Pursuant to Executive Order N-29-20, paragraph 3, that was issued on March 17, 2020, Commissioners may participate remotely from teleconferencing locations. The public may observe, provide public comments during the public comment period, and otherwise participate remotely pursuant to the Bagley-Keene Open Meeting act as described below.

For each agenda item, a summary of the proposed action is included on the agenda as well as a link to the related electronic document. The Commission's decision may, however, differ from that proposed. Public Comments are taken up at the beginning of the meeting (10:00 a.m.).

To listen or make comments not to exceed three minutes by phone, dial 1-800-857-1917 and enter passcode 5628905. Alternatively, you may email brief written comments (which do not exceed three minutes when read aloud) to 05072020VotingMeeting@cpuc.ca.gov and our Public Advisor may read your comments out loud to the meeting if time permits. Written comments must be received prior to 10:00 a.m. to be read aloud. Comments that are not able to be read aloud, or are received after the deadline, will be circulated to the Commissioners. Individuals wishing to observe the meeting can do so by accessing our website at http://www.adminmonitor.com/ca/cpuc/

Cost Allocation of Caltrain Electrification Project

[18315]  
A.18-12-017  
Application of Pacific Gas and Electric Company to Describe Cost Allocation Principles  
Pursuant to Resolution E-4886.

PROPOSED OUTCOME:

- Approves with condition settlement agreement between Pacific Gas and Electric  
  Company (PG&E) and the Peninsula Corridor Joint Powers Board (Caltrain), for cost  
  allocation of work performed by PG&E to enable Caltrain to convert its passenger  
  rail service from diesel-powered to electric.
- Requires PG&E to seek a Commission finding of prudency before it may attribute  
  more than $83,368,740 to rate base – whether in Commission or Federal Energy  
  Regulatory Commission (FERC)-jurisdictional rates for costs incurred to complete  
  the project.
- Closes the proceeding.

SAFETY CONSIDERATIONS:

- There are no safety considerations associated with this decision.

ESTIMATED COST:

- There are no direct costs associated with this decision. PG&E would seek cost  
  recovery in a future general rate case at the Commission and a future transmission  
  owner rate case at the FERC.

19  Supplemental Funding for the Karuk Tribe California Advanced Services Fund Infrastructure Grant Application for the Klamath River Rural Broadband Initiative

RES T-17690

PROPOSED OUTCOME:

- Approves supplemental California Advanced Services Fund (CASF) funding of up to $10,820,150 for the Klamath River Rural Broadband Initiative project to deploy middle mile fiber infrastructure and last mile fiber infrastructure for broadband access to 616 unserved households and provide a resilient fiber backbone, respectively, in Humboldt County.

SAFETY CONSIDERATIONS:

- The CASF program encourages deployment of broadband throughout the State to enable the public to access Internet-based safety applications, telehealth services, access to emergency services, and to allow first responders to communicate with each other and collaborate during emergencies. Reliable broadband Internet service will promote public safety and play an important role in response and recovery from future fires.

ESTIMATED COST:

- The anticipated cost is $10,820,150 to the CASF Infrastructure Grant Account.

26 High Usage Charge Adjustment for the Large Electrical Corporations

[18356]
A.19-09-014
Application of San Diego Gas & Electric Company for Authority to Eliminate the Seasonal Differential in its Residential Rates Per Decision 19-04-018.

PROPOSED OUTCOME:

- Modifies the high usage charge of the large electrical corporations so that it is 25% of the Tier 2 price per kilowatt-hour to address increases in residential electricity usage related to the COVID-19 emergency.
- Orders the modification to stay in place at least until October 31, 2020.
- Orders the large electrical corporations to use their existing high usage charge notification systems for all customers with email addresses known to the large electrical corporation.

SAFETY CONSIDERATIONS:

- There are no safety considerations associated with this decision.

ESTIMATED COST:

- The amount of expected revenue that will not be collected by a reduced high usage charge is unknown; but could equal tens of millions of dollars.
- The decision orders the large electrical corporations to track this reduced high usage charge revenue collection and report to the Commission on the reduced revenue collection once the adjustment to the high usage charge ends.

Order Instituting Rulemaking to Continue Electric Integrated Resource Planning and Related Procurement Processes

PROPOSED OUTCOME:

- Continues the Commission's ongoing implementation of Public Utilities Code Sections 454.51 and 454.52 begun in Rulemaking (R.) 16-02-007. Integrated resource planning is conducted to ensure that the electricity sector meets its environmental obligations, including greenhouse gas targets for the years 2030 and 2045, while ensuring reliable electric service at reasonable cost.
- Similar to R.16-02-007, this proceeding will be divided into a planning track and a procurement track.

SAFETY CONSIDERATIONS:

- This new proceeding will be focused on ensuring safe and reliable electricity service that meets the State's environmental goals at least cost.

ESTIMATED COST:

- Electricity resources covered by the integrated resource planning process are expected to cost consumers approximately $45 billion annually by 2030. While this rulemaking does not yet require any specific procurement of electricity resources at this time, decisions expected from this proceeding will impact the amount and pace of procurement of resources to meet the electricity needs of electric load-serving entities under the Commission's purview.
