### Consent Agenda - Orders and Resolutions

- 1**  
[5376]      **R00-02-004 - Order Instituting Rulemaking on the Commission's own motion to establish consumer rights and consumer protection rules applicable to all telecommunications utilities.**  
This decision grants \$58,373.00 in intervenor compensation to The Utility Reform Network (TURN) for its further contributions to D04-05-057, approximately \$78,085 less than TURN requested. Only amounts directly attributable to preparing and filing TURN's motion to intervene in federal litigation seeking to overturn D04-05-057, and amounts for preparing its compensation claim, have been allowed.

Consent Agenda - Orders and Resolutions (continued)

- 3**  
[5529]                    **A02-12-027 - Southern California Gas Company.**  
For authority to update its gas revenue requirement and base rates. A02-12-028, I03-03-016 - Related matters. This decision clarifies the record and adopts a correct forecast for test year 2004 and attrition year 2005 of the costs billed by Southern California Edison Company to San Diego Gas & Electric Company. These proceedings are closed.

- 4**  
[5589]                    **R03-10-003 - Order Instituting Rulemaking to implement AB 117 concerning community choice aggregation.**  
R04-03-017 - Related matters. This decision denies the motion of Michael Kyes, filed September 7, 2005. The motion asks the Commission to permit the purchase and sale of power by private aggregators based on Kyes' interpretation of Public Utilities Code Section 366(b). This decision finds the Commission is barred from permitting private aggregation by Water Code Section 80110. These proceedings are closed.

Consent Agenda - Orders and Resolutions (continued)

- 6**  
[5629]            **Res E-3975 - AT&T, Inc. (AT&T).**  
AT&T requests a deviation from California Public Utilities Code Section 320. This resolution grants the request and authorizes AT&T to add approximately twenty miles of aerial fiber optic cables along Highway 89 and Highway 50 on existing joint poles in El Dorado County. Aerial fiber optic cables begin at the intersection of Placer and El Dorado County line, extending south along Highway 89 to South Lake Tahoe; and resume along Highway 50 from AT&T's Meyers Central Office to the Tamarack Central Office. Highway 89 and Highway 50 are within the state scenic corridors.

[5639]            **I04-02-007 - Order Instituting Investigation on the Commission's own motion to determine the extent to which the public utility telephone service known as Voice over Internet Protocol should be exempted from regulatory requirements.**  
This decision closes the Commission's investigation into Voice over Internet Protocol telephony (VoIP). This proceeding has been inactive for almost two years. The Federal Communications Commission has determined it is charged with determining the regulatory framework for VoIP, so it is premature for this Commission to assess its regulatory authority over VoIP. This proceeding is closed. (Comr Brown, Comr Peevey - ALJ Grau)

## Regular Agenda

### Regular Agenda - Energy Orders

**39**                    **R05-10-030 - Order Instituting Rulemaking concerning relationship between California energy utilities and their holding companies and non regulated affiliates.**  
[5491]

This order amends the October 2005 Order Instituting Rulemaking, both as to scope and schedule, and attaches for public review and comment, staff proposals to revise (1) the Commission's Affiliate Transaction Rules and (2) its General Order 77-L, which governs the reporting of compensation paid to executive officers and employees of regulated utilities. The proposed rule revisions apply only to the previously designated Respondents, California's major energy utilities and their holding companies: Southern California Edison Company/Edison International, Pacific Gas and Electric Company/PG&E Corporation, and Southern California Gas Company and San Diego Gas & Electric Company, both owned by Sempra Energy.

**40**                    **R05-02-023 - Order Instituting Rulemaking to revise Commission General Order Numbers 95 and 128.**  
[5623]

The Commission on February 24, 2005 issued this Order Instituting Rulemaking 05-02-023 to consider uniform rules for attaching wireless antennas to jointly used utility poles and towers. Following seven days of workshops in San Francisco and Los Angeles, the parties jointly presented a workshop report containing three alternative proposals for a new Rule 94 to General Order 95. The parties reached agreement on most of new Rule 94 but differed on provisions dealing with identification signs, the vertical clearance between supply conductors and wireless antennas with radio frequency (RF) emissions, and exceptions to the rules for certain low-emission antennas. This decision today adopts in its entirety the Rule 94 sponsored by the Commission's Consumer Protection and Services Division, the International Brotherhood of Electrical Workers Local 1245, the Communication Workers of America – Ninth District, Pacific Gas and Electric Company, and San Diego Gas & Electric Company. The decision rejects the assertions of some parties that elements of the new Rule 94 are preempted by Federal Communications Commission (FCC) rules regulating RF exposure, concluding instead that mere acknowledgement of the FCC's RF rules does not preempt a state agency which enacts construction rules intended to provide a safe working environment for those climbing and working on transmission poles. This proceeding is closed.

Regular Agenda - Energy Orders (continued)

**41** **I05-09-005 - Order Instituting Investigation to facilitate proactive development of**  
[5624] **transmission infrastructure to access renewable energy resources for California.**

This decision evaluates and adopts specific policies and procedures to implement the cost recovery provisions of Pub. Util. Code § 399.25. Section 399.25 was enacted on September 12, 2002, as part of Senate Bill 1078, and is intended to facilitate California's use of renewable energy resources. Section 399.25 directs the Commission to deem necessary those transmission facilities identified in certificate applications if the proposed facilities are necessary to facilitate achievement of the State's renewable power goals. Section 399.25 also provides a "backstop" cost mechanism allowing the utilities to recover through retail rates any costs of the above facilities that are not approved by the Federal Energy Regulatory Commission for recovery through transmission rates. Today's decision clarifies how the Commission intends to implement § 399.25 to provide the utilities and renewable resource developers with the cost recovery assurance to facilitate meeting the Renewable Portfolio Standard goals. This decision adopts principles for implementing the requirements of § 399.25 that are in the public interest, because they will assist in the Commission's effort to ensure that California has the necessary transmission infrastructure in place in order to meet the RPS goals. The decision also modifies certain findings previously adopted in D03-07-033 to reflect the Commission's further consideration and subsequent events.

**42** **A05-06-029 - Pacific Gas and Electric Company (PG&E).**

[5651]

This decision adopts all provisions of the Joint Settlement Agreement concerning an application for a Certificate of Public Convenience and Necessity by PG&E to accept, complete construction of, and operate the Contra Costa 8 (CC8) generating facility, except for the Nonbypassable Charge (NBC) provision contained in Paragraph 11. The Settling Parties propose a NBC for CC8 for the 30-year life of the project. The Commission does not approve that provision, but instead adopts a 10-year NBC, consistent with D04-12-048. **Regular Agenda - Water/Sewer Orders****46**

[5671]

**A02-11-044 - San Gabriel Valley Water Company (San Gabriel).**

This decision affirms D04-07-034. Like D04-07-034 it finds that, with certain exceptions, San Gabriel met its burden of proof regarding its request for a rate increase and that San Gabriel's proposed construction projects, including any changes or substitutions, are reasonable. This decision also finds that San Gabriel did not meet its burden of proof on certain ratemaking issues, specifically: (A) gains from (1) sales of real estate, (2) water contamination law suits and settlements, (3) condemnations, and (4) inverse condemnations; (B) contributions in aid of construction; and (C) the ratemaking treatment of the purchase price of land for a new office. As to those issues, this decision orders that the rates and charges authorized by D04-07-034 are subject to refund. To the extent that financial gains were not the property of San Gabriel (and should have been allocated to ratepayers), but were invested in plant, those gains should be treated as contributions in aid of construction. The amount of any refunds and reductions to rate base will be determined in San Gabriel's current rate case, A05-08-021. This proceeding is closed.

**Regular Agenda - Legal Division Matters****47 FERC Docket No. RM06-16-000, Mandatory Reliability Standards for the Bulk-Power System.**  
[5714]

On April 4, 2006, the North American Electric Reliability Council (NERC) filed with the Federal Energy Regulatory Commission (FERC) 102 proposed Reliability Standards for FERC approval, subject to its application for certification as the Electric Reliability Organization pursuant to Section 215 of the Federal Power Act. On May 11, 2006, FERC released a staff preliminary assessment of the proposed Reliability Standards. FERC will issue a Notice of Proposed Rulemaking (NOPR) with its proposals on each Reliability Standard after receiving comments on the staff preliminary assessment. NERC and other interested persons may file comments on the FERC staff preliminary assessment by June 26, 2006. Staff seeks the Commission's authorization to file comments in response to this FERC staff preliminary assessment.
