PUBLIC MEETINGS & WORKSHOP NOTICES

Workshop Notice: Energy Efficiency Finance

June 15, 2009
10 am – 4 pm

Southern California Gas Company Energy Resource Center
9240 Firestone Boulevard
Downey

SCOPE OF WORKSHOP

The goals of the workshop are to (1) understand the financing mechanisms the investor-owned utilities (IOUs) have proposed for 2009-2011, and (2) explore how IOUs and their ratepayer-funded energy efficiency programs should best interface with the financing of energy efficiency retrofits in residential, small commercial, and institutional buildings. Depending on the needs and challenges workshop participants identify, the discussion could involve lending mechanisms themselves, or energy audits, diagnostics, savings assurance, or other “due diligence” activities that non-utility lenders might look to before completing efficiency loans -- such as through AB811 districts or other mechanisms.

The workshop will focus on residential topics in the morning, and on-bill financing for small business and institutional customers in the afternoon. A call-in telephone number and gotowebinar URL will be provided with the agenda, which is available at this time. For additional information about the workshop, please contact Jean Lamming at jl2@cpuc.ca.gov or 415-703-2142.

BACKGROUND

D.07-10-032, Interim Opinion on Issues Relating to Future Savings Goals and Program Planning for 2009-2011 Energy Efficiency and Beyond, dated October 18, 2007, asked IOUs to take certain actions regarding on-bill financing. Workshop Notice: Energy Efficiency Lighting Issues

June 16, 2009
9 am – 5 pm

California Public Utilities Commission
505 Van Ness Avenue, Hearing Room A
(Corner of Van Ness Avenue and McAllister Street)
San Francisco

SCOPE OF WORKSHOP

The Lighting workshop will give participants an opportunity discuss and consider issues related to lighting in the 2009-2011 energy efficiency portfolios of Southern California Edison Company, Pacific Gas and Electric Company, Southern California Gas Company, and San Diego Gas & Electric Company. This workshop will address how lighting strategies and goals, as outlined in the California Long-Term Energy Efficiency Strategic Plan, can be achieved in the context of the IOUs’ 2009-11 applications.

The workshop will aim to facilitate a shared understanding of key aspects of the lighting components of utility energy efficiency programs. It is hoped that workshop participants will come to a consensus on the extent to which California’s market for bare spiral CFLs (medium screw) base has been transformed and what remaining utility incentives are needed, if any. The workshop will explore options for scaling up specialty CFLs and other advanced lighting solutions in the 2009 – 2011 period and the specific methods for doing so, including the incentive strategy, delivery strategy, measure mix and delivery channels. Disposal issues raised by CFL mercury contents will also be discussed as time permits.

An agenda for the workshop will be provided by Energy Division before June 16, 2009. A call-in telephone number and gotowebinar URL will be provided with the agenda. For additional information about the workshop, please contact: Johanna Sevier at msj@cpuc.ca.gov or (415) 703-1816.

Workshop: Industrial EE and Continuous Energy Improvement Programs (A.08-07-021)

June 18, 2009
9 am - 4 pm

California Public Utilities Commission
505 Van Ness Avenue, Golden Gate Room
(Corner of Van Ness Avenue and McAllister Street)
San Francisco

The California Energy Efficiency Strategic Plan (CEESP) was released in September 2008 by the CPUC. Specific to the industrial sector, the CEESP contained a strategic objective of a continuous energy improvement (CEI) program. The IOUs have proposed a CEI program targeted to the industrial and agricultural sectors within the state-wide implementation plans filed in the 2009-2011 Energy Efficiency portfolio. CPUC Energy Division staff is hosting a workshop to obtain stakeholder input and guidance on implementation of the CEI.

The purpose of the workshop is to facilitate a dialogue towards recommendations to improve existing plans, generate new ideas, and potentially create opportunities for on-going collaboration.

The workshop will cover the following topics:

- Present and review the filed IOU implementation plans for the CEI program
- Present and review the preliminary results of the industrial EM&V results
- Review energy efficiency potential for the industrial sector
- Examine CEI programs in other jurisdictions and best practices
- Explore opportunities to integrated resource efficiency through AB32
- Discuss and prepare stakeholder feedback, input, and recommendations

For questions about this workshop please contact Lisa Paulo at 415-355-5495 or LP1@cpuc.ca.gov.
