless otherwise directed by Commission order.

41a **ALTERNATE TO ITEM 1866**
[2366]

This alternate finds that under the New Regulatory Framework (NRF), Verizon has provided excellent customer service. Pacific Bell has provided generally good service, but several of its operations suffer from poor service quality. The alternate reaches these conclusions through a statistical examination of the direct measures of service quality provided by Pacific Bell and Verizon to this Commission and to the FCC. The alternate further finds that Verizon and Pacific Bell developed different service quality records during the NRF period, but that both show an improving trend in service quality. This evidence casts doubt on the proposition that NRF systematically decreases the quality of customer service.

ALTERNATE TO ITEM 1866

This alternate finds that, under the New Regulatory Framework (NRF), Verizon provided generally improving service that compared favorably with other large carriers on most measures, with just a few areas of weakness. Pacific Bell's service was stable for the majority of measures we studied and compared favorably to other large carriers on many measures, but Pacific's service exhibited several important areas of weakness, especially for residential customers. The alternate finds that there is insufficient evidence to establish whether NRF caused either positive or negative changes in service quality.

R95-04-043 - Order Instituting Rulemaking on the Commission's own motion into competition for local exchange service.

I95-04-044 - Related matters. This decision authorizes the North American Numbering Plan Administrator, together with carriers to proceed immediately with implementation of the 310 Numbering Plan Area (NPA) back-up relief plan adopted in D00-09-073. The back-up plan provides for a geographic split of the 310 NPA to create a new 424 NPA in order to replenish the supply of NXX codes available for telephone number assignments. The southern portion of the current 310 area code, including El Segundo, Hawthorne, Compton, Redondo, Lomita, and San Pedro shall be split off to form a new 424 area code.

ALTERNATE TO ITEM 2177

This decision concludes that adequate telephone numbers still exist in the 310 area code to provide customers and telephone carriers with sufficient service. It is not necessary at this time to split the 310 area code by implementing the area code split plan adopted in D00-09-073. Instead, the Commission should closely monitor the additional need for telephone numbers in the 310 area code to assure adequate telephone number supplies, and further advocate its number conservation proposals now pending with the federal Communications Commission.
