**PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA**

**Communications Division  
Carrier Oversight and Programs Branch**

**RESOLUTION T- 17272  
May 20, 2010**

**R E S O L U T I O N**

**Resolution T- 17272 Rescinding Resolutions T- 17229, T-17241, T-17245, T-17234, T-17224, T-17246 and T-17239 and Revoking California Advanced Services Fund Grant Awards for Broadband Projects Approved in These Resolutions**

---

**Summary**

This Resolution (1) rescinds Resolutions T- 17229, T-17241, T-17245, T-17234, T-17224, T-17246 and T-17239, all of which the Commission previously approved for the funding of projects under the California Advanced Services Fund, (2) disencumbers the allocated CASF matching funds approved for the broadband projects authorized in these resolutions, and (3) makes available the Census Block Groups (CBGs) approved in these projects to new applicants.

**Background**

**CASF Program**

On December 20, 2007, the Commission approved D.07-12-054 which established the two-year CASF program to provide matching funds of up to 40% of the total project costs for the deployment of broadband infrastructure in unserved and underserved areas in California.<sup>1</sup> Resolution T-17143, approved on June 12, 2008, adopted application requirements, scoring criteria for the award of funds, and a prescribed timeline for other filings and notifications including a projected Commission Meeting date for final approval of award(s).

---

<sup>1</sup> SB 1193 (Chapter 393, Stats. of 2008) established the California Advanced Services Fund as a new public purpose program.

D.07-12-054 limited the extension of CASF funding to:

- Entities with a Certificate of Public Convenience and Necessity (CPCN) that qualify as “telephone corporations” as defined in § 234 of the Public Utilities Code (PU Code);
- Wireless carriers registered with the Commission that have been granted a Wireless Identification Number (WIR);
- Entities who have pending applications for a CPCN; and
- A consortium with a member holding a CPCN or a WIR who will serve as the fiscal agent of the consortium (D.07-12-054 at pgs. 33-35, mimeo).

On July 9, 2009, the Commission issued D.09-07-020 establishing new schedules and plans for the filing, review and approval of an additional round of broadband project requests. This decision also provides the potential for the applicants to seek CASF program funding while pursuing funding for broadband deployment grants issued under the Recovery Act.<sup>2</sup> Also, because federal grants under Recovery Act can fund up to 80% of the project cost, D.09-07-020 allowed applicants to seek an additional 10% funding coverage from the CASF, leaving only 10% of the project cost for the applicant to provide.

On July 29, 2009, Governor Schwarzenegger signed Assembly Bill (AB) 1555 (Chapter 24, Statutes of 2009), amending Section 281 of the PU Code to expand CASF eligibility to any entity applying for CASF funding in conjunction with their Recovery Act funding request, provided that entity satisfies the eligibility requirement for CASF funding. AB 1555 also provides that the Commission establish requirements and guidelines for non-certificated applicants.

On October 29, 2009, the Commission approved Resolution T-17233 establishing application requirements and guidelines for non-CPUC certificated applicants and broadband providers applying for CASF grant money, in conjunction with an application for Recovery Act funding, to develop and deploy broadband infrastructure.

As of March 31, 2010, the Commission has granted CASF funding of \$87.11 million for 42 projects covering 28,741 square miles, benefiting 294,857 potential households. \$12.04 million has been approved for 17 unserved area projects covering 4,302 square miles to benefit 33,327 households, while \$75.07 million has been approved for 25 underserved areas covering 24,438 square miles, to benefit 651,530 households.

Of the 42 projects approved for CASF funding, 13 projects totaling \$65.81 million have been granted conditional approval (i.e., approval is dependent on the applicants’ securing Recovery Act funding for 80% of the broadband project’s cost).

---

<sup>2</sup> The American Recovery and Reinvestment Act (Recovery Act) appropriates \$7.2 billion for grants and loans to support national broadband deployment. The Recovery Act offers a unique and ground breaking opportunity for California to partner with the federal government and other state agencies in advancing the goal of bridging the digital divide.

### Recovery Act

On February 17, 2009, President Obama signed the Pub. Law No. 111-5, the American Recovery and Reinvestment Act, appropriating \$7.2 billion for the expansion of Broadband access to unserved and underserved communities across the U.S., increase jobs, spur investments in technology and infrastructure, and provide long-term economic benefits.

The Rural Utility Service (RUS) is responsible for \$2.5 billion for loans, loan guarantees, and grants through its the Broadband Initiatives Program (BIP). The National Telecommunications Information Administration (NTIA) is responsible for \$4.15 billion for broadband deployment, adoption, and mapping, and another \$650 million related to the digital television transition through its Broadband Technology Opportunities Program (BTOP). BIP will extend loans and grants for broadband infrastructure projects in rural areas while BTOP will provide grants to fund broadband infrastructure, public computer centers and sustainable broadband adoption projects.

NTIA and RUS have established two application rounds for filing Recovery Funds requests. The first round of applications were received on August 20, 2009 and NTI and RUS have completed their reviews and announced awards by sending sent out notices to both funded and non-funded applicants. NTIA and RUS have announced Notices of Funding for the second application round, with March 26 and 29 set as deadlines for the submission of applications for BTOP Comprehensive Community Infrastructure projects and BIP infrastructure projects, respectively.

In the first application round, the California Governor submitted a priority list of projects recommended for funding to NTIA and RUS. Unfortunately, only two CASF funded projects have been approved for funding under the Recovery Act's first round. CASF applicants who have been approved for 10% matching funds but have not submitted funding requests to NTIA or RUS have the opportunity to do so during the second application round and those who have been rejected during in the first application round have an opportunity to revise their application to conform with the new guidelines in the second round.

### **Discussion**

This Resolution rescinds seven Resolutions the Commission previously approved for CASF matching fund awards contingent on the approval of Recovery Act funding for these projects. These resolutions are rescinded for the following reasons:

- Applicants did not secure Recovery Act funding during the first round and did not apply for funding in the second round;

- Applicants decided not to pursue Recovery Act funding, whether for the first or second rounds; and/or
- Applicants decided to forgo the CASF funding and pursue the projects through other financing means.

By rescinding these resolutions, the Commission revokes the corresponding CASF grant, and the funds earmarked for these projects can now be made available to other applicants/grants. Likewise, the Commission will return the Census Block Groups (CBGs) allocated for these projects into the pool of unserved and underserved areas.

**Resolution T-17229 approved October 29, 2009**

Resolution T-17239 authorized contingent funding of \$ 2,247,308 for the Inyo Networks' Last Mile Broadband Project in Mono, Inyo and Kern Counties. The amount granted represents 10% of the project costs plus cost for Contribution in Aid of Construction (CIAC) to provide broadband service to underserved areas in accordance with Commission Resolution T-17143 and Decision (D.) 09-07-020. Inyo Networks, then, planned to request Recovery Act funding in the second round.

On March 25, 2010, Inyo Networks sent an email informing CD staff that Inyo Networks will no longer pursue Recovery Act funding for the Last Mile Project.

**Resolution T-17241 approved November 20, 2010**

Resolution T-17241 adopted \$9,500,864 CASF contingent funding for the Race Telecommunications (U-7060-C) Last Mile Project in Kern County. The amount granted represents 10% of the project cost in accordance with Resolution T-17143 and D.09-07-020.

On January 26, 2010, Race Communications informed CASF that their Recovery Act funding request for the project has been denied. Race also informed CASF staff that they will reconfigure their project to fit the Recovery Act's funding guidelines as provided for in the NTIA and RUS second round funding availability.

On April 1, 2010, Race Communications submitted two applications for CASF funding, one for 10% funding under Race Communications, Inc. and the other for 40% funding under Race Telecommunications, Inc, a Commission CPCN registered telephone company. Because these new applications are filed by two different entities, cover a relatively smaller area, and involve two different financing requests, CD considers these applications as a substantial change from the previously approved Last Mile Project in Kern County. As such, CD recommends the rescission of Resolution T-17241, revocation of the corresponding CASF funding, and release of the applicable CBGs. CD will review and process the new applications for potential Commission approved grants.

**Resolution T-17245 approved January 21, 2010**

This Resolution adopted \$7,893,700 CASF contingent funding for the California Valley Broadband (CVB) project, in seven county region of the Central Valley, which includes Sacramento, Solano, San Joaquin, Stanislaus, Merced, Madera, and Fresno counties. The amount granted represents 10% of the project costs to provide broadband service to unserved and underserved areas in accordance with Commission Resolution (Res.) T- 17143, T-17233 and Decision (D.) 09-07-020.

On March 31, 2010, CVB sent a letter informing CD staff that they have been disapproved for funding under the Recovery Act and are not resubmitting their application for funding for the project under the Recovery Act's second application round.

**Resolution T-17224 approved September 24, 2009**

This Resolution approved contingent funding of \$50,707 from the CASF for Frontier's Lookout unserved broadband project in Modoc County.

This project, however, was not submitted for funding under the Recovery Act's first application round. The applicant has advised CD staff that it will not pursue funding under the second application round and will not pursue the project using alternative means of financing.

**Resolution T-17224 approved October 20, 2009**

This Resolution adopted contingent funding of \$225,918 from the CASF fund for the Frontier Alturas Middle Mile Fiber broadband project in unserved and underserved areas in Lassen and Modoc Counties.

On January 12, 2010, Frontier sent a letter to the CD Director, informing him that Frontier is withdrawing plans to collect the approved CASF matching grant. Frontier no longer intends to seek Recovery Act funding, but it will complete the proposed broadband project using alternative means of financing.

**Resolution T-17246 approved December 17, 2009**

This Resolution adopted contingent funding of \$166,911 for the proposed Plumas-Sierra Telecommunications (PST) underserved Last Mile project in Lassen County. This grant was conditioned on receiving Recovery Act funding.

On April 12, 2010, PST confirmed that the PST Last Mile Application submitted in round one was not approved and PST did not re-submit the Last Mile Project in round 2.

**Resolution T-17239 approved January 21, 2010**

This Resolution adopted CASF contingent funding of \$18,012,964 for Broadband Associates International, Inc.'s (BBA) Northeastern California project in the Butte, Colusa, Glenn, Lake, Lassen, Modoc, Nevada, Plumas, Shasta, Sierra, Tehama, and Yuba Counties. The amount granted represents 10% of the project costs to provide broadband service to unserved and underserved areas in accordance with Commission Resolution T-17143 and Decision (D.) 09-07-020.

On April 13, 2010, BBA confirmed that their Northeastern California project submitted in the Recovery Act's round one application was not approved and BBA did not re-apply for funding under the second round.

Based on the Commission's contingent approval of the CASF funding for these projects, the Commission hereby rescinds these Resolutions pertaining to the CASF funding awards as discussed above. The CASF funds allocated to these projects are hereby unencumbered, and the CBGs for the above projects, except for Frontier's Alturas projects which will be constructed using alternative financing means, will be returned to the pool of unserved and underserved areas for reallocation to other applicants/grants. A summary of the funds disencumbered is shown in the table below:

<b>Resolution #</b>	<b>Applicant</b>	<b>Project</b>	<b>Amount</b>
T-17229	Inyo Networks	Last Mile Project	\$2,247,308
T-17241	Race Telecommunications	Last Mile Project	\$9,500,864
T-17245	California Valley Broadband	Middle Mile	\$7,893,700
T-17234	Frontier	Alturas	\$225,918
T-17224	Frontier	Lookout	\$50,707
T-17246	Plumas Sierra	Last Mile Project	\$166,911
T-17239	Broadband Associates	Northeastern California Project	\$18,012,964
<b>TOTAL FUNDING RESCINDED</b>			<b>\$38,098,372.00</b>

The list of CBGs made available for new CASF project proposals is shown in Appendix A.

As a result of rescinding these 7 resolutions, the Commission modifies the approved CASF funding level to form \$87.11 to \$49.01 million.

## Comments on Draft Resolution

In compliance with PU Code § 311(g), a notice letter was emailed on April 20, 2010 informing a) all CASF applicants filing under D.09-07-020, and b) parties on the service list of R.06-06-028 of the availability of the draft of this Resolution for public comments at the Commission's website <http://www.cpuc.ca.gov/static/documents/index.htm>. This letter also informed parties that the final conformed Resolution adopted by the Commission will be posted and will be available at this same website.

## Findings

1. The California Advanced Services Fund (CASF) was adopted in Decision (D.) 07-12-054.
2. The CASF was established as a two-year program that will provide matching funds of up to 40% of the total project costs for the deployment of broadband infrastructure in underserved and underserved areas in California.
3. Resolution T-17143, approved on June 12, 2008, adopts the application requirements and scoring criteria for the award of funds, a prescribed timeline for other filings, and notifications including a projected Commission Meeting date for final approval of award(s). T-17143 directed interested applicants seeking funding for underserved projects to file their project proposals and funding requests beginning July 24, 2008.
4. On July 29, 2009, Governor Schwarzenegger signed Assembly Bill (AB) 1555 (Chapter 24, Statutes of 2009), amending Section 281 of the PU Code to expand CASF eligibility to any entity applying for CASF funding in conjunction with their Recovery Act funding request
5. On July 9, 2009, the Commission issued D.09-07-020 approving a new CASF schedule and plan for an additional round of broadband projects that would complement broadband grants awarded under the federal government's American Recovery and Reinvestment Act (Recovery Act). While retaining the 40% matching grant process, the Commission in this Decision authorized providers an option of seeking a 10% grant from the CASF concurrent with efforts to seek an 80% grant from the Recovery Act fund.
6. As of March 31, 2010, CASF funding of \$87.11 million has been granted for 42 projects covering 28,741 square miles, benefiting 294,857 potential households. \$12.04 million has been approved for 17 unserved area projects covering 4,302 square miles to benefit 33,327 households, while \$75.07 million has been approved for 25 underserved areas covering 24,438 square miles, to benefit 651,530 households.

7. Of the 42 projects approved for CASF funding, 13 of the 42 projects totaling \$65.81 million have been granted conditional approval (i.e., approval is dependent on the applicants' securing Recovery Act funding for 80% of the broadband project's cost).
8. Seven of the projects approved through the Commission's resolution process for CASF matching fund awards should be rescinded based for the following reasons:
  - Applicants did not secure Recovery Act funding during the first round and did not apply for funding in the second round;
  - Applicants decided not to pursue Recovery Act funding, whether for the first or second rounds; and/or
  - Applicants decided to forgo the CASF funding and pursue the projects through other financing means.
9. Resolutions T- 17229, T-17241, 17245, T-17234, T-17224, T-17246 and T-17239 should be rescinded, the corresponding funding disencumbered and the appropriate Census Block Groups, except for the CBGs pertaining to Frontier's Alturas projects which will be constructed using alternative means of financing, be made available to other applicants/grants.
10. The amount of **!The Formula Not In Table** allocated to seven projects should be disencumbered and made available to other applicants as follows:

<b>Resolution #</b>	<b>Applicant</b>	<b>Project</b>	<b>Amount</b>
T-17229	Inyo Networks	Last Mile Project	\$2,247,308
T-17241	Race Telecommunications	Last Mile Project	\$9,500,864
T-17245	California Valley Broadband	Middle Mile	\$7,893,700
T-17234	Frontier	Alturas	\$225,918
T-17224	Frontier	Lookout	\$50,707
T-17246	Plumas Sierra	Last Mile Project	\$166,911
T-17239	Broadband Associates	Northeastern California Project	\$18,012,964
<b>TOTAL FUNDING RESCINDED</b>			<b>\$38,098,372.00</b>

11. A notice letter was emailed on April 20, 2010, informing a) all applicants filing for CASF funding and, b) parties on the service list of R.06-06-028 of the availability of the draft of this Resolution for public comments at the Commission's website <http://www.cpuc.ca.gov/static/documents/index.htm>. This letter also informed

parties that the final conformed Resolution adopted by the Commission will be posted and available at this same website.

**THEREFORE, IT IS ORDERED that:**

1. Resolutions T- 17229, T-17241, 17245, T-17234, T-17224, T-17246 and T-17239 are rescinded, the corresponding funding disencumbered and Census Block Groups listed in Appendix A are made available to other applicants/grants.
2. The amount of **!The Formula Not In Table** allocated to these seven Resolutions is disencumbered and made available to other applicants.

<b>Resolution #</b>	<b>Applicant</b>	<b>Project</b>	<b>Amount</b>
T-17229	Inyo Networks	Last Mile Project	\$2,247,308
T-17241	Race Telecommunications	Last Mile Project	\$9,500,864
T-17245	California Valley Broadband	Middle Mile	\$7,893,700
T-17234	Frontier	Alturas	\$225,918
T-17224	Frontier	Lookout	\$50,707
T-17246	Plumas Sierra	Last Mile Project	\$166,911
T-17239	Broadband Associates	Northeastern California Project	\$18,012,964
<b>TOTAL FUNDING RESCINDED</b>			<b>\$38,098,372.00</b>

This Resolution is effective today.

I hereby certify that this Resolution was adopted by the Public Utilities Commission at its regular meeting on May 20, 2010. The following Commissioners approved it:

---

PAUL CLANON  
Executive Director
