STATE, COUNTY AND CITY OFFICIALS**

I, Marshall McElrath, an employee of Pacific Gas & Electric Company, (the Company)state that I am a citizen of the United States and employed in the City and County of San Francisco, and State of California; that I am over the age of eighteen (18) years and not a party to the within cause; that my business address is 77 Beale Street, San Francisco California; and that a printed copy of the attached **Notification of PG&E Application Filing No. 12-04-009** was sent first class postage paid to State, County and City Officials located within the Company's service area on April 20, 2012.

I declare under penalty of perjury that the foregoing is true and correct.

Dated, June 19, 2012, at San Francisco, California.

MARSHALL MCELRATH

NOTICE OF APPLICATION OF PACIFIC GAS AND ELECTRIC COMPANY FOR RECOVERY OF COSTS OF THE 2011 MARKET REDESIGN AND TECHNOLOGY UPGRADE INITIATIVE

On April 16, 2011, Pacific Gas and Electric Company (PG&E) filed an application with the California Public Utilities Commission (CPUC) requesting changes to its electric rates effective January 1, 2013. Specifically, the request seeks to recover in rates the costs PG&E has incurred to comply with the mandated Market Redesign and Technology Upgrade (MRTU) Initiative.

The MRTU initiative, which was developed by the California Independent System Operator and approved by the Federal Energy Regulatory Commission, was launched on March 31, 2009. The MRTU initiative changed the manner in which electricity is procured and sold by participants in newly redesigned markets in California. Costs presented in this application represent actual costs to implement the MRTU initiative that were incurred by PG&E through December 31, 2011.

The total electric revenue (the total amount PG&E collects in rates from all customers) requirement request is \$7.9 million. PG&E requests that electric rates designed to recover this amount become effective on January 1, 2013.

Will rates increase as a result of this application?

Yes, approval of this application will increase electric rates by less than one percent for bundled service customers (those who receive electric generation, as well as transmission and distribution service from PG&E) and for customers who purchase electricity from other suppliers (e.g., direct access and community choice aggregation). The revenue requirement of \$7.9 million will increase PG&E's bundled system average rates, relative to current rates, by 0.07 percent in 2013.

FOR FURTHER INFORMATION

To request a copy of the application and exhibits or for more details, call PG&E at 1-800-743-5000.

THE CPUC PROCESS

The CPUC's Division of Ratepayer Advocates (DRA) will review this application. The DRA is an independent arm of the CPUC, created by the Legislature to represent the interests of all utility customers throughout the state and obtain the lowest possible rate for service consistent with reliable and safe service levels. The DRA has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering. The DRA's views do not necessarily reflect those of the CPUC. Other parties of record will also participate.

The CPUC may hold evidentiary hearings where parties of record present their proposals in testimony and are subject to cross-examination before an Administrative Law Judge (ALJ). These hearings are open to the public, but only those who are parties of record may present evidence or cross-examine witnesses during evidentiary hearings. Members of the public may attend, but not participate in, these hearings. After considering all proposals and evidence presented during the hearing process, the ALJ will issue a draft decision. When the CPUC acts on this application, it may adopt all or part of PG&E's request, amend or modify it, or deny the application. The CPUC's final decision may be different from PG&E's application.

If you would like to learn how you can participate in this proceeding or if you have comments or questions, you may contact the CPUC's Public Advisor as follows:

**DECLARATION OF PUBLICATION OF PACIFIC GAS AND ELECTRIC
COMPANY'S NOTICE OF APPLICATION FILING**

No. A.12-04-009

I, Barbara Wichmann declare:

I am an Account Executive employed by ARTEMIA Communications, Inc., at 2001 Union Street, Suite 495, San Francisco, CA. I am responsible for working with Marilyn Walker of Pacific Gas and Electric Company (the Company) preparing the composition of the Notification of Pacific Gas and Electric Company's 2011 Market Redesign and Technology Upgrade (MRTU), Application No. A.12-04-009, and scheduling the earliest possible publication dates with the 55 newspapers in the Company's service territory.

When Marilyn Walker of the Company contacted me concerning the need to publish the notification of filing of Application A.12-04-009, I drafted the publishing schedule for the 55 newspapers (attached herewith). I faxed the attached schedule, for publication dates to Ms. Walker for approval. She notified me that the dates were acceptable, and I contacted the 55 newspapers to reserve the publication dates. I receive the proofs of publication from the 55 newspapers, within three to five weeks after publication, which I collect and then forward to Ms. Walker.

I declare under penalty of perjury that the foregoing is true and correct.

In San Francisco California, this 13th day of June 2012.

BARBARA WICHMANN

NOTICE OF APPLICATION OF PACIFIC GAS AND ELECTRIC COMPANY FOR RECOVERY OF COSTS OF THE 2011 MARKET REDESIGN AND TECHNOLOGY UPGRADE INITIATIVE

On April 16, 2011, Pacific Gas and Electric Company (PG&E) filed an application with the California Public Utilities Commission (CPUC) requesting changes to its electric rates effective January 1, 2013. Specifically, the request seeks to recover in rates the costs PG&E has incurred to comply with the mandated Market Redesign and Technology Upgrade (MRTU) initiative.

The MRTU initiative, which was developed by the California Independent System Operator and approved by the Federal Energy Regulatory Commission, was launched on March 31, 2009. The MRTU initiative changed the manner in which electricity is procured and sold by participants in newly redesigned markets in California. Costs presented in this application represent actual costs to implement the MRTU initiative that were incurred by PG&E through December 31, 2011.

The total electric revenue (the total amount PG&E collects in rates from all customers) requirement request is \$7.9 million. PG&E requests that electric rates designed to recover this amount become effective on January 1, 2013.

Will rates increase as a result of this application?

Yes, approval of this application will increase electric rates by less than one percent for bundled service customers (those who receive electric generation, as well as transmission and distribution service from PG&E) and for customers who purchase electricity from other suppliers (e.g., direct access and community choice aggregation). The revenue requirement of \$7.9 million will increase PG&E's bundled system average rates, relative to current rates, by 0.07 percent in 2013.

THE CPUC PROCESS

The CPUC's Division of Ratepayer Advocates (DRA) will review this application. The DRA is an independent arm of the CPUC, created by the Legislature to represent the interests of all utility customers throughout the state and obtain the lowest possible rate for service consistent with reliable and safe service levels. The DRA has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering. The DRA's views do not necessarily reflect those of the CPUC. Other parties of record will also participate.

The CPUC **may** hold evidentiary hearings where parties of record present their proposals in testimony and are subject to cross-examination before an Administrative Law Judge (ALJ). These hearings are open to the public, but only those who are parties of record may present evidence or cross-examine witnesses during evidentiary hearings. Members of the public may attend, but not participate in, these hearings. After considering all proposals and evidence presented during the hearing process, the ALJ will issue a draft decision. When the CPUC acts on this application, it may adopt all or part of PG&E's request, amend or modify it, or deny the application. The CPUC's final decision may be different from PG&E's application.

NOTICE OF APPLICATION OF PACIFIC GAS AND ELECTRIC COMPANY FOR RECOVERY OF COSTS OF THE 2011 MARKET REDESIGN AND TECHNOLOGY UPGRADE INITIATIVE (A.12-04-009)

On April 16, 2011, Pacific Gas and Electric Company (PG&E) filed an application with the California Public Utilities Commission (CPUC) requesting changes to its electric rates effective January 1, 2013. Specifically, the request seeks to recover in rates the costs PG&E has incurred to comply with the mandated Market Redesign and Technology Upgrade (MRTU) initiative.

The MRTU initiative, which was developed by the California Independent System Operator and approved by the Federal Energy Regulatory Commission, was launched on March 31, 2009. The MRTU initiative changed the manner in which electricity is procured and sold by participants in newly redesigned markets in California. Costs presented in this application represent actual costs to implement the MRTU initiative that were incurred by PG&E through December 31, 2011.

The total electric revenue (the total amount PG&E collects in rates from all customers) requirement request in A.12-04-009 is \$7.9 million. PG&E requests that electric rates designed to recover this amount become effective on January 1, 2013.

Will rates increase as a result of this application?

Yes, approval of this application will increase electric rates by less than one percent for bundled service customers (those who receive electric generation, as well as transmission and distribution service from PG&E) and for customers who purchase electricity from other suppliers (e.g., direct access and community choice aggregation). The revenue requirement of \$7.9 million will increase PG&E's bundled system average rates, relative to current rates, by 0.07 percent in 2013.
