R.08-01-025 Workshop: 2010 Resource Adequacy Guides and Templates Workshop

July 27, 2009
10 am – 12 noon

WebEx only

Login and connection information will be provided 3 days before workshop.

Energy Division held a workshop in this proceeding via WebEx and in San Francisco on Friday, July 10, 2009. Due to technical difficulties, the WebEx feature did not function, and those that had logged in were unable to participate. Energy Division is scheduling a replacement workshop facilitated solely via WebEx with no meeting room provided in San Francisco.

The workshop will generally address the 2010 guides and templates used for Resource Adequacy compliance, and parties are encouraged to assemble questions related to the mechanics of the filings and bring them to the workshop so Energy Division can answer them. Compliance filing procedures in 2010 will be very similar to 2009, but those staff that are new to the Resource Adequacy filing process are strongly encouraged to participate. Energy Division will also devote time in this workshop to discussing the use of the Load Impact Protocols as Qualifying Capacity counting conventions for Demand Response resources.

Please find attached slides presented at the workshop on July 10, a revised Load Impact Framework, and a revised workshop agenda for use in the July 27 rescheduled WebEx session. The attached slides and Load Impact Framework have been slightly revised to reflect feedback during the July 10 workshop. Other materials, such as 2010 templates and guides, are unchanged and will not be resent. Please disregard the previous WebEx information, and do not attempt to use the meeting number and password. Updated WebEx information will be provided to the service list at least 3 days in advance of the workshop. Thank you all very much for your patience and cooperation.

Please contact Donald Brooks at 415.703.2626 or dbr@cpuc.ca.gov for more information on the workshop.

July 28, 2009
9:30 am – 5 pm

California Energy Commission
1516 Ninth Street, Hearing Room A (first floor)
Sacramento

The California Energy Commission’s (CEC) 2009 Integrated Energy Policy Report (IEPR) Committee, in conjunction with representatives of the California Public Utilities Commission (CPUC) and the California Independent System Operator (CAISO), will conduct a workshop to present the joint energy agency proposal on implementation of once-through cooling (OTC) mitigation through energy infrastructure planning and procurement. This proposal was submitted to the State Water Resources Control Board (SWRCB) for their use in developing a policy to mitigate harm from OTC. The SWRCB’s draft OTC policy was released on June 30, 2009. This workshop is also noticed as part of the CEC’s 2009 IEPR docket. An agenda will be posted on the CEC’s 2009 IEPR documents webpage: www.energy.ca.gov/2009_energypolicy/documents/index.html. Copies of the joint energy agency proposal will be attached to a forthcoming joint agency staff paper to be posted on the 2009 IEPR documents webpage.

Exec 001  
This resolution adopts with some modifications the proposals of K&L Gates to streamline the verification process currently in place for woman-, and minority suppliers who choose to do business with utilities subject to the General Order
156. Decision (D) 06-08-031 and CSID-001 revised certain rules that allow for a utility-formed entity to operate (or contract for the service) to certify businesses to supply goods and services to California’s regulated utilities. The Commission maintains oversight of the rules that govern these processes and is the venue for suppliers to appeal Clearinghouse or Joint Utility decisions. D06-08-031 and CSID-001 also reiterated certain verification and certification language in response to various utility proposals. This Resolution supersedes Resolution CSID-001 and substantially modifies the comparable agency verification policies the Commission adopted in D06-08-031. **Approved as set forth.**

**E-4233**
San Diego Gas & Electric Company (SDG&E) Advice Letter (AL) 2036-E, AL 1813-G filed on November 3, 2008 and Southern California Gas Company (SoCalGas) AL 3916-G filed on November 3, 2008. This resolution denies SDG&E and SoCalGas' requests for authorization to pay a capitation fee to outreach organizations for low income customer enrollments in the Low Income Energy Efficiency program. **Approved.**

**E-4246**

(2) Approves in part and rejects in part, with modification, the methodology and data sets proposed by the utilities.

**ESTIMATED COST:**
This resolution adopts a specific cost formula for QF contracts. Art of the formula involves utilizing future market price indices, such that the cost impact of this decision, in aggregate, is difficult to predict, either in direction or magnitude. **Approved as set forth.**

**E-4254**
Advice Letter 372-E filed by PacifiCorp dba Pacific Power (PacifiCorp) on December 24, 2008.

**PROPOSED OUTCOME:**

(2) This transaction will result in the Soda Springs Property no longer being used by the Company. The land is located west of Soda Springs, Idaho.

**ESTIMATED COST:**
