SOUTHERN CALIFORNIA EDISON COMPANY’S (U 338-E) COMMENTS
SHOWING CAUSE WHY APPLICATION SHOULD NOT BE DISMISSED

After the Energy Division of the California Public Utilities Commission (Commission) directed Southern California Edison Company (SCE) on January 24, 2011, to submit an amended Proponent’s Environmental Assessment (PEA), SCE worked diligently to identify a new, feasible route. SCE has thoroughly vetted route options and discussed those options with relevant stakeholders such as the Western Riverside County Regional Conservation Authority. SCE has finalized a new, feasible route, and SCE today submitted a new project description and design, which appear in Chapters 2 and 3 of the PEA.

SCE has consistently apprised the Energy Division by voicemail and e-mail of its efforts to identify a new, feasible route. See, e.g., Ex. A: E-mail from Milissa Marona to Karen Ladd & Jensen Uchida (Mar. 24, 2011). SCE also communicated its plans to the Commission attorney working on the matter. SCE will continue to apprise the Energy Division of the status of the Alberhill System Project. SCE believes that the PEA is complete with the new project

description and design submitted today. Given today's submittal, SCE respectfully requests that the Administrative Law Judge not dismiss its application.

Respectfully submitted,

RUSSELL C. SWARTZ
BETH GAYLORD

Subject: Re: Alberhill - Public inquiry

Karen,

I'll check into what this is but rest assured we have not started any work on Alberhill. Although on a different note, we are planning a submittal of an alternative route 4/1.

Thanks, I'll get back to you as soon as I know what this is about.

Subject: Alberhill - Public inquiry

Milissa,

Jensen Uchida asked me to forward this message on to you so SCE can respond to the inquiry. Would you please take a look and let us know how to respond? Thanks.

Karen
