9:30 am - 4:30 pm

California Public Utilities Commission
505 Van Ness Avenue, Auditorium
(Corner of Van Ness Avenue and McAllister Street)

Through various efforts, stakeholders have identified a number of challenges that impact both project developers and grid operators as increasing volumes of renewable DG attempt to interconnect to the grid. As a result, the CPUC's Energy Division is forming Re-DEC, a working group that will bring together utility grid operators, renewable DG project developers, and renewable DG technology experts to better understand the challenges associated with interconnecting renewable energy at the distribution grid. This kick-off meeting will seek to identify the most critical interconnection challenges in the near term and initiate a discussion to develop solutions. In order to achieve meaningful results, Re-DEC will require a commitment from participants to attend this initial kick-off and subsequent meetings. Please RSVP to confirm your attendance, whether you are participating in person or off-site: <https://ia.cpuc.ca.gov/redec/>.

For those not able to attend in person, the CPUC will be providing off-site participation, either through a conference line or web access, which will be provided to all who RSVP. Off-site attendees will be able to listen to the meeting, but will not be able to verbally participate in the discussion. WORKSHOP INFORMATION:

The 2008 Long-term Procurement Plan (LTPP) proceeding (R.08-02-007) is considering refinements to resource planning practices including methodologies, inputs and assumptions to assess feasible implementation of a 33% RPS. In June 2009, the CPUC's Energy Division released a 33% RPS Implementation Analysis Preliminary Report, which provided a possible framework for RPS planning analyses in the LTPP. Parties provided valuable comments to preliminary study, which staff plans to incorporate in updates to the study as an input to the 2010 LTPP proceeding. The purpose of this two-day workshop is to discuss anticipated direction for the 2010 LTPP proceeding; review parties' technical comments on the June 2009 report; and begin the process of refining of the RPS study methodologies, inputs and assumptions.

For more information on the 2008 LTPP, go to:
