Workshop Notice - Joint Natural Gas Market Workshop of California Public Utilities Commission and California Energy Commission

December 9, 2003
9am – 5pm

and

December 10, 2003
9am – 5pm

Hiram W. Johnson State Office Building
455 Golden Gate Avenue, Auditorium
San Francisco

The California Public Utilities Commission (CPUC) and the California Energy Commission (CEC) will be hosting a Joint Workshop entitled “Natural Gas Market Outlook, 2006-2016” at the State Building Main Auditorium located at 455 Golden Gate Avenue in San Francisco. The workshop will address California’s future natural gas needs and we are seeking speakers from industry, consumer groups, staff of governmental agencies or other interested parties. The workshop is not intended to be a formal proceeding, but will be informative on very important issues to California. The staffs of the CPUC and the CEC have prepared an agenda for the topics to be discussed at this workshop. The agenda can be found on the CPUC and the CEC’s websites. The CPUC and CEC staff are currently soliciting speakers to participate on each of the panels and are

hoping to have a cross-section of speakers representing various perspectives of the industry, consumer groups, government agencies and other interested parties. If your organization is interested in participating, please send an email to both of the following staff members of the CPUC and CEC by November 14, 2003:

Wendy Maria Phelps CPUC Energy Division Email: wmp@cpuc.ca.gov Telephone: (415) 703-2311	Jairam Gopal CEC Natural Gas and Special Projects Office Email: jgopal@energy.state.ca.us Telephone: (916) 654-4880
--	---

The workshop will be open to the public. Based upon what we learn at this workshop, the CPUC intends to issue an Order Instituting Rulemaking or an Order Instituting Investigation in early 2004, which would address some of the matters discussed at the workshop and would culminate by the end of the year with a decision affecting natural gas supply and infrastructure issues for California investor-owned energy utilities under the CPUC's jurisdiction. The CEC staff will use this information to update their natural gas outlooks and provide a foundation for future energy policy recommendations to the CEC that can be considered in future updates to the Integrated Energy Policy Report. Both agencies are conducting this effort to help implement the previously adopted Energy Action Plan.

Workshop Notice - R.01-08-028 Order Instituting Rulemaking to Examine the Commission's Future Energy Efficiency Policies, Administration and Programs "Customer Needs" Workshop

State Building, 455 Golden Gate Avenue
San Francisco

This is the second in a series of workshops designed to inform the Commission about setting the energy-saving goals and long-term policy framework for energy efficiency in California. Discussion will focus on the barriers energy users face in fully utilizing energy efficiency measures and thus achieving potential energy savings. The CPUC would also like to hear about possible ways to overcome these barriers. CPUC will select workshop presenters from the organizations and individuals that file comments by December 5th. The workshop is open to the public and will include time for discussion and comments and as such, the CPUC encourages all interested groups to attend. Participants are likely to include small businesses, local governments, commercial and industrial businesses, manufacturers, retailers and residents. All interested groups are encouraged to file pre- and post-workshop comments, regardless of their ability to attend the Workshop on December 15. Panzino described the hardships that the extreme spikes in natural gas rates during the winter of 2000-2001 inflicted on the citizens of the County. Panzino stated that the County has continued to participate

actively in Southwest rate proceeding in order to ensure that Southwest's rates are not higher than necessary. Also present was Lee-Whei Tan, Regulatory Analyst V, for ORA. 11/18/03 A03-06-040 Southern California Gas Company (U 904-G), in compliance with Resolution G-3334 for a System of Firm, Tradable Receipt Point Capacity Rights and related provisions.

Summary: LATE FILED. On November 12, 2003, Leslie Katz, Regional Vice President, Regulatory Affairs, Southern California Gas Company (SoCalGas), met with Roosevelt Grant, advisor to Pres. Peevey, in San Francisco. Also present was Rick Morrow, Vice President, Customer Service for Major Markets, SoCalGas; and Jeff Hartman, Director, Energy Markets and Capacity Products, SoCalGas, participated by telephone. Katz stated that a petition for modification to essentially vacate the decision approving the comprehensive settlement agreement (CSA) is pending. Katz explained that the CSA establishes a system of firm tradable transmission rights and that the value of a statewide system of firm rights for energy consumers remains. Morrow pointed out that under the CSA, SoCalGas is at risk for throughput, but that is contrary to the post-crisis policy encouraging conservation. Morrow pointed out that the parties seem incapable of reaching agreement on what modifications, if any, should occur with respect to the CSA to reflect changed circumstances.
