#### **Workshop Notice: Residential Energy Efficiency Whole House Workshop**

<p>June 11, 2009 10 am - 5 pm</p>	<p>California Public Utilities Commission 505 Van Ness Avenue, Auditorium (Corner of Van Ness Avenue and McAllister Street) San Francisco</p>
---------------------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------

#### **SCOPE OF WORKSHOP**

This workshop is designed to achieve 3 objectives:

1. To generate understanding about the opportunity CA has to rapidly change its residential program model.
  2. To identify the best role for utility programs given the many new market influences.
  3. To have parties debate the merits and weaknesses of an ED staff Straw Man proposal for an IOU prescriptive program to be implemented in parallel to the Home Energy Efficiency Survey and the Whole House Home Performance program.
- The CPUC has set a strategic goal of reaching all 13 million residential homes across the state with comprehensive home improvements by 2020. The IOUs each proposed a home performance program totaling \$13 million for 2009-2011 dedicated specifically to incubating the home performance industry through training, certification, outreach, education, and business coaching for contractors. Simultaneous to these efforts in California, comprehensive home performance for our nation's entire stock of 127 million existing residential homes has become a serious focal point of attention by the Obama administration's American Recovery and Reinvestment Act (ARRA). Rapid ramp-up of capacity within the home performance industry as desired by the California Energy Efficiency Strategic Plan (CEESP) is in line with the energy and job creation goals of the ARRA.

The long term objective in the CEESP for existing homes is clearly written as Residential Chapter Goal 2: "Transform home improvement markets to apply whole-house energy solutions to existing homes." ED has developed a draft "Short Term IOU Objective" that responds to the convergence of market influences and the opportunities they may provide.

"Capitalize on the coincidence of a new program cycle and state and federal attention to build robust market demand for home performance while providing the industry with the support necessary to provide effective market delivery."

To support this short term objective, and given the uncertain future in this market, ED is considering following the carefully crafted policy direction within the Retrofit for Energy and Environmental Performance (REEP) language within the Waxman/Markey legislation. Specifically, this means implementing within 2009-2011 both a prescriptive program and a performance-based program to whole house retrofits.

The ED staff Straw Man proposal for an IOU prescriptive program attempts to marry the dual path approach to market transformation envisioned in the REEP language to the Home Energy Efficiency Survey (HEES) and the Whole House Home Performance (WHHP) program. The Straw Man proposal will be sent to parties prior to the workshop for review. At the workshop, a panel of experts will present their thoughts on the proposal and engage in moderated discussion with parties.

**Workshop Notice: Energy Efficiency Finance**

June 15, 2009  
10 am – 4 pm

Southern California Gas Company Energy Resource Center  
9240 Firestone Boulevard  
Downey

**SCOPE OF WORKSHOP**

The goals of the workshop are to (1) understand the financing mechanisms the investor-owned utilities (IOUs) have proposed for 2009-2011, and (2) explore how IOUs and their ratepayer-funded energy efficiency programs should best interface with the financing of energy efficiency retrofits in residential, small commercial, and institutional buildings. Depending on the needs and challenges workshop participants identify, the discussion could involve lending mechanisms themselves, or energy audits, diagnostics, savings assurance, or other “due diligence” activities that non-utility lenders might look to before completing efficiency loans -- such as through AB811 districts or other mechanisms.

The workshop will focus on residential topics in the morning, and on-bill financing for small business and institutional customers in the afternoon. A call-in telephone number and gotowebinar URL will be provided with the agenda, which is available at this time. For additional information about the workshop, please contact Jean Lamming at [jl2@cpuc.ca.gov](mailto:jl2@cpuc.ca.gov) or 415-703-2142.

**BACKGROUND**

D.07-10-032, Interim Opinion on Issues Relating to Future Savings Goals and Program Planning for 2009-2011 Energy Efficiency and Beyond, dated October 18, 2007, asked IOUs to take certain actions regarding on-bill financing. **Workshop Notice: Energy Efficiency Lighting Issues**

June 16, 2009  
9 am – 5 pm

California Public Utilities Commission  
505 Van Ness Avenue, Hearing Room A  
(Corner of Van Ness Avenue and McAllister Street)  
San Francisco

**SCOPE OF WORKSHOP**

The Lighting workshop will give participants an opportunity discuss and consider issues related to lighting in the 2009-2011 energy efficiency portfolios of Southern California Edison Company, Pacific Gas and Electric Company, Southern California Gas Company, and San Diego Gas & Electric Company. This workshop will address how lighting strategies and goals, as outlined in the California Long-Term Energy Efficiency Strategic Plan, can be achieved in the context of the IOUs’ 2009-11 applications.

The workshop will aim to facilitate a shared understanding of key aspects of the lighting components of utility energy efficiency programs. It is hoped that workshop participants will come to a consensus on the extent to which California’s market for bare spiral CFLs (medium screw) base has been transformed and what remaining utility incentives are needed, if any. The workshop will explore options for scaling up specialty CFLs and other advanced lighting solutions in the 2009 – 2011 period and the specific methods for doing so, including the incentive strategy, delivery strategy, measure mix and delivery channels. Disposal issues raised by CFL mercury contents will also be discussed as time permits.

An agenda for the workshop will be provided by Energy Division before June 16, 2009. A call-in telephone number and gotowebinar URL will be provided with the agenda. For additional information about the workshop, please contact: Johanna Sevier at [msj@cpuc.ca.gov](mailto:msj@cpuc.ca.gov) or (415) 703-1816.

**Workshop: Industrial EE and Continuous Energy Improvement Programs (A.08-07-021)**

June 18, 2009  
9 am - 4 pm

California Public Utilities Commission  
505 Van Ness Avenue, Golden Gate Room  
(Corner of Van Ness Avenue and McAllister Street)  
**San Francisco**

The California Energy Efficiency Strategic Plan (CEESP) was released in September 2008 by the CPUC. Specific to the industrial sector, the CEESP contained a strategic objective of a continuous energy improvement (CEI) program. The IOUs have proposed a CEI program targeted to the industrial and agricultural sectors within the state-wide implementation plans filed in the 2009-2011 Energy Efficiency portfolio. CPUC Energy Division staff is hosting a workshop to obtain stakeholder input and guidance on implementation of the CEI.

The purpose of the workshop is to facilitate a dialogue towards recommendations to improve existing plans, generate new ideas, and potentially create opportunities for on-going collaboration.

The workshop will cover the following topics:

- Present and review the filed IOU implementation plans for the CEI program
- Present and review the preliminary results of the industrial EM&V results
- Review energy efficiency potential for the industrial sector
- Examine CEI programs in other jurisdictions and best practices
- Explore opportunities to integrated resource efficiency through AB32
- Discuss and prepare stakeholder feedback, input, and recommendations

For questions about this workshop please contact Lisa Paulo at 415-355-5495 or [LP1@cpuc.ca.gov](mailto:LP1@cpuc.ca.gov).

**Workshop Objective**

This workshop will explore issues raised by the recent Energy Division white paper, “Proposed Energy Efficiency Risk-Reward Incentive Mechanism and EM&V Activities” (See link below) regarding performance metrics:

([https://webserver.cpuc.ca.gov/exchweb/bin/redir.asp?URL=http://www.cpuc.ca.gov/NR/rdonlyres/A51D61E2-DF03-4D9B-BFDB-221109638165/0/ProposedEnergyEfficiencyRiskRewardIncentiveMechandEM\\_VActivities.pdf](https://webserver.cpuc.ca.gov/exchweb/bin/redir.asp?URL=http://www.cpuc.ca.gov/NR/rdonlyres/A51D61E2-DF03-4D9B-BFDB-221109638165/0/ProposedEnergyEfficiencyRiskRewardIncentiveMechandEM_VActivities.pdf)).

The workshop will aim to obtain Party feedback on an objective introduced in that paper – the idea of “the evaluation of the IOU’s portfolios of activities for the purpose of measuring performance relative to established performance metrics.” It will cover the following topics:

1. Sharing and discussing examples of metrics currently proposed by utilities for the 2009 – 2011 program cycle.
2. Obtaining stakeholder feedback on the definition and purpose of energy efficiency program performance metrics.
3. Obtaining stakeholder feedback on necessary criteria for energy efficiency program performance metrics.
