A97-12-020 - Pacific Gas and Electric Company (PG&E).

For authority, among other things, to increase rates and charges for electric and gas service effective on January 1, 1999. I97-11-026, A94-12-005, I95-02-015 - Related matters. On January 17, 2002, PG&E filed a motion requesting that the Commission issue an interim decision to ensure that if, at a later date, the Commission approves an attrition rate adjustment (ARA) for 2002, such adjustment may be made effective as of the date of the requested interim decision. PG&E’s motion also requests that the Commission specify the process for addressing the substantive question of how much, if any, attrition relief PG&E should receive for 2002. This decision grants PG&E’s motion. PG&E’s rates and authorized revenue requirements are not directly affected by this decision. They would only be affected if, at a later date, the Commission approves an ARA for 2002.

H-5  A00-01-023 - Pacific Bell Telephone Company (Pacific).
237
Pacific seeks formal authorization to transfer assets and lease space to SBC Advanced Solutions, Inc. (ASI). The transfer enables ASI to provide broadband and other advanced services that previously were provided by Pacific. This proceeding has been stayed three times, at Pacific’s request, while Pacific considered whether to proceed with the transfer. This decision concludes that the record developed in three days of hearings in December 2000 has become stale, and that a Circuit Court decision in January 2001 has changed the ground rules under which ASI operates. Accordingly, this decision dismisses the application and directs Pacific to refile its application to take account of the changed circumstances that now prevail. This proceeding is closed.

This decision denies Verizon’s application for exemption from Public Utilities Code Sections 816-830, but exempts Verizon from the Competitive Bidding Rules for Sections 816-830 debt issues with principal amounts greater than $200 million and for variable rate debt securities and negotiated financing transactions. The decision also permits Verizon to submit reports required by General Order 24-B quarterly. This proceeding is closed.

Joint application for the Commission to reexamine the recurring costs and prices of unbundled switching in its first annual review of unbundled network element costs pursuant to Ordering Paragraph 11 of D99-11-050. A01-02-035, A01-02-034 - Related matters. This interim order in the Commission's 2001 Unbundled Network Element (UNE) Reexamination proceedings sets interim rates for two of Pacific Bell’s UNEs, namely loops and switching. For unbundled loops, the Commission adopts an interim discount of 26.8% from Pacific’s current loop price of $11.70. For unbundled switching, the Commission adopts an interim discount of 22.5% for the port, 24.6% for usage rates, and 13.8% for tandem switching. These interim rates are subject to adjustment once final rates are adopted. This proceeding shall remain open to set final rates for these UNEs.

R01-08-002 - California Public Utilities Commission

Order Instituting Rulemaking into implementation of Senate Bill 669, as it affects California High-Cost Fund A; California High-Cost Fund B; Universal Lifeline Telephone Service Trust; Payphone Service Providers Enforcement; Telecommunications Devices for the Deaf Interim Placement Committee; Public Policy Payphone Program; and California Teleconnect Fund. This decision resolves advisory board issues deferred by D01-09-064, by establishing, pursuant to Pub. Util. Code § 271(a), the criteria (both number of members and membership qualifications) for each of the boards going forward; merging the Universal Lifeline Telephone Service Trust Marketing Board with the Universal Lifeline Telephone Service Trust Administrative Committee; amending the advisory board charters; and directing the Executive Director to establish a process and timeline for soliciting nominations for appointment to each of the boards. This decision also resolves outstanding issues concerning the establishment of program budget reserves and a schedule for audits required by Pub. Util. Code § 274 and it adopts a uniform interest rate to apply to the late payment of reimbursement and carrier claims. This proceeding is closed.

Order Instituting Rulemaking into the operation of interruptible load programs offered by Pacific Gas and Electric Company, San Diego Gas & Electric Company (SDG&E), and Southern California Edison Company (SCE) and the effect of these programs on energy prices, other demand responsiveness programs, and the reliability of the electric system. The decision directs respondent utilities to file advice letters and tariffs within five days that implement the orders herein. Interruptible Programs: It extends interruptible programs, and reduces authorized limits and annual expenditures by half. It continues the bill limit in part. It grants the petition for modification of D01-04-006 by California Industrial Users. It rejects SDG&E’s Advice Letter 1320-E. It orders PG&E to file an advice letter for a pilot program testing a modified Optional Binding Mandatory Curtailment Program baseline. It adopts a two-year pilot test of California Energy Commission’s proposed modified Base Interruptible Program. It denies SCE’s petition for modification of D01-04-006. It denies the petition for modification of D01-06-087 by the California Manufacturers and Technology Association. Curtailment Priorities: It provides essential customer status to skilled nursing facilities. It orders a test of Category H procedures. Extreme Temperature: It adopts a plan for education regarding prevention of adverse health effects resulting from extreme temperatures, notification to temperature sensitive customers before a rotating outage, and use of cooling stations. Memorandum Account Balances: It directs collection of memorandum account balances, with a limited reconciliation option. It denies the petition for modification of D01-04-006 by California Steel Industries, Inc., but provides limited relief for customers affected by the timing of D01-04-006 and D01-05-090. The proceeding remains open for one pending petition for modification and further review of the demand bidding program.
